

## Bank of The Universe #

### Chapter 71: Bottomless Pit of Raising a Child

There was this phrase in Li Xiandao's old home!

Raising a son would cost so much money that his father would become poor!

Li Xiandao didn't understand what those words meant in the past; how much could a kid even eat?

But now, he realized that he was just too innocent!

Seven's expression was really ugly, "Can we do a refund?"

Li Xiandao blinked.

"They ate the 400,000 God Source that we had in just one meal. On average, each mini Flame King will eat 40 God Source!" Seven was finding it hard to imagine how much God Source they would have to consume to raise them up.

"As they grow, their appetites will also slowly increase." Seven said.

Li Xiandao was stunned!

He looked towards these mini Flame Kings, who were all joyous after having their bellies filled; he felt like his head was about to explode.

"How long can a meal last them for?" Li Xiandao asked the key question.

If they ate a meal a day, he wouldn't even be able to steal enough food for them!

Seven took in a deep breath and said, "2 meals a day!"

Li Xiandao's heart was dripping blood and he looked towards Seven in disbelief, "They are newborns, so is there a need to eat so well?"

"Can we torture them a little?" Li Xiandao thought of a good idea.

"For example, feeding them one meal a week or one meal a month!"

"If you don't want an invincible Burning Legion, then we can torture them." Seven said helplessly.

"An invincible Burning Legion?" Li Xiandao's eyes lit up and he was really tempted.

With the Bank of the Universe's systematic approach and with the Ten Thousand Country Book Depository being redeemed soon, their upper limit would be much higher with him than with their unreliable old man.

Just thinking about how they would enter Celestial Realm in a short time and how Li Xiandao would bring them to sweep the Celestial Realm made him really emotional.

"Then, let's wait for a while. Place the mini Flame Kings in the Time Hall and let me think about how to raise them and keep them alive." Li Xiandao felt like he was in a really tough situation.

Wasn't it just raising an army? But the input required was just too huge.

Seven suggested, "Master, Battle Angel Michael and White Emperor Tian Guangming are bringing the Ancient Dragon Tomb back. If the treasures inside are enough, it won't be a problem to keep the mini Flame Kings alive.

Li Xiandao nodded his head. "I am also waiting for them to come back, otherwise, we really won't have anything for them for their next meal."

Li Xiandao didn't even have a single drop of God Source left!

Much less a full piece of it!

He was unable to activate the Celestial Artifact Heaven Emperor Brush and it just remained silently in the Bank of the Universe.

He didn't feel it before, but at this moment, he realized exactly how poor he was.

"So, poor people shouldn't randomly give birth to kids or they won't be able to keep them alive." Li Xiandao muttered and felt that the Flame King was scum.

He didn't consider whether or not he could raise them, just making more and more, creating 10,000 of them at once.

Without Li Xiandao taking over, it would be a miracle if even 1,000 of them could survive.

...

Li Xiandao was waiting for Battle Angel Michael to return.

Archangel Gabriel had helped Li Xiandao deal with the bad debts and returned to Bank of the Universe.

Li Xiandao didn't say anything, sending him to take care of the mini Flame Kings right away.

When Archangel Gabriel saw so many of them, he was shocked.

There was also Heaven Heart who came back from collecting debts.

He brought back the Hundred Flower Holy Land treasury!

An entire treasury!

Li Xiandao passed it all to Seven and let her feed it to the mini Flame Kings!

Two meals!

One day!

It was all gone!

,000 mini Flame Kings finished the treasury of a Holy Land in just one day.

Their appetites were also increasing at a visible rate!

When Li Xiandao saw such scenes, he was filled with regret!

A while ago, he felt like this deal was a huge win, but now it just felt like a bottomless pit!

There was nothing Li Xiandao could do but send Heaven Heart to collect debts.

There were still a few sects in Dali Land that owed the Bank of the Universe debt, so Li Xiandao had no choice but to send him to get them back.

After filing all the contracts, he found that five were worth collecting.

They were from Ten Thousand Demon Valley! Hundred Flower Holy Land! Mingde College! Diandao Sect! Ten Thousand Buddha Sect!

Out of the five, he had collected the debt from Hundred Flower Holy Land and he was left with four, which Li Xiandao originally didn't plan on collecting back so quickly.

But he had no choice now.

Just thinking about having 10,000 giants in the future, each wrapped in flames and holding a standardized weapon to kill all enemies blocking his path, Li Xiandao's nerves tingled in excitement.

Even if the investment was huge, he couldn't bear to let the mini King of Flames go hungry.

He had no choice. So, Heaven Heart, who just returned, only took one look at the mini Flame Kings before he was sent out by Li Xiandao once more.

He had to get back all the four contracts along with interest.

“I allow you to attack. Whoever dares to stop you and delay time, just kill them!” Li Xiandao said coldly.

Heaven Heart didn't know where Li Xiandao acquired these 10,000 mini Flame Kings with limitless potential, but since he was under him now, he had no choice but to run the errands.

He was really strong and there was nothing the remaining four sects could do to him.

They couldn't beat him!

They didn't have reason on their side!

They had no choice but to compensate!

Each day, Heaven Heart would return with large amounts of God Source, large amounts of treasures, and large amounts of resources.

All of these would enter the stomachs of these mini Flame Kings.

They weren't picky eaters and as long as the items had energy and could replenish their cores, they would eat it.

The only thing Li Xiandao was happy about was the fact that they weren't picky!

If they ate so much and were still picky, then Li Xiandao would consider whether or not he would actually raise them.

Li Xiandao, Seven, and Gabriel were busy like that for four days. Even Heaven Heart started to get exhausted.

Heaven Heart went out to collect debts, sending them back and then heading out once more.

Gabriel and Seven were either feeding them or were walking to feed them. They were so busy that they had no time to rest at all.

Li Xiandao looked at the vast amount of resources disappearing right after being acquired; his heart felt so pained that he couldn't say a single word.

“Michael, come back quickly please.” Li Xiandao started to miss Michael for the first time.

Coincidentally, on the fifth day, Michael returned.

Battle Angel Michael, White Emperor Tian Guangming, Long Xun, and Long Haishou all returned and they said their goodbyes at the northern land.

“These are the treasures from the Ancient Dragon Tomb. I am passing them to you now.” Long Haishou passed the storage treasure to Michael.

Michael nodded his head, “From now on, you have no more business with the Bank of the Universe; you are free.”

Long Haishou exhaled a deep breath and smiled, “Yea, then we will be taking our leave.”

Michael and Tian Guangming looked on as they left.

In the next instant, Li Xiandao’s anxious voice rang out in their ears.

“Come back quickly. It is an emergency! If you don’t come back, someone will die!”

Michael and Tian Guangming’s faces changed. Was the Bank of the Universe under attack?

They didn’t dare to delay and they returned to the bank right away!

## **Bank of The Universe #Chapter 72: An Empire of Books - Read Bank of The Universe Chapter 72: An Empire of Books**

### **Chapter 72: An Empire of Books**

The Bank of the Universe!

Battle Angel Michael and White Emperor Tian Guangming hurried back and realized that the Bank of the Universe was extremely quiet. There was nothing wrong at all unlike what Li Xiandao had said.

“Master, what happened?” Michael asked doubtfully.

“Pass the Ancient Dragon Tomb treasure to me first. Then, we’ll talk about the other things later.” Li Xiandao couldn’t wait. He had to find out how many treasures there were in the Ancient Dragon Tomb.

Michael tossed the storage treasure to Li Xiandao right away.

Li Xiandao flicked his fingers, thick energy turned into a sword and struck the storage treasure.

Kacha!

It broke apart and all the treasures inside fell out.

Explosion!

The 30 dragon tombs fell out into the main hall, causing a huge commotion.

Luckily, the main hall was big enough to store all of them.

Li Xiandao reached out and removed the lids on the 30 tombs to expose the treasures within.

It was a feast for the eyes!

God Spirit Meridian, Ancient Spirit Stones, God Source Mine, numerous treasures, Flame Spirits, Dragon Soul Tree...

The treasures from the 30 dragon tombs were enough to satisfy Li Xiandao.

What made him more pleased was the main tomb out of them all.

The main tomb was huge, so one would naturally expect more treasures hidden within. But he didn't predict there to be only nine dragon eggs within.

A dragon egg in the Ancient Dragon Tomb; one didn't even need to think and one knew whose it was!

Hellfire Dragon!

They were a branch of the Ancient Dragon Race, who were really strong and had explosive personalities. They were of fire nature and their outer appearance looked really vicious. Once they matured, they would have the strength of a Celestial!

However, Hellfire Dragons were close to extinction now.

This was why Li Xiandao was really surprised to find nine dragon eggs.

Right away, he thought about how the mini Flame Kings could eat so much. If the Hellfire Dragons hatched, wouldn't they end up eating even more?

"This doesn't make sense. Why has my place become a kindergarten? Am I just raising kids now?" Li Xiandao came back to his senses and felt like he really had too many kids here.

,000 mini Flame Kings along with nine dragon eggs. Li Xiandao had turned from the master of the Bank of the Universe into the principal of a kindergarten.

"No, I have to think of a way!" Li Xiandao made up his mind to think of a win-win idea.

“Tian Guangming and Michael, send these few God Source Meridians to Seven and feed the kids first. We will then discuss what arrangements to make for them.” Li Xiandao instructed.

Michael and Tian Guangming followed orders, but they were totally confused. What kids?

Were there kids in the Bank of the Universe?

What kids had to eat so many God Source?

They were totally confused when they walked into the Time Hall, but when they saw everything in front of them, they were stunned.

The 10,000 mini Flame Kings had grown by much; they were now a meter tall and their bodies were wrapped in flames. Just looking at their aura alone, one knew that they were much stronger than Dao Pursuing Realm.

They had grown so much in just a short few days. If they continued to eat and drink like this, they would grow even quicker.

Seven took the God Source Meridians from Michael. Although they were of lower quality than God Spirit Meridians, they could still be turned into a few million God Source.

Just like that, they continued to toil and feed all these mini Flame Kings!

In the main hall, Li Xiandao started to collect the corpses of all these Hellfire Dragon Race dragons.

30 Dragon Race corpses was a huge number. There were also 30 coffins, which were treasures in their own right too.

Li Xiandao collected them all and stored them in the Bank of the Universe before taking out a God Spirit Meridian.

He wanted to redeem the Ten Thousand Country Book Depository!

The Ten Thousand Country Book Depository contained all of the secret techniques from 10,000 empires. Although a large portion had been loaned out, there were still many that were left in the Ten Thousand Country Book Depository.

Li Xiandao wanted to improve himself, so he had to redeem it.

There was another reason, which was that Li Xiandao had to prepare a cultivation technique for the 10,000 mini Flame Kings.

These mini Flame Kings were relying on their own talents to cultivate. They were growing based on their own ability.

But if he continued to allow them to do so, they would definitely follow in the path of the Flame King.

The Flame King was unrestrained in the Flame World and didn't think about heading out. He looked at the sky from the bottom of a well, not having a systematic training method, relying solely on his own instincts and talents.

This was the reason why he wanted to enter the human world to slowly learn and find his evolutionary path.

Li Xiandao wanted an invincible army, not one that was ill-disciplined and had differing cultivation levels.

The God Spirit Meridian was like an exquisite jade pan.

When it was in Li Xiandao's hand, he could clearly sense the energy that was contained within.

If the energy exploded out, it would definitely be huge. This God Spirit Meridian definitely wasn't of low quality.

Li Xiandao walked out of the main hall with it and looked towards the endless space around, "I want to redeem the Ten Thousand Country Book Depository!"

Explosion!

The space around the Bank of the Universe started to shake. The area outside the main hall was covered by a mist and one couldn't tell the direction or see anything ahead. But the shaking of the area around forced the mist aside.

The clouds and mist split and one could see distinct mountain peaks. The main hall was on one mountain, beside it was the time hall, and now a distant peak was revealed.

On the walls of the mountain were written four big words.

Ten Thousand Country Book Depository!

The entire mountain was a book depository!

This was something that Li Xiandao hadn't expected. He thought that it was just a small pavilion and not a giant mountain.

As the clouds scattered, Li Xiandao currently only had three mountains.

Trading Hall! Time Hall! Ten Thousand Country Book Depository!

The jade pan in his hand disappeared and turned into nothing.

Li Xiandao's body flashed and he appeared in front of the Ten Thousand Country Book Depository.

Giant pieces of stone, weighing 10,000 kilograms each, blocked both sides. Li Xiandao reached out and touched it slightly.

The stone door slowly creaked open.

Although it hadn't been opened in 10,000 years and the doors were heavy, in front of Li Xiandao, they still automatically opened without much difficulty.

This was because Li Xiandao was the owner of the Bank of the Universe!

The moment it opened, what surged towards his nose wasn't dust, nor the smell of decomposition, nor the smell of something that had aged.

It was the fragrance of the books!

Li Xiandao took in a deep breath of the book fragrance and he felt pumped up right away.

The moment he entered, he was instantly shocked.

The entire mountain was totally empty and numerous book depositories were carved inside. There were also many ancient era human statues, animal statues, and city portraits...

The key was that some of the books had ascended and had consciousnesses of their own. They were walking about within, no different from humans.

When Li Xiandao saw these scenes, he was amazed.

This was an empire of books!

## **Chapter 73: Book of War**

As he walked around the Ten Thousand Country Book Depository, what he saw was a giant city.

An empire of books!

Many of the books gave birth to their own consciousness. They had their own hands, legs, and features and could speak. When they spoke to one another, they seemed really polite and knowledgeable.

It totally shocked Li Xiandao and opened up a whole new perception of the world to him.

Li Xiandao's arrival shocked them and two of them surrounded him.

"It is a human!"

"It is a human. 10,000 years have passed, so has the Ten Thousand Country Book Depository finally been opened?"

"Is he our new Master?"

"That might not be the case. Let's take a look at the situation."

There were tens of millions of books in this empire. The entire mountain was dug out and there were a full 100 levels. Li Xiandao's arrival attracted their attention right away.

At that moment, everyone gathered together to look at Li Xiandao.

"I am your new Master!" Li Xiandao looked at them and was unafraid. He said confidently.

"You are our new Master?" A book that was wrapped in ice asked.

It must have been an ice element technique!

"Yes, I am the new Master of the Bank of the Universe and also your new Master." Li Xiandao nodded his head.

"Has the Ten Thousand Country Book Depository been unsealed?" A slightly yellow book with badly damaged edges asked.

Li Xiandao smiled, "Yes. I have redeemed the Ten Thousand Country Book Depository. From today on, you all can head out of the Ten Thousand Country Book Depository to play around the Bank of the Universe."

The moment he said this, many of the books started to excitedly show off their skills.

Ice element books froze a region, allowing everyone to ski.

Some fire element books spat out flames which melted the ice, causing it to rain down on the dry roads.

Some wind element books caused a gentle breeze.

The other different element books were all dancing happily, showing off their joy and elation.

Li Xiandao looked at them carefully and didn't disturb them. He realized that out of the tens of millions of books, only 10,000 of them gave birth to their own consciousness; it was a really low ratio.

These books with minds of their own became members of the empire, each having their own homes. They studied and some even started to date, to marry, and think about how to give birth to new books.

These books lived and played around in the Ten Thousand Country Book Depository without any worry at all. They celebrated Li Xiandao becoming their new Master, dancing and singing to welcome him.

Li Xiandao looked at how happy they were and his mood instantly improved.

This was a new race with no worries at all!

After they were done celebrating, Li Xiandao asked, "Is there a manager here?"

"Yes, the Ten Books of Heaven were the 10 managers before us." One book answered.

"Ten Books of Heaven?" Li Xiandao asked curiously.

"They were the 10 books that Shi Xiong created a long time ago." An old book coughed and replied.

"Shi Xiong?" Li Xiandao didn't understand anything that was being said.

After all, he had transmigrated and was a servant after he appeared in this world. Thus, he knew little about the world; one could even say that he knew nothing.

Shi Xiong created the Ten Books of Heaven a long time ago. The 10 were: Eternal Heaven Book, Book of Taixu, Book of Time, Book of War, Source Dao Book, Death Records, Moral Scroll, Book of Disaster, Guarding against Feelings, and Light of the Gods." The old book added.

Li Xiandao listened and didn't say a word.

"These 10 books were collectively regarded as the Ten Books of Heaven. The meaning of which was simple; if you get one, you will be able to fight against the heavens and compete against the earth." The old book explained.

Li Xiandao understood and asked, "Then, where are the Ten Books of Heaven now?"

“Nine were loaned out and only the Book of War is left in the Ten Thousand Country Book Depository.” The old book sighed.

“Where is the Book of War?” Li Xiandao asked right away.

He looked around and didn’t notice the tracks of the Book of War.

“It is sleeping. Last time after the Ten Thousand Country Book Depository was sealed, no one could enter and we couldn’t go out.

It fell asleep and told us to wake it up when the Ten Thousand Country Book Depository was open.” The old book said.

Li Xiandao was stunned and didn’t expect that the Book of War had such a personality.

“Where is it now?” Li Xiandao asked.

“The highest floor. It slept for 10,000 years and you can go wake it up now.” The old book said.

Li Xiandao nodded his head, “Go do your own things. I will head up to wake it up. As for your daily routines, just stick to what you are doing. I won’t disrupt your way of life.”

Those books, who were used to such a way of life, were at ease when they heard it. Their respect and impression of Li Xiandao improved greatly.

Li Xiandao didn’t want to revolutionize this place and enact strict rules on them.

After all, they were just a bunch of books that had minds of their own!

They had their own consciousness. After years of studying, evolution, and reading other books, they were far stronger than Li Xiandao.

Even if Li Xiandao had the all-knowing talent, he didn’t really know everything. He needed people to guide him.

Only with someone guiding would he be able to learn quickly.

He said goodbye to the books and walked to the highest floor.

There was only one platform and a book laid was laid on it. It was a really thick book and there was only one huge word written on it.

War!

The moment Li Xiandao saw it, he felt like he was sucked into it.

He saw endless wars!

He saw the sadness of corpses!

He saw the tragedy of rivers made of blood!

He saw the catastrophe of families being broken up!

He saw how terrifying war was!

He also saw how amazing the Book of War was!

In just a short moment, Li Xiandao saw many wars that took place from ancient times till now!

This book was made up of those many different wars!

The Book of War was unlike the other books that showed their hands and legs. It was just a book that laid there silently.

If he hadn't seen the books that had their own minds previously, Li Xiandao wouldn't believe that the Book of War would give birth to its own consciousness.

#### COMMENT

He picked it up and asked caringly, "Have you woken up?"

The Book of War didn't move at all!

Li Xiandao flipped it open and he saw a bunch of words.

Li Xiandao didn't even blink and activated the talent, using his omnipotent ability.

He quickly comprehended the techniques within the book.

Any book that could be called a Heaven Book had to be overpowered.

The Book of War was no exception. Nôv(el)B\\jnn

If one cultivated it successfully, one's aura would be like that of an army. The more one fought, the stronger one would get. War songs would also be able to heal one's injuries.

One would be in the perpetual motion of fighting wars!

Li Xiandao's first thought wasn't to cultivate it himself, but to give it to the mini Flame Kings!

There were 10,000 of them and if all of them cultivated it, they would never have to stop fighting!

The Book of War had a larger buff to armies compared to that of an individual.

Just as Li Xiandao was looking at it, a person was suddenly floating behind his back!

## **Chapter 74: First Meeting**

Li Xiandao was really engrossed in the book and the figure that appeared behind him didn't disturb him either. It just looked at him silently.

Only after Li Xiandao fully recorded the Book of War did he notice the figure.

"You are the Book of War?" Li Xiandao asked.

"Yes, I am." The person was a middle-aged man with neatly-combed, black hair. He wore a long robe and looked really solemn. His expression seemed really fierce; he didn't look like a person who was easy to get close to.

But this was only an outer appearance that didn't have much to do with how he really was deep down.

The Book of War said, "You are the new owner of the Bank of the Universe?"

Li Xiandao nodded his head.

"The last Master loaned us all out, so can you redeem us all back? How long have you taken over the bank for?" The Book of War asked.

Li Xiandao thought about it and said, "Around a month!"

"Hmm, it is still a really short time, but since you could redeem the depository, it shows that you have done well. At least you are different from the last owner." Book of War didn't bother to hide his disdain and dislike towards the last owner.

Li Xiandao asked, "Since you gave birth to your own consciousness and are in charge of this giant book empire, can you help me with something?"

The Book of War asked curiously, "What help do you need?"

After all, this was the new owner and he seemed decent, so the Book of War was willing to try to get close.

If he was the same as the last owner, then the Book of War was planning to sleep for another 10,000 years or so.

"Help me train an invincible army." Li Xiandao said as he stared at the Book of War.

The Book of War was the most suitable book for an army to learn from and along with the invincible war formation techniques in it, the army would be unstoppable.

The Book of War asked with a weird expression, "Help you to train an army?"

"Right, help me to train an army." Li Xiandao nodded his head.

"I am very strict when I train an army and normal people can't take it. Even if they can, if they don't meet my requirements, then I won't train them either." The Book of War said proudly.

"I promise that you will be satisfied with this army." Li Xiandao smiled confidently.

"Stop talking so big. What I care most about is talent; their talent can't be weak. Next is coordination, the mutual connection between one another. Some connections are natural and can't be trained up." The Book of War said calmly.

Li Xiandao continued to smile confidently, "You won't find any army more connected than mine."

The Book of War looked towards him with a weird expression, "Stop bragging."

"You will find out whether or not I am bragging when you see them. Let's go right now." Li Xiandao invited.

"Okay, I want to see if that is really the case or not. If they meet my requirements, I will train them. I will teach them all the strong formations, cultivation techniques, and ancient techniques." The Book of War said.

Li Xiandao led the way out of the Ten Thousand Country Book Depository and the Book of War followed behind him.

They came to the mountain peak where the Time Hall was.

Li Xiandao invited the Book of War to enter, "You will understand once you enter."

Book of War's main body was a book. He flew in mid-air and an illusionary body floated in front of him. This body was his spirit.

He pushed open the door and felt a flame surge towards it. Under the intense heat of the flames, he looked on in shock.

Mini Flame Kings!

,000 mini Flame Kings! Nôv(él)B\\jnn

They were all lined up. They were of the same size, looked the same, had the same talent, and were all connected to one another...

All these Flame Kings were created from one father and they looked the exact same. As for connections to one another, one didn't even have to think about it.

The Book of War took one look and was stunned. He hadn't felt such excitement in a really long time.

"Say no more, I will be their teacher, I will train them into the strongest army in the world. Even the Celestial King will be easily crushed." The Book of War praised them. He had so much love for these 10,000 mini Flame Kings right now.

The potential they had was just too high and he would be in charge of teaching them right from the start.

They wouldn't need too much training and would become an invincible presence.

The Book of War found his past passion. He had a new target, which was to create an invincible army.

Li Xiandao smiled in satisfaction. After he read the contents of the Book of War, he knew right away that it was the most suitable teacher for the mini Flame Kings.

With it, the mini Flame Kings' future was much better than their father.

"From now onwards, you will be their teacher, coach, and mentor. I will hand them over to you." Li Xiandao said seriously.

The Book of War said solemnly, "Give me some time and I will return you an invincible army."

Li Xiandao nodded his head in satisfaction and took in a deep breath, "The most important thing is to have a meeting to discuss their future lives."

The Book of War didn't understand why Li Xiandao wanted to discuss this, but he didn't object.

...

The Bank of the Universe's first meeting!

President: Li Xiandao!

Secretary: Seven!

Members: Battle Angel Michael! White Emperor Tian Guangming! Archangel Gabriel! Heaven Heart! Book of War!

These were all the members of the first meeting of the Bank of the Universe.

There was a long table in the Trading Hall. Li Xiandao sat down and said, "The main matter to be discussed today is the Flame Kings."

The other people didn't say a word and listened quietly.

Book of War frowned, "Is there a problem with them?"

Li Xiandao looked towards Seven.

Seven laughed awkwardly and said, "Everything is alright with them. The only problem is that they eat too much."

Everyone was stunned.

They eat too much?

What did that mean?

"10,000 of them consume a million God Source a day. This is already old data. Now that they have grown up, their rate of consumption has increased to two million a day. The treasures we got from the Ancient Dragon Tomb can only last for half a month." Seven said helplessly.

The Book of War was silent.

He didn't expect that they would consume so much!

He also knew that Li Xiandao had just taken over and didn't have many resources, so they had to solve this problem quickly.

Michael and Tian Guangming were shocked. They didn't expect them to consume so much.

Heaven Heart and Gabriel were taking care of them from the start, so they knew about it. They just kept silent.

"All of you know that we can't afford them, at least not now, so we have to think of a way." Li Xiandao knocked on the table.

Seven's eyes shone, "Master, I know a place that can fit them."

Li Xiandao looked at Seven in shock and asked, "What place?"

The others all looked at Seven.

What kind of place would be able to fit 10,000 mini Flame Kings?

# **Bank of The Universe #Chapter 75: Hell Sky - Read Bank of The Universe Chapter 75: Hell Sky**

## **Chapter 75: Hell Sky**

Seven replied to Li Xiandao. "Master, the Nine Skies and Ten Lands are 19 places. The Nine Skies are high above and the Ten Lands are spread out all around. Dali Land is the weakest, really secluded, and doesn't have many resources. Dali Land can't raise 10,000 Small Flame Kings, but the other places can."

Li Xiandao's eyes lit up, "What you say makes sense, but which place should we choose?"

The other people looked at Seven.

Seven was really confident and said, "When feeding them, I was thinking that since the 10,000 of them love to eat and aren't picky, then the most suitable place for them is Hell Sky!"

Hell Sky!

Li Xiandao thought about it and found some information about Hell Sky in his memory.

In the past, as a servant, Li Xiandao didn't have much knowledge about such matters.

"Hell Sky is the weakest sky out of the Nine Skies and its position is similar to Dali Land." Tian Guangming said.

As an elder of Tiandao Sect, White Emperor of Dali Land, he knew many things about the Nine Skies and Ten Lands.

Hell Sky was the same as Dali Land to a certain extent, and it was in an awkward state.

Hell Sky's strength was not that great among the Nine Skies, but if it was part of the Ten Lands, then it was still quite decent. However, no one in the Ten Lands was willing to accept it.

The reputation of the Ten Lands had spread for such a long time. It might have seemed like the other regions weren't willing to bother about Dali Land, but if it was taken away and Hell Sky was welcomed, the other Ten Lands might not have agreed.

The sole reason was because of their interests.

Dali Land would always be on the bottom of the Ten Lands and would never make a comeback. The other nine could always ride on their heads and do whatever they wanted.

But not Hell Sky.

Hell Sky was a member of the Nine Skies.

If it came to the Ten Lands, then it would suppress lands, their resources would slowly be consumed and experts would leave...

This was why Hell Sky and Dali Land were the same, they were the two most unassuming worlds in the Nine Skies and Ten Lands.

Nine Skies and Ten Lands was like a tree; Dali Land and Hell Sky were like the most bottom leaves and branches. Without them, it didn't look good, but at the same time, they weren't important.

It was just an additional thing!

This was why when Seven suggested Hell Sky and everyone to think about it, everyone realized that it was doable.

The Book of War said, "I went to Hell Sky a long time ago. At that time, it was still the strongest out of the Nine Skies. However, the problem with it was that there was too much killing; every moment, many people would die there. There are many races there, the most out of the entire Nine Skies and Ten Lands."

"Seven wants to bring the 10,000 mini Flame Kings over to train them?" Li Xiandao said.

"Yes, the Book of War will lead them there and slowly climb up from Hell Sky. They will train themselves and also cultivate the Book of War's techniques. With the formations and killing techniques, they will be able to form a strong army. In the end, if they are able to use all the skills from the Book of War, they will definitely shock Nine Skies and Ten Lands." Seven nodded her head.

Li Xiandao immediately looked at the Book of War. He had to agree for them to go ahead with this.

The Book of War was in deep thought and didn't reply right away.

Li Xiandao wasn't in a rush and just waited for him.

After a short while, he said, "I can bring them there and teach them all the techniques in the Book of War, but I have a request."

Li Xiandao asked, "What request?"

Everyone looked on silently.

The Book of War lived for a longer time than everyone here.

Even Battle Angel Michael and Archangel Gabriel, these two God Race angels, who had been through the so-called Epoch War, weren't as old as him.

A long time ago, the Book of War even showed off his strength in the Epoch War. One book and one army swept the Nine Skies and entered the Celestial World, taking down the ruler at that time.

However, men didn't talk about the past and the Book of War wasn't as passionate as before.

He said, "I want you to help me find the Master of War!"

Li Xiandao wanted to ask who he was!

In his memory, there wasn't such a person!

Seven immediately reminded him, "He was the person who created the Book of War!"

Li Xiandao understood, "Where is the Master of War now?"

Book of War sighed, "I don't know. I was separated from him and fell to the hands of the first master of the Bank of the Universe and was placed in the Ten Thousand Country Book Depository."

"That year, it wasn't a Ten Thousand Country Book Depository; it was just a small mountain cave." The Book of War thought back.

Everyone listened silently.

They were all really young and didn't understand this matter.

Seven seemed to have recalled something; she was filled with emotions and thoughts.

The first master of the Bank of the Universe was the first person she came into contact with.

The first for anyone would definitely leave deep memories and Seven was no exception.

She recalled that exceptional first master.

Li Xiandao glanced at her and grinned.

But he didn't say anything and just continued listening silently.

The Book of War sighed. "My consciousness was birthed in the Bank of the Universe and during that period I was loaned out several times."

"During this period the other books were collected. The 10 books all fell to Bank of the Universe and all had their own consciousness birthed, and they helped to manage the book depository."

"As there were more and more books, the place was renamed Ten Thousand Country Book Depository and the Master had also changed."

When the Book of War said this, he paused and thought back to something.

Seven was the same as she thought about the second master, who also left a deep memory in her mind.

When Li Xiandao saw this, he grinned once more.

The Book of War continued, "From then on, the Ten Thousand Country Book Depository started to form. We managed it and the newly birthed consciousness had a great relationship with us. Even if people borrowed them, they would return them quickly."

"All this stopped when the eighth master came." Book of War said in disdain.

The Book of War hated the master before Li Xiandao.

Seven's expression also turned to one of disgust when she thought about him.

Li Xiandao saw all this and felt amused. The master who he succeeded was really someone who everyone hated.

"So, you still haven't told me where the Master of War is?" Li Xiandao asked calmly.

"I don't know!" The Book of War was dejected.

"You don't know?" Li Xiandao frowned. If you don't know, then where will I go to search?

"Although I don't know, I can sense that he is still alive." Book of War insisted.

Li Xiandao was speechless. You're not a woman, but you had a sixth sense?

## Chapter 76: Army Begin

The Book of War was made by the Master of War!

The Master of War became famous after many battles. He was really strong and in an era long, long ago, he was given the term, Elite Ten!

Elite Ten were the 10 strongest experts in the skies and lands. All of them were merciless and it was best if one didn't offend them.

To date, the Ten Books of Heaven passed down by the Elite Ten were dream items. Acquiring the Books of Heaven would give one invincible powers.  
Nôv(el)B\\jnn

Li Xiandao looked at the stubborn Book of War and said helplessly, "I will help you pay attention to his tracks, but I won't promise anything!"

Book of War said, "Just pay attention to me. I believe that he is still alive and he will definitely appear. He isn't a person who can remain silent."

Li Xiandao looked at the Book of War. He was really strong, but at the same time, he was also really weak.

He was strong to outsiders, to Michael, to Tian Guangming, to Gabriel...

But he was really weak to Li Xiandao.

The Book of War belonged to the Bank of the Universe and the Bank of the Universe belonged to Li Xiandao, which was why he could easily defeat the Book of War.

But he didn't do that!

As a master, he had to treat his subordinates respectfully. If he wanted them to work hard, he had to give them enough dignity.

The master before Li Xiandao was a negative example, so Li Xiandao had to be wary of falling into the same path.

This was why he agreed to the Book of War's request. "Then, you should make preparations to bring them to the Hell Sky. I have given them a name, so just use this name for the army."

"What are they called?" The Book of War asked.

"Burning Legion!" Li Xiandao laughed confidently and said.

This name paid respect to a game he played in the last life. The burning legion inside, apocalyptic calamities were things that he remembered clearly.

“Burning Legion... They, themselves, are Flame Giants, that is really suitable!” The Book of War agreed.

“I will set off now. I will bring them along. Give me time and I will help you train an invincible army.” The Book of War said confidently.

Those were exactly the words that Li Xiandao wanted to hear. “I will wait for your good news.”

“Great. The first meeting of the Bank of the Universe will end now. We have settled the problem of the mini Flame Kings, let’s disperse!” Li Xiandao clapped his hands happily.

As long as he didn’t need to take out more treasures and God Source to feed them, anything else would do.

The Book of War took up the matter to bring the mini Flame Kings to Hell Sky. He was self-sufficient and didn’t need Li Xiandao to provide anything. He would also be able to use his own strengths to train an invincible army.

What Li Xiandao had to invest was just a promise!

He was really satisfied with this trade; it was a really successful one!

The Book of War and Seven left together to bring away all the mini Flame Kings.

Li Xiandao waved his hands, “All of you go help. Tell the 10,000 of them to listen well, train well, and come back soon.”

Battle Angel Michael, White Emperor Tian Guangming, Archangel Gabriel, and Heaven Heart all went over to help.

Li Xiandao waved his sleeves and the meeting table disappeared. He joyfully headed towards the Ten Thousand Country Book Depository.

“My foundations are too weak. Although I have the omnipotent talent, I don’t understand the history and legends of the world.” Li Xiandao was really wary.

He couldn’t be arrogant and had to remain hungry.

This was also why he had to redeem the Ten Thousand Country Book Depository.

These millions of books were enough for Li Xiandao to make up for his weaknesses.

...

After Li Xiandao sent the Book of War out, he became the manager of the Ten Thousand Country Book Depository.

Although it was said that he was the manager, he didn't interfere with anything. If he had needs, he would call for people to help him.

The 10,000 spirits here were willing to help him.

"Master, here are the historical books and books about legends, a total of 3 million!" A muscular spirit walked over, carrying many books.

This was a book spirit that birthed from a body training technique.

Li Xiandao smiled and told him to put it down. He quietly flipped through it.

His omnipotent ability was in full effect at that moment.

Large amounts of knowledge surged into his mind and Li Xiando instantly comprehended and learned it all.

Using this talent to read books was just cheating.

Li Xiandao was absorbing and memorizing these books in just seconds.

He started to understand the history and legends of the world.

After finishing history, Li Xiandao continued to learn cultivation!

There were the most martial arts books in the Ten Thousand Country Book Depository. Various ones had given birth to spirits, forming new races. This was a really huge sum of money.

Li Xiandao slowly read them all!

There were many types, some not weaker than the Big River Sword Energy and some even stronger than that. There were some that even exceeded the standards of the Nine Skies and Ten Lands.

If Li Xiandao had enough time, he wanted to do the same thing and burn 500 years to cultivate.

...

On this side, Li Xiandao was cultivating hard. Even if he couldn't successfully cultivate them in a short time, just remembering it was of great help to him.

In the future, when he had time, he would burn 500 years or 5,000 years to slowly comprehend them in the ocean of time.

Time passed really quickly as he learned everything, and unknowingly, he spent 15 days in the Ten Thousand Country Book Depository.

15 days. The Book of War brought the 10,000 mini Flame Kings over to teleport them to another region. They started to sneak into Hell Sky.

As for flying, how could a book fly while bringing 10,000 mini Flame Kings?

Michael and the others went to send them off before slowly heading back to improve themselves.

Seven remained in the Bank of the Universe and would occasionally find Li Xiandao, who was engrossed in his books. Seven was really satisfied when she saw this.

The Master of the Bank of the Universe had to always be hungry to improve.

Seven didn't interrupt him and didn't enter the Ten Thousand Country Book Depository for the next two weeks.

On the sixteenth day, she had no choice but to disturb him.

There was a guest!

Li Xiandao had to receive the guest, not Seven, as she was just a supporting character.

When Li Xiandao was in full focus, Seven said, "Master, there is a new guest!"

Li Xiandao raised his head and was a little stunned. Millions of words surged in front of his eyes from the books that he had just read.

Li Xiandao closed his eyes and suppressed them down before exhaling a long breath. He stood up and stretched.

"Who is it?" Li Xiandao walked out of the Ten Thousand Country Book Depository and casually asked.

Seven smiled, "It is someone you are familiar with!"

Li Xiandao was stunned, "Someone I am familiar with? I am not familiar with anyone!"

Everyone Li Xiandao knew was in the Bank of the Universe, so who else would he be familiar with?

## **Bank of The Universe #Chapter 77: Seven's Auntie - Read Bank of The Universe Chapter 77: Seven's Auntie**

**Chapter 77: Seven's Auntie**

Li Xiandao was now in the Trading Hall of the Bank of the Universe. He was neatly dressed along with the dark gold mask and was waiting for his acquaintance!

In truth, he couldn't remember that he had any.

Li Xiandao, who had just come to this world, knew few people and even fewer people knew him!

Acquaintance?

Who could it be?

Da da da!

Footsteps sounded out and a person walked into the Trading Hall of the Bank of the Universe. Her body was petite and well-shaped. Her skin was stone white and she was more beautiful than anything in the world.

Li Xiandao instinctively looked at Seven!

This woman was as beautiful as Seven which really shocked him!

Li Xiandao had many ways of judging beauty!

But all these methods were based on first appearances!

At first glance, he was shocked. He saw her walk closer and closer. His heart couldn't help but jump. He was really impressed by her beauty.

In his eyes, she was a top beauty!

Without a doubt, this girl and Seven beside him were of the same type.

Apart from that, there were people who made one feel comfortable at first glance!

People who made others feel close!

People who made others feel warm at first glance!

And people who gave off a cold aura!

Wait...

There were endless types of beauties in the world and everyone had a different yardstick. But there were just too few who could stand high above everyone's perception of beauty.

Just one look and one would think that the person was beautiful. This description was perfect for this girl.

Li Xiandao looked closely and he was sure that he didn't know her?

How could she be his acquaintance?

Li Xiandao looked at Seven with a questioning expression on his face.

Seven smiled. She was extremely sweet and made one feel refreshed, but she didn't reply to Li Xiandao.

"Sit down and say what you want to trade!" Li Xiandao said calmly.

This girl wore a red, long skirt which showed off her beautiful body. She sat down upon hearing those words and her white, long legs were revealed.

But Li Xiandao didn't glance and just looked at her coldly.

She felt that this girl was a natural beauty; each action and smile would draw people's attention toward her, to investigate...

"I want to revive my Mother and my Father!" The girl said softly; her voice was really soft and gentle.

Li Xiandao asked, "Who is your father?"

"Wu Tianyu!" The girl said a name.

Li Xiandao looked at her with a weird expression.

Wu Tianyu's daughter?

Wu Tianyu's daughter?

Wu Tianyu's daughter?

Li Xiandao felt like there was something wrong with his ears.

How much time had passed?

Had even a month passed?

Wasn't Wu Tianyu's daughter just born?

How did she become so beautiful and alluring?

Li Xiandao looked at Seven.

Seven nodded her head. What she was saying was obvious, that this girl was his daughter!

Li Xiandao was confused, "I remember when your father came to me to trade, you were only in your mother's tummy. Such a short time has passed and you've already grown so much?"

Even if this was a magical, Xuanhuan world, she couldn't grow so randomly, right?

"That's right. I was born on a peak on the fringes of Dali Dynasty. I grew quickly after I was born because I had the Nine Tailed Sky Fox Bloodline. My mother also transferred her source to me, which was why I was able to grow so quickly in such a short time!" Wu Xian'er nodded her head. Her expression was one of sadness.

Li Xiandao touched his chin, "You just said that your mother also died?"

"Right, we have been fleeing and mother was chased and hunted by the Fox Race. In the end, we were unable to escape, so she could only give me her source to help me grow and not get noticed by the Fox Race. She lost her life and went to find my father." Wu Xian'er's face was a little cold. It was obvious that she was filled with hatred.

Li Xiandao said softly, "You want to revive them but what price can you pay?"

When he said this, Li Xiandao felt a little awkward!

He had just activated Wu Xian'er's father's corpse and lent it to the Flame King!

If he wanted to be revived, he had no body to be revived in.

Wu Xian'er said with a firm gaze, "My talent!"

"My Nine Tailed Sky Fox talent. I know that the Bank of the Universe is really strong and can do anything. I will take my talent in exchange for my parents." Wu Xian'er looked at Li Xiandao in anticipation.

Li Xiandao nodded. "Your talent is strong. Once you mature and cultivate, you will become a Celestial sooner or later. But that is at the mature stage!"

Wu Xian'er frowned and seemed a little dejected, "What do you mean?"

“If you want to exchange for your parents, we can sign a contract that lasts 100 years. In these 100 years, you will work for me and I will ensure that your parent’s corpses won’t decompose. 100 years from now, when you mature, then we can trade.” Li Xiandao explained.

He had no choice!

He had loaned out Wu Tianyu’s corpse and he couldn’t get it back, so he could only delay her.

Moreover, Li Xiandao didn’t have the ability to revive others now!

Wu Tianyu and his wife died and who knew where their souls went? Li Xiandao had to wait till he became stronger to revive them.

“Can you really do it in 100 years?” Wu Xian’er looked at him in anticipation.

Li Xiandao nodded, “Of course, I can promise you!”

Li Xiandao made a firm statement!

Seven took a contract and placed it on the table for her to see.

She looked at it carefully. Especially the part where it said to revive her parents, she looked at it three times to ensure that it was correct.

“I will sign!” Wu Xian’er signed her own name. Her handwriting was neat and beautiful too.

Li Xiandao nodded, “Since you have signed it, from now on you are under me. You have to obey all my orders!”

Her face turned red and she bit her red lips, saying softly, “I will listen.”

“Not bad. You are really beautiful and you are also talented. From now on follow Seven. She will take care of you.” Li Xiandao pointed.

Seven and Wu Xian’er both looked at Li Xiandao in shock.

Seven didn’t expect that Li Xiandao would pass Wu Xian’er to her!

This was the extremely beautiful Nine Tailed Sky Fox!

All guys would dream of them. Nôv(e)B\\jnn

Seven thought that Li Xiandao recruited Wu Xian'er because he wanted to sleep with her.

Even Wu Xian'er thought the same thing too. Especially when Li Xiandao said that she would listen to him; she really thought that she had to sleep with him.

But who knew that in the blink of an eye, Li Xiandao would toss her to Seven?

Seven sized Li Xiandao up curiously and wanted to confirm whether or not he had problems with a certain function of his.

Li Xiandao's embarrassment turned to rage. He walked beside her and said softly, "She might seem well developed, but she is only a few months old. She is a baby."

Seven smiled and whispered right into his ear, "Don't you guys like such young girls?"

Li Xiandao's face turned red and he said right away, "What you guys? Don't stereotype us. That is just a portion of the shameless and immoral guys."

"Are you one of them?" Seven gave a suspicious smile as she looked at Li Xiandao.

Li Xiandao coughed as he didn't want to reply to that.

"From now on, apart from my orders, you have to listen to Auntie Seven." Li Xiandao said to Wu Xian'er.

Seven instantly stared at Li Xiandao in annoyance.

This was the first time Li Xiandao saw her expression turn to rage. It was a little terrifying!

## **Bank of The Universe #Chapter 78: 100 Watches - Read Bank of The Universe Chapter 78: 100 Watches**

### **Chapter 78: 100 Watches**

Li Xiandao spent seven consecutive days reading in the Ten Thousand Country Book Depository!

Seven didn't worry about him or disturb him for those seven days!

They didn't even say a single word.

They treated each other like air whenever they bumped into one another.

On the contrary, she had a good relationship with Wu Xian'er. They called each other younger sister and older sister and were really warm to one another.

No matter how dumb Li Xiandao was, he knew that it was because he made Seven unhappy. Thus, he just stayed within Ten Thousand Country Book Depository and didn't head out!

Since you don't want to see me, then I won't find you either!

\*Scoff!\*

...

The main body of the Ten Thousand Country Book Depository was a giant mountain. The insides of the mountain were dug out and numerous books roamed all about. It was like a small-sized nation.

The book spirits didn't need to eat or excrete waste. They absorbed energy from heaven and earth and took in nutrients from words. The tens of millions of scrolls and books in this giant Ten Thousand Country Book Depository were enough for them to live the rest of their lives without worry.

This was why during the period when the Ten Thousand Country Book Depository was pawned off, they continued to develop and grow well.

Li Xiandao quietly remained in the Ten Thousand Country Book Depository and didn't let people find books for him.

In the cultivation techniques that he saw before, he learned a technique called One Thought Ten Thousand Buddha!

With just one thought, there would be 10,000 Buddhas!

This was the core of the cultivation technique!

Each person's mind would birth numerous thoughts every second. Each thought would be 10,000 Buddhas and whether or not these 10,000 Buddhas would be able to comprehend anything would depend on one's control.

Even if a normal person could birth 10,000 Buddhas, they wouldn't have the ability to instantiate them.

One had to have strong cultivation of the mind, to control one's desires, one's thoughts, and one's cravings.

The Buddhists mentioned the Buddha country in a palm; one Buddha country had tens of thousands of believers!

The Taoists said that the space of a mustard seed could contain a whole world!

One's thoughts were much better than Buddha countries and mustard seeds, so if one could make good use of them, one would be really efficient!

After Li Xiandao understood the technique, he started cultivating it right away.

With his talent, he was able to complete the cultivation in just minutes, from learning it to getting familiar with it. In three days, he had a good grasp of it, and in seven days, he received great results in it!

Now, Li Xiandao used this technique to form 100,000 Buddhas!

The 10,000 thoughts were split about the 100 levels of the Ten Thousand Country Book Depository.

There were many Li Xiandaos on every level!

Some were carrying books and reading enthusiastically!

Some lowered their heads and frowned as they looked at the deep and difficult books!

Some smiled as they admired the beautiful books!

Some sat on the ground, dancing about in excitement.

...

,000 Li Xiandaos would have 1,000 thoughts, much less 100,000 of them!

The book spirits in Ten Thousand Country Book Depository were shocked when they saw it at first. Some of them even passed through his body and realized that it wasn't a physical entity!

Li Xiandao's main body closed his eyes and accepted the information he received from all around. He studied them and compartmentalized them all in his mind!

He was really efficient, helping to raise Li Xiandao's foundations.

He became even stronger!

On the surface, his aura became more retracted, like that of a gentleman. He wore a robe and his short hair was tied into a small bun.

This lasted for a month!

Seven finally came to find Li Xiandao!

Although she was still a little angry, she knew the importance of things. Li Xiandao spent a month in the Ten Thousand Country Book Depository and was immersed in the ocean of knowledge, but the Bank of the Universe needed to be expanded.

The Bank of the Universe hadn't opened for a full month, which was why Seven came to find Li Xiandao.

When she saw him, she was stunned. At this moment, Li Xiandao's aura was totally different from before. After reading so many books, he didn't seem to have changed at all, but the aura he gave off was different.

This surprised Seven who sized Li Xiandao up with her beautiful eyes.

"Master!" Seven shouted.

Li Xiandao opened his eyes and at that moment, the 10,000 Thought Buddhas returned to Li Xiandao's body like birds returning to their nest. Nôv(e)B\jnn

Li Xiandao exhaled a breath and asked, "Yes?"

"The Bank of the Universe hasn't run for a full month!" Seven said helplessly.

Li Xiandao asked with a weird tone, "A month has passed?"

He was engrossed in knowledge and had lost track of time. If Seven hadn't interrupted him, Li Xiandao would have continued until all the books in the depository were in his mind.

Seven nodded and said seriously, "You need to be a good owner."

Li Xiandao thought about it and said, "When I redeemed the Time Hall I had 10 spots, so now that I have redeemed Ten Thousand Country Book Depository, what rewards would I get?"

Seven said, "100!"

Li Xiandao said in satisfaction, "Not bad, with 100, we would have a large number of trades."

"Not only that, but we will also not be restricted by Dali Land and will be able to enter the Heaven and Earth Battlefield." Seven smiled.

“Can we enter the other worlds?” Li Xiandao’s eyes lit up and said.

Seven said, “To enter the other Lands you need to open up the paths between world, otherwise, we won’t be able to.”

Li Xiandao asked, “To open the paths what do we need?”

“Create a World Grade teleportation formation!” Seven explained to Li Xiandao in detail.

“World Grade Teleportation Formation requires blueprints and various materials. After we gather them, we will be able to craft it.” Seven said.

“What about the blueprint?” Li Xiandao reached out.

“We loaned out the blueprint and he is not in Dali Land, so it would be hard to find him.” Seven said helplessly.

“So, I can only trade in Dali Land and Heaven and Earth Battlefield now?” Li Xiandao muttered.

Seven nodded her head.

“That’s still okay. At least the range that we can trade has increased. I am invincible in Dali Land and no one can stop me. Truthfully, Dali Land is too secluded and it has so few resources and too many mortals.” Li Xiandao shook his head helplessly.

For example, in Taicang City, where Li Xiandao had transmigrated to, a Dao Pursuing Realm person could be an elder.

If this was in another Land, Dao Pursuing would only be a small disciple!

“Master, you can toss the watches out!” Seven reminded.

Li Xiandao waved his hands and 100 red watches appeared in front of him.

Li Xiandao smiled, “Find a suitable guest. The location will be the Heaven and Earth Battlefield!”

Li Xiandao wasn’t prepared to toss it in Dali Land.

Truthfully speaking, he looked down on Dali Land now.

No wonder they were unable to make a comeback. People who became strong left right away to head to other places. Without experts and resources, how would it even develop?

“Right, how are you and Wu Xian’er?” Li Xiandao asked.

Seven squinted her eyes and said casually, “Really good; we are very happy!”

“That’s good. You are older than her and are her senior, so take care of her.” Li Xiandao said that on purpose. It was Seven’s fault for ignoring him previously.

“Kekeke, kekeke.” Seven only laughed but the laugh was really frightening.

Li Xiandao felt like he shouldn’t continue joking about this, so he kept silent and left right away.

He shouldn’t have done so next time as Seven looked really frightening.

## **Chapter 79: Long Mixu**

In the Heaven and Earth Battlefield!

A bunch of people were hunting down a girl!

This girl looked ice-cold and she ran swiftly. While running forwards she would occasionally turn behind with an ice-cold expression.

“All of you are so bold. I am the sister of the Emperor and all of you actually dare to hunt me down in the Heaven and Earth Battlefield; all of you deserve to die!” The girl’s eyes shone a cold glow and she was extremely furious.

The girl wasn’t old but she gave off a righteous aura. The way she dressed made her look capable and experienced as well as making her movement seem really chic and elegant.

Especially her long, thin legs.

But the deep blade marks exposed her situation.

She was injured and being hunted down. It was not known whether she would be able to survive this.

“My dear sister, stop struggling. As long as you agree to drink the magic potion and listen to my orders, I won’t harm you.” She heard a delighted laugh which caused her expression to change.

“Long Baichuan, you are sick in the head. I am your sister!” The girl scolded fiercely with a cold expression on her face.

She stopped running. She looked around and was in deep thought as more and more people surrounded her, blocking all her paths to escape.

It was impossible to escape.

Her only hope was...

“Long Mixu, do you know that there is no such thing as ‘family’ in a battle for the throne. It is normal for siblings to fight one another and kill one another. The battles are extremely gory, so do you really think that I would let you off just because you are his elder sister?” Long Baichuan walked over slowly. He was really tall and spoke with a cruel tone.

Read more chapter on [vipnovel .com](http://vipnovel.com)

He was young and wore really noble-looking clothing. Under the watchful eye of dozens of people, he walked out slowly.

Ten Thousand Dragon Empire’s seventh prince, Long Baichuan!

The person he faced was his sister Long Mixu.

“I am your sister. Your mother gave birth to me!” Long Mixu’s tone was filled with sadness.

“Sister!”

“You have the shame to talk about that?” Long Baichuan stared at Long Mixu with a vicious expression.

“I am your brother and I want to fight for the throne. You didn’t support me and you went to support the Crown Prince. What is he? He was just born a few years earlier, but you are my sister!!!” Long Baichuan shouted in rage.

Long Mixu smiled, “You want to fight for the throne, but why don’t you look at what ability you have to fight for it?”

“The Crown Prince has three top powers supporting him and one Celestial Artifact. He has people on his side from the other Ten Lands!”

“What about you?”

“What do you have?” Long Mixu asked in rage.

“In the end, you just look down on me. I am just nothing in your eyes.”

“But now this younger brother with nothing has managed to stop you here.” Long Baichuan said in delight.

Long Mixu looked at the 30 Heaven Essence Realm experts around and asked helplessly, “Our mother came from a family of scholars and there were no experts there. How did you get so many people to support you?”

“Since you, as my sister, don’t support me, then, of course, I have to find others who do.” Long Baichuan smiled with pride.

“Let me introduce, the warriors of Damei Holy Land who are all my subordinates now. Damei Holy Land has given me their full support and although we can’t compare to the Crown Prince’s three families, I am not weak anymore.”

Long Mixu was speechless, “So, it was the demon sect Damei Holy Land causing problems. What I don’t understand is how you knew that I would enter Heaven and Earth Battlefield?”

Long Baichuan laughed, “Sister, my dear sister, you let your intelligence blind you.”

Her eyes shone and her mind continued to work and analyze everything that happened.

“The Crown Prince’s men betrayed you and revealed your tracks. Now, you have nowhere to run and you won’t be able to make a comeback.” Long Baichuan smiled proudly.

Long Mixu closed her eyes and sighed.

“It hurts alright. You silly girl, I told you that I am your younger brother and we have the same mother. We have the same blood and came from the same womb, but you don’t support me. You went to support the Crown Prince and now he betrayed you and fell into my hands. Does it feel bad?” Long Baichuan said loudly.

“I feel really bad but that is not the reason!” Long Mixu opened her eyes and stared sharply at Long Baichuan.

The sharp gaze caused Long Baichuan to feel a little uncomfortable.

Long Mixu psychologically impacted him too much in the past.

His sister always had things planned out and was always a confident person. Although he was really confident this time, after seeing her gaze, his body shuddered.

“I feel really bad because both of us actually fell for his plan.” Long Mixu laughed self-mockingly.

Long Baichuan frowned, "What do you mean?"

"My coming here was a really secretive matter and very few people know about it. You coincidentally caught someone under the Crown Prince and happened to find my tracks and then coincidentally came to catch me and force me to surrender? Don't you think that you fell into a trap too?" Long Mixu smiled coldly and asked.

Long Baichuan was stunned. At that moment, he felt a cold shiver down his spine. Under the sunlight, he actually felt cold.

With Long Mixu reminding him, Long Baichuan realized that he had been tricked.

"So what if I fell for it? If you drink the potion, you will have to follow my orders and my plan will succeed. Naturally, the Crown Prince's plan will fail." Long Baichuan gritted his teeth and insisted.

Since he already did it, then there was no way back!

Long Mixu smiled in disdain, "Do you think you can make me drink it?"

"Of course, I will force it down your throat if I have to." Long Baichuan shouted fiercely.

"Then, you are wrong." She smiled in delight. She looked around and didn't panic at all even though she was surrounded.

Although Long Mixu was only at peak Heaven Essence Realm, she came into the Heaven and Earth Battlefield to break through into Saint Realm.

While being totally surrounded, she couldn't escape and she couldn't beat them, but despite this, she didn't panic at all.

"My dumb younger brother. After I entered the Heaven and Earth Battlefield, I had a fortuitous encounter. This is why you will definitely fail." Long Mixu took out a red watch and gave an alluring, attractive smile.

"What is that?" Long Baichuan asked solemnly.

"It is something that can make your plan fail and cause the Crown Prince's plan to fail too. It is a treasure. Maybe I didn't believe it in the past, but now I do." Long Mixu smiled confidently.

Long Baichuan frowned and scolded, "Take her down. Pay attention to that red thing."

"Yes!"

30 Heaven Essence Realm warriors charged forwards to deal with Long Mixu.

But Long Mixu just clenched her fist and said calmly, "Goodbye, my dumb brother!"

## **Chapter 80: I Want to Become an Empress**

Shua!

When Long Baichuan saw Long Mixu, who crushed the watch, disappear, he was stunned.

"Where is she?"

"Where did she go?"

"She was just here, and in the blink of an eye, she disappeared?"

"Find her, otherwise, all of us will have to die!"

Long Baichuan hollered in rage. He panicked because he knew his sister really well. With much difficulty, he was able to get this chance, and if he didn't make use of it, what awaited him was his sister's 'warm treatment'.

...

The Bank of the Universe!

All Long Mixu saw was white and she appeared in a big hall. In it was a mysterious expert, who wore a dark gold mask.

Beside the mysterious guy was a girl who was as beautiful as a fairy.

Long Mixu didn't worry about the pain in her back as she asked solemnly, "Who are you all?"

"You are in my Bank of the Universe and you ask who we are?" Li Xiandao said calmly as he wore the mask.

"In the Bank of the Universe, anything can be traded?" Long Mixu gulped. She felt like she had gotten a once in a lifetime opportunity.

Li Xiandao said casually, "Anything can be traded but the prerequisite is that you have enough to offer."

"Tell me, what do you want to trade?"

"Miss Long Mixu!" Li Xiandao asked.

“How do you know my name?” Long Mixu was shocked.

“I know the past of everyone who enters the Bank of the Universe, so it isn’t surprising that I know your name.” Li Xiandao said calmly.

Long Mixu nodded his head and was thinking that since the Bank of the Universe was so strong and had so much ability, it wasn’t surprising that they knew her name.

She walked in front of Li Xiandao and sat down. She straightened her back and didn’t dare to rest on the chair. With her recovery speed, the wound on her back had just started to close. If she rested on it, the wound would tear. The blood flowing out was just a small issue, but she was more worried about offending Li Xiandao.

“What do I want to trade?” After Long Mixu sat down. Her mind suddenly went blank.

How did she not know what she wanted to trade?

She wanted many things!

She wanted her cultivation to break through to Saint Realm!

She wanted to get out of danger!

She wanted to take revenge on the Crown Prince and her stupid brother!

She also wanted to let her sexist father see that his daughter was stronger than all of his sons!

This was why Long Mixu had no idea what she wanted to trade for.

Moreover, she hadn’t thought of what she was using to trade.

Li Xiandao laughed, “Don’t be nervous. Just think slowly. Close your eyes and ask in your heart, what do you want the most?”

Li Xiandao liked this girl!

It wasn’t the love between a man and a woman, but in the business sense.

Li Xiandao loved people who entered the Bank of the Universe with huge appetites.

They desired too many things. As long as they dared to think it and dared to say it, Li Xiandao liked them!

This was because the more things one thought about, the more desires one had, then the more the Bank of the Universe could earn!

If you came in and said you wanted a secret technique and you exchange 5 years of life for it, then Li Xiandao would earn too little!

People like Long Mixu, who wanted everything and didn't want to give up on anything, were the most suitable guest for the Bank of the Universe.

Li Xiandao was impressed by the 100 watches. The first person they had found already made him so satisfied.

Long Mixu sucked in a deep breath and closed her eyes. She started to ponder exactly what she wanted.

Li Xiandao stood up and walked beside Long Mixu.

Da da da!

Li Xiandao's footsteps weren't light at all and after reaching her side, he looked at her seriously.

Long Mixu suddenly opened her eyes. She was pumped up, this was a person's, this was a women's ambition.

"I want to be the ruler of Ten Thousand Dragon Empire!"

"A female Emperor!" Long Mixu stared at the pair of eyes behind Li Xiandao's dark gold mask and emphasized.

Li Xiandao nodded his head in satisfaction, "No problem, I can help you fulfil this wish, but what can you give me?"

Li Xiandao's question stumped Long Mixu.

What could she give?

Could she give money?

Li Xiandao didn't even think about raising the question of money. Did Li Xiandao look like someone who lacked money?

Treasures?

If Long Mixu had many treasures, she wouldn't have entered the Heaven and Earth Battlefield to break through.

That was because the current Emperor of the Ten Thousand Dragon Empire was really sexist. Even if Long Mixu was so much stronger than the princes, she didn't receive many resources.

Long Mixu opened his mouth with much difficulty, "I can sleep with you!"

Long Mixu's only advantage was her body!

Her virgin body!

She was really beautiful. She possessed a cold type of beauty. Along with her long legs and perfect body, she was a top specimen.

From the start, Long Mixu knew that a girl's body was crucial at important moments, especially a virgin body in the eyes of men.

"I am still a virgin and the maidservants taught me many ways to serve men. I can do it as long as you support me in becoming the Empress!" Long Mixu emphasized.

Li Xiandao looked at her silently.

Seven squinted her eyes and didn't say a word. She stood behind and looked on expressionlessly.

"Ten Thousand Dragon Empire is located in the Ancient Desolate Land and is an empire in charge of billions of people. They have many experts and each prince has many such experts supporting them. There are many of them who flew towards the Nine Skies and some of them are even experts in the Celestial World!"

"So what if you are a virgin? There are no benefits to that. Your beauty is not of any use!"

"Of course, unless you look like the girl beside me, then maybe there is a chance."

"But unfortunately, you don't have this chance!" Li Xiandao rejected her while praising Seven.

Seven smiled once more. She pursed her lips to try to suppress her smile, but she couldn't do so. The shy joy of a girl was on full display.

The gentleness of the way she lowered her head was like a lotus flower that felt shy in the cold wind.

Unfortunately, Li Xiandao didn't see it as he was fully focused on Long Mixu.

When Long Mixu entered, Seven passed her information over to Li Xiandao.

Ten Thousand Dragon Empire was a pinnacle power in the Ancient Desolate Land. There were many strong generals and great advisors. They had millions of well-trained troops and were invincible!

Even the so-called Holy Lands and other top powers were suppressed by the sharp blades of the Ten Thousand Dragon Empire.

Especially since the Ten Thousand Dragon Empire could communicate with their forefathers in the Nine Skies, which placed a lot of pressure on others.

This was why if Long Mixu wanted to accompany Li Xiandao for several nights to become the Empress of such a country, there was no chance unless Li Xiandao was stupid.

Maybe the last Master would agree!

But, Li Xiandao definitely wouldn't!

“So, what price do you want me to pay in exchange for your promise and support?” Long Mixu took in a deep breath. She knew that her looks were of no use, so she started to ask seriously.

She would carefully consider the price and rewards.

Li Xiandao smiled and took a contract from Seven's hand, “It is all in the contract. If you agree, then sign it!”
