## 132 Little Champ's miserable condition...

Elder Si took a few steps towards Little Champ, but Little Champ moved back towards the wall as if he wanted to bury himself in the wall.

"Little Champ, it's grandpa... You don't need to scare." Elder Si was assuring Little Champ.

However, Little Champ was still shivering "No, don't come towards me...you will kill me."

Elder Li immediately pressed the button of the bell to call the doctors, while Elder Si was trying to talk to Little Champ.

Dr Chen was standing near the desk on that floor and checking some files when the red light was blinking in the machine, as the indication of the bell pressed by the patient in case of emergency.

A nurse saw the room number for which red light was blinking and saw that it was Little Champ's room, so she immediately notified to Dr Chen "Dr Chen, I think there is some problem in room No 1705."

When Dr Chen heard the room number, he immediately ran towards the room. As it was Little Champ's room, he couldn't overlook Little Champ's condition.

Seeing Dr Chen was running towards the room, his assistant doctor exchange a look with the nurse and both of them ran after Dr Chen.

In a minute, Dr Chen reached in the room, his sight first went to the bed, but it was empty. Then he saw that glasses were shattered across the floor and Little Champ was sitting in the corner on the floor, with his knees in front of his chest and his arms on his chest in 'X' shape and he was crying and screaming "DON'T COME TOWARDS ME...YOU WILL KILL ME..."

Even, Mu Che came after finishing his call and when he heard the screaming of Little Champ, he swiftly went towards the room.

As soon as, he saw Little Champ miserable condition, he immediately called to Si Li.

Dr Chen and Elder Si were trying to go closer to Little Champ to calm him down, but Little Champ was constantly pushing himself in the wall and hurting his back as well and crying and screaming "DON'T COME HERE...YOU WILL KILL ME."

When Lu Lan came out of the elevator, she heard the scream of Little Champ, she immediately went towards the Little Champ's room.

Soon, Si Li came out of another elevator and heard the screaming of Little Champ and chased after Lu Lan.

"Little Champ..." Lu Lan called out when she reached towards the door of the room.

As soon as, Little Champ saw her, he immediately stood up and ran towards her "MOMMY..."

Little Champ didn't notice that glasses were still shattered on the floor and as he ran towards her, he stepped on the pieces of the glasses and some of the pieces went inside the flesh of his legs.

"LITTLE CHAMP..." Lu Lan immediately went towards him and held him in her arms.

He buried himself in her embrace and he was shivering badly and cried "Mommy, save me, they will kill me...I didn't save her..."

"Nothing will happen to you, Mommy is here. No one will kill you." Lu Lan patted his back and assuring him to calm him down

Si Li reached in the room, he saw that Little Champ's hands and legs were badly bleeding. Therefore, he immediately took the cotton from the nurse and pressed it on the Little Champ's hand to stop the bleeding and said: "Lan, take him on the couch NOW."

Lu Lan immediately sat on the couch while kept Little Champ on her lap.

Even Dr Chen was in the shock for a moment, seeing the miserable condition of Little Champ. However, he immediately came to treat Little Champ's legs as it was badly hurt.

However, Little Champ moved his legs away and didn't allow Dr Chen to treat him "No...Go away...Don't come towards me..."

Si Li was holding the Little Champ's hand and pressing the cotton on it to stop

bleeding and saw that Little Champ didn't scare from him. So, he immediately passed Little Champ's hand to Lu Lan "Lan...hold it tightly."

He pointed the cotton on Little Champ and moved away Dr Chen and sat on his place. As his legs had big cuts and it required immediate treatment.

Seeing that it was Si Li, Little Champ didn't move his legs away.

Dr Chen assisted Si Li to treat Little Champ's legs. Si Li was the part of the Underworld, so he knew how to treat the wounds.

Whereas, Lu Lan was constantly assuring by saying "Nothing will happen to you, Mommy is here. No one will kill you." and she was constantly patting his back with one hand and her other hand was pressing the cotton on his hand.

Little Champ was still shivering badly so they couldn't inject chloroform to make him unconscious, as they were afraid that while injecting the needle if the needle would be broken down then it would create another problem.

Therefore, Si Li was carefully taking out the pieces of glasses from the flesh of his legs, but still, it was hurting and Little Champ was crying at the top of his lungs.

Si Li told Lu Lan to turn Little Champ's head to the other side so that he couldn't see the blood.

Hearing his heart-wrenching crying, everyone's heart trembled. Therefore, no one moved an inch, as they were afraid that they would scare Little Champ. So everyone in the room was standing on their place.

Swiftly Si Li treated the wounds in his legs and then his hand and then his back.

Afterwards, they took him to another room, where only Si Li and Lu Lan was present with Little Champ.

Lu Lan was coaxing him to sleep, so that Dr Chen could check the condition of him after he fell in sleep. As Si Li had treated his wound, but still, Dr Chen had to check him and moreover, Little Champ had a high fever.

However, Little Champ didn't want to sleep, as he was still afraid that if he slept, they would kill him.

Even, he was still crying and saying that "Please don't kill me...I didn't save her..."

Even, tears were formed in Lu Lan's eyes, seeing Little Champ like this. Her heart

sank, but she controlled herself and was continuing assuring him "Nothing will happen to you, Mommy is here. No one will kill you."

Even, Si Li was feeling helpless. He tried to talk to Little Champ but Little Champ didn't listen to him as well. Si Li was so angry that he wanted to kill Mo Jinnan right away.

If Mo Jinnan wasn't his friend and Little Champ's second uncle, then Si Li would have killed him up till now.

Finally, after two hours, Little Champ felling in sleep, but still, in the sleep, his hand clutched the dress of Lu Lan.

Soon, Si Li called Dr Chen to check Little Champ.

Dr Chen checked Little Champ's condition and gave him the shot to reduce his fever and this time Dr Chen didn't inject IV tube in Little Champ's hand as he was afraid that after waking up what if Little Champ threw the tantrum again.

Afterwards, Dr Chen told Little Champ's condition to Si Li and Lu Lan "I think this incident is buried in his mind deeply and we need to start his psychiatrist treat again. Miss Lu, I advise you please don't leave his side for the next few days. I will come afterwards to check him again."

After Dr Chen left, Si Li went towards Lu Lan and hugged her and said: "Cry if you want to..."

As soon as, Si Li said, Lu Lan hid her face in his chest and quietly crying as she was afraid that her crying voice would wake Little Champ up.

Little Champ's miserable crying voice was still echoing in her ears.
