

Top talent 1051

Section 1051

For example, Qi Feilong.

When Zhang Yuhe appeared.

He just kept watching carefully.

For this way of traveling through the void and appearing without any fluctuations.

It simply subverted his imagination.

Qi Feilong didn't think this was the effect of the teleportation array.

With his eyesight.

If there is a teleportation array in the void.

Can he still not see it?

It's simply impossible.

No matter how secretive the formation is, there will still be some traces.

Not to mention.

Under his nose, the formation was still functioning normally.

There is absolutely no way to escape his eyes.

Qi Feilong was very sure.

That was not the teleportation array just now.

But some kind of mysterious supernatural power.

Because when the teleportation array is activated, it cannot be silent.

Even a micro teleportation array.

after startup.

There will also be quite a bit of movement.

But when Zhang Yuhe appeared just now.

That mysterious vortex seemed to be opened automatically by the void.

The whole process was silent.

If not everyone has been waiting for Zhang Yuhe to appear.

Maybe he even knows what he got.

It's really amazing.

Qi Feilong held the wine glass and thought silently for a long time.

He didn't understand it either.

How did Zhang Yuhe do it just now?

But he knew.

This must be magical power.

The Chaos Sea has countless supernatural powers.

Even the most ancient monk cannot explain it clearly.

How many kinds of magical powers are there in the entire Chaos Sea?

Some of these magical powers have some strange functions.

Like Zhang Yuhe, who has the magical power to travel through the void.

It's happened before.

Qi Feilong remembered that it was recorded in the classics.

long ago.

There once was a Kongming God King in the Sea of Chaos, who was good at this method of traveling through the void.

However, the Kongming God King was not born in the human race.

Rather, it is a bird of emptiness and clarity that was bred from the origin of chaos.

According to the records in the classics.

The magical power used by the Kongming God King should be after he was promoted to the God King Realm.

Innate magical powers that are automatically realized.

Except for himself.

No one else can comprehend this magical power.

Unfortunately.

In an extraterritorial war.

The Kongming God King finally fell into the river.

This mysterious ability to travel through the void was cut off in the sea of chaos.

"Could it be that Zhang Yuhe was also transformed into an empty bird?"

Qi Feilong thought silently in his heart.

But he didn't pay too much attention.

There are no racial distinctions in the Sea of Chaos.

After the monks were promoted to the Taiyi realm, their longevity would be endless.

As time goes by, everyone is a monk.

How can you care about race and birth?

Qi Feilong took a deep look at Zhang Yuhe, but he did not ask.

Everyone has their own secrets.

Explore the secrets of other people's magical powers.

This is a taboo thing.

...

Zhang Yuhe's celebration of the God King lasted for half a month.

The guests drank wine and talked happily.

Some people talked about various allusions and mysteries of the Chaos Sea.

Some people are talking about various secret opportunities in the long river outside the territory.

Someone shared his cultivation experience.

Someone evolved magical powers on the spot...

A celebration of the God-King.

It is to celebrate Zhang Yuhe.

It is also a rare exchange gathering for monks from the desert world.

Half a month later.

The event is finally over.

The guests dispersed.

Outside the gate of Donghua Palace, there are two rows of magnificent palaces.

Also disappeared quietly.

These palaces were not originally real objects.

It's just a magical thing.

Now the celebration is over.

Naturally there is no need for it.

The magical power was put away and the palace disappeared.

This grand event has come to an end.

...

Bibo Lake, Yitianfu.

The two sat opposite each other in the small pavilion in the front yard.

After the celebration.

The other guests dispersed.

But Qi Feilong did not leave.

There's something else about him.

I want to confirm with Zhang Yuhe.

Qi Feilong picked up the tea cup and took a small sip.

After putting down the teacup.

He looked at Zhang Yuhe and asked slowly.

"One hundred thousand years have passed, Taoist brother Yinhe should have stabilized his realm."

"I wonder if Brother Dao has made any progress in the fluctuation rules over the years."

"I thought so."

"It is extremely difficult for any Dao rule to advance to perfection."

"If there is no progress for the time being."

Section 1052

"Why don't we plan how to investigate the evil gods outside the domain first."

"What do you think, Brother Yinhe?"

Zhang Yuhe was stunned at first.

Then he spoke lightly.

"I don't have any problem here, as long as you confirm the time."

"I can rush over at any time and cooperate with the Deacon Hall to act together."

Hearing Zhang Yuhe so straightforward.

Qi Feilong was a little confused.

You don't even refuse?

So straightforward.

Didn't you say last time.

You have to wait until the rules of the wave path are pushed to the state of perfection before you talk about it?

Why is it so straightforward this time?

Qi Feilong always felt that something was wrong.

He asked subconsciously.

"Could it be that Brother Yinhe has already comprehended the rules of the wave path to the state of perfection?"

"Yes."

Zhang Yuhe nodded gently.

For him.

The difficulty of the rules of the great way is getting started.

As long as you can master the rules to get started.

The small success, great success, and even the state of perfection in the future are not difficult.

He didn't spend much effort.

He comprehended the two great ways of time and fluctuation to perfection.

Even in these 100,000 years.

Zhang Yuhe also mobilized his clones to study the classics in the Daozang Hall.

Since he made the request last time.

Yuanhe Divine King personally went to the Eternal Realm of the Desert and made a trip.

He spent a huge amount of divine crystals to buy countless magical books from the Wandao Building.

From small magical powers in the fairyland to even mortal realm magical powers.

From the supreme magical powers created by various Divine King monks.

A huge amount of magical books filled the Daozang Hall of Donghua Palace.

It provided great convenience for the disciples of Donghua Palace to broaden their horizons.

Of course.

The greatest convenience was given to Zhang Yuhe.

He gathered his eight clones and buried himself in the vast classics together.

Not to mention.

As the number of classics read gradually increased.

In the past 100,000 years.

Zhang Yuhe really comprehended a few more rules of the great way.

Moreover, he also pushed all these Dao rules to the state of perfection.

However, compared with the two Daos of time and fluctuation,

these newly comprehended Dao rules are a little bit worse.

They are all auxiliary rules such as crushing, penetration, candle heat, etc.

For ordinary cultivators.

These Dao rules can definitely play a big role in battle.

But for Zhang Yuhe.

It's better than nothing.

It's always good to comprehend more Dao rules.

Seeing Zhang Yuhe nod gently.

Qi Feilong simply couldn't believe his ears.

He stood up and asked in shock.

"Have you really comprehended the Dao rules of fluctuation to the state of perfection?"

"Only 100,000 years have passed."

"How is this possible?"

...

Chapter 746 Action in Ten Days

Qi Feilong had an incredible expression on his face.

It is a recognized fact that Dao rules are difficult to comprehend.

Whether it is the entry of rules, or the subsequent small or great success of rules.

Every step is not so easy.

Each step requires a long time, and even some luck.

Otherwise.

Why are there so few God King cultivators in this Chaos Sea?

The rules of the Great Dao are one of the main obstacles that block their progress.

As for comprehending the rules of the Great Dao to perfection.

That is even more difficult.

Just like the former leader of the Tianyang Sect, who was a nine-step God King.

He also comprehended nine kinds of rules of the Great Dao.

But he did not push any of the rules to perfection.

Otherwise.

It would not be so easy, and he would be killed by Zhang Yuhe.

In the Chaos Sea.

Those nine-step God Kings who can comprehend the rules of the Great Dao to perfection.

All of them are world-famous top figures.

Even if they are placed in the long river outside the domain.

No one dares to look down on them.

As for.

Before the nine-step God King, they comprehend the power of rules to perfection.

There are such cultivators.

After all, the Chaos Sea is so big that there will always be people with extremely high comprehension.

But there will definitely not be too many such peerless people.

They are all rare.

However, even so.

Qi Feilong has never heard of anyone like Zhang Yuhe.

He has just been promoted to the God King Realm.

He has pushed a great Dao rule to perfection.

In 100,000 years.

He has comprehended the power of rules to perfection.

What kind of divine comprehension is this?

Is Zhang Yuhe always in enlightenment?

Otherwise, how could it be so exaggerated.

Thinking of this.

Qi Feilong couldn't help but take a deep breath.

He believed it.

Since Zhang Yuhe said so, it must be true.

He really comprehended the wave Dao rule to perfection.

No one would brag like this.

What's more,

Section 1053

Zhang Yuhe said it very cheerfully just now.

You can follow them at any time and look for traces of the evil gods outside the territory.

If Zhang Yuhe hadn't understood the rules of the wave path and reached the state of perfection.

Wouldn't that mean the secret will be revealed soon?

Qi Feilong believed it.

Zhang Yuhe would not brag like this.

Even a fool would not brag about this kind of bullshit that will soon be blown away.

Zhang Yuhe is naturally not a fool.

In Qi Feilong's view.

Zhang Yuhe may be one of the most dazzling geniuses in the history of Chaos Sea.

Not only has his cultivation progressed rapidly, but his combat prowess is also extremely high.

more importantly.

Zhang Yuhe also has an incredible understanding.

"Perhaps one day in the future, he can really realize eternity."

Qi Feilong thought silently.

A monk's understanding is extremely important, even countless times more important than his spiritual talent.

Especially after being promoted to the God King Realm.

Even more so.

The God King takes nine steps, one step to the sky.

Every step forward requires understanding the rules of a new avenue.

I want to be promoted to the Nine-Step God King.

You need to understand the nine rules of the great road.

And the Nine-Step God King wants to finally realize eternity.

The first premise.

It is necessary to advance all these nine great principles to perfection.

This is a huge threshold.

Countless God King monks are stuck in understanding the rules.

besides.

When the Nine-Step God King finally unites in eternity.

Comprehension is also crucial.

If your understanding is not enough.

The chance of success of Hedao.

Almost infinitely close to zero.

To this.

Qi Feilong himself understands this deeply.

very few people know.

He had tried it once before.

It just failed in the end.

Qi Feilong knew.

Because of the limitations of one's own understanding.

The nine-step divine king realm is the limit of his life.

As for the eternal union again, it is impossible to succeed.

Think of this.

Qi Feilong took a deep look at Zhang Yuhe, with infinite envy in his eyes.

Zhang Yuhe's understanding is so incredible.

Maybe one day, we can really succeed in Hedao.

...

After a simple exchange.

Qi Feilong left Donghua Palace with complicated emotions.

He originally just wanted to communicate with Zhang Yuhe about his next plan.

See if you can and arrange your actions in advance.

Only now...

What else is there to say?

Zhang Yuhe has already understood the rules of the wave path and reached the state of perfection.

People can leave at any time.

On the contrary, their Desert Courtyard was not ready yet.

Since we need to wipe out all the extraterritorial evil gods hiding in various places.

Naturally, Qi Feilong could not act rashly.

He also needs to be prepared.

We need to mobilize manpower.

After all, the strength of those evil gods outside the territory are not weak.

Especially the mysterious Lord of the Bolin Temple.

It is said that he is an eternal emperor.

Although in the sea of chaos.

Extraterrestrial evil gods cannot exert the power of rules.

The true strength that can be exerted may not exist even in ten.

But facing an eternal emperor who may exist.

Qi Feilong didn't dare to take it lightly.

They must be well prepared.

Otherwise.

What if Zhang Yuhe finds the person?

But they couldn't defeat them and let those extraterrestrial evil gods run away.

Wouldn't that be embarrassing?

Qi Feilong left in a hurry.

After returning to Desert Courtyard.

He immediately secretly mobilized all the forces scattered throughout the Deacon Hall.

Mainly to mobilize the God King monks.

Against those extraterrestrial evil gods, the monks under the God King were basically useless.

Because of those real extraterritorial evil gods.

Most of them started as God Kings.

Although most of their strength was suppressed by the origin of the Chaos Sea.

But it is not something that ordinary True God cultivators can deal with.

Fortunately, there are many divine kings in the desert courtyard.

Just their deacon hall.

There are as many as twenty God King monks staying in the realm.

in short term.

It should not be a big problem to mobilize a dozen God King monks.

Just in case.

Qi Feilong also called two treasures at the bottom of the box from the Desert Courtyard treasure house.

A boat crossing the sky and a set of flags of the Tianluo Formation.

The Dutianzhou not only flies fast, but also has a strong concealment effect.

While flying in the void.

Even the God King monks were unable to discover the existence of the Sky Crossing Boat.

They want to explore the whereabouts of evil gods outside the realm throughout the realm.

Naturally, it cannot be done in a big way.

It can only be done quietly.

Otherwise.

After getting the news, wouldn't those extraterrestrial evil gods have already run away?

They want to move quietly.

Once Zhang Yuhe locks the core stronghold of the evil god outside the territory.

Section 1054

Just annihilate them in one fell swoop.

The Tianluo Formation is an extremely important sealing formation.

Once this array is deployed.

It is possible to ban an entire continent.

Cut off all space fluctuations.

Block off possible transmission behavior.

Qi Feilong believed it.

In the core stronghold of the Bolin Religion, there must be teleportation arrays with longer distances.

If they ever start.

But the other party teleported away.

Wouldn't that be in vain?

If you want to completely annihilate the evil gods outside the territory, cutting off the void is an indispensable action.

After preparing for more than half a year.

Qi Feilong sat cross-legged in the main hall.

He thought carefully for a long time.

I have made enough preparations as I thought I should.

The rest is up to God.

Think of this.

Qi Feilong picked up a jade talisman.

After casting a spell, he spoke calmly.

"Brother Yinhe Dao, everything is ready, we will take action in ten days."

"Understood, I will arrive at the scheduled location in ten days."

...

Chapter 747 This is an excellent opportunity

The void outside the eternal realm of the desert.

A huge chaos boat was quietly hidden inside.

Look from a distance.

It seems like a cloud, floating gently in the sky.

This is the top artifact of the Desert Academy, the Sky Crossing Boat.

Qi Feilong stood at the front of the sky boat, quietly looking into the void in the distance.

behind him.

Sixteen figures with powerful auras stood silently on the deck of the ferry.

Wu Yuheng's figure is also among them.

They are all God King monks from the Deacon Hall of the Desert Courtyard.

In order to completely annihilate the evil gods outside the territory.

Qi Feilong secretly mobilized his strength.

There are twenty supreme divine kings in the Deacon Hall.

Except for a few people, they can't come back for the time being because of the distance.

The remaining sixteen god king monks.

They were all quickly summoned together by Qi Feilong.

In a crowd.

Except for Wu Yuheng, who had some vague guesses in his mind.

Others have no idea what happened.

Qi Feilong suddenly gave an order.

Let them put down everything in their hands and return to Desert Courtyard.

Wait until everyone arrives.

Let's take a boat across the sky together and come to this deserted void area.

so far.

Qi Feilong didn't even tell him the specific mission.

At this point everyone was confused.

It happened so suddenly.

Now they don't even know what they are going to do.

Logically speaking.

The Deacon Hall of the Desert Court has always acted openly and honestly.

Never do anything sneaky.

For Desert Courtyard.

No matter what they do, they don't need to cover up.

No one dares to say a word "no" about Desert Courtyard.

Today's action is really weird everywhere.

Qi Feilong did not explain.

He just stood quietly at the front of the sky boat.

It seems to be waiting for something.

In order to completely cut off the news.

Qi Feilong even activated the sealing formation on the Sky Crossing Boat.

Except for himself.

Others can't even send out summons.

Because Qi Feilong knows very well.

The evil god from outside the territory has been operating in the Sea of Chaos for countless years and has already become deeply entrenched.

Their tight intelligence network extends to every corner of the Chaos Sea.

Zhang Yuhe has mastered the rules of the Wave Path, and also uses the power of the rules.

Advance to the level of perfection.

In Qi Feilong's view.

This time is the best opportunity.

This is their chance to annihilate all the extraterritorial evil gods in Desert Sky in one fell swoop.

In order to achieve the purpose.

Qi Feilong didn't dare to be careless.

Although he was 100% sure.

It is impossible for any of the God King monks in the Deacon Hall to secretly communicate with the evil gods from outside the territory.

despite this.

To ensure nothing goes wrong.

Qi Feilong still tried his best to take the necessary precautions.

so far.

Except for himself, who knows the specific plan.

Only Zhang Yuhe, who has not yet arrived, knows the details.

As for the other people on the ferry.

They know nothing.

If you don't know, you won't know. There is a possibility of leaking the secret.

In order to completely wipe out those extraterritorial evil gods hiding in the desert sky.

Qi Feilong can be said to have taken great pains.

Seventeen supreme god kings stood quietly on the sky boat.

There was silence.

No one spoke.

No one dared to inquire privately about the goal of this operation.

Because Qi Feilong's spiritual consciousness has been shrouding the entire Tiandu Zhou.

All their words and deeds could not escape Qi Feilong's perception.

Everyone knows it.

This action must be a big deal.

Otherwise.

Qi Feilong wouldn't do it so seriously either.

Section 1055

While everyone was waiting silently.

A vortex the size of half an acre suddenly appeared slowly in the void.

See this situation.

Everyone was shocked.

At the same time, he was secretly on guard.

Qi Feilong's face showed a faint smile.

After a while.

A delicate figure quietly appeared in the void.

Qi Feilong shouted with a smile.

"Brother Yinhe, you are finally here."

The vortex slowly disappeared.

Zhang Yuhe flew down on the boat crossing the sky.

He glanced around, smiled and shouted to everyone.

"I met the Master of Qi Palace in Donghua Palace, Zhang Yuhe."

"I've met all fellow Taoists."

"It turns out that it's the Lord of Galaxy Palace who is in person. I've admired his name for a long time."

Everyone came forward to pay tribute.

Zhang Yuhe is famous.

Everyone present knew this.

As early as in the True God Realm.

He single-handedly swept through the entire Tianyang Sect and killed the ten supreme god kings.

For such a ruthless person.

Even people with little information will hear something.

What's more, what about them, the God King monks of the Deacon Hall of the Desert Academy?

Their main task is to monitor the movements within the realm.

Regarding Zhang Yuhe's sudden rise.

How could everyone not pay attention?

But this was their first time seeing Zhang Yuhe himself.

Except Qi Feilong and Wu Yuheng were present.

Others have only heard of Zhang Yuhe's name and have never seen him in person.

Regarding the arrival of Zhang Yuhe.

Everyone was very curious.

Have they waited so long just to wait for the Lord of the Galaxy Palace?

Everyone was very puzzled by this.

Originally they thought.

Qi Feilong summoned everyone together for some major action.

But now there is an outsider.

It's a little strange.

Is there anything else that their Desert Courtyard can't handle?

Still need the help of Galaxy Palace Master?

This is impossible.

The Desert Court has dominated the entire realm for countless years.

Everyone is thinking.

As long as it's in the desert.

There's nothing they can't handle.

There is absolutely no need to hire foreign aid.

At this time everyone was a little confused.

Everyone subconsciously looked at Qi Feilong.

I hope the Lord of the Palace can clear up their doubts.

Qi Feilong looked around and then spoke slowly.

"Now that Brother Yinhe has arrived, I can tell you the specific actions this time."

"Our target this time is the extraterritorial evil gods hidden in the desert sky."

"You must all know."

"Those extraterritorial evil gods cause chaos everywhere from time to time."

"It is a major hidden danger in our desert sky and even the entire Chaos Sea."

"It's just that their whereabouts are so well hidden that it's hard for us to get a handle on them."

"But they can't escape this time."

"Because Brother Yinhe is here this time."

"Brother Yinhe Dao masters the rules of the Wave Dao and can explore all secrets on a large scale."

"No matter how deeply those extraterrestrial evil gods hide themselves, they cannot escape the detection of the Lord of the Galaxy Palace."

"This is a great opportunity."

"This is our chance to completely wipe out the evil gods outside the territory."

Qi Feilong just finished speaking.

Everyone couldn't help but whisper.

"It's actually the wave path rule?"

"Has this rare rule finally been mastered again?"

"I didn't expect that the Lord of the Galaxy Palace is not only powerful, but also masters such a unique avenue of rules."

"I just don't know how far he has mastered the power of rules."

"If it's just an entry level, I'm afraid it won't be of much use."

"Don't worry."

"Since the palace master is so serious about his matter, he must be very confident."

"I estimate that the Lord of the Galaxy Palace has advanced the rules of the Wave Path to the realm of small success."

"It's even possible to reach the state of great success."

"Otherwise, the palace master would not have such great determination."

"You're right, that's how it should be."

...

Chapter 748 Take your time

Qi Feilong glanced at everyone, and he spoke solemnly.

"This is a great opportunity and I don't want anything to happen."

"So I demand it."

"From now until the end of the final act."

"No one is allowed to communicate with the outside world, and no one is allowed to explore their spiritual consciousness outside the sky crossing boat."

"You can rest easy and stay on the Sky Crossing Boat to practice."

"Until the Lord of the Galaxy Palace finds those extraterritorial evil gods."

"Yes, Palace Master."

Qi Feilong nodded slightly.

He turned to look at Zhang Yuhe, and then spoke slowly.

"Brother Yinhe, let's start now."

"good."

Zhang Yuhe didn't talk nonsense either.

He came to solve problems.

Just find all those extraterritorial evil gods.

The rest is easy to handle.

There are Qi Feilong and the sixteen supreme god kings in the Deacon Hall.

It shouldn't be that difficult to wipe out those extraterrestrial evil gods.

The only trouble is that.

How can we find all those people?

The sea of chaos is vast and boundless.

Even if it's just the Desert Heaven Realm, it's really not small.

Section 1056

Even if he is a god king monk.

No one dares to say that they have visited every corner of Desert Sky.

There are countless continents in the desert sky, a vast and endless void.

It is the best hiding place for those evil gods from outside the territory.

The Desert Institute has also organized many inspection operations.

In the end, nothing was achieved.

no way.

The place is just too big.

Without some special means, it would be impossible to investigate.

Now it's up to Zhang Yuhe.

Qi Feilong placed great hopes on Zhang Yuhe's Wave Dao rules.

Because this avenue of rules does have a very strong effect in investigation.

According to the records in the classics.

As long as the rules of the wave path are advanced to the state of great success.

One move to wave magical power down.

You can clearly perceive the situation on the entire continent.

Even if it is millions of kilometers deep underground, there is even a formation to cover it.

It can't stop the investigation of Bodao's rules.

Now Zhang Yuhe has understood the rules of the wave path to a perfect level.

One move to wave magical power down.

Maybe we can explore multiple surrounding continents at the same time, and even the outer void.

Qi Feilong believed it.

This time Zhang Yuhe helped.

They can definitely dig out all the extraterritorial evil gods hiding in the desert sky and wipe them out.

The only problem is.

Don't know exactly how long it will take.

If they're lucky.

It may only take tens of thousands of years.

You can find the main altar of the extraterritorial evil god.

If you are a bit unlucky.

That's a bit hard to say.

It may take millions or even tens of millions of years.

But it doesn't matter anymore.

In Qi Feilong's view.

As long as we can wipe out all those extraterritorial evil gods.

Let alone hundreds or tens of millions of years.

Even if they are allowed to travel continuously for hundreds of millions of years.

It's all worth it.

Qi Feilong took out a golden bead and handed it to Zhang Yuhe.

Then he spoke slowly.

"Brother Yinhe, this is the core of the Tiandu Boat's operation."

"As long as you refine this bead, you can control this chaos boat."

Zhang Yuhe took the beads and nodded gently.

Before discovering the lair of those extraterritorial evil gods.

Naturally, everything is dominated by him.

Only he himself, driving this sky-crossing boat, can investigate every place more accurately.

Make sure nothing is missed.

Zhang Yuhe didn't talk nonsense either.

He took the bead and felt it silently.

Then the refining begins.

Qi Feilong waved his right hand.

A huge territory appeared on the slow sky boat.

This is a map of the entire desert sky.

All continents, secret realms, dangerous places, etc. within the realm.

All are revealed on the map.

Even in the far fringes.

There are also detailed records on this map.

The Desert Court controls the entire realm.

Although they are not involved in the battle between the various forces.

But that doesn't mean they are just herding sheep.

Don't care about anything.

Things to know.

They all need to understand.

Just like this map.

It can be as large as a region, or as small as a corner of land in the void.

All are recorded in detail.

After refining the beads.

Zhang Yuhe silently realized it.

I found that I could completely control this top-notch chaos boat.

He glanced back at the map displayed next to him.

He couldn't help but look a little surprised.

This is the most detailed map he has seen since entering the Sea of Chaos.

The desert sky is so vast and boundless.

I want to draw such a detailed map.

Don't know how much time and effort it will take.

The world is constantly changing.

From time to time, continents are destroyed and new ones are born.

Desert Courtyard will definitely update the information on the map from time to time.

Otherwise.

It's impossible to do it in such detail.

Look at the map in front of you.

Zhang Yuhe couldn't help but feel a little emotional.

That is to say, only a dominant force like the Desert Academy could draw such a detailed map.

If it were changed to Donghua Palace.

Even the entire sect.

No one is doing anything.

Even if I travel all over the place to draw maps every day, I guess it's impossible to figure it out.

Da Moyuan is worthy of being the overlord of the entire realm.

Just look at this map.

It can be seen how deep their background is.

It is far from comparable to the power of those god kings.

Even the entire Desert Sky and other great powers of the God King were all added together.

It is estimated that it is not as good as the desert courtyard.

Qi Feilong pointed to the brightest spot on the map.

Then he turned to Zhang Yuhe and said.

"This is where we are now."

"The circular area next to it is the eternal world of the desert."

"No need to investigate here."

"The Eternal Realm is covered by the rules of the Academy Master. Those evil gods from outside the realm will definitely not dare to come in."

"Now that's all we have to do."

Section 1057

"With the Eternal Realm as the center, slowly explore the periphery one by one."

"Investigate the entire Desert Heaven Realm."

"Until those extraterrestrial evil gods are found in the main altar of Desert Sky."

"clear."

Zhang Yuhe nodded lightly.

he knows.

This takes a lot of time.

Although he has now understood the rules of the wave path to a perfect level.

But the entire desert sky is such a vast territory.

I want to check them all.

That's not something that can be accomplished in a day or two.

Zhang Yuhe only hopes.

It's best not to be too far away from the main altar of those extraterritorial evil gods.

What if it happens to be right at the edge of the desert sky.

That's a bit difficult to do.

Maybe it really takes millions of years.

take it easy.

Zhang Yuhe pinched the magic formula.

The boat sailed across the sky quickly, flying silently in the void.

at the same time.

Zhang Yuhe continued to activate the magical power of Wave Dao.

Layers of silent fluctuations quickly spread around.

The vast wave of Tao rules swept across a vast area in an instant.

The scenes on dozens of surrounding continents clearly appeared in Zhang Yuhe's mind.

No matter how secretive it is.

He couldn't escape Zhang Yuhe's perception.

have to say.

The magical rules of the Wave Path are indeed a super voyeuristic skill.

As long as Zhang Yuhe wants to.

He can investigate everyone within a wide range.

No one can hide his perception.

Unless it's like the Eternal World of the Desert, shrouded by the rules of the Eternal Emperor.

Otherwise.

Anyone in his eyes.

There are no secrets at all.

As magical powers and rules sweep by.

All situations in the vast area can be seen at a glance.

...

Chapter 749 Found a little shrimp

Zhang Yuhe stood in front.

Layers of invisible fluctuations continue to spread rapidly into the distance.

As the waves sweep by.

within the vast surrounding area.

The situation on all continents and even in the void is within his perception.

Even the birds in the sky and the mice under the ground.

There was no way he could escape Zhang Yuhe's eyes.

While he was driving the sky-crossing boat, he was flying quietly in the void.

While silently investigating the situation on all the surrounding continents.

The magical power of the wave swept across a circle, and then quickly rushed to the next location.

Qi Feilong stood quietly behind him.

Whenever Zhang Yuhe activates his magical powers.

He can feel it clearly.

The vast fluctuation rules quickly swept across the vast area.

Then soon, it disappeared into the endless distance.

Qi Feilong knew.

The range that Zhang Yuhe can detect through the magical power of Wave Dao.

Far beyond his consciousness.

It is precisely because of this.

That's why he went to great lengths to ask Zhang Yuhe to help.

Feel the vast fluctuating aura.

Qi Feilong couldn't help but reveal a slight smile.

he knows.

Asking Zhang Yuhe to take action this time was indeed the right choice.

Because under the vast fluctuation rules, those alien evil gods must have no way to hide.

No matter how deeply they hide it.

Sooner or later they will be dug out.

I won't be able to escape this time.

Qi Feilong looked into the distance, thinking silently in his heart.

behind them.

The sixteen God King monks in the Deacon Hall sat quietly on the deck.

Everyone put aside their curiosity.

Don't ask or look.

Just wait quietly.

Because Qi Feilong had made it very clear before.

Before finding the extraterritorial evil god.

They don't need to do anything.

Let alone interfere with Zhang Yuhe's investigation.

Just have to wait.

Wait until Zhang Yuhe finds the main altar of those extraterritorial evil gods.

Everyone rushed forward again.

Sweep away those extraterrestrial evil gods.

This mission ends successfully.

...

Time passes slowly.

The boat flew around the eternal world of the desert, flying around and around.

Every time it flies around.

Zhang Yuhe marked the areas he had explored in detail on the map next to him.

Thousands of years later.

They have flown around the eternal world nine times in a row.

However, no extraterritorial evil god was found.

In fact, this is normal.

Although there are indeed a lot of extraterritorial evil gods sneaking into Desert Sky.

Maybe dozens or hundreds of people.

But the scope of the entire realm is really too large.

In such a vast area, you want to find dozens or hundreds of people.

It's like finding a needle in a haystack.

It's definitely not something that happens overnight.

Zhang Yuhe was not in a hurry.

He had already been mentally prepared.

Section 1058

Prepare for a protracted war.

As long as these evil gods from outside the domain are still in the Great Desert Heaven Realm.

He vowed to dig out all those people.

Don't even think about running away.

While controlling the flight, Zhang Yuhe continued to display the magical power of the wave path.

At the same time, he looked at the Great Desert Sky Map next to him from time to time.

In the past ten thousand years.

Zhang Yuhe has explored countless continents and voids.

But compared with the entire Great Desert Heaven Realm.

Now the scope of his exploration is still too small, even less than one percent.

Take it slowly.

As long as you explore slowly.

Sooner or later, you can clean up the entire Great Desert Heaven Realm.

Zhang Yuhe flew around the Eternal Realm.

As time passed slowly.

Now each circle takes more and more time.

The scope that needs to be explored is also becoming wider and wider.

Qi Feilong stood quietly behind him.

He did not move at all.

Whenever Zhang Yuhe added information to the map.

He would occasionally look at it.

Qi Feilong was not in a hurry.

It took a long time for the evil god from outside the domain to sneak into the Chaos Sea.

He had waited for such a long time.

It was not a big deal to wait for a little time now.

It had only been less than ten thousand years.

It was still early.

Huh?

At this moment.

With another round of wave rules, it swept across the vast sky and earth.

Zhang Yuhe suddenly exclaimed.

Qi Feilong suddenly woke up.

His sharp eyes swept around, but he did not find anything special.

But Qi Feilong knew.

Zhang Yuhe would definitely not shoot without a purpose, and he must have found something.

Thinking of this.

Qi Feilong turned to Zhang Yuhe and asked.

"Brother Yinhe, did you find anything?"

Zhang Yuhe did not answer directly.

He used the wave magic again, and slowly closed his eyes at the same time.

Silently sensing the situation in the distance.

In an infinitely far away place.

A remote small land quietly floated in the void.

This land was even much smaller than Xilin Cape.

However, there are still many cultivators living on that land.

Zhang Yuhe's wave perception slowly covered the entire land.

Through wave perception.

The situation of the entire land was clearly displayed in his vision.

In the north of the land, the mountains stretched endlessly.

A small city stood quietly among the mountains.

The city was nothing special.

The strength of the cultivators in the city was not strong.

The strongest was only the third level of the virtual god realm.

However, Zhang Yuhe's focus was obviously not on this city.

But under the city.

He carefully explored the bottom of the city through the wave magic.

I saw a huge palace hidden under the mountains around the city.

A large number of cultivators were quietly coming and going in the palace.

In the center of the palace.

A cultivator with a strong aura sat quietly on the high platform.

Behind him.

A tall statue of God exuded an inexplicable glow.

Mysterious and unpredictable glow.

It makes people feel intoxicated after just one look.

Seeing this.

Zhang Yuhe couldn't help but feel a chill in his heart.

He muttered to himself.

"It is indeed the evil god from outside the domain."

Hearing this.

Qi Feilong next to him asked in surprise.

"Brother Yinhe, have you found the evil god from outside the domain?"

Before Zhang Yuhe could reply.

The sixteen God King monks in the Deacon Hall behind him stood up in a flash.

Everyone looked at Zhang Yuhe in surprise.

They couldn't help but sigh in their hearts.

Is it so powerful?

It has only been ten thousand years, and the evil god from outside the domain has been found?

Isn't this too smooth?

Zhang Yuhe nodded first, and then shook his head gently.

Seeing his expression like this.

Everyone was a little confused.

What the hell?

Did they find the evil god from outside the domain?

Zhang Yuhe swept his eyes over everyone, and he spoke slowly.

"It's an alien evil god."

"But that's not their main altar."

"It should be a branch hall."

"Although there is also a statue of Supreme Bolin there."

"But after careful investigation, I only found one alien evil god."

"The rest are some local monks who have been baptized."

"Palace Master Qi, should this branch altar be kept or wiped out directly?"

Zhang Yuhe briefly described it, and then asked Qi Feilong next to him.

"Sweep it, no need to keep it."

Qi Feilong responded decisively without thinking.

He didn't care whether sweeping an alien branch altar would cause a scare.

There was no need to worry.

Since the alien evil god was found, it would be wiped out directly.

Although it was just a small shrimp now.

But there was a statue of the Supreme God.

It must not be let go.

Section 1059

As for whether it will alarm other extraterritorial evil gods?

No matter what.

Qi Feilong was still wishing that other evil gods from outside the realm would jump out.

Save them the trouble of looking for it.

He is not afraid of the evil gods from outside the realm jumping out, but he is afraid that those human cats will not come out of the dog hole.

...

Chapter 750 The vigilant alien evil god

After hearing about Zhang Yuhe and discovering the traces of the evil god from outside the territory.

Even though what has been discovered so far is only a branch of the Pauline Cult.

Qi Feilong didn't hesitate at all.

Resolutely demand that all the opponents be wiped out.

He has no idea of taking a long-term view to catch big fish.

Don't worry about whether it will alert the enemy.

In Qi Feilong's plan.

Originally, when an extraterrestrial evil god was discovered, he would be killed immediately.

Never let the other party run away.

Because those extraterrestrial evil gods are really hidden too deeply.

in the long years.

There are almost only a handful of extraterritorial evil gods that they have proactively found.

Now it's hard to find one.

Is there any reason to let it go?

Even after they take action.

Let other extraterritorial evil gods be alarmed and flee.

Qi Feilong also wanted to take action.

His idea is simple.

A thousand birds in the forest is worse than a bird in the hand.

Kill one first and then talk.

It's a gain to some extent.

And according to what Zhang Yuhe said.

This is also a branch of the Pauline religion.

There is a statue of Pauline Supreme.

Even for this statue.

Qi Feilong can't let it go either.

The statue of the Supreme God is extremely precious.

It is one of the Eternal Emperor's favorite treasures of enlightenment.

If we could capture a supreme statue completely and donate it to the Master of the Desert Academy.

What about their actions this time.

Even if it's not in vain.

As for saying.

Other extraterritorial evil gods, after being alerted.

Will he run?

About this question.

Qi Feilong had already considered it.

Just let the other person run.

Anyway, Zhang Yuhe is here this time.

They searched the realm.

I am not afraid of where those extraterritorial evil gods can go.

No matter how the opponent runs.

In the end, Zhang Yuhe will dig them all out.

If those extraterritorial evil gods ran out of the Desert Sky Realm.

That would be better.

For Qi Feilong.

As long as we don't cause trouble in Desert Sky.

Those evil gods from outside the realm can go wherever they like.

He doesn't care.

"Okay, then they'll all be destroyed."

Zhang Yuhe didn't talk nonsense either.

He turned the ferry around and flew quickly towards the target direction.

behind them.

The sixteen God King monks in the Deacon Hall were all eager to give it a try.

They have seen many evil gods from outside the realm.

Even the monks from the Bolin Holy World have had many interactions with each other.

But that was in the long river outside the territory.

In the sea of chaos.

They really have never seen a real evil god from outside the realm.

It is said that the strength of those monks from outside the realm was greatly suppressed after entering the Sea of Chaos.

But they only heard about it.

No one has seen it.

After all, the number of extraterrestrial evil gods that entered the Chaos Sea was not very large.

The number of extraterritorial evil gods distributed in Desert Sky is even smaller.

The number will not exceed a hundred people at most.

Moreover, these extraterritorial evil gods are all deeply hidden.

Rarely do activities in person.

Even when initiating unrest.

The evil gods from outside the territory can also do it, and they have prepared countless back-ups in advance.

They rarely meet with monks of the same level in Chaos Sea.

It is precisely because of caution.

Only those alien evil gods could hide in the desert sky for so many years.

I almost never received a big blow.

This time, an extraterrestrial evil god actually appeared under everyone's noses.

Although this extraterrestrial evil god is also at the God King level.

However, most of the strength was suppressed by the origin of the Chaos Sea.

Such a weak chicken god king.

Everyone has never encountered it.

They actually met each other this time, how could they not be excited.

Zhang Yuhe drove the sky-crossing boat and swiftly and silently sailed through the void.

Half a day later.

Dutianzhou suddenly stopped.

Qi Feilong looked into the distance and frowned slightly.

There is a void here.

Let alone land.

Not even a meteorite.

Could it be that those extraterrestrial evil gods can still hide in the void?

Qi Feilong looked at Zhang Yuhe and asked with confusion on his face.

"Brother Yinhe, is the branch altar of the Bolin Sect near here?"

Zhang Yuhe did not respond directly.

He stood at the front of the sky boat and kept pinching the magic formula in his hand.

Layers of invisible fluctuations continue to spread toward the distance.

After pondering for a while.

Section 1060

He spoke slowly.

"It's still far away, at least half an hour away."

Qi Feilong was slightly startled.

The boat crossing the sky is extremely fast,

Half an hour's journey is very far away.

That being the case.

Why did Zhang Yuhe stop here?

It should not be touched as soon as possible.

Directly beat the alien evil god to death?

He didn't understand it at all.

Seeing Qi Feilong's puzzled look.

Zhang Yuhe said with a sigh.

"I just sensed it carefully."

"In the vast surrounding area, hidden warning formations have been deployed."

"As long as we move forward for a while, we will be discovered by the other side soon."

"It's still too far away now."

"If the other party finds out something is wrong in advance, they will definitely run away."

"Then we probably won't be able to catch up."

After listening to Zhang Yuhe's narration, Qi Feilong couldn't help but frown.

Are those extraterrestrial evil gods so vigilant?

Across the endless void in the distance, a warning array began to be set up.

No wonder they had never been able to grasp each other's feet before.

He probably hadn't waited for them to get close.

The other party had known about it in advance and then quietly retreated.

Qi Feilong unfolded his consciousness and looked around carefully.

However, it took a while.

He didn't even see anything wrong.

He did not notice any traces of formations around him.

Normally.

This is almost impossible.

What kind of warning array can hide from his perception?

Although nothing unusual was seen.

But Qi Feilong was not careless.

he knows.

Since Zhang Yuhe said so.

That must be something discovered.

Zhang Yuhe's wave path rules are much stronger than his divine sense detection.

Moreover, the methods of the foreign monks are somewhat strange in themselves.

After all, in the other party's world, there is an invincible Supreme Being.

From the perspective of inheritance.

Those monks from outside the territory are much stronger than their Chaos Sea.

There are some strange methods that he cannot see.

That's also normal.

But what to do now?

The opponent set up a hidden warning circle to prevent them from getting close.

They will run as soon as they get close to the opponent.

They couldn't just take action directly from such a distance in the void.

That's out of reach.

It takes half an hour to fly across the sky.

Even Qi Feilong, no matter how confident he is in his own strength.

He also couldn't deliver the attack to such a distant place.

And also ensure that the enemy is killed accurately and effectively.

This is simply something that is impossible to do.

Qi Feilong pondered for a while.

He asked slowly.

"Brother Yinhe, where exactly is the other party?"

"Mark their locations on the map."

"Let me try and see if I can seal off all of this void."

"That way you won't be afraid, the other party will run away."

Zhang Yuhe looked at Qi Feilong with a somewhat surprised expression.

Boss, are you so fierce?

Are you sure that such a vast void can be banned?

Although I am curious.

But Zhang Yuhe didn't ask.

The Desert Courtyard has a long heritage, and there is also an Eternal Emperor sitting there.

Maybe Qi Feilong really has some special means at his disposal.

Being able to seal off the entire void is something that is hard to say.

Anyway, just wait and see.

Think of this.

Zhang Yuhe casually marked a point on the map next to him.

Mark the location of the small landmass on it.

...

Chapter 751 The restless Zheng Qiuming

Qi Feilong looked at the location marked by Zhang Yuhe on the map.

He pondered for a moment.

Then he spoke again.

"Brother Yinhe, mark all the nodes of the warning circle."

Zhang Yuhe nodded.

Then he slowly stretched out his right hand and followed the periphery of the small land.

Draw a wide arc.

Qi Feilong looked at the map in front of him and made silent calculations in his heart.

After a while.

Then he smiled and said.

"Although the area that needs to be sealed is a bit large, fortunately it is still within the tolerance range."

After saying this.

Qi Feilong took out a formation flag and threw it into the void.

The formation flag turned into a stream of light and soon disappeared in the void.

After doing all this.

Qi Feilong said with a smile.

"Brother Yinhe, let's circle around the outside first."

"After this entire area is sealed off."

"Then divide the Bolin altar and destroy it in one fell swoop."

"good."

Zhang Yuhe turned around and crossed the Tianzhou.

While flying quickly along the outer area, he continued to use the magical power of the Wave Path.

So as not to trigger the opponent's warning circle.

Qi Feilong stood quietly at the front of the sky boat.

He holds the formation flag.

Every once in a while, a formation flag is thrown.
