

## **Titan King 44**

Chapter 44: Everything was going smoothly

In the succubus territory, inside the succubus palace...

Orion sat comfortably on a guest chair, with Dace, Otho, Beyn, and Torba standing behind him. Lysinthia was also behind him but stood a bit closer.

At this moment, a faint smile played on Orion's lips. He had to admit, Queen Delilah of the succubi was incredibly alluring—seductive and sensual.

She was a true beauty!

As the succubi in the palace sized up Orion, he too was observing them.

As the rumors said, most of the succubi wore revealing clothing, their bodies voluptuous and seductive, exuding a bewitching charm.

However, Queen Delilah and a few of the older succubus elders were dressed more modestly, with semi-transparent veils covering their breasts and hips.

"Welcome, giant knight of the Blackstone tribe, to our succubus domain!" Queen Delilah finally spoke after sizing up Orion.

Orion's height wasn't as towering as Queen Delilah had imagined. Compared to the other giants' massive physiques, Orion seemed a bit shorter.

However, Delilah could tell just by looking that this giant's penis was enormous. For some reason, Delilah felt a twinge of jealousy toward her sister. For succubi, being vigorously penetrated by a big and hard cock was one of the most exquisite pleasures in the world!

But the Abyssal Dragon Orion had ridden into the territory was no illusion. Its terrifying aura had swept through the succubus lands, making her people tremble.

So, for now, Queen Delilah set aside her sexual fantasies and maintained a polite demeanor toward Orion.

Orion stood up, performed a formal giant's greeting, and then gestured for Dace, Otho, Beyn, and Torba to bring in the gifts.

Soon, one by one, the packages were carried into the palace. The bundles were opened, revealing fresh meat and firestones.

After the display, Orion smiled and addressed Queen Delilah.

"In the Black Forest, these resources are the best gifts. A small token of appreciation, Your Majesty. Please accept them."

Queen Delilah maintained her smile. After nodding to one of the elders beside her, a group of succubus warriors stepped forward to collect Orion's gifts.

Once the packages were taken away, Orion continued.

"A territory is the foundation of a tribe's survival. When faced with foreign invaders, we must drive them out and teach them a lesson!"

"Your Majesty, the string of Buffalo Folk corpses outside the palace is my second gift to the succubi."

Hearing this, Queen Delilah's smile grew even wider.

"The marriage between the giants and the succubi will surely bring new changes to the Black Forest!"

After saying this, Queen Delilah clapped her hands lightly.

Then, a succubus dressed in a wedding gown, her face covered by a transparent black veil, was led into the main hall by two succubus elders.

"Dear Orion, this is my twin sister, Lilith, a royal succubus!"

Lilith, a royal succubus, was the one Orion was to marry.

Through the transparent veil, Orion could see Lilith. She was beautiful.

Lilith looked exactly like her sister, but compared to the queen, she appeared a bit more youthful. Her breasts weren't as large as Delilah's, but they were perfectly shaped, like enticing water droplets.

If Queen Delilah was the embodiment of mature sensuality, then Lilith was the epitome of youthful elegance.

In simpler terms, Queen Delilah exuded mature charm, while Lilith radiated a more delicate grace.

Of course, this was just the surface.

Orion knew very well that when it came to lust and love, every succubus was filled with passion.

The only difference was in how they expressed it!

"Lord Orion, I greet you!"

Orion nodded without saying much and made a gesture, inviting Lilith to sit beside him.

Once Lilith sat down, it would signify that she had become Orion's woman and was willing to accept him as her sole sexual partner.

There was no room for personal feelings here. In the face of tribal interests, all individual emotions had to take a back seat.

Under the watchful eyes of everyone, Lilith walked up to Orion, exchanged a glance with him, and then sat in the seat beside him.

Seeing this, Orion's smile widened.

Everything was going smoothly!

And all of this was supported by his immense strength.

Orion then turned to face Queen Delilah and spoke seriously.

"Your Majesty, here is my third gift!"

"As a member of the Blackstone tribe, I am more than willing to help the succubi drive your enemies out of your territory!"

As soon as Orion finished speaking, a stir spread through the palace.

"Orion, are you serious?"

The speaker was the most powerful elder among the succubi. She was older, and her aura was no longer seductive but rather clear and wise.

When Orion met her gaze, he could sense a unique intelligence.

"I never break my word."

Orion's response was directed at Queen Delilah, his gaze sharp and full of dominance.

"Then we thank you in advance, Orion!"

"If you succeed, I will have a great gift for you as well!"

"Good, it's a deal!"

With that, Orion stood up, wrapped his strong arm around Lilith, and, with a hearty laugh, carried her out of the succubus palace.

"Your Majesty, please lead the way!"

From outside the palace, Orion's voice echoed, requesting a guide, leaving the succubi inside hesitant.

"Let's go. We'll all go and witness Orion's strength and relive the terror and wildness of the Abyssal Dragon!"

Queen Delilah gave the order, and the group left the palace.

---

In a dense forest within the succubus territory...

The Buffalo Folk were in high spirits. The succubus lands were rich in large prey, and over the past few days, they had accumulated and transported a significant amount of food and furs.

\*Zzz!\*

Suddenly, a trident tore through the air and trees, impaling the strongest Buffalo Folk, pinning him to a massive tree.

"Buffalo Folk, leave all your supplies and return to your territory!"

\*Roar...\*

Orion's cold voice echoed from afar, followed by a terrifying dragon's roar.

\*Boom, boom, boom...\*

Heavy footsteps resounded as the Abyssal Dragon trampled through the forest, its wild aura sweeping across the area.

On the dragon's back sat two figures—Orion and Lilith.

Behind the Abyssal Dragon slithered a massive serpent beast, with Lysinthia standing atop its head.

"Enemy attack... Enemy attack..."

\*Moo... Moo... Moo...\*

It didn't take long for the Buffalo Folk to react. One by one, the strong Buffalo Folk charged fearlessly at Orion.

As they charged, their excitement and frenzy triggered their transformation, and in the blink of an eye, they turned into Berserk Bulls.
