

Top Student: Experience Infinite Occupations

Chapter 15: Results and Placement

Teacher's office.

Tian Wenming looked at the test results on the form.

First place, Li Chengqian, 100 marks.

Second place, Bi Jialiang, 58 marks.

Third place, Mu Dehui, 33 marks.

Fourth place, Zhang Liangjin, 18 marks.

Tian Wenming did not continue reading because none of the students below scored more than 10 marks.

"This kid's studies are not good, but his talent in information technology and programming is especially solid!" Even if Tian Wenming did this set of questions, it was impossible for him to achieve full marks.

"Compared to Li Chengqian, Bi Jialiang is far inferior in terms of their grasp of the theories." In the past, Tian Wenming had pinned his hopes on Bi Jialiang. Now, he seemed so so only.

"However, many specific problems need to be mathematically modeled if they are to be solved through a program."

"Li Chengqian's mathematics..." Thinking of Li Chengqian's mathematics results, Tian Wenming couldn't help but frown.

"Li Chengqian's mathematics is poor. As long as we assign him a teammate who is good in mathematics, one will be in charge of modeling, and the other will be in charge of programming." Tian Wenming had already begun to plan for Li Chengqian.

Just as Tian Wenming was thinking, the students who had taken the exam the day before appeared at the office one after another.

Li Chengqian and the other three were the last to arrive.

"Teacher, the people who took the exam yesterday are all here. Can you announce the results now?" Mu Dehui was the first to arrive. He didn't get to see the results after he arrived, as he was tasked by Tian Wenming to maintain order.

"Alright!" Tian Wenming picked up the results form and walked out of the office.

He glanced around and confirmed that everyone had arrived. He thought for a moment and waved the results sheet in his hand in public. "Students, 25 people took the exam yesterday."

"Only one student passed."

As soon as Tian Wenming finished speaking, Bi Jialiang revealed a smug smile.

"Bi Jialiang, the person who passed must be you. You told me yesterday that you could only score 68 points..." Jian Qingli deliberately said this as she looked at Li Chengqian.

Yesterday, Li Chengqian boasted shamelessly that the questions were very simple. Now that the results were out, the only person who passed was Bi Jialiang.

That meant that Li Chengqian did not pass.

She purposely looked at Li Chengqian to see if he would blush.

"Of course it's me!" Bi Jialiang was extremely confident.

At this moment, Tian Wenming waved the report card in his hand. "The only person who passed this exam is Student Li Chengqian. He scored full marks!"

BOOM!

This piece of news struck Jian Qingli and Bi Jialiang like a thunderbolt.

Jian Qingli looked at Li Chengqian in disbelief, her eyes almost popping out of their sockets. Her mouth was so wide open, it was big enough to stuff a goose egg inside.

"Teacher, who did you say passed the exam?" Bi Jialiang thought he heard wrongly and asked with a trembling voice.

"Li Chengqian passed!"

"You scored 58 marks, you missed by two marks." Tian Wenming told Bi Jialiang his score.

When Bi Jialiang heard this, he was shell shocked and his face turned ashen.

He had always looked down on Li Chengqian, and had always thought that Li Chengqian only signed up to try his luck.

However, the results of the exam were like a loud slap to his face.

He now understood that he was the real loser!

In the past, he was like a clown, ignorant and arrogant, putting on an act in front of Li Chengqian.

Who knew how many times he appeared a fool in front of Li Chengqian.

At the thought of this, Bi Jialiang's face turned as red as a monkey's butt.

He raised his head and saw Li Chengqian and Ding Ling smiling and looking at him.

His face flushed. "They must be laughing at my arrogance and ignorance."

Then, he felt that everyone was looking at him mockingly. They were all mocking his arrogance and ignorance.

Bi Jialiang couldn't stand still anymore. He didn't even care about Jian Qingli. He turned around and ran away.

"He actually scored full marks! Li Chengqian actually really scored full marks!" Jian Qingli's face was filled with disbelief, and she was shell shocked.

Li Chengqian had already told her before that he could score full marks.

But Jian Qingli didn't believe him at all. She felt that Li Chengqian was bragging! She had always thought that was just trying to get her attention!

Because in her heart, Li Chengqian was a nobody.

She even wanted to use Li Chengqian's words to mock him after the results were announced.

Now that the results have been announced, she realized that she was wrong. Absolutely wrong.

Li Chengqian, whom she looked down on, was actually the most formidable person.

Bi Jialiang, whom she had always thought the world of, was nothing compared to Li Chengqian.

Thinking of her attitude towards Li Chengqian these few days, as well as those hurtful and sarcastic words, Jian Qingli felt her face flush.

She felt that everyone around her was looking at her with disdain.

...

Jian Qingli was filled with regret. "Why did I say those hurtful words to Li Chengqian..."

"However, this matter can't be entirely blamed on me. If Li Chengqian had told me earlier that he knew how to program, I wouldn't have made such a mistake!" A wave of resentment washed over Jian Qingli.

"Why, why didn't Li Chengqian tell me this earlier!"

Jian Qingli left with Bi Jialiang in a sorry state.

"Li Chengqian, I'm guessing that Jian Qingli must be very regretful!" Ding Ling had a smile on the corner of her mouth as she looked at the sorry state that Bi Jialiang and Jian Qingli were in. She felt that had been vindicated and she felt such a relief.

"Perhaps, but what does it have to do with us?" Li Chengqian said calmly.

After his Intelligence Stats increased, Li Chengqian could plainly see all the disdain, despise and mockery that Jian Qingli thought that she had hidden well.

However, he took into account that they not only neighbors, but also classmates,

Hence, Li Chengqian still said what he needed to say.

He had wanted to help Jian Qingli get into Divine Dragon University by getting her into the top 50 of the Junior Informatics Programming Competition... Unfortunately, Jian Qingli didn't appreciate it.

From the beginning to the end, Jian Qingli did not take him seriously.

...

Since that was the case, forget it!

"That's right!" When Ding Ling heard Li Chengqian's words, she was beaming with such joy.

"Li Chengqian and Bi Jialiang will be the two teams participating in the Junior Informatics Programming Competition!"

“Mu Dehui, take the report card and pass it around if you want to see the results.” Seeing Mu Dehui’s dejected expression, Tian Wenming comforted him. “Don’t be depressed. You’re only in your second year of high school. You still have a chance next year! Best of luck!”

After Tian Wenming finished giving his instructions, he waved at Li Chengqian for him to come over.

He needed to fully understand Li Chengqian’s situation so as to tailor a learning plan for him. At the same time, he also needed to explain the relevant problems that Li Chengqian needed to pay attention to in the Junior Informatics Programming Competition.

As long as Li Chengqian’s hands-on experience wasn’t too bad, and he was given a teammate strong in mathematics, Li Chengqian had a high chance of emerging in the top 50 in the country!

As an instructor, he was on the same boat as Li Chengqian, and his name would also appear on the list of national programming competitions.

Tian Wenming was excited when he thought of this.

“Li Chengqian, your performance has made me see you in a new light.”

“Your theory is solid. I have nothing more to teach you.”

“There’s no need to talk about your mathematical modeling ability. I know, it’s very bad!”

“I want to know how your practical experience is. Do you have your own program? Have you participated in any open source projects online?”
