“Open the personal interface!” Li Chengqian silently chanted in his heart. The operation was exactly the same as in his previous life. It was just that in his previous life, he used the mouse to operate. Now, he used his mind to operate.

Immediately, a translucent panel appeared.

Seeing the plus sign behind the skill, Li Chengqian did not hesitate and directly began to add points.

[7 Experience Bars consumed, Elementary Knowledge Skill (Master 0/150), 184 Experience Bars remaining.]

[150 Experience Bars consumed, Elementary Knowledge Skill (Perfection), 34 Experience Bars remaining.]

Suddenly, all the knowledge in the elementary school textbooks was completely grasped by Li Chengqian and integrated.

3,500 commonly used Chinese characters, 13,528 words, and 1,260 idioms...

Elementary School English vocabulary: 800 words, 198 grammar points, basic phonetic transcription, basic spelling, basic sentence structure...

Basic General Knowledge, Basic Painting, Basic Music, Basic Calligraphy, Basic Mathematics, Basic Arithmetic, Basic Computing, Basic Health, Basic Logic...

In an instant, a large amount of knowledge suddenly fused into Li Chengqian's memories, making Li Chengqian feel super fulfilled.

"I really didn't think that elementary school textbooks would actually have so many knowledge points!" Li Chengqian felt that it was inconceivable.

After absorbing the Perfect Level of elementary school knowledge, he felt that his knowledge had improved greatly. He had accumulated at least ten times more knowledge than in his previous life.

He felt that if he took the college entrance examination now, his results would be higher than in his previous life.

In his previous life, he had scored 280 marks in the college entrance examination, just like the mock exam just now.

English 55, Chinese 77, Mathematics 40, Science 108.

If he took the test again now, he would definitely be able to score more than 90 marks for Chinese language. Li Chengqian had accumulated about 1,600 English vocabulary, he could also get more than 70 marks for the English language.

"If I take the college entrance examination now, I can score at least 300 points!"

"My fate has already begun to change!" Li Chengqian finally had a smile on his nervous face.

Then, he picked up his Year Two English, flipped to the vocabulary list, and silently recited it.

Vocabulary is the basic building block of English. As long as one memorized all the words and the grammar, English wouldn't be difficult.

After starting to recite it, Li Chengqian realized that Year Two vocabulary was too simple!

The Year Three textbooks he memorized contained most of the Year Two words.

In other words, he had already memorized the spelling of the words.

He only needed to memorize the meaning and pronunciation of the words to completely memorize the words.

14 points of intelligence allowed him to quickly recite the Year Two words at a speed of three words per minute.

“Dad, Mom, I won’t disappoint you guys again this time! I won’t let the tragedy of my previous life happen again.” Li Chengqian silently said in his heart, and began to focus on reading.

Reading books could give him Experience Bars and knowledge. It was killing two birds with one stone!

There were only 100 days left until the college entrance examination. He didn’t want to waste time. This time, he wanted to stun everyone and give them a surprise.

At this time, Liu Daqiang, who heard Li Chengqian say that he was determined to make it into university, walked over to Li Chengqian’s desk and looked at him with an astonished expression.

“Li Chengqian, are you serious? You said you want to get into university? I remember that you only scored 280 marks in the mock exam...” Liu Da Qiang’s face carried an exaggerated smile.

“280 marks, what university can you go to? Can you study in university from home?” Liu Daqiang was brazenly speaking loudly. After he finished speaking, he laughed mockingly.

“Haha!” The other students also laughed.

Liu Daqiang’s words were mean, but based on Li Chengqian’s results, what Liu Daqiang said was the truth. It was just that his words were a bit hurtful.

“Liu Daqiang, please don’t affect my studies! My current score is indeed 280 marks, but when the college entrance examination comes, my results will improve. I will definitely be able to go to university.” Li Chengqian said with extreme confidence.

After he verified that the skills in the All-Class Master game were real and effective, Li Chengqian had shifted his goal from an ordinary university to the best university in the country.

Li Chengqian was not surprised by Liu Daqiang's ridicule. Every time the exam ended, he would definitely come and mock Li Chengqian.

Because...

He had a conflict with Liu Daqiang.

The source of the conflict was his deskmate and neighbor, Jian Qingli!

...

Jian Qingli was tall and well-endowed. She was young and pretty, and was the most attractive girl in class. Even in Tianyi High School, she was also highly ranked.

Everyone liked beautiful girls.

Liu Daqiang's family was wealthy and he did well in his studies. He had always wanted to woo Jian Qingli.

In Year Two of high school, Liu Daqiang approached Li Chengqian and asked to swap seats with him.

Li Chengqian refused.

Because Jian Qingli's parents had specially gone to Li Chengqian's house to ask him to help take care of Jian Qingli.

Therefore, Li Chengqian wouldn't let Liu Daqiang, who had ulterior motives, to get close to Jian Qingli.

Just like that, the two of them became enemies!

From that day onward, whenever Liu Daqiang had the opportunity, he would deliberately mock Li Chengqian. Sarcasm and ridicule were commonplace.

Hearing Li Chengqian's words, Liu Daqiang laughed hysterically as if he had heard a joke.

"Li Chengqian, are you joking? You're a good-for-nothing who only scored 28 marks in English. You want to study? What are you learning! What university are you going to get into!"

...

Then, Liu Daqiang snatched the Year Two English textbook from Li Chengqian and started to mock him, "Li Chengqian, tell me, other than the Chinese characters on the cover, how many words inside do you know?"

Li Chengqian had only picked up the Year Two English book for a minute. He basically knew how to spell the words, but there were only three words in total that he could spell and knew the meaning of.

"Li Chengqian, there are only 100 days left until the college entrance examination. It's too late to start working hard now!" Seeing that Li Chengqian didn't say anything, Liu Daqiang became even more arrogant.

"This year, you definitely won't be able to get into university!" Liu Daqiang said resolutely with contempt.

Although the other students didn't say anything, most of them shared the same thoughts as Liu Daqiang. They all felt that with Li Chengqian's foundation, no matter how hard he worked this year, it was impossible for him to get in.

"Liu Daqiang, it's not up to you whether I can pass or not!"

"When the college entrance examination results are out, you'll know whether I can make it."

"Now, please stay away from me. Don't affect my studies." Li Chengqian's voice was very cold. He took back the English book that Liu Da Qiang had snatched from him and looked at him icily.

Liu Daqiang was going to flare up, but when he saw Li Chengqian's icy gaze, he felt a bit scared in his heart, and he swallowed the swear words that were about to come out of his mouth.

"Li Chengqian, everything is possible in your dreams. I wish you a happy daydream."

"There's no need to wait for the college entrance examination. You'll understand what kind of person you are by the next monthly examination. You can't even get 200 marks. Getting into university is simply a dream." Liu Daqiang took two steps back. He felt especially embarrassed and couldn't help mocking him.
