Section 102

Sure enough, any Mahayana should not be underestimated.

He didn't know that he would just run into a demon Mahayana who was good at using speed.

"This won't work."

Feeling that the other party was getting closer and closer, Zhang Yuhe couldn't help but feel anxious.

If he continued like this, he would be caught up before he reached the teleportation array.

"Damn, you're chasing me so hard, I might as well kill you."

Zhang Yuhe was also angry.

He quickly stopped and pointed a finger at the demon Mahayana in the distance.

A huge finger shadow suddenly appeared in the sky.

The finger shadow slowly pressed down on Yin Gaoyuan.

At the same time, nine flying swords quickly fell towards Yin Gaoyuan.

When the finger shadow appeared.

Yin Gaoyuan's flying figure paused for a moment.

Looking at the slowly pressing finger shadow, he sacrificed a black gourd.

As the magic power was injected, a red light spurted out of the gourd.

The red light went straight to the finger shadow, and a fierce collision occurred.

Boom...

After a loud bang, the finger shadow disappeared, and Yin Gaoyuan regained his freedom.

But at this time, there was no joy on his face.

Because just at that moment, a sword formation had been formed around him.

The sword formation exuded a terrifying pressure.

He knew at a glance that this sword formation was an extraordinary magical power.

I'm afraid it's not easy to deal with.

Yin Gaoyuan looked solemn and offered a black shield.

With the injection of magic power, the shield turned into a black light circle, protecting him in it.

Zhang Yuhe quickly pinched the magic formula, and countless sword energy rushed towards Yin Gaoyuan like a tide.

A large amount of sword energy cut on the black light circle at the same time, causing violent vibrations.

Despite this, under the blessing of Yin Gaoyuan's magic power, the light circle did not break.

Seeing this situation, Zhang Yuhe frowned.

The demons in the Mahayana realm are really not that easy to kill, even if the opponent is only a Mahayana in the early stage.

It also takes some effort to kill him.

"We must get rid of him as soon as possible."

Zhang Yuhe knew that he didn't have much time, and other demons must be on their way.

If he dragged it on, he would be in danger.

Thinking of this, Zhang Yuhe controlled the sword formation while exerting all his strength to activate various magical powers.

Covering Yin Gaoyuan with overwhelming force.

For a moment, all kinds of thunder, flames, and golden light quickly rushed towards the black light circle.

Seeing this, Yin Gaoyuan was simply stunned.

While he frantically activated the black shield, he muttered to himself.

"What kind of pervert is this? Does he have unlimited mana? Why can he activate so many magical powers at the same time?"

Generally speaking, the spiritual treasures or magical powers of cultivators can only be used alternately.

They cannot be used at the same time.

After all, the mana is limited. If multiple magical powers are activated at the same time, the mana of the cultivator cannot be supplied at all.

The heart is willing but the strength is insufficient.

But Zhang Yuhe is different.

It may be because of the practice of Hunyuan Tianjing. When he was in the building period, his Dantian became as wide as the sea.

He activated many magical powers at the same time.

For him, it was not too stressful.

As various attacks fell madly, Yin Gaoyuan finally couldn't hold on.

He kept sending messages to other demon guards for help.

Suddenly, another huge finger shadow fell.

Yin Gaoyuan paused, and various magical sword qi instantly broke the black light circle.

Before he could use defensive means again.

His body was torn into pieces by various attacks.

A black Yuanying flew out of the broken body.

Zhang Yuhe stretched out his right hand and turned into a huge palm shadow, trying to capture the Yuanying.

If he could catch the Yuanying of this demon Mahayana.

Then he could get a lot of information about the Demon Palace through soul searching.

However, before the palm shadow fell.

The black Yuanying swelled instantly.

Seeing this, Zhang Yuhe quickly withdrew his hand and flew away.

Boom...

A loud noise spread over tens of millions of miles.

The violent magic power fluctuations swept across the four directions in an instant.

"Bah."

"I was careless. I didn't expect the demons to be so tough that they exploded directly."

Zhang Yuhe showed up in the distance.

He was covered in dust and even his robes were torn into strips by the violent explosion just now.

"Run away quickly."

He stretched out his hand and grabbed the demon's items, then turned and ran.

At this time, a roar came from a distance.

"You're looking for death, stay here."

At the same time as the voice came, a black light cut through the sky and quickly slashed at him.

"Fuck, you're here so fast?"

Seeing another demon chasing him, Zhang Yuhe was shocked.

He almost didn't delay for long just now.

In order to deal with the demon as soon as possible, he used all means.

Except for not opening the Hunyuan Guiyi magical power, he basically used all other means that could be used.

After just a short delay, other demons came after him.

This gave him a bad feeling.

These demons might have been waiting for him.

It was just that he was too fast, so he was not caught.

At this time, Zhang Yuhe did not dare to think too much, so he had to run away.

He dodged to avoid the black light behind him, and then quickly flew forward.

As he flew quickly, he silently felt the breath behind him.

It was discovered that there were actually five demons chasing behind them.

There was a demon among them, and the aura emanating from him made him feel tremendous pressure.

"This person is so strong, maybe he is in the late Mahayana stage."

Nothing to say, just run away.

If he didn't run faster, he might be like Wu Yuemin.

He was surrounded and beaten to death by a large group of demons.

Zhang Yuhe used all his strength to activate the Heavenly Flying Immortal Technique and ran away.

The demons behind him were chasing after him all the way.

He looks like he wants to chase her to the end of the world.

Fortunately, these demons don't have special escape magic powers.

The distance between the two parties has not narrowed.

These demons, Mahayana, probably do not have explosive speed powers, or if they do, they are reluctant to use them.

He doesn't care about that either.

It's okay if you can't catch him anyway.

Zhang Yuhe turned into a stream of light and flew quickly in front, followed closely by several black figures behind him, emitting a demonic aura that covered the sky and warded off the sun.
