In an unknown city.

In the night

A car was passing through the trees in the jungle. The headlight of the car was not on. No one could drive the car in this dangerous jungle without the light. However, the man who was driving the car wasn't affected by the darkness. He was just driving the car in the fullest speed, without worrying that he might hit his car on the trunk of the trees or went in the wrong place.

After a while, the car stopped in front of the Villa in the jungle and the man turned off the engine. Now, there was silence in this jungle except the roar of wolfs and tigers, no other sound could be heard. However, these were the already dangerous voices that even a normal brave person would start shivering from the fear.

After a few minutes, the man got down from the car. The man stood in front of the villa and then he threw the butts of his cigarette on the ground and pressed it under his leg and went towards the villa.

The man stood outside in front of the door of the villa. The door's lock was covered with by spider's webs. Anyone who looked at the lock would be concluded that no one had opened this villa from the decades. However, the truth behind the villa was totally opposite.

It was the same villa where Liu Ruolan and Bo Xiao lived.

However, the man didn't open the door neither touched the door. He then walked towards the wall ten steps away from the door.

The man stood in front of the wall and raised his palm and put his palm on the wall. Nothing happened for the next 10 minutes, however, afterwards, a green light flashed and the wall moved aside to way a path.

The man stepped inside the wall and went inside the villa and the wall closed down.

Again, there were no traces that someone had just entered in this villa except the car parked in the front side of the villa. However, from outside, the car was looked like it wasn't being in use from the many decades. Although, things inside the car were telling different the thing.

Again pin drop silence except for the roar of the wolfs and tigers.

As usual, classical music was playing inside the villa.

Bo Xiao was smoking his cigarette and he had just taken a shot of drugs. He was sitting on the couch and leaned on the back side of the couch while his eyes were closed.

In his lap, Liu Ruolan was sitting, she had just finished a glass of wine and she was kissing Bo Xiao, on his jawline, on his neck and his shoulder.

His shirt's buttons were unbuttoned and his muscular chest was visible.

"Juan...Juan..." Bo Xiao murmured under his breath.

Liu Ruolan heard his voice and stopped kissing him and looked at him. Her eyes were flashed cold light. She closed her eyes and after a minute, she opened it again and said with an evil smile "Juan is dead, darling. Now, you have only me."

Bo Xiao opened his eyes when he heard her words and he smiled ridiculously on himself and pushed her off from his lap.

Liu Ruolan was expecting this reaction from him so she stabilized herself quickly and prevented herself from falling from the couch.

After a minute, Liu Ruolan was started laughing loudly. Bo Xiao knew that she was laughing at him.

Three years back, Bo Xiao had sent Liu Ruolan, to get Liu Juan back to him and to kill Mo Jiang.

He told her that he wanted to punish Liu Juan for leaving him. However, it was not his intention in the first place. He loved Liu Juan and how could he hurt her?...

Liu Ruolan was happily agreed with Bo Xiao. She thought that now Bo Xiao would punish Liu Juan that meant his feeling for Liu Juan had finished. However, little did she know, Bo Xiao told her to bring Liu Juan back not because of the punishment he wanted to give Liu Juan, but to detent Liu Juan so that she wouldn't be able to run away from him again.

However, Liu Ruolan got to know his plan and she hadn't only tried to kill Mo Jiang, but also killed Liu Juan.

Bo Xiao wanted to Liu Juan for himself. Dream on!

He would have only Liu Ruolan...

Back to the present.

Liu Ruolan was laughing so loud. It was cleared that she was mocking at him. Seeing her laughing, Bo Xiao felt so angry that in this instant, he took a bottle of a beer and broken it on the table which was placed in front side of the couch.

Smash!

He immediately placed the half broken bottle under her neck as if he wanted to kill her "I will kill you, you b*tch."

However, she didn't seem to be affected by his threat and she chuckled "Then, what are you waiting for? Huh? Kill me. Come on, have this bottle like this." Liu Ruolan held his hand, which was holding the bottle under her neck and she was pressing the edge of the broken bottle inside her flesh.
