

At the Zhang Family's mansion...

"I guess that you all are still in the dark about Lu Chen's true identity, huh?" asked Mu Zong as he looked at Zhang Shengqiao and the rest of them.

"Isn't he the boss of a supermarket? Not only that, he has the support of Xie Weihao as well. Of course everybody knows that," said Zhang Shengqiao.

"That's right. That kid is indeed rich, but other than his good relationship with Xie Weihao, I don't see anything outstanding about him," said Old Master Liu, Liu Qifu, as he looked at Mu Zong doubtfully.

On the other hand, Old Master Zuo, Zuo Zhengyi, did not say anything but only looked at Mu Zong curiously.

"Have you guys heard of the Lu Family, one of the Five Great Families in Beijing?" asked Mu Zong.

The crowd was stunned as they finally realized something.

"Mr. Mu, are you saying that Lu Chen belongs to the Lu Family from Beijing?"

Zhang Daoren asked him in disbelief.

Mu Zong nodded his head and said, "That's right. Lu Chen is the only son of Lu Tianxing. Although the Lu Family is a rising star in Beijing, the assets that they have is worth over a few hundred billion."

Everybody was shocked as they finally realized the reason behind Xie Weihao's constant support for Lu Chen.

The Four Great Families might be one of the top families in Chongqing, but having added up their net worth, it was barely enough to hold a candle to the Lu Family.

More than ten years ago, Lu Tianxing's reputation was already known far and wide as a genius businessman in China, making him a worldwide sensation.

In just over a decade, not only did he manage to gain a foothold in Beijing with his own efforts, he even managed to squeeze into the ranks of the Five Great Families in Beijing.

Based on this alone, one could see how terrifyingly powerful he was.

It was said that the Lu Family had hundreds of billions in assets. On the other hand, if you added up the assets of all the Four Great Families, their total assets would not even exceed 10 million. This was enough to show how frightening the capabilities of the Lu Family was.

“Mr. Mu, does that mean that Yi Qi Technology was founded by Lu Chen?” asked Zhang Shengqiao.

“Yes. Lu Chen's wife's name is Lin Yijun; his daughter's name is Lu Qiqi. He named the company after combining the names of his wife and daughter. I can't believe that you guys didn't notice it at all,” said Mu Zong.

When everybody heard Mu Zong's explanation, they instantly came to a realization. Thereafter, they felt embarrassed that none of them had thought about a simple matter such as this. They couldn't help feeling like idiots right now.

“However, rest assured that the Lu Family in Beijing had been forced to disband by my Madam. In a few days, she'll come to Chongqing to deal with Lu Chen

personally. So, this will be the best opportunity for you all to bring down Lu Chen and force Yi Qi Technology into bankruptcy before they open their doors for business. As long as my Madam arrives, Lu Chen will definitely meet his doom. By then, this big piece of cake—Yi Qi Technology—is all yours for the taking,” Mu Zong explained quickly when he saw that the crowd was a bit terrified after Lu Chen's identity was revealed.

After all, he still needed the Three Great Families to stir up troubles for Lu Chen, thus he could not frighten them off.

The reason he revealed Lu Chen's identity was because he wanted to let the crowd know the benefits they could get if they managed to bring Lu Chen down.

He believed that the Zhang, Liu and Zuo Families would not let this opportunity slip by if they were driven by their own interest.

Especially the Zhang Family and the Zuo Family, considering they held such a huge grudge against Lu Chen.

When they heard Mu Zong's explanation, the crowd only hesitated for about ten

seconds before they finally made a decision.

They chose to believe Mu Zong and the three families prepared to join forces to deal with Lu Chen.

In fact, Zhang Shengqiao gave Old Master Chen a call as well, but was rejected by him.

"I am afraid that Lu Chen has gotten himself into some trouble this time," said Old Master Chen as he turned to look at Chen Churan next to him after hanging up Zhang Shengqiao's call.

"Is it because he deliberately gave up his position as the champion? The people of the Rough Stone Association can't be that dumb. Can't they realize the strangeness of this situation? Anybody with a discerning eye would know that something must have happened to Lu Chen for him to give up on his position as the champion," said Chen Churan out of frustration and anger.

From her point of view, Lu Chen had represented Chongqing and came in second place, which was already a historic

feat. However, not only were the people from the Rough Stone Association ungrateful, they even wanted to stir up troubles for Lu Chen. This is completely outrageous!

"This is only the fuse for the fire. With the support of a big shot in Beijing behind them, the Liu, Zhang and Zuo Families had already joined forces to bring Lu Chen down." Old Master Chen sipped some tea while getting lost in thought.

"Huh? Then, what should we do? If the Three Great Families are in this together, I'm worried that even Xie Weihao wouldn't be able to help Lu Chen at all. Grandfather, can we help him?" When Chen Churan heard this, she panicked.

"Churan, I am afraid that you have underestimated Lu Chen's capabilities. Do you really think that he is only relying on Xie Weihao?" said Old Master Chen as he placed his tea cup down and leaned back against the sofa. Then, he said, "I'm not sure if you know this, but Lu Chen is the boss behind the scenes of Yi Qi Technology. If I am not mistaken, he is the heir of the Lu Family, one of the Five Great Families in Beijing."

"Huh? He is the boss of Yi Qi Technology?"
Chen Churan's jaw dropped in disbelief.

Although it did cross her mind before, she dismissed the thought as she felt that it was impossible. To her surprise, Lu Chen was indeed the boss of Yi Qi Technology. This was way beyond anybody's expectation.

"Yes. So, even if the Three Great Families joined forces, victory hasn't been decided yet. However, since they are fighting amongst themselves, we can obtain some benefit out of this if we just sit back and watch," said Old Master Chen.

After Chen Churan recovered from her surprise, she nodded her head and said, "That is true as well. If both sides suffer from huge losses, then the Chen Family can take advantage of the situation. However, if only one side loses, no matter which side it is, we will be at a disadvantage."

Old Master Chen nodded his head. If Lu Chen lost, then the Three Great Families would divide Yi Qi Technology amongst themselves. By then, their powers would exceed those of the Chen Family.

But if the Three Great Families lost, even if the Chen Family did not take any sides, they would be alienated by Lu Chen whereby he would not have any business dealings with them ever again.

“Grandfather, I believe in Lu Chen and I truly feel that the Chen Family should be standing by Lu Chen's side now,” said Chen Churan out of the blue.

Old Master Chen only looked at his granddaughter and smiled wordlessly. Seeing that, she lost all of her confidence.

At the moment, a fleet of luxury cars were waiting outside the entrance of the airport, all of them parked side by side to each other. The tourists who saw this—regardless if they were local or overseas—were stunned by this grand scene.

This must be some sort of grand welcoming for some big shot!

There were Bentleys, Rolls-Royces, Maybachs, Lamborghinis and many more luxury models amongst the fleet of luxury cars.

None of the cars there were worth under a

million.

Moreover, those who were more observant discovered that the people sitting in the luxury cars were all famous merchants in Chongqing. There were even some big shots from several famous families inside as well.

“What is happening here? Who are they welcoming? Why the grand scene here?”

“Don't you know what is happening? Take a look at the door, the main character is coming out.”

Everybody turned to look at the exit of the airport. Then, they saw a handsome-looking youth with a beautiful woman by his side and a pale-looking elderly man walking out of the exit.

At the same moment, the doors of all the luxury cars opened and the big shots from the cars got down one after the other.

It was truly a jaw-dropping spectacle!

“Who is this young man? Why is he welcomed by so many big shots?”

“I am not sure, but judging from his impressive appearance, he must be one of the sons of an aristocratic family.”

“What kind of Young Master is he to receive the honor of being welcomed by the Zuo, Liu and Zhang Families? He must be a big shot from overseas.”

The crowd became involved in a heated discussion about Lu Chen when they saw this grand scene.

The reason was because Lu Chen was walking in the middle, while Lan Ling and Huang Youjun were subconsciously lagging behind him by half a step. Everybody who saw this knew that Lu Chen’s status had to be the highest amongst the three of them.

On the other hand, when the trio saw the crowd who came to ‘welcome’ them, they looked displeased, especially Huang Youjun. That was because other than the Three Great Families, the rest of the crowd consisted of the people from the Rough Stone Association.

When Lu Chen and his entourage saw their imposing manner, they knew that these people weren't here to welcome them but instead were here to punish them for their crimes.

After all, Lu Chen gave up his position as the champion in the final round of the championship, so it wasn't surprising at all that his actions had angered Zhang Shengqiao and the rest of them, seeing how he gave away such an easily obtainable position.

"Lu Chen, you really are something, aren't you? How dare you deliberately give away your position as the champion? Are you blatantly insulting us?"

"It wasn't as if we forced you to join the competition since you were the one who begged us to represent Chongqing in that battle. How dare you f*cking give away your position as the champion at the critical moment when it is already within reach? Did you actually think that your actions were noble?"

"If you didn't want to become the champion, you should have refused to represent Chongqing in the competition,

considering no one was forcing you to do it!”

“You b*stard! This is one of the stupidest things you have ever done and nothing can compare to it at all. Mark my words, you will regret your decision to oppose us for the rest of your life!”

Several people from the Rough Stone Association hurled verbal accusations at Lu Chen the moment they laid their eyes on him. However, Lu Chen merely gave them a casual glance as they were nothing in his eyes at all.

Huang Youjun knew that Lu Chen wasn't someone whom you could trifle with. Putting aside the obvious, just by Lu Chen's mansion alone, he knew that the latter was no ordinary person as not many could afford to buy that kind of mansion in their lifetime. He did not wish for the people from the Rough Stone Association to provoke Lu Chen, so he quickly helped Lu Chen to explain himself.

“Everybody, listen to me! There is a reason that Lu Chen gave up his position as the champion. It's not what you think it is,” said Huang Youjun.

“Huang Youjun, you are merely a Master of the Rough Stone Association, not the Chairman. Even if you are the Chairman, it is not your position to say anything,” said Zhang Shengqiao in disdain as he snorted coldly.

“If you want to avoid further troubles, I suggest you get lost. Besides, it’s still a question whether you’d still be able to maintain your position in the Rough Stone Association,” bellowed Liu Qifu.

Huang Youjun’s expression turned dark as he confronted the old Masters of the Zhang and Liu Families. However, he could only suppress the fury in his heart and keep quiet.

Lan Ling wanted to say something, but when she saw that the Old Masters of the Zhang, Liu and Zuo Families were there, she hesitated and chose to keep her silence.

“You b*stard! You must give us all an explanation today, otherwise you can forget about going home!”

“That’s right. You must kneel before us and apologize, or else we will not let your

supermarket open its doors for business.”

“Believe it or not, we can force your supermarket to close its doors for business in less than a week!” said two people from the Rough Stone Association as they stepped in front of Lu Chen to prevent him from leaving.

“Get lost!” Lu Chen snorted coldly before reaching out to grab them. With one person in each hand, he lifted both of them off the ground.

The crowd was shocked and before they could react, Lu Chen tossed the two people away and they landed around a few meters from where they stood.

Seeing Lu Chen’s ruthlessness, the crowd became silent. But deep down, they were extremely angry.

They came here to settle a score with Lu Chen, but he asked them to get lost. Didn’t that mean that they were nothing in his eyes?

The worst part is, this brat actually dared to beat people up. He is indeed out of control!

At the moment, a luxury car pulled over. It happened to be his BMW Steinway, and the person driving it was none other than Lin Tong.

Lin Tong got down and opened the door to the backseat of the car. Instead of getting into the car immediately, Lu Chen turned to look at Zhang Shengqiao, Liu Qifu and Zuo Zhengyi.

“Since you guys wanted to play dirty, I’ll bankrupt all three families in three days. Don’t regret your actions by then,” said Lu Chen coldly as he turned and got into his car.

These few days, Lu Chen finally figured out that there was no reason for him to hide or conceal himself anymore. Since Xiao Bieqing knew who he was, there was no reason for him to play hide-and-seek with her anymore.

Plus, since the Zhang, Zuo and Liu Families were looking for trouble, he did not mind taking over all three of their families’ businesses.

Lu Chen’s aura was just too great. The crowd only recovered from their shock

after Lu Chen left for some time in his BMW Steinway.

“That kid can really talk big! What did he say? He wants to bankrupt the Three Great Families in three days? He must be joking! Who does he think he is? Does he think that just because he founded the Science and Technology Park, he is formidable?” said Liu Qifu angrily after Lu Chen’s car left for quite a while.

On one hand, they already found out about Lu Chen’s true identity.

On the other hand, they did not believe Lu Chen’s words when he announced that he would bankrupt the Three Great Families within three days. It was just impossible.

“That b*stard is really too savage. No matter what, we definitely need to bring him down this time. Otherwise, the Four Great Families will not have any more opportunities to make our voices heard in Chongqing in the future,” said Zhang Shengqiao angrily.

“That’s right. We cannot allow him to expand his powers until he becomes the second Jun Yue Group. If not, we’ll never

be able to turn our fortunes around again,” said Zuo Zhengyi as he nodded his head.

Zhang Shengqiao nodded as well and said to the crowd, “Go and tell that b*stard that if he doesn’t kneel in front of us and beg us for forgiveness, we will smash up his supermarket!”

The people from the Three Great Families still did not want to reveal that Lu Chen was the boss of Yi Qi Technology to the crowd as they were afraid that if they knew about it, they wouldn’t dare to provoke Lu Chen anymore. By then, they would have less cannon fodder.

Indeed, the Three Great Families regarded all the people from the Rough Stone Association as cannon fodder to deal with Lu Chen.

When the crowd heard Zhang Shengqiao’s words, they started clamoring and got into their cars. Naturally, they had to obey his orders since the three Old Masters of the Three Great Families commanded a high position in the Rough Stone Association.

At the same time in the car, Lu Chen’s eyes were slightly close as he listened to Lin

Tong's report on the situation.

"Young Master Lu, we have already rescued the Young Madam," said Lin Tong.

Lu Chen heaved a sigh of relief as he was just thinking of ways to rescue Lin Yijun from Xiao Bieqing's men today.

He wasn't afraid of her men, though he was worried that Lin Yijun would be harmed in the process.

"By the way, is Yijun hurt?" asked Lu Chen as he opened his eyes.

"No, she is not. The operation was unexpectedly smooth, with only a few ruffians guarding the Young Madam," said Lin Tong.

Lu Chen was stunned as this was news to him.

However, he quickly realized that it could be because of that phone call he made to his Madam, which must have pissed her off completely. Hence, that was probably why she had decided to come down to Chongqing to deal with him personally.

Judging by her egoistic personality, she wouldn't use his family to threaten him. So, she must have asked her underlings to release Lin Yijun.

In fact, Lu Chen felt that the probability of this happening was quite big. Since Xiao Bieqing was a powerful woman, naturally there was no reason for her to resort to these despicable methods to fight against Lu Chen, who was no more than a small fry in her eyes.

So you're coming, huh? I'll be waiting for you. By then, I'll make you pay for all the past and current grudges, Lu Chen thought to himself as a hint of killing intent flashed across his eyes.
