Chapter 78 The most intimate whistleblower

As soon as the two policemen entered the door, the aunt closed the door of the guest house neatly, and the counter was no longer guarded, and walked majestically in front to lead the way for the police;

"Comrade Public Security, the two enemy agents are upstairs in the east room. I'll take you there."

Yun Chang hurriedly slipped out of her seat and followed her with her short legs, preparing to watch the whole process of the public security comrades catching the enemy special.

Gu Shinian grabbed Yunshang by the collar, glanced at the counter, then looked at the closed door of the guest house, and silently picked up Yunshang and followed behind.

On the second floor, two public security officers saw the location of the room under the aunt's identification, then drove a few people downstairs and walked towards the end of the corridor with light footsteps.

Not being able to personally participate in the capture of the enemy special, the aunt was very disappointed, she retreated to the entrance of the stairs, and stuck out half of her head to observe the actions of the police comrades.

Yun Chang quickly pulled Gu Shinian back to the first floor, standing at the end of the corridor and poking out his mental power, wanting to check the situation upstairs.

Just looking at it, it almost scared Yun Chang's courage.

The two people who were hanging outside the wall had entered the next room 205. Among them, the little man was sitting on the bed wiping a palm-length dagger with a cotton cloth, and there was a pistol by his side. Scarface took off his cotton-padded coat, carefully removed the detonator-like thing tied to his body, put it in a cloth bag, and gently hooked it outside the window.

During the whole process, the two of them didn't speak, and there were only faint whispers in the room. If you didn't listen carefully, you would hardly notice that someone was hiding in the room.

At this time, the two public security officers had just checked into room 208. They did not know that the two enemy agents had settled in 205, which was separated by two rooms, and they did not know that the two were also carrying guns, knives, and high-risk items that were suspected to be explosives. .

Seeing everything in room 205, Yun Chang's heart instantly lifted.

At this point, she could already be sure that these two people were enemy spy elements, and they were also enemy spy elements related to the Beishan coal mine explosion!

Thinking of the tragic image of the ruins after the big explosion of the coal mine, and then thinking of the row of suspected explosive-like objects hanging out of the window with Scarface's face, Yunshang's back instantly oozes out a layer of cold sweat, and his face becomes pale.

Done!

The two police officers also had guns in their hands. If the two sides got into a fight and accidentally hit explosives, the entire hostel would be razed to the ground.

And the lives of all the people in the hostel, it is estimated that they have to be explained here!

Yun Chang clenched Gu Shinian's hand all of a sudden, the fear and anxiety in his eyes almost overflowed:

"...Second brother Gu, there are explosives upstairs! Let's go, let's go quickly!"

Gu Shinian was startled, glanced at the aunt who had retreated to the stairs on the first floor, hugged Yun Chang tightly and asked in a low voice, "Ah Chang, did you see clearly? Is it really dynamite?"

"Well, it really is! It's in room 205." Yun Chang was lying in Gu Shinian's arms, her body trembling unconsciously, "They still have guns on them, and the explosives are hanging out of the window! Comrade public security will immediately investigate the past. Now, if we get caught up in the fire later, we hit the explosives..."

Gu Shinian's expression changed, he put down his clothes and ran upstairs. After a few steps, he turned around and came back, kicked open the door of room 105, and gropedly pulled down the light cord beside the door, without looking inside. A few people opened their mouths and shouted:

"Get up quickly! There are enemy agents upstairs! There are not enough public security personnel now, everyone hurry up and help catch the enemy agents!"

It's not even twelve o'clock at the moment, plus the few people who live in the Chase shop dare to really fall asleep, and the light bulb suddenly lights up, plus Gu Shinian's voice, the people in room 105 instantly sober.

"Little comrade, which room is on the second floor?"

"Is there really an enemy?"

"How many enemies are there?"

"Little comrade, hurry up and inform the people in other rooms..."

...

People in this era have a characteristic, that is enthusiasm!

In particular, the Beishan Coal Mine just had an accident.

This is the time when people's anger towards the enemy special is high. At this moment, when it comes to the capture of the enemy special, almost no one will stand by and do not dare to stand by.

At this time, 105 people quickly put on their trousers, and they didn't even have time to put on their cotton-padded clothes, so they put on their shoes and ran outside.

In only ten seconds, room 105 ran empty.

Gu Shinian turned around and carried Yun Chang into the room, and said against Yun Chang's ear:

"A-Shang! Hurry up! Enter the space and try to put the explosives in! Hurry up!"

Yun Chang reacted instantly, dodged into the space, reached out with mental power, and easily put away the explosives hanging outside the window.

When he was about to leave the space, Yun Chang's heart moved, and his mental power was swept out again. He found that the little man had put down his dagger and was holding a pistol, pressing bullets one by one, and the scarred face on the side was also sitting on the bed. Same action.

Yunshang's spiritual power was divided into two strands, condensed into thin needles, and at the right moment, he stabbed the wrists of the two enemy agents.

The two of them shook their wrists, the guns in their hands fell on the bed at the same time, and then disappeared without a trace before their eyes.

What frightened them even more was that the bullets they had been hiding all along disappeared one by one.

After receiving the enemy's explosives and pistols, Yunshang was not satisfied. With a thought, he put away the dagger that the little man had wiped with a cloth before, and even when his mental power was withdrawn, he put the scarred face on the bed. The large padded jacket was also put into the space.

If it weren't for her mental power being severely overdrawn, Yun Chang would have wanted to condense her mental power into a whip and slap the two of them hard.

Gu Shinian was standing outside the door to let Yun Shang let out the wind. In just a few seconds, Yun Chang rushed out of the room and jumped directly into Gu Shinian's arms.

"Second brother Gu! Take it! All taken in!"

Gu Shinian breathed a sigh of relief, wiped the cold sweat on his head, and couldn't help but kissed Yun Chang's forehead fiercely:

"A Chang is amazing!"

"That's it!" Yun Chang asked Gu Shinian proudly, "Second brother Gu, I not only took the explosives, but also the guns in their hands, as well as daggers, bullets... and scars. The big padded jacket of the face!"

"..."

The corners of Gu Shinian's mouth couldn't help twitching a few times.

Ah Chang, did you hand over the enemy's special equipment?

This is simply to make the enemy half-crippled, so that it is convenient for one's teammates to steal the head!

"Second brother Gu, am I particularly smart?"

Yun Chang feels that she is simply awesome!

Not only smart, but also caring, directly giving the two police officers the great credit!

Where in the world is there a more considerate whistleblower than her?

"Little comrade, come here! There's a fight upstairs!"

The aunt shouted to Gu Shinian from a distance, followed the few people who went out from room 105, and ran upstairs.

Gu Shinian regained his senses and hurriedly stuffed Yun Chang back into room 105, "A Chang, explosives and guns are the evidence to convict the enemy, hurry up and find an opportunity to put them back!"
