Chapter 521: Jeans

The whole process was shockingly simple and smooth, but after thinking about the whole process of Gu Shinian's action, Lao Jin couldn't help but feel a wave of fear.

According to Gu Shinian's narration, the whole process of his doing it is inseparable from his good luck.

Climbing up to the second floor from the window, Wen Jinsheng knocked that he was not in the room, and the box containing the jade seal happened to be right under Gu Shinian's nose, so it was convenient for him to take care of it. In the room, there was a misunderstanding that Wen Jinsheng thought he had bought an empty box and came back.

If there is a slight deviation in the whole process, today's matter will not be completed, and Gu Shinian's identity will be exposed.

It has to be said that Gu Shinian was courageous enough and acted decisively enough, and he happened to be not short of that bit of luck.

Lao Jin's excited mood calmed down after writing the report on retrieving Yuxi, and spent a long time pondering with Lao Li. The two agreed that Gu Shinian's temper needed to be polished.

To do this kind of task, what you want is a word of "stability".

Although Gu Shinian's actions today were successful, it also exposed his slightly aggressive temperament.

This was too dangerous for Gu Shinian.

He was lucky this time, and he was able to escape unscathed, but it doesn't mean that he will have such good luck next time. And every time they perform a mission, they are desperately with their heads pinned to their waistbands. How can they entrust their lives and mission results to illusory luck?

After getting back the jade seal, Lao Jin and the others put all their energy into retrieving the twenty-two cultural relics left in Hong Kong City.

Yun Shang continued to be a qualified oil bottle, obediently going to school behind An Yunming every day, and then formed a small circle with Lu Yunling and Xu Tian in the front row, doing homework together after class, buying snacks to share with each other, and occasionally going shopping together, watch movies, listen to Pitousi songs, and take piano and violin lessons on weekends. My life is busy and fulfilling.

Once people get busy, time flies very fast, and it will be the time of Chinese New Year in a blink of an eye.

During this period of time, in An Guosheng's circle, it was often reported that so and so said with a heartbroken face that the treasures in his collection were stolen, and even members of the gang said that someone paid them to find them all over Hong Kong. back something...

In these true and false gossips, Lao Jin and the others did move their hands a few times, and recovered eight of the twenty-two cultural relics that were strayed in Hong Kong City.

The end of the year is approaching, and Comrade Li needs to go back again to send the jade seal and eight other cultural relics back to China. At the same time, he also needs to make a summary report on the work of several people in the past six months.

Before going through the customs, Yunshang handed over the New Year gift she had prepared for her family to Lao Li, and also reminded her thousands of times that she must remember to bring the ball and fur ball for her when she came back.

The Canton Fair has long since ended, and Lao Li has no more free rides here. Yunshang watched with trepidation as Lao Li walked in with a box containing cultural relics, and his mental strength condensed into a small silk thread to follow, just waiting for what happened. The customs officers stopped Lao Li so that she could take back the contents of the box as soon as possible.

Fortunately, the situation that Yunshang was worried about did not happen. As soon as Lao Li entered the customs, he went straight to the staff who had checked in before. Li, the staff didn't even look at the small box containing cultural relics at the bottom.

It is really hard for the customs staff to serve the people with such a "serious and responsible" attitude. As the object of service, Lao Li expressed his satisfaction.

Before leaving, he gave the other party a pack of cigarettes as a service fee.

Yun Shang said that her mental power will also be selectively invalidated, and she has not detected that the cigarette box is not filled with cigarettes, but a thick stack of Hong Kong dollars.

After confirming that Lao Li passed the customs easily, Yun Shang was in a good mood and followed Gu Shinian to watch a movie to celebrate.

After Lao Li left, Gu Shinian temporarily took over Lao Li's work, disguised himself every day, went out early and returned late to do tasks behind Lao Jin, and did not stop temporarily because it was approaching the end of the year, letting those people take the cultural relics from Luo Hai people,

Plan to have a good year.

Yunshang has not been idle for the past few days, and goes shopping with An Yunxi and behind Mei Yingxue every day to buy new year's goods.

Influenced by the Beatles, jeans and flowered shirts have become the most popular clothes for teenagers in Hong Kong. Taking the opportunity of the Chinese New Year, Yunshang chose a pair of jeans for herself and An Yunxi from the space, and put them on. The mirror is smug.

When Lao Jin saw it, he couldn't appreciate the jeans on Yunshang very much. He thought that girls should wear long skirts and sit there gracefully reading and writing, so that they look like girls.

Or wear the most popular army green in China, a small and upright military uniform, and go to the army to punch and shoot, but they look full of life, are very energetic, and look like a girl.

Like Yunshang, wearing a pair of jeans, like those little blind girls in flowered clothes on the streets of Hong Kong City, how can they look like a girl?

Yun Shang thinks that Lao Jin, a straight steel man who can't even tell the difference between head flowers and jewelry, talks to her about flowery shirts, long skirts, jeans, and what clothes to wear to look like a girl, and his rambling appearance is very cute.

After An Yunxi left, Yunshang immediately changed out of her jeans, put on a very ladylike dress, and went downstairs to have a heart-to-heart talk with Lao Jin.

"Uncle Jin, you are right. These jeans are uncomfortable to wear. They are stiff and ugly. The exotic clothes produced by these capitalist countries are not as pleasing to the eye as our cotton clothes, nor are they as comfortable to wear as ours. "

Lao Jin loves to hear these words, the corners of his mouth curled up proudly, and he said angrily, "I know you can't buy cotton cloth for comfort?"

"Uncle Jin, I buy jeans because I need them for work!"

Yun Shang spoke nonsense in a serious manner, fooling Lao Jin: "Second brother Gu and I returned to Hong Kong from Country Y to settle down in Hong Kong. These jeans are the most common and popular clothes in Country Y. Two days ago, our classmate Asked me, said, "An Yunshang, you came back from country Y, why haven't you seen you wearing jeans?"

"Did someone ask you?" Lao Jin asked pretending to be surprised, and then began to complain, "The people of country Y really don't know how to enjoy it. Cotton clothes are so comfortable, and they all like to wear hard jeans, which are ugly and suffer." It can be seen that people in this capitalist country are unlucky!"

"Someone really asked me!" Yun Chang nodded, her expression as serious as she wanted, "I said at the time, I have jeans, but they are not as comfortable as our cotton clothes, and I don't like to wear them."

Chapters 522 Crew handyman

Gu Shinian held back his laughter from the side until his stomach ached. He came over and patted Yunshang on the head, signaling her to go upstairs to play, "Don't make a fool of yourself, Uncle Jin doesn't know as much as you do?"

Lao Jin also laughed out loud, and jokingly said to Gu Shinian, "Xiao Gu, you will go to the street tomorrow to buy some jeans for yourself, buy better ones, and when you wear them, others will know that you are a Y country back."

After laughing, Lao Jin sighed and said to Gu Shinian, "Although Yunshang's words are a joke, but when you think about it carefully, there is a little truth in it. Whether it's the cotton clothes we make ourselves, or the bourgeois clothes The denim clothes, as long as they can serve the mission, are

good things for the organization. Don't be too rigid, learn from Yunshang, and know how to be flexible."

Gu Shinian: "..."

That girl's foolishness won't pay for her life, you really listened to her words.

Gu Shinian handed today's newspaper to Lao Jin and motioned him to read the bottom report.

"The film company went to country R to make a movie...what's the matter?"

After reading the report hastily, Lao Jin couldn't figure out why Gu Shinian wanted him to pay attention to making movies.

"Uncle Jin, Uncle An has taken me out in the past few months, and there are quite a few people in Hong Kong City who know me now. If I go to country R as Anyun State, I should not be able to hide it from the eyes of those who are interested.

I think we can change our identities and go to country R as a handyman for the crew. After completing the mission there, we can mix things with the crew and props and bring them back.

In this way, even if there is news of the loss of cultural relics from Country R, Hong Kong City will not think of us. Otherwise, when we were in Hong Kong City, the city side kept throwing things away, and when we went to country R, things also started to be lost in country R... This kind of coincidence is too suspicious. "

As soon as Gu Shinian opened his mouth, Lao Jin's eyes lit up. At the end, Lao Jin slammed Gu Shinian's shoulder and said "Okay!"

The idea that Gu Shinian came up with is really brilliant, there is no better way than this.

The handyman of the crew is the most inconspicuous and most popular job. What I do is miscellaneous work, and I can go to any department to help in any department that needs it. Even if there are two people missing, no one will notice.

For now, there is nothing more suitable for two people than the handyman of the crew.

...

Knowing that Gu Shinian and Lao Jin were going to work as handymen in Country R with the crew, Yun Shang couldn't believe her ears.

After being stunned for a long time, he asked, "Second brother, what about me? You are not at home, so you leave me alone at home? If someone asks me where you have been, what should I say?"

The most important thing is how much stuff Gu Shinian and Lao Jin can get back. If she goes, the Museum of Country R can be emptied!

She is so important and powerful, how could Gu Shinian not let her pass by?

Gu Shinian held down Yun Shang's body that was about to jump up, and discussed with her in a low voice, "A Chang, Uncle Jin and I went there this time as handymen, so it's not good to take you..."

"Why is it hard to bring?" Yunshang was unhappy, "I can also be a handyman, and I can also play tricks..."

Speaking of this, Yunshang paused for a moment, a smile quickly formed on her face, and her attitude took a 180-degree turn: "I know the second brother, you and Uncle Jin must be careful, I will wait for you at home."

Looking at Yun Chang's appearance, Gu Shinian didn't know that she was going to play tricks again. He grabbed Yun Chang and questioned her for a long time before he knew what she wanted to do.

This little girl's film is so bold that she used space to sneak in with the crew and follow her!

"Second brother, I don't worry about you. In just one month, more than a dozen cultural relics need to be retrieved, and they are still in other countries, and the place of life is unfamiliar. Can you two find the whereabouts of all the cultural relics? I went to Now, at least I won't hold you back, and when I encounter a heavily guarded place, I am safer and more sure of acting alone than the two of you."

If Yunshang made her petty and spoiled, Gu Shinian could still scare her with a straight face and make her obedient.

But Yunshang doesn't cry or make trouble,

Instead, he reasoned with him seriously, and Gu Shinian had nothing to do with Yun Shang.

Yun Chang looked straight at Gu Shinian, his eyes were firm, and he did not back down. Gu Shinian knew that this time, he was going to compromise again.

"Okay, it's getting late, you go to bed first, and the second brother will tell Uncle Jin for you tomorrow."

Yun Shang didn't know what Gu Shinian talked about with Lao Jin. She only knew that after going downstairs in the morning, Lao Jin not only didn't think she was messing around, but also didn't deliberately avoid it when the two of them made plans next. she is gone.

.....

On the third day of the new year, An Guosheng personally drove Yunshang and Gu Shinian to the airport with great fanfare. When meeting acquaintances at the airport, An Guosheng would deliberately take the two of them up to greet each other.

Several families close to An's family received the news that day that the two nephews and nieces of An Guosheng had returned to country Y. It was said that there was a problem with the property left by An Guosheng to them, and the two would return to country Y temporarily. trip.

The news spread quickly and widely, even Wen Baobao heard about it, and even called An Yunxi specifically, wanting to know if Gu Shinian really hadn't finished the year, so he hurried back to Y country.....

According to legend, Yun Shang and Gu Shinian, who had already returned to Country Y, had changed into dusty clothes and joined Lao Jin on the set.

The crew's filming mission in Hong Kong City has not yet been completed, and it was supposed to be transferred to country R on the sixth day of the new year, but it was delayed until the eighth day.

These days, Gu Shinian and Lao Jin are also like real handymen, running up and down the crew doing odd jobs, and taking Yunshang to stay at the hotel where the main creators of the crew stay at night.

Yun Chang has grown in size in the past six months, and is already 1.6 meters tall. Wearing a hat and dusty clothes, she looks like a boy at first glance. Following behind Lao Jin and Gu Shinian, and helping them out, did not arouse the suspicion of others.

Several people left home in the third day of junior high school and stayed with the crew until the eighth day of junior high school, and then followed the crew on the plane to country R.

After getting off the plane, a large group of people from the crew were busy picking up their luggage, while Lao Jin and Gu Shinian dragged Yun Shang and walked quickly outside.

Yunshang noticed that the clothes of the people in country R in this era are completely different from those in Hong Kong City.

Standing outside the airport, as if you were in those old movies in the past, the people around you are almost all in black, white and gray suits, their hair is meticulously combed, the men are carrying briefcases, and the women are carrying small satchels.

Even the stewardesses who passed by several people carried old-fashioned small satchels on their backs. The difference was that the stewardesses uniformly wore white shirts in their rigid uniforms. The buttons under the neck were unbuttoned, and the entire collar was V-shaped. , but it makes these stewardesses look less rigid.

Chapter 523 Silly and Bold

Lao Jin can speak a little Japanese, from taking a car to finding a place to live, everything is done by Lao Jin.

Organization is more difficult, several people are away from home, and the funds can be saved as much as possible.

Yun Chang changed her clothes, opened the window of the room, and saw a few cherry blossom trees in the courtyard covered with light pink flower buds, and the delicate pink trembled slightly when the wind blew, which was really cute.

Smelling the bitter fresh air outside the window, and looking at the eyes full of powder, Yunshang suddenly felt that this small dark and cramped room had a little more simplicity.

Lao Jin took Gu Shinian out to inquire about the news. Yunshang hid in the room and ate two meat buns. After filling his stomach, he wandered out of the hotel and asked passers-by about the location of the museum in bad R language.

In the last life, Yunshang paid a lot of attention to the largest museum in the neighboring country, and even wandered around the ZG special exhibition on the second floor several times. There are five showrooms, and everything in it can be called a national treasure. People from neighboring countries are displayed in their own museums.

Now it's a different world, another era, Yunshang doesn't know if those national treasures are in the museum now, if not, where are those national treasures...

Fortunately, the location of the small hotel is not far from the museum. If you walk faster, you can get back before the sun sets.

...

On the other side, Lao Jin and Gu Shinian ran for several hours, and finally found out about a buyer who had made a deal with Luo Hai before dark.

Seeing that it was getting late, Lao Jin rubbed his brows and sent Gu Shinian to go back first, "I'll follow to explore the way, you go back and wait for news at the hotel with Yunshang, don't act in private."

Gu Shinian knew Yun Shang's temperament, if no one was watching, then the girl had the courage to come up, and she could really do something like looting a museum by herself.

He was worried about Yunshang in his heart at this moment. Hearing what Lao Jin said, Gu Shinian was not polite to him, and told Lao Jin a few words, and quickly returned to the small hotel.

A few minutes after Yun Shang came back from the museum, Gu Shinian hurried in. Seeing Yun Shang obediently sitting cross-legged in the room, the heart that had been raised for a long time was finally relieved.

"Second Brother Gu, how are you doing? Any news?" As soon as they met, Yunshang hurriedly asked her most concerned question.

Gu Shinian sat down opposite Yunshang, nodded with a smile, "I found it, Uncle Jin will follow to find the way, if all goes well, we can do it tomorrow night."

Yun Chang's eyes lit up, "How many pieces did that person buy from Luo Hai?"

"Six pieces." Gu Shinian paused, frowning slightly, "Now I'm worried that that person will sell the items exclusively. If that's the case, things will be troublesome."

"Don't be afraid!" Yun Shang bent down and moved forward, leaned in front of Gu Shinian, and whispered, "I can speak a little Japanese, if that person really sells things, I will find a chance to tie him up. Severe torture, not afraid that he will not confess!"

Gu Shinian: "..."

What you learned in school before, there is still room for hard work, that is, let you do the work of torture?

A Chang is getting more and more ferocious the longer she grows.

Seeing the weird expression on Gu Shinian's face, Yun Shang asked suspiciously, "Second Brother Gu, what's wrong with you? Is it my suggestion that it won't work?"

Gu Shinian still has a strong desire to survive. Hearing Yun Shang's question, he shook his head resolutely, "A Chang's method is very good! It's just that this job is too dirty. I will do it when the time comes, and you can just wait for the news on the sidelines."

Yun Chang understood what Gu Shinian meant, thought about it, but still didn't say the words "I'm not afraid of getting dirty".

The two had a conversation, and the food that Gu Shinian ordered from the owner of the small hotel was delivered.

Yun Shang didn't stop eating snacks all day, and she wasn't hungry, so she put down her chopsticks after eating two pieces of sushi, which made Gu Shinian frown.

Knowing that she was going to be reprimanded, Yunshang decisively changed the subject, "Second brother, I went to the museum in the afternoon and saw a lot of good things inside."

In a word, Gu Shinian almost bit his own tongue, subconsciously looked Yun Shang up and down, and asked, "Is nothing wrong?"

"No! The museum is not far from the hotel,

It took only half an hour to walk, and I walked around inside and then came out. To be honest, I didn't do anything! "

Gu Shinian heaved a sigh of relief, lowered his head and continued to eat, but after two minutes, he couldn't help but say, "A-shang, be good, don't move the things in the museum for now, wait for us to return to Hong Kong City." We'll talk about it later, okay?"

The loss of antique cultural relics from ordinary people is completely different from the loss of cultural relics in museums.

And Yunshang's goal is very clear, she wants to take back all the things that belong to Huaguo in the museum of country R, not a lot.

Although this idea is very unrealistic, with Yun Shang's temperament, she can indeed do something like looting the museum.

At that time, the theft of the museum in country R will definitely become a major international sensation.

In this case, if a lot of these things appear in China, how can the organization explain this matter?

Could it be said that those things grew their wings and flew back to their hometown from country R?

For some people in China, they want to control the existence of a museum that can be looted without anyone noticing.

For other countries, such a person would scare them, make them restless, and always worry that their own museums would be guarded by themselves, so they would not tolerate the existence of such a powerful person in the country.

It is not a secret that he brought Yunshang out to perform the mission. Once someone suspects Yunshang, what awaits her will be endless harassment and the threat of losing her life at any time. .

The most important thing is that given the current situation in China, even if Yunshang moves back the entire museum, it may not be able to preserve all of it intact.

Another ten years will be the best time for these cultural relics to return to China.

These words, Gu Shinian has never said to Yun Shang, but Yun Shang's behavior of visiting the museum alone today really scared Gu Shinian, and made him feel that it is indeed time to have a good talk with Yun Shang up.

After eating, Gu Shinian closed the doors and windows, and let Yunshang take him into the space.

Yun Shang moved two single sofas and placed them under the fruit tree. Leaning on the sofa, she reached out and picked an apricot. While gnawing on it, she waited for Gu Shinian to lecture her.

Gu Shinian grabbed Yunshang's arm, told her to do a good job in front of him, and then told her with a serious face about the possible consequences of looting the museum, and the current situation in the country. After speaking, Yun Chang was so scared that cold sweat broke out.

Damn! Is it that scary?

She is patriotic, but the premise of being patriotic is that she has to live all the time to be patriotic!

Chapter 524 Distressed

Gu Shinian grabbed Yunshang's arm, told her to do a good job in front of him, and then told her with a serious face about the possible consequences of looting the museum, and the current situation in the country. After speaking, Yun Chang was so scared that cold sweat broke out.

Mom! Is it that scary?

She is patriotic, but the premise of being patriotic is that she has to live all the time to be patriotic!

"A Chang, the second brother told you this, not to prevent you from taking action, but to make you pay attention to your sense of proportion, and don't put yourself in a dangerous situation because of a momentary carelessness, do you understand?"

"Understood." Yun Chang nodded fearfully, "Second brother, I will be gentle and take less."

After thinking for a while, he added weakly, "I try not to move the things in the exhibition hall."

Success made Yun Chang feel fear in his heart, and Gu Shinian's heart that was hanging in the air fell down. He lay on the sofa like Yun Chang before, and raised his hand to rub the center of his eyebrows to relieve his physical fatigue.

It was only then that Yun Chang noticed that Gu Shinian's eyes were turning blue, and when she looked at him, he rubbed his brows more and more slowly, and finally fell asleep with his arms on his head .

There was silence in the space, and Yun Chang unknowingly stopped chewing the apricots in her mouth, worried that she would make a noise and disturb Gu Shinian to sleep.

Yun Shang slowly put down the hand holding Xingzi, and began to think about Gu Shinian's itinerary for the past few days.

The day before yesterday, I stayed in the crew all day, and went out with Lao Jin at night to track down the whereabouts of the remaining 14 cultural relics. Yesterday, the film crew rushed to work, Gu Shinian and Lao Jin stayed up with the film crew until two o'clock in the middle of the night, got up before six o'clock in the morning, and then caught the plane to country R.

Lao Jin still slept for two hours on the plane, but Gu Shinian took care of her who was not used to flying in this era and was airsick all the time, so she never had any leisure time.

After getting off the plane, several people rushed to the small hotel without stopping, and then Gu Shinian and Lao Jin went out to find clues without taking a break.

For three full days, Gu Shinian slept for four hours, and Lao Jin slept for six hours, and Lao Jin was still running around outside at the moment.

Yun Chang's distressed eyes were red, and at the same time she wanted to feel distressed, but at the same time, she was angry that she was too careless, and she didn't notice that Gu Shinian and Lao Jin hadn't rested for several days.

Seeing that Gu Shinian was fast asleep, Yun Chang didn't dare to disturb him, got up quietly and left, went to the warehouse to get some ginseng whiskers from old wild ginseng, an old hen that had been processed, found a casserole, and stewed ginseng for the two of them chicken soup.

I can't be so careless in the future. During her stay in Country R, she had to manage the logistics well and take care of the lives of Second Brother Gu and Lao Jin. They can't let Second Brother Gu think about her when they complete the task.

Gu Shinian woke up after only sleeping for less than four hours. He saw Yunshang squatting in front of the building, guarding a large casserole. White steam was rising from the casserole, and the smell of chicken soup filled his nostrils.

Seeing Gu Shinian approaching, Yunshang quickly filled him with a bowl of soup and scooped a big chicken leg into it, then looked at Gu Shinian eagerly.

Gu Shinian didn't think it was too hot, so he took a sip of the chicken soup and praised Yunshang, "It's delicious! It's better than Aunt Wu's cooking!"

Yun Chang was satisfied, and sat down next to Gu Shinian, gnawing on the crispy stewed chicken wings, feeling very happy.

"A Chang, I'll go out to meet Uncle Jin later, you remember to lock the doors and windows and go to bed early."

Yun Chang nodded, and pointed to the white porcelain cup with the size of a palm beside him, "I'll make some chicken soup for Uncle Jin later, so let's go out and buy it."

This white porcelain cup was found in a supermarket. She had seen a similar style in Hong Kong City. Lao Jin should not be able to see the problem with using a white porcelain cup to hold chicken soup.

Gu Shinian looked up and nodded, "Okay, just put it in Lao Jin's room later."

After drinking the chicken soup, Gu Shinian went to meet Lao Jin in good spirits, while Yun Shang was busy tidying up the space.

The crops in the field for the past two years,

She always planted and rested once, which can not only raise the land, but also reduce her own burden.

Of the five acres of land, she used four acres to grow crops, and the remaining one mu of land, half of which was planted with fruits and vegetables that she liked to eat, and the remaining half, she planted some dishes that could be sold without attracting suspicion , For example, Chinese cabbage and radish in winter, and watermelon and melon that can be sold in summer.

Just relying on the production in the field, after a few years, she has earned a lot of less than 20,000 yuan.

The fruit trees around the space are becoming more and more luxuriant, and there are many kinds of fruit trees. Whether it is the fruit from the south or the fruit from the north, they all adapt well when planted in the space.

It's just that there are too many fruit trees, and the space around is not enough. Yunshang is currently thinking about getting two acres of land to plant fruit trees.

Anyway, the food in the space is almost full again, even if she never grows crops again, there is enough food in the warehouse to last her a lifetime.

Yunshang wandered around in the space, picked all the ripe fruits, and prepared to store them in a warehouse dedicated to fruit.

It was only when Yunshang probed over with mental strength that he realized belatedly that the fruit in the warehouse was about to burst.

She needs to get another warehouse dedicated to storing fruits!

Thinking about it, the fruit in the space has been producing in large quantities. Apart from eating it for herself and occasionally sneaking in some for her family, she has no other consumption. As time goes by, don't you have to liquidate your position?

But thinking that these fruits could be exchanged for money in the future, Yunshang's mood immediately improved again, and he neatly organized a new warehouse, put the newly harvested fruits in it, and stepped out of the space.

.....

Yun Shang went to bed early at night, and didn't even know when Gu Shinian and Lao Jin would come back.

While eating breakfast, seeing the relaxed smiles in the corners of their eyes, Yun Shang thought about it, and cast a questioning look at Gu Shinian.

Gu Shinian nodded imperceptibly, and Yun Shang immediately understood in her heart that the two had gained something last night, and the gain was not small.

After dinner, Lao Jin wanted to catch up on sleep, and Gu Shinian was going to take Yunshang out for a walk.

Country R in February was the coldest time of the year. After walking for a while, Yunshang hid behind Gu Shinian, took a down jacket from the space, and wrapped herself tightly.

It wasn't enough for her to calm herself down, she even found a scarf and gloves from the space, and made Gu Shinian wear them.

"Second brother Gu, what happened last night? Did you find the whereabouts of the cultural relics?"

"Yeah." Gu Shinian had a relaxed smile on his face, "I've seen it, all six things are there."

Yunshang didn't expect it to go so smoothly. On the first day in country R, there was news of six cultural relics, and she asked excitedly, "Second Brother Gu, is Uncle Jin planning to do something tonight?"

Chapter 525 Five hundred and twenty fifth chapters stepping

"Uncle Jin didn't expect to find someone yesterday, and he didn't bring a lockpicking tool with him, so he went to have a look tonight."

Gu Shinian said calmly, but his mood was not so relaxed.

Last night, they took advantage of the opportunity of the man taking things out of the safe while he was talking to his friends, and they caught a quick glimpse of a few cultural relics. Later, he carefully observed the huge safe. The shape of the lock cylinder was weird, and the key in the man's hand was not in the traditional straight shape.

At that time, he looked back at Lao Jin, and Lao Jin's expression was very solemn.

Gu Shinian always had a premonition that the safe would not be so easy to open without a key.

Fortunately, he and Lao Jin had a second plan. If they were careful at night, they should be able to get the things out.

"Second brother Gu, can I help? With me here, you don't need to unlock the lock, just put it on the ground to pick up the treasure."

While Yun Chang was speaking, she hung her hands on Gu Shinian's shoulders, as if she would hold back when he shook his head.

How could Gu Shinian not know Yun Chang's temperament, so he didn't say a word, he lifted Yun Chang up by the waist with his long arm, and she squatted on the ground even if she wanted to play tricks, but her feet couldn't reach the ground.

Just like that, Yun Shang was carried by Gu Shinian for dozens of meters, and finally spoke with drooping eyebrows and mouth.

"Second brother Gu, I'm not going. I'll wait for you in the hotel at night, and I promise not to run around."

Brother Gu is getting more and more uninteresting.

When I was young, I could play tricks on him, but now that I'm older, he doesn't even give her the chance to cheat.

Thinking about it now, Comrade An Guosheng's "little old-fashioned" is still fun. Every time she says a few words, the tips of her ears turn red with anger. She is so sulky in life, it is so cute.

Gu Shinian didn't know that his position in Yun Shang's heart had dropped. Seeing her begging for mercy, he let go of his arm in a very happy mood, then shook her hand and walked forward.

Yunshang pulled the scarf to cover most of her face, looking at the surrounding streets with interest, "Second Brother Gu, where are we going?"

"Don't you want to help? I won't take you there, do you know where to help?"

Yun Chang's eyes lit up, she hugged Gu Shinian's arm, and rubbed her head vigorously.

She decided to take back her previous words!

Second brother Gu is still the cutest and funniest person in her heart, a hundred times more fun than the 'little old-fashioned' of An Guosheng's family!

The two went down the street, entered the downtown area, and walked through a thick snow-covered alleyway to the back of a house with high walls painted ginger.

In the corner of the wall, there is a large piece of cherry blossom treetops with clusters of flower bones. The turmeric and tender powder reflect each other, like a corner of a picture scroll carefully drawn with a brush, so beautiful that people can't help but think about the beautiful scenery inside the wall.

Seeing Yun Shang staring blankly at the wall in front of him, Gu Shinian shook her hand, walked slowly towards the front door of the house, and whispered, "A-Shang, this is the house. This is the back of the house, the front door The main entrance is on the street."

Yunshang's eyes flickered, and she looked back at the cherry blossom branches protruding from the corner of the wall, and asked Gu Shinian, "Second brother Gu, tell me, how about I remove all the cherry blossom trees in his yard?"

Gu Shinian was once again overwhelmed by Yun Shang's open mind.

What is this operation?

I have seen people stealing money, goods and people, but I have never seen someone stealing other people's gardens.

Just thinking about the family's confused expression when they woke up and found out that the cherry garden at home had been stolen overnight, Gu Shinian wanted to laugh.

His little sister is such a treasure!

The two wandered around the house, Yun Shang had a rough idea, dragged Gu Shinian to the busiest street in front, and whispered: "Second brother Gu, I saw the safe. It's pretty big."

A safe about the size of a single bunk bed, there must be a lot of treasures in it.

Maybe it contains a lot of gold jewelry!

Hiss, I want it!

The kind that is moved together with the big safe.

"This kind of safe is custom-made." Gu Shinian dragged Yunshang to avoid the pedestrians coming from the opposite side, and continued,

"The key was carried by the man. Uncle Jin means that he will try to unlock the lock at night, and if it doesn't work, he will find another opportunity to steal the key."

Yun Chang lowered her head, rubbed her toes on the ground, then raised her head to look at Gu Shinian and said, "Second Brother Gu, I want that safe."

Gu Shinian: "..."

Gu Shinian was speechless. After being silent for a long time, he took a deep breath and said in a calm tone, "A Chang, I think you like that yard quite a lot. Shall we move the whole house?"

Yun Shang naturally heard that Gu Shinian was talking ironically, and did not defend herself, and replied according to Gu Shinian's words, "I want to come, but with my ability, I can't steal a house, at most half of it. "

The corner of Gu Shinian's mouth twitched a few times, and he looked down at Yunshang with an indescribable expression on his face.

"A Chang, be obedient."

"Oh." Yunshang languidly, responded with a sleepy voice, and then asked, "Second brother Gu, what should I do to help at night?"

"Take the key. The lock may not be easy to open. Help Uncle Jin take out the key."

Yun Chang has a space, and there is ether spray in the space, so getting the key is a breeze.

If it wasn't because he took over Lao Li's job and was responsible for meeting Lao Jin outside, he wouldn't have the opportunity to go inside, and he wouldn't let Yun Shang go.

It's not that Gu Shinian doesn't believe in Lao Jin's ability, but that they don't have time to waste.

Several people came here with the crew, and they will stay here for a month at most, maybe less than a month.

During this period of time, it was not an easy task for several people to accurately find the buyer Luo Hai was talking about in the vast crowds of foreign countries with a name and a few simple appearance descriptions.

Although they found one person on the first day they arrived in country R, no one can guarantee that they will find the second and third person smoothly.

Therefore, every minute and every second they spend here is precious, and they cannot afford to waste it.

...

It was getting late, and the two of them found a place to have lunch at random, and then walked around the department store in front of them. They didn't buy anything, and left the department store with a sullen face.

Thinking of the various home appliances displayed on the electrical appliance counter, as well as the endless stream of buyers, Yun Shang felt very heavy.

For the first time, she really felt that country R had begun to enter the era of rapid development, and was stepping up its pace, leaving several surrounding countries far behind.

Rice cookers, refrigerators, TV sets, air conditioners, vertical stereo sets, and microwave ovens, etc. These household appliances that are very common in later generations have officially entered the households of ordinary people in country R at this time.

In China, only the Friendship Store can see the shadow of home appliances. Even because other countries have imposed blockades on the country, most of the home appliances in the Friendship Store are outdated products eliminated abroad.

Chapter 526 little helpers help a lot

Gu Shinian knew what Yun Shang was thinking, held her hand tightly, and said in a low and forceful voice: "A Chang, you don't need to go into a corner, you will catch up."

In another parallel world, the development of the country can catch up with the world's first echelon of developed countries, and even surpass the past. It makes no sense to change the world and fail to catch up.

In fact, there are hundreds of books on military industry, technology, and agriculture handed in by the two of them in this world. The future development of the country will only be faster, better, and stronger.

Yun Shang nodded, hooked Gu Shinian's arm, and said angrily, "Second brother Gu, I think stealing gardens is too weak, I should go to the reference room of those electrical and automobile factories for a stroll! "

The expression on Gu Shinian's face distorted again.

He felt that Yunshang's three views were getting more and more crooked, and his courage was getting bigger and bigger.

Yesterday I wanted to vacate the museum here, but today I set my sights on the reference room of the electrical appliance factory and the auto repair factory.

However, why does he have the urge to visit the data rooms of these manufacturers?

Seeing that Gu Shinian's face was not very good-looking, Yun Shang sighed and comforted Gu Shinian, "Second Brother Gu, don't be afraid, I'm just talking."

It's really just talking, I will never sneak out in the middle of the night to do big things!

.....

Thinking about the action at night, the two went back to their rooms to rest after returning to the hotel to prepare for the action at night.

At night, a few stars could still be seen in the sky. In the middle of the night, a wind blew up outside, and the thick clouds covered only a few stars, and the whole land fell into a dark silence.

Hearing the low rattling sound of the shoji door next door, Yun Chang slowly opened her eyes, and cautiously poked out her mental strength, only to find that Lao Jin and Gu Shiqing walked out of the room quietly, groping for the backyard quietly, Prepare to climb out of the wall of the small hotel.

Yunshang quickly entered the space, put on her clothes, and used the space to flash out of the small hotel gate. Before the two of them, she quickly rushed to the cherry blossom garden that she was thinking of moving away.

When she arrived at the place, Yunshang first took advantage of the space and sprayed all the rooms with ether spray, then unleashed her mental strength, hooked the keys from the clothes hanging in the cabinet by the host, and placed them neatly on the tatami mat in the study. On the square table in the middle.

Just turning around to go to the backyard, and worried that only the finger-length keys on the square table were not conspicuous enough, and Lao Jin would not notice, Yun Shang simply inserted the key into the safe, nodded in satisfaction, and then turned to collect the keys she had already paid for. The optimistic cherry tree has gone.

By the time Lao Jin and Gu Shinian rushed over, Yunshang had already moved more than 20 cherry blossom trees in the backyard into the space.

Mental power detected that Lao Jin and Gu Shinian entered the yard one after the other, Yun Shang appeared outside the wall and ran back the same way.

When Gu Shinian was waiting outside, he turned to the backyard and took a look. Seeing that the cherry blossom trees that had filled most of the backyard had disappeared, he knew that Yunshang had arrived.

At the same time, Lao Jin, who sneaked into the study room and was about to try his best to open the safe, almost went crazy with joy when he saw the key inserted in the safe door.

Didn't the family members know that he was coming to retrieve the cultural relics, so they took the initiative to leave the key here so that it would be convenient for him to do it?

Chapter 527 Success

The corners of Lao Jin's mouth twitched a few times, and then he opened the door swiftly and took something, while boasting a few words to himself in his heart.

Look at his luck, it's really amazing!

On the first day of my arrival, I found the whereabouts of six cultural relics. When I started, the other party carelessly forgot to pull out the key of the safe. this side.

Lao Jin carefully packed the six cultural relics into the cotton bags prepared in advance, and carefully checked the other antiques in the safe. Lao Jin unceremoniously packed and took away all the things that belonged to Huaxia...

After returning to the hotel, Lao Jin and Gu Shinian ignored the rest and sorted out the things they brought back.

In addition to the six cultural relics he was looking for, Lao Jin also brought back two bronze tripods, a porcelain bowl, a nine-tailed phoenix hairpin, and a jade ruyi.

Looking at the things on the table, the expression on Lao Jin's face was very gloomy. After a long time, he lit a cigarette, took a puff, and said in a slightly hoarse voice, "Xiao Gu, tell me, what are these bastards? How many treasures have been stolen from us? These are all things left by our ancestors, how can they fall into the hands of outsiders..."

Gu Shinian's heart was also very heavy, thinking of the total number of cultural relics living abroad calculated by another world, that number is really shocking, enough to hurt the hearts of every Chinese.

It wasn't that Lao Jin wanted Gu Shinian to reply, but he just complained when he saw so many treasures belonging to the country in the hands of an ordinary R countryman.

When the complaints are over, he will still pack up his mood as before, and continue to take home the treasures that belong to the country, one by one.

After Lao Jin finished smoking, he helped Gu Shinian to put away these cultural relics and pushed them to Gu Shinian's hand, "Let Yunshang put them away tomorrow... By the way, I will tell Yunshang about the preciousness of these things tomorrow, and let Yunshang know how precious these things are." Chang try not to go out these few days, and must keep things safe."

Gu Shinian nodded with a smile, "Uncle Jin, we've lived together for so long, don't you know how well Ah Chang hides things? As long as she hides them, none of us can find them. Don't worry, Ah Chang Shang knows the severity."

Lao Jin also laughed.

I remembered that I accidentally offended Yun Shang when I spoke last time, but the girl went to his room without saying a word, took away his favorite tea, the lighter he used to use, and the suitcase for changing clothes, and hid them all.

He, Lao Li, and Chen's mother searched for three days. They searched the whole small bungalow, almost digging the ground and prying the floor, but they couldn't find it.

It was summer at that time, he was running outside all day, busy looking for clues, doing tasks, and the sweat on his body was three layers every day, but he let Yun Chang not change clothes for three days, in the end, that The smell of sweat on the suit made him almost breathless.

Later, it was Yun Shang who thought he smelled bad and couldn't stand it anymore, so he showed kindness and returned the things to him.

It was also after that beating that he and Lao Li knew that the little girl was also hiding something.

Think about it too, if you don't have any real skills, how can the organization arrange for a little girl to come out to participate in such an important task.

It is said that people are smart and clever, and they can help them cover when they encounter troubles, but the most indispensable thing in this matter is smart people, why did this job just fall on her head?

In the final analysis, it is still a matter of personal ability.

Chapter 528 It's going to the sky!

After recovering the six cultural relics, Gu Shinian and Lao Jin traveled every day in this international metropolis to inquire about the other two buyers.

Yunshang is not very interested in this country, and has no desire to go shopping. Every day, she either sits in the small courtyard of the small hotel, staring at the few cherry blossom trees in a daze, or runs to the kitchen of the small hotel, learning R language. Under the pretense of using the cover, he inquired about the location of the electrical appliance factory and the automobile factory, and secretly learned how to cook by the way.

In just a few days, under the witness of Lao Jin, Yun Shang went from not knowing a word of R to being able to have a simple conversation with the hotel owner.

And her such a strong learning ability also made Lao Jin amazed and eye-opening.

Unlike Yunshang's smooth learning journey, Gu Shinian and Lao Jin have been somewhat frustrated recently. It has been a full ten days, and the two have not found any buyer's whereabouts.

After Lao Jin frowned and returned to the room, Yun Shang grabbed Gu Shinian and dragged him out of the hotel.

"Second Brother Gu, I've found out the locations of several car brand manufacturers, and three home appliance factories. I've found out all about them!"

When Yun Chang spoke, her expression was serious and her tone was very solemn. Gu Shinian knew that Yun Shang was just informing him now, not asking for his opinion.

Even if he doesn't agree with Yun Shang to take risks, she will act in private.

Gu Shinian lowered his head, pondered for a while, dragged Yunshang to the hotel, "Go back first, Uncle Jin is the person in charge, we have to discuss this matter with Uncle Jin. Otherwise, even if we get the materials, we will We have to find another way to pass it on."

Yun Chang felt relieved, with joy on his face.

As long as Gu Shinian agrees, he will find a way to convince Lao Jin that with the approval of Lao Jin, the leader, the information she 'takes' will be handed over to the top for research by the specialists in the base. .

Back at the hotel, Gu Shinian closed the door and talked with Lao Jin for a long time, and when he came out again, he smiled and nodded at Yun Shang.

Yun Shang's eyes lit up, and she asked him with surprise, "Second Brother Gu, Uncle Jin agrees?"

"Agreed." Gu Shinian took Yunshang back to the room, and sat down facing each other, "But what Uncle Jin means is that the task of coming out this time is to find cultural relics, and everything else has to be compromised for the task.

On the premise of not affecting the mission, he agrees with our actions, and will help us type a report when we go back, and will also help to submit the materials to the above. It's just that he doesn't participate in this matter, and I can't affect the progress of the task because of this matter. "

Yun Chang's face was slightly moved, she was silent for a while, and then said in a low voice, "Second Brother Gu, Uncle Jin is a good person."

He is a true gentleman!

To put it bluntly, Lao Jin did not do him any good. If something goes wrong, Lao Jin, as the person in charge of the task, has to take responsibility, and if it succeeds, Lao Jin has no credit for it.

Only a person like Lao Jin who has family and country in his heart and great love in his heart can be so selfless and generous, and live so purely.

Gu Shinian lowered his eyes and sighed, "Ah Chang, there are many people like Uncle Jin in the organization..."

So, why worry that the motherland will not be strong?

Yunshang nodded, and said to Gu Shinian, "Second brother Gu, don't worry about this matter, I will do it myself! You can follow Uncle Jin to find someone. I have seen that the corners of Uncle Jin's mouth are growing anxious these two days. It's burnt."

There is space, Gu Shinian knows that Yunshang will not be in danger, and it is even safer for her to act alone.

It's just that although he knew it in his heart, he still couldn't help worrying about her.

Gu Shinian sighed, raised his hand and rubbed Yunshang's head, "Okay. I'll take some time tomorrow to take you on a run to those factories, and pay attention to safety when you go by yourself at night." Don't talk to Erha It seems that as soon as no one is in charge, he let go of the fun.

When Yun Chang heard this, she became excited.

Brother Gu is gone!

He gave up! ! !

She can finally do big things by herself! ! !

happy! Excited!

At that time, she will definitely install ten or eight cars,

Return to the country and throw it in the base, let the experts dismantle it for fun!

There are also refrigerators, air conditioners, TVs...

Seeing the changing expression on Yunshang's face, Gu Shinian knew that she was thinking about ghosts in her heart again. He pinched Yunshang's face and pulled it, and told her in a very solemn voice: "Ah Chang, remember , only take materials! Other things, such as cars, refrigerators, air conditioners, and big things are not allowed!"

Yun Shang: "..."

Brother Gu, you are a devil! ?

Yunshang wrinkled her face, humming and chirping, "Second brother, can't you only use the rice cooker?"

Seeing that Gu Shinian was stern and silent, Yun Shang continued, "Second brother, why don't I take more electrical appliances and tell Uncle Jin that I bought them when I come back. When we return to Hong Kong City, we can let Li Uncle sent the things back to study."

When they returned to Hong Kong City, it happened to be the end of March, and the Canton Fair will be held in China in April. At that time, these electrical appliances can be brought back to China with the help of Lujia Commercial Bank. What a great opportunity.

Gu Shinian rubbed the center of his brows with a headache, and said to Yunshang, "Ah Chang, you can take these things back now, and they can only be studied in China for the time being, and cannot be put into production."

The reason is simple: the quality of the steel is unqualified!

After hearing the reason, Yunshang cheered up instantly, "Second brother, don't worry, I'll go out tomorrow and ask someone about the location of the steel factory!"

Country R Steel Factory: "... " trembling!

Gu Shinian: "... " Sister, you are going to be turned upside down!

I originally thought that by explaining the reason, it would save my sister a little trouble, but in the end, she has a new goal to do something about!

Stuffed!

This sister is really... going to heaven!

"A Chang, if you get back so much information at once, the organization will think you are a rare talent, and there will be a steady stream of tasks assigned to you in the future." Gu Shinian smiled standardly and said in an exaggerated tone, "Congratulations, A-Shang, you will soon be promoted and raise your salary, and you will reach the pinnacle of your life from now on!"

Yun Shang: "..."

Seeing that Yunshang seemed to have been struck by lightning, she was directly stunned, and Gu Shinian continued, "Ah Chang, the information on the steel factory, the information on the car engine, the information on the TV, refrigerator, air conditioner and other home appliances, these are not enough to reflect your If you don't have the ability, you should go to the textile factory and the paper factory again, and you have to get back a hundred or so documents, so that you can reflect your value and let the organization value you enough."

Yun Shang: "...!!!"

Seeing that the smile on Gu Shinian's face gradually disappeared, and his face darkened bit by bit, Yun Shang hurriedly sat upright, stretched out his hand obediently, and assumed the posture of being beaten.

Gu Shinian did not soften his heart, so he slammed down with a ruthless hand, only to hear a "pop", and Yun Chang's palm turned red.

Chapter 529 Understand the mind

Gu Shinian did not soften his heart, so he slammed down with a ruthless hand, only to hear a "pop", and Yun Chang's palm turned red.

Yun Chang's eye circles turned red, and her palms were so numb that she almost lost her intuition, as if densely packed with needles.

"Do you know it's wrong?" Gu Shinian asked coldly.

Yun Chang nodded obediently, her mouth shrunk, closed, shrunk, and then closed again, and finally couldn't help it anymore, she pursed her mouth, and tears fell down.

Seeing Yun Shang crying, Gu Shinian raised his arm subconsciously, then retracted it immediately, and continued to remain silent with a cold face.

Yun Chang wiped away her tears, and took a peek at Gu Shinian. Seeing that he was still looking gloomy and looking at her coldly, she was so frightened that she didn't even dare to cry.

He lowered his head and thought for a long time, then stretched out his other hand, cautiously flattering Gu Shinian, "Second Brother, I know I was wrong. If you're still angry, just slap me again."

Gu Shinian pressed down Yunshang's hand, leaned forward, and stopped at a distance of 20 centimeters from Yunshang, with a serious expression and serious eyes, "Yunshang, you are not a child anymore, you should be sensible. Since I If you can't listen to what you usually say, then I won't talk about you again..."

Hearing this, Yun Shang suddenly raised her head, opened her mouth slightly, her pupils constricted, surprised, and looked at Gu Shinian with a little fear, "Second, second brother, do you ignore me?"

Gu Shinian's expression remained the same, but his voice was still stern, "Your surname is Bai now, and my surname is Gu. Only Commander Bai and Captain Lin are qualified to control you. I'm an outsider, so it's better not to worry too much."

Yun Chang stared blankly at Gu Shinian's face, and couldn't believe her ears. There was only one thought in her mind, and that was... Gu Shinian didn't want her anymore.

Gu Shinian doesn't want her anymore! ! !

He didn't call her 'A Shang', he called her 'Yun Shang', and he even said he was an outsider... No! What he meant was that she was already an outsider to him!

Realizing this, Yun Chang's heart seemed to be pinched by someone, and she was pinched there all of a sudden. There was a cloud of turbid air in her chest, she couldn't go up or down, and she just lay there, making her breathless coming.

Gu Shinian's face was only a palm away from her, but Yun Chang felt that this face was far away from her. She couldn't see the original tenderness in his eyes, but could only see the coldness in his eyes.

Yun Chang moved forward subconsciously. Realizing that the two were too close, Gu Shinian's head tilted back slightly, but Yun Shang suddenly reached out, grabbed his collar, and bit Gu Shinian's nose.

"Gu Shinian! I've called you brother for so many years, and it's all for nothing?"

Yun Chang stared at Gu Shinian, her eyes seemed to be burning with small flames, amazingly bright, she spoke slowly, but said very seriously, "It's okay if you don't want me anymore, call me back! I've been calling you all these years How many times do you say brother, how many times do you call me sister! Otherwise, I will lock you up in the space for a lifetime!"

Gu Shinian covered his nose, annoyed and amused, endured and endured, and finally curled the corners of his mouth uncontrollably.

"A Chang, I'm afraid you forgot, your space... I can control it at any time." At that time, even the space will become mine, how can you lock me up?

Yun Chang was stunned, and after reacting, she realized that she couldn't be too strong, so she immediately changed her strategy, as if she had no bones, her arms were tightly wrapped around Gu Shinian's neck, and her whole body could not get off Gu Shinian's body.

"Second brother, I know I was wrong, don't ignore me... If you really ignore me, then I will, I will, I, I will sabotage your search for a partner every day from now on, and make you a bachelor for the rest of your life!"

From an angle that Yun Chang couldn't see, the corners of Gu Shinian's mouth curved even deeper, and his eyes were filled with a nearly pampering smile.

He held Yun Chang's body with one arm, and held Yun Chang's arm with the other hand, and said in a soft voice, "A Chang, let go first."

"Don't let go!" Yun Chang hugged her even tighter.

Being hugged tightly by Yun Shang's soft arms, Gu Shinian's heart couldn't help softening into a puddle of spring water, his eyes filled with distress and pity, regretting that he had spoken too hard and made Yun Shang feel wronged.

"A Chang..."

As soon as Gu Shinian opened his mouth,

It was interrupted by Yunshang's low whisper, "Second brother, you can't let me go, I only have you, I have always only had you..."

Gu Shinian was most afraid of Yun Shang's appearance.

When she whimpered and cried and complained to him about her grievances, he could dig out his heart and give it to her.

Hearing her crying and saying that she couldn't let her go, Gu Shinian once again realized that he had done something stupid and said something wrong, forcing Yun Shang to use the ultimate move to deal with him.

He opened his mouth and turned his head to the side, wanting to say some soft words to coax Yunshang, but he couldn't utter a single word, so he could only lower his head and kiss the top of Yunshang's head one after another, to comfort her Emotions.

Feeling Gu Shinian's tender and loving emotions, Yun Shang's heart, tightly held by the unknown hand, finally regained her freedom.

She turned her head, buried her face on Gu Shinian's neck, rubbed it like a kitten, and responded to Gu Shinian with body language, she felt his heart.

The Adam's apple was rubbed against Yun Chang's soft cheeks, and Gu Shinian's body tensed up, his throat moved, and his heart beat violently, like thunderstorms in his head, he could even hear the blood The sound of gurgling in the veins.

For the first time in his life, Gu Shinian stood there in a daze at a loss, and after a while, as if realizing something, he slowly turned his head and looked down at Yun Shang on his shoulder.

"A-Shang, I take back what I just said."

After finishing speaking, Gu Shinian stopped pulling Yun Chang's arm, and the arm around her fell down, hugging her back, rubbing his chin against Yun Chang's head, with an unbelievably gentle expression on his face.

Yun Shang didn't realize what was wrong with Gu Shinian, moved her head again, and asked, "Is it just taking it back?"

Gu Shinian laughed, his voice was low and rang in Yunshang's ear, "I will never say such things to you again."

Yun Chang is satisfied.

It's just that when I thought about the pain I felt when I heard Gu Shinian's words, I still felt wronged in my heart, so I immediately moaned and acted like a baby, "Second brother Gu, I still feel uncomfortable, especially wronged!"

Gu Shinian touched his nose, lifted Yun Shang's chin, forcing her to look up at him, "A Chang, look at my nose, are you still wronged?"

Seeing that there were two deep tooth marks on Gu Shinian's straight nose, which were not broken, but a little red and swollen, Yun Chang blushed, and lowered her head a little guilty, her little head rubbed against Gu Shinian's neck again and remained still.

"Second Brother Gu, does it hurt?"

Gu Shinian smiled, "Fortunately, the bite is lighter than last time."

Chapter 530 show their skills

Yun Shang remembered the scene of the two quarreling in the space last time when Gu Shinian was about to send her back to Bai's house.

Thinking of Gu Shinian's face being bitten by her that time, Yunshang's face burned even more, and she rubbed her head against Gu Shinian's neck again, apologizing to him wordlessly.

The smile in Gu Shinian's eyes grew stronger, he raised his hand and patted Yun Shang's head, signaling that it was time for her to let him go.

If he hugged her any further, he might scare her again.

"Second brother..."

As soon as Yun Chang opened her mouth, Gu Shinian stopped her from speaking, "A Chang, remember to bring your surname when you call me from now on."

Calling 'Second Brother' again will make him feel guilty.

Yun Shang frowned, and asked reluctantly, "Why? Second brother Gu is not as close as second brother, I like to call you that."

But I would feel like I was incest!

Gu Shinian lowered his voice and coaxed her, "A Chang, if you call Big Brother Bai Qingzheng, Little Brother Bai Qingming, and my Second Brother, it will make me feel that I am in your heart just like your two older brothers." position. I'm not your closest person anymore."

Upon hearing this, Yun Shang felt that what Gu Shinian said was too reasonable.

Originally, she and Second Brother Gu are the closest people to each other, and each other will always be number one in my heart.

Second brother Gu calling her is different from others calling her, no matter what, she has to give second brother Gu a unique name to match his status in her heart.

You can't call Gu Shinian's second brother the same as calling Bai Qingzheng and Bai Qingming.

"Second Brother Gu, I see."

Gu Shinian thought for a while, and gave Yun Shang another opinion, "A Chang, if you don't feel close enough to call Second Brother Gu, you can call me by my name in private..."

Seeing Yun Shang's eyes widened, Gu Shinian smiled, stretched out his hand to caress the corner of Yun Shang's eyes, and continued, "Don't you think it's a disadvantage to call me brother for so many years? If you call me by my name in private in the future, if I provoke you again If you are angry, you won't feel wronged when you think about it."

Yun Shang: "... " That makes sense!

However, if she really yelled, would Second Brother Gu retaliate against her?

Or, try it?

Yun Chang pursed her lips, swallowed again, and bravely said, "Gu Shinian!"

Gu Shinian: "... " This fierce tone, dry tone, seems to be calling an enemy, but how can it be called... a lover?

It seems that there will be more practice in the future.

Thinking of the word 'lover', Gu Shinian coughed uncomfortably, lowered his eyes, and avoided Yun Shang's sight.

Yun Shang also felt that she yelled "Gu Shinian" just now too fiercely. After thinking for a while, she tried to squeeze her throat again, and said in a pretentious manner, "Gu Shinian~!"

Gu Shinian: "... " This, this... can't be adjusted.

When he yelled out, Gu Shinian didn't respond, but Yun Shang almost choked on his own saliva.

I couldn't help but raised my hand to pinch my mouth, and pulled it hard.

What is wrong with learning, why do you have to learn this tune?

It's over! Brother Gu will definitely think that she is seriously ill.

Gu Shinian was amused by Yun Shang, pulled her hand away, rubbed the corners of her red lips, and said with a smile, "A Chang, practice more in private from now on."

Yun Shang was completely confused by Gu Shinian. He didn't know what kind of medicine he was selling in his gourd. Why did he suddenly have so many strange requests, and she called him by his name, and he still laughed so happily? .

It's like... taking the wrong medicine.

After Gu Shinian left, Yunshang lay alone on the bed, tossing and turning, unable to fall asleep, thinking about why Gu Shinian suddenly fell ill today.

He even covered his head with a quilt, and called Gu Shinian's name a hundred and eighty times, trying to make sure that the next time Gu Shinian asked her to call her name, she could shout it crisply and nicely.

The next morning, Yunshang got up late.

After washing up in the room and coming out, it was almost time for lunch.

Yun Shang was about to go to the kitchen to see what to eat today, when Gu Shinian came back from outside, put his arm around Yun Shang's shoulders and walked out the door.

"Let's go, I'll take you to eat delicious food, and I'll take you to shop after I'm done."

When Yun Shang heard this, she immediately regained her energy. She hugged Gu Shinian's arm behind her back, and asked him with a surprised face, "Second Brother Gu, tell me first, where are you going to take me to visit?"

"I went to all the factories you mentioned yesterday, as well as the steel factory, and I will take you there to see the way."

Speaking of which, Gu Shinian held Yunshang's hand, lowered his voice and said, "Ah Chang, my suggestion is that you can get a copy of the information of the steel factory, as well as the information of the car, the key is the information of the engine. You can find a copy. You can pick one or two of those electrical appliances and it's almost the same."

Yun Shang nodded, and also expressed her opinion to Gu Shinian, "I will tell Uncle Jin that you brought me to get these materials at that time."

Anyway, she doesn't need any credit, so she should put all the blame on Second Brother Gu, so that she can still be lazy in the future.

For meritorious service or something, it's better to let the second brother Gu do it.

After the two of them had lunch, Gu Shinian took Yunshang to the suburbs. After spending an afternoon, Yunshang finally wandered around outside several factories.

At night, when Gu Shinian and Lao Jin were going to watch people, Yunshang went out alone, released the car in the space, and drove to several factories following the memories of the day.

There are guards on duty in the factory, workers on the night shift, security guards on patrol, and even technicians working overtime in the office building.

Yunshang used the space to avoid people, moved into the factory office building bit by bit, and started her own search business.

There is space, and when encountering someone's office, Yunshang doesn't even need to leave the space, and directly uses her mental power to take the materials from the drawers of the cabinets into the space without anyone noticing.

In addition, there is a time difference between the space and the outside, and Yunshang is not worried about the time. People outside will find that important technical documents are lost, so they sit leisurely in the office, and the documents are copied one after another. .

Of course, these things can't be taken out directly. She just keeps them in the space as backup files, in case there is an accident during the process of submitting the materials to the organization. There is no remedy on her side.

After copying, Yunshang spread the documents one by one on the desk, took out the camera and clicked to take pictures, and prepared to hand over the developed photos to the organization.

Yunshang worked alone for two nights, and finally got all the information she wanted, and then went back to the small hotel, locked herself in the room, entered the space, and started cleaning photos in large quantities.

Just when everything was going well with Yunshang, Gu Shinian and Lao Jin also successfully traced the news of the second buyer. After confirming the other buyer's location, the two planned for a few days and recovered seven cultural relics.

So far, several people needed to recover the cultural relics that were left in country R, and there were only three pieces left, and the news of the third buyer was also revealed.
