Chapter 1321 – Found the Heart

She desperately wanted to know what Fu Jingting's situation was now.

For example, why did you vomit blood at that time, why did you go to the ICU now, what kind of disease did you have?

She definitely didn't think that Fu Jingting would vomit blood, just because she simply absorbed the chemical components in the smoke.

There must be other reasons!

Looking at Rong Shu's eyes full of questions, Assistant Zhang's mouth opened, not knowing how to answer her.

After all, Fu could have said that he couldn't tell her the truth.

"Assistant Zhang! Seeing Assistant Zhang silent, Rong Shu was anxious.

At this time, Lin Tianchen came over and pushed Assistant Zhang aside, "Okay, let me say it, this guy has his boss's orders, and he won't tell you easily, so what do you want to know, I'll tell you."

"Dr. Lin! Assistant Zhang was anxious.

Lin Tianchen looked at him lightly, "Do you think Fu Jingting's current situation can still be concealed?" If Rong Shu was not with Fu Jingting, Fu Jingting was like this, so that he could still hide it, and said to Rong Shu that he went on a business trip abroad and could not come back in a short time, Rong Shu would not suspect it, but you forgot, when Fu Jingting fell, Rong Shu was with him, she saw him fall with her own eyes, what reason do you think you can find to lie to her? Even if you find another reason, won't she ask for proof? She will definitely stay in the hospital to take care of Fu Jingting for a period of time in the future, won't she see what we suspect about Fu Jingting's various examinations?

Assistant Zhang's mouth opened and he was speechless.

Yes, how can it be hidden.

Rong Shu heard the conversation between the two, her heart contracted tighter, and her hands also tightly grasped the collar of the hospital gown on her body, "What the hell is going on, you say, Lin Tianchen, you tell me, what are you talking about?"

Lin Tianchen saw the emotional Rong Shu, walked over and gently pressed a position on the back of her neck.

There is an acupuncture point there, when pressed, it will gradually relax people's emotions and spirits, so as to become calm, so that because of the sudden rise of emotions, something will happen.

"Fu Jingting has a heart attack. Lin Tianchen said.

Rong Shu bit her lip, "I know, it is born, and the ancestors of the Zhong family also have it, so he is considered genetic, why do you suddenly say this?" Could it be that Fu Jingting suddenly vomited blood in the fire, which was related to his heart disease?

Lin Tianchen snorted, "Fu Jingting had a heart replacement operation seven years ago, so he can live until now, originally if nothing else, the heart that was replaced seven years ago was enough for him to live this life healthily, but a few months ago his heart was hit hard, resulting in heart damage, and he must replace a healthy and intact heart within two years, otherwise what awaits him is still death."

"What? Rong Shu boomed in his head, his whole face turned white, and his voice trembled, "You said Fu Jingting's heart now" "

Not bad." Lin Tianchen nodded.

"How is this possible! Rong Shu's body also trembled, indicating that he could not accept this fact at all.

This fact is too cruel for her.

"That's the way it is. Lin Tianchen replied, "Originally, with his current situation, as long as he was not stimulated by various stimuli from the outside world, he could still hold on for two years until he found a new heart, but last night's fire made him inhale a lot of smoke, as well as various bad chemicals in the smoke, causing his heart to be strongly stimulated, and he could no longer withstand the load, so he would vomit blood, but fortunately Zhang Cheng went in time to rescue you, and also let Fu Jingting seek medical treatment in time, otherwise he would already be a corpse now." Rong

Shu's body was shaky, and finally she couldn't sit still, and fell directly on the hospital bed.

This startled those present.

"Miss Yung. Assistant Zhang hurriedly stepped forward to help.

Lina too.

But in the end, both of them were driven away by Lin Tianchen, "You are not doctors, go up and make some fun, go away."

After he impatiently drove away the two, he went up to check Rong Shu's condition, and finally breathed a sigh of relief, "It's not a big deal, it's this vain that learned about this matter, and received a strong shock and blow, causing the blood pressure to rise, and it's okay to slow down."

After that, the ward suddenly fell silent.

A few minutes later, Rong Shu's mouth opened, her voice hoarse and sad, "God is so unfair,"

she said.

Since Fu Jingting was born, he has given him an unsound heart, and finally let him have a healthy heart, why should he take it back now!

God doesn't play fair.

Rong Shu burst into tears.

Even if Lina told her before that her current situation was not suitable for tears, it would only cause damage to her eyes.

But she couldn't take care of so much either.

Her sadness made her unable to control her tears.

Lin Tianchen understood the meaning of Rong Shu's words, and answered lightly, "There is nothing unfair, although Fu Jingting has never had a healthy heart, but don't forget, he was born in the Fu family, and he has stood at the top of the pyramid since he was a child, and he has enjoyed the glory and wealth, power and position that ninety-nine percent of people in this world have not enjoyed, so an unhealthy heart is not an unfair statement for him, If he hadn't been born in the Fu family, he would have died a long time ago, but he was born in the Fu family and received various physical conditioning since he was a child, so he could live so big, but ordinary people with heart disease can't, so ah, he is luckier than ninety-nine percent of the people in the world. "

That being said, people are selfish.

The others are not who Rong Shu is, so she doesn't care.

She only cares about Fu Jingting.

For her, Fu Jingting is like this, it is unfair to God.

Seeing what Rong Shu was thinking, Lin Tianchen pushed his glasses, "Don't keep digging into the horns, Fu Jingting has money, so he has already spent a lot of manpower and material resources to find a new heart for him, and the new heart has been found a few months ago."

"What did you say? Hearing that the heart had been found, Rong Shu was pleasantly surprised, "Is this true?" Have you really found your heart?"

"Yes, Miss Rong, we searched for the right heart all over the world as soon as Mr. Fu's heart accident occurred, and it didn't take long to find it. "

Although there are very few hearts that can match Fu Zong's type.

But don't forget, in this world, the most and most lacking is people.

There is always a small number of people whose hearts can deserve it.

As long as there is enough money, you can always find it.

Hearing Assistant Zhang's words, Rong Shu smiled, "Great, great."

But then she suddenly realized something, and Xiu's eyebrows furrowed, "No, since you have already found the heart, why not operate directly?" Do you have to put it off until now? She

said she didn't understand.

Assistant Zhang explained: "This is so, the heart found is not a simple organ, but the owner of the heart has not died.

Rong Shu's body instantly became cold, "Not dead yet? So what about Fu Jingting? Wouldn't he have waited? Fu

Jingting is now in the ICU, and she can also understand what Lin Tianchen means.

Although Lin Tianchen did not directly say how long Fu Jingting had left, how serious the already broken heart could be after the second damage, laymen who did not understand medicine knew that it would definitely not last long.

Otherwise, why enter the ICU?

Chapter 1322 – It's really not clear

Assistant Zhang understood what Rong Shu meant, she felt that the owner of the heart was still alive now, and she didn't know how long she could live.

And President Fu is now almost dead, so she feels that President Fu will definitely not be able to hold on to the death of the owner of the heart.

"Miss Rong don't worry, the hero of the heart was originally sick at the beginning, has been hospitalized, and the treatment is impossible to cure, only a few months of life, now several months have passed, yesterday I called and asked over there, said that the time of the heart protagonist is only these two days, when the heart hero dies, the heart will be immediately transported back to China, President Fu can immediately perform surgery." Assistant Zhang said.

Lin Tianchen looked at him, and his glasses reflected back.

Assistant Zhang also glanced at him, "So trouble Dr. Lin to prepare the operating room in advance, and rest well in the past few days, when the time comes, President Fu's operation will also trouble you."

Lin Tianchen smiled, "Got it, I saw that you took my suggestion last night."
Assistant
Zhang lowered his head and stopped talking.

Rong Shu didn't know the eyebrow lawsuit between these two people, nor did he know the meaning of Lin Tianchen's words.

She only knew that Fu Jingting was saved.

That's great news.

"That's nice. Rong Shu clenched her palms and smiled, "Is it possible to operate in a few days?"

"Fu Jingting's physical fitness must meet the surgical standards, and the specific needs to be physically examined." Lin Tianchen pushed his glasses and replied.

Rong Shu nodded quickly, "It must be achieved, he often works out, in addition to his heart, his physical fitness is very good."

"That should be fine. Lin Tianchen replied.

Knowing that although Fu Jingting's current situation is very bad, he has found his heart, and soon after surgery, Rong Shu's heart is much sadder.

But the mood is still very low.

Even if Fu Jingting was saved, but now Fu Jingting himself is still lying in the ICU, he has not stood in front of her intact for a day, and she cannot really let go of her heart for a day.

What's more, this time Fu Jingting will be like this, he was also killed by her and affected by her.

"I'm sorry Assistant Zhang. Rong Shu suddenly apologized.

Assistant Zhang looked at her, "Miss Rong, why apologize?" "

He didn't understand something.

Rong Shu took a breath, and then slowly said: "Because your boss almost died this time, he was killed by me, Lina has already told me, the person who set the fire is Duan Xingbang, he has a hatred for me, dissatisfied with me accepting Tiansheng to rob his rights, so he has always hated me in his heart, and it is easy to do these crazy acts after hating for a long time, so it is not unusual for him to kill me, but Fu Jingting has no enmity with him, so Fu Jingting is affected by me, If I didn't take Fu Jingting to the factory building, Fu Jingting wouldn't be like this.

Assistant

Zhang looked at her fixedly for a while, and finally sighed, "Miss Rong, don't be like this, it's not your fault, President Fu is not burdened by you, President Fu will go to the factory, it is his own will, not you forcibly pull him there, after all, we all know how much Fu loves you and cares about you, he can't let you go alone, so don't blame yourself, I believe that President Fu is here, and he won't blame you." "

President Fu won't blame, he is a subordinate, how can it be strange."

"I know, but I don't want to go away in my own heart. Rong Shu smiled bitterly.

Assistant Zhang was silent for a while, and then said, "If Miss Rong doesn't care, then you should quickly recuperate your body, and then President Fu will definitely have a recovery period of half a year, and during this time, you need to take care of it, so you can use this to make up for President Fu." "

In this case, Miss Rong should feel better in her heart."

"I know, I don't need you to say I will too. Rong Shu nodded.

Fu Jingting was killed by her like this, of course, she couldn't leave it alone.

"By the way, I haven't asked yet, what happened to Fu Jingting's first broken heart? And why hide it from me? Just now, Lin Tianchen said that it happened a few months ago, what happened? Rong Shu looked in the direction of Assistant Zhang.

Although she couldn't see it, she knew that he was over there.

Assistant Zhang's mouth moved, "This" "

Let's say it directly, anyway, Fu Jingting's heart situation has already been told to her, and there is no need to hide anything else, you hide it now, and when she knows it later, it will only be more unacceptable." Lin Tianchen reminded lightly.

Rong Shu's fists clenched.

What do you mean?

Listening to what they said, it seems to be related to her again?

"Miss Rong, do you remember the time you and President Fu fell off the cliff. Assistant Zhang finally made sense of himself and decided to tell Rong Shu.

As for whether President Fu would blame him after waking up, he didn't care anymore.

Anyway, he felt from the beginning that he should tell Miss Rong about this, and he should let Miss Rong know what President Fu had paid for her.

Hiding from Miss Rong all the time is not only unfair to Miss Rong, but also unfair to President Fu himself.

He didn't know if the two of them could grow old together, of course, it was best to grow old together, and after letting Miss Rong know this, she would only care more about President Fu in the future.

If not, at least Miss Rong would not feel that President Fu had not paid for her.

"I remember. Rong Shu nodded.

This kind of thrilling thing, she will never forget for the rest of her life.

However, when Assistant Zhang mentioned this at this time, could it be that Rong Shu's body tensed, "Could it be that

he caused his heart because of the last cliff fall" "

Yes." Assistant Zhang confirmed her guess, "The last time I fell off a cliff, Mr. Fu's heart was broken, but at that time, Mr. Fu asked all of us not to say it, especially to you and the old lady, so we kept it hidden from you." "

So it is, so it is," Rong Shu laughed at herself, "I always felt as if he had some secret."

Chapter 1323 – A False Alarm

“Miss Rong.” Assistant Zhang called her at this time.

Rong Shu raised her head and ‘looked’ over.

Assistant Zhang said: “If you really feel that you can’t pay it off in this life, then how about you stay with President Fu in this life, accompany President Fu for a lifetime, and use your next few decades to repay?”

Rong Shu knew that when he said this, he wanted to give himself a step so that he would not be so stressed.

She inhaled and fixed her mind, “Even if I don’t have to say it, I will.” “

She said before that if she and Fu Jingting have no feelings in the future, or if Fu Jingting betrays her, she will leave him.

But now what he did for her made it impossible for her to stick to her idea.

Of course, if one day, Fu Jingting really betrayed her, she would not leave, she would just take back her feelings and no longer love him, so she had to be his wife Fu instead of his wife.

After all, she wanted to repay him for everything he had done for her.

Hearing Rong Shu’s words, Assistant Zhang nodded with a smile, “That’s okay, so Miss, don’t feel that you can’t pay it off too much, you use your whole life to repay, it’s enough, I believe President Fu will also accept it.” “

Hey, he really worked hard for President Fu’s happiness.

“Okay, let’s not talk about this, you should already know everything, anyway, that guy can’t die, after a year and a half and a year and a half will be a good man, now let’s talk about your eyes.” Lin Tianchen cut off the words of the two at this time.

Rong Shu touched the gauze on her eyes, and inexplicably had a bad premonition in her heart, “What’s wrong with my eyes?” “

This Doctor Lin, you,”

Lina panicked.

She had just lied to the chairman that her eyes were nothing.

Now the doctor is about to open his mouth to lift the chairman's eyes.

Doesn't the chairman know that his eyes are more serious than he thought?

What will happen when the chairman accepts this blow?

Obviously, Lina underestimated Rong Shu's psychological endurance.

Lin Tianchen's words, coupled with her reaction, allowed Rong Shu to be sure that her eyes were definitely not what Lina said before, and something must be wrong.

Although she felt a little lost in her heart, she was more calm.

She was able to accept anything about her eyes, even if she was blind.

So Rong Shu smiled in the direction where Lina was, "Don't worry, Fu Jingting's heart problem, I have persevered, no matter how big my eyes are, can I still be bigger than a heart?" So Dr. Lin, you say, I'll be fine. "

The eye is just an important organ, and people are not unable to live without eyes.

But not without a heart.

So compared to the heart, she can really accept the various conditions of her eyes calmly.

Hearing Rong Shu say this, Lina was relieved, no longer stopped Lin Tianchen, and bowed apologetically to Lin Tianchen, "Sorry doctor, I was too impulsive just now, now you continue."

Lin Tianchen glanced at her coldly and ignored her.

She should be glad that she is Rong Shu's person, otherwise with the rudeness she just treated him, he has a way to clean her up.

I don't know why, Lina suddenly felt a chill rushing up from the soles of her feet and rushing to the top of her head, and she couldn't help but snort in the cold.

"Your eyes are severely smoked by smoke, the retina has not been lightly damaged, after removing the gauze, the situation is lighter, the vision may be blurred, you need to wear professional customized eye correction, to be able to see clearly, even if you can see clearly, the clarity is not as high as normal vision."

Rong Shu nodded very calmly, "I know, as long as you wear glasses, you can see, then it's okay, and it's not blind."

"Although I am not blind, after a long time, the probability of being blind is also very large." Lin Tianchen said.

The smile at the corner of Rong Shu's mouth paused.

Assistant Zhang and Lina also looked solemn.

But soon, the smile at the corner of Rong Shu's mouth recovered, "It's okay, compared to Fu Jingting's situation, it's not a big deal to be blind." "

Can recover from surgery. At this time, Lin Tianchen suddenly said.

The corner of Rong Shu's mouth twitched, "Even if you are blind, you can restore your vision by surgery?"

Lin Tianchen nodded noncommittally, "Of course, you need a new cornea."

"So, it's not permanently blind, and it's not permanent blindness that can't be treated, right?" Rong Shupi smiled and did not smile.

Lin Tianchen snapped his fingers, "That's what it means."

"Huh! She laughed angrily.

In that case, then why doesn't this guy finish it all at once and have to have a big tongue? Scare people not lightly.

Don't talk about Rong Shu, Assistant Zhang and Lina both want to hit Lin Tianchen.

When did this guy have this bad taste?

Isn't he an emotionally deficient patient?

It doesn't look like it now.

"Dr. Lin. Assistant Zhang suddenly spoke.

Lin Tianchen looked towards him.

Assistant Zhang hesitated for a few seconds, but still said what he wanted to say, "I find that you are more and more like an ordinary person now. The

implication is that the emotions that ordinary people have, he also began to gradually have.

Lin Tianchen is not a fool, on the contrary, he is very smart, even if this sentence Assistant Zhang said very cryptically, he can hear the meaning inside.

Lin Tianchen was stunned.

Is he becoming more and more like a normal person?

Lin Tianchen lowered his eyes, "I still have something, go first, call me at any time if there is anything." "

He's going back to the office, and he's going to think about whether he's really getting more and more like a normal person."

Lin Tianchen left in a hurry, and Assistant Zhang and Rong Shu knew the reason.

Lina didn't know, but she didn't know it, didn't know or cared, and didn't ask.

"Miss Rong, don't worry, in fact, about your eye problem, the nurse told me yesterday, I have asked people to go to the organ bank to pay attention to the cornea, the cornea is not like the human internal organs can not be found, soon there will be good news."

Rong Shu snorted, "I know, you're in trouble."

"It's nothing, Mr. Fu will let me do this when he wakes up, so I might as well do it in advance, maybe when Mr. Fu wakes up, I can get an extra bonus." Assistant Zhang pushed his glasses and said with a smile.

He said the last sentence on purpose, in order to lighten the atmosphere.

Don't seem so depressed.

Rong Shu also knew, and did not live up to his intentions, laughed, and did not speak.

It wasn't until the nurse came in with the food that the voice in the ward resumed speaking.

"Miss Rong, then you eat first, I will go back to the Fu Group first, I still need to sit there, I will come back to see you and President Fu later." Assistant Zhang raised his wrist and looked at his watch and found that the time was not early.

Rong Shu nodded, "Okay, you go, Jing Ting, I" "

Miss Rong wants to see President Fu, wait two days, you can't see your eyes now, President Fu can't enter people, wait until the heart arrives in two days, President Fu does the operation, you can wait for him outside the operating room, until the end of President Fu's operation, you can let people visit closely, You are by Mr. Fu's side. Assistant Zhang said.

Rong Shu nodded and agreed, "Well, you are also right, I am blind now, don't say take care of him, I can't take care of myself, I can go in to visit, but it is just to add chaos, in case it brings him a worse situation, it will not be good."

"If only Miss Rong could think so, then I will leave first." Assistant Zhang bowed slightly to her and turned to leave.

Chapter 1324: Taking Notes

After Assistant Zhang left, Rong Shu began to eat under the care of the nurse and Lina.

The brunch that the nurse bought for Rong Shu was very light, so light that there was no other taste except a faint salty taste.

No way, her current situation, she can only eat these, can't eat anything else.

Rong Shu did not have any dissatisfaction, she knew very well that what she had to do now was to obediently follow the doctor's instructions and take good care of her body.

Only by recovering early can he go to Fu Jingting's side to take care of him early.

She needs him!

Yes, it was she who needed Fu Jingting, not Fu Jingting who needed her now.

Fu Jingting's current situation was all brought to him by her.

If she didn't see him get better, she would never be able to forgive herself.

So she needed him.

"Oops, I forgot to ask Zhang assistant Duan Xingbang how he was caught. Halfway through the meal, Rong Shu slapped her thighs sharply, and suddenly remembered this matter.

But now Assistant Zhang is gone.

Lina saw Rong Shu like this, a little funny, "Don't worry, the chairman first, Assistant Zhang will come over later, when the time comes, you are asking him, and Duan Xingbang has only been caught not long ago, the police are still interrogating him how he committed the crime, what is the motive, when the time comes, let Assistant Zhang tell you together, and save you two more questions."

"You're right. Rong Shu nodded, feeling that it made sense, and then ignored it and continued to eat.

Anyway, Duan Xingbang was arrested and couldn't run, and she could know Duan Xingbang's situation at any time.

As it turned out, she guessed right.

As soon as she finished eating, someone from the police came to the police, the captain of the police last night.

Because I heard Assistant Zhang say that she was awake, I came over to take notes.

After all, Rong Shu is the victim, and the police naturally need to ask her something.

"Hello Miss Rong. The captain sat down on the edge of Rong Shu's hospital bed and began to say hello.

Rong Shu nodded slightly in his direction, "Hello."

"How is Miss Rong's health now?" The captain first cared about Rong Shu's physical state.

Rong Shu replied with a smile: "Except for some discomfort in the lungs, there is nothing else to do, that is, the eyes cannot see people yet."

"Miss Rong cultivates well. The captain said.

Rong Shu snorted, "I will, you came this time for Duan Xingbang?"

"Yes. The captain opened the notebook he was carrying, and at the same time opened the pen, ready to take notes, "Miss Rong, I want to know, is there a hatred between you and Duan Xingbang?"

Rong Shu shook her head and nodded, "There is no deep hatred, but there is a grudge, and he unilaterally treated me." "

Oh? "

Duan Xingbang is my father's generation, Tiansheng Group was established by my father, of course, at the beginning of the establishment, there were also partners who worked hard with my father, including Duan Xingbang, Duan Xingbang can be said to be the old man of Tiansheng, but when Tiansheng Group was founded, he did not invest entrepreneurial funds, and he was not good at management and did not understand technology, so my father saw that he had no credit and hard work, or gave him some shares, But not much, for this reason, Duan Xingbang has always been very dissatisfied with my father in his heart, he feels that he is the hero of the establishment of the group, and he has paid a lot for the group, and he should get more shares than this, so in the ten or twenty years that my father has been in power, he has always been against my father, and my father has never treated him for the sake of him as a partner who came together.

"And then what? The captain asked again.

"Duan Xingbang has always wanted to get more Tiansheng shares, as well as the management of Tiansheng, but when my father was alive, he never succeeded, until my father died, Tiansheng shares were acquired by many people, at that time Duan Xingbang became the largest shareholder of Tiansheng, and also obtained the management right of Tiansheng, although he does not have much ability, but also let Tiansheng survive for more than six years, for this, I have always been grateful to him, This is also why, after I took the throne, I did not drive Duan Xingbang out of Tiansheng.

Speaking of this, Rong Shu took a deep breath, "So much so that now I regret it, if I had driven him away earlier and driven him out of the sea market, maybe Fu Jingting and I would not have experienced the events of last night."

The captain coughed.

Are you saying to my face that it's really good to drive people out of the market?

Despite this, Captain Bu still didn't say anything after all, after all, the person in front of him had only experienced that kind of thing last night, and it was nothing to say these words and vent his anger.

But after that, Rong Shu herself reacted a little inappropriately, and smiled embarrassedly, "Sorry, there was some gaffe."

"It's nothing, Miss Rong will pay attention next time." "Good

. Rong Shu agreed, and continued to say, "In the past six years, Tiansheng Group is Duan Xingbang's words, although there are a lot of large and small shareholders, but Tiansheng is like this, they are not interested in participating in the management of Tiansheng, so in the past six years, Duan Xingbang has not mentioned how dashing he is, probably because of this, let him pay more and more attention to rights, the management of Tiansheng, grasp very tightly, if he does not have so much money,

otherwise he will definitely buy back the shares in the hands of other shareholders and strive to get absolute control, Became the chairman of Tiansheng. “

The so-called absolute holding means that a person's shares in the hands of more than 50%.

“However, although Duan Xingbang did not buy the shares sold by my father that year, my grandfather and one of my younger brothers, as well as Lu Qi, the president of Lu's Enterprise, secretly helped me buy it, until half a year ago, I relied on these absolute shares to settle in Tiansheng Group. The

captain nodded.

They knew this, and they investigated it before they came.

“After I came to Tiansheng, Duan Xingbang just went on a business trip and was not in China, otherwise I would not have returned to Tiansheng so smoothly, even if I have absolute equity, he will fight for me who does not understand anything to prevent me from coming back to fight with him, but at that time, I didn't know Duan Xingbang's ambitions, I was even thinking, Duan Xingbang has been struggling to support Tiansheng in recent years, and it is not good for me to directly be the chairman of the board of directors to press on his head, he is an elder after all, There is also credit for Tiansheng's survival, so I chose to be a vice president, which can be regarded as giving him face, and when he returns, I will talk to him about becoming the chairman. “

Duan Xingbang disagrees? The captain asked.

Rong Shu shook his head, “Yes, after he came back, he showed great malice towards me, and even bluntly said that I would hand over the management right, I naturally refused, but at that time, many people in Tiansheng were Duan Xingbang's people, and I couldn't go head-to-head with them, so I only handed over half of the management rights, and at the same time no longer discussed with Duan Xingbang and sat in the position of chairman, Duan Xingbang was completely dissatisfied with me, and the grudge between the two of me was completely stimulated, Especially after the next few times I played two matches, he lost, which made him hate me even more, so I guessed that he could no longer tolerate me and decided to attack me.

The

captain said this, wrote it down, and then closed his notebook, “I see.”

“Fu Jingting has no enmity with him, he is because I am implicated.” Rong Shu looked in the direction of the captain and emphasized, “Of course, if I have to say, Fu Jingting helped me when I was fighting with Duan Xingbang for power, and I think Duan Xingbang should also have hatred for Fu Jingting.” This

is the same as what Duan Xingbang said.

The captain stood up, "Okay Miss Rong, thank you for your cooperation, I won't disturb you to rest, I'll go back to the police station first to explain these records." "

" and so on. Rong Shu opened her mouth to stop him.

Chapter 1325 – Cheng Huai is back

The captain stopped, "Is there anything else going on Miss Rong?"

"I want to know Duan Xingbang's current situation. Rong Shu asked.

Since the captain is here, then ask the captain directly.

The captain did not mean not to say anything, after all, Rong Shu, as a victim, has the right to know the suspect's current situation.

"He is now temporarily held in a detention cell by us, and we have just made a preliminary note of him. The captain replied.

Rong Shu asked again, "Then did you ask how Duan Xingbang planned yesterday's fire?" "

This is natural. The captain sat down again, "According to Duan Xingbang's own explanation, he has always wanted the management of Tiansheng Group, but every time he failed, the failure made him anxious, and he himself could not accept such a thing, so after entanglement repeatedly, he absolutely sold Miss Rong, and the reason for this move can be matched with what you just said.

"This way. Rong Shu nodded.

The captain continued, "Duan Xingbang decided to do something to you Miss Rong a month ago, and he himself believes that as long as you die, he will be able to regain the management of Tiansheng Group, and even after some operation, he can smoothly inherit the shares in your hands. Rong

Shu was about to vomit.

It's not enough to want management, but also want her shares, so what's the big face?

To be honest, when the captain heard Duan Xingbang's words, he also felt funny and incredible.

Rong Shu and Duan Xingbang are not related, no matter how he operates to get the shares in Rong Shu's hands, it will make the outside world suspicious.

After all, if a person inherits the shares of the enemy, doesn't it make people think much?

"According to Duan Xingbang's own account, he has set up a lot of plans to let you die unexpectedly this month, but because you are almost on the line at three o'clock every day, so his disgust is basically useless, until yesterday, he learned from a subordinate of the director of your factory that you are going to check the factory building at night, so he felt that he had a chance, he spent a sum of money in advance, bought out a dozen gangsters, and let them prepare dozens of barrels of gasoline, First rush to the factory building, ambush there, and when you and President Fu arrive, come out and pour gasoline and ignite.

"So it is. Rong Shu clenched her palm.

"As for President Fu, Duan Xingbang said that when you and President Fu left Tiansheng yesterday afternoon, he met you, and he knew that President Fu would also go with you, as you said, Duan Xingbang also had a grudge against President Fu, so under the entanglement, he decided to kill you together. "

It's really heartbreaking. Rong Shu gritted her teeth, her little face full of anger, "He thinks that even if he kills us, he can run away?" His action is full of holes, otherwise he would not have been arrested by you so quickly.

What Miss Rong said is that this plan was decided by Duan Xingbang temporarily, without careful planning, so there were clues everywhere, plus he probably felt that you were dead, so he got a little carried away, and actually drove his private car to the scene to watch the fire, leaving a tire imprint, we found him based on the tire imprint, and then pulled out the radish to bring out the mud, and put him himself, and the dozen or so gangsters he bought, including the subordinate of your plant director, have all been arrested. Hearing

that all the participants were arrested, Rong Shu breathed a sigh of relief and was very happy in her heart, "That's great, thank you."

"That's what we should do. The captain said.

Rong Shu smiled at him, "May I ask, how long can Duan Xingbang be sentenced in this situation?"

"Deliberate arson, intentional homicide at home, although attempted homicide does not reach the point of the death penalty, but these are extremely bad criminal cases, the preliminary judgment is more than ten years, it may also be indefinite, specific, and the court will judge it." The captain replied after a moment's consideration.

Rong Shu nodded, "Okay, I see."

"Does Miss Rong have anything else to ask?"

"No more."

"Okay, then I will leave first, and in the next few days, maybe our police will send someone over to learn about some other information, and ask Miss Rong to tell the truth at that time."

"I will."

"Chairman, I'll send it." Lina asked.

Rong Shu waved her hand, "Go."

Lina sent the captain out, and Rong Shu sat on the hospital bed, thinking about what the captain had just said.

That was Duan Xingbang's final sentence.

It is not the death penalty, she knows very well in her heart and can accept it.

After all, she and Fu Jingting are indeed not dead, even if Duan Xingbang deliberately kills, but as long as the party killed is not dead, the party that kills does not constitute the death penalty.

But life imprisonment is possible.

But the captain said that it is not necessarily, it is likely to be more than ten years.

If that was the case, she would definitely not accept it.

Fu Jingting really almost died somewhere, so if Duan Xingbang was not indefinite, she would not be satisfied.

Just thinking about it, the phone suddenly rang.

Rong Shu temporarily collected her thoughts and stretched out her hands to touch in the direction of the voice.

The mobile phone was at the end of the bed, and Rong Shu touched it smoothly.

But she couldn't see it, so she didn't know who called, so she could only use her muscle memory to answer the phone and ask, "Hello, who?" There

was silence on the phone for a few seconds, and then a familiar voice came, "It's me, Rong Shu, we just contacted yesterday, you forgot me?" "

It turned out to be Cheng Huai.

Rong Shu laughed, "Sorry, I didn't look at the ID." "

She and Fu Jingting have an accident, and I don't plan to tell everyone.

So as not to have extraneous branches.

Cheng Huai did not suspect that Rong Shu was lying, after all, sometimes when he was busy, he really wouldn't look at the ID.

"It's okay, it's okay, it's not a big deal. On the other end of the phone, Cheng Huai, who had just returned from a rural inspection, had just got off the bus.

The butler and Doudou who came out to greet him, seeing his image at the moment, the old man and the little pair were stunned.

What's the situation?

Why did the young master and uncle become like this?

Black like carbon, just returned from Africa?

"By the way, Rong Shu, I've already returned to the sea market." Cheng Huai said to the phone with a smile, revealing a row of white teeth.

White teeth, combined with his black, carbon-like black skin, looked white and shiny.

But neither the housekeeper nor Doudou dared to look directly.

It's too bumpy.

The former young master| how handsome and handsome the little uncle was.

Why does it look so obscene now?

"I know, you sent me a message yesterday that you will be back, congratulations." Rong Shu congratulated Cheng Huai.

Cheng Huai walked into the house, "Do you have time?" How about coming out for a meal? Just give me the wind and wash the dust. "

It's best not to take Fu Jingting that bastard.

Rong Shu sighed, "I'm sorry Cheng Huai, I'm not in the sea market, so I can't come out to pick up the wind and wash the dust for you, it will take a while." "

Not in the sea market?" Cheng Huai was stunned, and then asked, "Where have you been?"

"Jing Ting went abroad on a business trip, I went with me, he said that taking me for a long time was good for me to manage Tiansheng, so I agreed, we also decided on a temporary basis, and we left last night, so I'm sorry." Rong Shu lowered her head, and a hint of weakness and apology appeared on her face.

After all, lying and deceiving is not a good thing.

Cheng Huai tugged at the corners of his mouth in disappointment, "This way, that's okay, then when you come back, how about I invite me to dinner?"

"Well, I won't refuse then." Rong Shu smiled and nodded.

At that time, bring him some more gifts, and it should be the reparation for deceiving him this time.

Chapter 1326 – Can Be Concealed

Hearing that Rong Shu promised that he would come out to eat later, the loss in Cheng Huai's heart finally dissipated.

Then, he thought of something and asked, "By the way, when I came back today, I saw on the Internet that the president of your company was arrested, what happened?" He

didn't have time to ask the police, nor did he see the statement issued by Tiansheng Group later.

So what is known so far is limited to Duan Xingbang's arrest in the morning.

"That's right, Duan Xingbang has always been dissatisfied with my control of Tiansheng, so in a fit of anger, he burned the factory that had just been built. Rong Shuyan replied succinctly.

Cheng Huai sighed, "Crazy, just go and set fire to this, the brain is sick, by the way, no one in your factory is injured, right?"

Rong Shu's eyes flashed, "No, because it hasn't opened yet, so there was no one in the factory at that time."

"Well, do you need my help to punish that Duan Xingbang with a key punishment?" Cheng Huai asked.

He took the path of honor, and after returning from this rural inspection, he will go up another level, so he can say hello to the court.

To be honest, when Rong Shu heard this, her heart was still a little moved, after all, she wanted Duan Xingbang to sit through the bottom of the prison.

But later, she still calmed down and refused, "No need, let it be."

After all, she didn't want to owe Cheng Huai favors anymore.

Cheng Huai listened to her say this, and although he agreed with his mouth, he still decided in his heart to say hello to the court at that time.

It's just a matter of a few words.

"Okay then. Cheng Huai shrugged his shoulders back.

Rong Shu yawned, "Okay Chenghuai, I won't tell you first, I just arrived abroad, still pouring jet lag, I'm a little tired at this time, we'll talk next time."

Cheng Huai didn't think much about it, nodded and answered her words, "Okay, then I won't disturb you, you rest, and when you come back, I'll pick you up at the airport."

"Hmm. Rong Shu squeezed the corners of her mouth.

Hanging up, she put the phone next to her pillow, then pulled the quilt and prepared to sleep for a while.

Her body has not fully recovered, and after waking up for so long, coupled with the previous mood swings, she is already exhausted.

So what he said just now was not really just an excuse to end the call with Cheng Huai.

She really wanted to sleep for a while.

This sleep, by the time I woke up again, it was already night.

Of course, Rong Shu couldn't see it, and this was all told to her by the nurse.

The nurse also told her that after six o'clock in the afternoon, Assistant Zhang had come to see her, but she had not woken up at that time, so Assistant Zhang quickly left again and went to Fu Jingting, saying that when she woke up, she would come over.

Rong Shu nodded slightly as she ate the meal bought by the nurse, indicating that she understood.

Then the nurse went to invite Assistant Zhang over.

Assistant Zhang came quickly, and the first thing he said when he came was to care about Rong Shu's body first.

After Rong Shu replied that he was much better than during the day, he opened his mouth to get down to business, "Miss Rong, the police should have told you about Duan Xingbang's current situation during the day, as well as Duan Xingbang's criminal process and motive at that time, right?" Rong

Shu bowed, "I have said it, I already know the specifics."

"Then I won't say more. Assistant Zhang pushed his glasses, "But I can tell Miss Rong about the current situation of the factory." You

say. Rong Shu 'looked' at him.

Of course, she wondered how the plant had become.

The factory building was finally built after spending all her energy and effort, running so many places at home and abroad, and waiting for so long.

It can be said that it is not too much to say that it is her heart and liver.

Now that the factory building has suffered from this fire, it is estimated that it has been destroyed.

Rong Shu was a little depressed.

Assistant Zhang felt it and quickly reassured, "Miss Rong, don't worry, the factory is saved."

"Saved? Rong Shu was stunned at first, and then surprised, "Really?"

"Yes. Assistant Zhang nodded, "Because when the factory building was built, it used almost all metal structures inside and out, so this fire, did not burn into the factory at all, but burned the lines and waterways outside, and the metal wall outside burned all black, it takes a lot of money to do a comprehensive cleanup, and even the possibility of

replacing the exterior wall, of course, specific, you have to wait for a professional architect to see it.”

“So you mean to say that just the water circuits, and the exterior walls are seriously damaged, and there is no loss inside the plant, including those machines, there is no damage, right?” Rong Shu clenched her palms excitedly.

Assistant Zhang bowed his head and replied, “Yes.”

“That’s wonderful. Rong Shu was delighted, “I originally thought that everything was destroyed, but I didn’t expect that the peak circuit turned around, but the water circuit and the exterior wall were damaged.” “

What’s the most important thing in the plant?

That’s the big equipment and machinery.

And the water wiring and facades are not worth mentioning compared to these machines.

Water circuit lines, find a professional hydraulic electrician to replace it, the exterior wall can also find a professional construction team to replace it, for her, it is not a big deal at all, but it costs an extra amount of money.

But if the machine is damaged, it is not only as simple as spending a sum of money, but also going abroad to reorder, and if the orderer already has a lot of orders, you still have to wait in line.

It can be as short as a few months, as long as a year or two.

In short, the machine is damaged, and it costs not only money, but also time.

She is now really glad that she chose to build the factory into an all-metal structure, otherwise the situation would not be so good now.

“Miss Rong, do you need my help arranging for the plumbers and construction teams to restore the factory building?”

Chapter 1327 – Eyes Can’t See Clearly

“Don’t worry, Miss Rong, the heart is still abroad, our people are rushing through the procedures, probably the day after tomorrow, we will expedite the delivery to China as

soon as the procedures are completed.” Assistant Zhang said with a flash of light in his eyes.

Rong Shu didn't see it, she only heard that her heart would be sent to China the day after tomorrow, and she was relieved in her heart.

“Miss Na Rong, I won't disturb you to rest, I'll go out first.”

“Okay, you're busy. Rong Shu snorted.

Assistant Zhang turned and walked out of the ward.

As soon as he went out, he saw Lin Tianchen leaning against the wall outside the ward, and he was startled, “Doctor Lin.” “

Talk? Lin Tianchen looked at him and seemed to be smiling.

Assistant Zhang nodded and agreed.

The two came to a quiet place and then stood opposite each other.

“You finally chose to end the life of the carrier. The corners of Lin Tianchen's lips hooked a wistful curve.

Assistant Zhang pushed down his eyes, “Yes, President Fu's current situation can't last long, and the carrier still has a few months of life, I can't wait, so I followed your advice and chose to end the carrier's life early and get the carrier's heart, after all, in my place, the carrier's life is simply not comparable to Mr. Fu's.”

“I gave this suggestion, but I just said it casually, I didn't expect you to really do it, will Fu Jingting agree?” After all, it's not ethical to do so. Lin Tianchen raised his arm.

Assistant Zhang's Adam's apple moved, “I will hide this from President Fu, although President Fu looks cold and heartless, but in fact, he is a very kind person, he is not the kind of person who is so selfish that in order to let himself live, he chooses to deprive others of their lives, so I will not tell President Fu, if President Fu knows one day, I am willing to suffer any punishment.”

“You're really a good subordinate.

“I'm an orphan. Assistant Zhang looked up at Lin Tianchen, “I grew up receiving support from the Fu family since I was a child, and after graduating from college, I was directly promoted by President Fu to be a special assistant, the entire Fu Group, I am second only to President Fu's existence, and President Fu gave me back the shares, so whether it is the Fu family or President Fu, they are all kind to me, and I have long

regarded President Fu as my own family, so for President Fu, I can do anything, let alone just end the life of a person who should have died early.” “

Even if he is condemned by conscience for this, he does not care.

Lin Tianchen shrugged his shoulders, “The carrier is voluntary?”

“Yes, I didn’t hide from the carrier, although I wanted the carrier’s life, but I didn’t have the heart to kill him directly, but let people negotiate with him and let him voluntarily accept euthanasia, the carrier agreed, as long as we give his wife and children a large amount of money to ensure that his wife and children do not have to worry about money in the future, he agreed to accept euthanasia, I am very grateful to him, so I also admit to give his wife and children an extra apartment.” Assistant Zhang said quietly.

Lin Tianchen raised his chin, “Okay, since the other party agreed, then I will arrange the operating room now and vacate one of the operating rooms.”

“Thank you Dr. Lin. Assistant Zhang bowed to him.

Lin Tianchen put his hands in the pockets of his white coat, “You should thank Rong Shu, if it weren’t for the fact that Fu Jingting was her man, I wouldn’t be so active in preparing him for surgery.”

After that, Lin Tianchen left.

Assistant Zhang turned around and kept bowing to him to send him off.

Time passed quickly, and two days passed in the blink of an eye, and over abroad, the carrier completely said goodbye to his wife and children according to the agreement, and underwent euthanasia surgery.

As soon as the carrier respiratory arrests, foreign hospitals have already taken out the carrier’s heart to do active measures, and then rushed to China.

Assistant Zhang received such a call after walking out of the gate of the Fu Group, and immediately rushed to the airport.

He had to wait at the airport and escort the heart to the First Hospital safely, otherwise he would not be able to rest assured.

After all, this is a matter of President Fu’s life, but it is a big deal.

Of course, on the way to the hospital, he did not forget to contact Rong Shu.

Rong Shu was removing the gauze on her eyes at this time, and did not delay answering the phone, and when she heard Assistant Zhang on the phone say that her

heart was about to reach China, the whole person was so excited that she couldn't speak.

Lin Tianchen, who unpacked the gauze for her, saw her holding her mobile phone motionless, and couldn't help but ask, "What's wrong?"

Rong Shu grabbed his white coat and said excitedly, "The heart has been sent back to China, and there are still a few hours to go to the hospital, and Jing Ting can do surgery."

Lin Tianchen was stunned for a moment, and then smiled, "No wonder you are so happy all of a sudden.

"Can you not be happy, Jing Ting is finally saved." Rong Shu hung up the phone and replied, "Assistant Zhang has now rushed to the airport, he will wait there, escort the heart intact, Dr. Lin" "

Got it, I will now ask people to do a physical examination for Fu Jingting, if the physical examination passes, I will operate on him tonight." Lin Tianchen knew what she was going to say and directly cut off her words.

Rong Shu nodded repeatedly, "Trouble you, Doctor Lin."

"Nothing. Lin Tianchen used scissors to cut the last knot of the gauze.

Rong Shu was overjoyed, and kept asking questions about surgery.

For example, the length of the operation, whether there is anything that may be encountered during the operation.

She was also afraid, afraid that the operation would not be successful or something.

However, Lin Tianchen told her that as long as Fu Jingting's physical fitness meets the surgical standard and the heart can be perfectly matched, the success rate of the operation is very high, and it will basically not fail.

Rong Shu stopped thinking about it.

No way, she accompanied Fu Jingting to experience this for the first time, she didn't understand anything, she was worried and nervous, and she would inevitably ask more.

"Okay, now leave Fu Jingting alone,

Chapter 1328 – Surgery is possible

Rong Shu got the glasses three hours after the examination.

Don't say, Lin Tianchen's aesthetic is really good.

At that time, when filling in the information on glasses, Lin Tianchen asked her if she had any requirements for glasses.

Rong Shu was in a hurry to get the glasses early, so he directly said that there was no request, whatever he wanted.

She was afraid that she would ask for more, and the glasses matching side could not be completed in a short time, so she said so.

It's not that she's really that indifferent.

Therefore, she gave all this to Lin Tianchen, and did not care whether the glasses that came out in the end were ugly, for her now, it doesn't matter if she is ugly, the most important thing is that she can see things clearly and love, it's a big deal to re-make a good looking one later.

As a result, I didn't expect it, Lin Tianchen's aesthetic is very good, and the glasses she matched are very good-looking.

He got the glasses under the frame, below is a very thin gold-rimmed eye socket, there is no eye socket above, the two lenses are large and round, plus two sexy, sensual snow chains, so that Rong Shu after wearing glasses, looks intellectual and royal sister.

Rong Shu was stunned by herself in the mirror.

She hadn't thought that one day, she would be so suitable for the imperial sister style.

"How? It looks good. Lin Tianchen leaned on the position of the door frame of her ward and spoke towards her.

Rong Shu fiddled with the snow chains on both sides of her cheeks twice, "It's not bad, but why do you want to add two chains?"

"First, it's good-looking, you leave the matter of glasses matching to me, I can't let you down, can't I?" Lin Tianchen walked in, "The second is that you are wearing glasses for the first time, you are definitely not used to it, plus your face is small, you may not be able to wear it steadily, so I added two chains to increase the weight of the glasses, so that the glasses will not slide down."

“So it is. Rong Shu nodded, and then touched the bridge of his nose, “Don’t say, I’m really not used to wearing it for the first time, I always feel that this position has a strange feeling.”

“Just get used to it. Lin Tianchen stretched out his hand towards her.

Rong Shu took off her glasses and handed them to him, and her gaze changed back to the appearance of a mosaic in the world.

Lin Tianchen took the glasses and carefully checked them for any defects, then took out the glasses cloth and wiped them, “I really can’t get used to it, I can give you a permission to cut in line for corneal transplantation.” “

There is actually no shortage of cornea, after all, one donor can restore light to three or four people.

But why are there still so many people who can’t wait for a match?

The reason is that there are too many blind people in this world, and even if the cornea is not lacking, it cannot be completely given to all blind people.

So in this case, it is generally necessary to queue.

Those at the front of the line may be able to operate soon, and those at the back of the line will have to wait, and some have been waiting for years.

Rong Shu naturally had to queue up as well.

However, she can rely on the power of the people around her, directly cut in line, and operate as soon as possible.

But she didn’t want to do it, she wasn’t completely blind, and she could afford to wait.

If she jumps in line because of this, it will be unfair to other blind patients.

So ah, she can wait slowly.

“Sometimes, being selfish is nothing. Lin Tianchen handed the polished glasses to Rong Shu.

After Rong Shu took it, he put it back on, and the scene changed from a blurry mosaic to normal all of a sudden.

She smiled, “If I go to a dead end, I may choose to be selfish, but I have not come to that step, I am even luckier than the vast majority of blind patients, so I will not go with

them to seize the opportunity to restore vision as soon as possible, that is quite immoral.”

“Then it’s up to you. Lin Tianchen shrugged, did not force it, and then asked, “How do you see it?” Is it clear enough? “

It’s clear. Rong Shu nodded, “I can see it more clearly than before my eyes were wrong.”

“That’s good.

As he spoke, a nurse appeared outside, “Director Lin, Mr. Fu’s heart has arrived.” As soon as these words came out, Rong Shu immediately stood up from the sofa excitedly.

Because she stood too fast, the snow chains on both sides of her cheeks flew left and right, hitting her face directly, which hurt a little.

But she didn’t care about this, she only knew that Fu Jingting’s heart had arrived.

“Dr. Lin. Rong Shu hurriedly looked at Lin Tianchen.

Lin Tianchen knew what she was going to say, and ordered the nurse, “Send it to keep it first, and make arrangements after the physical examination results over there.”

“Okay. “The nurse is gone.

Rong Shu asked again, “When will the physical examination results come out?”

“It should be soon. Lin Tianchen replied uncertainly.

Fu Jingting’s physical examination he did not follow the whole process, so he didn’t know when to come out, and could only give a general answer.

Rong Shu bit her lower lip, “Can I go over there and wait?”

“You can see it now, and naturally you can walk around.” Lin Tianchen didn’t stop it.

Rong Shu smiled gratefully and quickly ran out of his office.

Just wearing glasses, Rong Shu is not used to the whole process, when running, the chains on the left and right sides really fly left and right, hitting the cheeks and neck pain.

In the end, there was no way, she simply pinched the two chains, which made her feel much better.

Soon, when she came to the appraisal room where the physical examination results were obtained, Rong Shu saw that Assistant Zhang was also there and shouted.

Assistant Zhang turned around, saw the glasses on Rong Shu's face, and asked, "Miss Rong, can you see it?" "

Yes. Rong Shu nodded.

Assistant Zhang was happy, "Well, Miss Rong came here to wait for the results of Mr. Fu's physical examination?"

"Yes, I want to know if Jing Ting can operate tonight." Rong Shu stood beside him.

Assistant Zhang took a breath, "Me too, so as soon as the heart was sent, I came here."

"Me too, hearing that the heart had arrived, hurried over. Rong Shu said.

They are all the people who care about Fu Jingting the most, and of course they are very concerned about whether Fu Jingting can operate as soon as possible.

After that, Rong Shu and Assistant Zhang stopped talking, quietly waiting for the results to come out.

After waiting for more than half an hour or so, the result finally came out.

The results showed that Fu Jingting was in good physical condition and could be operated.

Seeing this line behind him, Rong Shu burst into tears and was happy.

Assistant Zhang was too, excitedly grasping the report list, and his eyes were also red.

Then they came to Lin Tianchen's office and wanted to tell Lin Tianchen the result and let Lin Tianchen prepare for tonight's surgery.

As a result, it was not Lin Tianchen who finally opened the door, but a nurse of Lin Tianchen, "Please rest assured, the director already knew the result just now, he has now gone to the lounge to rest, and he will operate on time in the evening." "

There are still a few hours until night, and I don't know how long this operation will last, so in order to ensure that he is energetic at night,

Lin Tianchen must go to rest.

Rong Shu and Assistant Zhang came here, not only to tell him the results of Fu Jingting's examination, but also to let him rest.

Now hearing the nurse say that Lin Tianchen had gone to rest, the two of them were also relieved.

Walking out of Lin Tianchen's office, Rong Shu glanced at Assistant Zhang, "Assistant Zhang, you also go to rest, I see that you have a lot of blood in your eyes, and it is estimated that you have not rested well in the past few days."

Assistant Zhang touched his eyelids, "I haven't rested much in the past few days, Mr. Fu has an accident, I want the hospital group to run at both ends, and I really rarely sleep."

"Then go rest and sleep for a while."

"No, I want to accompany President Fu for surgery."

"Jing Ting surgery has to be carried out at night, there are still a few hours, you have not rested well, how can you have the energy to accompany you at night." Rong Shu said disapprovingly, "So you better go to rest."

Assistant Zhang felt the same, so he did not refuse her proposal again, nodded and agreed, "What about you, Miss Rong?"

He asked.

Read This Time, I Will Get My Divorce Chapter 1329

Chapter 1329 – Locked Up

"I'll go see Jing Ting first, and then go back to rest later." Rong Shu rubbed her ears.

She was not used to wearing glasses just now, which caused her ear bones to hurt now.

"I haven't been to see him yet. She added.

Assistant Zhang was slightly surprised, "Miss Rong hasn't gone to see President Fu yet?"

Rong Shu shook her head, "I removed the gauze in the morning and couldn't see things clearly, so I didn't go, thinking about waiting for the glasses to arrive and then going, but as soon as the glasses arrived, I heard that the heart had arrived, so I came over first and waited for Jing Ting's physical examination report to come."

After all, at that time, she most wanted to know if Fu Jingting could operate as soon as possible.

Assistant Zhang bowed his head and said that he understood, "Okay, Miss Na Rong, you go first, I'll go to the nearest hotel outside to open a room to rest, and come later."

"Okay, there you go. Rong Shu waved her hand.

Assistant Zhang left, and she didn't stay here long, but went to the ICU.

Fu Jingting and still did not come out of it, and in the past two days, listening to the nurse, the others did not wake up and had been in a coma.

Rong Shu came to the outside of Fu Jingting's ICU ward and looked at the man lying inside through the glass.

The man was wearing a hospital gown, but the hospital gown was wide open, revealing his entire chest.

Usually I see a strong chest, but this time it is plastered with electric films, not only that, but even his temples are also pasted with electric films, all to ensure that his consciousness is still there, to ensure that his consciousness will not dissipate into a vegetative state.

So every once in a while, these electrical sheets would discharge and stimulate his conscious spirit.

Rong Shu didn't know if Fu Jingting, who experienced this, would be in pain, but she knew that it would definitely not feel good.

Rong Shu put her hands on the glass, her forehead was also tightly pressed against the glass, tears flowed silently, and she looked at the man inside so quietly.

It wasn't until the caregiver came an hour later that he brought her back.

"Chairman. Back in the ward, Lina had been waiting for a while.

Rong Shu took off her glasses and wiped her eyes with a tissue, only then put them on again and smiled slightly at Lina, "You are here."

"Well, I'll report to you on the work of the past two days. Lina nodded, and then looked into Rong Shu's eyes, "Did the chairman see it?"

"You see, but you have to wear glasses, otherwise it's a mosaic." The

three words of mosaic amused Lina.

Rong Shu is also helpless, but in her opinion, what she sees without glasses is really a mosaic.

“Anyway, the chairman sees it now. “Lina sincerely congratulations.

Rong Shu sat down on the edge of the hospital bed and asked Lina to sit as well.

“Starting tomorrow, bring me some important documents that need to be processed, I can see them now, I can handle them, and I don’t have to pile them up.”

“Okay. Lina answered, and then told the situation of Tiansheng in the past two days.

Hearing that Tiansheng was working well, Rong Shu was also relieved.

When she woke up, she handed over the company to Lina.

Although Lina is a novice, she is not bad to manage, at least the company has not made trouble.

“However, Duan Xingbang’s group is a little unstable. Lina looked at Rong Shu.

Rong Shuxiu frowned, “Oh? Did they make trouble?”

“Not really. Lina shook her head, “Duan Xingbang is their master, the master is not there, they are a group of little shrimp monsters, at most they will jump twice, dare not really make trouble, they are ready to rescue Duan Xingbang, these two days they have always run to me, want me to contact you, but I didn’t pay attention to them.”

Rong Shu sneered, “You actually want to save Duan Xingbang? Are this group of people fools? Let’s not mention that Duan Xingbang deliberately killed people, just relying on Duan Xingbang’s malicious arson of such a big thing, it can’t be saved, unless they all have Fu Jingting’s net worth background, otherwise they are delusional, and they want to come to me, probably hoping that I will come forward to intercede for Duan Xingbang, and then Duan Xingbang has a better chance of coming out, right?”

“Yes, they personally said that Duan Xingbang is the chairman of your uncle, and he is also credited to Tiansheng, you should stand up and intercede.”

“Oh, it’s a lot to think about, you’re right not to ignore them.”

“But in this way, this group of people will definitely not be settled, and it is estimated that they will have to find a way to jump up and down.” “

Don’t worry, as you just said without Duan Xingbang, they are just a piece of scattered sand, I have a way to clean them up, but in a short time, I won’t show up.”

Lina frowned, “Then let them bounce around the company all the time?”

“Let Ah Qi pass, Ah Qi is also the director of Tiansheng, and he has the right to manage it in the absence or absence of me and the vice president of the president.” Rong Shu said.

Lina felt that it made sense, “Then I will contact President Lu in a while and ask President Lu to go to Tiansheng to clean up these people, but speaking of President Lu, Chairman, President Lu has actually contacted me in the past two days to inquire about your situation.”

Rong Shu raised her chin, “I guessed, he called me, but I didn’t answer, I grew up with him, I didn’t dare to lie to him, he must be able to hear it at once, so I didn’t dare to answer his phone, he can’t contact me, he will definitely contact you, what did he say?”
Q: Duan Xingbang was bombed two days ago?

“I asked this, President Lu is also our director, there is such a big thing, it is impossible for him not to ask, and he personally went to the factory to see it, and even said that he was going to see Duan Xingbang.”

“What? See Duan Xingbang? Rong Shu was anxious, “Then did he see it?” “

If Ah Qi went to see Duan Xingbang, wouldn’t she already know what happened between her and Fu Jingting.

Lina shook her head, “Don’t worry, Chairman, President Lu didn’t see it, the police side is now temporarily refusing to allow anyone to see Duan Xingbang, I heard that it was Assistant Zhang’s idea.”

Rong Shu breathed a sigh of relief, “Well, then what did Ah Qi say when you contacted you?”

“I didn’t say anything, the main thing is to know where you went, why can’t you get in touch, after all, Duan Xingbang’s matter is still foggy in the eyes of the outside world, and I don’t know much, President Lu probably wants to know more details.” Lina said.

Rong Shu sighed, “When Jing Ting’s surgery is over, I will personally contact him and tell him everything.” “

Anyway, as long as Fu Jingting is successfully operated, she won’t worry about anything else.

Now that Fu Jingting has not yet undergone surgery, there are so many enemies in the outside world, she easily does not dare to say more.

It’s not that I don’t believe in Lu Qi, but I don’t believe in the world.

“Mr. Fu’s operation? Lina’s eyes lit up, “Can Fu always operate?”

“Yes, the heart has arrived at the hospital, surgery tonight.” At the mention of this, Rong Shu laughed.

I’m happy.

Lina saw her smile and was sincerely happy for her, “That’s great.”

“yes, it’s the happiest moment I’ve had in days.” Rong Shu touched itHeart.

Just then, the phone rang.

She picked up her mobile phone and glanced at it, saw that it was the detective she was looking for a few days ago, and quickly answered, “Hello.” The

other end of the phone didn’t know what to say, Rong Shu’s face changed greatly, “What? Okay, I see, thanks, I’ll call you the final payment in a moment.

Lina saw Rong Shu’s ugly face, and quickly asked with concern, “Chairman, what’s wrong?”

Rong Shu didn’t answer immediately, but pursed her red lips and didn’t know what to think for a while, before she clenched her phone and said, “Didn’t I ask the detective agency to check Secretary Tong’s affairs?” “

Found it? Lina asked busily.

Rong Shu nodded and snorted, “I found out, Secretary Tong did not go abroad, she was locked up.”

“Locked up? Lina exclaimed in surprise.

Chapter 1330 – The Surgery Begins

Rong Shu was noncommittal.

Lina swallowed in disbelief, “How could you be locked up?” Who locked it up? But I just saw Secretary Tong walking outside a few days ago, could it be that I was locked up before I met her?

“No, when Secretary Tong proposed to resign, she was already locked up. Rong Shu pursed her lips.

Lina was shocked, "I was locked up when I resigned?"

"Hmm.

"No wonder, no wonder Secretary Tong wants to resign, no wonder Secretary Tong wants to lie to us that she went abroad for further study, because she was locked up, so she can't tell others the truth, afraid that others will be affected by her, right?" Lina guessed, "Did she offend some bad person?" That's why you're locked up by love bad guys?

Rong Shu shook her head, "Neither, she didn't offend any bad people, and the one who locked her up was not a bad person."

"Who is that?" "

It's Lu Qi. Rong Shu pursed her lips.

Lina was stunned, "Wait a minute, chairman, if I heard correctly, what you said is President Lu?"

"It's him.

"Why? Lina's eyes widened in disbelief, "Why did President Lu lock her up?"

Rong Shu sighed, "Appropriate now, I don't hide from you, you also know that Secretary Tong is pregnant, but you don't know whose child you are carrying, now I tell you, the child in her belly is Ah Qi." "

Hiss" Lina gasped, "It's actually President Lu!" How so? Secretary

Tong has always liked Ah Qi, but Ah Qi has no feeling for her, the two because of an accident, Secretary Tong was pregnant with a child, during this period, Secretary Tong has always been very worried, afraid that her pregnancy will be known by Ah Qi, so she asked me for leave several times, all to go for a maternity examination, and then shed the child, she thought that as long as the child was lost, she and A Qi would never have any involvement before, but did not expect, On the day Secretary Tong lost her child, Ah Qi knew that she was pregnant, chased her to the hospital, took her away from the hospital, and locked her up in a villa. "

These were all detected by detectives.

Lina's mind buzzed, "I seem to know, how did Lu always know that Secretary Tong was pregnant" "

You know?

Lina bit her lower lip, her face full of guilt, "Well, I know, because that day I saw the miscarriage report that Secretary Tong threw in the trash, and then I talked about this with the sisters in the office, but I didn't expect that President Lu suddenly came in, asked Secretary Tong to go to the hospital and left in a hurry, at that time we didn't know that the child that Secretary Tong was carrying was President Lu, thinking that Secretary Tong was bullied, I thought that President Lu was in such a hurry to leave because he was worried about Secretary Tong's friend, but he didn't expect that " everything is connected."

Lu Qi knew that Secretary Tong was pregnant at that time, and then went to stop it, took Secretary Tong and locked him up, so that Secretary Tong lied to them, saying that he was going to study abroad, and then resigned smoothly.

"Chairman, why did you say that President Lu locked up Secretary Tong, and what was his purpose in doing this? Lina looked at Rong Shu and asked.

Rong Shu shook her head, "I don't know, the detective just found out what happened to Secretary Tong, the day you saw Secretary Tong, it was the day Secretary Tong came out to let the wind go, and it was also Ah Qi who agreed that she could come out once a week to let the wind go, and the rest of the time, she had to stay in the villa, so you could see her, but what Ah Qi was going to do, I really don't know."

She was even thinking that Ah Qi took Secretary Tong away from the hospital and didn't let Secretary Tong lose the child, could it be that he wanted Secretary Tong to give birth to the child?

This possibility is not impossible, why stop Secretary Tong if you don't let Ah Qi?

If Ah Qi is really not ready to leave the child, it would be good to let Secretary Tong flow away at that time.

But what is the specific reason, we must start with Ah Qi.

"Chairman" "

I know what you want to say, don't worry, I will talk to Ah Qi openly later, but not now, you also know that the current situation between me and Jing Ting is not suitable for showing up." Rong Shu said.

Lina nodded, "I know, Secretary Tong can come out and let the wind go, it means that even if President Lu locks her up, he also gives her a certain degree of freedom, she will not have security problems with President Lu, as long as the chairman has time, just ask." That's

what she's for.

Rong Shu took off her glasses and rubbed her ear bones and the bridge of her nose, "I will." Lina

didn't stay long after that.

Rong Shu also lay down and began to rest.

At night is Fu Jingting's operation, she must also sleep for a while to nourish her spirits, so that at night, she will have better energy to wait outside the operating room.

That sleep is five hours.

In the end, Rong Shu was called out by the nurse and told her that the time was almost up.

Rong Shu was in a hurry, not even wearing a coat, so she quickly ran to the ICU, while the nurse chased after her with her coat.

"Miss Rong, you are here. Assistant Zhang has already got up and come here.

Rong Shu stopped panting, "Here it is."

Then she looked up into the glass.

Several nurses and doctors are dismantling the electrotherapy equipment on Fu Jingting's body.

Rong Shu clenched her palms and looked, "Assistant Zhang, you said that the operation would be successful, right?" "

It will. Assistant Zhang also looked inside the ward and answered without hesitation.

One more person thinks that there will be no problem, and the sense of security in Rong Shu's heart is even more sufficient.

She nodded and stopped talking.

At this time, the nurse also chased after him.

Rong Shu also obediently put on her clothes.

Otherwise, don't wait for Fu Jingting's surgery to come out successfully, and she will catch a cold again.

Soon, Fu Jingting was sent to the push bed and pushed out.

Rong Shu and Assistant Zhang subconsciously wanted to go over, but were blocked by several nurses and did not let them approach.

Because they do not have sterile clothes on them, they are inaccessible.

Although Rong Shu was lost, she did not object, and followed the cart to the operating room from a distance.

Lin Tianchen had changed into a green surgical gown and was wiping his eyes at the entrance of the operating room.

Rong Shu went over and bowed to him, "Tonight's operation is in trouble for you."
Assistant
Zhang did the same, bowing to him.

Lin Tianchen put on his glasses, "Don't worry, it'll be fine, okay, I'll go first, if you can wait, just wait outside, I estimate that this operation will not be able to end in more than ten hours."

"I'll wait. Rong Shu replied without hesitation.

Not to mention more than ten hours, she had to wait for three days and three nights.

she must wait for the news of the success of Fu Jingting's operation, otherwise she will never be able to rest assured.

"Me too. Assistant Zhang also said.

Rong Shu looked at him, "Fu's side, you" "

It's okay, just work more overtime later." Assistant Zhang smiled at her.

He often works overtime anyway.

In other words, what is more important than Mr. Fu's safety.

In this way, Rong Shu and Assistant Zhang sat down in front of a cold chair and quietly waited for the operation to end.

The waiting process is undoubtedly long and torturous.

But for the sake of the people inside, even if she is suffering, she has to get through.

From night to dawn, and from dawn to night.

Twenty-four hours passed in the blink of an eye.

Rong Shu and Assistant Zhang hardly left half a step outside the operation except for going to the toilet.

At the same time, they also waited more and more anxiously, and they became more and more worried and nervous.

Because before the operation, Lin Tianchen said that the operation time was almost ten hours, but now that twenty-four hours have passed, the operation has not ended, does this mean that the operation is not so smooth?

Is it even possible to fail?

So how can this not make them more worried?
