

Bank of the Universe

Chapter 571: Supreme Formation!

The thirty thousand strong Guards Army that Emperor Beiqiu led had totally failed. In Heaven Sky, under the gaze of numerous people, they were forced back by the Burning Legion with no way to fight back at all. It was a massacre.

When Emperor Beiqiu saw that, his heart was dripping blood and his eyes flashed red.

He was filled with hate...

Damn Li Xiandao, damn Celestial Gate, damn Nine Skies and Ten Lands, damn, damn, damn...

Emperor Beiqiu was filled with grievances and that was a contrast to how cold Li Xiandao was.

Standing in front of the Celestial Gate, Li Xiandao was the one in charge.

It was impossible to escape from his side.

Under the attacks of the Burning Legion, Celestial Dynasty's Guards Army totally collapsed.

They died one by one and were killed by those Flame Kings. Fresh blood scattered in the sky and turned the area around the Celestial Gate into a blood dyed battlefield.

Each living breath would have many Celestials dying. In the past the celestials who the people from Nine Skies and Ten Lands felt were really strong seemed like cabbage in the ground. With a simple slice, they all died.

Those scenes were really gory but it was really delightful too. The supreme celestials fell back to earth just like that.

As more and more Celestials were killed, the more silent the experts from Nine Skies and Ten Lands were. Emperor Beiqiu gritted his teeth, his grievances and hatred wouldn't be washed away by any river or lake.

When the 30 thousand celestials, the 30 thousand Guards Army were all killed, Heaven Sky was totally silent.

Heaven Sky was totally silent and the area in front of Celestial Gate was silent too. Emperor Beiqiu was expressionless. The killing energy on his body was really heavy and really terrifying.

“Li Xiandao, unless you don’t want to ascend in your life, I will stare at you from here. You can spend your entire life in the Nine Skies and Ten Lands and be your small ruler. If you have a slight mess up, I will slice you up into pieces.” Emperor Beiqiu shouted from deep within his heart. His voice was bleeding, this was the blood of hatred.

Emperor Beiqiu had seen Li Xiandao as his biggest enemy. If he didn’t kill him, he wouldn’t be able to vent the hatred in his heart.

Li Xiandao just smiled calmly and said in disdain, “For you to want to trap me here, you really must be fantasising.”

“I don’t need to trap you here in Nine Skies and Ten Lands. I just need you to stare at Celestial Gate for any moment. If you are not careful, my men will sneak in. You will let your guard down and you will grow old.” Emperor Beiqiu said coldly. Killing intent was obvious in his eyes as he stared at Li Xiandao.

His confidence was him telling Li Xiandao that as long as he relaxed, what welcomed him was a gory storm.

Li Xiandao smiled. He was quite happy and said, “I considered your words so I decided to add a lock to the Celestial Gate.”

Lock?

Emperor Beiqiu frowned and looked at Li Xiandao solemnly. He was really afraid of Li Xiandao. He had to think carefully about everything that Li Xiandao said.

If this was the past, he would have scolded him without any hesitation. What nonsense, a lock?

What nonsense!

You are strong enough?

But now, his first reaction was to believe him. What lock did he want to add, what was Li Xiandao planning?

This change shocked Emperor Beiqiu. Li Xiandao brought him too many surprises and shock. He questioned, “What are you trying again?”

Li Xiandao clapped, “I am not the one this time.”

Hong!

The Book of War flew beside Li Xiandao and laughed out loud, "Now, it is my turn to show all of you what is a top formation."

Book of War was really excited. He saw how the Burning Legion he brought up single handedly was so strong and he was really proud. His voice was really loud and confident.

"Top killing formation?" Emperor Beiqiu was shocked.

"Right, a formation that can eat people up. It is really terrifying. The prerequisite is for ten thousand Celestials to die." Book of War said loudly.

Emperor Beiqiu's eyes flashed coldly and he scolded, "You are using their corpses to deal with me?"

"No, not you." Li Xiandao shook his head in disdain, "You are not worth me using ten thousand celestial corpses to deal with."

"What I want to deal with is every celestial who wants to come down!" A cold glow flashed in Li Xiandao's eyes.

Emperor Beiqiu's body shook. He was shocked at Li Xiandao's courage and also his strength.

"You are becoming enemies with the entire Celestial World." But Emperor Beiqiu came back to his senses and scolded.

"Even if that is the case, I don't care." Li Xiandao said coldly.

"Nine Skies and Ten Lands belongs to us and not your Celestial World. Once this formation is laid out, only people from Nine Skies and Ten Lands can ascend, those who come down will die!" Li Xiandao announced to the entire world.

Although this formation couldn't restrict the extremely strong experts in Celestial World, why would they want to enter Nine Skies and Ten Lands?

It didn't help them at all, instead their cultivation would be suppressed and they would suffer losses.

So apart from them, for other Celestials to enter, they would pay the price of their lives.

"You... You... You are mad. You are setting up laws? Who are you? You are just a slightly stronger Nine Skies and Ten Lands trash! !!" Emperor Beiqiu was shocked by Li Xiandao. He raged and scolded Li Xiandao.

A small Nine Skies and Ten Lands trash dared to set up rules for Celestials?

The rules weren't for one celestial but the celestials of the entire Celestial World!

Preposterous!

What nonsense!

Nonsense!

Li Xiandao looked at the fuming Emperor Beiqiu and smiled happily, "I am more certain that I am right seeing how angry you are. One needs to be wary of enemy's praises but the enemy's rage shows that I am right and I am hitting you where it hurts."

After saying that, Li Xiandao didn't bother to look at Emperor Beiqiu. He said towards the Book of War, "Start to lay out the formation. The 30 thousand corpses are enough, right?"

"No problem, it is already exceeding what I need. With these 30 thousand corpses, I can increase its strength by ten times." Book of War said confidently.

"Okay, you may begin." Li Xiandao nodded his head satisfied and said.

Book of War spread out an enormous power and started to draw up patterns all around. At the same time, he ordered the Burning Legion to move the corpses close to ensure the completeness of the formation.

Apart from making Emperor Beiqiu angry, the changes also sent the people from Nine Skies and Ten Lands into total silence.

Celestial Gate was closed, people could only ascend and not head down. The shock was indescribable.

Celestials couldn't head down anymore.

Nine Skies and Ten Lands belonged to people from Nine Skies and Ten Lands.

Chapter 572: Reward!

Hong long long!

A giant formation wrapped around the Celestial Gate.

The formation was blood red in color but it didn't pierce the eye. It was the blood red color that brought one hope.

To the Nine Skies and Ten Lands, this was a huge change. It changed the truth that Nine Skies and Ten Lands would be enslaved by the Celestial World and it also meant that they could have their own lives.

Since they couldn't change their positions then there was no need to force it. Slicing up Nine Skies and Ten Lands and Celestial World was a good chance.

From now onwards, from today, Celestial World's hands weren't able to stretch into Nine Skies and Ten Lands.

People from Nine Skies and Ten Lands looked up at the giant formation wrapping around the Celestial Gate. Who knew what they were thinking.

Conflicted!

They then looked at the cold-faced Li Xiandao, everyone was shocked by him.

No matter whether or not Li Xiandao was right to add the formation on the Celestial Gate, he changed Nine Skies and Ten Lands.

He was shouting out towards the Celestial World such that the normal Celestials weren't able to step foot in the Nine Skies and Ten Lands. This was a huge change.

Heroes were able to do things that normal people couldn't.

At that moment, Li Xiandao was a hero!

...

Li Xiandao who always called himself a merchant was actually a hero now. One had to say that it was a confusing ending.

"Master the formation is completed but we lack a core treasure." Book of War shouted.

Li Xiandao looked at the giant formation that wrapped around the 30 thousand corpses. The middle was being suppressed by the Book of War.

But the Book of War couldn't continue, it still needed to continue training the Burning Legion.

So it needed a strong treasure to suppress it.

This treasure could only be a Celestial Artifact and it had to be a strong one.

Li Xiandao looked towards Emperor Beiqiu.

“What are you looking at me for?” Emperor Beiqiu was furious by that and shouted.

“I just want to thank you for your Celestial Artifact.” Li Xiandao said calmly.

Emperor Beiqiu was stunned, thank him for his celestial artifact?

What did he mean?

When Li Xiandao took out the Celestial Artifact, Emperor Beiqiu wanted to spit out blood. his face started to twist.

Gate of Two Worlds!

Li Xiandao took out the high quality Gate of Two Worlds and tossed it to Book of War.

Hong long long!

At that moment, the formation exploded and activated. it was really beautiful, the blood red light wrapped up the Celestial Gate.

From now onwards, people from Nine Skies and Ten Lands could ascend but people from the Celestial World couldn't come down.

Li Xiandao completed his goal.

“This is a high quality celestial artifact that Emperor Beiqiu gave us. Activate the formation and let it form. Thank you Emperor for your kindness.” Li Xiandao laughed out loud.

Pu!

Emperor Beiqiu spat out a mouthful of blood. His injuries that he tried to suppress were getting worse. He said viciously, “Li Xiandao we aren't done. You win today but let's see what happens when you come to Celestial Dynasty. Celestial Dynasty won't let you off.”

After saying that, Emperor Beiqiu left right away and returned to the Celestial World. He knew that things were already done and no one could do anything to Li Xiandao in the Nine Skies and Ten Lands. He was invincible.

So he left and waited for his chance. once Li Xiandao flew to the Celestial World, he would deal him a fatal blow.

Emperor Beiqiu believed that Li Xiandao wouldn't spend too much time in the Nine Skies and Ten Lands. He was invincible in the Nine Skies and Ten Lands and would definitely ascend.

"Once you do, this will be when I torture you. At that time, I will show you how terrifying Celestial Dynasty is." Emperor Beiqiu scoffed coldly.

...

Li Xiandao looked on as Emperor Beiqiu left. He knew that the difficulties were over.

The 30 thousand army that came from Celestial Dynasty was defended against. Now the formation was activated too. He looked at it in satisfaction before stepping back into the Bank of the Universe.

Li Xiandao disappeared. He left right after the matter ended, hiding his identity and his name.

After leaving, Book of War brought the Burning Legion away too.

As for Li Xiandao's subordinates, they swept all the celestials' treasures and disappeared too.

The entire space was empty. Only the blood red formation and also the open Celestial Gate.

But a few minutes later, the Celestial Gate was hidden in space too. Only those who had reached the Ascension Realm could find it.

At that moment, many were tempted to find the Celestial Gate.

They had not much time. If they didn't ascend, they wouldn't have any more chances.

...

Li Xiandao was back in the Bank of the Universe.

Seven received him and smiled, "Welcome back hero."

Li Xiandao rolled his eyes, "Are you mocking me?"

"No, I am really praising you." Seven shook her head.

"A merchant that only cares about profits did something heroic, why doesn't it sound, right?" Li Xiandao smiled.

“What is wrong. Merchants wanting profits is them respecting this occupation. But as a hero, you saved the world. It has no harm towards you so I approve.” Seven looked at Li Xiandao with respect.

“No harm?” Li Xiandao shook his head, “I offended everyone in the Celestials. A stage nine Destiny Realm kid created laws for the entire Celestial World to follow. Would you agree?”

Seven shook her head, “Then you are wrong.”

“Where am I wrong?” Li Xiandao asked.

“You think that you offended the Celestial World but actually you only offended Celestial Dynasty.” Seven explained.

“I said that only Celestial Dynasty occupied Nine Skies and Ten Lands. Celestial Dynasty wanted to rule so they needed to lead Nine Skies and Ten Lands. Their management was also really chaotic.” Seven added.

“Now that you sliced off the connection between Nine Skies and Ten Lands and Celestial World, Celestial Dynasty will be unhappy but there is nothing they can do. So there is no harm.” Seven concluded.

Li Xiandao was enlightened, “So that is the case.”

“Do you understand hero?” Seven squinted her eyes and looked at Li Xiandao.

“You saw me do such a heroic thing so should you reward me?” Li Xiandao asked.

Seven was stunned and then her face turned red, “Why should I reward you, you also didn’t do it for me.”

“If you make it sound like that then I will be sad. Do I get no reward at all?” Li Xiandao sighed.

Seven looked left and right and after confirming that there was no one, she tip-toed and wanted to kiss his cheeks.

She wanted to give the shameless Li Xiandao a reward.

But Li Xiandao had it planned. the moment she tried to kiss, he faced her.

Muacks!

Lip to lip. Seven opened her eyes wide and looked at Li Xiandao.

Li Xiandao smiled and looked at Seven warmly.

Chapter 573: Unlocking Seventh Mountain!

“Master, master, I led everyone else to collect the celestial artifacts and treasures. They are all here so please take a look.” Tian Guangming hurried over to find Li Xiandao. He didn’t knock the door and just headed in.

“Scram!” Li Xiandao slapped him and sent Tian Guangming flying out.

Tian Guangming couldn’t block it at all and he flew hundred meters out.

Seven pushed Li Xiandao aside. Her face flushed red and she was filled with both embarrassment and fear, “Did he see us?”

Li Xiandao shook his head, “I slapped him aside right away, he didn’t see anything.”

“This is all your fault, you were the one who wanted to kiss me. If he saw it then I will have no more face to look at people anymore.” Seven grumbled about Li Xiandao and then ran away.

Li Xiandao looked at her back view and muttered, “Everyone knows about this. Who in the Bank of the Universe doesn’t know about our relationship? You are the one lying to yourself.”

Speaking about that, Li Xiandao didn’t chase Seven. He just walked out of the hall and saw Tian Guangming who had climbed up.

He was totally lost and didn’t know what had happened. He looked at Li Xiandao in confusion.

Li Xiandao’s face sunk and he was really frustrated. If he didn’t come, he could have tasted it for a longer while. It was such a good chance. Seven kissed him and he totally spoiled it.

Thinking about that, Li Xiandao’s gaze towards Tian Guangming became even more unfriendly.

Tian Guangming looked at the serious Li Xiandao and didn’t know how he offended him. He said carefully, “Master I am here to give you the celestial artifacts and treasures.”

Li Xiandao said calmly, “Tian Guangming, hand the treasures and celestial artifacts to Seven.”

Tian Guangming agreed and wanted to leave right away. Li Xiandao wasn't in a good state and he didn't know the exact situation. If he didn't know what was going on, remaining here would only lead to bad luck.

"Don't leave so quickly, let's walk a little." Li Xiandao passed Tian Guangming and said calmly.

Tian Guangming followed.

He was slapped for no reason so he felt really wrong.

"Humans should respect one another don't you think?" Li Xiandao asked.

"Master is right." Tian Guangming raised a thumb.

"Master and servant should also have respect, right?" Li Xiandao continued.

"Master is right." Tian Guangming said loudly and praised Li Xiandao. But he was confused. What did Master mean?

"So as a subordinate, can you charge into Master's palace?" Li Xiandao looked at Tian Guangming unhappily and finally got to the key point.

If he didn't charge in, maybe your Master could have reached second base.

But because of you, not to mention second base, to let Seven be so proactive in a short period of time was near impossible.

Li Xiandao really wanted to assign Tian Guangming to the ten lands.

Tian Guangming finally understood. His rashness spoiled Master's happiness.

But what was Master doing?

He had just come back from the outside world.

Master was the only one there...

Wait there was also Seven.

Master and Seven together...

Tian Guangming's expression and body froze up. He finally knew why Li Xiandao was so angry.

Tian Guangming wanted to cry, "Master I won't be so rash next time, please forgive me."

"Eh, at least you know why you are wrong. Remember and don't forget about it. If you do it again, you will suffer." Li Xiandao waved his hands.

Tian Guangming heaved a sigh of relief. Since Master forgave him, he didn't dare to stay and just left quickly.

Li Xiandao watched as he left and shook his head helplessly.

...

Within Bank of the Universe, it was totally silent. After Li Xiandao dealt with Celestial Gate's troubles, he was really free. He spent the day either cultivating or spending time with Seven.

After a few days of flirting, the awkwardness with Seven was reduced. Their relationship recovered.

But there was little to no hope for her taking the initiative to kiss him.

On that day, Li Xiandao and Seven were clearing up the debts in the treasury.

Be it those the Burning Legion collected or those Tian Guangming collected, all of them were gathered here.

Li Xiandao and Seven counted everything while Zhang San who was guarding the treasury carried them to and fro.

After learning that Li Xiandao opened the Celestial Gate, Zhang San gave up on escaping. He should just finish his 30 thousand years.

Li Xiandao looked at Zhang San. He was so hardworking and honest. Li Xiandao didn't have anything bad to say about him.

"Counting everything, I think it is enough to unlock the seventh mountain peak." Seven stooped in between a bunch of treasures and smiled.

Li Xiandao looked at the treasures which included those of the 30 thousand celestials. Only then could he barely unlock the seventh peak.

"That is quite a lot." Li Xiandao's heart hurt.

30 thousand celestial artifacts.

All of them giving to the dao. Li Xiandao was really reluctant.

“We have no choice. I thought that you wouldn’t be able to unlock the seventh mountain in Nine Skies and Ten Lands but the 30 thousand celestials gave you so many treasures.” Seven said helplessly.

“What is the seventh mountain, why does it need so many treasures?” Li Xiandao asked in anticipation.

“Watch Making Mountain!” Seven said.

“What?” Li Xiandao didn’t understand, the name was so weird.

“Watch making, like the name suggests. You can create watches with different functions.” Seven said.

“So I can create watches with different functions?” Li Xiandao asked.

“Right, moreover once you unlock it, you will have unlimited watches. You don’t have to wait till you unlock one mountain to get a hundred.” Seven added.

“Unlimited watches!” Li Xiandao’s eyes lit up. He was tempted right away.

“So you will unlock it?” Seven nodded.

“Unlock!” Li Xiandao didn’t hesitate and said decisively.

Seven pointed and stood up, “Unlock the seventh mountain peak!”

Hong long long!

The treasures in the treasury disappeared at a visible rate and it instantly turned empty. Li Xiandao and Seven looked at one another.

“In terms of taking treasures, the dao and I are as real as one another.” Li Xiandao and Seven walked out and saw the seventh mountain slowly unlocking.

The seventh mountain was a peak. It wasn’t as huge as the mountain range but just one lone mountain peak.

The key was that the center of it was in the shape of a watch that ticked and tocked.

Chapter 574: Bickering!

The seventh mountain was unlocked and under the gazes of Li Xiandao and Seven, it started to transform.

Before the mountain was unlocked, they were grey in color and everything was really calm with no signs of life.

The mountains that were unlocked were all multi colored. The trees, flowers and beasts there were brimming with life and could move on their own.

On the seventh mountain, there were no animals and no extra trees and flowers. It was just a lone mountain peak.

The entire mountain peak was like a watch. Especially at the center which was a circular watch.

Li Xiandao's eyesight was great. From far away he could tell that the watch was carved out and its insides were empty. There was another area inside.

"What is inside?" Li Xiandao asked Seven.

"That is where the essence of the seventh mountain peak is at. Take a look and you would know." Seven gave a mysterious smile and told Li Xiandao to find out himself.

Li Xiandao was interested and reached out, "Do I have the pleasure of inviting the beautiful Seven to take a look?"

Seven said, "I am interested but let's not hold hands in case others see us."

Seven still remembered how awkward it was when Tian Guangming bumped into them.

Li Xiandao really wanted to drag Tian Guangming out and beat him up. He helplessly walked to the seventh peak along with Seven.

Watch Making Mountain!

This name was weird. Li Xiandao asked Seven and Seven's reply was, "Go take a look yourself and you will understand."

Li Xiandao felt a little more curious about the mountain peak.

After entering the mountain peak, Li Xiandao noticed that there was a staircase that snaked up. It was really steep and there was not enough space for two people. If one wasn't careful one would fall into the endless abyss.

Of course, Li Xiandao and Seven both knew how to fly so they didn't mind. They followed along the staircase, one after another to walk towards the watch.

This was where the seventh mountain peak was.

They followed the snaking stairs up and Li Xiandao came to where the watch was at. The stairs broke here and an iron door opened.

There were no locks on it and it opened right with a push.

Li Xiandao pushed it open.

Creak!

It wasn't opened in a long time and the sound of the iron doors was really ear piercing. It was like joints that weren't worked for a few thousand years were moved and it started to crack. It was the same thing, they were all really loud sounds.

The iron door was opened and what Li Xiandao saw was really unexpected. It was a watch-making factory.

From the metallic outer structure of the watch to the precise carvings within and enormous machinery designs, there were sounds too...

This was a metalworks factory and it gave off a punk style.

To see a mountain with such a style in the Bank of the Universe, Li Xiandao was quite surprised about it.

"Are your eyes opened?" Seven followed in and smiled.

Li Xiandao looked around. The center of the mountain was a three-floor large space. It was a smooth production line and one after another red watches appeared.

"Where did you get this from?" Li Xiandao was shocked.

"The era before the last, which is the era before the god race eon." Seven said.

"From the eon before the god race eon?" Li Xiandao looked around in shock.

An ancient punk style, machine, and formations merging with one another, adding a voice to the metal.

These things that seem totally unlinked were all perfectly matched on the surface of the watch.

"Right, that eon was called the technology eon. Their technologies aren't any weaker than our cultivation. Some of them wear invincible armor that allows mortals to fight with

celestials. Some of them have memory chips to make them geniuses. Some studied the soul and allowed mortals to live for tens of thousands of years.” Seven exclaimed.

She was also really curious about the eon but had never seen it before.

Li Xiandao was even more shocked. That technology eon seemed amazing but as time passed, they disappeared into the annals of history.

“Unbelievable.” Li Xiandao exclaimed.

“Right, this production line is proof of that era existing.” Seven nodded and agreed with Li Xiandao’s words.

Unbelievable, a godly skill. Those people didn’t have much cultivation but used their brains to crush all their enemies and turn their era into the technology eon.

“So this process is it crafting watches by itself?” Although Li Xiandao was shocked but facing this fully automated process, he asked.

“You can craft watches, your watches can change based on the specifications to find the most suitable guest.” Seven said.

Li Xiandao immediately rushed to where he could modify the watches.

It was totally empty. This place explained the process. Li Xiandao took a look and with one glance, he smiled confidently, “This isn’t tough, I will craft one myself.”

He sat in front of the platform. Li Xiandao followed the steps and pieced a watch together.

“What do you want to add?” Seven asked curiously.

Li Xiandao thought about it carefully and said, “I am crafting a watch for the first time so I shall add something positive.”

“Positive?” Seven frowned. This was the first time she heard such a word but she instantly understood what he meant.

She was just curious, what kind of positive watch could Li Xiandao create?

Li Xiandao wrote a word down.

Green!

This green was the core of his first watch.

This watch was going to find those people who were green to come to Bank of the Universe to trade.

Seven was speechless, “This is positive?”

“Right, green is so healthy, vegetables are green. They are healthy right?” Li Xiandao said with certainty.

“People who wear green hats are healthy right?” Seven rolled her eyes.

“Don’t sprout nonsense, love corrupted it. It has nothing to do with green. Moreover, if a guy wants to succeed in life, then he has to have some green.” Li Xiandao said.

“Then should I give you some green?” Seven smiled and looked at Li Xiandao.

“You are forcing me to get mad.” Li Xiandao squinted and stared at Seven.

“How are you going to get mad?” Seven stared and looked at Li Xiandao furiously.

“I am scary when I am angry. I shall ascend and find celestials to date. Moreover the top beauty in Celestial World, Cold Moon Fairy is really pretty.” Li Xiandao said.

“No, I was just joking, don’t give me a green hat.” Seven was furious. She really wanted to rip apart the Cold Moon Fairy that Li Xiandao talked about.

In terms of bickering, how would she be Li Xiandao’s match?

Chapter 575: Celestial World Basic Situation!

Li Xiandao created his first watch which had a little bit of green. It was a healthy watch.

So the color was different from the production line outside. This watch was green in color.

A healthy color!

Li Xiandao took the watch and he didn’t continue to craft more. After understanding the exact situation with the Watch Making Mountain, he left happily.

Unlocking the seventh mountain once again made Li Xiandao’s treasury empty. He was broke once more.

But now that the seventh mountain was unlocked, it was time for him to prepare to enter the Celestial World.

Opening the Celestial Gate gave the people one more path towards the Celestial World. After this was completed, Li Xiandao had no more reason to remain in Nine Skies and Ten Lands.

So after unlocking the seventh mountain, Li Xiandao started to contemplate about entering Celestial World.

Based on what Emperor Beiqiu, Li Xiandao would ascend. He couldn't stay in Nine Skies and Ten Lands for too long as he was invincible. Even Celestials who entered Nine Skies and Ten Lands wouldn't be his match.

Li Xiandao had reached the peak and if he wanted to improve, he had to ascend.

Emperor Beiqiu used that to threaten Li Xiandao but he didn't know that Li Xiandao wouldn't be noticed if he ascended.

Li Xiandao left with Seven with the green watch. They then went their separate ways. Li Xiandao went to find Zhang San.

Since Zhang San was locked in Bank of the Universe by Li Xiandao, he remained as a manager of the treasury.

Since the treasury was empty now, he was free and strolled around. He enjoyed Bank of the Universe's scenery.

Li Xiandao found him.

"Master!" Zhang San looked at Li Xiandao in fear.

"Don't be nervous." Li Xiandao casually waved his hands, "I came to find you to ask about the Celestial World and not to scold you."

Zhang San relaxed and said respectfully, "Since Master is asking, naturally I will say everything that I know."

Li Xiandao nodded his head in satisfaction and asked, "You came from Celestial Dynasty so you should know a lot. Tell me about the situation in Celestial World, tell me everything you know. If you are not sure then there is no need to say."

Zhang San followed behind Li Xiandao and replied, "Celestial World is a huge world and is made up of many regions. There are just three thousand normal regions and each is much bigger than Heaven Sky. There are many experts there."

"Three thousand regions, so many?" Li Xiandao was shocked.

Zhang San explained, "This is only those of Celestial World."

“What about others?” Li Xiandao frowned. Even if he knew that Celestial World was huge, but when he heard about the exact sign, he was still shocked.

“There are many worlds outside of it of a similar dimension as Celestial World. Like Hell, Demon World, Buddha World, Pill World, Beast World... Wait, these worlds are in essence from the same place as Celestial World but after various wars, they have split apart. Although they are of the same dimension, in a sense, they are in the same world.” Zhang San said.

Li Xiandao nodded, his demon god pillars came from Hell.

Hell was different from Demon World, much less Buddha World and Pill World.

“So the Celestial World is controlled by Celestial Dynasty and not the other worlds?” Li Xiandao asked.

“On the surface, it is like that.” Zhang San shrugged.

“On the surface?” Li Xiandao’s brow rose, “Celestial Dynasty can’t control the current Celestial World?”

“Three thousand regions, Celestial Dynasty actually only controls a thousand. For these thousand, Celestial Dynasty is really deep in but not for the other regions.” Zhang San said honestly.

“So many places in Celestial World are unhappy with Celestial Dynasty?” Li Xiandao didn’t expect that the arrogant Celestial Dynasty couldn’t even control half of the Celestial World.

“If it was long ago when Emperor Gouchen was there, Celestial Dynasty had 1800 regions. But Emperor Gouchen fought with Celestial Dynasty and was forced to reincarnate. The 800 regions that followed him went against them and had their own king. They formed many small factions helping one another to block Celestial Dynasty.” Zhang San said.

Li Xiandao was enlightened, so Emperor Gouchen and Celestial Dynasty’s conflict caused the 800 regions to go against Celestial Dynasty.

“Is Emperor Gouchen so famous and powerful there?” Li Xiandao asked curiously.

“Of course, one of the four emperors, each of them are famous. If one of them has problems, it would be a huge loss to the entire Celestial Dynasty.” Zhang San nodded.

“I understand.” Li Xiandao nodded.

“If we ascend and pass the Celestial Gate, where will we enter?” Li Xiandao asked.

“We will enter the North Nether Region, as the land here is like the North Nether Bird which is why it got its name.” Zhang San replied without thinking.

“Introduce the place.” Li Xiandao said calmly and walked up the stairs of the building. He looked at the mountains and the rivers, all sorts of beautiful scenes appeared in his eyes.

Zhang San followed behind. He was really nervous and didn’t dare to miss out on anything.

But when he talked about North Nether Region, he did have the knowledge to speak. That was because he was born in the North Nether Region and knew it like the back of his fingertips.

“North Nether Region is a huge region that Celestial Dynasty controls. It has a large population. Celestials, demons, clowns. Many monsters etc. It is a really exciting battlefield. Each sect is under the Celestial Dynasty so they won’t cause any chaos.” Zhang San added.

Li Xiandao took off a flower and sniffed it. It looked like he wasn’t paying attention but in truth, Li Xiandao remembered everything.

“If it gets chaotic then it would be total chaos. In truth, small killings and fights can’t be prohibited.” Zhang San said regretfully.

“You said that North Nether Region has so many factions so what should I pay attention to?” Li Xiandao asked.

“If Master ascends, you have to welcome the Celestial Dynasty’s attacks. Emperor Beiqiu won’t let you go.” Zhang San added. This was a suggestion.

“Is the manager of North Nether Region Emperor Beiqiu?” Li Xiandao asked.

“Right, Emperor Beiqiu is really smart. Celestial Dynasty gave him his position and allowed him to lead the 30 thousand Celestial Dynasty Guards Army. But now, the 30 thousand guards army is wiped out. Thinking about how this situation shows how useless he is, he could only blame Master.” Zang San said helplessly.

Li Xiandao smiled coldly, “Blame me, he has the face to blame me?”

“It is okay if he wants to change the topic but doesn’t target me.” Li Xiandao looked at the sky coldly and said.

Chapter 576: Ascend!

Celestial World had three thousand regions. The first place that one would land in after ascending was North Nether Region.

North Nether Region was huge and was under the control of Celestial Dynasty. The person Celestial Dynasty sent was Emperor Beiqiu.

No wonder Emperor Beiqiu said that he wasn't considered high or low and was just at the middle.

To be able to manage one region basically meant that he exceeded a large amount of people. To rule 30 thousand troops, he was considered a decently powerful person.

But only that. He wasn't a power holder within Celestial Dynasty. Celestial Dynasty controlled a thousand regions and there were a thousand of such managers like Emperor Beiqiu.

So to control a region wasn't a high position.

Emperor Beiqiu wanted to wait for Li Xiandao at Nine Skies and Ten Lands. He couldn't defeat Li Xiandao in Nine Skies and Ten Lands but in Celestial World, Li Xiandao couldn't beat him.

But Li Xiandao definitely couldn't let him succeed. With the Bank of the Universe, how could he be noticed when he crossed into the Celestial World?

After asking Zhang San, Li Xiandao told him to continue to guard the treasury while he went to find Seven.

"Do we want to head to Celestial World?" Li Xiandao asked Seven.

"Are you tempted?" Seven asked Li Xiandao.

Li Xiandao nodded his head, "I am invincible in Nine Skies and Ten Lands, it is time to head to Celestial World to take a look."

"Sure, you are the Master and you are a guy so you are in charge. I will listen to you." Seven didn't really mind.

"That's good, make preparations, we are heading to Celestial World." Li Xiandao nodded.

"Eh, there is nothing much to prepare. Bank of the Universe activated the world teleportation ability. Although it would consume ten times more resources to teleport to Celestial World, to you, that isn't much at all." Seven said.

Li Xiandao nodded and said firmly, "Then that's decided, time to head to Celestial World."

...

He decided to head to Celestial World because Li Xiandao couldn't improve any more in Nine Skies and Ten Lands.

He needed a bigger world and Celestial World was such a place.

Now that Celestial Gate was opened, they could enter the Celestial World at any time. Li Xiandao knew that remaining in Nine Skies and Ten Lands would mean that the Bank of the Universe's business couldn't be expanded.

The Celestial World was the best place for the Bank of the Universe to progress.

He was sure that he would head to Celestial World but he couldn't go himself. Emperor Beiqiu was targeting him so once he showed himself, he would be found and he would be forced to hide.

The Celestial World wasn't Nine Skies and Ten Lands and Emperor Beiqiu wasn't that weak.

"Tian Guangming come and find me." Li Xiandao thought about it and called Tian Guangming.

Tian Guangming had reached stage nine and was at the peak. He was suitable for this mission.

In just a moment, Tian Guangming ran over with a smile, "Master, what matter do you have for me?"

"Your cultivation has reached the peak of Destiny Realm right?" Li Xiandao asked.

"Right, I am planning to accumulate for a period of time and not rush to break through. Once I reach a high enough level then I will." Tian Guangming nodded.

"Go break through now and cross the Celestial Gate to enter the Celestial World." Li Xiandao said.

"Ah..." Tian Guangming looked at Li Xiandao in shock.

"As the first person to enter the Celestial World, your first mission is to find a place for the Bank of the Universe." Li Xiandao continued.

Tian Guangming understood right away and was delighted. This was an important mission and for Master to give it to him showed that he had high hopes for him.

He suppressed the excitement in his heart and said firmly, "Don't worry Master, I will definitely complete this mission."

"I trust you. Remember the three points. Firstly, I need a quiet spot. Secondly, find a place with lesser people. Thirdly, there mustn't be too strong a faction nearby. Only then can we have a period of silence in Celestial World to break through." Li Xiandao instructed.

This time he was planning to learn from the old priest, struggle to survive and then get rich.

He had just entered Celestial World and got into North Nether Region so he was prepared to relax for a while and observe this world before expanding Bank of the Universe.

He also needed someone to scout.

Li Xiandao chose Tian Guangming.

Tian Guangming was his subordinate and was really loyal. he was really strong and Emperor Beiqiu didn't recognize him also. Even if he did recognize him, he wouldn't connect him to Li Xiandao.

Tian Guangming ensured, "Don't worry Master, I shall complete the mission."

"Go, I trust you." Li Xiandao waved his hands.

Tian Guangming left and then told Li Wuya about it.

In Heaven Sky, Tian Guangming increased his cultivation to the peak and drew down the lightning tribulation.

Hong long long!

Black clouds appeared in the clear sky. Lightning gathered and was about to shoot down Tian Guangming.

Tian Guangming looked at the clouds with a solemn expression. He was about to go through the tribulation but he was not planning to do so.

He was waiting for the Celestial Gate to open for him.

In the past in the Nine Skies and Ten Lands, people who ascended would attract the lightning tribulation. The Celestial Gate would appear in the lightning and as long as one passed it, one didn't need to go through the tribulation.

But after the Celestial Gate closed, the person would face the lightning straight up. It was really cruel.

Now that Li Xiandao opened the Celestial Gate, the Celestial Gate appeared at the depths of the tribulation.

Tian Guangming's eyes flashed as he noticed the gate there.

A giant green gate. The lightning tribulation covered it and it appeared really overbearing.

Tian Guangming was delighted, "Lightning Tribulation, your grandfather Tian Guangming is here, you won't be able to hit me this time."

Xiu!

Tian Guangming flew really quickly. He charged into the lightning and the lightning tried to strike him.

Hong long long!

The dark clouds were furious and they roared.

But Tian Guangming's body was like an arrow that charged into the gate.

Peng peng peng!

Tian Guangming's body was scorched black but they were basically all superficial injuries. After entering the Celestial Gate, he shook off all the impurities on him. He stood above and looked up to the huge Celestial World while looking down on Nine Skies and Ten Lands that was several times smaller.

"They aren't on the same level at all!" Tian Guangming exclaimed. No wonder many people wanted to enter the Celestial World.

Compared to the giant Celestial World. Nine Skies and Ten Lands was like a farming region that was totally unassuming.

"Celestial World, your grandfather Tian Guangming is here." Tian Guangming shouted to cheer himself on before charging in.

Hong long long!

Celestial energy bathed his body and allowed him to recover to his peak.

But he didn't break through, he still needed to absorb large amounts of celestial energy.

Dong!

After flying for a large amount of time, Tian Guangming finally landed. The celestial energy around was so thick that it made Tian Guangming really comfortable. It was like one was laying in the bathtub for a long time and one didn't want to move at all.

Tian Guangming even wanted to cultivate here to reach the next realm.

"Time to find a quiet spot." Li Xiandao's cold voice reverberated in his ears, terrifying him. He got up and looked around. He started to search for a place that fit Li Xiandao's requirements.

Chapter 577: Jin Zhengyang!

Tian Guangming who entered the Celestial World stood on an endless piece of land. He saw that there was energy surging in the distance. That was the place where one ascended from the Nine Skies and Ten Lands.

This region was where one landed after ascending. A portion of people who came from Nine Skies and Ten Lands would walk out from this place and head towards the Celestial World.

Now Tian Guangming was here. He observed and saw the area converging in the distance. Like a gourd. He was in the body of the gourd and in front of him was the exit.

Some people were guarding tightly there. Tian Guangming's heart shook and he wanted to fly out.

But there were people patrolling in the sky too and they didn't give them a chance to fly away.

Tian Guangming took in a deep breath as rumbling celestial energy entered his body. They cleared out the impurities in his body and changed it to celestial energy.

Then Tian Guangming walked towards the mouth of the gourd.

...

Within the Bank of the Universe, Li Xiandao and Seven were observing every move that Tian Guangming made.

Seven frowned, "Tian Guangming is being monitored by those in the Celestial World."

"People who enter from the Celestial Gate can still be monitored?" Li Xiandao asked curiously.

Logically speaking, people who ascended from the Celestial Gate should be able to move freely in the Celestial World.

"There are exceptions to many things. Everyone enter the Celestial World from the gate so Celestial Dynasty would definitely think of a solution. So they decided to turn this place into the first settlement for people to who ascend." Seven explained.

"Of course, I also know that many people would control themselves when ascending and not only themselves to be led there." Seven added.

Li Xiandao looked at Tian Guangming and said, "He didn't know so he didn't control himself and ended up there."

"This is a problem, Tian Guangming is going to end up as a coolie." Seven said helplessly.

Li Xiandao frowned. He remembered Sword God mention that the first thing that happened is that one would bump into their judicial squad. They would enslave everyone for hundred years and those who don't want to will sell themselves to Celestial Dynasty for three thousand years. Those who dare to fight back will be killed.

Tian Guangming was so unlucky?

In those scenes, Tian Guangming still didn't know that he had fell into their trap. But he had a bad feeling.

At the mouth stood dozens of celestial soldiers. These people weren't so easily bullied like in Nine Skies and Ten Lands.

The Celestial Dynasty Guards Army were unable to use their full strength in the Nine Skies and Ten Lands and were suppressed.

But in the Celestial World, they could go all out.

So Tian Guangming walked over.

"You are from Nine Skies and Ten Lands?" A celestial asked coldly.

Tian Guangming saw that his attitude was firm and he was really unfriendly. It seemed like he was in the wrong place.

“Answer quickly, why are you hesitating?” Seeing that Tian Guangming was in a daze, the celestial shouted in rage.

Tian Guangming said right away, “Yes, I just ascended and don’t know the situation, please forgive me.”

After saying that, Tian Guangming took out a large amount of god sources and passed it to him.

The Celestial laughed in disdain, “Trash mines in the lower world, it contains such impure energy. To think you even treat it as a treasure, how embarrassing.”

After saying that, the celestial tossed it on the ground with arrogance.

Tian Guangming was really furious but seeing the gap in strength, he held himself back.

“No matter how strong you were below, now you are just a normal person here. You haven’t reached True Celestial so you ascended using the celestial gate?” The proud celestial mocked.

“Right.” Tian Guangming suppressed himself. If he could defeat them then he would have attacked.

Damn! Tian Guangming cursed in his heart.

“Based on the agreement, anyone who comes up will be enslaved for hundred years. Those who don’t want to will join the Celestial Dynasty for three thousand years. If you dare to resist, you will be beaten to death. Make your choice.” The proud Celestial looked at Tian Guangming and said with a playful expression.

He really wanted to know what Tian Guangming would choose.

Tian Guangming clenched his fists. he was furious and his expression was really ugly.

The Celestial was unsurprised. Basically, everyone who ascended would behave like that when they heard the news.

But without an exception, they were sent away nicely.

So they weren’t worried that Tian Guangming would do anything.

When they saw Tian Guangming’s behavior, they were really happy. That was because it had been a long time since someone ascended. After 30 thousand years, they finally sent more people over to guard this place.

Tian Guangming was their first guest after 30 thousand years.

The dozen True Celestials controlled this place and it was impossible for people to escape.

Within Bank of the Universe, Li Xiandao had a cold expression as he looked at those scenes.

Tian Guangming was his subordinate and for him to be insulted like that, meant that he as the master was being insulted.

But to say the truth, Li Xiandao didn't have any good ideas.

Seven said, "Let Tian Guangming choose to be enslaved for hundred years and not sign the contract. Then we can just save him."

Li Xiandao nodded his head.

"Tian Guangming, agree to be enslaved. You hold it in. I will head to Celestial World and then save you." Li Xiandao told Tian Guangming.

Li Xiandao said coldly, "Ask this person for his name and then you kill him."

Celestial World. After Tian Guangming received Li Xiandao's orders, his anger receded. He looked towards the arrogant celestial and said, "I choose to be enslaved. And also, what is your name?"

"You want to know my name so you can take revenge?" The Celestial mocked.

"You are afraid?" Tian Guangming said coldly.

"Me afraid?" This celestial laughed in disdain, "You trash slaves can make me afraid?"

"If you aren't then tell me your name then." Tian Guangming said firmly.

"You are bold, I really want to see how bold you are after those 100 years." The Celestial smiled coldly.

"Listen up, my name is Jin Zhengyang, I am from North Nether Region's Jin Family. If you want to take revenge after 100 years, I welcome you." Jin Zhengyang wasn't afraid. He just told Tian Guangming his name.

"Okay, I will remember it." Tian Guangming nodded. He didn't say anything else as it was useless. He had to just wait for Master to arrive and then he could take revenge.

"Men, send this arrogant fellow to Black Water Island and let him be a sparring bag." Jin Zhengyang said loudly.

When they heard that it was Black Water Island. Their expressions changed and they looked at him in shock.

“What are you looking at, listen to my orders.” Jin Zhengyang said coldly.

Everyone looked at Tian Guangming with sympathy. Although they didn’t say anything, their expressions told the story.

Jin Zhengyang looked at Tian Guangming and smiled, “You want to take revenge, survive Black Water Island first.”

Tian Guangming knew that this place was dangerous but he had Master behind him so what was there to be afraid of.

“You wait for me.” Tian Guangming said coldly.

“You really are ignorant.” Jin Zhengyang didn’t care about Tian Guangming’s words. He shook his head in disdain and waved his hands. He didn’t want to speak with a dead person. “Bring him away and send him to Black Water Island. Along the way help me seal his cultivation!”

Chapter 578: Reaching True Celestial!

Within the Bank of the Universe, Li Xiandao looked on as Tian Guangming was sent by the Celestial Dynasty people over to Black Water Island. His expression was terrifyingly cold.

At that moment, Li Xiandao knew how overbearing Celestial Dynasty was.

They were like that 30 thousand years ago and 30 thousand years later it was still the same.

“As expected, it was right for Old Man Tianchi to close the Celestial Gate.” Li Xiandao got up and walked out.

“What are you going to do?” Seven asked curiously.

“I am heading to Celestial World.” Li Xiandao said calmly. He didn’t stop and just strolled out of the Bank of the Universe.

In Heaven Sky, Li Xiandao looked up and stared into space. He was furious.

Tian Guangming didn’t know the little technique when ascending and fell into the trap that Celestial Dynasty laid out. This was unexpected.

Now that Li Xiandao knew about it, he decided to ascend by himself.

Li Xiandao had to prepare before ascending and then head to save Tian Guangming.

Hong!

He stepped out. His aura was like a bull smashing into the sky. Instantly the lightning tribulation landed.

“Shatter!” Li Xiandao used his fingers as a sword and slashed, directly shattering the lightning tribulation.

Then the Celestial Gate appeared. Li Xiandao stepped out and entered through the gate.

Hong long long!

Li Xiandao didn't hesitate at all and charged into the Celestial World barrier.

He fell down endlessly!

Like Tian Guangming, Li Xiandao chose to control himself and not himself go with the flow. He slowed himself down and looked all about.

The suction of the tunnel was really strong and normal people really couldn't control themselves. They would fall into the Celestial World trap. But Li Xiandao was different and he could control himself well.

Moreover, when he was halfway, Li Xiandao jumped down.

Li Xiandao controlled his body and charged out of the tunnel. He saw the moon, the sun and the mountains. He absorbed a thread of celestial energy and then numerous threads surged into his body. They pushed Li Xiandao, causing his body to change quickly.

Break through!

The first thing Li Xiandao did after entering Celestial World was to break through.

Moreover, he was still in the air and hadn't landed.

This break through filled his body with energy which charged from his dantian to the back of his head.

* Peng peng peng!*

This opened up the world behind his mind and connected the Celestial's domain.

The first step of being a celestial, True Celestial!

This was really terrifying. When Li Xiandao landed, a storm swept him along with thick celestial energy. It surged into his body. Li Xiandao absorbed it all in and switched out everything within.

Peng!

The price to pay was that Li Xiandao smashed into a mountain, causing the area around to shake. A hundred miles of land around collapsed and buried Li Xiandao in it.

The area a thousand miles around could sense that commotion. Many normal people in the Celestial World looked on in terror. Was that an earthquake?

Li Xiandao who was buried by the mountain still continued to absorb spiritual energy to replenish himself for what he lost.

All of this caused indescribable changes to occur.

The first step of being a celestial, True Celestial!

Li Xiandao broke through.

The 19 worlds were also crazily absorbing celestial energy.

Hong long long!

The celestial energy in the Celestial World was really thick but it was not thick enough for the 19 worlds to absorb it.

Almost instantly, the spiritual energy in the thousand miles around was sucked dry. Spiritual energy from other places surged over but they were still swallowed.

Nine Skies and Ten Lands, the nineteen worlds were huge consumers of spiritual energy. They were much more terrifying than Li Xiandao's body itself.

He broke through to True Celestial and was changing his own energy.

As for the nineteen worlds, they had never stopped.

Li Xiandao obtained a lot of energy which helped him improve quickly.

The nineteen worlds obtained so much energy too and also improved really quickly.

But the people in the area got uncomfortable.

There was a village nearby and the people here were united in protecting the region. Because of Li Xiandao, they all looked on in terror.

“What happened?”

“Are there people fighting?”

“Are celestials fighting nearby?”

“We have to hide. When Celestials fight, us mortals would suffer.”

The villagers were all terrified.

“It doesn’t look like they are fighting. It was just an earthquake and then there was no movement. Did a treasure appear?” Someone guessed.

The moment he said this, many eyes lit up. The temptation of a treasure was still quite huge.

“Let’s find together. be careful and not separate.” Someone suggested.

The moment that was said, many people agreed. Treasures were too tempting.

Very quickly, the people started to search Li Xiandao’s area.

It was said to be a village but the weakest person here was Legend Realm and everyone could fly. They didn’t have to worry about clothing and food but they were still just villagers.

The celestial energy was too terrifying. Even if a normal person didn’t cultivate, he would easily reach 500 years old. If he cultivated, even if he had no talent, he could reach Human Celestial or Legend Realm etc...

This was no different from those high up in Nine Skies and Ten Lands.

Li Xiandao who was the treasure they were seeking stood up in the mountains.

He shook off the dust on his body and ripped his clothes off. He changed into something clean and exclaimed, “The normal people here are so strong.”

From a thousand miles out, Li Xiandao could sense them. Naturally, he knew that many were searching for treasures. he didn’t want any connection with them so he left.

With his True Celestial cultivation, it was normal that he wasn’t noticed.

The nineteen worlds stopped absorbing celestial energy. The celestial energy was endless and the key point was to find a location so that the Bank of the Universe could cross. At that time, all of Li Xiandao's subordinates could break through.

Li Xiandao left this place and stepped out. He tried to cross space but he realized that the world power here was much stronger. With his True Celestial cultivation, it was tough.

But fortunately, he could still do it.

With one step, thousand miles disappeared. Li Xiandao walked for ten minutes and saw a majestic city.

Tianyu City!

This was the first city that Li Xiandao saw after entering Celestial World. It was huge and similar to the giant capital that Li Xiandao saw in Heaven Sky.

But this was just a border city.

Li Xiandao immediately entered Tianyu City.

But before entering, he still wore a mask. A dark ink color covered his face.

That was because Emperor Beiqiu saw his true face before and he was worried that a portrait was drawn. Maybe Celestial Dynasty people would stare at him and if they noticed Li Xiandao and reported him, that people would be rewarded.

One had to say that Li Xiandao was right, Emperor Beiqiu really did that.

Chapter 579: Celestial World's Intel Organisation!

Tianyu City, it was not much different from Fallen Emperor City in the Nine Skies and Ten Lands but the layout was not the same. This was a flying celestial city.

The so-called flying celestial city meant that it was a city that was built in mid air.

It wasn't directly built in mid air but started from underground. Many buildings rose up from the ground. They were huge and pierced through the clouds. The buildings in mid air was the core of Tianyu City.

The city underground were mostly for the ordinary people. Only by entering the higher levels where there were many floating bridges, roads and houses. There were buildings, courtyards and exquisite forests together, forming a cultivator world.

The cost of entering this place was high. Li Xiandao wore a mask and entered Tianyu City. He wasn't stopped at all.

Tianyu City wasn't surprised by people like Li Xiandao. He just wore a mask, this was something that many people would do.

Once one entered Tianyu City, one's activities underground weren't restricted. They wouldn't care about who you are and they wouldn't record any information.

But to enter the higher areas, that exquisite world floating in mid air, one had to report one's information.

Li Xiandao spun about the surface city. It was really busy and there were many shops. People passed through and fro and there was an endless crowd.

There seemed to be more people here than in the air. Although they obviously couldn't compare in terms of quality.

Li Xiandao walked about and didn't see a single celestial. All of them were normal people.

Li Xiandao guessed that those celestials were in mid air and only there were answers to the questions that he wanted to know.

So he was prepared to enter.

As for reporting his news, when Li Xiandao passed the searchers, he exuded large amounts of mental energy to control those True Celestial Realm guards to make them randomly write some information.

After Li Xiandao left, the True Celestial came back to his senses and asked in confusion, "Why am I a little tired?"

"Did your wife request things from you last night?" His partner returned and teased.

"Damn you, maybe I am too tired recently and too stressed. Even True Celestials need to rest up." This True Celestial shook his head and felt much better. He just didn't care much about it.

At that time, Li Xiandao who had reached the city in mid air heaved a sigh of relief.

It wasn't too hard to control True Celestials. The difficulty was to do so in a short time under the gazes of everyone.

Li Xiandao broke through to True Celestial Realm and he was a True Celestial too. Although they both were, the gap was huge. Li Xiandao could control him because he was too careless and didn't close his mind, allowing Li Xiandao to enter easily.

Another reason was that Li Xiandao was really strong and he wasn't like others who had just entered True Celestial Realm.

But even then, the other party came back to his senses quickly. From that, one could see that True Celestials weren't easy to deal with.

But Li Xiandao still entered and stopped caring about that.

He came to the city in mid-air. There weren't many people and there were celestials all around.

There were many True Celestials but there were also many who exceeded that...

Li Xiandao entered the Celestial World. He specially asked Seven about their cultivation realms. It started with True Celestial then Heaven Celestial, Ancestral Celestial, Golden Celestial, Ruler Celestial, Imperial Gold Celestial, Celestial King, and Celestial Emperor.

Each realm had different changes. For example, True Celestial and Heaven Celestial had nine stages.

Celestials had nine stages, this was an unwritten rule. But then Xuan Celestial had seven, Ancestral Celestial had five, Golden Celestial had five, Ruler Celestial had four, Imperial Gold Celestial had the process of gathering three flowers and five energies.

As for Celestial King and Celestial Emperor, there were all supreme realms. Once one reached that realm, one could control a part of the Celestial World to becoming king.

Even the Celestial Dynasty didn't want to easily offend a Celestial King much less a person at Celestial Emperor Realm. Celestial Emperors could reach that supreme position.

Li Xiandao was now at stage one of True Celestial and he was at the first stage of this realm.

The person who recorded news was only at stage one so Li Xiandao could easily control him.

He walked around the city and his eyes were opened. He saw all sorts of celestials and many weird shoppes.

He saw those that sold coffins to living people and then telling them to take it and sleep in it.

Li Xiandao found it preposterous. Normal people bought coffins to sleep in?

Aren't they afraid that they won't wake up?

But what Li Xiandao didn't expect was that the shop had good business. Not long later a sign was placed which wrote, "30 coffins have been pre ordered, the shop doesn't accept any more."

Li Xiandao was speechless.

In just a short moment, 30 people ordered coffins, they pre ordered them.

"This coffin is quite effective. Normal people slept in it, that is quite sick in the head." Li Xiandao shook his head. He didn't want to look at that and continued walking.

He wore a mask and changed into new clothes. Naturally no one noticed him so he was able to tour the entire city.

Li Xiandao entered a shop.

This shop was half covered and in the other, the sunlight shone in. Half of it was dark while the other was lit up, it was really perfect.

But when Li Xiandao stood at the door, he saw the sleeping manager.

Tok tok!

Li Xiandao tapped the table and gave out a sound.

The manager didn't open his eyes and said, "I am not open, head out."

"I am here to buy intel." Li Xiandao said calmly.

After walking about, he found this store. Based on what Seven said, he confirmed that this was an intel store.

As for how Seven knew about it?

She asked Zhang San. He was familiar with North Nether Region and he knew about the branch of the intel organisation.

He said how it looked like and Li Xiandao remembered it which was why he came to knock on the door.

The manager finally woke up. He raised his head and looked at Li Xiandao, "What intel would you like to buy?"

“Intel about Black Water Island and also to find a quiet spot that is secluded as long as there are no factions there.” Li Xiandao said out his requests.

“What you want is simple, give me ten low quality celestial crystals.” The manager replied lazily.

“You don’t have rules about paying first right?” Li Xiandao asked.

“You know our rules?” The manager looked at Li Xiandao with a weird expression.

“Of course, if I didn’t then I wouldn’t have come.” Li Xiandao looked at him calmly but deep down he knew nothing at all. What he knew was naturally what Seven asked Zhang San.

Zhang San was a member of this intel organisation as sort of a part time job so he knew it clearly.

Li Xiandao had no celestial crystals. He had nothing on him now. So later on Li Xiandao had to hypnotise this True Celestial again.

Chapter 580: Neighbours With A Ghost!

“You want a quiet territory with no factions around?” The manager’s eyelids rose up and he looked at Li Xiandao.

“Right.” Li Xiandao nodded.

“There are many of such places here. North Nether Region is huge and has three thousand top sects and eight hundred aristocratic families. These factions split up North Nether Region. There aren’t many good places but for lousy ones, there are many.” The manager said slowly.

Li Xiandao thought about it, “Find one that has thick celestial energy with being quiet as the priority.”

“Okay then, I shall search but you have to pay more.” The manager reminded Li Xiandao.

“Don’t worry, I will increase the price.” Li Xiandao nodded his head and said something against his conscience.

After the manager got Li Xiandao’s promise, he was pumped up and searched for news for Li Xiandao.

There was a bookshelf behind him with many books on it. All of them recorded the information of the various regions in North Nether Region.

The manager flipped while Li Xiandao found a place to sit down.

In private, Li Xiandao was thinking whether or not to pay with something else?

“I found it.” The manager’s surprised voice spread into his ears.

Li Xiandao raised his head and asked, “So quick?”

“Right, it is quite lucky. This place is definitely suitable.” The manager took out a map and passed it to Li Xiandao.

Li Xiandao took a look and his eyes lit up. The place recorded wasn’t that good.

A mountain beside a cemetery.

“What is the meaning of this?” Li Xiandao frowned. This was asking him to be neighbours with the dead.

“It meets your requirements. It has enough celestial energy. The nearby mountains are the ancestral mountains of a few top factions to bury their ancestors. The mountain is not far away.” The manager introduced.

“It also fits your other requirement, which is that it has to be quiet. The four mountains around are the ancestral mountains of four big factions. To fight for this place that has celestial meridians, they fought with one another. In the end, they split it into four and only this mountain was left.” The manager introduced.

Li Xiandao said expressionlessly, “So if I move here wouldn’t I offend the four of them directly?”

Li Xiandao canceled the thought of paying. I asked you to find a place but you arranged for me to be near a cemetery.

You want me to be happy here?

You want me to meet ghosts?

Even if I agree, Seven wouldn’t,

Bad comments!

The manager looked at him and smiled, “Why not make a huge commotion?”

“Let’s find another one.” Li Xiandao was expressionless.

“If we find another one then it might not be so good. The mountain has celestial meridians below. Think about it, for four factions to treat as their ancestral mountain, how good must they be? They are at least grade six.” The manager praised.

Celestial meridians were split into nine grades. Grade nine was the best and every grade below was weaker. Even the weakest one was better than those of Nine Skies and Ten Lands.

So the manager was right. If one didn’t consider the fact that this was a cemetery, it was indeed a good place. After all, there was a grade six celestial meridian there.

But how could one not consider that?

Li Xiandao wasn’t willing to live with the dead.

“Actually I can just stay here temporarily.” Seven’s voice rang out in Li Xiandao’s mind.

Li Xiandao was confused, “To be neighbors with the dead?”

“Humans are more terrifying than ghosts. To be neighbors with ghosts might be much better than being neighbors with humans.” Seven said.

“Moreover, there is also a grade six celestial meridian. That is the most important thing. With it, your cultivation speed would be much faster. Your subordinates’ speed will be much faster too.” Seven persuaded Li Xiandao.

Li Xiandao started to struggle.

He could choose not to listen to the manager but Li Xiandao had to consider Seven’s words.

“But there are tombs of four huge factions.” Li Xiandao added.

“The Bank of the Universe is hidden in the sky and the guests never come in from outside. How would we disturb them?” Seven asked Li Xiandao.

Li Xiandao was confused. He looked at the manager and said seriously, “Let’s not talk about this for now. Tell me, what is the situation with Black Water Island?”

“Black Water Island?” The manager said right away, “Black Water Island is Celestial Dynasty’s prison in North Nether Region where prisoners are locked up and secret things are done in. Anyways that place is really dangerous. You better not go there, you can’t offend them.”

“What kind of prisoners are locked there?” Li Xiandao was confused, “Wasn’t there an Eternal Prison under the Celestial Dynasty?”

When he was in the lower worlds, Li Xiandao broke Nine Skies and Ten Lands and Eternal Jail’s connection and released some prisoners.

So Li Xiandao knew about it.

“Yes there is but that isn’t a place that anyone can enter.” The manager said.

“Only those who can’t be pardoned and did terrible crimes could enter Eternal Jail.” The manager shook his head.

“Since they can’t be pardoned then why not kill them. Why lock them up?” Li Xiandao asked.

“This is Celestial Dynasty’s old tradition. From the start, they didn’t kill criminals. That is because once you are killed, you won’t know anything and it all ends. Celestial Dynasty felt like it was a release. The early Celestial Dynasty didn’t kill people and just locked them up, never to be free again. They would be punished and live a life worst than death. Which was why Eternal Jail was created.” The manager explained.

“From the start, the jail was designed for such people. Then there were more and more prisoners so different levels of jails were made. Black Water Island was one such one.” The manager said.

Li Xiandao nodded. He broke out in cold sweat for Tian Guangming. If he went to Black Water Island, he would definitely lose a layer of skin.

“Customer since I have answered and found you a place, thank you for your business. Please pay me 10 thousand Celestial Crystals!” The manager squinted his eyes and reached out.

Li Xiandao’s pupils constricted. he was even worse than him, “Manager, look at my eyes.”

“What?” The manager instinctively looked at Li Xiandao’s eyes in confusion.

Hong!

Li Xiandao focused fully and entered the manager’s eyes, causing his body to shake.

In an instance the manager was stunned. He then started feeling dizzy and collapsed.

Li Xiandao helped him back to his original spot and then marked the map before placing the things back to their spots.

“I waited for you to open your mouth but I didn’t expect the price. I don’t have so many celestial crystals yet so please sleep for a while.” Li Xiandao wiped away his memory.

He then left a celestial artifact, one that was stored in the Bank of the Universe.

Zhang San’s celestial artifact!

Li Xiandao didn’t sacrifice his celestial artifacts so now he used them to handover to the manager.

Zhang San was stunned. He teared up but he still had to maintain a smile.

“Don’t worry, Master will compensate you for it.” Seven consoled.

Bank of the Universe - Chapter 581 - Spiritual energy switch

Chapter 581: Spiritual energy switch

Li Xiandao left Tianyu City. He had gotten the information that he wanted so he didn’t bother to do anything else.

The most important thing now was to bring Bank of the Universe into Celestial World and let his subordinates all break true and become true celestials.

Nine stages of true celestial. Li Xiandao was just at stage one, he needed to improve himself.

Li Xiandao also needed to receive Celestial World guests and solve the Celestial World contracts. The contracts in Celestial World were much more than Nine Skies and Ten Lands as this was the true main focus of Bank of the Universe in the past.

Let’s not mention having to save Tian Guangming.

He was brought to Black Water Island and his life was in danger. Li Xiandao often paid attention to Tian Guangming to ensure that he didn’t die.

On the way to Black Water Island, Tian Guangming’s cultivation was locked up. He was sent there by the Celestial Dynasty’s Guard Army and he couldn’t break free.

Li Xiandao had to deal with so many things and didn’t have the mood to continue strolling around Tianyu City.

When he exited the city, he wasn't noticed by Emperor Beiqiu's men. He headed towards the location that the manager gave him.

Lu Mountain!

This was a famous cemetery mountain. It was split into four and the seniors of the four factions were all buried here. They laid out formations and drew many seals to prevent people from entering and causing trouble.

This Lu Mountain was covered in celestial seals. There were many formations and only one place didn't have any.

This was the lone peak at the center of Lu Mountain.

The four factions realised that they couldn't deal with one another so they decided to split up the area. So with this lone mountain as the center, they split it up into four. Only after did they lay out formations, seals on their own territory, cutting off the lone peak.

So this lone mountain was Li Xiandao's best target.

After entering Lu Mountain, Li Xiandao instantly sensed the thick celestial energy here.

It was ten times that of the outside, maybe hundred times. It was really pure and it was the essence of celestial energy.

All of this was because of that great six celestial meridian below. This was also the reason why Li Xiandao chose this lone peak.

Each pore of his was absorbing celestial energy to strengthen himself, allowing his dry body to be nourished.

Li Xiandao lacked such celestial energy.

He absorbed while walking and improved very quickly. In just a short while he had already improved so much. That was just unbelievable and was showed the strength of the celestial meridian.

There were celestial restrictions all over and formations laid up all around. Some were open while some were hidden. Once one touched it, one would be noticed. The guards in this place would rush over.

But all of these weren't too problematic for Li Xiandao. He was someone who had spent much time on the Restricted Mountain Peak.

He dodged both the obvious and hidden formations and seals before reaching the mountain.

The mountain stood alone and it seemed really stubborn. There were mountains all around. Numerous tombs were placed on them and they stood side by side. This entire mountain range was like a mausoleum with tens of thousands of dead buried here.

This lone peak was the landmark here which was why it wasn't taken down. This was what the four factions set as the center so naturally no one touched this place.

Li Xiandao reached the top and looked at everything around. He saw the giant mausoleums and many tombs as well as white colored cherry blossom trees waving in the wind.

The mausoleum was silent and Li Xiandao said with satisfaction, "Apart from it not sounding that good, everything else is great and there aren't many problems."

Li Xiandao liked the silence.

He immediately controlled Bank of the Universe, asking Seven to burn ten thousand top quality spiritual energy dragon veins to break the barrier and come here.

Hong long long!

In Li Xiandao's eyes, the space in the distance shattered. World Power surged and a giant bank appeared in the Celestial World.

The speed far exceeded Li Xiandao's expectations.

Dong!

The Bank of the Universe landed on this lone peak and it was hidden in space. Everything was perfect.

"Okay, from now onwards, I will reestablish Bank of the Universe's name in the Celestial World." Li Xiandao's eyes lit up. He stepped forwards and entered Bank of the Universe.

Hong long long!

After entering the Bank of the Universe, Li Xiandao realized that there were huge changes here.

Spiritual energy was sucked out and celestial energy surged in to replace it. It was really strong and switched out the ancestral dragon spirit meridian.

Li Xiandao wasn't too shocked. This was quite normal. Each time Bank of the Universe entered a new world, the spiritual energy will be switched into the thickest form.

Now that they were in the celestial world, the celestial energy wasn't something spiritual energy could compare with so naturally they were switched.

So Li Xiandao found those scenes quite normal.

He came to the square and looked at the mountains. The Ancestral Dragon spirit meridian was changing. Its core spiritual energy dissipated and it used celestial energy to shape itself.

This change made Li Xiandao's subordinates stand up in shock. They all felt the surging celestial energy and opened their eyes wide.

Blood Dragon said emotionally, "I can reach Celestial Realm."

Chaos Dragon Crocodile waved his tail and said happily, "I can also try to break true, using celestial energy to wash myself should be great."

Heaven Heart opened his eyes. One eye showed tens of millions of demons and the other showed the scenes of buddhas discussing the dao.

Heaven Heart had been improving himself and he comprehended the demon and buddha in one dao. Now, with the celestial energy, he smiled and said, "I can break through."

For a monk to break through was really simple. He opened his arms and instantly celestial energy surged into his body.

Crack!

Just like that, Heaven Heart started to break through.

Bank of the Universe was absorbing celestial energy from outside. Lu Mountain had thick celestial energy with the grade six celestial meridian. Even with such absorption, it didn't cause much commotion.

The mausoleums were silent and even if there were people guarding, they wouldn't notice this peak had a giant bank absorbing the celestial energy.

Who knew how much was absorbed as Heaven Heart broke through. The old priest followed as well as Lucifer, Moon Angel, Blood Dragon, Chaos Dragon Crocodile...

All of them broke through one by one and reached stage one. They officially became celestials.

As for Li Xiandao, he didn't relax. But for him to break through, he needed large amounts of celestial energy.

Li Xiandao was still at stage one for now.

Dong dong dong!

When the celestial energy reached a peak, the Bank of the Universe was filled up. Ancestral Dragon started to transform and turn itself into the Ancestral Dragon Celestial Meridian.

This break through sucked dry all the celestial energy in the Bank of the Universe. It then returned the favor and let the thickness here exceed the grade six celestial meridian outside.

At that moment, the Ancestral Dragon Celestial Meridian flew around and gave out roars of excitement.

Li Xiandao nodded his head in satisfaction, "Celestial energy switch is complete, time to deal with actual matters."

Chapter 582: Yun Manor Lord!

The Ancestral Celestial Spirit Meridian turned into the Ancestral Dragon Celestial Meridian. This caused all the spiritual energy in Bank of the Universe to turn into celestial energy.

After seeing that, Li Xiandao nodded his head in satisfaction and said, "Not bad, this grade six celestial meridian is really strong and it can allow one to improve quickly. Even I can't help but be tempted."

Energy surged in Li Xiandao's body and he was crazily absorbing celestial energy like he was about to break through.

But he controlled it and didn't rush to do so. He wasn't in a rush.

What Li Xiandao had to consider was how to develop Bank of the Universe.

In Heaven Sky, the moment before he ascended, Li Xiandao finished all the treasures in the treasury. He unlocked the seventh mountain and obtained unlimited watches.

Now that he could scatter unlimited amounts of watches, but Li Xiandao didn't have much items that he could trade for.

The treasury was empty and there was nothing at all. Li Xiandao could only use lifespan to trade.

His own, his subordinates. This made him shake his head. He didn't want to trade with lifespan.

He looked at the still emotional Ancestral Dragon Celestial Meridian before entering the Trading Hall.

Seven stood in front of it and looked at Li Xiandao.

"How many watches do you want to release?" Seven asked.

"What is the point, the treasury is empty and I am only at True Celestial Realm, I can't help the others." Li Xiandao shook his head.

Seven looked at him and asked, "So you are choosing not to?"

Li Xiandao thought about it and said, "We do need to place some out but we still need our own treasury and can't use it all up every time."

To plan for the future. This was the problem that Li Xiandao considered and it was also the problem in future development.

He couldn't use up all the treasures within so as to unlock the mountains.

Within Nine Skies and Ten Lands, Li Xiandao's cultivation could increase quickly so it wasn't much of a problem.

But he couldn't do the same in Celestial World.

Li Xiandao definitely couldn't reach Celestial King or Celestial Emperor in a short time so Bank of the Universe still had to store up some treasures.

"How many contracts do we have here?" Li Xiandao asked.

"You can't even defeat the weakest host." Seven said honestly.

Li Xiandao smiled helplessly. He was prepared to ask for contracts back but now those thoughts were ended.

"Release 50 watches. We shall trade lifespan, talent and other things. As long as we have it and they can pay it. We can also trade the Ocean God's divinity." Li Xiandao said solemnly.

Ocean God was Goddess of Light's lackey and his divinity wasn't weak. If they took it out to trade, they could earn a lot of things.

Anyway, Li Xiandao's men didn't want it.

Seven nodded, "I have released 50 for them to choose their own hosts. In just a short while guests will come."

Li Xiandao nodded. He couldn't help but ask, "Since there are so many contracts, none of the hosts decide to pay up?"

The Celestial World had more contracts than Nine Skies and Ten Lands. This frustrated Li Xiandao. So many of them and none of them followed the contracts and kept their promise.

"Not for now but the Bank of the Universe just entered Celestial World and they don't know. I will go and check the contracts." Seven thought about it and said.

"En, pay attention. If some people are willing then he would be our esteemed guest." Li Xiandao said in disappointment. So many of them and none stuck to the contract.

Hooligans!

Seven looked at how angry Li Xiandao got and changed the topic right away. She asked, "Have you seen Tian Guangming's current situation?"

"I saw, he is still on the way there. They placed him in a coffin and carried him over to Black Water Island. Last night he entered the ocean so he shouldn't be too far from Black Water Island." Li Xiandao nodded.

"We need to save him back soon. Since he is at Black Water Island, he should be in danger." Seven reminded Li Xiandao.

"I know, now Tian Guangming is still really safe and isn't in danger. We need time to save people too if not it is impractical for us to charge there with our cultivation to save him." Li Xiandao said calmly.

He had been observing Tian Guangming and noticed that he was being sent there.

Li Xiandao waved and Tian Guangming's scenes appeared in front of him. One could clearly see that he was a little weak, his cultivation was locked and he was placed in a coffin. However, his life wasn't in danger yet.

"Tian Guangming, listen to them. I am in Celestial World, give me time and I will save you." Li Xiandao said firmly.

"Master don't worry, I am fine, I will take care of myself." Tian Guangming was really calm. He entered Black Water Island and knew that he was in danger but since Master said that he would save him, then he would hold on until Master came.

"Take care of yourself!" Li Xiandao dissipated the pictures.

“Tian Guangming is not in danger but we still need to speed up.” Li Xiandao said solemnly.

“Master there is a guest.” Seven suddenly said.

“So fast?” Li Xiandao had a weird expression.

“Right, this one fits our requirements and he was the first to be found.” Seven nodded.

“That’s good, prepare to receive the guest.” Li Xiandao nodded his head. Since this was the first guest, he placed high importance on him.

Who knew what benefits this guest could bring him.

...

Celestial World, North Nether Region, Yun Manor!

Yun Manor wasn’t a top faction and was just established for 30 years. It was established by a couple and the master of it was the famous Yun Manor Lord.

Yun Manor Lord, a famous genius who was just 100 years old and had exceptional cultivation. He reached the celestial realm and was really deep in.

With his cultivation, the older generation would praise him as a genius.

Everyone that knew Yun Manor Lord would associate him with that word.

Yun Manor Lord was a hero that didn’t have a fixed home. He roamed the land and cultivated all about.

But such a genius like him actually had his heart captured by a girl in the North Nether Region. He then laid roots here and had a son.

The birth of the son increased his reputation.

But this improvement was really ironic.

The father was invincible in the world but he surrendered to his son.

This was the Yun Manor Lord father and son pair.

The famous Yun Manor Lord’s son was actually a talentless trash and he cultivated really slowly. He used the celestial energy here along with Yun Manor Lord’s support and resources, but when he was twenty, he was only at Destiny Realm.

He was total trash.

If he was in Nine Skies and Ten Lands, he would receive the title of top genius. After all, he was a twenty-year-old Destiny Realm expert.

But unfortunately, unfortunately...

Chapter 583: Yun Tianxia!

Yun Manor Lord's son was called Yun Xiatian and was 30 this year. He was at Destiny Realm.

If he was in Nine Skies and Ten Lands, he was an absolute talent. To reach Destiny Realm at 30, if he wasn't a genius then what was he.

But in Celestial World he was trash.

Especially with his father giving him numerous resources.

So when Yun Tianxia was outside and met people of the same age who challenged him, there was only one outcome.

Admit defeat, surrender!

This was Yun Tianxia. A person that was mocked by many but still had hope for the future.

...

In North Nether Region, Yun Manor was huge and occupied a mountain range. There were many followers who followed Yun Manor Lord.

Obviously Yun Tianxia was their young master.

Something more obvious was that under the context of Yun Tianxia failing to cultivate well, he started being a spoilt brat.

Each time he felt frustrated with life or had random thoughts in his mind, he would bring a large batch of people out to bully the kids of aristocratic families. He would bully those arrogant disciples who bullied other disciples.

Those people bullied the weak, they were arrogant and spoilt so Yun Tianxia bullied them.

So the people in the surrounding dozen cities were really respectful towards him. If they couldn't beat him then they insulted or created rumors...

Yun Tianxia knew about that. Anyways everyone knew about how he was trash.

Today he was in a bad mood. He realized something terrifying that made his heart cold.

He would never be able to break through from Destiny Realm.

Even if Father gave him many resources and treasures or celestial crystals, he wouldn't be able to get out of Destiny Realm.

His talent was at its limit.

How could Yun Tianxia accept such a blow?

He was really dizzy and walked out of his home in a dispirited manor.

After he left, a bunch of people followed to protect him.

They had no choice. Yun Tianxia had beaten up nearly all the aristocratic family kids all around. Anyone who bullied commoners or the weak weren't let off by him.

The worst time was when he beat his own cousin up till he nearly died. That shocked everyone.

His grandfather became really famous because his daughter married Yun Manor Lord. Even his son and grandson became arrogant and looked down on others.

His cousin actually raped a merchant's daughter when he was 18, forcing her to kill herself. That caused a huge commotion.

That matter ended haphazardly because the old man wanted to protect his grandson, threatening the merchant that his son-in-law was the Yun Manor Lord. If he dared to continue spreading it, he would ask Yun Manor Lord to kill the all.

This threat forced the merchant to swallow the matter in rage.

In the end the culprit was free outside in delight and he even wanted to continue doing such things.

Yun Tianxia bumped into him. Without saying a word, he smashed his cousin's leg. In front of many, he trashed his dantian so that he could forget about cultivating. Moreover he couldn't live for long and would die around fifty or sixty years old.

Yun Tianxia's grandfather naturally couldn't accept that, neither could his uncle. They all questioned him and forced Yun Tianxia to cure their grandchild and son.

For this, Yun Tianxia just said one sentence to scare them all away.

"If you make some more noise, I will kill your grandson and your son so that your family has no more descendants. If you don't believe me you can try." That sentence stunned Yun Tianxia's grandfather and uncle.

"In the future you are not allowed to use my father's name to behave arrogantly. If not don't blame me for not holding back." Yun Tianxia said coldly. He had no closeness with his grandfather and uncle at all.

After scaring them off, Yun Tianxia saw his father. He thought that his father would blame him but he didn't even mention a single thing. He left some spiritual energy treasures and said, "Continue to work hard and improve yourself."

After this matter, Yun Tianxia's arrogance and heartlessness became known.

He didn't even care about his grandfather and uncle and trashed his own cousin.

Wouldn't he do more to outsiders?

As for dealing with Yun Tianxia, many people wanted to do so and kill him before fleeing. If they were far away, could Yun Manor Lord find them?

But Yun Manor Lord sensed those thoughts so each time when Yun Tianxia headed out, a huge bunch of people followed him.

Today when Yun Tianxia headed out, he didn't call anyone. So this group followed him and didn't dare to be careless.

The unhappy Yun Tianxia headed out and people saw him. The news spread and many spoiled kids decided not to head out. They closed their doors and remained at home. Yun Tianxia's 'fame' was still really high.

After walking about, he didn't even see a single one of them which made him feel even worse. He came out so as to vent his anger on these people. But since they aren't out, that made him really disappointed.

"Annoying, as a spoiled disciple they are actually so cowardly. How embarrassing.: Yun Tianxia scolded.

If those kids heard it, they would definitely tell him, "If you didn't have so many people around you, would I be afraid of you?"

“Young Master, look at the treasure at that store, buy one to make yourself feel better.” One of his men reminded.

Yun Tianxia was not in the mood. He didn't feel like buying anything now.

He took a look. A red watch appeared in front of him and stunned him.

“This thing... It is so attractive.” Yun Tianxia muttered.

“Then buy it young master.” His subordinate said right away.

“Okay, I shall.” Yun Tianxia decided right away. His subordinate went to pay while he held onto the watch.

“Bank of the Universe welcomes you. You can trade anything in the Bank of the Universe, as long as you can afford it.” The voice from the watch stunned Yun Tianxia.

“Did you hear that?” Yun Tianxia asked his men.

“What?” He shook his head.

Yun Tianxia frowned and looked at the red watch. All his unhappiness was gone and he suddenly became happy.

“I think I got an amazing thing that can change my destiny.” Yun Tianxia smiled.

“Young Master are you feeling better?” His subordinate asked in surprise.

“Yes, let's go back.” Yun Tianxia waved. He held tightly to the red watch and went home.

Chapter 584: Cancelling Marriage!

Yun Tianxia started to study the red watch right after he went home.

The voice from the watch reverberated, telling him that he could trade anything in the Bank of the Universe as long as he could afford it.

Yun Tianxia didn't fully believe it. Although his cultivation wasn't high, but he was knowledgeable. He naturally wouldn't believe it so he chose to find his parents.

He believed that his father Yun Manor Lord would know how to deal with this.

But before he met his father, he heard servants discussing.

“I heard that young master’s talent has reached the peak. He wouldn’t be able to reach Celestial Realm in his life.”

“That is impossible?”

“It is true. I heard that Old Master went all about to beg people to get help but unfortunately no one can help young master.”

“Young master is so pitiful. Old Master is so amazing while he can’t reach Celestial Realm. He doesn’t have hope anymore.”

“Why don’t Old Master give birth to one more kid. They are still young and can have one more.”

“What do you know. People who are stronger has a lower chance of giving birth.”

“Haiz, Old Master and madam have their hearts shattered because of young master.”

“Although young master can’t reach Celestial Realm, he can continue being rich. He can at least live to he is tens of thousands of years old.”

“That is true, anyways he has a better life than all of us.”

“No, if young master is like that then what happens to his fiancée?”

“Fiancée? You are talking about Miss Jin Yu?”

“Right, she is the head of the ten female celestials and is really amazing. I heard that she is unhappy with young master and wants to stop the marriage.”

“Stop the marriage, if a girl cancels the wedding on a guy, that would be embarrassing.”

Yun Tianxia frowned when he heard that. Jin Yu actually wanted to cancel the marriage?

At that time, a servant walked over and saw Yun Tianxia. He said right away, “Young master, Old Master is looking for you and wants you to head to the hall. Jin Family people are here.”

Yun Tianxia’s heart shook, they came to cancel the wedding?

He hurried to the guest hall and saw a devilish looking, cold girl standing there.

“Uncle Yun, please forgive me for being unable to agree to the marriage agreement that you signed with my father. I came to cancel it and give each other some face.” The girl

was Jin Yu, the head of the ten female celestials in North Nether Region and the top genius of Jin Family in this generation.

In front of her stood a stern middle aged man. His aura was as deep as the ocean and he looked at her calmly, "You even personally came. In the future outsiders will mock my son even more and you dare to talk about showing me face?"

Jin Yu wasn't afraid. She wasn't alone. Because Jin Family was afraid that Yun Manor Lord would be angry, she brought five elders who sat at the side. If Yun Manor Lord is angry, they would help out to protect Jin Yu.

"Uncle Yun, you can tell the outside world that your son doesn't want me. Reputation is for the weak but to me, I don't care about it at all." Jin Yu said proudly. She gave Yun Manor Lord face and gave him a way out.

Yun Manor Lord looked at Jin Yu, especially the five elders by her side. He took in a deep breath and agreed.

"Wait, I don't agree." Yun Tianxia entered and said coldly.

Jin Yu turned her head and looked at Yun Tianxia in disdain, "You are not in the position to talk here."

She then turned towards Yun Manor Lord and said coldly, "Uncle Yun, I know that you are a genius and are much stronger than I am but your son isn't. We aren't from the same world. Although the marriage was agreed but rather than suffer together, why not end it now. Please speak, don't let Yun Tianxia cause trouble."

"Cause trouble?" Yun Tianxia frowned and laughed coldly.

"Let me tell you, my father and yours set this marriage. Your father relied on mine to become the Jin Family head. Now you start to look down on me?" Yun Tianxia looked at her in disdain.

"You are just a talentless piece of trash." Jin Yu said coldly.

"I have been since young, who in North Nether Region doesn't know that?" Yun Tianxia stared. He didn't care about everyone else and just laughed coldly.

"In the past your father wasn't the head and needed my father's support so you didn't come. At that time I was already trash, why, have you forgotten? Or the two of you are just shameless and yeild to people with power?" Yun Tianxia mocked.

Jin Yu's face turned black and she said coldly, "I am talking to Uncle Yun on behalf of Yun Family."

“My son is also talking on behalf of Yun Family.” Yun Manor Lord said calmly. He looked at his son and didn’t stop him.

“Uncle Yun!” Jin Yu looked at him in shock and anger, “You are letting your trash of a son to debate with me?”

“What debate? You are just calling me trash and trash. Your upbringing is enough to show what your parents are like. Let me tell you, we aren’t ending this wedding. Even if I die, I am still your ex husband. I won’t marry you, I will just drag this so you can’t marry anyone else. You will be my fiancée forever.” Yun Tianxia said coldly.

“You are provoking me.” Jin Yu looked at Yun Tianxia in rage.

“This is Yun Manor and not your Jin Family.” Yun Manor Lord scoffed coldly. His aura spread out. The expressions of the five elders changed and they stood up to stop him.

But with a look, it felt as if mountains were pressing down, preventing them from moving.

“My son already said that you can’t cancel the agreement. You may leave now.” Yun Manor Lord said coldly.

“Okay, since Uncle Yun loves this trash then let’s wait and see. At most I will just be a widow.” Jin Yu left furiously.

“Before I die, if you dare to find other guys, I will tell my father to attack you. I want to see whether or not your father can have a stable footing as the head of Jin Family.” Yun Tianxia said.

Jin Yu was furious as she stared at Yun Tianxia but there was nothing she could do. She could only scoff coldly and leave. The elders who came with her all didn’t say a word.

In the hall, only Yun Tianxia and Yun Manor Lord were left.

“Father, I will change myself. This humiliation would only happen once.” Yun Tianxia said solemnly.

“I believe you.” Yun Manor Lord said firmly, he believed that his son wasn’t someone who would give up.

“Father, I am leaving.” Yun Tianxia gave up on his original thought and left right away. He returned to his place and crushed the red watch.

Yun Tianxia was here in the Bank of the Universe.

Chapter 585: Look At The Contract!

Bank of the Universe, Trading Hall, Li Xiandao was waiting for a guest to arrive.

This was his first guest in Celestial World so naturally Li Xiandao looked forwards to it.

Now the Bank of the Universe treasury was empty so Li Xiandao didn't have much to trade. Since he could trade, naturally he was really touched.

"What kind of person is this guest?" Li Xiandao asked.

Seven knew his basic information but Li Xiandao didn't so he was filled with a sense of mystery.

"A young man who just had his wedding canceled on him." Seven thought about it and said.

"A kid that had his wedding canceled?" Li Xiandao looked at Seven in shock, "Why?"

"His cultivation is too low. He is not talented while his fiancée is high above and is a genius." Seven said.

"Trash fighting back and then rising up?" Li Xiandao was shocked. This sounded like such a story.

This was the first time Li Xiandao met such an accurate case.

The young teen was trash, a beautiful fiancée, a top talent who came to cancel the marriage. The teen was motivated and a huge chance appeared. He rose up and had support...

Li Xiandao was familiar with this story. He suddenly realized that the Bank of the Universe was actually his own huge chance.

That was interesting.

"Did the guest say something like 30 years on the east of the river, 30 years on the west?" Li Xiandao smiled and asked.

"No, does that mean something?" Seven shook her head and she didn't understand.

"Nothing, I just feel like him not saying such a thing when his marriage was canceled just doesn't feel right." Li Xiandao explained.

“The guest didn’t let the fiancée successfully cancel it. He didn’t agree and he said that he wanted to waste her time.” Seven said.

Li Xiandao was stunned, didn’t agree?

When Li Xiandao and Seven were talking, Yun Tianxia arrived.

He crushed the red watch and arrived in the Bank of the Universe. He followed the instructions and walked to the Trading Hall.

Yun Tianxia was really careful and stepped into the Trading Hall.

“Welcome guest, please sit.” Li Xiandao’s expression turned solemn and he said.

Yun Tianxia’s nervousness dissipated and he asked, “Can I really trade everything in the Bank of the Universe?”

“Of course.” Li Xiandao smiled. Pretty much every guest would ask that and he would explain it politely.

“The prerequisite would be that you can pay the price.” Li Xiandao added.

“What do you mean by enough price?” Yun Tianxia asked nervously.

“It would depend on what you need.” Li Xiandao explained seriously.

“The same thing has a different level of need in the hands of different people.”

“For example, a top talent isn’t worth mentioning to some geniuses. They have it so naturally, it isn’t worth much. But those with normal talents or those who are extremely untalented badly need it. The price would naturally be much higher.” Li Xiandao explained.

Yun Tianxia nodded his head in agreement. He then said nervously, “I won’t hide it from you, I am the second type of person you mentioned.”

Li Xiandao smiled, “No worry. Just as I said, if you can take something out, I can trade something of equal value.”

“Even if you want a top talent it is fine.” Li Xiandao added.

Yun Tianxia’s eyes lit up and he looked at Li Xiandao emotionally, “Really?”

“What do you need?” Li Xiandao knew the answer but he still asked.

“Talent, top talent. I need talent that can allow me to reach the peak.” Yun Tianxia asked eagerly.

Li Xiandao pointed and Seven brought out Ocean God’s divinity.

“This is the primordial divinity of someone from the God Race from the last eon, once you merge with it, you will have all the talents of the Ocean God.” Li Xiandao introduced.

Yun Tianxia’s eyes lit up. He looked at the Ocean God’s primordial divinity emotionally.

Li Xiandao looked at him and smiled, “The Ocean God’s primordial divinity can help you improve, what do you think you can give me for it?”

His face froze up. He looked at Li Xiandao with deep desire.

But Li Xiandao wasn’t touched, he just looked at him calmly.

Now it was Yun Tianxia’s turn to speak.

“I am a piece of trash.” Yun Tianxia said solemnly, “I have been trash since young.”

“I have no treasures and resources. I cultivated to Destiny Realm solely because of my dad.”

“If I didn’t reincarnate well, I would be dirt which anyone can step on.”

“If other people had the resources that I ate, one might be able to nurture a Heaven Celestial but I am only able to reach Destiny Realm.”

“My fiancée looks down on me and just used my father to get benefits. Now that she benefitted, she wants to kick me away.”

“I only have my parents, I don’t have anything else.”

Yun Tianxia said out his situation.

The only thing he relied on was his father. His father treated him well. That father didn’t like to smile and didn’t talk much to him.

“So the only thing I can take out is my father.” Yun Tianxia said solemnly.

Li Xiandao shook his head, “Your father is your father, he is not you. He can help you but he can’t turn it into your item. Each person is independent. Even if you are father and son, you can’t tell him about Bank of the Universe. If you speak about it, lightning would destroy you.”

Yun Tianxia's heart shook. If he didn't have his father, what else did he have?

He was useless.

"I have nothing at all, nothing." Yun Tianxia said bitterly.

"Isn't your body perfectly fine?" Li Xiandao pointed.

Yun Tianxia looked at Li Xiandao in shock, he didn't expect Li Xiandao to have such a heavy taste.

He was handsome but you couldn't crave his looks, right?

Yun Tianxia rejected but when he looked at the Ocean God's primordial divinity, he said with embarrassment, "I can give you my body but please be gentle."

Li Xiandao blinked and he was stunned!

I am talking about business and you are actually talking about such perverted stuff?

"Seven prepare a lifelong contract." Li Xiandao said calmly.

Seven prepared the contract right away and passed it to Li Xiandao.

"Take a look yourself, if you don't agree then head out." Li Xiandao tossed the contract to Yun Tianxia and said right away.

He wasn't a top beauty, even if it was, he couldn't compare to Seven.

Seven looked at Li Xiandao in satisfaction and then smiled at Yun Tianxia.

Yun Tianxia took it in confusion and took a look. He was instantly silent.

A lifetime!

Chapter 586: Merging With Ocean God Divinity!

A lifetime. Did you want a boring life with no achievements and then disappearing into nothing. Or did you want to try your best, even if the outcome isn't good but you would have no regrets?

Yun Tianxia chose the second option.

So he accepted the choice that Li Xiandao gave him.

He wrote down his own name on the contract and became Li Xiandao's subordinate.

A lifetime!

When he signed his name, he suddenly felt much more relaxed. The outcome was settled and he didn't have a chance to regret anymore.

"Do you know why I want you to be my subordinate?" Li Xiandao asked.

Yun Tianxia shook his head. He mocked himself, "I don't think that I am that valuable to get the Ocean God's primordial divinity."

"You do know your place." Li Xiandao was surprised.

"People need to be clear about themselves so they won't get arrogant." Yun Tianxia said.

"Right, I like your personality. As you said, you are worth nothing now. Your only value is that you came to the Bank of the Universe and the Bank of the Universe had some problems. Your chance is here." If Yun Tianxia wasn't the first guest and his father was strong, Li Xiandao wouldn't agree to signing the lifetime contract.

Now Li Xiandao didn't need to develop subordinates like that anymore. He needed strong experts.

The most important thing in the world was fate. Li Xiandao brought the Bank of the Universe into the Celestial World and now the treasury was empty. Only a few things were left. Yun Tianxia came. Li Xiandao didn't want to develop more subordinates but fate was just so special.

"I am lucky." Yun Tianxia felt fortunate.

Li Xiandao looked at him and said, "You are my subordinate so call me Master."

"Yes, Master." Yun Tianxia nodded sincerely.

"Don't let others know about Bank of the Universe and me. The moment you head out, you are still your Yun Manor young master. The only thing you have to do is to help me investigate some things." Li Xiandao said.

"What?" Yun Tianxia asked.

"Do you know Jin Zhengyang?" Li Xiandao asked.

Yun Tianxia nodded, "I do, he is a disciple of the Jin Family and is one of the acceptable kids. He entered Celestial Dynasty and became a small captain."

Li Xiandao looked at Yun Tianxia and said, "Find out where he stays at and other details about him. The more detailed the better."

"Jin Zhengyang offended Master?" Yun Tianxia asked.

"Yes." Li Xiandao nodded, "I remember that your fiancée is from Jin Family?"

"My Fiancée is Jin Yu, she is the daughter of their current family head. She is Jin Zhengyang's cousin. But don't worry Master, I don't have feelings for this fiancée and we don't like one another. They are heartless people. I will help Master deal with Jin Family." Yun Tianxia said firmly. He was clear about this question on allegiance.

"Investigate it first and don't alert them. He sent my subordinate to Black Water Island. Once he comes out, then charge at Jin Family." Li Xiandao said coldly.

"Black Water Island..." Yun Tianxia looked at Li Xiandao in shock.

"Very few people could exit Black Water Island alive." Yun Tianxia was worried.

"You don't have to worry about that. Tian Guangming is stubborn and he can survive. Remember to investigate Jin Zhengyang carefully." Li Xiandao chose to believe Tian Guangming.

"I know." Yun Tianxia nodded his head respectfully.

"Now I will help you change into Ocean God's primordial divinity. Like Tian Guangming, I will remove the Ocean God's consciousness and just merge the divinity. You don't need his memories." Li Xiandao stood up.

Ocean God's memories belonged to that of a lackey. He willingly followed the Goddess of Light. Li Xiandao didn't want Yun Tianxia to become a lackey too. If so he wouldn't want Yun Tianxia to be his subordinate.

So he chose to remove the Ocean God's memory and merge with the primordial divinity.

Yun Tianxia didn't know about what memory merger or primordial divinity merger, "I shall listen to Master, Master definitely won't lie to me."

Li Xiandao smiled. This attitude was great. He didn't explain much more, taking out the Ocean God's primordial divinity and splitting it up.

Consciousness and the divinity split. All of this happened quickly under Li Xiandao's control.

Li Xiandao wasn't doing this for the first time so he progressed really quickly. The Ocean God's consciousness was removed.

"What happened, why did I get separated from the primordial divinity?" Ocean God was stunned and he looked around. He questioned Li Xiandao.

"Who are you to dare to do that, preposterous." Ocean God scolded Li Xiandao/

"Make him shut up." Li Xiandao said coldly.

Seven walked forwards and sealed him. She then tossed him into the Bank of the Universe treasury.

Li Xiandao took the empty primordial divinity and walked to Yun Tianxia, "From now onwards, close your eyes and don't think about anything."

Yun Tianxia cleared his mind and closed his eyes.

Li Xiandao took the primordial divinity and changed it for Yun Tianxia.

The process happened quickly with no sense of rust at all. Yun Tianxia found it really magical.

He felt like Li Xiandao had cleared his mind out and then gave him a new one. He instantly felt like the world was different.

The world that he saw before was similar to dozens of mountains. The key was that he fell into a hole when he was ten so the world he could see was even lesser.

But now he was standing at the highest peak, looking down and seeing everything beautiful.

The world was perfect.

Yun Tianxia was so emotional that he wanted to cry. He opened his eyes and knelt down for Li Xiandao.

"Thank you Master for giving me a new lease of life." Yun Tianxia said emotionally.

"Stand up and then serve me well." Li Xiandao said calmly.

Yun Tianxia stood up and nodded, "I will dive into flames for Master."

"You can head out now and return home. Use your father's resources to cultivate. At the same time investigate Jin Zhengyang and Black Water Island. I need Black Water Island's information." Li Xiandao instructed.

“Okay, I will definitely find everything out for Master.” Yun Tianxia nodded his head firmly.

Li Xiandao nodded. He waved his sleeves. Yun Tianxia’s body was like smoke which dissipated.

Chapter 587: Benefiting Because Of Misfortune!

The Yun Tianxia deal was completed. Li Xiandao got another subordinate. He was from North Nether Region and was a local.

After completing the deal, Li Xiandao contacted Tian Guangming.

If Tian Guangming was in danger in Black Water Island, Li Xiandao had to think of a way to save him.

If Tian Guangming wasn’t in danger, Li Xiandao was more relaxed.

Entering Celestial World, they had to start from scratch. Li Xiandao had to deal with many things.

...

Black Water Island, a place covered by dark clouds that didn’t scatter at all. It was really dark and terrifying.

Tian Guangming was brought to such a place and was using to train troops.

He didn’t know what that meant but he found out after he was here.

Black Water Island, most of them were vicious people. They were strong but Celestial Dynasty didn’t kill them and just locked them up.

They nurtured them, unless they swore loyalty would they be released.

Such a person also needed entertainment on Black Water Island.

There were many entertainment options and one of them was called troops training.

Simply put, one had to spar with them. If one died then they were unlucky, if they didn’t then they would continue.

Very few people survived and at most one would survive for three to four times before they were beaten to death.

So Jin Zhengyang didn't worry about Tian Guangming's threats at all. He felt like people who entered the Black Water Island as troops trainers had no chance of living.

But Tian Guangming was an exception.

On the first day he entered Black Water Island, the coffin that he was in was placed in a cemetery.

Tian Guangming walked out from it.

There were Guards Army troops here. They sent Tian Guangming towards the central region.

"Why did you need to carry me in using a coffin?" Tian Guangming followed the Guards Army troops and asked.

"This coffin will be your future home." The soldier said coldly.

"What do you mean?" Tian Guangming was confused.

"You were carried in as a troop trainer. When you get beaten to death, this coffin would be where you will be placed in and you would be buried in this cemetery." The soldier said.

Tian Guangming looked at the giant cemetery and blinked calmly, "Then can't I just not get beaten to death?"

The soldier looked at Tian Guangming in shock, "You are quite calm. I have received many people and all of them are so nervous, worried, panicky. The only thing they didn't have was calmness."

"Since I am here, if I am calm then you will let me go?" Tian Guangming asked helplessly.

The soldier held Tian Guangming in higher regard, "Although you are going to die soon, I am impressed by you."

"Soon?" Tian Guangming's brow rose up.

"Someone asked for a troop trainer so I will send you there. You don't have to find others anymore. If you are beaten to death then you should be one of the quickest." The soldier said coldly.

Tian Guangming gritted his teeth and started to argue, "What if I don't die?"

“If you don’t die this time then you will die next. You aren’t even at Celestial Realm, you are useless.” The soldier said in disdain.

“You help me remove my restrictions and I will break through right away.” Tian Guangming shouted.

“It will be unlocked when you arrive there.” The soldier said calmly without turning his head. He brought Tian Guangming to a courtyard.

“Go in.” The soldier pushed Tian Guangming and unlocked his restrictions.

Tian Guangming stumbled in. He saw a giant strong man who was staring at him vengefully.

The key was that he was covered in hair like a black bear. When he saw Tian Guangming, he grinned and then charged.

Hong!

This guy was really terrifying. He was at True Celestial cultivation and that exceeded Tian Guangming.

Peng!

He punched and Tian Guangming tried to block. He felt as if a mountain had smashed into him. His organs suffered unstoppable damage and his body started to shrink up.

This was a really terrifying scene.

Tian Guangming flew backwards and the guy smashed into his chest.

Kacha!

Tian Guangming’s chest caved in and he spat out blood. He instantly lost consciousness.

Peng peng peng!

Just like that, he was smashed several times. Once he finished venting, not a single bone in his body was normal.

“You still have a breath, you are stubborn.” The guy looked at Tian Guangming who had a small bit of breathing left and said in shock.

He then flew up and then sat down.

Hong!

Tian Guangming's body shook like soft soil.

When the guard saw that, he shook his head, "I told you that you would be one of those that died the quickest."

He and the strong guy both thought that Tian Guangming was dead.

But in the next second, his chest rose up slightly.

"He didn't die even like that?" The guy said in shock. After he vented his frustration, he didn't continue to attack. He looked at Tian Guangming in shock.

The soldier looked on in shock and said to the guy, "Attack him once more and kill him."

"No, this person is so stubborn, why will I kill him?" The strong brute shook his head and objected to attacking.

"Bring him back and see if he can still survive?" The brute said.

"He is already so weak, he can survive?" The soldier mocked in disbelief.

"Bring him back, I don't want to attack anymore." The brute waved his hands and turned around to return to his room.

The soldier could only bring Tian Guangming back and toss him into his coffin.

"I shall put you in right away. You don't need to be buried after you die." The soldier said calmly and covered the lid.

...

Within the Bank of the Universe, Li Xiandao and Seven saw those scenes.

"So tragic." Li Xiandao said.

"Too tragic." Seven sighed.

"Can he survive?" Seven asked Li Xiandao.

Li Xiandao shook his head, "I don't know but based on experience, he should have died right away. For him to actually survive, that is a problem."

"Tian Guangming is a genius. Do you remember how Feng Jiuer beat him nearly to death, he then instantly regenerated in Time Hall?" Li Xiandao asked Seven.

“But Tian Guangming used 100 years to recover.” Seven said.

“But Tian Guangming is 100 times stronger than them.” Li Xiandao explained.

So his regeneration speed might be 100 times quicker.

Which meant that Tian Guangming wouldn't die.

As expected, Tian Guangming started to regenerate. Like a butterfly, he was being born again.

Cracks started to appear on his body. New skin and flesh were giving off a translucent color.

The surrounding celestial energy was all absorbed by Tian Guangming.

Fortunately, he was in the cemetery and there was no one around. Tian Guangming could relax and just absorb the celestial energy.

He was reborn.

Li Xiandao looked on calmly and smirked, “Tian Guangming has benefitted from this misfortunate. His talent has been totally activated.”

Seven was shocked, “That is unbelievable, then wouldn't he get stronger the more he is beaten up?”

Chapter 588: I Love My Job!

Tian Guangming's Light Body was showing its effects.

It was able to heal up from heavy injuries and after he recovered he would improve.

Tian Guangming who was nearly beaten to death started to recover.

The energy in the entire cemetery gathered in his body, allowing him to swiftly break through to True Celestial Realm.

He didn't break through when he ascended and was immediately sent to Black Water Island. Who knew that after getting beaten up, Tian Guangming would break through so quickly.

The sun rose up and the moon set. Celestial energy swept, exploded, spread, and then filled up each corner of him.

Dong!

Tian Guangming pushed open the lid of the coffin and walked out. He looked at the mountains and rivers around and stretched. He felt great.

“I have been cultivating in the light, as expected, now that the light comes, I have received salvation.” Tian Guangming was really emotional.

When he was in Nine Skies and Ten Lands, he had already awakened this talent.

But at that time he was still at the initial state and his recovery speed was really slow. He spent a year in the Time Hall before he was able to fully recover.

But it was different now. His talent was strengthened such that Tian Guangming would fully recover within a day.

With that, Tian Guangming’s thoughts started to run wild.

He felt that Black Water Island wasn’t so dangerous anymore.

“Master, I think that I can train in Black Water Island for a period of time.” Tian Guangming contacted Li Xiandao.

Within Bank of the Universe, Li Xiandao and Seven looked at Tian Guangming.

“Are you sure?” Li Xiandao asked.

“I am sure. I awakened a special talent. I gave it a name called Light’s Ark, with this, Black Water Island was not so dangerous. Instead, I can work hard to improve myself here.” Tian Guangming said firmly.

Li Xiandao witnessed the whole process and naturally knew how terrifying Tian Guangming’s talent was. “Of course, you can train in Black Water Island but be careful.”

“I will Master. Once I walk out of Black Water Island, I will definitely be Master’s strongest subordinate. I will overtake Heaven Heart, Lucifer, and Moon Angel.” Tian Guangming’s eyes lit up as he said in confidence.

“Then good luck to you.” Li Xiandao ended the conversation and relaxed.

“Since Tian Guangming isn’t in danger on Black Water Island then shouldn’t we be able to tide across the tough start in Celestial World?” Seven asked.

Li Xiandao nodded, “From now onwards, we need to remain quiet, cultivation, and improve ourselves.”

“Burning Legion is in the Bank of the Universe. You need to think of a way out for them. Their cultivation method isn’t solely from meditation.” Seven reminded Li Xiandao.

“I know but there is no need to rush. I need to improve myself first.” Li Xiandao said with certainty.

He felt like he was too weak and he didn’t improve.

Now that Tian Guangming wasn’t in danger, Li Xiandao didn’t need to worry for him. He just needed to worry about improving himself.

Li Xiandao wanted to head to Legacy Hall.

...

On Black Water Island, after Tian Guangming reported to Li Xiandao and told him not to think of ways to save him.

Tian Guangming went to find the soldier that brought him to be beaten up.

Tian Guangming wanted to continue to get beaten up.

He made up his mind to become Master’s strongest that he would improve himself in Black Water Island.

“I want to crush Heaven Heart and the others and be a good example for Li Wuya.” Tian Guangming thought about it.

When the soldier saw Tian Guangming, he was frightened and was shocked, “You aren’t dead?”

Tian Guangming grinned, “Maybe my life is tough.”

The soldier looked at him with a weird expression. He was so badly injured that he thought he was definitely going to die. But just one night and Tian Guangming was able to be so active. This made him shocked.

“What happened to you?” The soldier sized up Tian Guangming.

“You also broke through to True Celestial Realm?” The soldier was shocked.

Tian Guangming entered True Celestial Realm and was at stage one, the same realm as them. They were at stage seven.

But for some reason, Tian Guangming felt like he didn’t fear this person.

Who knew was it because he was strong or because this soldier was weak?

“I broke through to True Celestial Realm so you can bring me to be a troop trainer.” Tian Guangming said excitedly.

“You are sick in the head, you want to get beaten up?” The soldier’s brow rose up.

“You don’t have to go. You were just beaten up so you can rest for a while. Just wait for a month.” The soldier cared for Tian Guangming.

But Tian Guangming didn’t care and just scolded, “What is wrong with you. I love my job. For me to slack on my job, that is impossible. I am a troop trainer so I need to do well at it. Don’t try to stop me.”

The soldier was stunned. You aren’t able to fight back at all, did you want to die?

He shook his head at Tian Guangming, “Since you are insistent on dying then I will fulfill your wish. Follow me, I will bring you to find a really strong person.”

Really strong?

When Tian Guangming heard that, he was delighted.

Being strong was good, only when someone was strong could he activate his talent.

“Okay, thank you.” Tian Guangming thanked this soldier.

“Thank you?” The soldier was stunned. He was sending Tian Guangming to death, to someone even stronger than the one yesterday.

Tian Guangming’s thanks stunned him.

Since you said thanks then I won’t find a terrifying person for you. I will bring you to someone easier and also a newbie. Although he is strong, he won’t attack so strongly.

The soldier told Tian Guangming his thoughts and smiled in delight. I decided to give you a chance so what else did you want?

Who knew that Tian Guangming, who was just smiling, eyes turned dark. His face sunk as he scolded, “You fool, who told you to be nice to me. I love my job while you are tempting me to slack here. What are you planning, I want to report you.”

The soldier was furious. He was thinking on behalf of Tian Guangming who knew that he would end up getting scolded.

“Okay, I want to see what ability you have. Today I will bring you to a slaughterer.” The soldier scolded. He chose a really strong person for Tian Guangming.

He was delighted and said, “That’s right, arrange more people to beat me up. I have thick skin and will be fine.”

Chapter 589: Ancient Dragon Elephant Power!

Tian Guangming was brought to a stage nine True Celestial’s garden while he looked on from the door.

As expected, less than a minute later, Tian Guangming was beaten up like a dead dog. His body was really soft and his breathing was slight. His face was swollen and he was tossed out.

“Such a trash can’t even last for a minute, why did you send him over?” A voice of disdain spread out from within.

The soldier looked at Tian Guangming who was like a dead dog and smiled happily, “You asked for it, you even scolded me. Now you know how strong he is, right?”

Looking at Tian Guangming who was left with a breath, the soldier was kind and tossed him into the coffin.

“Can you continue to recover this time?” The soldier was curious.

The first recovery might be a miracle but more of such couldn’t be described as a miracle anymore.

...

Within the Bank of the Universe, Li Xiandao came to the Legacy Hall.

Tian Guangming was getting stronger. His other subordinates were working hard too. The Bank of the Universe was currently at the accumulation stage.

Legacy Hall wanted to improve himself so he needed to enter the Legacy Hall.

On a Legacy Hall mountain range, many ancient geniuses were buried here. They were really strong and here there were many Celestial World people.

Li Xiandao only came into contact with Zhao Wuji, Sword God, the priest, and Zhong Baishen.

They could teach Li Xiandao when he was in Nine Skies and Ten Lands. With their teachings, Li Xiandao improved quickly. He didn't need to find others and didn't have to be too greedy.

But now, Li Xiandao entered Celestial World. The priest, Zhong Baishen, and the others couldn't help me much so he needed to find someone else.

So Li Xiandao passed the four of them and came to a new tomb.

This was a tomb and not a small burial ground.

It was built well. In the Legacy Hall Mountain Range, he belonged to one of those cleaner ones.

Li Xiandao came here and saw a few big words on the tombstone.

“Unnamed person's tomb!”

The few words were really huge and direct. Along with this clean tomb, it seemed really special.

Li Xiandao stood in front of it and said, “Senior, please come out to talk.”

“You are the Master of Bank of the Universe?” A crisp voice rang out. Li Xiandao turned around and saw a person.

Long robe, white hair. His aura was really clean like his tomb.

“Senior how should I address you?” Li Xiandao asked.

“Didn't you see the words on the tomb?” The unnamed person pointed.

“I saw it, did senior choose to forget your name, or are you really called Unnamed Person?” Li Xiandao asked.

“Is there a difference?” Unnamed Person asked.

Li Xiandao thought about it and shook his head, “There is no difference.”

“One's name is a title, like you are the Master of the bank so I call you Bank Master. I don't ask you for your name because that is not needed.” Unnamed Person said calmly.

“That makes sense.” Li Xiandao nodded.

“Why did you find me?” Unnamed Person asked Li Xiandao.

“Cultivation. I just entered Celestial World and am too weak.” Li Xiandao said solemnly.

“That is true.” Unnamed Person looked at Li Xiandao and didn’t hold his words back.

Li Xiandao smiled helplessly. He was really strong on Nine Skies and Ten Lands but after entering Celestial World, he was a new person.

“How do you want to become stronger?” Unnamed Person asked and sized up Li Xiandao curiously.

“There are many different ways?” Li Xiandao was confused.

“Of course, some people aren’t in a rush and improve slowly. They want to walk each step in an orderly manner. Although it isn’t quick, it is stable.” Unnamed Person said.

“Some people want to improve quickly, they comprehend everything quickly like drinking water. They would break through really suddenly.” Unnamed Person said.

“I feel like I am the second type.” Li Xiandao thought about it and said.

Unnamed Person looked at Li Xiandao and nodded, “Since that is the case, then let’s talk about what to pay attention to in Celestial World.”

“Okay, I am all ears.” Li Xiandao paid attention. He really didn’t know about these things.

He had just entered Celestial World and didn’t know anything. With a teacher, he could take fewer wrong paths.

“Celestial World starts from celestials.” Unnamed Person thought about it and started.

“Celestial World is huge, it is several times bigger than Nine Skies and Ten Lands added together. There are many people and many races. Normally they are split into the upper class and lower class.”

“Upper class has Celestials protecting them while lower class don’t.”

“This differentiation is really violent and simple. So most races are upper class, only those races who can’t break through are lower class. But due to Celestial World’s size, they could hide in one location and survive.” Unnamed Person added.

“The Celestial’s first step, True Celestials Realm. The exact differentiating point is the Ancient Dragon Elephant Power.” Unnamed Person looked at Li Xiandao.

“Ancient Dragon Elephant Power?” Li Xiandao’s brow rose up.

“You broke through into a celestial and entered True Celestial Realm. Did you comprehend many daos and absorbed a lot of celestial energy which is stored in your body?” Unnamed Person asked Li Xiandao.

Li Xiandao nodded. He comprehended many daos and absorbed a large amount of celestial energy which was in his body.

“These daos and celestial energy stack together to form Ancient Dragon Elephant Power. Ten thousand Dragon Elephant Power can form one Ancient Dragon Elephant Power.” Unnamed Person said.

“I understand, then how should I transform them?” Li Xiandao asked.

“Look at me.” Unnamed Person slapped.

Hong!

Violent celestial energy mixed with the dao spread out to suppress Li Xiandao.

In an instance, there were numerous dragon roars and elephant cries.

“This is 9999 streaks of Dragon Elephant Power, I used a True Celestial’s stage one attack.” Unnamed Person told Li Xiandao.

Li Xiandao’s body didn’t move at all and said, “A little weak!”

Unnamed Person was stunned, “What did you say?”

“9999 Dragon Elephant Power is a little weak.” Li Xiandao added.

He just felt that palm and sensed that it wasn’t as strong as he thought.

9999 Dragon Elephant Power was just that?

“In Celestial World, a normal True Celestial has only one to three thousand. Only geniuses would reach 9999.” Unnamed Person reminded Li Xiandao.

“No one exceeds ten thousand?” Li Xiandao was curious.

“Breaking through ten thousand, one would have one Ancient Dragon Elephant Power. In stage one, he would be really terrifying.” Unnamed Person said.

Li Xiandao’s eyes lit up and said, “Then what about two Ancient Dragon Elephant Power”

“All the factions will fight to recruit you and want you to join their organizations.”
Unnamed Person said.

“Then what if one breaks through ten?” Li Xiandao asked.

Unnamed Person blinked and looked towards Li Xiandao.

Li Xiandao blinked and said seriously, “Did Celestial World record how many Ancient Dragon Elephant Power does a stage one True Celestial have?”

Chapter 590: True Celestial Laws!

Unnamed Person said, “Records said that the most was 11.”

“11.” Li Xiandao was deep in thought.

“Why, you have 11?” Unnamed Person asked.

Li Xiandao shook his head, “I don’t have 11.”

For some reason, Unnamed Person heaved a sigh of relief.

“But I have 15.” Li Xiandao added.

He didn’t have 11, he had 15.

Unnamed Person was stunned and looked towards Li Xiandao. He asked in disbelief, “15?”

Li Xiandao nodded, “Is Ancient Dragon Elephant Power like this?”

Hong!

Li Xiandao slashed. Human Slays Celestial, he used the first move, 100 Forms!

After this strike, the energy turned into the surging Dragon Elephant Power. The 100 Forms that it executed was really strong.

Hong long long!

This strike smashed into Unnamed Person’s head and burst like fireworks. It was really beautiful.

The energy from this strike surged out and reached a peak before expanding.

Ten thousand Dragon Elephant Power into one Ancient Dragon Elephant Power.

Li Xiandao had a full 15 of them which exploded on Unnamed Person's head. He looked on in shock and he found it really unbelievable.

"How do you have such strength?" Unnamed Person asked.

Li Xiandao smiled, "By slowly cultivating."

"15 Ancient Dragon Elephant Power, that already exceeds the strongest geniuses I know." Unnamed Person exclaimed.

"Ancient Dragon Elephant Power is relatively simpler, I believe that many can get more than ten. But some people are low profile and won't reveal it." Li Xiandao said.

"That makes sense. For example, if you don't say it, no one would know that you have 15." Unnamed Person nodded and agreed with Li Xiandao's words.

Li Xiandao looked at Unnamed Person and didn't say a single word.

These 15 were from his own body. He also had 19 worlds, once he used that, then how many Ancient Dragon Elephant Power would he have?

Li Xiandao himself didn't dare to think about it. After he entered Celestial World, he had been absorbing Celestial energy to improve his body as well as the Nine Skies and Ten Lands.

His Nine Skies and Ten Lands were reborn and it was now filled with celestial energy.

Li Xiandao's current strength was changing each day. He was weak when he just entered Celestial World and was now slowly getting stronger.

Now that he found Unnamed Person, Li Xiandao wanted to continue to strengthen and become more terrifying.

"Since you have reached 15 Ancient Dragon Elephant Power, you can break through to stage two." Unnamed Person said.

Li Xiandao nodded, "I can break through, but thinking about it, I need to accumulate. I want to cross True Celestial Realm at once."

"After True Celestial is Heaven Celestial, that has Heaven Celestial laws, it is different from Ancient Dragon Elephant Power. For you to accumulate and break through at once, that is really difficult." Unnamed Person told Li Xiandao.

"I am not afraid, let's take it slow." Li Xiandao said firmly.

“Okay then. You have Ancient Dragon Elephant Power so just comprehend True Celestial laws. The more you comprehend then you can reach Heaven Celestial Realm.” Unnamed Person said.

“True Celestial Laws?” Li Xiandao looked at Unnamed Person curiously.

“The difference between celestials and other cultivators are in celestial laws. True Celestials have True Celestial Laws and Heaven Celestial will have Heaven Celestial Laws. You need to improve the laws you comprehend. When celestial laws stack, that is the strongest power.” Unnamed Person said.

“Then what about Ancient Dragon Elephant Power?” Li Xiandao asked.

“It is equally important. In True Celestial Realm, Ancient Dragon Elephant Power is able to suppress one. Before you comprehend enough Celestial laws, Ancient Dragon Elephant Power will suppress the enemy. Of course, once you enter Heaven Celestial Realm then it won't be that useful anymore.” Unnamed Person explained.

“Then how do we comprehend True Celestial Laws?” Li Xiandao asked.

“Fight with me, I will use True Celestial Laws and you can try to comprehend it.” Unnamed Person said.

Li Xiandao's eyes lit up. He was familiar with this, the all-knowing talent was looking forward to this too.

“Bring it on.” Li Xiandao asked him to bring it on.

Unnamed Person pulled and a streak of True Celestial Law exploded. Like lightning, it flew out and exploded, sending fear into one's heart.

True Celestial Laws, swift like the wind, thick like chains that wanted to tie one up.

Li Xiandao immediately used the 15 Ancient Dragon Elephant Power to block. An ancient giant elephant cried out and ancient dragons roared in rage.

Hong!

Li Xiandao blocked that strike. Although it made him retreat several steps, he still blocked it. Moreover, he saw through the attack.

“Did you see that strike?” Unnamed Person asked.

Li Xiandao nodded.

“Then, you can use a month to comprehend.” Unnamed Person waved his hands.

“You are only teaching me that?” Li Xiandao asked in confusion.

“Learn it first before learning others.’ Unnamed Person frowned. He thought that Li Xiandao was being greedy.

“I have already learned it.” Li Xiandao said directly.

“What did you say?” Unnamed Person looked at Li Xiandao in shock.

Hong!

Li Xiandao didn't say anything else. He raised his hand and power exploded. A really strong True Celestial Law appeared on his hands.

That strike was exactly the same as Unnamed Person's. Li Xiandao's attack totally replicated it.

Hong long long!

Moreover, in terms of strength, Li Xiandao's one was slightly stronger. His body had 15 Ancient Dragon Elephant Power while Unnamed Person didn't use that many.

When this True Celestial Law exploded above Unnamed Person's head, he was really shocked.

Li Xiandao's True Celestial Law was exactly the same as his. How did he do that?

He thought that Li Xiandao would need a month but Li Xiandao used less than a minute.

“How did you do that?” Unnamed Person looked at the True Celestial Law and was stunned.

Even at his full strength, he didn't comprehend things like that.

“Really simple, I looked at it and replicated it in my heart. Just like that I learned it.” Li Xiandao said honestly.

“So simple?” Unnamed Person looked at Li Xiandao.

“To me, things are just so simple so teach me other True Celestial Laws. The more I accumulate then I can break through to Heaven Celestial Realm.” Li Xiandao said eagerly.

He badly needed to break through now.

Unnamed Person nodded, "I will show ten True Celestial Laws, can you comprehend them?"

Li Xiandao's eyes lit up, "Use it quickly, I will comprehend it."

When Unnamed Person saw that, he used ten True Celestial Laws.

Hong long long!

Li Xiandao looked on attentively.
