

## Thrive 65

### Chapter 65 Action

The nurse listened to Yunshang and praised her for her good work attitude, and laughed even more happily. She squatted in front of Yunshang, took out an orange candy that she had hidden for several days and was reluctant to eat, peeled off the candy wrapper, and stuffed it into Yunshang. Chang's mouth.

"Sweet? Is it delicious?"

The sweet orange flavor spread on the tip of the tongue, Yun Chang nodded with his eyes bent, "Sweet! Thank you, sister nurse, I have toffee, give my sister a toffee!"

Yun Chang said, and took out a big white rabbit toffee, and neatly peeled off the candy wrapper and stuffed it into the nurse's mouth.

"Sister Nurse, is toffee sweet?"

The nurse was stunned. Half of the toffee was in her mouth and half was exposed. She didn't know if she should eat it or not.

This toffee is an expensive thing, at least more expensive than the orange candy she was reluctant to eat.

She is an adult, how can she take advantage of children?

But if you don't eat it, half of the toffee is in your mouth, do you want to spit it out and give it back to the little girl?

The nurse was half-squatting in front of Yun Chang at this moment, with one hand on her knee, her drooping fingers were slender and slender, very beautiful. The only drawback was that the skin on her hands was not delicate enough.

Yun Chang didn't expect that this little sister nurse would actually have a pair of hands that would not lose to the hand model of later generations. She had serious hand control, and when she saw the

beautiful hand in front of her, she was careful that her liver jumped twice, and one couldn't hold back. Paws touched it.

The nurse felt hairy on her hands, and looked down, a small paw was blatantly rubbing against her hand, and then looked at the owner of the small paw, seeing Yunshang smiling sweetly at her with a small face.

"Sister Nurse, eat the toffee now, it's so sweet! I still have it after I finish it!" Yun Chang said and took out two more toffee from his pocket.

Seeing this, the nurse was not so entangled anymore. She put the toffee in her mouth, dragged her a few steps to the side, and said in a low voice:

"Children, don't dare to tell others that Director Zhou is fierce in the future, and don't play next to Director Zhou's office. She is in a bad mood recently. If she bumps into her, she will be scolded, you know?"

"Well, I see, thank you Sister Nurse!" Yun Chang smiled and nodded.

The nurse should be very busy. After talking to Yun Chang, she ran downstairs in a hurry. Yun Chang watched the nurse disappear into the stairwell. She didn't have time to feel sorry for the beautiful hand she couldn't see, and ran back to Gu Shinian.

There are not many wards on the fourth floor of the hospital. There are only a dozen or so wards that are single-person wards. It is probably the reason why there are so few patients in single rooms. The corridor is very quiet, and only a few family members of the patients are active in the corridor.

"Second brother Gu, that's Zhou Mingjuan's office. The fierce woman who was walking in the demon just now is Zhou Mingjuan!"

Yun Chang despised Zhou Mingjuan very much. A mistress who broke her shoes with a married man and finally entered the house and forced her ex-wife and the child of her ex-wife out of the house, what a good bird.

"Speak well!" Gu Shinian reached out and tapped Yunshang's forehead. Seeing her covering her forehead and staring at him, he smiled and touched her head, "Let's go, while there is no one, go in and put the recorder on. it is good."

Yunshang has space. Once Zhou Mingjuan comes back, the two can enter the space at any time, but they don't have to worry about being blocked in the office.

Gu Shinian was very daring, took Yun Chang's hand, and regardless of the patient's family members coming out to get hot water at the end of the corridor, he knocked on the door generously, and after confirming that there were no other doctors inside, he pushed the door and walked in.

Zhou Mingjuan's office is not big. A desk and a wooden cabinet with a lock take up half of the office space.

The most eye-catching thing in the room is the pen holder with two pencils inserted in the corner of the desk. It looks like it should be made of bamboo, but it is covered with a layer of beige cotton cloth embroidered with small flowers, which looks quite elegant.

Yun Chang pouted and said truthfully:

"Second brother Gu, Zhou Mingjuan is not very good, but he understands the taste of life quite a bit."

Right! If Zhou Mingjuan does not understand the taste of life, like Zhang Chunni,

Gu Huaqing would not be fascinated by the Iron Lady who tossed herself into a work unit, and would do such beastly things as breaking her shoes and abandoning her wife and children for her.

Yun Chang bent her lips and felt that Zhou Mingjuan's petty bourgeoisie style was quite good, and she had to continue to maintain it. It is best that all the doctors and nurses in the hospital know that Director Zhou is a delicate person, and is used to living a delicate life with a petty bourgeoisie. In this way, when you are criticized for a few years, you can still be charged with one more crime.

Gu Shinian took the transparent glue, stuck a recording pen that was less than three centimeters long on the bottom of the cabinet, and let Yunshang put the leather bag locked in the cabinet into the space through the cabinet door, and then followed Yunshang into the space. .

Zhou Mingjuan's leather bag should have just been bought. It is a bit like the men's briefcase of later generations. The condition looks very new, the leather is not too soft, and it smells of faint leather.

The contents of the bag are also very simple, a bunch of keys, a pair of gloves, a hospital seal, an aluminum lunch box, a box of snow cream, a small leather wallet, and a few bills and change in it.

Gu Shinian reached out and touched the interface of the leather at the bottom of the bag, and found that the leather at the interface is hard and the workmanship is not particularly delicate. be found.

Ordinary people take things from the bag and only touch the bottom, and they don't pay attention to whether there are other things on the bag.

Gu Shinian stuffed the recording pen, and in order to avoid accidents, he also used black cotton thread to hook two stitches, so that even if Zhou Mingjuan smashed the bag on the ground, the recording pen would not fall out.

"A-Shang, there should be a blank medical certificate on the desk, you can bring in a few."

The two found the seal of the hospital in Zhou Mingjuan's bag, and there was a blank medical certificate on the desk. When they came across such a good opportunity, they naturally had to save a few more blank medical certificates with seals in case they were needed someday. up.

Yunshang put the medical certificate in in the space, and watched Gu Shinian cover more than ten medical certificates in a row, only then did he leave the space, put the rest of the medical certificate and the leather bag back to their original places, and quietly opened them again. The door slipped out.

After leaving the hospital, Yun Chang pulled the bottom of Gu Shinian's clothes and said:

"Second brother Gu, the nurse sister said just now that Zhou Mingjuan is in a bad mood recently. Do you think it's because Gu Huaiqing wants to pick you up and go back home?"

"It should be, I'll know after listening to the recorder in two days."

In fact, Gu Shinian also knew that Zhou Mingjuan would definitely be in a bad mood, but so what? Gu Guangzong's surname was Gu, and he belonged to Gu Huaiqing's blood. Whether she liked it or not, there was no position to prevent Gu Huaiqing's blood from returning to the Gu family.

What's more, Zhou Mingjuan has been married to Gu Huaiqing for eleven years and has not been able to give birth to a son.

Seeing that the Gu family was about to break down, and the network forces in the army had no successor, how could Gu Huaiqing not be in a hurry.

After all, he is almost forty, and he will not be able to sow seeds or give birth to a son.
