

Following the opening of the cover, everybody focused their attention on the dice. The three dice showed the number, 1,2 and 4.

Surely enough, he had rolled a seven!

Lu Chen won!

“I’ll be damned. He can even guess the number correctly. How lucky can he get?!”

“He had won 9 million on his first try. What luck is that?”

“You’re right. This guy bet 1 million and now it has become 10 million in the blink of an eye! I’ll be damned!”

Although they weren’t the ones betting, all the gamblers who were watching this were obviously excited.

The burly man and Master Zhao’s faces changed slightly. I’ll be damned! 9 million! How can this kid be so lucky?!

Since the dice belonged to them, and

they were the ones who shook it, they did not suspect that Lu Chen had cheated.

On the other hand, Xu Jing never expected Lu Chen to guess it correctly. As such, he was delighted. Back then, he thought that Lu Chen was basically going to lose when he heard that Lu Chen wanted to guess the number. However, unexpectedly, Lu Chen managed to guess it correctly on his first try.

“Chen, you really are lucky, aren’t you?”

Xu Jing pushed the 10 million chips excitedly in front of Lu Chen.

Seeing Xu Jing’s delight, the burly man in the casino smirked as he thought to himself, The first win marks the beginning of the tragedy of a gambler’s life. In a moment, I will make you all cry until you guys have no more tears left.

The second round started and it was still a game of guessing numbers.

Master Zhao started to shake the dice. His expression looked very solemn. He shook it for a good minute before slamming down the dice shaker on the table.

Of course, his technique was a form of psychological warfare as it increased the ceremonial sense. In a way, it could double the pressure on the gamblers.

However, Lu Chen had been following Elder Yun around since he was young. As such, for more than ten years, he had been practicing the art of discriminating position based on the sound of the wind with Elder Yun. At the moment, his ears were far better than his eyes.

He closed his eyes. When the sound of dice tumbling about could be heard, he relied on his listening skills, which he had honed throughout the past ten years through hard practice to determine the position of the three dice accurately.

“What number are you betting on and how much?” asked Master Zhao as he

fixed his gaze upon Lu Chen without blinking.

“Number 5. 10 million for it.” Without any hesitation, Lu Chen went all in.

What the f*ck?! 10 million!

When the rest of the gamblers saw this, they surrounded him as they decided not to gamble anymore. That was because they had not seen such a gameplay in their life whereby a person dared to wager 10 million on a game of guessing numbers. Therefore, how could they miss out on such a good show?

Even if they were just onlookers, it was immensely gratifying.

Seeing as Lu Chen remained so calm, Master Zhao started to become anxious.

If that bastard guessed it correctly, then he would earn 100 million!

100 million is already the casino's...

No, it is the limit that the Green Dragon Club could pay out. Anything more than that and we would be forced into bankruptcy.

“Open it! Open it! Open it!” chanted the onlookers. Their chants put great pressure on Master Zhao.

He had to win this round as he could not afford to lose.

“You cannot change your bet anymore!” Master Zhao suddenly shouted as he deliberately shook the hand that was holding the cover of the dice shaker as he wanted to mess up the position of the dice to change the numbers.

Although he did not believe that Lu Chen could really guess the numbers correctly, what if Lu Chen’s luck was off the charts?

“Why don’t you reveal it since you said that I cannot change my bet anymore? Are you trying to cheat me?” Lu Chen got up and grabbed Master Zhao’s hand from across the table.

Master Zhao's expression changed greatly. He felt as if his right hand was caught in between a pair of pliers as he could not move it at all.

"What the f*ck do you think you are doing, kid? Are you trying to cheat as well?" retorted the burly man when he saw this. Then, he reached out to grab Lu Chen's hand.

However, the moment he reached out his hand, Xu Jing grabbed hold of his wrist.

"Release me at once!" roared the burly man as he raised his left hand to punch Xu Jing on the face.

Xu Jing was unmoved by it as he exerted a force using his hand that was locking the burly man's wrist.

"Ah! Release my hand! Release it! It's going to snap!" The burly man bent down and knelt on the floor as his knees hit the floor with a resounding thud.

“F*ck! They came here to wreck the place. Come, my brothers, let’s kill him!” When dozens of ruffians, who were in charge of the place saw this, they rushed toward Lu Chen. At the same time, they drew out their daggers, batons, and other weapons from their waist.

“Take one more step and I will break his arm,” roared Xu Jing in a deep voice. At the same time, he twisted the burly man’s arm until the maximum point.

“I’ll be damned! Don’t come here! Don’t...” The burly man’s features were twisted in an expression of pain as he felt that his arm was going to snap at any moment.

The several burly men rushing forward stopped in their tracks immediately when they saw this. Each and every of them glared at Xu Jing and Lu Chen angrily.

The rest of the gamblers had obviously seen their fair share of this kind of situation. Hence, they didn’t pay much

attention to it. They merely moved further away from Xu Jing and Lu Chen's position.

Lu Chen stared at Master Zhao and smirked. "Do you want to open it yourself or do I have to help you?"

Seeing as the burly man had been subdued, Master Zhao knew that he had met his match today.

However, anybody who could bet such a huge amount in a casino was definitely somebody of importance.

"I'll open it," said Master Zhao as he nodded his head.

Lu Chen smiled casually and released Master Zhao's hands.

Master Zhao inhaled deeply and opened the cover slowly.

2, 2 and 1.

It was the number 5!

Lu Chen actually guessed it correctly again!

What the f*ck?! What kind of luck does this guy have?! Is he really that powerful?!

All the gamblers were extremely excited. On the other hand, Master Zhao's face had turned extremely dark.

100 million!

Master Zhao's breathing started to become uneven.

He did have some tricks up his sleeves. However, he could only control the outcome of the dice, as to whether it was big or small.

He had no ability to control the numbers shown on the dice.

If he could control the numbers on the dice, then, he wouldn't be sitting around in a small place like here anymore. He would have gone to Las Vegas to make a living a long time ago.

“You f*cking cheated!” 100 million was the maximum amount that the Green Dragon Club could bear. Even if Lu Chen did not cheat, Master Zhao could never acknowledge this amount. Otherwise, he would be doomed.

When Lu Chen heard this, he went back to his seat. Then, he picked up his teacup and slowly took a sip. “I want you to break his arms.”

Xu Jing nodded his head and released the burly man as he rushed toward Master Zhao.

“What do you think you are doing?” Master Zhao was so anxious that he wanted to retreat.

Xu Jing grabbed his arms and twisted it forcefully.

Snap!

The crisp sound of broken bones silenced the entire casino in that instant.

At this moment, the gamblers realized that these two people weren't just here for a simple game of gambling.

They are here to wreck the place!

Master Zhao passed out straight away from the pain.

"F*ck! Kill them!" roared the burly man who finally regained his freedom. Then, seven to eight ruffians who were guarding the place rushed toward Lu Chen and Xu Jing.

Lu Chen drank his tea calmly as he leaned against his chair.

He believed that Xu Jing could easily deal with these ruffians.

Xu Jing calmly lifted a stool and jumped in front of Lu Chen with one swift move.

As soon as several men rushed in, he rushed forward to meet them directly.

Slam!

The leader of the ruffians was hit on the head by Xu Jing with a stool. Following that, the stool broke apart as the ruffian fell down to the ground wordlessly.

When the rest of the gamblers saw this, they retreated to the sides hurriedly.

Xu Jing was as swift as a dragon. Dozens of burly men surrounded him continuously. However, they were all knocked down by him in an instant.

“Brother, do you know whose territory is this?” asked the burly man just now as he glared at Lu Chen fiercely.

“Whose territory is this then?” asked Lu Chen casually.

“This is the territory of the Green Dragon Club! If you dare to stir up trouble here, aren’t you afraid that Gu Chen would make your life difficult?” threatened the burly man.

“Gu Chen, huh? I told you to invite him out to meet me. If you had invited him out earlier, then we wouldn’t be in this

situation now,” said Lu Chen teasingly as he smiled.

“Very well. You’ve got guts.” The burly man snorted coldly and took out his mobile phone to give his boss, Gu Chen, a call.

At this moment, in the secret room of the second floor basement of the Sakura Nightclub, Gu Chen was smoking a cigar while a burly man covered in blood was kneeling in front of him on the floor.

The burly man's face could not be seen clearly. He was tall and sturdy, while his T-shirt was soaked with blood.

"Back in the old days, we followed you around and risked our lives for you, yet you blatantly disregard the future of your men because of a woman. Fei, you have truly let us down." Gu Chen smoked his cigar while looking at the blood-soaked man who was kneeling on the ground, his face wearing a sinister expression.

"Back then, if he had not saved that b*tch, Gu Feng wouldn't have died. I want her to pay for it with her life." The sinister look in his eyes turned into a deep sense of hatred.

Gu Feng was his twin brother. Both of them managed to carve a name for

themselves amongst the ruffians. They followed Du Fei around and managed to become second best amongst the underground forces in Chongqing. When others heard of their name, they would flee in terror. 10 years ago, he was beaten to death while rescuing Du Fei's wife.

He had always blamed his brother's death on Du Fei's wife. If it weren't for her, his brother wouldn't have died.

This was the main reason he betrayed Du Fei later.

These past 10 years, he reorganized his group of men who had held grudges in the hopes that they could be better and more powerful than the group that Du Fei established back then. At the same time, he was always on the lookout for the whereabouts of Du Fei and his wife as he wanted to avenge his brother's death.

Moreover, he wanted to use Du Fei's death to establish an unshakeable reputation.

“Let her go. If you have issues with me, then come at me alone. I will pay for what I did to Gu Feng with my life,” Du Fei raised his head and said in a solemn voice.

“Fine, I can let your wife go. However, you have to lick my shoes clean first.” Gu Chen crossed his legs and looked at Du Fei in a teasing manner.

“Forget it! After all, you were like my brother once. If I humiliate you, it will be the same as humiliating myself. I will let you die quickly, but I will not let her go.” Gu Chen stood up and kicked Du Fei. At the same time, he threw the dagger on the table in front of Du Fei.

“Gu Chen, if anything happens to her, I will bury you with her,” said Du Fei in a deep voice.

“What can you do to me? You piece of trash!” Gu Chen stepped on Du Fei’s face as he sneered.

Du Fei did not answer. However, a hint of murderous intent flashed across his

eyes.

“I will tell you honestly then. I have already offered her up as a sacrifice in front of my brother’s grave. Did you really think that I only wanted her life? I want your life as well.” Gu Chen crouched down and patted Du Fei’s face.

“Gu Chen, you better not give me the opportunity, you b*stard! Or else, I will make you regret it,” roared Du Fei, his eyes gleaming with murder.

“Do you think you can harm me, you piece of trash?! If I give you an opportunity in my territory, it would be barely enough for you to struggle,” said Gu Chen with a smirk.

At this moment, his phone rang. So, he took it out and answered it.

“Chen, somebody cheated, and he even injured our men.”

“How much did he win? If it is not much, just ask him to get lost. I don’t have

time to deal with him today,” said Gu Chen with a frown. After much difficulty, he finally managed to find Du Fei today. It was time for him to exact his revenge. Hence, he did not wish to be bothered by small matters such as this.

“100 million!”

“What? I’ll be damned! Bring him to the private room and I will go there to meet him.” Gu Chen was scared out of his wits. 100 million was the maximum amount of money he could fork out. It was no different from wanting his life.

“You guys better watch this piece of trash properly. I want him to pay for his sins in front of my brother’s grave,” said Gu Chen to his subordinates as he stormed out.

After the burly man was finished with his call, he told Lu Chen coldly, “Kid, Gu Chen wants you to go to the VIP room.”

Lu Chen smiled casually as he saw the Three Marquises of the Water Margin entering.

“Young Master Lu.” The three quickly rushed forward. However, they felt ashamed in their hearts.

After all, this was Gu Chen’s territory. Hence, they could still negotiate with him. If something happened to Lu Chen, they believed that Lu Zhong would definitely not let them off the hook .

After all, Gu Chen’s Green Dragon Club was the most powerful underground force in Chongqing. Even the Three Marquises of the Water Margin weren’t their match.

“Nobody can enter or leave this place,” ordered Lu Chen.

“Ok, it has been arranged,” said Song Hai as he nodded his head.

When the burly man saw the Three Marquises of the Water Margin, he was stunned.

“Song, what do you mean by this? Are you guys disrespecting the Green Dragon Club?” The burly man cast a

dark look at the Three Marquises of the Water Margin.

“We are just here to settle something. Furthermore, we do not mean to disrespect the Green Dragon Club,” explained Song Hai although he was cowering in his heart.

Lu Chen shook his head to himself. The Three Marquises of the Water Margin were too cowardly. Hence, they could not be relied on to accomplish big things.

“Let’s go. Bring me to Gu Chen,” said Lu Chen calmly as he turned to look at the burly man.

The burly man looked at Lu Chen and his men darkly before bringing them to the VIP room.

Soon, Gu Chen arrived at the private room.

He was a burly and fierce-looking man. He sized Lu Chen and his men up while smoking his cigar.

When his gaze fell upon the Three Marquises of the Water Margin, he couldn't help but look shocked.

"So it turns out to be the three of you. I even thought to myself who had the guts to cheat in my casino." When Gu Chen saw that it was the Three Marquises of the Water Margin, he frowned.

He did not think too highly of the Three Marquises of the Water Margin, but they had the support of a mysterious force behind them. Hence, he dared not offend the Three Marquises of the Water Margin.

The Three Marquises of the Water Margin dared not utter a single word because they did come here to wreck the place. However, they were still worried as this was Gu Chen's territory.

If they really overstepped his boundaries and offended him, they were afraid that they would not be able to walk out from this private room alive.

Seeing as the Three Marquises of the Water Margin were standing respectfully behind Lu Chen, Gu Chen fixed his gaze upon Lu Chen and asked while frowning, "Who are you?"

"Gu Chen, this is the kid who cheated," said the burly man.

Gu Chen's eyes narrowed.

"It doesn't matter who I am, and whether or not I have cheated. I can even give you 100 million as long as Du Fei is unharmed, but only if you have the guts to stomach it," said Lu Chen calmly.

"Huh?" Gu Chen's expression changed as he realized that Lu Chen and his men were here for Du Fei.

He must offer Du Fei up as a sacrifice for his brother today. He would not let anyone stand in his way, even if it were the Three Marquises of the Water Margin. Moreover, he did not think too highly of them anyway.

The only thing was, Lu Chen's status seemed to be higher than the Three Marquises of the Water Margin. Hence, he was puzzled.

"What if you see his corpse later?" asked Gu Chen with a light smile.

"Then, you will become a corpse as well," said Lu Chen with a slight smile.

"Huh?" Gu Chen's expression changed as he pulled out his pistol in an instant.

He brought back this pistol from Vietnam through special channels. So far, no one had ever forced his hands before this.

However, Lu Chen's extremely powerful aura was oppressing him today.

Seeing the pistol in Gu Chen's hands, the expressions of the Three Marquises of the Water Margin changed greatly. Although they were doing quite well in their field, they haven't gotten to the stage of using guns yet. Especially when they were dealing with a real

Mafia.

Even Xu Jing's expression changed slightly.

As a Special Force veteran, he was obviously a skilled gun fighter. However, at such close quarters, it was impossible to dodge the bullet.

"How do you plan to turn me into a corpse, you motherf*cker? Are you going to turn me into one using your mouth?"

Gu Chen pointed his pistol at Lu Chen as he smiled in a sinister and teasing manner.

“Let all of them in. Search every single room. I don’t care whether Du Fei is dead or alive, just find him for me.” Although Lu Chen was held at gunpoint by Gu Chen, he did not even bat an eyelash.

Song Hai was hesitant. This meant that they were going to have an acrimonious falling-out with Gu Chen.

Moreover, Gu Chen still held a life-threatening gadget in his hands.

However, he only hesitated for a moment before sending out the order.

At this moment, Lu Chen turned to look at Gu Chen and said calmly, “How many bullets do you have in that gun? Do you know how many people I have brought?”

“You want to compare who has more people on my territory?” Gu Chen sneered.

“I can guarantee you that as long as you fire your gun, you will have become a

corpse before your men can reach here,” said Lu Chen calmly.

At such a close distance, it was obvious that he could not dodge all the bullets completely, but he believed that Gu Chen would not fire his gun.

That was because Lu Chen had not forced him to a dead end yet.

Furthermore, Gu Chen had not understood Lu Chen’s background completely as well.

People were most afraid of an unknown existence.

“Oh? Then do you want to try me?” Gu Chen looked at Lu Chen teasingly. He did not believe at all that Lu Chen wasn’t afraid that he would pull the trigger.

Just when Gu Chen was preparing to teach Lu Chen a lesson, one of his underlings rushed over.

“Gu Chen, this is not good. Our entire club is surrounded by the Three

Marquises of the Water Margin's men. There are at least a hundred people!" said the youth to Gu Chen. His eyes were filled with terror and anger.

"What?" Gu Chen's expression changed greatly. This was his base, but usually there were only 20 to 30 men here, whereas his opponent had brought over 100 men with him. He bet that everything here would be destroyed before he could gather all his men here.

However, while he was distracted, Lu Chen finally acted.

He lifted his hands and gave the die a flick. It flew out of his fingers in that instant.

The die struck Gu Chen's wrist which was holding the gun.

Gu Chen grunted as the pistol fell from his hands.

Lu Chen's figure flashed as he picked up the pistol.

Bang! Bang!

Two consecutive gunshots were heard as the entire private room went dead silent.

Everybody stared at Lu Chen with wide eyes.

Lu Chen merely blew on the muzzle and said casually, "The bullet marks are quite stable."

When everybody heard this, they realized that the two bullets just now had found their mark on Gu Chen's legs.

At this moment, Gu Chen's face was filled with horror and pain as he sat down on the floor.

The Three Marquises of the Water Margin were stunned. Only then did they know that their Young Master was that powerful.

From grabbing the gun to firing it, all of this was done in one fluid, rapid motion.

How could an ordinary person do that?

“Who are you exactly?” Gu Chen looked at Lu Chen in horror. He rarely came across such a ruthless person as Lu Chen.

If he was in Lu Chen’s territory, he would not dare to fire wantonly even if he had a gun in his hands. On the other hand, Lu Chen managed to cripple him in a more ruthless manner after he left an opening for him.

Currently, he did not have any chance of escaping after his legs were injured by the bullets. His right hand was injured as well. In addition to that, the entire club was surrounded.

Lu Chen did not say anything else, instead he signaled to Xu Jing. Then, the youth who reported in just now was dragged by Xu Jing into the private room.

Lu Chen could not allow Gu Chen to send out any more messages before he managed to find Du Fei.

He was being cautious as he was afraid that Gu Chen would use Du Fei to threaten him. Then, it would make things difficult for him.

Not long after that, two of the Three Marquises of the Water Margin's subordinates entered the private room with Du Fei.

When Du Fei saw Lu Chen, he was shocked at first. Then, he nodded his head at Lu Chen. He did not thank him, nor did he act in an unreasonable manner.

"They have captured my wife and they are using her to threaten me," Du Fei simply told Lu Chen what happened.

"Where is your wife then?" asked Lu Chen.

"I am not sure for now. I hope that she is alright. Or else, he will meet his death today," said Du Fei as he looked at Gu Chen who was sitting on the floor with a chilling look in his eyes.

When Gu Chen heard Du Fei's words, a hint of fear flashed across his eyes. However, he quickly concealed it.

After a few minutes had passed, the subordinates of the Three Marquises of the Water Margin entered the room again. However, this time, they were carrying the body of a woman.

The woman's chest was badly mangled. Obviously, a weapon was used to cut open her chest.

"Honglian!" Du Fei's expression changed abruptly as he rushed forward and hugged the lifeless female corpse.

"Honglian!" Du Fei cried his heart out as tears streaked down his face.

Lu Chen sighed in his heart as he placed the pistol in Du Fei's hands. "My condolences."

Although Li Honglian had become a snobbish person and looked down upon him once, she was Du Fei's wife after all. And Du Fei was his best friend.

Lu Chen still felt sad at the moment.

With that, he brought everyone out of the private room, leaving only Du Fei, who was still grieving and hugging his wife's body, and Gu Chen, who was crippled and trembling on the floor.

"Do you want a cigarette?" Lu Chen offered a cigarette to Xu Jing after they came out of the private room.

The Three Marquises of the Water Margin, who were following behind him, were stunned. Lu Chen offered Xu Jing a cigarette, yet he did not offer them any. This meant that he was extremely disappointed with them.

They knew that all three of them had acted timidly in front of Gu Chen today. Hence, they had indeed let Young Master Lu down.

The only thing was that they were left quaking to themselves after they saw Lu Chen's skills.

They had always thought that Lu Chen

was just a super rich playboy. Unexpectedly, he taught them a huge lesson today.

“Fei will kill him, I think,” said Xu Jing as he lit his cigarette.

Lu Chen did not say anything. It was a given, or else he wouldn't be known as Du Fei.

That was why he gave the pistol to him.

As soon as Xu Jing finished his sentence, 6 consecutive gunshots were heard from the private room.

Needless to say, Lu Chen had already guessed that Du Fei had flown into a rage and emptied all 6 bullets into Gu Chen's body.

He withdrew from the life in the mafia in which he had painstakingly built from the ground because of his wife. Now, he had to kill Gu Chen because of his wife as well.

10 minutes later, Du Fei came out. His

entire body was soaked with blood.

He knew that Lu Chen would definitely wait for him outside. Hence, he made his way toward Lu Chen directly.

The Three Marquises of the Water Margin were quaking to themselves when they saw the murderous expression on Du Fei's face and his blood-soaked body.

They guessed that Gu Chen had already died in Du Fei's hands.

"Last time, you said that you will give me a bank card. Do your words still count?" Du Fei grabbed the cigarette in Lu Chen's hands and started smoking with a vengeance.

"Of course. However, I have already withdrawn one million. If it is not enough, you can come and see me again." Lu Chen nodded his head and signaled Xu Jing. Then, Xu Jing handed the card which Lu Chen gave him to exchange for chips to Du Fei.

“Fei, I am sorry for your loss,” said Xu Jing.

“I am fine.” Du Fei patted Xu Jing on his shoulders.

“My condolences. I will get going then,” said Lu Chen as he looked at the Three Marquises of the Water Margin.

“The three of you can stay behind and help Du Fei out with the funeral arrangements.”

With that, he left the Sakura Nightclub with Xu Jing.

Du Fei stared at the retreating figures of Lu Chen and Xu Jing. Then, he took stock of the situation on the second floor basement as he smoked his last puff of cigarette. Following that, he muttered to himself, “Chongqing, Du Fei is back!”

In that instant, he stood tall and upright. He no longer bore the lazy appearance that he had the last time Lu Chen invited him to dinner.

Chapter 53 That Arrogant, Ambitious Person

In that instant, Du Fei seemed to have returned to his arrogant, ambitious self from 10 years ago.

The news that Yi Qi Technology had won the bid for the mountain range to the south of Saddle Hill with 25 million took the entire Chongqing by storm.

Everybody was shocked as according to the official news, Yi Qi Technology was going to build a Science and Technology Park second only to the Science and Technology Park in the Eastern Village in Beijing.

Because of this, everybody kept inquiring about the background of Yi Qi Technology.

Why did Yi Qi Technology cause such a big stir right after the Jun Yue Group was disbanded without any reason?

Could this have anything to do with the disbandment of the Jun Yue Group?

The second day after they won the bid for the mountain range, the media and members of the major families in the business circle were all scouting around for Yi Qi Technology's latest news.

At the moment, Lu Chen was driving his Audi as he sent Du Fei and his wife's ashes back to Adieu Village in Qijiang County.

"She was an orphan. After finishing her studies in high school, she went to Chongqing to work. Back then, she was working as a waitress in the Sakura Nightclub," said Du Fei as he caressed the newly erected tombstone.

Lu Chen lit a cigarette and handed it to him. Then, he lit one for himself as he sat on top of a boulder beside the tombstone and listened to Du Fei's story.

"I still remember that day when Zhou Li took a fancy to her and wanted her to accompany him for a drink. However, she refused. Then, she was forcefully dragged into the private room beside mine by Zhou Li's men. She became my wife after I rescued her."

"That night, I told her that I was a bad guy and I could never give her any happiness. She told me that being by

my side was her greatest blessing.”

“Later, she told me that she was afraid. Hence, I brought her along with me and retired from my life in the Mafia.”

“Although in these past two years, she had undergone some drastic changes to her personality as she became a snobbish and shallow person, she will always be the love of my life.”

“However, she still died because of my past in the Mafia,” said Du Fei as he flicked his cigarette butt. It traced a beautiful arc before falling onto the ground.

“She died because you are not strong enough,” said Lu Chen lightly.

“You are right. If I did not retire from the life of a Mafia boss and became stronger instead, I could have protected her better.” Du Fei nodded his head as he agreed with Lu Chen’s words.

He finally understood. However, certain things were just too late to change.

“The road in life is inevitably tough with its own ups and downs. There is still a long way to go. Regret is just a passing scene on the way to the finishing line. The only thing we can do is always believe that the sun will shine again tomorrow and continue bravely on our journey and not back down.”

Lu Chen flicked his cigarette butt away as well and dusted his hands before walking toward the car which was parked beside the road.

“The Three Marquises of the Water Margin addressed you as Young Master Lu. Are you prepared to ditch your attempt at maintaining a low-profile?” Du Fei caught up with Lu Chen. In the past, he had already realized that Lu Chen wasn’t an ordinary person. Unexpectedly, he really was an extraordinary man.

“I have never kept a low-profile. I merely did not have the capabilities to keep a high-profile in the past,” said Lu Chen as he smiled casually.

What he meant was back before he inherited the family's fortune.

Back then, he was really poor. In order to treat his daughter, he even borrowed 50,000 from Du Fei.

Du Fei raised his eyebrows and did not say anything further.

When they went back to Chongqing, Du Fei started to restructure the Green Dragon Club on a large scale.

On the other hand, Lu Chen also urged his workers to start the construction of the Science and Technology Park.

Of course, he spent most of his time treating the City Council leaders to meals.

Although the City Council leaders had verbally given the green light to Yi Qi Technology, Lu Chen still treated all of the leaders from the major departments to a meal. Then, he left the rest of it to Wang Wei and Xu Shuting to handle.

At the same time, as Lu Chen was going around and treating the City Council leaders to a meal, Hu Hong came to the entrance of Dong Jia Electronics every day to wait for Lu Chen.

Because the Three Marquises of the Water Margin ordered their men to stir up some trouble at the supermarket that was owned by his family, various negative news such as counterfeit items, spoiled goods, fights, and people causing trouble for no reason at all began to mar the company's reputation.

Even within the span of a few days, the supermarket that was owned by his family had become a hot search on the Internet. It wasn't because of their popularity, but it was because they had a bad reputation.

Major online forums, Weibo's headlines and many more were all reporting negative news on the Hu family's supermarket.

Several people even came to wreck the supermarket until the Hu family's

supermarket did not dare to open their doors for business these past few days.

At this point, Hu Hong finally understood that Lu Chen wasn't bragging at all when he told him that he would force his family's supermarket into bankruptcy. He did what he said he would.

He wanted to beg Lu Chen to be magnanimous and give the Hu family a break.

He had been waiting at the entrance of Dong Jia Electronics for three days already, but he still did not see Lu Chen.

Suddenly, he saw an Audi A6. Hu Hong's eyes gleamed as he recalled that this was the car model that Lu Chen bought the last time. Hence, he quickly rushed toward it.

Lin Yijun just got off from her work and was preparing to go back home when she suddenly saw Hu Hong blocking her car. Thus, she couldn't help but frown.

She wound down her car windows and asked, "What do you want?"

After the incident last time, Lin Yijun did not have a favorable impression of him.

"Nice to meet you, Miss Yijun. Do you know where Lu Chen is?" asked Hu Hong anxiously.

"Lu Chen?" Lin Yijun raised her eyebrows. She knew that Hu Hong had always looked down upon Lu Chen. Thus, she felt that Hu Hong was behaving out of character today.

"Yes, Lu Chen. Is he still in the company?" asked Hu Hong as he nodded his head.

"I don't know. Why don't you give him a call yourself?" said Lin Yijun as she thought to herself that this was ridiculous. Then, she started the engine of her car and left the company.

Seeing Hu Hong's anxious look, she knew that he definitely had something urgent to ask from Lu Chen.

However, what kind of capabilities did Lu Chen have to make Hu Hong beg him for it?

Could it be because of Wang Wei?

Thinking about it, Lin Yijun suddenly realized that Lu Chen was actually quite capable.

At least, Lu Chen was acquainted with people of high caliber. If he wanted to start a business again, she believed that he would definitely succeed.

At least, he wouldn't fail miserably again just like he did back then.

By the way, Lu Chen seems to have the smell of alcohol on him these past few days. Since he is not working, then what could he be doing? Could it be that he is thinking of leading a life of debauchery every day just because he has a little bit of money? Lin Yijun suddenly remembered something as she couldn't help but frown.

I must have a chat with him tonight. I

did not bother him much these past few days. So, I am not sure whether he is finding a job or planning to start a business, thought Lin Yijun to herself as she subconsciously walked toward the front of Qiqi's kindergarten

"Yijun, what are you doing?"

Just after Lin Yijun got out of the car, she saw a 24 or 25 year old woman walking toward her.

The woman was beautiful. Although she couldn't hold a candle to Lin Yijun's charms, she was still one of the rare beauties.

"Yu Li? Are you here to pick someone up?" asked Lin Yijun doubtfully as she looked at the beautiful girl.

"Yes, I am here to pick up my niece. By the way, where are you working at?" asked Yu Li as she shook her head.

"Dong Jia Electronics," said Lin Yijun.

"How are you doing there? What about

your husband then? Before I went to Europe I heard that he had failed in his business venture. Has he come to terms with it yet?" asked Yu Li with a smile.

She did have a crush on Lu Chen back then in university. However, Lu Chen did not have any interest in her at all. Hence, she still held a grudge against him all these while.

She even gave him a call deliberately to ridicule him once, when his business venture failed.

"I guess he is doing alright. Lu Chen has gotten acquainted with some big shots. So, he is doing fine." Of course, Lin Yijun would not belittle Lu Chen in front of other people even if she did not know whether Lu Chen was doing fine or not.

"Then he has some capabilities then. By the way, my boyfriend is treating Li Wenguang to dinner tonight. You can ask Lu Chen to tag along as well since we haven't seen each other for so many years," said Yu Li.

“Is Li Wenguang going as well?” Lin Yijun’s eyes gleamed. Li Wenguang was doing the best amongst all of them. She heard that he was promoted to Section Chief, while his uncle was the Deputy Director.

On the other hand, Lu Chen did have some misunderstandings with Li Wenguang in the past. If he wanted to start a business, then he would definitely need to deal with Li Wenguang.

She could use this opportunity to see if she could resolve the misunderstandings between the both of them.

Lin Yijun, who was quite naive, couldn't figure out her intentions at first, so she gave Lu Chen a call on the spot. Actually, the reason why Yu Li invited her and Lu Chen along was because she wanted to brag about her boyfriend in front of Lu Chen.

On the other hand, Lin Yijun hoped that as long as Li Wenguang was there, both of them could resolve their past grudges.

Lu Chen did have some money in his hands now. Hence, she hoped that he could start a business again. Only by starting his own business could he obtain his very own success.

Li Wenguang was the Section Chief of the Industry and Commerce Bureau. If he could build a good relationship with him, then it would be a much smoother ride for the start of his business.

After all, she did start a business with Lu Chen before this, so she was quite familiar with the relevant procedures.

Lu Chen generally would not refuse Lin Yijun as she never requested much from him before this.

Hence, he agreed to it the moment he answered her call.

After agreeing on the time and place, Lin Yijun brought Qiqi to her grandfather's house.

Since both of them were going out for a meal, they could only leave Qiqi at her grandfather's place.

"In a moment, Li Wenguang will be going there as well. Try your best to resolve the misunderstanding between the both of you," reminded Lin Yijun as they were on their way to their appointment in a car.

"Li Wenguang is going as well?" Lu Chen was surprised and found it to be quite funny at the same time.

Back then during their university days, Yu Li pursued him madly while he pursued Lin Yijun. On the other hand, Li

Wenguang was pursuing Lin Yijun as well.

In the end, he succeeded in pursuing Lin Yijun. Naturally, Yu Li and Li Wenguang did not feel that pleased about it at all.

Although his failed business venture had nothing to do with Li Wenguang, Li Wenguang did give him some trouble in the beginning.

Yu Li acted even more strangely as she gave him a call personally to ridicule him.

Today, although Yu Li and her boyfriend invited Li Wenguang out for a meal, she also invited him and Lin Yijun as well. This made it clear that she was up to no good.

Lin Yijun actually did not discover her true intentions and that made Lu Chen speechless.

However, no matter whether it was Li Wenguang, or Yu Li's boyfriend, Lu Chen did not take them too seriously. So, he

did not really care much about them.

“I will try my best. However, you must know that certain grudges cannot be resolved just like that,” said Lu Chen.

“Fine. However, it is better to do something rather than nothing.” Lin Yijun nodded her head in agreement.

“By the way, why do you want me to get into Li Wenguang’s good books? Is he targeting you?” asked Lu Chen suddenly.

If Li Wenguang dared to make life difficult for Lin Yijun, he could guarantee that Li Wenguang would not be able to keep his current position.

Although he was only a businessman, based on his power now, he was still quite capable.

“I don’t have any dealings with him, so there is no reason for him to target me. If he wants to target someone, it should be the company instead. I am just doing what is best for you,” said Lin Yijun.

“Doing what is best for me?” Lu Chen was speechless. He did not feel like he had any use for Li Wenguang at all.

“Don’t you have some money now? Do you really want to go back to work?” asked Lin Yijun rhetorically.

“Oh.” Lu Chen understood the meaning behind her words. He knew that she was encouraging him to start a business. Should he tell her the truth?

Lu Chen shook his head as he felt that this wasn't the right time to tell her the truth yet. It would be better if Lin Yijun did not know about his identity, at least not until he had the capabilities to deal with Xiao Bieqing.

Until then, he could only do something else about it.

“I don’t really know what I should do.” Lu Chen shook his head as he did not have any idea what kind of small business he should undertake at the moment.

“You don’t have to rush it. Moreover, you

can ask Wang Wei as well since you are on friendly terms with each other. He can give you some advice,” said Lin Yijun.

Wang Wei was the top executive of Jun Yue Group. Hence, Lin Yijun felt that he definitely had more experience in this field compared to Lu Chen.

“Ok, I will ask him some day,” said Lu Chen with a smile.

“By the way, I saw Hu Hong today at the entrance of the company. He was looking for you, and he seemed anxious. What happened to him?” asked Lin Yijun when she recalled the incident after she got off from her work.

“Hu Hong?” Lu Chen’s eyes gleamed as he said, “Oh, he came to see me as he wanted me to buy the supermarket that is owned by his family.”

Since he happened to be at a loss about what business he should venture into to put up a front for Lin Yijun so that her suspicions weren't roused, he said so

because her words happened to remind him of Hu Hong.

These days, the supermarket that was owned by the Hu family dared not open their doors for business anymore. Hence, he could buy it for a cheaper price.

“You want to buy the Hu family’s supermarket? The Hu family’s supermarket is worth at least 50 or 60 million. I am afraid that you can’t afford it.” Lin Yijun cast a doubtful look at Lu Chen. She was implying that he did not have that kind of money.

“Don’t you know that his family’s supermarket is going to close down soon? I bet that they will sell it to me for 10 million,” said Lu Chen confidently.

If they dared to defy his orders to sell it, he would not let them open their doors for business forever.

This was originally Lu Chen’s punishment to the Hu family.

Lin Yijun still did not believe his words as she asked him carefully, “Lu Chen, you better tell me honestly. Did you really win the jackpot last time? How much did you get? I don’t know anything about it at all.”

If he had not made the trip to Beijing, Lu Chen would tell her the truth immediately. However, he could only smile bitterly for now.

“I really hit the jackpot. Haven’t you heard that some time ago someone won 100 million in the Chongqing’s Welfare Lottery Welfare Lottery all by himself?” Lu Chen happened to come across this piece of news in the newspaper the other day. Since Lin Yijun suspected that he had won the jackpot, he could only pretend that he did, since not many people knew who won the jackpot anyway.

Screech!

Lin Yijun was stunned as she stopped the car suddenly and looked at Lu Chen with delight.

“You really won the 100 million prize a few days ago?”

For the first time in Chongqing, a lottery ticket buyer actually won the jackpot. At that time, it became a hot topic amongst the lottery ticket buyers in Chongqing. Since Lin Yijun also placed a few bets every now and then, she obviously knew about this.

Back then, she really envied that person. Unexpectedly, the person who won the jackpot turned out to be her husband.

It was such a pleasant surprise.

“There is 10 million in this card and the password is your birthday. You will know it when you check your account balance later,” said Lu Chen as he took out the bank card that he had prepared earlier and gave it to her.

“I did not give this to you the last time as I was afraid that you wouldn’t believe me,” Lu Chen added on as an explanation.

“How could I not believe you, my dear husband? I-I really want to take a look now.” She accepted the bank card from him. She believed that Lu Chen would not lie to her, but she really wanted to go to the bank to take a look for herself so she could have peace of mind.

“There is an Industrial and Commercial Bank of China in front of the entrance of Jadeite 36. You can check it later,” said Lu Chen with a smile.

Lin Yijun nodded her head. Since they were having their meal there, she could wait.

Besides, it would be against the traffic rules if she stopped the car by the road.

Furthermore, when she saw the traffic police approaching her, she quickly started the engine of the car and drove off.

Soon, they arrived at Jadeite 36. Lin Yijun asked Lu Chen to park the car as she got down impatiently to check the balance in the bank card.

Seeing Lin Yijun's excited manner, Lu Chen felt that he had made the right decision not to tell her the truth.

It was only 100 million. If he really told her the amount of wealth he had right now, she would turn mad from delight.

Lu Chen parked the car and walked toward Lin Yijun. At the moment, Lin Yijun was checking the account balance. When she saw Lu Chen walking toward her, she ran toward him and hugged him tightly and forcefully.

“Honey, is this 10 million for me?” Lin Yijun hugged Lu Chen tightly and cried jubilantly.

“I can even give you 100 million!” Lu Chen laughed. He thought, It’s better to give you everything I have, so that you don’t pressure me to start my own business.

“What do you mean, give me 100 million? The amount must be much lesser after the tax deductions. Plus, I won’t be profligate in spending this 10 million. There will be certain risks in starting a business. In case you don’t succeed on the first attempt, we can use this money to rescue the business.” Lin Yijun shook her head. She meant to reassure him that she wouldn’t spend the money recklessly and encourage him to start his own business without worrying.

Lu Chen smiled bitterly. It was difficult for him to slack off in this case.

Both of them entered the Jadeite 36. Soon they found the table reserved by

Yu Li and her boyfriend.

Yu Li's boyfriend wasn't very handsome but he seemed to be an astute man.

"This is my boyfriend, Xu Zhiheng. Zhiheng, these are my ex-classmates from college, Lu Chen and Lin Yijun. They are married to each other now." As soon as Yu Li saw them, she immediately introduced them to one another.

"Hello." Xu Zhiheng reached out his hand to shake Lu Chen's. Looking at how plainly Lu Chen was dressed, Xu Zhiheng didn't seem to have any interest in having much conversation with him.

"Hello." Seeing how apathetic Xu Zhiheng was, Lu Chen gave a slight smile and withdrew his hand.

When Xu Zhiheng shook hands with Lin Yijun, his eyes brightened. Obviously, with her show-stopping beauty, Lin Yijun was definitely an eye-catcher.

“Where are you working, Miss Lin?” Xu Zhiheng asked while shaking hands with her.

“Dong Jia Technology.” Lin Yijun withdrew her hand and took the seat beside Lu Chen.

“Oh, what a coincidence!” Xu Zhiheng exclaimed in surprise.

“Are you an employee at Dong Jia Technology too? Which department are you in?” Lin Yijun looked at Xu Zhiheng in surprise too as Xu Zhiheng didn’t look like an ordinary employee.

“No. Zhiheng has a doctorate in Management from Oxford University. He wouldn’t dream of working in a small company like Dong Jia Technology,” Yu Li said arrogantly.

What she meant was that her boyfriend was a real talent and would never consider working in a small company like Dong Jia Technology. At the same time, she was trying to disparage Lin Yijun. Look at you. An ordinary fresh

graduate can only find work in a small company like Dong Jia Technology.

Of course Lin Yijun understood what Yu Li meant. However, her personality was somewhat similar to Lu Chen—she was too lazy to care about small matters most of the time.

“Well, I applied for the position of Deputy Manager of the Human Resources department at Yi Qi Technology and had just completed my enrolment procedure yesterday. I heard Mr. Wang and Miss Xu mention Dong Jia Technology at that time and I asked them about it out of curiosity. They said that Dong Jia Technology is also a company acquired by the boss of Yi Qi Technology. That’s why I’m surprised to hear that you are working there,” Xu Zhiheng explained.

The Mr. Wang and Miss Xu that Xu Zhiheng mentioned were Wang Wei and Xu Shuting. For now, Lu Chen had appointed them as the Executive Vice Presidents of the Science and Technology Park project. If everything

went well, once the company officially moved into the Science and Technology Park after the project was completed, one of them would be promoted to be President of the Science and Technology Park and the other would remain as the Vice President.

Xu Zhiheng was trying to cotton up to Lin Yijun by saying that they were considered colleagues since Yi Qi Technology and Dong Jia Technology actually belonged to the same boss. He didn't expect Yu Li to misinterpret his words.

"Oh! It turns out that Yi Qi Technology—the company which has gone viral these days in Chongqing—is actually our boss!" Lin Yijun was stunned. She finally remembered that it was during the management meeting where the new shareholder of her company, General Manager Lu, had been stressing that he would turn Dong Jia Technology into a well-known electronics company in the country. Although General Manager Lu spoke very persuasively, not many people actually had faith in that.

But now, it seemed that once Yi Qi's Science and Technology Park project was completed, the net value of Dong Jia Technology would escalate due to that.

"But it looks like the boss of Yi Qi Technology is going to give up Dong Jia Technology and put all efforts into building the top technology kingdom in the country of his dreams." Yu Li took the chance to ridicule Lin Yijun.

"The boss of Yi Qi Technology is really rich. I heard that he is going to invest at least 50 billion into establishing the Science and Technology Park. In that case, he's going to be a super tycoon, richer than even Jun Yue Group. Yu Li, you are having an interview with the company tomorrow, aren't you? Hopefully you can pass the interview." Xu Zhiheng let out a sigh and tried to divert the topic of the conversation.

"Are you looking down on my ability? Believe me or not, I could pass the interview even if it was for the position of secretary of the chairman," Yu Li said

haughtily while lifting up her eyebrows.

Lu Chen felt amused. I would dare not to hire you if you apply to be my secretary.

He quietly leaned on the couch while enjoying his tea. Listening to Lin Yijun, Yu Li and Xu Zhiheng talking about him and his company, an inexplicable feeling rose within him.

Xu Zhiheng smiled and didn't reply to her. Yu Li felt slightly disappointed as she initially wanted to be more flirtatious with Xu Zhiheng in front of Lu Chen. Yet, Xu Zhiheng didn't realize her intentions at all.

"Lu Chen, where are you working now?" Feeling bored, Yu Li finally looked at Lu Chen who was bored as well and asked.

"I'm jobless," Lu Chen shrugged.

"Sigh, it seems that the failure of your business back then has hit you hard. You have not recovered from the heavy blow yet, have you?" With a laugh, Yu Li

said mockingly.

She thought of the time she put her pride second and confessed to Lu Chen in public. However, she was rejected directly by him, which turned her romantic fantasy into a joke in college.

It had been almost five years and she had held onto this grudge all this time.

“Hmm, it’s fine. Perhaps after a few more failed attempts, the business will be a huge success the next time I try,” Lu Chen said indifferently, not taking her contempt seriously.

“Do you think that starting a business is as easy as doing a science experiment which allows you to try again endlessly? If that’s the case, why don’t I see you trying it again now?” Yu Li said scornfully.

“I am. I’m establishing my own startup now.” Lu Chen said, shrugging.

Snort, Yu Li sneered to show her disbelief.

Lu Chen shrugged again and was too lazy to explain much.

“Since you were once my classmate, why don’t I ask Zhiheng to arrange a position for you in Yi Qi Technology,” Yu Li said, disdain clear on her face.

Lu Chen laughed bitterly to himself. As expected, Yu Li had other intentions for arranging such a meeting today.

After listening to Yu Li’s offer, Lin Yijun hesitated.

Although she hoped that Lu Chen could try to start his own business all over again, she was not confident that he would succeed this time as she thought of his last failure. If he failed once again, they were only left with the 10 million.

A quick thought flashed through her mind—if Lu Chen could secure a job in Yi Qi Technology with a position at management level, he would be earning at least 1 million a year, which was much more stable than starting his own

business.

“Yu Li, can you really help Lu Chen to secure a job in Yi Qi Technology?” Lin Yijun turned to Yu Li with a hopeful look.

“Yijun, don’t tell me that you really want Lu Chen to work at Yi Qi Technology? Since he doesn’t have any skills and he only graduated from an ordinary university, I’m afraid that he would have to start working as a part-timer to get in the company at all,” Yu Li said with a smirk.

“In fact, looking at Lu Chen’s physical condition, I can arrange for a security guard position for him once I start working in the company, even though he doesn’t have a certificate of discharge.”

Looking at Yu Li’s unfavorable attitude toward Lu Chen, Xu Zhiheng took the chance to ridicule him too.

“Right, Lu Chen’s build is definitely suitable for a security guard. Zhiheng, you should arrange a security guard job for Lu Chen when you go to the company,” Yu Li suggested and laughed.

Lin Yijun was obviously displeased by what Xu Zhiheng and Yu Li said. Do we even need your help in finding a security guard job?

Moreover, although Lu Chen did work as a security guard before, he’s a billionaire now. If it weren’t for us wanting to ensure a stable life, I wouldn’t have allowed him to go to work, alright?

“Sure, I’ve previously worked as a security guard at Dong Jia Electronics. I hope it won’t be much trouble for Vice Manager Xu,” Lu Chen responded and smiled lightly.

“D-Don’t tell me that you really want to work as a security guard at Yi Qi Technology, do you?” Lin Yijun asked. She was taken aback.

“What’s wrong with being a security

guard? No job is noble or humble, right?" Lu Chen chuckled.

Lin Yijun rolled her eyes; she was prepared to discuss this further with Lu Chen at home.

She was the Director of Sales now, so how could she let Lu Chen continue being a security guard? Even if they weren't working under the same company, they were still under the same boss.

The main point was, Lu Chen was a billionaire now. He couldn't possibly just be a security guard even though he wanted to keep things low-key.

"Alright, as long as you treat us to this meal, Zhiheng will settle things for you." Yu Li looked at Lu Chen mockingly. Although she was fine with paying a few thousand for a meal, she still wanted to make things difficult for Lu Chen so that she could somehow comfort herself.

"No problem. We haven't ordered yet, right?" Lu Chen nodded and asked.

“Not yet. The star of the show today is Li Wenguang, so let’s order after he has reached,” Yu Li answered.

Right then, Yu Li’s phone rang. She went out to answer the call and quickly came back, a young man behind her.

The young man, who was approximately 1.75m tall, was dressed in a crisp business suit. He looked much more formal especially when compared to Lu Chen who was dressed casually.

This young man was Li Wenguang, the section chief of the Industry and Commerce Bureau.

Li Wenguang frowned when he noticed Lin Yijun and Lu Chen.

“You guys are here too,” Li Wenguang sized Lu Chen and Lin Yijun up and greeted them with a stoic expression.

“Yes, we came by too,” Lu Chen greeted back and smiled lightly.

“Section Chief Li, we came by to join

you guys when I heard from Yu Li that they were treating you to a meal. I hope you won't mind," Lin Yijun explained and grinned.

"My dear Miss Lin, what are you even talking about? What kind of person do you think I am?" Li Wenguang jokingly teased. He wasn't expecting Lin Yijun and Lu Chen to join them.

He didn't have a favorable impression toward Lu Chen because he lost Lin Yijun to him back then.

However, as an elite in the system, Li Wenguang learned to conceal his feelings. Even if he hated someone, he wouldn't express it.

"Waiter, please take our order." Lu Chen didn't want to wait any longer since Li Wenguang had arrived. He knew that this meal was going to be distasteful and wanted to leave as soon as possible.

Disdain flashed in Li Wenguang's gaze as he stared at Lu Chen. He couldn't

understand what Lin Yijun saw in Lu Chen who he deemed rude and ignorant.

“By the way, we have a class reunion happening tomorrow. No one has informed you guys yet, right?” Li Wenguang asked as he looked over to Lu Chen.

The class reunion was actually his idea, but it was held by another classmate. He had initially planned to not invite Lu Chen or Lin Yijun.

However, he changed his mind now. He wanted Lin Yijun to regret choosing that loser, Lu Chen, over him.

So, he had decided to invite them along now.

Lu Chen knew what Li Wenguang was up to. He smiled and went along with him, “Is it free? We will go if it’s free.”

Li Wenguang, Yu Li, and Xu Zhiheng sneered at this. They had not noticed it earlier, but they felt like Lu Chen was

becoming more and more of a cheap loser right now.

Lu Chen took in their reaction and chuckled lightly.

Lin Yijun's eyebrows knitted in confusion; she didn't know what Lu Chen had up his sleeves.

"Don't worry, you don't have to pay for the class reunion at all." Although Li Wenguang was grinning, he scorned at him silently.

This was the Lu Chen that had beat me back then?

The man that Lin Yijun had her eyes on?

Li Wenguang smirked to himself. Tomorrow, he would show Lin Yijun how incompetent Lu Chen was and make her regret getting married to him!

"It's okay, Lu Chen. You don't have to treat us anymore. It looks like you won't be able to afford it even if we let you treat us anyway. Just let me treat you

guys to this meal today.” Yu Li shook her head a little. She felt relieved that Lu Chen had rejected her advancements back then.

She couldn't bear it if she was actually married to a loser like him.

I bet Lin Yijun regrets getting married to him too.

Yu Li glanced at Lin Yijun and thought wickedly.

“How could that be? We've already decided that Vice Manager Xu will give me a job if I treat all of you to a meal,” Lu Chen protested awkwardly.

“Huh? Zhiheng is offering to help Lu Chen find a job? Is Lu Chen still jobless?” Li Wenguang laughed.

“Yes, I am. Section Chief Li, why don't you recommend me to some jobs too?” Lu Chen responded while he glanced over at Li Wenguang.

“Well, our bureau is still hiring. However,

the entrance exam for it is very strict so there's a chance that you might not pass it. Oh, we are also looking for a new janitor. You don't need to take an entrance exam for that, so tell me if you're interested and I can arrange it for you," Li Wenguang explained and grinned.

What he implied was that Lu Chen didn't have the qualifications to be a civil worker, and he even needed his help to get a job as the janitor in the bureau.

This was to humiliate Lu Chen as well as place himself on a pedestal in front of Lu Chen.

Yu Li and Xu Zhiheng couldn't contain themselves and burst into fits of giggling as they looked at Lu Chen mockingly.

Lin Yijun's facial expression was grim. She did not expect Yu Li and Li Wenguang to harbor such hatred toward Lu Chen.

Right when she was about to reveal that

Lu Chen was actually rich, she was interrupted by him.

“No job is noble or humble. Section Chief Li, do you think that working as a janitor is laughable?” Lu Chen was staring right at Li Wenguang, his expression unreadable.

Li Wenguang was taken aback, and his gaze at Lu Chen became complicated. He didn't expect to be deliberately put in his place by Lu Chen.

As an elite member of the system, if the conversation between him and Lu Chen were to be leaked, it would certainly cause damage to his reputation.

It seemed as if Xu Zhiheng noticed this too as he hurriedly changed the topic, “Lu Chen, you don't have to treat us today. Just go to Jun Yue Tower and ask for me at the Human Resources department the day after tomorrow. I will arrange a security guard job for you.”

“Sure, thank you, Vice Manager Xu,” Lu

Chen thanked and smiled cheekily.

“It’s fine. Let’s eat now.”

Xu Zhiheng chuckled, then lifted his wine glass and gave Li Wenguang a toast.

“To Section Chief Li, I give you this toast, may your career reach higher grounds.”

Li Wenguang lifted his wine glass in Xu Zhiheng’s direction, “I wish that you will be successful in your career, too.”

After clinking glasses, the both of them started making small talk, blatantly ignoring Lu Chen and Lin Yijun.

Even Yu Li too, only toasted Li Wenguang.

Lin Yijun felt awkward; she didn’t expect this meal to escalate this way.

She just wanted the misunderstanding between Lu Chen and Li Wenguang to be resolved. However, it seemed like the

misunderstanding between them became even deeper.

Lin Yijun sat there without touching her chopsticks since Yu Li and the others paid them no mind. However, Lu Chen had already started eating happily, seemingly unaffected.

“Aren’t you guys a member of this place?” Li Wenguang asked Yu Li.

“Yeah. You have to pay a deposit of 500,000 to become a member here. It isn’t cheap.” Yu Li shook her head. Only existing members of Jadeite 36 were able to book a private room there, hence many customers still got memberships although a down payment of 500,000 was needed.

“I’m friends with the manager, Qiu Jian. I’ve texted him already. When he comes by later I’ll tell him to let you guys pay a smaller amount for the deposit,” Li Wenguang said with a sense of superiority.

“Sure, I will have to thank you for that!”

Yu Li's expression brightened from his comment. Although they rarely dined here, with Xu Zhiheng's new position as a member of Yi Qi Technology's executive board as well as her role in management, both of them will need to engage in many business banquets. It was necessary for them to pay for a membership at the Jadeite 36.

Just like today, if they had the membership card, they wouldn't have needed to treat Li Wenguang at a table outside.

If they were to treat guests, of course it was more appropriate for them to get a private room.

After receiving Li Wenguang's message, Jadeite 36's manager, Qiu Jian, quickly came over. After all, Li Wenguang was a section chief, so he should give him a toast in respect if he was dining here.

"Manager Qiu, we're here!" Li Wenguang waved from afar and greeted Qiu Jian.

His loud voice managed to attract the attention of the people around them.

Li Wenguang, Yu Li and Xu Zhiheng stood up to greet Qiu Jian who was heading over to their table. Lin Yijun glanced at Qiu Jian for a moment before looking away as she didn't know him.

Lu Chen on the other hand didn't even look up as he continued eating quietly.

"Manager Qiu, these two are my friends, Yu Li and Xu Zhiheng," Li Wenguang introduced the two of them, naturally neglecting Lu Chen and Lin Yijun again.

Qiu Jian shook hands with the both of them before his gaze fell on Lu Chen

and Lin Yijun.

Right then, his gaze met with Lu Chen's.

"Manager Qiu, let me give you a toast."
Yu Li poured a glass of wine and handed it to Qiu Jian.

Qiu Jian fixated his gaze on Lu Chen. He ignored the wine glass passed to him and headed over toward Lu Chen.

"Y-Young Master Lu, you're here too,"
Qiu Jian greeted respectfully.

Yu Li who was holding the glass immediately froze and stared at the scene in front of her in shock.

Young Master Lu?

Did Manager Qiu recognize the wrong person?

What kind of young master was that loser?

However, both Li Wenguang and Xu Zhiheng frowned. Each of them were

having their own suspicions.

Lin Yijun's mouth fell open and stared at Qiu Jian who stood before them dutifully in shock.

The managers here could not be compared to just anyone. Even someone like Li Wenguang had to pay them respect. However, they did not expect him to be humbly paying respect to Lu Chen.

"Yes." Lu Chen nodded.

"Young Master Lu, do you want me to move you all into the Imperial Suite?" Qiu Jian inquired.

"It's fine. Go do your job, I'm just having a meal with a few of my classmates," Lu Chen responded and waved him off.

This made the three of them feel awkward; they had not paid attention nor offered a toast to Lu Chen and Lin Yijun.

"Alright, Young Master Lu." Qiu Jian

nodded. Then, he gave Li Wenguang and the others an apologetic look and left.

Li Wenguang and the others were honestly taken aback at how Qiu Jian treated Lu Chen.

Qiu Jian had been invited over by Li Wenguang. A moment ago, he was shaking hands with them warmly and almost had a toast with them.

However, he immediately turned into a loyal follower when he saw Lu Chen and left obediently after Lu Chen had waved him off, not even daring to greet his old friend anymore.

No, this wasn't obedience; instead, it was like he was terrified of Lu Chen.

Li Wenguang looked at Lu Chen intently, his gaze filled with mixed emotions.

What happened was something he had never imagined before.

“Lu Chen, I did not expect you to hide so

much from us. I can't believe you still asked for Zhiheng to get a job for you just now! You're so mean! You must be punished, so take a shot!" Yu Li pouted and looked flirtatiously at Lu Chen as if she hadn't just mocked him a few moments ago.

"Don't misunderstand me. I am just friends with his boss. He just paid me some respect because of his boss," Lu Chen explained and grinned.

So that was what had happened.

The three of them sighed in relief.

A disdainful look flashed past Yu Li and Xu Zhiheng's gaze again.

However, Li Wenguang still felt that something wasn't adding up as he pondered about it.

Qiu Jian was also a person of considerable status, so how could he act in such a way in front of Lu Chen?

Even if Lu Chen was friends with his

boss, he wouldn't act like this.

No, he must get Lu Chen to attend the class reunion tomorrow to dig further into his background.

“Lu Chen, our class reunion tomorrow will start at 6 in the evening on the 15th floor of Peng Lai Hotel. Remember to arrive on time,” Li Wenguang reminded playfully.

“Sure, sure. I won't pass up on free food,” Lu Chen laughed along in response to him.

What Li Wenguang was planning was clear as crystal. Lu Chen decided to play along with him.

After all, Li Wenguang also gave him quite a lot of trouble when he last tried to start his own business.

Li Wenguang chuckled, not taking Lu Chen's reply seriously.

After knowing that Lu Chen only knew the founder of Jadeite 36 and not

another big shot, Yu Li and Xu Zhiheng's enthusiasm slowly died down. It was obvious that they weren't as nice as before anymore.

However, after that, they still took the initiative to invite Lu Chen and Lin Yijun for a toast with them.

The meal seemed blander than before and the chat quickly died down. The meal session quickly reached an end in no time.

Before leaving, Li Wenguang again reminded Lu Chen and Lin Yijun to join the reunion tomorrow.

After getting into the car, Lin Yijun did not rush to the car to leave. Instead, she turned and faced Lu Chen.

"What's the relationship between you and the proprietor of Jadeite 36? Don't tell me that you helped him out before, too?" She still remembered how Lu Chen explained his relationship with Wang Wei last time.

“Wow honey, right on the mark! Do you still remember the bank robbery incident three years ago?” Lu Chen chuckled and asked.

Lin Yijun nodded before exclaiming in shock, “Did you really help the proprietor of Jadeite 36 too?”

“Of course. I was in the process of withdrawing money when I crossed paths with the founder of Jadeite 36 who was withdrawing his money too. During that time, the robber that robbed him threatened to kill him. Fortunately, I managed to save him from the hands of the robber right in time,” Lu Chen explained seriously.

Of course, the bank robbery incident did happen. He’d told Lin Yijun about it before.

However, the person that he rescued was just some stranger, not the proprietor of Jadeite 36.

Lu Chen had to make up some stories to prevent Lin Yijun from overthinking.

However, it had been proven that, the moment you started lying, you would have to continue sprouting up lies after lies to cover your tracks.

Lin Yijun nodded in understanding. What happened three years back still made her feel scared for Lu Chen. So after he explained it to her, she stopped doubting him.

“Looks like there are still some benefits in being able to put up a fight,” Lin Yijun exclaimed.

“Of course! When I was a kid, my dad used to tell me that it is not enough for a man to be rich, he must have a fit body too. That’s why I trained so hard in martial arts when I was younger and kept at it for more than ten years.” Lu Chen went along with her.

Lin Yijun nodded and stopped questioning any further.

They reached her parents’ house in no time and bumped into Wang Xue who had just come back from work as they

parked their car.

Noticing that Lu Chen and Lin Yijun had come down from an Audi A6, Wang Xue gasped, "Yijun, you bought a new car?!"

Lin Yijun gave Lu Chen a look. Just when she was about to reveal that it was Lu Chen who bought it for her, Lu Chen cackled and interrupted her, "Of course, Yijun had just been promoted to the Director of Sales. Surely, she needs a car that can match up to her status."

"Sure, my daughter bought her own car after getting promoted to Director, but when will it be your turn to get promoted to Director and get your own car?" Wang Xue looked at Lu Chen incredulously.

"Soon, soon." Lu Chen laughed it off. He swore to not visit anymore after his father-in-law's birthday. But, he changed his mind now.

Wang Xue and Lin Yijia had loose mouths. He couldn't possibly reveal his identity to them.

“By the way, why was Manager Qiu from Jadeite 36 so attentive toward your demands and even gave you the Imperial Suite the last time we went there?” Wang Xue recalled what happened when they dined at Jadeite 36 and questioned.

After what happened back then, she started suspecting that Lu Chen might have hid something from them. So, she wanted to call him out in front of her daughter today to see if he lied to her daughter too.

When her mother brought up the issue, Lin Yijun spoke up before Lu Chen could reply. "Mum, Lu Chen knows the proprietor of Jadeite 36! We went there for lunch today, and Manager Qiu even came over to greet us."

Wang Xue's eyes lit up. "You know the proprietor of Jadeite 36?! How do you know him?" she asked eagerly.

Lu Chen was amused. He was the proprietor of Jadeite 36 whom he had referred to!

"Mum, do you still remember the bank robbery three years ago? Lu Chen saved him from the robbers back then. That's why the staff at Jadeite 36 are all so respectful to him," Lin Yijun repeated the nonsense that Lu Chen had spouted to her.

Though Lu Chen roared with laughter inside, he couldn't help worrying about the day Lin Yijun found out the truth. Would she get mad and call him a liar?

But he had no choice but to stay under

the radar; there was an axe hanging over him and he wasn't strong enough yet.

"He owes Lu Chen his life! No wonder he reserved the Imperial Suite just for him." Wang Xue nodded in understanding and her eyes suddenly lit up. "Since you saved his life, can't you ask him to arrange a position for you at Jadeite 36? A position in management would be good."

"Mum, what are you talking about? Some contacts can't be used just like that. These are one-time favors," Lin Yijun argued.

"Isn't arranging a position for Lu Chen just a matter of giving a few orders? You must be silly for not using such contacts. If you were in management, you'd be able to arrange a private room for me when I bring my clients there! Now that would be impressive," Wang Xue put forth in all seriousness.

Both Lu Chen and Lin Yijun were at a loss for words.

Did she really have to be so shrewd?

You want the proprietor of Jadeite 36 to arrange a management position for me, just so that you can show off when you entertain clients?!

“Mum, don’t bring this up again. Lu Chen has his own job.” Lin Yijun knew Lu Chen. If he had wanted to find a job by pulling strings, he would have sought Wang Wei out long ago. It was one of the points she admired about him—he never asked for help without any good reason.

“Lu Chen’s job as a security guard is better than a place in the management of Jadeite 36? What dunderheads the two of you are,” Wang Xue exclaimed, aggrieved.

But all the same, her attitude toward Lu Chen improved and she was less harsh than before.

“Oh, yes. Didn’t you ask me about the person who helped us from behind the curtains?” Lin Yijun tried to divert her

mother's attention.

"Who is it? He's helped us not once but twice. We need to thank him properly," Wang Xue asked. Though she could be unkind toward Lu Chen, she was always grateful to those who had helped her.

"It's Lu Chen," Lin Yijun announced with a smile. She'd always wanted to change her mother's impression of Lu Chen for the better; this was just the opportunity.

"Lu Chen? If he's so great, why is he a security guard?" Wang Xue studied Lu Chen suspiciously.

Lu Chen kept silent as Lin Yijun explained. "Do you remember Manager Wang, Wang Wei, from Jun Yue Group? Wang Wei also owes Lu Chen his life. Lu Chen mentioned your business deal to Wang Wei, and that's why Jun Yue Group decided to sign the deal with you.

"God! If you have contacts like that, why don't you use them instead of working as a security guard? If you had asked Wang Wei to find you a job, it would at

least be better than your current one!”
At a loss for words, Wang Xue just pointed toward Lu Chen.

Why was this son-in-law of hers so stupid!?

“All I have is some brute strength, so what can I do with it other than work as a security guard? I’d just be putting Manager Wang in a difficult position,” Lu Chen explained, grinning.

“You-! Ah, whatever. I can’t be bothered to tell you off.” Wang Xue shook her head in exasperation. With a son-in-law like this, what could she do but try to suppress her anger?

“Even if you insist on working as a security guard, why don’t you go to Yi Qi Technology? The salary and benefits that you receive there will definitely be better than what you’re getting at Dong Jia Electronics,” Wang Xue carried on.

“Alright. I’ll ask Wang Wei whether he can help,” Lu Chen smiled wryly.

His mother-in-law was something else.

“Oh, yes. Yijun, did you notice? How Yi Qi Technology sounds funny?” A thought occurred to Wang Xue and she suddenly looked toward Lin Yijun.

“What about it sounds funny?” Lin Yijun didn’t get it.

“You and Qiqi’s names! Think about it.” Wang Xue was mind-blown.

Lin Yijun paused. Wasn’t it a combination of her and her daughter’s names?

Could it be just a coincidence?

Lin Yijun looked toward Lu Chen, alarming him. Lu Chen quickly flashed a grin and dissuaded her. “What’s there to puzzle over? It’s sheer coincidence. Otherwise, do you really think Yi Qi Technology belongs to me?”

“Hmph! I’d die laughing if Yi Qi Technology did belong to you.”

Wang Xue looked at Lu Chen disdainfully. What she'd actually wondered was whether Yi Qi Technology belonged to an admirer of Lin Yijun.

Not to blow her own trumpet, this daughter of hers was still one of the most beautiful women in Chongqing despite having married and borne a child. It was a terrible shame that she'd married that loser, Lu Chen.

They went back into the house where Qiqi was playing with her maternal grandfather, Lin Dahai, when Wang Xue pulled Lin Yijun into a room excitedly.

"Yijun, tell me the truth. Is the owner of Yi Qi Technology an admirer of yours?" Wang Xue asked in hushed tones.

Lin Yijun was at a loss for words. "Mum, what are you talking about? I don't even know the guy."

"Think about it. Maybe you just don't know that he's actually the owner of Yi Qi Technology? What other reason

could there be to use a combination of your and Qiqi's names as the company name? Maybe he's telling you that he doesn't care that you have a child, that he'll take good care of her," Wang Xue ranted, in her own world.

Lin Yijun rolled her eyes. Her mum was really too much.

However, nagging doubt clawed at her. It was too much of a coincidence. Could it really be like her mother said?

"Mum, I'm warning you. Don't bring this up in front of Lu Chen ever again." Lin Yijun knew how Lu Chen's mind worked. If he suspected anything about this, he would definitely pick a fight with her.

She didn't care about others' opinions; she just cared about Lu Chen's.

Oh, if only Lu Chen really owned Yi Qi Technology!

Lin Yijun sighed to herself.

"So what if he hears me? He only has

himself to blame for not being capable enough. Think hard about it. If the owner of Yi Qi Technology really is interested in you, you should consider it properly. I hear that Yi Qi Technology is a mega-conglomerate, larger than even Jun Yue Group. Think of what you can do to help your family if you get remarried to a tycoon like that,” Wang Xue persuaded earnestly.

Wang Xue had always been a shrewd woman. She had two beautiful daughters and had always hoped that they would marry into crazy rich families, which was why she’d blown a gasket when Lin Yijun had just eloped with Lu Chen and quietly registered their marriage. Now that she saw another chance to let her daughter marry into money, she couldn’t care less about Lu Chen.

“Mum, if you keep spouting nonsense, I won’t come back.” Angered, Lin Yijun flung the door open and strode out of the room.

She crumbled a little at the thought of

her mother's antics.

Back in the hall, Qiqi ran into Lu Chen's arms as he made conversation with Lin Dahai.

His initial impression of Lu Chen hadn't been good either, but his attitude toward Lu Chen had changed for the better ever since Qiqi was born.

Especially since Lu Chen had given him a Song Dynasty Chalice for his birthday, his opinion of Lu Chen had improved significantly, to the point where he had uttered, 'Now this is my great son-in-law!'

"What do you know about antiques?" Lin Dahai asked Lu Chen. Since Lu Chen had been able to pick out the Song Dynasty chalice in the antiques shop, he felt that Lu Chen wasn't a novice in that regard.

"I've dabbled in it before, so I know a little," Lu Chen replied humbly. Elder Yun was a true connoisseur; Lu Chen had followed him around, learning a little of this and a little of that, and had gathered significant amounts of

exposure and knowledge of antiques along the way.

Truth be told, if he'd been interested in the antiques trade, he could easily have found a job that paid 70-80,000 with his expertise.

"Okay. There'll be an antiques fair at the Shangri-La Hotel at 7 p.m. the day after tomorrow. Come with me and we'll see if we manage to snag a treasure or two." Lin Dahai nodded. It was fine as long as Lu Chen knew something about the trade.

He too felt that being a security guard was unacceptably menial for Lu Chen and wanted to bring him into the antiques trade.

It probably wouldn't be difficult to introduce him to a job that paid at least a few tens of thousands a month then.

Lu Chen was touched; he knew what Lin Dahai was trying to do.

The way Lin Dahai and Wang Xue

treated him was completely different.

Wang Xue only wanted him to succeed and let it rub off on her, whereas Lin Dahai was figuring out a way to help him find a better job.

“Of course, Dad. I’ll definitely be there,”
Lu Chen nodded and said.

Just then, Lin Yijia walked through the door followed by a young man.

Lu Chen threw a glance at him and recognized him as the young man who had been with Wang Xue and Lin Yijia at Jadeite 36 back when Lu Chen had invited Du Fei and Xu Jing for dinner.

The young man was Di Fu, Assistant Director of Sales at Yun Fei Group.

Yun Fei Group was the largest retailer of jewelry in Chongqing and an asset of the Zuo Family from the Four Major Families.

Di Fu took a quick look at Lu Chen, feeling uncomfortable. He’d been

embarrassed by Lu Chen back at Jadeite 36, after all.

Back then, he'd fallen head over heels for Lin Yijia when Wang Xue had brought her along to the business meeting, and he'd been pursuing her ever since.

Wang Xue was fixated on marrying her daughter into a rich and powerful family, bringing Lin Yijia along whenever she went on business meetings.

Di Fu's gaze shifted away from Lu Chen as he greeted Lin Dahai. "Good afternoon, Uncle Lin."

"Oh, Di, you're here. Come, sit." Lin Dahai nodded and invited Di Fu to take a seat.

Lin Yijia poured the tea, then sat to one side and played with Qiqi.

"Lu Chen, this is Di Fu. He's the assistant director of sales at Yun Fei Group, the organizer of the antiques fair that we're going to. Di, this is Yijia's brother-in-law, Lu Chen. He's quite

knowledgeable in antiques. And he will accompany me to the antiques fair the day after tomorrow.” Lin Dahai introduced them to each other.

“Mr. Lu, nice to meet you.” Di Fu smiled and hastily shook hands with Lu Chen. He didn’t dare to affront Lu Chen, whom even Manager Qiu from Jadeite 36 had welcomed so warmly.

“Nice to meet you.” Lu Chen greeted Di Fu with a mild expression and shook his hand briefly.

“Di, is your company still looking to hire a jewelry appraiser?” Lin Dahai asked.

“We are. Young Master Zuo is hoping to find a true master in appraising antiques during the upcoming fair,” Di Fu replied.

“Good. Then would you be able to take a moment to introduce Lu Chen? He has a good eye for antiques. On my last birthday, he gave me a Song Dynasty chalice that he snagged for just a thousand dollars,” Lin Dahai vouched for

Lu Chen.

A Song Dynasty chalice?

Di Fu was astounded. Something like that is worth millions! This fellow's luck is insanely good.

"Of course, of course. I'll be sure to introduce Mr. Lu to Young Master Zuo during the fair," Di Fu declared, having gotten over the shock.

But the respect he'd held for Lu Chen crumbled to ash.

I thought that Lu Chen was some major player because Manager Qiu from Jadeite 36 treated him so respectfully.

Yet he needs to ask my help in finding a job.

So this guy is just trash after all.

Despite the disdain he felt for Lu Chen, Di Fu didn't betray any of it before the Lin Family.

“Alright. And thank you for taking the trouble.” Lin Dahai nodded, thinking that Di Fu was a nice young man.

“The Young Master Zuo that you’re referring to is Zuo Qingcheng, am I right?” Lu Chen abruptly turned toward Di Fu.

“That’s right. Young Master Zuo is first in line to succeed the Zuo Family—he controls up to half of the Zuo Family’s assets. Do you know Young Master Zuo as well?” A hint of derision flashed in Di Fu’s eyes as he regarded Lu Chen.

How could trash that needs to ask for help in finding a job know Young Master Zuo?”

“Yes, we’ve met before.” Lu Chen was filled with mirth when he thought of how Zuo Qingcheng had tried to impress him when Lu Chen had been scouting the company site.

Of course, the Four Major Families of Chongqing were all extremely capable. Lu Chen did not dare to underestimate

them in the least.

At the very least, he didn't dare to underestimate them before getting a proper foothold.

Although he was on good terms with the head of the city council, even the head of the city council held the Four Major Families in high regard.

The Four Major Families had been conducting business in Chongqing for decades; they had contacts in all the major departments of the city council, contacts that formed a deep-rooted network. Even Jun Yue Group—which had eclipsed them for a time—had maintained good relations and in fact, cooperated with them.

To tell the truth, Lu Chen would happily cooperate with them if the opportunity arose.

“Oh. Young Master Zuo can be quite high-key at times. Quite a lot of people know him,” Di Fu remarked sarcastically in response to Lu Chen.

Lin Dahai hadn't noticed the hidden meaning in Di Fu's words, but how could Lu Chen miss it?

However, he just smiled in response.

Lu Chen left with his family once Lin Yijun came out of the room.

Early the next day, Lu Chen sent Qiqi to kindergarten then proceeded to give the Three Marquises of the Water Margin a call, telling them to send Hu Hong to find him at Dong Jia Electronics.

Yesterday, Lin Yijun had asked him to try his hand at business again, so Lu Chen wanted to buy the Hu Family's supermarket to indulge her request.

After making the call, Lu Chen headed straight for Dong Jia Electronics.

Meanwhile, a black cloud hung over each and every member of Dong Jia Electronics, no matter their position in the company.

The Jun Yue Group's dissolution had

made them uncertain as to the company's future.

Someone had leaked the news that their largest shareholder was the Young Master of Jun Yue Group. Now that even Jun Yue Group had been dissolved, would a small company like Dong Jia Electronics be able to survive?

Even Xia Jun was restless. Lu Chen hadn't looked for him, and neither had he looked for Lu Chen.

He was in a dilemma.

If Lu Chen didn't sell his stake, I believe that the company will grow from strength to strength.

But if Lu Chen does sell his stake, then I can either buy back Lu Chen's stake, or I can liquidate my own stake and let Dong Jia Electronics dissolve as well.

Regardless, he really hoped that the two latter situations would not come to pass.

“General Manager Xia, General Manager Lu is here. I just saw the guards parking his car for him,” his secretary came in and reported just as he was agonizing over it.

“He’s finally here?” Xia Jun stood up hastily, prepared to give his seat to Lu Chen.
