

In no time, Hu Biao walked out with his men who had wrecked half of the floors in the building. Just a few minutes after, Liu Zixiu then came out carrying a stack of documents. Seeing this, the expressions of the Zhang Family's staff turned for the worse.

Without a doubt, they knew that the files Liu Zixiu was holding were definitely their company's confidential documents.

At this time, Zhang Xingquan spotted the documents in Liu Zixiu's hands as well. His heart skipped a beat as most of those documents were very important. If they were to fall into Lu Chen's hands, wouldn't the Zhang Family be susceptible to being blackmailed by him in the future?

But just when Zhang Xingquan was about to go argue with Lu Chen, there was a sudden burst of flames on the first floor, and the fire was spreading quickly toward the upper floors...

"Lu Chen!!"

Zhang Xingquan shouted in rage and spurted out a mouthful of blood.

At the sight of the fire, Zhang Daoren almost fainted.

Why does this lunatic have to go all out?

All the employees of the Zhang Family were dumbfounded, having turned pale from the sight of it. They couldn't seem to figure out exactly how the Zhang Family had offended this ruthless person.

When everyone looked over at Lu Chen and his men, their eyes were filled with fear.

“Patriarch Zhang, my sincere apologies, I never wanted it to be this way. In fact, I didn't plan to fuss over a small matter with your son, but he just angered me so much today. I wouldn't be myself if I were to sit back and do nothing. By the way, seeing that we had a couple of drinks together in the past, I'll kindly remind you that this is just the beginning. There is still more to come, so you must hold on,” Lu Chen said to Zhang Xingquan before turning around and getting into his car.

This is just the beginning?!

Pfft!

Zhang Xingquan spurted out blood again.

This little bastard! Is he actually serious about going against the Zhang Family to the end?!

Meanwhile, Zhang Daoren's face turned pale, all the color completely drained out from his face.

At this moment, his phone rang.

The moment he picked up the call, he heard the other end exclaiming urgently, "Young Master, something terrible is happening! Some men here have driven out all the workers in Blue Water Bay, and they seem to have explosives in their hands!"

"What? Then why aren't you calling the police?!" Zhang Daoren snapped angrily.

"We have already called the police. It has been a while now, but no one came—" Boom! Boom! Boom! Before the person could finish his sentence, Zhang Daoren heard a series of explosions from the other side of the call.

"What's going on there?" Zhang Daoren

had a bad premonition in his heart. He only heard the other party's reply after dozens of seconds.

"Y-Young Master, we're screwed! All the buildings in Blue Water Bay were bombed!"

"Bombed?!" Zhang Daoren exclaimed as he staggered and fell to the ground.

Our Zhang Family had invested 1.5 billion in the Blue Water Bay project, so how could it be wiped out just like that?

Lu Chen, it must be Lu Chen!

Zhang Daoren came to his senses and looked up, only to see that Lu Chen and his men had just left in their fleet of cars and went onto the highway.

Zhang Daoren's heart sank. His phone fell to the ground feebly, and he looked as if he had instantly lost all of his will to live.

At this time, Zhang Xingquan also received the news that Blue Water Bay was bombed. After spurring out another mouthful of blood, he fainted straightaway.

At the same time on Green Island, when

Zhang Daozhong told Zhang Shengqiao that the company building was set on fire by Lu Chen as well as the Blue Water Bay building being blown up and demolished, the latter collapsed onto the sofa. Anxiety overwhelmed him and he passed out.

“Grandpa, grandpa!” Zhang Daozhong hurriedly helped Zhang Shengqiao up and fed him a pill. After more than a minute, Zhang Shengqiao slowly regained consciousness.

“Lu Chen, that little bastard! Where in hell did he get the courage to go up against the Zhang Family?” Zhang Shengqiao asked in a deep voice.

A strong murderous intent flashed across his eyes. The Zhang Family had been established in Chongqing for decades, and no one had ever dared to lay a finger on them. To their surprise, not only did Lu Chen set fire to his company building, he even blew up Blue Water Bay that was recently completed.

“Grandpa, the backer supporting Lu Chen should be Xie Weihao,” Zhang Daozhong said.

“That’s impossible, Lu Chen only runs a small supermarket! Plus, Xie Weihao had transferred over to Chongqing not long ago, so how would he be acquainted with Lu Chen?” Zhang Shengqiao shook his head. The Zhang Family had been dealing with the City Council for decades, yet even they hadn’t managed to win over Xie Weihao. As such, how would a loser like Lu Chen get Xie Weihao to be his backer?

“It’s true. Last night, as I was seated at the same table, I saw Xie Weihao going over to toast Lu Chen,” Zhang Daozhong said.

Zhang Shengqiao was shocked. Although he had a hard time believing it, he yelled, “Since you know that his backer is Xie Weihao, why didn’t you give us a heads up when we were planning to wreck Lu Chen’s supermarket?!”

“Grandpa, you’re clearly barking up the wrong tree. I only found out about it last night. Meanwhile, Zhang Daoren had known all along about the relationship between Lu Chen and Xie Weihao, yet he still insisted on wrecking Lu Chen’s supermarket. That’s why I assumed that he was confident enough to pull it off,” Zhang Daozhong said aggrievedly.

He was a little upset deep down. Did you forget that I'm also your grandson? Besides, Zhang Daoren is so incompetent, yet you favor him at all times. You have always been so unfair, so why should I give you a heads up?

I can't f*cking wait for Zhang Daoren to mess up even more! Zhang Daozhong thought angrily.

Feeling like he had wronged Zhang Daozhong, Zhang Shengqiao nodded and looked at Dongfang Long.

"Master Dongfang, I hereby request you to maim that bastard tonight. He was seriously too ruthless today, causing the Zhang Family to lose up to three billion! I must make him pay for his insolence!" Zhang Shengqiao pleaded as he looked at Dongfang Long.

"Don't worry, as long as he shows up, he will be destroyed tonight," Dongfang Long said confidently. Hearing the tragedy of the Zhang Family, he also felt that Lu Chen went overboard with his actions.

"Senior, I think he'll definitely show up," Han Tian chimed in.

“How can you be sure that he’ll come?”
Dongfang Long asked.

“Because I, too, wrecked his supermarket. Plus, I told the person in charge that if Lu Chen wanted revenge, he should come find me in Green Island. Since Lu Chen has already sought revenge from the Zhang Family today, I’m sure that he’ll come after me too,” Han Tian analyzed.

“Well, I hope he won’t let me down. I’d like to meet the person who defeated you with only one punch.” Dongfang Long nodded. The main reason why he was willing to step out to help Han Tian seek revenge was because the latter spoke quite highly of Lu Chen.

Being the conceited person he was, Dongfang Long felt that other than his master Ling Daozi, no one else in this world could ever defeat him.

Since Han Tian held Lu Chen in high esteem, he decided to come and fight him.

On the other hand, Han Tian was a little embarrassed. He wanted to say that the reason why he was defeated back then was due to Lu Chen’s cunning ways, and

that he had fallen into his trap.

But even he had to admit that no matter how he and Lu Chen fought, it was impossible for him to be a match for Lu Chen.

Mainly because he could tell from Lu Chen's punch back then that he was so much stronger.

“Bro, you went a little overboard with things. Tell me the truth, what is the bottom line of all these? I’m getting calls from so many people. Look, I haven’t gotten a firm foothold in Chongqing yet, so I can’t let you be too presumptuous.”

Lu Chen and the others received a call from Xie Weihao as soon as they returned to the Sakura Nightclub.

In fact, Xie Weihao was telling the truth. It was only because Lu Chen had continuously helped him in his political achievements, otherwise he wouldn’t want to have a face-off with the Four Big Families. After all, none of the Four Big Families was a pushover.

To be honest, if Lu Chen hadn’t promised to invest 50 billion to build one of the country’s top science and technology parks, he wouldn’t have agreed to this. If he wanted to gain a steady foothold in Chongqing within the next few years and accomplish more politically, he would have to first win over the Four Major Families.

Which meant that the Science and Technology Park alone must bring him more glory as well as development to

Chongqing in the next few years in order to be far more impressive than the Four Big Families combined.

This was the main reason why he insisted on safeguarding Lu Chen's interests.

Plus, he also felt that Lu Chen was a decent man.

Whether Lu Chen had helped him intentionally or unintentionally with his donation this time around, not only did his political achievements boost up, Beijing's officials had also praised him during a public discussion.

"Okay fine, let's stop here then. I'll take my time to deal with the Zhang Family later on." Lu Chen laughed bitterly. Originally, he had planned to go the whole hog and send the Zhang Family an even harder blow.

However, the burning of the Zhang Family Tower and the demolition of the Blue Water Bay project had already caused them at least 2 billion in losses.

Moreover, just from the incidents alone, not only was the Zhang Family's reputation ruined, it would also be difficult for them to

recover their losses within the next few years.

Thinking of this, Lu Chen felt that he was almost done with his revenge. However, he still had to make the Zhang Family hand over Green Island to him tonight.

Since they had lost to him, it was only right for him to take it back.

After hanging up on Xie Weihao's call, Lu Chen called the boss of Jadeite 36 and asked him to inform the manager that he would be booking the whole restaurant as he would be bringing some guests in the afternoon, at the same time, requested them to not open it to the public.

Although he wasn't the biggest shareholder of Jadeite 36, the majority shareholder depended heavily on him.

If Lu Chen wanted to, he could even purchase the whole Jadeite 36.

Of course, the boss of Jadeite 36 agreed to Lu Chen's requests without hesitation, and even said that he would show up to make a toast.

After hanging up the phone, Lu Chen said to Du Fei and the others, "You have worked hard today, my brothers. Tell everyone to head over to Jadeite 36 at one in the afternoon and drink to their hearts' content."

"No problem," all the men agreed with Lu Chen's arrangement. Even if Lu Chen didn't plan to treat them to a meal, Du Fei would've taken them out tonight anyway.

At half past noon, Lu Chen asked Du Fei and the others to bring everyone to Jadeite 36.

Although the employees of Jadeite 36 were informed in advance that someone had booked the entire restaurant today, they were dumbfounded when they saw more than 200 people showing up at the venue.

"Young Master Lu, it's you." When Qiu Jian saw Lu Chen, his eyes lit up and he hurried over to greet him.

He was just wondering just who the important guest—who booked the entire restaurant—was. To his surprise, it was Lu Chen.

“Yes, there are 240 of us. I reckon there’s enough space to fit all of us. Otherwise, please send someone to buy some more tables immediately.” Lu Chen nodded.

“Don’t worry, we have more than enough space. The private room including the large hall would be able to fit more than 300 people at a time,” Qiu Jian said hurriedly.

“Alright, then arrange a private room for us first. If we can’t fit into the private room, arrange another private room or the big hall for us. Whichever room it is, serve us your best set of dishes.” Lu Chen was not a stingy man after all. His men had made him proud today, so he was willing to spend even if the best meal sets cost more than 100,000 per table.

Hearing Lu Chen’s words, Qiu Jian, Du Fei and the others were shocked.

Jadeite 36 is considered quite a high-end restaurant, their best set menus cost more than 100,000! Lu Chen is just too generous!

“Brothers, did you hear that? Mr. Lu didn’t even hesitate to spend more than 100,000

per table on expensive meals just so that all of you could enjoy yourselves tonight,” Du Fei turned around and announced to everyone.

“Mr. Lu and Mr. Fei are the best!”

Everyone shouted in unison. To be honest, most of them had never had a chance to come here for a meal. When they heard that it cost more than 100,000 per table, all of them became extra excited.

At the same time, they started to harbor immense respect for Lu Chen from the bottom of their hearts.

The servants were all taken aback by this atmosphere. They knew by then that these people were from the mafia underworld.

Qiu Jian took Lu Chen, Du Fei and the others to the Imperial Suite first, while Hu Biao made arrangements for the others. Lu Chen didn't care whether his men were seated in the private room or the hall since they would be served the same set of dishes anyway.

There were even artists performing in the three grand private rooms, but few people

were interested to watch it.

This was because the guests sitting in the rooms were basically uncultured, thus didn't know how to appreciate the performances. The only thing that caught their eyes were the beautiful performers, making the Three Marquises of the Water Margin and the others stare at them from time to time.

Before any dishes were served, the majority shareholder, Lei Dazhi, rushed over.

Lei Dazhi was a middle-aged man with a pot belly.

"Young Master Lu, I initially planned to arrive on time, but I didn't expect to be caught in a traffic jam. Please forgive me!" Lei Dazhi explained with a smile.

He had rushed here deliberately to toast them after hearing that Lu Chen was treating Du Fei, the boss of the underground forces, to a meal, hence he wanted to get acquainted with him.

He was a businessman after all, and it was inevitable for him to cross paths with the

underground forces at times.

“You arrived at the right time. The wine has just been served.” Lu Chen smiled.

Lei Dazhi smiled and sat down as Lu Chen introduced him, “Everyone, this is Lei Dazhi, the boss of Jadeite 36.”

He then introduced the rest to Lei Dazhi, “Du Fei, Song Hai, Lin Tong, Shi Jin and Liu Zixiu are all friends of mine.”

“Hello, Big Boss Du.” Lei Dazhi got up and shook hands with Du Fei first. Following that, he shook hands with the Three Marquises of the Water Margin and Liu Zixiu respectively.

Of course he already knew Du Fei’s name, he just hadn’t interacted with him before.

As for the Three Marquises of the Water Margin, he had heard of them from Lu Zhong before. However, he has never heard of Liu Zixiu.

But since he was able to join Lu Chen at his table, he must be someone with a high status in the mafia underworld. Thus, Lei Dazhi was also very polite to him.

While Lu Chen was enjoying good food and having fun on one end, on the other, the atmosphere at the beautiful Green Island Lake had become lively.

As the Zhang Family had deliberately spread the news and promoted this competition as a grand battle, countless people had rushed over to Green Island to watch the excitement.

The ordinary citizens already knew that there were many great fighters in this world, such as those mercenaries on the battlefields of Africa and the Middle East as well as the national special forces. Each and every one of them were talented and fearsome fighters.

But as citizens of a peaceful country, they could rarely witness fighting scenes.

Not only were the Four Big Families and the rich interested, even Xie Weihao and the other City Council leaders quietly rushed over just to witness the great battle that the Zhang Family had highly promoted.

Meanwhile, Lin Yijun also brought Lin Yijia and one of her best friends to Green Island
