Chapter 1231: Two Women's Reactions

Liu Linlin replied coldly.

After hearing this, Liu Mu was not hurt in her heart.

After all, I am so worried about my daughter, so concerned about my daughter.

But her daughter treated herself with such an attitude, and no one felt uncomfortable.

But in the end, it was still mother's love that prevailed, Liu Mu did not care about her daughter's attitude, the whole person relaxed, "It's okay, it's okay, it's okay, really, your child just scared me to death, listen to the nanny, you smashed things and screamed in the room, and locked the door back, scared me to think that something happened to you, quickly ran up to check, fortunately, I am relieved that you are okay."

Liu Mu smiled and patted her chest.

Liu Linlin glanced at her lightly and did not speak.

Mother Liu asked again, "Lin Lin, what happened that made you so emotional just now?" Is someone bullying you? You tell your mother, and your mother helps you out.

Liu Linlin seemed to have heard the biggest joke in the world and sneered, "You help me out?" How can you help me? It is the woman who makes me angry with Brother Jing Ting and Rong Shu, you go, do you dare?

She looked at Liu Mu with eyes full of disdain, as if she was looking at a piece of waste.

Liu Mu choked, opened her mouth, and did not make a sound for a long time.

Liu Linlin pushed her away and stood up, "Since you can't do it, don't promise casually."

Mother Liu looked at her aggrievedly, "I don't know it's these two people."

If it were anyone else, maybe she could do it.

Liu Linlin was too lazy to take care of Liu Mu, and lifted the mess on the ground with her foot.

Seeing that she didn't even wear shoes, Liu Mu directly kicked with her bare feet, and was so frightened that she hurriedly stopped, "Lin Lin, what are you doing, don't get hurt."

"You don't have to worry about me, I have a measure." Liu Linlin replied impatiently.

Mother Liu directly pulled her back to the bed and sat down, "How can I ignore you, I'm your mother, okay Lin Lin, I know that you have always disliked me and your father are useless, nothing can help you, but at least when you are sad, I can still help you enlighten ah, you tell me, what happened, what did they do to make you so angry just now, even if I can't do anything, but I can go and tell your grandfather, Let your grandfather figure it out.

Liu Linlin originally wanted to struggle, but when she heard Liu Mu's words, she suddenly stopped struggling.

Seeing this, Liu Mother knew that she had taken the right step, and she let go of Liu Linlin's arm with confidence, "Say it Linlin, tell your mother, don't hold it alone, you will get sick."

Liu Linlin looked at her, but finally nodded slowly and said the reason for her anger.

Knowing that she saw Fu Jingting going to work with Rong Shu's lipstick print, Liu Mu sighed in her heart.

No wonder Lin Linsheng is so atmospheric.

How much Lin Lin loves Jing Ting, she knows it.

Seeing that his beloved man was kissed by another woman, and left traces for everyone to see, it is strange not to be angry.

Really, snatched Jing Ting away from her daughter, not to mention, but also left intimate traces for her daughter to see, that Rong Shu, is really not a good one.

Liu Mu's heart was full of disgust and displeasure for Rong Shu, and she looked at Liu Linlin with distress on her face.

Then, she saw Liu Linlin gritting her teeth and said, "It must be that Rong Shu forcing Brother Jing Ting to do this." "What

?" Liu Mu was stunned, and she did not react to the meaning of her words.

Liu Linlin approached her, her expression distorted, "I mean, press a lipstick print, it was Rong Shu that woman deliberately left on Brother Jing Ting's face, and then forced Brother Jing Ting to go out with a lipstick print, in order to let me see that I only rectified her two days ago, exposing her thoughts about Brother Jing Ting, so she used this way to retaliate against me, telling me that Brother Jing Ting is hers, the person who took pictures of the systolic pressure, and the media that sent the news were all arranged by Rong Shu, She is so vicious!

“Is that really the case?” Mother Liu asked a little worriedly.

Liu Linlin’s expression became even more hideous, “Isn’t this what is it?” Otherwise, why hadn’t Rong Shu done this kind of thing before, but after I had finished her? She was deliberately taking revenge on me.

Although she still felt that something was wrong, Liu Mu still believed her words unconditionally.

“Then this kind of woman is indeed very vicious.” Liu Mu clenched her fists and said angrily, “Even if our Liu family rectified her before, our Liu family was also attacked by the Internet, the stock market is in turmoil because of her, and now it has not recovered, it can be regarded as paying a price, but she is actually not enough, and she has to use such bad means to retaliate, it is too careful.”

“Not only is she careful, she also tramples the dignity of Brother Jing Ting under her feet.” Liu Linlin’s teeth grinded, Liu Mu nodded with deep sympathy, “What I said is that persecuting a man like this is not the handle of Jing Ting in his hand, but I don’t know that once the handle is gone,

Jing Ting will be the first to clean him up.”

“I’m not just talking about that.” Liu Linlin’s eyes were scarlet, “What I’m saying is that she left lipstick marks on Brother Jing Ting’s face and let Brother Jing Ting go out, doesn’t she know that Brother Jing Ting’s identity needs to maintain her image at all times?” She did this to ruin the image that Brother Jing Ting had always maintained, and left jokes, so that Brother Jing Ting was laughed at by people in the circle and laughed at by so many people in the world, she didn’t love Brother Jing Ting at all, she just fancy Brother Jing Ting’s money! The

more he spoke, the more angry he became, and in the end, his body trembled violently, and his face was red.

Liu Mu hurriedly patted her back to calm her down, “Yes, this woman is even scheming.”

“By the way, Mom.” Suddenly thinking of something, Liu Linlin’s crimson eyes stared straight at Liu Mu, “Didn’t you say last time that you want to get an invitation to tonight’s mall banquet?”

“yes.” Liu Mu nodded.

“Got it?”

Mother Liu smiled, "Of course, your grandfather helped someone before, and that person just happened to have it, and without saying a word, it was directly transferred to us."

When Liu Linlin heard this result, she also laughed with satisfaction, "That's really good, Rong Shu has done so many disgusting acts to Brother Jing Ting, tonight, I not only want to help Brother Jing Ting get it back, take back the handle that Rong Shu has about Brother Jing Ting, but also let that woman fall into the dust."

Speaking of this, Liu Linlin immediately stood up, "I'm going to find grandpa and ask him to plan ahead of time and don't have to wait for my banquet." Because

, she can't wait.

After speaking, she didn't care if Liu Mu asked her to put on her shoes, and immediately rushed out of the room.

Liu Mu had no choice, so she quickly found her shoes from the other side of the bed and quickly chased after her.

On the Internet, in addition to Liu Linlin's emotions, in a ward of a private hospital, Su Man was also emotional.

However, compared to the crazy Liu Linlin, Su Man seemed much calmer, but her distorted face and poisonous eyes still showed how uncalm she was at the moment.

Fu Jingting, is actually willing to go out with such a thing, isn't he afraid of embarrassment and laughter?

Su Man bit his lip deadly, looking at the photo of Fu Jingting on the tablet, indicating that he couldn't figure it out.

She and Liu Linlin were reluctant, Liu Linlin thought that Fu Jingting was forced by Rong Shu like this, and Rong Shu had Fu Jingting's handle in her hand, so Fu Jingting had to do this.

But Su Man doesn't think what kind of person Fu Jingting is, she knows very well that no one can force him if he doesn't want to, even if the other party has a handle, he can even directly kill that person to avoid future troubles.

Therefore, in Su Man's view, Fu Jingting did this willingly.

Chapter 1232: The Mysterious Man in Black

The more he realized Fu Jingting's willingness, the more resentful and angry Su Man felt in his heart.

She didn't understand, is Rong Shu so good?

Is it so worthy of his love?

For Rong Shu, he can put down his body, don't even want face, and walk outside with such a funny thing.

Does he still have dignity?

Su Man bit his lip deadly, holding the fingers of the tablet, and also pressed the screen out of the water ripples, as if he was going to be white at any time.

Because of such Fu Jingting, he couldn't accept it.

When she tried so hard to get him, he 'loved' her with all his heart, and he never saw him do such a thing for her to lay down his dignity.

Sure enough, even if there is an invasion of foreign objects, is the feeling of foreign object invasion not comparable to the feelings of natural love?

Su Man's eyes were red, as if he was going to eat people, and he looked terrifying.

She definitely wouldn't just leave it at that.

Whether it is Rong Shu or Fu Jingting, she will not let go of one.

These two people, let her end like this, she did not let them pay a terrible price, she is sorry for all the torture and pain she has suffered in these months.

And these two people, aren't they very in love?

Isn't it possible to get back together if you are divorced?

Isn't there no emotion, and the emotion is rekindled?

She wants to see if their relationship can really last forever with her participation!

In short, what she can't get, they don't want to get.

Even Fu Jingting, she didn't want it.

After all, what you can't get is better than ruining.

Su Man's face showed a twisted and vicious malicious smile, and the laughter was terrifying.

Of course, whether it was Liu Linlin or Su Man, Rong Shu didn't know the reaction of these two people after seeing the news on the Internet.

By this time, she had finished the work at hand and was leaning on the back of her office chair, moving her sore wrists while resting.

When the wrist link was almost finished, the mobile phone on the desk also rang.

Rong Shu walked forward to talk, first glanced at the caller ID, and after seeing who the caller was, then picked up the mobile phone and answered the call, "Hey, I'm Rong Shu."

"Hello Miss Rong, I am Teacher Sophia's assistant, and we met in the store before." On the other end of the phone, a polite female voice came.

Rong Shu was not surprised at all that the caller was her, after all, she had just seen the caller ID.

When she got the dress before, she saved the phone number of Sophia's studio.

So it is clear that the call was either from Sophia herself or from her assistant.

"Hello." Rong Shu nodded slightly, which was regarded as a response.

The assistant on the other end of the phone answered with a smile, "It's Miss Rong, are you free now?" Two hours ago, we received a call from Mr. Fu, who asked our studio to call you around four o'clock in the afternoon to ask if you had time, so we could send someone to help you with makeup and styling.

This Fu Jingting also told her, so Rong Shu nodded and replied: "I'm busy now, you guys come here, I'm in the company, just say hello to the front desk when you arrive, and the front desk will bring you up."

"Okay, then we'll send someone over immediately, Miss Rong wait for a while."

"Hmm."

After the call, Rong Shu put down her mobile phone, and then clicked on a work group, and two front desks in the group said the purpose.

She is the chairman, and she comes out with her own aura, even if there are many people in the group, there are hundreds of messages a second.

But as soon as her news came out, she was noticed at a glance, and the welcoming chairman below was dazzling.

Rong Shu couldn't help but laugh and replied to the meme of a cute little rabbit who was hello to everyone.

Then, the news in the group changed from welcoming the chairman to the news of the chairman's goodbye, not to mention how cheerful the atmosphere was.

Of course, Rong Shu also immediately saw the reply from the front desk at these messages, and then retreated with confidence.

If you don't retreat and continue to reply, the employees in the group will definitely reply.

And so on and so forth, I don't know when it will end.

Putting down the mobile phone, Rong Shu took a sip of coffee, and then heard a knock on the door of the office.

She looked up, and at the open office door, Lina was standing there with a smile with a delicate tote bag, "Chairman, the dress you asked me to help get has arrived."

With that, she put down her hand knocking on the door and walked towards Rong Shu.

Rong Shu stood up with a smile, "Okay, I know, it's hard for you."

"The chairman is polite." Lina handed the bag over with both hands, "Chairman, I didn't take it wrong, right?"

Rong Shu glanced at the box in the bag, shook her head and replied, "That's right, this is it, thank you."

Lina nodded with a smile, "Then Chairman, I'll go out first."

Rong Shu sighed, and was about to say you go busy, when she heard movement outside the office door.

"Who are you? What are you doing? The

two looked at each other.

"What's the situation?" Rong Shu frowned and asked.

Lina shook her head, and it would be your face full of doubts, "I don't know."

"Go check it out." Rong Shu also didn't care about taking out the dress and hanging it, reducing the wrinkles, hurriedly put down the box in her hand, and took the lead in walking towards the office door.

Lina followed.

As soon as the two of them left the office one after another, they saw a man in black standing outside the door of the big office of the assistant secretary next door.

Inside the door of the assistant's large office stood her other secretaries and assistants.

They opened their arms and blocked the door, obviously not wanting to make it dark outside.

Chapter 1233: Definitely Not a Bad Guy

Secretary Tong has no other friends or relatives.

Then it is very suspicious that this person appears here and talks about helping Secretary Tong get things.

"If you don't honestly explain, don't blame me for calling the police, and this is Tiansheng, it's my territory, as long as I want, you can't go out." Rong Shu stared at the man in black tightly, and if a man in black dared to mess around, she was ready to make a move.

Although she has always been a mentally retarded girl, there are so many people here, together, are you afraid that you will not be able to subdue each other?

Not to mention Rong Shu, even Lina and them are ready to strike on time at any time, and several people have even taken out their mobile phones and plan to call the police at any time.

"I'm not Tong Xi's friend, nor am I Tong Xi's relative." At this moment, the man in black finally spoke, and also turned his face to face Rong Shu.

Before, the man in black had always lowered his head slightly, so that Rong Shu could not see the whole face.

Now that she saw it clearly, Rong Shu was stunned.

Strange, how she felt, she seemed to have seen this person.

This person gave her a very familiar feeling.

Is it an illusion?

Rong Shu pursed her red lips and searched carefully in her mind, but she never found out where she had seen this person's memory.

In desperation, she could only temporarily suppress the doubts in her heart, stared at the other party and asked, "Not a friend or a relative, then who are you?" Also, how did you get up?

That's the key.

When a stranger comes to the company, the front desk will ask about its purpose, and only after asking clearly will it be agreed to let go.

Of course, this consent is not a unilateral direct release from the front desk, but first contact the department that the person wants to go to, or the person you want to find, and wait for the consent of the other side before releasing it, rather than casually releasing it.

So what reason did this person use to let the front desk let him go?

Who is contacted at the front desk, and who agrees to be put up at the front desk?

Thinking, Rong Shu turned her head to look at Lina and gave Lina a look.

Lina nodded knowingly, took out her mobile phone and began to contact the front desk to investigate what happened.

Of course, when asking, Lina deliberately walked a little farther away, afraid that the man in black would prevent her from investigating.

However, what he didn't expect was that the man in black just glanced at Lina, and then put his eyes back on Rong Shu, with no intention of stopping Lina at all.

"Sorry Miss Rong, I didn't introduce myself, I'm Tong Xi's neighbor." The man in black bowed slightly towards Rong Shu and introduced politely.

Rong Shu was puzzled, "Neighbor?"

"Yes, I was asked by Tong Xi to come over to help her get things before getting on the plane, her mother's legs and feet are not very good, so she can only ask me, if Miss

Rong doesn't believe it, you can contact Tong Xi or contact Tong Xi's mother." The man in black nodded back.

Rong Shu saw him say this frankly, in fact, he already had some trust in his heart, but just in case, he decided to let people contact Secretary Tong or Secretary Tong's mother to ask.

She asked one of the secretaries for this matter.

The secretary received Rong Shu's order, immediately nodded in response, and at the same time glared at the man in black viciously, "Even if you say so, who knows if you deliberately lowered our vigilance, although Secretary Tong left, but everything is here, her salary is not low, the things left behind, are quite valuable, who knows if you are a thief near Secretary Tong's house, know that Secretary Tong resigned, and the things were not taken away, So deliberately pretending to be Secretary Tong's neighbor to take Secretary Tong's things out to sell? Hmph, you wait, I'll call them, and once I find out that you have a problem, you're done.

"It just is." The other secretarial assistants nodded one after another.

When the man in black saw this scene, his heart was full of helplessness.

He was just ordered by the boss to come over and get Secretary Tong's things.

Who knew that after coming, they found that the task was so difficult.

The man in black didn't know how to answer anymore, he was not a person who could speak well, otherwise he wouldn't have been deadlocked with these people for so long just now, and he hadn't even introduced himself.

Seeing these people clamoring to call to verify his identity, he didn't bother to say anything, and after making a gesture of invitation, he completely stopped talking and was quiet.

Seeing him so calm, Rong Shu's confidence in her heart increased again.

Now I just have to wait for the secretary's phone call to verify the results.

Two minutes later, the secretary who called returned after answering the phone, his expression becoming a little subtle.

Especially when others asked about the results and asked if the man in black was a bad guy, the secretary's expression became even more embarrassed.

She looked at the man in black, put down the mobile phone and shook her head embarrassedly and said with an embarrassed smile: "That I just called Secretary Tong,

Secretary Tong's side may probably be at night, so no one answered, so I called Secretary Tong's mother again, her mother said that Secretary Tong did ask their neighbor to come to the company to get something, it was him, I also specially asked Secretary Tong's mother to come to the dress of the person, the same."

As soon as

these words came out, when others looked at the man in black again, they also became embarrassed.

"Then what, it turns out to be really a neighbor ahahahah" "

It seems that we really misunderstood."

Several people smiled embarrassedly.

At this time, Lina also came back, and after taking a look at the man in black, she replied to Rong Shu: "Chairman, I asked the front desk, and the front desk said that he claimed to be Secretary Tong's neighbor and came to help Secretary Tong move things, and he also took out the text message that Secretary Tong asked him, and the phone number displayed on it was Secretary Tong's, so the front desk did not notify us and let us go directly." "

"So it is." Rong Shu nodded slightly, and finally figured out how this person came up.

When Secretary Tong is there, as her secretary, it is equivalent to the existence of the company's second-in-command, so if someone usually looks for Secretary Tong, the front desk can indeed contact Secretary Tong directly, without contacting her.

Therefore, this person has a text message from Secretary Tong, so it is reasonable that the front desk does not contact her and directly releases people.

"Don't worry, this person is indeed asked by Secretary Tong, and he has just verified Secretary Tong's mother." Rong Shu patted Lina's shoulder and said.

Hearing this, Lina breathed a sigh of relief, "So that's the case, since it's not a suspicious person, then I'm relieved, but"

Speaking, Lina stared at the man in black dissatisfiedly, "Since you have Secretary Tong's text message in your hand, why didn't you show it to us at the beginning, and didn't even say that you were Secretary Tong's neighbor?"

"It's just that it makes us misunderstand."

Others were also a little upset.

The man in black replied knowingly, "Sorry, I didn't think to get up to get the text message, but I said that I came to help Secretary Tong get something, but you don't believe it." I

thought he was a bad guy and wanted to send him to the police station.

Others listened to his explanation and did not accept it.

"What is it that we don't believe it, you just said that you came to help Secretary Tong get things, and did not say that you are Secretary Tong's neighbor, don't ask Secretary Tong to come over, so suddenly a person whose life and death are unknown said so, there is no relevant evidence, of course we will not let you in."

"It's not!"

The man in black also knew that there was a problem with his expression, and embarrassedly squeezed out a smile, "Sorry, I'm not very good at speaking, so" "

Forget it, don't say it, since your identity has been determined, then you come in, quickly take the things away, we still have to go to work!" A secretary interrupted him.

Chapter 1234: It's Your Man

The man in black looked at Rong Shu, obviously asking for Rong Shu's meaning.

Rong Shu nodded slightly at him, and then he followed the secretary assistants into the big office and packed up things for Secretary Tong.

The speed of several people working together was very fast, but in less than a few minutes, Secretary Tong's things had already been packed, two large cardboard boxes.

The man in black bent down and picked up the two cardboard boxes, and after saying hello to Rong Shu, he walked straight towards the elevator.

Rong Shu and Lina stood outside the door of the big office and watched him leave.

Lina sighed, "Although it is a good thing to know that Secretary Tong left for a better future, but at the same time, seeing Secretary Tong leave, my heart is still quite uncomfortable."

With that, she looked back at Rong Shu.

I thought that Rong Shu was also in such a mood, but I didn't expect it, just like seeing Rong Shu frowning in the direction that the man left.

"Chairman, what's wrong?" Lina looked at the direction in which the man in black left, and then at Rong Shu, and hurriedly asked, "Is it that person, what else is the problem?"

Otherwise, why would the chairman show such an expression.

Rong Shu shook her head and nodded again, "No, it's that I feel as if I've seen this person somewhere." Originally,

she had dismissed this idea.

But just seeing the back of the man in black holding the box and leaving, the sense of familiarity surged up again.

Twice in a row made her feel familiar, and she didn't think it was an illusion.

So it can be seen that she has indeed seen this person, but she can't remember where she has seen it.

"Seen?" Lina was slightly surprised, "Impossible, how can you meet Secretary Tong's neighbor, unless you have been to Secretary Tong's house."

Rong Shu shook her head, "It's because I haven't been there, but I feel that I have seen this person, so I care so much, otherwise I wouldn't be like this."

"That would be weird." Lina touched her chin, "Logically speaking, as long as the chairman of the board has not been to Secretary Tong's house, then you and this person, it is impossible to have the opportunity to meet, is it seen elsewhere?"

"I thought so too, maybe I really saw it somewhere." Rong Shu rubbed her temples back.

Lina said again, "But just now, that person can pick up two large boxes of things so easily, there is really nothing to say in terms of strength, and the temperament is also very unusual, I don't feel like a simple ordinary person, but a bit like a military, a person or a bodyguard."

"Bodyguards?" A glimmer of light suddenly flashed in Rong Shu's mind, and she instantly remembered something, and her eyes widened.

Seeing this, Lina, "Chairman, did you remember?"

Rong Shu sighed a little seriously, "I remembered when you said bodyguards, I did meet this person, just in Aqi's company, he is indeed a bodyguard, one of Aqi's

bodyguards, but Aqi usually doesn't like to bring bodyguards around, so his bodyguards basically stay in Lu's security department, I should have seen this person in Lu's."

"It's actually President Lu's bodyguard." Lina exclaimed with surprise on her face, "Are you sure, Chairman?"

"I'm sure." Rong Shu nodded seriously.

Lina looked in the direction where the man in black had long disappeared in amazement, and swallowed, "Didn't you say that he is a neighbor of Secretary Tong's family?" How did he become President Lu's bodyguard again? Or is he lying?

She immediately looked at Rong Shu.

Rong Shu pursed her red lips and did not speak, because of this question, she also said that she could not understand.

Yes, since it is Aqi's bodyguard, why should you say to them that it is Secretary Tong's neighbor?

Or is this person indeed Secretary Tong's neighbor, who happens to live near Secretary Tong and happens to be Aqi's bodyguard?

Although this is possible, it should not be too likely.

Of course, there is another reason, that is, as Lina guessed, this person lied, not Secretary Tong's neighbor, but Aqi's bodyguard.

He came to help Secretary Tong get something, which was what Ah Qi meant.

Otherwise, how could Secretary Tong have ordered Ah Qi's bodyguard?

After all, Ah Qi hates Secretary Tong so much, not to mention that it is impossible to lend his bodyguard to Secretary Tong, let's say that now the two are not superiors and subordinates, and Secretary Tong does not have the face to find Ah Qi to borrow people to take his own things.

So all this, what is going on, she can only call Ah Qi or Secretary Tong in person to get the answer.

And I don't know why, she always feels that there must be some secret hidden in it.

"Chairman?" Seeing that Rong Shu was distracted, Lina couldn't help but wave and shout.

Rong Shu's eyes flickered back to her senses, and she smiled at him, "It's okay, I'll call Ah Qi and ask why his bodyguard came to help Secretary Tong move things, and ask him if he knows it."

Lina nodded.

Rong Shu turned around and went back to her office, and after sitting down, she immediately took out her mobile phone and dialed Lu Qi's number.

Lu Qi answered quickly, and as soon as he opened his mouth, Hanger Langdang's voice came over, "Yo, why did you think of calling me, did you miss me?" Hehe, did you turn your head and find that in the end it was still me who was good, so you wanted to dump Fu Jingting and me?

Of course,

Rong Shu knew that he was joking, and there was no intention to test her by saying this, after all, he himself knew very well that it was impossible for her to break up with Fu Jingting.

At least, not now.

So all this is really just because I want to make a joke and tease her.

Rong Shu rolled her eyes, "Okay, don't talk about it, be serious, I'll find you something."

"Okay, I'm not making trouble, what are you looking for me for?" Phone

Chapter 1235 – Where Can't He?

Rong Shu felt angry in her heart, "Ah Qi, what is your purpose in doing this?" Don't you hate Secretary Tong? Why did you move things for Secretary Tong? Don't tell me what Secretary Tong asked for you, Secretary Tong is afraid that you will not be too late, and will not ask you to help this favor at all, there are so many people in my company, she will help her whatever she finds, there is no need to find you at all, even if she finds you, you also agree, just send someone to come in the open, why go around in a big circle and let your people hide their identities? Ah Qi, what the hell are you thinking?

Lu Qi didn't expect that the person he sent over would be recognized by Rong Shu so easily, and he was somewhat embarrassed in his heart.

He thinks he deployed very well, how did he get discovered?

Well, it must be that his own people are too stupid and inadvertently expose their identities.

It really him off.

“Ah Qi, why can’t you speak?” Seeing that Lu Qi was silent again, Rong Shu was a little dissatisfied, “Say, what do you want to do?” How

could Lu Qi say that he did this not because he was afraid that she would suspect that Tong Xi had not gone abroad at all, but that he was put under house arrest?

After all, she knew very well that she hated Tong Xi, and if she sent someone over to move things for Tong Xi at this time, with her cleverness, she had to think more about how he changed sex, and then found out about his house arrest of Tong Xi.

Therefore, he could only find a way to send a bodyguard she had hardly seen over, and in order to completely dispel her doubts, he also asked the bodyguard to excuse that he was a neighbor of Tong Xi’s family, and specially greeted Tong Xi’s mother for this purpose.

Tong Xi’s mother just treated him as Tong Xi’s past boss, and did not know that he had a good direct relationship with Tong Xi, after all, it was impossible for him and Tong Xi to tell her.

So I really thought that Tong Xi was going abroad for further study, and I thought that Tong Xi asked him, the former boss, to send someone to help move things, and I was afraid that Shushu, the current boss, was angry Why Tong Xi asked the former boss to help, is it in Tong Xi’s heart, the former boss is more important than the current boss.

Therefore, Tong Xi’s purpose was to agree to cooperate very happily, as long as someone called to ask the identity of the bodyguard, he said that he was his neighbor.

He thought that all this he had arranged was seamless, and Shushu would not notice that there was something wrong.

But in the end, he still underestimated Shu Shu’s cleverness, and Shu Shu still noticed it and called him directly to ask him.

Headache!

Lu Qi rubbed his face, and finally sighed and replied, “Since you want to know, then I’ll tell you, maybe Shushu you don’t believe it, it is indeed Tong Xi who asked me for help.”
“What

?” Rong Shu was slightly stunned, “You said that Secretary Tong asked you to help move things?”

“Yes.”

Rong Shu sneered, “Ah Qi, do you think I’m a liar?”

Lu Qi lowered his head and covered the emotions in his eyes, “I know you don’t believe it, but this is indeed the truth, if you don’t believe it, you can directly ask Tong Xi to know if what I said is true.” Seeing

that he bluntly said that he could ask Secretary Tong to ask, Rong Shu couldn’t help but feel a little less firm in her heart.

After hesitating, she asked, “Then you tell me, why she asked you for help, what is your relationship with her, I, an outsider, can see clearly, logically speaking, Secretary Tong can’t find you, if you want to find me, find her colleagues, find her mother, how can I not find you.” Hearing

Rong Shu’s words, ‘It’s impossible to find you’, Lu Qi’s heart was inexplicably not tasteful.

What do you mean that it is impossible to find him?

Where can’t he?

Although he thought so, Lu Qi’s mouth naturally wouldn’t say this, but his tone was a little sullen, “Why is it impossible to find me, isn’t she looking for me?” Hearing

the sour taste in Lu Qi’s tone, Rong Shu raised her eyebrows, and what Fu Jingting had told her before instantly appeared in her mind.

He said that Lu Qi may have fallen in love with Secretary Tong, but he didn’t notice it.

She didn’t quite believe it at the time.

Until now, hearing Lu Qi’s words, she had begun to have some faith in her heart.

Of course, faith is faith, but Rong Shu does not intend to pick it out, after all, some things, picking it out, is not a good thing.

“I don’t think Secretary Tong would look for you under normal circumstances, let’s say, what did you do to let Secretary Tong go past us people to find you?” Rong Shu pressed.

Lu Qi’s expression became even more obscure, “I didn’t do anything, it was Tong Xi who took the initiative to find me, the reason is her mother, her mother has never known that the relationship between me and Tong Xi has fallen to freezing point, and thought that we were the same as in the past, this time Tong Xi was going out to study and told

her mother, her mother wanted to banquet us bosses, thank us for taking care of her daughter, Tong Xi didn't want her mother to know that my relationship with her was broken, I was afraid that her mother was worried, so she specially contacted me and asked me to help move her things back, so as to tell her mother that my relationship with her had not broken, as for why I would agree, probably because I was too kind, the grudge between me and Tong Xi would not implicate her mother, so I agreed.

"So it was." What Lu Qi said was well-founded and reasonable, plus he dared to let himself ask Secretary Tong for verification, and Rong Shu basically believed him in his heart.

"In that case, why are you hiding the identity of your bodyguard? This is not an unsavory thing.

Rong Shu said, really can't understand.

Lu Qi rubbed his face, "About this, it is also Tong Xi's request, it is that she doesn't want you to worry, she feels that there is something entangled between me and her, so she asked me to hide it from you when I sent someone over, I didn't want to agree, but she begged bitterly, I read the past relationship, so I agreed." "

"This way." Rong Shu nodded.

With Secretary Tong's personality, he would indeed do this in order not to worry about her.

Lu Wei Rong Shu gradually believed herself, and she breathed a sigh of relief in her heart, "So, I arranged so much, and the result was still known to you, by the way, Shu Shu, how did you know that person was my bodyguard?" Shouldn't it be his idiot who shows stuffing?

Rong Shu rolled her eyes, "Don't misunderstand him, it's not that he shows stuffing, I saw it myself, I've seen him."

"Seen him?" Lu Qi exclaimed, "How is this possible!" How did you meet him? I've never brought him with me.

Rong Shu smiled, "You didn't bring him with you, but it doesn't mean that I haven't seen him, I did meet him, when I went to your company, I met him by chance, but I was not impressed, so I felt familiar when I saw him at that time, and I remembered that it was your bodyguard later, and then you knew."

The corners of Lu Qi's mouth twitched, and it took a while to react that this was actually the case.

“So it is.” He raised his forehead, “Just to prevent you from finding out, so I specially took a raw face, thinking that you must not recognize it, who ever thought, it was actually you have seen, hey, mistakes.”

Although the process was a bit difficult, fortunately, in the end, Shushu was fooled.

It seems that Shu Shu will not think that Tong Xi is there for him.

Thinking of this, a wisp of essence burst out of Lu Qi’s eyes, fleeting.

“Okay, don’t call, since the matter is clear, then I will be relieved, well, there is someone from my side, I won’t tell you first, hang up.”

Rong Shu looked at the door of the office, carrying large bags and small bags, first waved hello to several people, and then said goodbye to the phone.

Lu Qi was also afraid that if he continued to talk, he would accidentally expose something, so he nodded repeatedly and hung up the phone.

Chapter 1236: Team of Makeup Artists

Putting down the phone, Rong Shu beckoned to the person at the door, “Come in.” Several people at the door smiled and nodded, and walked in restrainedly.

The leader is the assistant who talked to Rong Shu, the one who acted as her and Sophia’s interpreter last time in the store, and is also one of her and Fu Jingting’s C fans.

Rong Shu is still very fond of her.

“Miss Rong, the teacher asked me to lead the team to help you do your makeup and styling. After coming to the opposite side of Rong Shu’s desk, the assistant pointed to a few people behind him and introduced to Rong Shu, “Originally, the teacher wanted to come in person, but before coming, I suddenly received a phone call, saying that the wedding dress materials she ordered some time ago arrived, so she has now hurriedly bought tickets to go abroad to see the materials, so I can only lead the team over, but Miss Rong, don’t worry, even if there is no teacher, we will do the best look for you.”

“You are arranged by Teacher Sophia, of course I will not doubt you, then next, please you.” Rong Shu stood up and nodded slightly towards several people.

The assistant waved his hand, "Miss Rong is polite, then we start now?"

"Go to my rest, there is a dressing table, which is more convenient." Rong Shu pointed to a door opposite, and then led the way directly.

Several assistants followed.

On the way to the lounge, Rong Shu suddenly asked, "You just said that Teacher Sophia went to see the wedding dress, and she also designed the wedding dress?"

The assistant explained with a smile, "Teacher Sophia was originally a wedding dress designer, and this time, she took a very large order. "

Oh? Rong Shu raised her eyebrows.

The assistant smiled mysteriously, "There is a very big gentleman and our teacher customized a wedding dress, he wants our teacher to design the most beautiful and gorgeous wedding dress in the world for his wife, he wants his wife to become the most beautiful and happiest bride in the world, our teacher agreed, in the recent period, I am constantly running for this wedding dress, first keep modifying the design drawings, and now the design drawings have passed the employer, So we have to start busy with wedding materials, and when the wedding materials are selected, we will start to gather people and sew wedding dresses by hand together, and the employer wants us to complete all this in half a year, so in the next half year, we can be busy with our feet. "

Oh? Rong Shu came interested, "The most beautiful and gorgeous wedding dress in the world?" Then such a wedding dress, it is estimated that the price is not simple, maybe it is also the most expensive in the world, otherwise how can it be the most beautiful and gorgeous. "

After all, the most beautiful and gorgeous need money to pile up.

Don't spend money and still want the most gorgeous?

What about dreams!

Sure enough, the assistant nodded repeatedly, "That's right, the teacher has already made a preliminary calculation, at least it will cost this amount."

She opened her hand.

Rong Shu guessed, "Fifty million? The

assistant shook his head, "More than that."

Rong Shu's eyes widened, "Five hundred million?" The

assistant laughed, "Dollars."

Rongshu

gasped, "It is indeed the most expensive in the world, this gentleman is really generous, he really loves his wife, otherwise how could he be willing to spend such a large amount of money to customize a wedding dress that only wears for a while." The

assistant looked at her, "Yes, I envy this lady, her husband really loves her, she will be the happiest and most dazzling bride in the world."

Rong Shu didn't understand the assistant's eyes looking at her, and nodded approvingly, "But then again, this gentleman has to get the wedding dress in half a year, isn't the requirement too high?" A handmade wedding dress will take at least a year to complete, and if it is longer, it will take several years, and he will need it in half a year, and some are too strong. "

Yes, but this gentleman said that he had done something wrong in the past and broke his wife's heart, so he wanted to make up for his wife with a grand wedding, and he hoped to hold the wedding earlier and tie his wife to his side, so he asked us to complete it in half a year, because he wanted to remarry his wife within half a year."

"So it is. Rong Shu nodded abruptly and didn't ask.

Seeing this, the assistant did not continue to talk.

What if I don't say that I am excited for a while and expose President Fu?

When the lounge arrived, the group walked in and began to make up and do Rong Shu's hair.

These people are very professional and senior makeup artist stylists, and they are also a team.

And it is a very well-known team in the fashion industry, and many wealthy people and entertainment stars want to invite them to make up for themselves, but almost all of them are rejected.

Just because their status is there, it is not something that ordinary people can invite, even if they have money.

Of course, it was nothing to Fu Jingting.

She was also stained with Fu Jingting's light to be served by these people, otherwise with her status, let alone invite these people, there was no channel to contact them.

Not to mention, the power of the industry is indeed the power of the industry.

This makeup technique, that is simply needless to say, there are no traces of powder at all.

Rong Shu looked left and right in the mirror, looked at herself in the mirror, and looked at it carefully.

The assistant asked, "Miss Rong, what do you think?" The

other makeup artists also looked at Rong Shu nervously.

If they were other guests, they wouldn't be so nervous, just waiting for their comments.

They are very confident in their technology and have never had a problem with the technique to make a guest unhappy.

To say something proud, on the contrary, the guests are afraid that they will not be satisfied, afraid of offending them, and will never take orders in the future.

Of course, that's just for other guests.

But for the woman in front of them, they did not dare to be so proud.

Just because she has a big Buddha behind her, that big Buddha, they dare not disrespect her.

So her preferences, for them, are naturally very important.

If the other party doesn't like it, they don't even dare to say a word, and can only correct it immediately.

After all, this is their makeup that they have finally put on, and naturally they don't want to be vetoed, especially after being rejected, they don't dare to be unconvinced.

So, of course, they are nervous now.

Although Rong Shu did not turn her head, she saw the expressions of everyone behind her through the mirror, and understood in her heart that they were nervous and worried about something, and replied with a smile: "Satisfied, you guys draw so well, of course I am satisfied." Seeing

that Rong Shu was not joking, several people immediately breathed a sigh of relief, and the big stone in their hearts fell.

The assistant also exhaled slightly and laughed, “Miss Rong is satisfied, then change the dress now?” “

“Hmm.” Rong Shu nodded and pointed to the gift box that she had just brought in, “Inside.”

A nearby makeup artist followed the direction pointed by Rong Shu and opened the gift box.

The bright red gift was thus exposed to everyone’s eyes.

Except for the assistant, everyone else saw the dress for the first time and couldn’t help but exclaim.

“So beautiful.”

“Teacher Sophia’s design is really extraordinary.”

“I can already imagine how beautiful Miss Rong will be when she wears it.”

Speaking, everyone looked at Rong Shu, expecting her to put it on.

Seeing this, Rong Shu couldn’t help but smile, then picked up the dress and went into the bathroom in the lounge to change clothes.

Since they want to see it, then she will satisfy them.

What’s more, she was meant to wear it.

Soon, Rong Shu changed into a dress and came out.

The moment they came out, everyone was stunned, and their mouths grew big.

Even the assistant stared at Rong Shu intently, his eyes full of amazement, and he couldn’t return to his senses for a long time.

Chapter 1237: Beautiful Her

It was not the first time that the assistant had seen Rong Shu wear this dress.

After all, when Rong Shu and Fu Jingting went to the store to get the dress, Rong Shu tried it on.

At that time, Rong Shu was also very beautiful, and she was also amazed.

So it stands to reason that the assistant who has been amazed once should not react so much at this time, and should be much calmer than others.

But on the contrary, this time the assistant's surprise is more obvious than the last time.

Just because Rong Shu just tried on the dress hastily last time, there was no hairstyle and makeup, so even if it looked good, it would not be good to see the extreme.

But this time is different, this time Rong Shu's face is painted with makeup that specifically matches this dress, and her hair has been styled accordingly, so in the degree of beauty, it is naturally doubled.

Then it is not surprising that the assistant will be so amazing.

"Miss Rong, you are so beautiful. The assistant was also the first to react, and came to Rong Shu, holding his heart in both hands, his eyes full of excitement.

Rong Shu saw her staring at her eyes glowing, and laughed in her heart, "Thank you for the compliment."

"I'm not a compliment, it's a fact, by the way, Miss Rong, do you have jewelry?" If you wear jewelry, it will be even more beautiful. The assistant looked at Rong Shu's slender swan neck and asked.

Above the white neck, it was empty, obviously missing some decorations.

The other makeup artists also nodded repeatedly, agreeing with the assistant's words.

As professional makeup artist stylists, they are more sensitive than assistants in jewelry matching.

As early as when Rong Shu came out in her dress, they found that she was missing jewelry.

Although she is also beautiful without jewelry, but in the end, there is still something missing, so that the beautiful woman also has a little more imperfection.

They rarely serve such a beautiful employer, and of course they want their employer to be perfect.

Of course, if the employer does not currently have jewelry, they will also find a way to help the employer get it.

Rong Shu didn't know what they thought, and hearing the assistant's question, Rong Shu smiled and opened the drawer at the head of the bed in the lounge, took out a delicate jewelry box from it and opened it.

The dazzling and beautiful ruby jewelry set was exposed to the air and caught everyone's eyes.

The crowd exclaimed again.

"Oh my God, it's actually a top-grade chicken blood ruby, and looking at the color and transparency of these gemstones, it should be cut from the same ruby rough, it is even more rare, I have seen so many ruby jewelry, such a complete set, it is the first time I have seen it, and now it is clear that it is dead."

"But no, this sample-grade ruby is originally very rare, and it can be so large that it can be cut down to make a whole set of jewelry, I have never heard of it, but I didn't expect Miss Rong to have it in your hand, which is also incredible."

Everyone looked at Rong Shu excitedly.

Rong Shu handed the box over, "It's not mine, it's a relic of my boyfriend's mother, and my boyfriend used it to match me with a dress." The

day after Fu Jingting gave it to her, she was worried that it was not safe to put it in her apartment in Repulse Bay.

After all, this thing is too expensive, so it is directly brought to the company.

In the company's lounge, there is a safe, which is safer and can reassure her.

It wasn't until noon today that she came to the company that she took it out of the safe and put it in the drawer.

The assistant took the jewelry, wanted to touch but did not dare to touch it, after all, it was too precious, and he couldn't afford to accidentally break it, so he could only stare at it.

Even others who came up to admire the rubies did not dare to touch them.

Rong Shu saw them so careful, although she felt a little funny, but she didn't really open her mouth to let them touch it whenever she wanted.

First of all, this is not her jewelry, she must wear it carefully, for fear of losing it and breaking it.

Not to mention them who have nothing to do with jewelry.

They are also afraid of damaging their jewelry, so they also restrained themselves from touching it.

And Rong Shu also knows very well that even if she calls them to touch, they will not agree, after all, they really can't afford to pay for it.

Rong Shu, who understood their thoughts, should not have seen anything.

"Okay, it's not early, help me put it on." Rong Shu returned to the dressing table and sat down.

Several makeup artists nodded, and one by one carefully took out the jewelry from the box.

That action, really careful can not be more careful, even the expression is very serious and tight, for fear that he accidentally did not hold the jewelry steadily, Rong Shu looked at it funny.

I think it wasn't the same when she got it.

Fu Jingting also let her not be so nervous, saying that it was just a pile of beautiful stones, and she didn't have to be so careful.

She gave him a roll of her eyes at the time.

For him who is rich, these things are indeed worthless beautiful stones, but to her, it is a pile of money.

He was really big-hearted, he actually directly took such a valuable thing to her to wear, and said that it would be her anyway in the future, and now it was just early to give her.

Although if nothing else, she will indeed inherit all the jewelry left by his mother in the future, but hasn't she inherited it yet?

Then these are not hers, and they are so valuable, she must not be careful!

Finally, under the careful service of several people, Rong Shu put on these jewelry.

With the embellishment of jewelry, Rong Shu's makeup and hair, as well as the dress on her body, it was instantly improved and looked more beautiful.

Especially for makeup artists, the little imperfection of the lack of jewelry has been made up for now.

"Miss Rong, you are really beautiful." The assistant held his heart and looked at Rong Shu with starry eyes.

Rong Shu also looked at herself in the mirror, her expression slightly frightened.

In fact, she has always known that she is beautiful, but she has never taken her beauty in her heart or been proud.

Because she knows very well that she is definitely not the most beautiful, there are beauties in every circle, and she is more beautiful than her.

So her beauty is naturally not surprising, and she is not worthy of her pride.

But she never thought that after wearing a specially designed dress, painting the most exquisite makeup, and wearing the most beautiful jewelry, she would be so beautiful and so aggressive.

It turns out that one day, she can also eat with her face.

Rongshu touched her face, and her red lips slowly hooked a trace of arc.

That smile, peerless style, Grande Beauty.

Everyone gasped and stared at her in shock, forgetting the words, and froze.

“So beautiful” someone couldn’t help but whisper in admiration.

Fu Jingting, who suddenly appeared at the door of the lounge, heard this, nodded in agreement without hesitation, and then looked at the woman sitting in front of the mirror, her deep eyes burned with thick heat.

He didn’t expect that he was so lucky, and when he came, he saw her who had just put on makeup.

And with makeup, dresses, and jewelry, she will be so demagogic.

Peerless enchantment, nothing more than that.

In the past, he never disdained allusions such as those concubines who were in trouble to the country and the king.

He felt that human beauty was limited, how could someone be so beautiful and beautiful as to have such ability.

All these allusions are just exaggerations.

But now, he believed!

He even regretted it a little

This Time, I Will Get My Divorce Chapter 1238

I regret letting Sophia design such a dress for her, regret letting these makeup teams do makeup and style her, regret taking jewelry and wearing it for her.

Because these magnify her beauty, it means that everyone will see her beautiful side.

He is a very strong, possessive, lustful man.

He didn't want her to be seen by other people, especially men.

So he regretted it.

Of course, although Fu Jingting regretted it in his heart, he did not intend to let Rong Shu take these off.

If he does that, it will not only show that he is an unreasonable man, but also bring her a bad feeling.

It will make her feel that he is a selfish man, a man who breaks her wings and imprisons her free preferences for his own selfish desires.

In the face of a man like him, she would not say that she would love him more, and even just wanted to stay away from him more.

So even if he didn't want other men to see her so beautiful in his heart, he wouldn't show it, nor would he stop her from becoming beautiful.

Because she has the right to choose beauty, he will only respect her.

Thinking of this, Fu Jingting walked into the lounge with slender legs.

Rong Shu first saw the man coming from the mirror, her eyes first lit up, and then she immediately stood up and turned around, smiling at the man to charm everyone, "You are here?"

Rong Shu's words also made the others come to their senses, and only then did they find that Fu Jingting had actually arrived.

"Mr. Fu. Everyone hurriedly bowed to Fu Jingting and said hello.

Fu Jingting raised his chin slightly, which was considered a response, and then raised his hand and waved, "You guys go out first, come in and get my hair in a while." "

Although I was talking to these makeup artists, my eyes never took my eyes off Rong Shu.

As an assistant of one of the C fan heads, look at Rong Shu, and then look at Fu Jingting, who is staring at Rong Shu, as if he wants to eat Rong Shu into his stomach, his eyes are hot and burning, and a deep aunt smile appears on his face.

"Okay, okay, let's go out, this is out, Mr. Fu and Miss Rong chat slowly, hehe, don't worry, talk slowly."

The assistant said excitedly as she beckoned to the other makeup artists, signaling them to hurry up and follow her.

Hehe, she was sure that Mr. Fu and Miss Rong would definitely brew sauce in the lounge next.

After all, Miss Rong is so beautiful, which man can stand it?

Just now, Mr. Fu looked at Miss Rong's eyes, didn't he want to strip Miss Rong and eat it?

Otherwise, why would President Fu want to throw them out?

Rush out, isn't it good to follow Miss Rong or something.

Hehe, she understands, she understands.

Ahhhhh

The assistant thought with excitement and regret, and then left the lounge with the others, closed the door and went out.

As the sound of closing the door fell, only Rong Shu and Fu Jingting were left in the lounge.

Looking at the man's increasingly fiery gaze, Rong Shu's heart jumped rapidly, and the whole person became a little nervous.

What it means for a man to look like this, she doesn't know.

After all, every time she did that, she could see men looking at themselves like that.

She subconsciously took a step back.

But behind you is the dressing table.

When she retreated, her back was directly against the dressing table, so that she could no longer retreat.

And the man, but at this moment, forced forward, soon came to her, stretched out his hand, hugged her waist, and the other hand, directly across her cheek, against the mirror behind her head.

Her whole person, just like that, was imprisoned in his arms by a man, and she couldn't retreat.

And the man's gaze staring at her became more and more hot and deep, as if he was going to swallow her at any time.

Rong Shu looked at such a man, and swallowed her saliva with a red face, "Fu Jingting, you calm down first, don't mess around." "

Don't think she doesn't know, the dog man spends the assistant on what he wants to do."

It's not that she's narcissistic, she knows exactly how beautiful she looks now.

When she just looked in the mirror, she herself was fascinated by herself in the mirror, not to mention the dog man.

Therefore, she will never allow the dog man to mess with her.

She finally changed her clothes and put on makeup, was damaged by the dog man, and had to start again, and she had to be laughed at by people outside.

"I'm calm and don't mess around. The man lowered his head, stared at the somewhat panicked woman in his arms, and lightly opened his thin lips and said in a low and hoarse voice.

Rong Shu rolled her eyes, "I believe you are weird, you won't mess around, then what are you doing now?" Don't let go of me yet?

Fu Jingting laughed lowly, "Although it won't mess around, it doesn't mean that I won't do anything."

Rong Shu's eyes widened, "Fu Jingting, you are really" Fu Jingting held up a finger, pressed it against her lips, and interrupted her words behind, "

Don't worry, I have a sense of proportion, I won't mess up your hair and clothes, I just want a small benefit, no way, you are too beautiful." "

So if he doesn't do anything, isn't he a man?"

At the same time, isn't it that he doesn't think she is beautiful, so he doesn't respect her dress today.

Fu Jingting found such a reason in his heart.

Although Rong Shu didn't know, her heart beat faster when she was told by the man's 'you are so beautiful', and her face was red.

She knew she was beautiful, and the assistants complimented her.

But the assistants' praise is different from Fu Jingting.

The praise of the assistants made her a little embarrassed at most, but her heart would not beat faster.

And a man's praise will not only beat faster, but also shy,

just because of the difference between a lover and other people.

The praise of a lover is the most heartwarming and useful.

No, Fu Jingting's words that you are too beautiful, suddenly made all her psychological defenses collapse, and made her soften.

"You"

Rong Shu's red lips opened, as if she wanted to say something.

But as soon as he said a word, his chin was lifted by the man, and then the next second, the man lowered his head and accurately grabbed her red lips.

Rong Shu whimpered and did not struggle.

After so many times, she has become very clear that as long as the man thinks, no matter how hard she struggles, it is useless.

In this case, it is better to obediently obey.

So in the end, Rong Shu didn't mean to resist, but when she was ventilating, she held the man's face, slightly spread the man's head a little, and then said to the man warningly: "If you dare to mess up my hair makeup and dress, you will wait for me." The man let out a low laugh, "No."

When the words fell, he took his hand away and kissed it again.

Outside the door, several assistants bent over the door panel, trying to eavesdrop on the movement inside.

After all, President Fu and Miss Rong are intimate, if weren't for Miss Rong's makeup this time, they would never have encountered it in their lifetime.

Now that they have encountered it, how can they miss it, although they can't see it, but they can listen to the movement, it's still okay.

So a few people went out, closed the door, and immediately lay on the door to eavesdrop.

It's just that after listening for a long time, I didn't hear any movement.

This made several people can't help but be full of doubts.

“What's going on? How come there is no movement. “

That's it, do that, isn't it quite loud, it stands to reason that this room should not be soundproof.”

“yes, I wonder if they didn't do anything, right?”

“How is it possible, didn't you see the look in Miss Rong's eyes just now? That is obviously the kind that wants to eat Miss Rong into her stomach, so how can President Fu do nothing, since he has done it, then there must be a voice. Everyone

looked at each other, not understanding what was going on inside and why there was no sound at all.

This Time, I Will Get My Divorce Chapter 1238

Could it be that the people inside really didn't do anything?

If that's the case, then President Fu is too useless!

Obviously he wanted to strip Miss Rong naked and devour it, but in the end, he didn't do anything, wouldn't he live up to their expectations in vain?

Everyone

looked at each other, they all saw the regret in each other's eyes, and they gradually lost interest in eavesdropping, stood up straight and walked away.

After all, there was no movement inside, it is estimated that nothing really happened, and it is not interesting for them to continue like this.

In case the door suddenly opened in a while, President Fu and Miss Rong found out that they were eavesdropping here, and they would definitely not be able to eat and walk around.

So let's go.

Of course, the people inside all this door naturally don't know, and they are still kissing me.

It's just a simple kiss, and nothing else goes deeper, so naturally there is not much movement, only the sound of each other's heavy breathing, and a little ambiguous sound of water stains.

It's just that these sounds are very small, naturally it is impossible to spread outside the door and let the people outside the door hear.

Therefore, the people outside the door think that nothing is done inside the door.

But in fact, the men and women in the door are in full swing.

I don't know how long it took, so long that Rong Shu's body was soft and could no longer stand, and when her body gradually slid down, the man finally let go of her red lips, hugged her waist with big palms, and hugged her body up hard.

She avoided the end of paralysis on the ground, but was carried by the man to the dressing table and sat.

Rong Shu sat panting on the dressing table, leaning weakly on the man's arms, her arms were also weakly wrapped around the man's neck, her eyes looked at the man behind her in confusion, her red lips moved, she wanted to say something, but she didn't have the strength to make a sound.

The man wrapped one hand around her back, hugged her waist with the other, his chin rested on her shoulder, felt the delicate body in his arms, and his thin lips hooked up with satisfaction.

After about a few minutes, Rong Shu finally rested enough, and the strength on her body began to gradually recover, and her breathing was no longer so rapid, and gradually stabilized.

She let go of the man's neck, instead supported the man's shoulders, and pushed the man forward.

But Fu Jingting held her, she couldn't push back far, she could only push the man's head away a little, about fifty centimeters away from her own head, and then looked at the man and said coquettishly, "Fu Jingting, you spent all my makeup." Looking

at the lipstick on the man's thin lips, Rong Shu was angry and funny.

Dog men like this, it's really funny.

It's funnier than being photographed outside in the morning with lipstick.

The man's gaze also fell on Rong Shu's lips.

The lipstick that she originally smeared on her lips is now all gone, and her bright red lips have also returned to her own pink lip color.

At this moment, the lip flap, because he had just moisturized, looked slightly swollen this time, and the pink color was slightly heavier than usual, turning peach pink, and shiny, looking very friendly.

Fu Jingting's eyes darkened, and his Adam's apple also slid up and down twice.

If it weren't for the fact that there wasn't enough time, and that she would be angry in a moment.

He will definitely continue, and he will definitely not be aggrieved to endure it.

Thinking, Fu Jingting's eyes quickly flashed a trace of regret, stretched out his thumb, gently wiped the residual lipstick residue on her red lips, and said in a low and hoarse voice, "It's my fault, how about I make it up for you?"

Rong Shu was slightly stunned, "You? Touch-up my makeup?"

Her skeptical gaze hit the man's face, full of distrust.

You can't blame her for not believing her, after all, she never knew that he could wear makeup.

How could the man not see what Rong Shu's eyes were thinking, and was a little unhappy, so he turned sideways and picked up an individually wrapped makeup remover wipe from the dressing table, bit the corner of the package with his teeth, and then tore the package down with his other hand.

The whole action, Rong Shu's face blushed and heartbeat when she saw it.

No way, who asked the dog man to tear a bag, the whole is exactly the same as his usual tearing and sleeve action.

That's right, when they did that, Fu Jingting had a belt and a set.

Although she will not be able to get pregnant within these two years, no one can guarantee that there will be no miracle.

So just in case, she and Fu Jingting still took measures, not wanting to leave that kind of luck.

Of course, in the beginning, they really did not have the consciousness to take measures.

Because they really think that not being able to get pregnant in two years means that no matter what they do in two years, they can't conceive a child.

It wasn't until she went to the First Hospital for a physical examination once that Lin Tianchen told them that although they couldn't get pregnant within two years, it didn't mean they couldn't get pregnant, so it was best for them to take measures.

Since then, they have been doing measures.

Therefore, the actions of men and sets are extremely familiar to her.

It's the same as just tearing wet wipes.

Originally, the wet wipes thing is a very serious thing.

But being fooled by the dog man like this, she suddenly couldn't officially wet wipes.

Rong Shu was made to cry and laugh by her own thoughts.

The man didn't care what she was thinking, he tore the wipes and took them out, and only then answered her question, "Although I haven't learned these, but I usually look at your makeup, not all, but some, it's okay to touch up, not to mention your makeup, except for lipstick, there is no flower, so just make up lipstick."

"Really? Rong Shu was a little unconvinced.

The man let go of her waist, "See for yourself." "

Just look at it. Rong Shu jumped off the dressing table and turned to look at the mirror behind her.

His own makeup and hair in the mirror are still the same, indeed as Fu Jingting said, but the lipstick was eaten by him

This Time, I Will Get My Divorce Chapter 1240

I just don't know that he is like this, he has obsessive-compulsive disorder, and he has to wipe his heart like this to be comfortable, which is another reason.

But for Rong Shu, there must be both.

Fu Jingting does have a slight obsessive-compulsive disorder, so it is not surprising that he would wipe her lips like this.

But Fu Jingting wiped like this, not only because of obsessive-compulsive disorder, but also because of the meaning of teasing her and provoking her.

After all, she had never seen anyone remove makeup, and her fingers still touched people's lips from time to time.

And the dog man, when wiping, not only moved slowly, but also deliberately touched her lips, deliberately creating a trace of ambiguity.

Oh, man!

Although Rong Shu already understood Fu Jingting's mind clearly, it was thorough enough.

However, he did not open his mouth to debunk the dog man.

She also wanted to see how far the dog man wanted to go.

Surely after wiping, you will kiss her on the mouth again, right?

However, unexpectedly, Fu Jingting did not kiss her after wiping her lips as Rong Shu thought.

He did deliberately wipe her mouth like that, with the meaning of teasing her, deliberately ambiguous.

But he really didn't intend to kiss her.

After all, there is really not enough time.

So after wiping his lips, he picked up the lipstick and spun it out, ready to reapply it to her.

Seeing this, Rong Shu was still a little surprised, and the eyes staring at the man were full of how could it be a few big words.

Seeing her like this, the man stopped the lipstick in his hand and asked in a low voice, "What's wrong?"

Rong Shu's lips opened, but finally suppressed the question in her heart, shook her head and smiled, "It's okay, I'm just surprised that your action of turning lipstick is quite skillful." "

Is that so?

The man raised his eyebrows, vaguely feeling in his heart that what she wanted to say was not this.

However, he didn't ask more, lifted her chin, and while applying lipstick to her, replied, "I have a few pens that are designed for rotation, probably because I am used to turning fountain pens, and the way of turning this is similar to turning pens, so you think I am very skillful." "

That's it. Rong Shu didn't dare to nod, for fear of causing him to make a mistake, so she could only blink her eyes and understand.

After that, she didn't say anything more, closed her eyes, and let the man trace her lips for herself.

I thought that men were novices, and the process of lip tracing must be very slow.

That's why she closed her eyes and was ready to wait slowly, so as not to keep staring at the man, causing psychological pressure on the man, and it was even slower.

Unexpectedly, the man's movements were faster than she imagined.

Not two minutes after she closed her eyes, the man suddenly said, "It's okay." "

Huh?

OK?

Rong Shu opened her eyes, her eyes were first dazed, and then she saw the scene where the man rotated the lipstick back and closed the lipstick lid.

So she heard it right, the man really put lipstick on her.

It's so fast!

How did she feel that he wasn't painted red?

Rong Shu turned her head to look at the mirror behind her with such doubts, thinking that she would see a car accident scene, such as lipstick painted outside, such as sausage mouth, such as uneven distribution of lipstick, dark color here, light color there, or lipstick paste accumulation or something.

She was even mentally prepared to see this, and she was also mentally prepared to encourage men to praise men against their will for the first time.

But unexpectedly, all her fears were gone.

No crash scenes, no sausage mouths, no uneven distribution of lipsticks, no problems.

Instead, the lipstick he applied to her was perfect, almost indistinguishable from that of a makeup artist.

Perfect, as if it were applied by the makeup artist, it has never been erased.

How is this possible!

Rong Shu approached the mirror and looked more carefully, it was indeed perfect, without any shortcomings.

Rong Shu slightly grew red lips, looked at herself in the mirror in disbelief, and couldn't calm the shock in her heart for a long time.

The man stood behind her, watching her reaction with satisfaction, his thin lips hooked, "How is it?" Now you know I'm not lying, right?

Rong Shu turned her head blankly, looked at him blankly, and finally nodded slowly.

"Well, I believe it. She swallowed back, then took his arm and quickly asked, "When did you learn to draw lipstick?" You don't look like a novice at all, say, have you painted other women behind my back, that's why you draw so well?

She pointed at Fu Jingting with a questioning expression.

If you dare to admit it, she dares to ask him for a good-looking posture.

Seeing this, Fu Jingting funnily pressed Rong Shu's hand down, rubbed her hair and replied, "What are you talking about, besides you, which woman can I do such a thing for?" "

Even if he thought he loved Gu Manyin during hypnosis, he hadn't done it for Gu Manyin.

From beginning to end, he had done this for her alone.

Rong Shu actually knew that Fu Jingting had not done it for other women, and she just said it on purpose.

After all, the man's craftsmanship really surprised her, and it was difficult not to think about whether the man had practiced specifically.

"Since there is none, then you" "

Didn't I just say, usually watch your makeup, often look, naturally it will be, this is not a difficult thing, follow the lip shape wipe, as long as the hand does not shake, naturally it will be successful once, so don't think about it, huh?" The man gently patted Rong Shu's head.

Rong Shu's mouth opened, and she was suddenly speechless.

What can she say?

Say men in Versailles her?

Or is the man hitting her?

After all, what is an understatement for a man is not ordinary difficulty for her.

Men look at it a few times,
