

The World 361

Chapter 361 - The Hunt

The dark valkyrie looked at the illusory soul body that floated in the air. Its pupils shrank, but it didn't dare to move.

It felt like a fatal threat from the opponent.

Richard's eyes twitched.

A level 14 divine soul and all of its skills were divine spells.

It was the ultimate existence fed with divine power.

Even it didn't know how strong they were.

The dark valkyrie took a deep breath and suppressed its emotions.

It had come to crush its fear, so why would it be afraid?

It held the three-meter-long saber in its hand, and its pale golden eyes showed a strong desire to fight.

The blade light protected its body as if it would cut through all obstacles.

“Renee, crush your enemy.”

A calm voice resounded in the surroundings.

The divine soul that appeared in an elf form—Renee, slowly raised its head.

It held the exquisitely-carved sword in front of its chest.

“For the glory of our lord!”

High elven language.

As soon as it finished speaking, it disappeared.

Space manipulation could perform a moment without any consumption every 0.3 seconds, up to 200 meters.

‘Clang!’

The sound of metal clashing.

The elven sword condensed from soul energy collided with the dark valkyrie's three-meter-long sword.

'Hiss!'

Sparks flew.

Renee's soul formed the longsword, and this weapon was a part of her.

It met colliding force and did not show any weakness.

After it blocked the first attack, Renee suddenly appeared behind the dark valkyrie.

'Hu!'

The sharp sword stabbed out.

The dark valkyrie raised the sword over its head with its right hand and once again blocked the blade.

The next moment, Renee teleported in another direction.

The attacks were as dense as a storm.

The innate ability Renee obtained from the space crystal ball in the land of the broken laws gave it unprecedented flexibility.

The attack exploded.

The A-rank boss dark valkyrie that had just killed Alves with a single strike is now in a tough battle.

The illusory floating figure suppressed it with one slash after another.

Renee used its Control Space to suppress the dark valkyrie that quickly slaughtered the Twilight City troops.

Richard smiled when he saw the terrifying power.

Renee's attacks sharply throve after they got used to the battle rhythm. It made Richard feel better.

The opponent rapidly grew.

The suppressed dark valkyrie was just as fierce.

As it relied on its strength, it blocked Renee's blade after blade.

There were no weaklings here, only the strong and soul-strappers!

It was a competition between the two kings.

Both sides gradually went crazy.

At the center of the battlefield, space crumbled, and energy was in chaos. It was like the end of the world.

No one could interfere, and no one dared to.

Just the shockwaves from the battle could destroy the void.

After the dark valkyrie forced back Renee's attack once again...

Its pale golden eyes suddenly brightened.

The aura on its body was like a high mountain reservoir that had opened its gates to release water. It gushed out a majestic energy that made one's heart tremble.

"Destroy!"

A deep sound exploded in the sky.

The saber in its hand slashed in all directions.

'Whoosh! Whoosh! Whoosh'

The sound of air torn apart howled in their ears.

Cold, semi-circular blade glints swept through the surroundings like a storm. They were so fast that the naked eye could not catch up.

The blade light instantly tore apart the surrounding 200 meters with the illusory soul in the center.

The blood auras pierced the floating square under its feet. And it cut into pieces the clouds below.

'Puchi!'

Renee's figure suddenly appeared in mid-air.

Dozens of holes appeared in its body, which the blade light pierced.

Moreover, a sharp aura was attached to those wounds. This crazily destroyed its body.

Even nine lives wouldn't be enough if it were an ordinary life form.

But Renee didn't have the slightest bit of emotion at this moment.

The energy on the illusory soul body surged out.

Its body with a breath, which was like a sieve, recovered.

Its body reduces 70% of physical and magical damage received.

Immortals could use god power to recover.

These two divine spells gave it a mighty life force.

After the soul recovered from its injuries, Renee, who was a hundred meters away, extended its left hand and pointed at the dark valkyrie.

The next second.

'Bang!'

With the dark valkyrie as the center, a dark flame suddenly burst out and instantly swept across a hundred meters.

However, the terrifying energy did not cause any damage to the sand on the ground. It was as if it was just a shadow.

Within 500 meters, a designated area will erupt with inextinguishable soul flames to attack the target's soul. Range: A diameter of 100 meters.

The moment the dark valkyrie saw the opponent reach out, it was already too late for it to react.

It seemed to throw its soul into a furnace.

The terrible pain from the burn almost made it collapse.

It let out a muffled groan.

It pressed its temple with one hand and forcefully suppressed the intense pain.

Then, the faint golden light in its eyes burst out, and the blade in its hand ignited as if gasoline splashed with it and instantly increased in power.

The dark valkyrie waved its saber.

The blade light that could destroy the Dragon Breath cut through everything.

It was as if the black flames that could burn for eternity were forcibly isolated from the outside world.

The black flames attached to the soul slowly burned without support from the outside world.

One could see that the dark valkyrie was charred black if the soul turned into a physical body.

“Slash!”

The dark valkyrie did not wait for Renee to attack again, and its blade light condensed to the extreme.

It slashed down.

It was like this light was the only thing left in the world.

Renee felt that something locked its soul just as it was about to move away.

It was an inexpressible force!

It revealed its sharp edge.

'Puchi!'

The saber ray slashed across its forehead and cut through the floating square with eternal power. It only gradually dissipated in the void hundreds of meters away.

Renee's soul body shattered into countless pieces like porcelain.

This scene was very similar to the time when dark valkyrie slaughtered Alves.

It launched an attack that could tear the sky and earth. And the dark valkyrie, who had been so potent just a moment ago, suddenly became dispirited like a deflated balloon.

It could not hide the fatigue in its pale golden eyes.

It didn't even feel this way when it slaughtered several squadrons of Twilight City's soldiers.

At this moment, after its fight with the divine soul for less than ten minutes, it felt enormous fatigue.

It turned its head and looked at Richard, who had put away the ancient god statue.

With a saber in hand, its figure flashed like lightning.

However, before it could get close...

'Hu!'

A terrifying sense of danger struck.

It turned its head and saw Renee shattered into pieces just a moment ago, resurrected on the spot, starkly unharmed.

It held a pattern-carved longbow and eleven sword pinned to its waist.

It pulled the bowstring to its limit, and deadly energy filled the arrow. It felt like the opponent strangled its neck, and it could hardly breathe.

'Weng!'

The bowstring rang.

The dark arrow streaked across the sky.

[Death Hunt: Choose a target within 500 meters and use the power of the soul to form an arrow of death. It will hit the target's soul. Each use consumes 20 divine power.]

It was a sure hit.

With the addition of the two words, this skill instantly became a well-deserved killer move!

The dark valkyrie's pupils shrank. It swung its long blade in the air.

Infinite blade light exploded.

However, the blade that could cut off the Dragon Breath and isolate the soul flame energy could not stop the arrow.

Richard could see the dark valkyrie in its black body-fitted armor wield a three-meter-long curved sword.

A sharp, incorporeal arrow pierced through its forehead and the back of its head.

No blood flowed out, but it could feel that the other party's life aura suddenly froze.

The arrow that pierced the figure's head instantly froze in place.

It was scary and creepy.

Chapter 362 - This Wave, A Bloody Profit

Renee's arrow that pierced the dark Valkyrie's head consumed 20 points of divine power.

The scene froze.

The battle seemed to end.

Richard wondered why he didn't hear the system notification.

'Crack!'

A crisp sound came from the distance.

The dark valkyrie's black armor shattered like glass.

At the same time, the arrow that had pierced through its head also disappeared.

The next second.

A set of black and gold armor appeared before it.

The dark valkyrie's solidified life force erupted as a volcano suppressed for countless years.

Its pale golden eyes turned pure gold.

Dozens of curved blade glints suddenly appeared beside it.

The surrounding void constantly collapsed and reformed under the pressure of the saber radiance.

Richard was stunned.

He opened his opponent's attribute panel. And a shocking status appeared on it.

[Dark Valkyrie]

[Level: 18 (temporary)]

[Potential: Beyond A-rank (temporary)]

The explosion overpowered this boss!

Three levels increased, and its potential rose from A-rank to Beyond A-rank!

Richard's scalp went numb.

Was this the strength of the hidden boss?

If he didn't have a divine soul, he wouldn't be able to play with it!

Was the system not planning to let anyone kill this boss?

At this moment, Renee suddenly appeared beside the dark valkyrie. It felt the terrifying aura of the dark valkyrie.

With a long sword in hand, it charged forward!

If it could kill his opponent once, it could also kill the second time!

The tricked dark valkyrie had its eyes filled with dazzling golden light.

It waved the saber in its hand and charged forward.

'Clang!'

The two sides collided again like meteors.

The surrounding space instantly blurred and collapsed.

The dark valkyrie displayed unparalleled battle power after the seed explosion.

Its potential temporarily raised Beyond A-rank. And its level was four levels higher than Renee's!

The situation where Renee could suppress its opponent with its control of space no longer occurred.

Every time the dark valkyrie swung its blade, the space around would collapse.

The scene looked enormously visually impactful.

Richard couldn't imagine how many troops he needed to take down a boss like this.

At the back, Gunter, who was only level 10, could no longer interfere.

The difference of 8 levels was enough to pull everything apart.

Xina, who had recovered a little, was not afraid at all.

This pure warrior would never fear any enemy, no matter how strong they were!

However, she was only level 13, and there was no point in going up.

She wasn't weak, but her opponent was even mightier. It had already exceeded the limits of what she could handle.

Richard's breathing slowed.

It was the most arduous battle he had ever encountered.

Even when the kobold god had attacked Twilight City, he had not felt so difficult.

Although this battle wouldn't decide anything, it would resurrect death outside the arena.

However, he couldn't give up. He had the capital to win!

The level 14 divine soul versus the level 18 hidden boss, the dark valkyrie.

Renee's soul constantly changed as it controlled space, and its powerful divine spells could often be fatal.

The dark valkyrie used force to break through techniques, and the blade light could cut through everything.

The opponent's saber flare could shatter any energy attack.

A pin against an awn.

The battle between the two sides became enormously exaggerated.

The sky arena rules seemed weaker than those of the central plane. When the two sides collided, space twisted and crumbled like it had become a norm.

Ten minutes after the seed explosion.

'Destruction!'

The dark valkyrie's blade light once again cut through the world.

The blade that killed Alves in a second reappeared.

'Crack!'

Renee couldn't avoid it, and its body shattered.

But in an instant, it returned to its original appearance.

Four divine soul points could resurrect Renee four times.

After it woke up, the ancient god statue also had a new attribute—it could resurrect Renee three times a day.

It had seven lives in this battle!

Without any worries, the divine soul attack became increasingly ferocious.

After the seed explosion, the dark valkyrie raced against time to win the battle before its strength fell back.

The dual battle was crazy!

Renee used Death Hunt three more times after it consumed 20 points of divine power.

It would pierce through the dark valkyrie's head every time, but it would return to normal in the blink of an eye.

In the unique state of seed explosion, its vitality was particularly terrifying.

Renee also suffered from the dark valkyrie's all-destroying sword strike.

After the fourth resurrection, it had starkly consumed the divinity that could only recover one point every week.

The next time it died, its resurrection would be in an ancient god statue.

There were three more chances.

It had been half an hour since the dark valkyrie's seed explosion.

To Richard, however, it felt like half a month had passed.

Just as Renee was about to launch another attack...

The dark valkyrie's almost infinite aura suddenly enfeebled like a candle in the wind.

Its burning golden eyes had also become enormously dim at this moment. It was like any moment would extinguish them.

Richard opened his attribute panel.

The dark valkyrie's level had returned to level 15, and its potential had returned to A-rank.

It was time.

In this brutal battle, the dark valkyrie loses by one move.

Renee noticed this and drew its bow for the fifth time.

Twenty points of divine power disappeared.

The death god arrow pierced through the void.

It pierced through the head!

This time, the dark valkyrie didn't have a second seed explosion.

The other party's life force suddenly dropped to the extreme.

The figure that hung high in the sky fell to the ground with a plop. It fell into a deep coma.

It set the situation.

Twilight City troops finally won.

Renee's figure suddenly appeared in front of the dark valkyrie.

It raised its elven sword high, ready to end this enormously soul-strapping opponent in the next moment.

Richard shouted as if he'd just remembered something.

“Stop!”

‘Hu!’

The sharp longsword stopped at the dark valkyrie's forehead.

Renee retracted its sword without hesitation.

Richard activated its Leaping Boots boots and appeared beside the dark valkyrie.

He immediately heaved a sigh of relief in this scene.

When the divine soul saw him, it knelt on one knee with its illusory body.

With its right hand on its chest, it said in the most humble tone.

“My Lord, your humble servant sends you its most noble greetings.”

As the master of the statue, the soul bound was ultimately under his control.

He could even erase it with a thought as he wished.

Richard nodded, satisfied.

“Get up. You’ve done well.”

This top-notch existence he had spent so many resources to nurture did not disappoint him in the end.

Then, he looked at the dark valkyrie lying on the ground.

The majestic golden and black armor that had just appeared had now returned to black.

It seemed armor appeared under certain circumstances.

The opponents’ life force was still stable. But it had already become enormously weak. If he didn’t take any measures, it wouldn’t be long before he met the god of death.

Xina and Gunter had also come to his side.

They all had mixed feelings as they looked at the dark valkyrie on the verge of death.

It was rare to see such a powerful enemy.

Unfortunately, they could not defeat the other party yet.

A strong fighting spirit rose in Xina's eyes.

The descendant of the Krina tribe was no weaker than anyone else. She would become sturdier than the others!

She swore!

"Lord Richard, how do you plan to deal with it?"

Richard's face broke into a bright smile at Xina's question.

He took out a scroll that emitted a dark aura from the system space.

[Dark Contract]

[Level: 4-stars]

[Special Property: After defeating an enemy, you can force a contract with the other party and enslave their soul, making them obey orders for eternity.]

It was a top-tier treasure he had obtained from the treasure vault of the Scarlet Council in the previous dungeon.

He initially planned to use it on the god's ancient tree, but he had not expected it to choose to submit directly, so he saved this treasure.

But now, an A-rank boss could reach a terrifying level of 18 after its seed exploded.

Wasn't that the best contract partner?

While Richard pondered at the dark valkyrie lying on the ground, the smile on his face became increasingly brilliant.

So what if he won first place in the death arena fighting ring, obtained the title of King of Gladiator, and other rewards? How could they compare to a living level-15 boss?

It was a battle unit of equal value to the god's ancient tree.

Dark valkyrie's battle strength could even suppress everyone else after its seed exploded.

It had killed Alves in one strike and suppressed Beyond A-rank Xina... It quickly slaughtered three squadrons of soldiers.

If it wasn't for the unique nature of the divine soul, which gave Renee an insane ability to resurrect...

It would be difficult to take down the other party in this battle.

Nothing could measure such an existence.

At this moment, he only had one thought.

'This wave, I had bloodily profited!'

Chapter 363 This Bastard Installed The Player's Numbness Again

Richard was high-spirited.

The dark valkyrie alone was enough to make a fortune in the instance dungeon.

One couldn't exchange it for ten thousand gold.

However, he hesitated again after he glanced at the attributes.

The scroll of darkness could force a contract, but the restrictions were also explicit.

1. The spirit of the contracted life form must be weak. Once the will to resist is strong, it will suffer a backlash;

2. The contracted life form can not be higher than the host by three levels, or the contract will fail directly;

3. The level of the contracted life form can not exceed level 15 at the time. The system will lift the restriction after the contract is signed;

4. The contracted life form can not be of the light faction.

The other conditions were all met, but there was one thing... His current level was only 11.

And this was one level before he entered the death arena fighting ring.

But he was still one level away from forming a contract with the other party.

An upgrade from level 11 to 12 required 1.4 million experience points.

Now that he was in the sky arena, it could not gain more than a million experience points.

Richard couldn't help but feel a headache when he pondered.

Then, he seemed to have thought of something and took out his Tibetan Soldier Card.

He couldn't use it on the dark valkyrie after an attempt.

He couldn't help but frown.

Don't let the last bit of fat in your mouth slip away.

Even if he received a quasi-relic for killing the opponent, he would not be willing to do so.

He turned around and looked at Renee.

He seemed to have thought of something and took out the statue of the ancient god statue.

The ancient god statue could hold two souls after its upgrade.

If he couldn't take it away, could he just devour the opponent's soul?

There was no reaction from the statue of the ancient god after an attempt.

Although the opponent's soul was strong enough, the ancient god statue accepted only divine souls.

It bewildered Richard looked.

Renee could see Richard was in a difficult position, so it spoke softly.

"My Lord, are you planning to take it away?"

Richard nodded and explained the restrictions of the Dark Contract.

Gunter and Xina fell into deep thought. But there was nothing they could do now that they were trapped here.

They couldn't possibly carry it for the rest of the journey, could they?

Moreover, whether he could bring the opponent to the next arena remained a question.

Wouldn't he get any benefits if he didn't win?

Renee's tone was calm.

"My Lord, you can temporarily place it in the statue."

Richard's brows furrowed. He knew there was a unique dimension within the statue, but it was a place where souls slumber.

Renee whispered as if it saw through his confusion.

"You are the master of the statue. You can change the rules."

It stirred Richard's interest.

With a thought, his mind entered the ancient god statue.

A moment later, a dark light rose and covered the dark valkyrie's body.

The other party gradually turned illusory.

After a few breaths.

It had disappeared.

At the same time, inside the ancient god statue, the dark valkyrie lay quietly in the area where its divine soul had once slept.

With a thought, a dark light enveloped the other party.

The dark valkyrie, whose life force gradually grew weak, had stabilized.

As long as he continued to inject power into it, he could maintain the state of the dark valkyrie.

The price to pay was that the divine soul would have one less chance of resurrection every day.

However, to revive twice a day was enough as long as he did not seek death.

After he dealt with all this.

Richard turned his head to look at the ground reduced to dust. It lifted his mood.

To forcefully keep the domineering and unparalleled level 15 hidden boss, that feeling was like he received a confession from the person he had crushed on. What could be more satisfying than this?

He glanced around and suddenly saw the floating square in the distance.

The corners of his mouth curled up slightly.

Perhaps, the players who fought to the death would never have thought of how much he had gained.

If they had known, the number of people against the Qingqiu alliance on the forum would have been many times more...

'Hahahahaha.'

His thoughts ran wild.

Suddenly, there was a loud rumble.

The two floating squares of him and the dark valkyrie suddenly collapsed and slowly fell into the clouds.

The traces disappeared.

At this moment.

Suddenly, the system notification rang.

[Ding~ The system has restored the rules to usual. The live broadcast has resumed.

The audience members who had lost their images felt depressed when their eyes suddenly lit up.

The scene returned.

The crowd immediately focused their attention and looked over. After they saw the scene on the floating square, they were all stunned.

The solid ground of the floating square had turned into sand.

Only Qingqiu, the mummy hero, and the human female warrior who had killed the rotten worm boss with one strike remained on screen.

The other one was an elf with a somewhat illusory body.

The other party was a vengeful spirit. And a battle unit Qingqiu deliberately hid.

The overbearing undead dragons, ferocious gargoyles, and tomahawk-wielding undead soldiers of Qingqiu had all disappeared.

The only things they could see were the corpses buried under the sand. It was like they told the story of the battle.

This scene immediately made the players excited.

[Hahaha, Qingqiu, to think you would have such a day!]

[That level 15 boss defeated Qingqiu?]

[F*ck, what's going on? Where's the boss?]

[Such heavy casualties, isn't it great? Hahaha, be happy for me for an entire year!]

Sarcasm continued...

The number of viewers in the live broadcasting room began to increase rapidly.

Not for anything but to see how the opponent overturned Qingqiu.

They were all secretly pleased when they saw that lonely place.

There were many posts on the forums about Qingqiu encountering bosses, the wiped-out troops, and the current state of the Twilight City troops.

Everyone clapped and cheered.

The massive loss the opponent had suffered made them feel extremely comfortable.

However, no one knew about the actual situation.

If these gloating idiots knew the truth, jealousy would probably fill their stomachs.

A level 15 boss...

'Boom! Boom! Boom!'

After the two floating squares on the side collapsed, the square under their feet moved to the west again.

Twilight City only had four powers left. They encountered the third player from the sky arena.

The demon camp players excitedly cried out when they saw that Richard's troops were down to their last few.

They thought the system would deliver the points to them.

However, the moment the two floating plazas met.

The demon player realized how ridiculous its idea was.

Xina took the lead charge. She cut all the enemies in half wherever she went.

Demon? They were just a bunch of chicks.

As for Renee, who could control space, this divine being could solo a level 15 boss.

It was like a wolf entered a flock of sheep and faced a group of rare and mixed groups.

It killed in all directions.

Gunter also transformed into a magic cannon.

Although it wasn't very effective against the dark valkyrie, it was a massacre against a group of elite troops.

No soldier could stop the three heroes.

Richard hadn't even stepped into the floating Plaza, and the demon player was already dead.

It was a crushing victory.

In the live broadcasting room, more than three billion viewers waited to see how other players would beat Qingqiu.

They were dumbfounded as they watched the figures slaughter the monsters.

A f*cking hero?

Why was the hero in their hands so weak?

If they were the ones facing this demon troop that was not weak, the C and D-rank heroes under them would not survive, let alone cut vegetables. It would be a miracle if they were still alive.

Were they playing the same game?

This Qingqiu monster, how much does he hide?

Under the shocked gazes of the players, Richard continued his way to the central region after he cleared out the demon players.

The billions of players waited for Richard's death, but it never happened.

No matter how strong the opponent was, they couldn't withstand the sharpness of three top-notch battle forces.

There were even situations where three squadrons of the opposing players were not enough to kill.

When they saw this scene, the billions of viewers in the live broadcasting room were so depressed they almost vomited blood.

It was especially so when they saw a few heroes charge in and out of the enemy's troops that ran amok.

It drove Richard even more. He was even too lazy to move.

"F*ck, this bastard did it again?!"

Chapter 364 - The One-Strike Boss Shocked the Players [1/3]

[Ding~ You have slaughtered a lord and obtained 5,000 points. The current number of kills: ten, ranked first.]

The elven longsword in Renee's hand cut through the last mechanical puppet.

A familiar system notification rang in Richard's ears.

Although the entire troop died, the three top-tier battle forces in his hands swept through the whole sky arena in an overbearing manner.

After he kept the dark valkyrie in the ancient god statue, none of the players he encountered next could withstand the power of the Twilight City.

The viewers in the live broadcasting room turned numb as they watched players get defeated one after another.

They thought the Qingqiu troop could not last much longer after their deaths.

But who would have thought that this was only the beginning?

He only had three heroes left. But he still beat everyone up until they couldn't even resist.

Exceptional! It was enormously bizarre!

Richard continued to move west along the floating square after he knocked down a fortress player.

He had finally arrived at the central plaza where the boss was.

Its diameter was several times larger than an ordinary square.

The most striking spot was the four-winged angel statue that held a long sword in both hands.

The statue's face was not kind and benevolent. It had four sharp fangs instead, and the veins on its face bulged. It was like countless earthworms wriggled on them.

Its ferocious face immediately gave people a strong sense of disharmony.

While Richard examined the statue, seven or eight floating squares arrived at the central square.

Some floating squares had only one player that came down, while some had two or three.

Each led their troops and occupied a direction of the square. No one moved rashly.

He looked around warily.

The two players who came down from the floating square next to Richard saw that only a few of his men remained, and eagerness filled their eyes.

They seemed to want to eat this fatty meat in his stomach.

However, when they considered how the surrounding players stared at them and seemed tigers watching their prey, they held back and did not move.

The audience was disappointed to see the two cowards in the live broadcasting room.

[I didn't expect these two soldiers would hold back...]

[Hehe, when we make our move and they find out their target is Qingqiu, I wonder what expression they would have?]

Expectations rose...

After the other players called for them not to give points to Qingqiu, Richard's live stream viewership dropped from a peak of six billion to around five hundred million.

It wasn't as good as at its peak, but it was still grandly lively.

At first, the audience still looked forward to the other players to overpower and cheered for them.

However, after a few rounds of Richard's wolf in sheep's clothing, they saw the players flipped over and bewildered.

He liked this feeling again.

It's always so comfortable to see other people in trouble.

On the forums, many posts began to speculate on the strength of hero Xina because of Richard's terrifying battle record.

After multiple verifications and deductions, the players on the forum finally recognized a fact... Richard's heroes were at least A-rank!

And this news caused a huge uproar.

It was a massive blow to many players with one or two C or D-rank heroes in their territories.

It was just like when he earned 3,000 yuan a month and suddenly found out that the fellow graduated at the same time with 300 million yuan a year.

He didn't feel good.

There were three A-rank heroes. They would be four if to include the dead dragon hero!

How exaggerated was this?

Countless people were shocked and puzzled when they saw this news.

It was not like they had never encountered a high-level hero before, but the difficulty of the recovery mission for a B-rank hero was ridiculous.

Often, it would take more than a month to complete.

They wondered how Qingqiu could complete the mission of recapturing four A-rank heroes so quickly...

Envy, jealousy, and hatred feelings of most people were difficult to express.

'Boom! Boom!'

Richard frowned at the angel statue. Loud noise jolted it awake.

He turned around and saw the floating square connected to the central square had collapsed entirely.

They fell into the clouds below.

All the players had lost their way out.

After the floating square collapsed...

'Crack!'

A crisp sound of an explosion rang in everyone's ears.

The hearts of the remaining 20 or more players in the square skipped a beat.

He suddenly looked towards the central area...

The outer shell of the ferocious-looking four-winged angel statue cracked and fell off.

An indescribable dark aura surged out.

The world seemed to have lost its color.

And for every inch of the statue's outer shell that crumbled, the dark aura it emitted would increase by a notch.

It was as if a giant abyssal beast was out of its shell.

The terrifying pressure was soul-stirring.

No one dared to move for fear that the terrifying existence would choose them as a target.

When the statue's hard shell completely faded away, a terrifying four-winged monster with black wings on its back and a ferocious face appeared in front of them.

It was three meters tall, and its dark eyes seemed could devour souls.

With just a glance, it gave people an inexpressible fear.

Its four long and narrow wings flapped gently, and its body floated in the air. It was like a demon was born.

All the players on the floating square felt a heavy pressure on their hearts.

Even breathing was difficult.

[Corrupted Angel]

[Boss Unit]

[Level 15]

[Potential B-rank]

[Description: No one was willing to face the blade of an evil angel with great power.]

Chapter 365 The One-Strike Boss Shocked Players [2/3]

The boss of the sky arena had appeared.

At this moment, all the players in the square felt uneasy... Scorching hot.

“Brothers, listen to me. This boss’s level is too high. None of us can deal with it alone!

“And the floating square already collapsed. No one can escape.

“We only have one enemy now, and that’s the boss in front of us!

“The only thing we need to do now is to team up and take down this boss!

“There’s no need for internal friction!”

At this moment, a steady voice resounded through the sky.

However, the central square was too big, so no one knew who spoke.

However, these words stabilized the situation somehow. At least, most players agreed with this insinuation.

“Anyway, we can still revive after we die. At most, we’ll just leave the arena. We won’t suffer any losses.”

“But if we can defeat this boss, then we’ll be making a profit!”

“Besides, there’s a live broadcast outside. Fighting the boss will be more attractive than us killing each other.”

“If more people can watch it, everyone could get points from the system...”

“And if we don’t do anything and let the boss kill us one by one, we’ll all be in trouble.”

“Brothers, let’s attack together!”

As the compelling voice fell, five players from the north had come together and began to command the troop to press forward.

When the other players saw, they had various thoughts in their minds and took action.

They had already accepted most of this explanation in their hearts.

Killing a player would only earn one 5000 points at most. If one could kill a boss, the rewards would not be small!

And fighting bosses was so interesting...

They immediately looked at the corrupted angel after the players activated their DNA.

All had the mentality of getting a big hit, and they commanded their troops to approach the central area and aim for the corrupted angels.

Richard saw this and stopped his attack.

It was the first time he had seen so many players work together. It was interesting.

He glanced at the time.

There were less than 20 minutes left before the system would do a headcount. It would promote everyone if the people were fewer than ten.

However, to defeat a level 15 boss in just over ten minutes...

'Could these players do it?'

The moment this thought appeared in his mind, the scattered troop of players began to attack.

"Fire!"

With an angry roar, the battlefield instantly became hot.

There were elves, dwarves, humans, orcs, and demons. There were players from five different races.

Some had lost a portion of their troops, while others retained their strength.

When they gathered together, they looked like a black mass and did have some momentum.

“Kill!” The corrupted angel shouted after it entered the attack range.

All the long-range soldiers attacked at the same time.

Arrows, pellets, flying axes, throwing spears... All sorts of weapons flew across the sky.

Something seemed to awaken the corrupted angel after they hit it. And its dark eyes regained focus.

However, it was too late for it to dodge.

With more than a large group of long-range soldiers that attacked simultaneously, even a giant dragon would lose half its life.

The corrupted angel wore armor and appeared to be as thin as a cicada's wings. It had blocked the concentrated attack.

Although there were many scars, they were only superficial wounds and did not cause any substantial impact. Its battle power was still the same.

However, these attacks had angered the corrupted angel that had just woken up.

The boss flapped its wings and disappeared.

The next moment, it appeared in the player troop closest to him.

The black longsword in its hand danced wildly.

The surrounding troops were like lambs. Several fell.

No one could block its edge.

This sudden scene instantly disturbed the hearts of the players. The players who did not have a unified command were at a loss.

Some immediately changed directions and attacked the player.

The other group hesitated. They didn't know whether to advance or retreat.

The so ambitious players who aimed to take down the boss became a pile of loose sand.

Everyone was aware of the disadvantage, but unfortunately, the situation changed too quickly, and there was no time to choose a commander ...

One could only rely on its strength to fight.

And the result was a one-sided slaughter.

In the live broadcasting room, the viewers were speechless when they saw the boss slaughter the players in a frenzy while the others were at a loss.

[I thought they were spectacular. It turns out they're just a motley crew.]

[It's too difficult to kill a powerful boss without a commander.]

[What about Qingqiu? Why aren't you making a move?]

Inuendos continued...

The players in the central square did not know of Qingqiu's existence, but they did.

At this moment, the guy who only had two or three subordinates and no one cared about him was the giant crocodile in this fish pond.

He looked at the chaotic situation.

Richard's expression was a little strange. He'd wanted to see what the other players would do when they faced the boss.

However, he didn't expect such a scene to happen. More than 20 players from more than three large teams of soldiers.

It shattered with a single touch in battle. There wasn't even any decent resistance.

Of course, this was partly due to a disoriented command. But the root cause was the quality of the troop.

If they didn't even have a solid force to block the enemy, what could the damage attackers at the back use?

He watched as the furious corrupted angels crushed the large swaths of the troop.

A sense of achievement rose in his heart. Only with comparison could he feel the gap.

At this moment, the collapsing situation exposed the gap in strength.

The distance between Twilight City and the ordinary players widened.

Chapter 366 - The One-Strike Boss Shocked the Players [3/3]

His efforts to strengthen Twilight City during this period were not in vain!

He turned his head to look at Xina. She had already recovered to her peak state. And Renee, who carried a body somewhat illusory.

“Go all out and kill that corrupted angel.”

“We only have ten minutes.”

“I’ve given you a chance, but you’re useless. I’ll let Twilight City take care of it.”

The voice fell.

The two top-notch combat forces beside him immediately surged with battle intent.

The players who were lucky enough to survive but were still in chaos suddenly saw the boss, who they thought was invincible, forcibly restrained.

The first to arrive was Renee, the ultimate existence at level 14.

The divine spell of Space Control gave it unparalleled flexibility.

After it crossed the void, it appeared directly in front of the corrupted angel. The angel slaughtered in all directions.

Its right hand grabbed Renee's neck.

Perhaps, nothing was more embarrassing than this.

The corrupted angel's eyes were red, and the anger in its heart could melt steel!

The long sword that could cut through the void swung up.

It could even cut down even the city walls!

However, Renee didn't mind the other party's attack.

It exerted force with its fingers.

"Explode!"

A cold snort resounded through the sky.

'Bang!'

Endless black flames burst out, the corrupted Angel as the center.

It was like a massive wave a hundred thousand feet tall, violently swept in all directions.

It didn't distinguish between friend and foe.

It also devoured the surrounding troops.

The moment the black flames surged over, the soldiers felt as if the enemy threw their souls into a furnace that melted steel.

It covered its head with its hands and fell to the ground. Its body twitched uncontrollably.

Then, in extreme pain, it stopped breathing.

Divine spell, Soul Flame.

The burning corrupted angel's body trembled, and the pain from its soul almost drove it mad.

Its already twisted face became even more ferocious.

“Ah!!!”

It roared.

The longsword moved even faster and ruthlessly cut into Renee's body.

But unexpectedly, the corrupted angel's attack directly passed through the other party's body.

Although it left behind an exaggerated scar, it caused scant damage.

The divine body reduces 70% of physical and magic damage received.

The corrupted angel's attack had not stopped.

"Slash!"

A bright sword light tore through the sky.

At this moment, Renee's figure suddenly disappeared.

The corrupted angel's heart skipped a beat. It could smell the scent of death.

'Threat!'

“Ah!!!”

It used all of its strength and turned sideways.

‘Puchi!’

In the nick of time, it had avoided its vital parts.

However, the terrifying sword’s radiance still managed to slice through its waist.

It directly penetrated the sturdy armor, and an exaggerated scar appeared on the abdomen.

Blood splattered everywhere like a broken faucet.

Furious slash of the heavens.

After the terrifying killing move.

The elven sword reappeared in Renee’s hand after its disappearance. The sharp sword tore through the sky and slashed at the corrupted angel in the most violent manner.

This level 15 boss almost could not block the series of consecutive attacks.

With an unwilling roar, its figure instantly appeared in the middle of another player's troop a hundred meters away.

The player had not yet recovered from the sudden change in the situation and felt its scalp numb.

[F*ck! What grudge do you convey to come here?]

But it didn't have time to react.

An illusory elf appeared in its line of sight.

In Renee's eyes, the space movement of the corrupted angel was like child's play.

Its palm grabbed the opponent's neck again.

Under that extremely humiliated and angry gaze...

A dark light burst out from its body and engulfed a radius of a hundred meters, it as the center.

The soldiers within the range of the dark light suddenly felt like someone threw their souls into a meat grinder, and endless pain came.

In an instant, it destroyed the souls of all the soldiers enveloped by the dark light.

Without exception.

[Divine Spell, Soul Attack.]

[Releases a powerful wave of soul energy, destroying the souls of all enemies within a 100-meter radius. Every cast costs five divine power.]

'Roar!'

The corrupted angel hysterically roared when it fought the divine spell again.

The pain from its soul was on the verge of collapse.

The battle sword in its hand was like the counterattack of a dying beast, and it began to attack crazily.

At the same time, gray energy gushed out of its body and swept violently in all directions.

The ground exploded under the pressure of the energy.

However, no matter how violent the power was, it would be weakened by more than half when it hit Renee.

To this ultimate battle force that could resurrect and trade injuries for injuries was like a joke.

When the aftermath of the soul attack dissipated ...

Reyne withstood the frenzy attacks of the corrupted angel. Its right hand clenched into a fist, raised it high, and then waved it at the angel's forehead.

At that moment.

It formed a dark arrow in its hand.

At that moment, an inexpressible fear rose in the heart of the corrupted angel.

The death stared at it.

But it... It could not avoid it!

'Puchi!'

The arrow pierced through his head.

No blood flowed out, but the other party's life force at this moment.

At the same time.

A figure leaped up from the ground.

It streaked across the sky like lightning.

The cross-shaped longsword in its hand slashed down.

'Puchi!'

A colossal head rose high.

The fresh blood bloomed into the most resplendent flower of death.

The corrupted angel suddenly stopped its flapping wings, and under everyone's gaze, it fell from the sky.

'Bang!'

The head that flew high followed closely behind and smashed into the ground with a dull sound.

The scene fell into a deathly silence.

The players still alive looked at the illusory elf that floated in the air and Xina landed on the ground and stood with her sword.

Their hearts felt like they had been hit by a magnitude 18 earthquake.

Dumbfounded.

No words could describe their shock at this moment.

A level 15 boss was a terrifying existence that could kill them like dogs.

Under their watchful eyes, one or two heroes killed it... Yes, there were only two people on the other side!

That was! Level 15 boss, a boss! It was not some random nobody!

And they quickly nailed it, so cleanly, so shocking!

Without any delay!

Several dazed players suddenly realized something after they regained their senses.

From the moment the two heroes made their move to the end of the battle, it took less than a minute...

With that in mind, all the remaining players turned to look at Richard.

The face covered by the sand seemed to be filled with endless mystery.

That pair of deep eyes made them hold their breath.

A question that was so strong that they couldn't wait to know immediately appeared in their mind.

'Who was he? Why did he have such powerful subordinates? Why?'

In the broadcast room.

The moment it chopped the corrupted angel's head.

It was as if someone had pressed the pause button on the bullet screen, and the screen went blank for a long time.

Chapter 367 - The Great Demon King Challenge, Joined Forces To Defeat Qing Qiu! [1/3]

[F*ck! Is that an A-rank hero? How can he be so powerful?!!]

[They slaughtered the level 15 boss in less than a minute. What kind of f*cking battle power is this?]

[Am I hallucinating? How did that boss disappear in the time it took me to pee?]

[That's a level 15 boss!]

Everyone was stunned...

In the live broadcasting room, the bullet comments blank for a long time suddenly flooded in.

The players who had witnessed the beheading of the level 15 boss now spammed the bullet screen like crazy.

Although they were just spectators, the shock they received was no less than the players who were lucky enough to survive.

They knew Qingqiu heroes were powerful, but they did not expect them to be this exceedingly powerful!

Even more outrageous was that Qingqiu had paid an enormous price to kill the same-level boss and the rotten worm in the previous arena.

Moreover, the high-intensity battle lasted for an hour before they finally won.

But now, they no longer had that powerful dragon hero and the three squadrons of powerful troops.

The battle ended even faster?

It bewildered billions of players who watched the battle.

They looked at the key person who controlled this sudden battle—Renee—whose body had a somewhat illusory divine soul.

Could this undead hero that appeared later be more soul-strapping than an A-rank hero?

The more they thought about it, the more shocked they were.

The system also posted the shocking battle record on the forum.

Various discussions about how the heroes of Qingqiu could have killed the level 15 boss in less than a minute followed that.

The players who didn't see this scene showed disdain when they first saw these posts. They didn't believe it at all.

What a joke! If a level 15 boss was that easy to deal with, would there be a need for dozens of people to form a party?

However, they soon realized that something was wrong. One person could fake it, but everyone said the same thing. Could it still be fake?

They were all shocked after they confirmed the authenticity of the news.

In their excitement, they hyped the news even more.

Dozens of players ignored even the news of the defeated second boss.

Richard had no idea what was going on outside.

However, Renee and Xina's cooperation had indeed exceeded his expectations. The battle power of these two top-notch existences of Twilight City was too explosive.

Renee's divine power was the only price to pay for killing the corrupted angel.

No matter how one looked at it, it was a massive gain.

However, what made him frown was that although divine power was supremely soul-strapping, it also had a big flaw—the recovery time was too slow.

Renee could only recover one point of divine power every hour. She would need 40 hours to recover her 40 points of divine power.

And this was fast already. The divinity that could resurrect would take an even more ridiculous time to recover. It only recovers one point every week.

Four points of divinity would take four weeks which was a month.

Renee consumed its divinity after first meeting the dark valkyrie and now fighting the corrupted angel.

The next arena would be arduous.

However, the outside world did not know the inside story. It only saw that the opponent killed in less than a minute the level 15 boss, who rampaged through the player's troop.

[Ding~ You have commanded your troop to kill a special boss]

[The system notification returned Richard to his senses.

It exalted his mood immediately.

Now, it was time to reap the rewards.

Richard looked at the headless corpse of the corrupted angel.

As he strode forward, Gunter immediately followed behind.

His movement immediately became the focus of everyone.

'Tata! Tata!'

The square filled with corpses suddenly fell silent. They only hear the crisp sound of boots stepping on the floor.

Everyone's eyes followed the indifferent figure.

Step by step.

He arrived next to the corrupted angel.

Killing monsters and dropping equipment...

The alive players watched with burning eyes, but none dared to move.

Although the other party only had four subordinates, everyone knew who was in charge of the arena.

His every word and action could determine their fate at this moment.

The live broadcasting room viewers had mixed feelings when they saw that the surviving players didn't even dare to speak.

They looked at the calm voice that took control of the situation without saying a word.

Many people thought this was how a real man should be.

Qingqiu did not make a move but controlled the situation. He did not say a word, but everyone trembled in fear.

This kind of deterrent force was more powerful than any words.

It made people yearn for it.

He could calm down troops and control the situation with a snap of his fingers and a wave of his hand. It seemed the demeanor a lord should have.

Richard looked at the headless body on the ground, and anticipation shrouded his eyes.

In the last boss, he had obtained a crystal treasure chest and a 5-stars treasure—the psionic gemstone.

This boss's loot shouldn't be any worse than the previous one, right?

"Gunter, perform a body search."

Naturally, he didn't need to search the bodies. He only needed to wait for his subordinates to present the treasures.

As a blood lich, Gunter had no feelings for corpses.

The undead hero bent down and began to search.

However, he shook his head after it searched carefully. It indicated it had found nothing.

Richard frowned.

Chapter 368 - The Great Demon King Challenge, Joined Forces To Defeat Qing Qiu! [2/3]

"There was nothing? Wasn't this a joke?"

Just as Richard felt puzzled, he suddenly saw the base where the corrupted angel stood when it was still a statue... It was a huge white rock.

"Xina! Split that rock!"

Xina quickly stepped forward with her sword. She slashed down under everyone's gaze.

'Clang!'

The sound of metal clashing rang out.

Unable to withstand the powerful force, countless cracks appeared on the boulder.

Then, it fell off with a cracking sound.

A crystal-clear crystal treasure chest appeared in the air.

It immediately made countless viewers drool.

It was the second crystal treasure chest that Qingqiu had obtained!

"I want it..."

Richard's lips curled up.

It was great. It didn't disappoint Richard.

He stepped forward and arrived in front of the treasure chest.

Just as he was about to open it, he suddenly thought of something. With a wave of his hand, inconspicuous sand in the distance flew and blocked the view of outsiders again.

His gesture made the audience in the live broadcasting room babble and curse. They wished to hack this bastard to death.

[Was there such an annoying person?]

[So what if he allowed us to see? It's not like he's a Hanako!]

[F*cking Qingqiu!]

Richard didn't have time to think about anything else. He opened the second crystal chest with mighty anticipation.

The moment he opened the box, a light flashed, and a familiar item appeared at its bottom.

Five-stars treasure, psionic gemstone.

It startled Richard for a moment, and then he pondered.

It seemed not a stroke of luck that he had found a psionic gemstone last time.

There was a high probability that all the treasure chests in the death arena fighting ring would only give out psionic gemstones.

It might be a special reward from the death arena fighting ring.

As he pondered, he kept the multicolored gemstones in the system space.

He was in a good mood.

Regardless of whether there were other treasures, it was a great deal to get the spiritual power gemstone!

He could enhance a troop type to the extreme. After use, the user can choose the direction of enhancement.

There would never be too many treasures that could directly enhance the strength of a troop class.

This treasure could be futile to other players because it could not level up their troop lairs.

But he was different.

The Black Gold System, which could upgrade the troop lair, could maximize the special characteristics of this treasure.

He could use his troops until the later stages.

To him, the value of this treasure had increased by more than one grade.

It was wonderful.

Richard seemed to have thought of something after the sand scattered. He gazed around.

The remaining players appeared in his eyes.

When the players saw this, they immediately felt nervous.

Although they had just said they would work together to deal with the boss and not kill each other, they would not do it.

However, the joint attack just now was like a joke. And it didn't have any effect.

Moreover, from the beginning to the end, killing the boss had nothing to do with them. They were just the ones the boss slaughtered.

Without the camaraderie of comrades, Qingqiu could destroy them all with a single command.

However, no one thought that the other party couldn't do it.

Just as the players nervously waited to see if Qingqiu would attack, the system notification suddenly sounded.

[Ding~ Current lords: 8. Everyone can advance to the next round.]

After the notification, a translucent shield rose and isolated all the players in the arena.

It made everyone heave a sigh of relief. Each revealed the joy of surviving a disaster.

If possible, they never wanted to meet this freak again!

[Ding~ The number of players killed: 13. You ranked first and obtained five battle points. You killed a level 15 boss solo and received an additional five battle points—Current battle points: 30.]

Richard nodded in satisfaction.

When he hunted the corrupted angel, he accidentally killed a few players beside him... It increased his kill count to 13, and he won first place for the second time.

Richard waved his hand in a good mood and formed a chair using sand. He laid the blanket of the fire dragon rabbit on it and leaned against it comfortably.

He didn't know when the other arenas would end, so he decided to lie down first.

The audience in the live broadcasting room didn't know whether to laugh or cry.

"This guy started that again!"

However, he had to admire his big heart. He had just experienced such an intense battle and now would sleep just like that. It was indeed astounding.

After he lay down comfortably for three hours, the system notification rang again.

But this time, all the players were excited.

[Ding~ The second round of the Gladiator Challenge has ended. The current number of players alive: 9,238.]

[The third round of the death arena fighting ring, the Demon King Challenge, is about to begin.]

[The lord who has won first place in two consecutive death corner fights will become a great demon king and face challenges from other lords.]

[Each great demon king can choose four challenge modes: easy, average, hard, and nightmare.]

[In the easy mode, the great demon king will face the joint attack of five lords. In the average, the great demon king will face 10 Lords, 20 in the hard, and 30 in the nightmare mode.]

[The lord who doesn't get first place two times in a row can spend one gladiator point to become a great demon king and accept challenges from other lords.]

[After the lords who challenged the great demon king joined forces to defeat the great demon king, everyone will receive the reward for killing an average boss—three gladiator points, three gold points, and a 3-stars treasure chest.]

[If the great demon king has defeated the challenging lord. In easy mode, you will receive a reward for killing a special boss—five gladiator points, five gold points, and a 4-stars treasure chest.]

[The average mode will reward you with double the kill of a unique boss.]

[The reward for hard mode is 3x, and for nightmare is 4x.]

[Every great demon king will have three chances to choose the difficulty level.]

Chapter 369 -: The Great Demon King Challenge, Joined Forces To Defeat Qing Qiu! [3/3]

[Even an average lord has three chances to challenge the Great Demon King.]

[After the Demon King Challenge ends, the system will promote the lords with the top 1,000 points to the next round. It will eliminate the rest of the lords.]

Richard was awoken from his daze and immediately rechecked the area.

In the end, he looked rather excited.

This Great Demon King's challenge was enthralling.

He was no longer interested in ordinary players.

It was like playing a game with a group of low AI machines. It was no challenge at all.

However, the situation would be starkly different if 10, 20, or even 30 players worked together.

It was especially true when several troops under his command were limited to only three squadrons.

The death arena fighting ring did not have the walls of Twilight City as a defense, and the pressure on them was not light when they faced enemies dozens of times their number.

It was arduous beyond one plus one equals two if the number increased. The difficulty of dealing with it would also increase exponentially.

Players who could advance after two rounds of elimination were the elites chosen from tens of billions of people.

There were no weaklings.

However, the most enthralling thing about the challenger league was that players were not NPCs.

Once these guys prepared, they were much more shameless and could come underhanded.

Moreover, these guys could be lucky enough to get some powerful treasure from opening the treasure chest.

For example, the damaged forbidden spell that had appeared on the forum...

However, it was also because of this that Richard found it enthralling.

“I hope you won’t disappoint me.”

“Xina, Gunter, Alves, and the even more terrifying divine soul, Renee, anyone could become a Great Demon King.”

Now, he had four of them...

The corners of his mouth curled up.

“I also hope that you won’t cry...”

Just as he was eager to try, the other players were also excited.

Whether to become a great demon king or to challenge a great demon king, he could obtain great benefits.

And it was indeed interesting.

[Ding~ After announcing your two consecutive victories, you will automatically become the Lord of the Great Demon King.]

[First place: Qingqiu.]

[Second place: Abalone Lover.]

[Third place: Christina.]

[Fourth place...]

Announcement of ranks continued.

[One hundred twenty-third place: I Love A stick of Firewood.]

[The top three great demon kings will automatically choose the nightmare difficulty in the first round. The fourth to tenth great demon kings will automatically have the hard. The rest of the great demon kings are free to choose.]

[All ordinary lords, please make your preparations. After the next round, please choose a great demon king to challenge.]

[One million players had participated in the death arena fighting ring, and the system would at least eliminate 90% of them. After two rounds, less than 10,000 players would remain in the death arena fighting ring.]

However, he did not expect that more than a hundred people could take first place for two rounds in a row.

It surprised the players the system did not eliminate. But then they saw the ID at the top of the list—Qingqiu.

They were stunned at first, but then they revealed looks of wild joy.

[Qingqiu!]

[That fellow was still there!]

Furthermore, the system had set the enemy to the highest nightmare difficulty, which meant that one had to face the combined attack of 30 players!

The heavens blessed them!

Thirty people could finally work together this time to defeat this freak!

[The devil? Hahaha, this time, I'll make you a soft-legged shrimp!]

The thought they could trample on the top player on the ranking board, the most popular top player on the forum, made the players burst with excitement.

This time, no matter what, they had to kill Qingqiu!

At that moment, all the viewers in the live broadcasting room saw the system notification on the screen.

Tens of billions of people are immersed in the emotions of the two Qingqiu heroes killing the boss.

When they glanced at this scene, it stunned them, and they all became excited.

They believe Qingqiu would die this time no matter how perverted he was!

Chapter 370 -: The Strange Encounter With The God's Ancient Tree

“For the lord’s sake...”

A deep voice rang out from the black ground.

The void hunters that guarded the dark crystal turned to look toward the sound.

In their perception, a terrifying treant that exuded an evil aura appeared.

They saw more than a dozen dried branches like the arms of the undead without flesh and blood. They were twisted and deformed, and several long roots moved forward on the ground.

Its posture was overbearing and powerful.

There was a group of remarkable wasps on the leafless crown of the tree. Its black mass was like a dark cloud, and they could hear a buzzing sound from a long distance.

God’s ancient tree.

This level-13 boss was the most powerful in the entire Twilight City before the appearance of the divine soul.

The eyeless void hunters relied on their perception to observe their surroundings. At this moment, they could sense the treant in front of them contained the majestic energy of thousands of waterfalls that fell from the nine heavens.

The monsters of darkness immediately raised their vigilance to the extreme.

The guarding darkness crystal was a mark imprinted in the soul.

It was unshakeable.

Whoever dared to offend them would have to face the most brutal attack.

'Bang! Bang!'

The muffled sound of heavy hammers hitting the ground rang out incessantly.

The void hunters could sense the opponent approached quickly!

The moment the opponent reached the 100-meter limit...

More than half of the three squadrons of void hunters suddenly disappeared.

The next second.

A dense group of void hunters appeared in front of the god's ancient tree.

These hideous monsters crazily charged at it.

The sharp claws in their hands that could tear through steel struck the giant tree trunk.

A series of scratches appeared on the giant tree trunk.

It was ferocious and crazy.

Even a sturdy city wall would collapse under such concentrated attacks.

The twisted human-faced giant tree trunk frowned slightly.

The next moment.

'Hu!'

They heard an explosion.

The giant tree trunk with instant death characteristics tore through space.

The power was shocking.

The void hunters can teleport once every three seconds.

After teleportation, these monsters would not fall from the void and could still move around.

A powerful ability.

However, the target of their attack was the god's ancient tree, and if they wanted to cause damage, they had to get close.

The invincible god's ancient tree loved this charge close-battle unit the most.

Without long-ranged restraints, this boss's battle power was so strong that it made one's hair stand on end.

'Bang!'

The giant tree trunk hit a void hunter in the air. Its body was like a baseball, and the giant tree trunk kicked it to fly like a cannonball. The void hunter flew a hundred meters away and smashed into the black ground with a dull sound.

When the giant tree trunk focused and glanced again, it broke all the bones and muscles in the other party's body.

It was supremely tragic.

The giant tree trunk, which was 70% thicker than the beam of a house, was more than enough as a weapon for a 10-meter-tall giant.

With such a violent attack, it would even smash a giant dragon and make it vomit blood.

The void hunter was still powerless against such absolute power although the void hunter was at level 14.

'Buzz! Buzz! Buzz!'

The venomous wasps swarmed down from the tree crown as it moved.

It was like a massive wave. It quickly drowned the enemy.

The void hunter's outer bone armor was as hard as steel. They could not withstand the poisonous sting of the bee.

These agile troops flapped their wings and shot down at a terrifying speed like sharp arrows.

'Rip!'

The bone armor looked like a scalpel had cut it.

The poisonous stingers streaked across its body.

Before the void hunter could react, the venomous wasp passed by it.

After a few breaths, the surface of his body started to turn blue.

After it twitched a few times, the terrifying poison devoured the monsters' vitality, and they fell from the sky and crashed to the ground.

It activated an attribute that when the number of venomous hornets reached 3,000... As long as ten wasps attacked a single enemy together, it would enormously increase the damage dealt.

With all these buffs, no matter how tenacious the void hunter's vitality was, it couldn't resist the poison damage.

However, the void hunter was not a lamb. It waved its sharp claws wildly and made a fierce counterattack.

Death was the only outcome when an opponent hit a wasp 10 centimeters in size.

The battle had become enormously intense from the very beginning.

The god's ancient tree had become a well-deserved meat grinder. It would kill those opponents who dared to charge forward.

The terrifying destructive power made the void hunter experience how powerful it was.

It broke a hundred tricks with one move.

As an assassin, the venomous wasps were an offensive type.

The two sides complemented each other.

Under such an overbearing attack, even if the void hunters could teleport, it killed them in just two to three minutes.

Those corpses became the spoils of war for the god's ancient tree. After it devoured them, the golden fruits on the trunk began to rapidly grow.

It quickly replenished the venomous wasps lost in the battle.

This boss was an entire troop that used war to sustain the battle.

It could produce even more powerful wasps if its level continued to increase.

It had cleared the enemies in front, but the god's ancient tree did not stop. It quickly charged toward the enemies that guarded the dark crystal.

The remaining void hunters fought back frantically. Their sharp claws left deep marks on the tree trunk.

However, these attacks were like tickles to the boss, who was enormously resistant to armor.

Under the attack of the god's ancient tree, it smashed the void hunters that guarded the dark crystal under its overbearing posture.

Blood covered the black ground.

It razed the monster stronghold guarded by three squadrons in less than 10 minutes.

After the giant tree trunk devoured all the corpses, the god's ancient tree looked at the dark crystal that supported the spatial rift.

It was not in a hurry to roll out the dark crystal and let the wasps send them back to Twilight City.

Instead, he looked at the space rift that rippled with hesitation.

Before Richard left, he had told it that something was terrible on the other side of the spatial rift.

“Go there only if it were necessary.”

However, as it devoured more and more dark energy ...

Its body transformation got increasingly deeper. It could feel a unique force on the other side of the spatial rift attracting it.

That feeling was... The dark power it had obtained lacked something. And the other side of the spatial rift could make up for it.

After it pondered.

The god's ancient tree tried.

The feeling that came from the depths of its soul could not be wrong.

It slowly extended a root into the space gap while it pondered.

In an instant, it felt indescribable majestic energy surge into the root.

It had devoured the dark energy several times purer than the ones from the void lickers and void hunters.

Its soul immediately felt the joy of a thirsty person that met water from a well, and the transformation suddenly accelerated a little.

After the god's ancient tree didn't sense any danger, it was greatly relieved.

Slowly, more and more roots passed through the spatial rift.

At this moment, it could also sense the environment within a hundred meters of the space gap.

There was no life around it. And dark energy filled the sky and earth it desperately desired.

The dark energy in the ground was especially active, and it was a hundred times richer than the black earth it was on!

When it sensed this, it immediately stuck its roots into the ground.

As a big tree. The giant tree was best at absorbing nutrients from the soil.

Without any danger, the god's ancient tree began to devour the power that could transform it.

After an unknown period, when the energy in its body had reached a certain level ...

Suddenly.

The god's ancient tree's aura rose sharply. It spewed out in all directions without any restraint.

After it returned to its senses, the boss immediately felt a sublime change in its soul.

Although it had yet to transform, it had gained a new power... It was a newly awakened skill.

However, before it could sense the power in detail, an indescribable aura passed through the spatial rift and arrived.

At this moment, it was as if a mountain ten thousand feet high had collapsed and brought a majestic aura that shook the world.

The soul of the god's ancient tree seemed frozen.

An indescribable sense of danger filled the air.

Death stared at it!

Just as it was about to make a move.

'Crack!'

It broke dozens of roots that passed through the spatial rift.

It shocked the god's ancient tree. It violently twitched the roots that bound the dark crystals. The dark crystals immediately scattered in all directions.

The spatial rift slowly collapsed like a bubble without the support of energy.

That terrifying pressure finally dissipated.

The god's ancient tree looked at the spatial rifts that disappeared in silence for a long time.

It finally understood what its lord meant by 'great terror'.

That kind of power was beyond its imagination.

After a long time, it returned to its senses and ordered the venomous wasps to send the scattered dark crystals back to Twilight City.

When it cleared the dark crystals on the ground, it was about to turn around and leave.

Suddenly, it turned around and looked at the spatial rift that had disappeared.

It could sense that its roots had regained their senses and connection...

The roots brewed a new power.

The boss muttered after it stared at it for a long time.

“Seed... I planted a seed in that strange plane...”
