Section 106

A huge finger shadow appeared out of thin air.

The shadow slowly pressed down on the golden seal, and instantly fixed the seal.

Taking advantage of this gap, Zhang Yuhe quickly distanced himself and flew away quickly.

Twelve demons were chasing him closely.

In order to ambush Zhang Yuhe, they had planned for a long time, and sacrificed so many teams in vain.

If they let him run away like this, how would they fight the next battle?

Zhang Yuhe ran away with his head down, and attacks came from behind him from time to time.

He didn't care at all, flying quickly against the sword light curtain.

As long as it wasn't a special control method, he didn't bother to pay attention.

Time passed slowly.

The two sides chased all the way.

Soon, a valley appeared in front of Zhang Yuhe, and he couldn't help but secretly rejoice.

There was a teleportation array he arranged here.

As long as he rushed into the valley, he could teleport away.

However, the demons following behind him obviously knew what he was thinking.

Ten thousand black sword lights came from behind.

The sword light did not lock onto Zhang Yuhe.

And it chopped down directly at the empty valley.

Boom...

Waves of smoke and dust rose in the valley.

The teleportation array that Zhang Yuhe arranged in the valley was directly chopped into slag.

"Fuck."

Seeing this, Zhang Yuhe cursed in frustration.

Keep running.

The teleportation array was destroyed by the opponent, so he could only keep running.

Zhang Yuhe ran all the way, and the demons behind him had no intention of giving up.

Every time he approached the teleportation array, he was destroyed by the opponent in advance.

"This won't work."

Zhang Yuhe thought silently while running quickly.

He had to think of a way to hold back the demons behind him for a while.

Otherwise, he would not be able to teleport away.

After a while.

Another valley appeared in front of him.

Zhang Yuhe waved his right hand.

The sword energy light curtain surrounding him disintegrated instantly.

Nine flying swords fell behind him, and a huge sword formation rose up.

The demons behind him were instantly covered.

Taking this opportunity, Zhang Yuhe rushed to the valley quickly.

He didn't expect that the Nine Heavens Hunyuan Sword Formation could completely trap these demons.

One or two is fine.

There are so many demons behind, they can break the sword formation and rush out in a minute.

He only needs the sword formation to hold the opponent for a while.

Zhang Yuhe landed on the teleportation formation.

As the spell was pinched, the teleportation formation lit up with dazzling light.

At the same time, the sword formation that trapped the demons immediately disintegrated, and the nine flying swords instantly returned to Zhang Yuhe.

As the light flashed.

Zhang Yuhe disappeared from the valley.

Mo Yuetian rushed in first, looking at the empty valley.

He slapped his palm in anger, razing the entire valley to the ground.

An action that had been planned for a long time failed just like that.

This made him extremely depressed.

Mo Yuetian swept his cold eyes over the group of demon guards.

After a long time, he said lightly.

"Let's go back first. It seems that we need to take the initiative to attack."

After Mo Yuetian finished speaking, he turned into a stream of light and disappeared in the distance.

The demon guards at the scene looked at each other in surprise.

"What does the palace master mean? We can't even defend, how can we take the initiative to attack?"

"I don't know, let's go back first and see what the palace master says."

"That's right, it's really too aggrieved. We obviously have a huge advantage, but the other party messed it up by one person."

"Don't worry, the palace master will have a way."

"Let's go back first."

...

The demon guards discussed in a low voice for a while, and then quickly turned into a stream of light and flew away.

Dingzhou City.

A stream of light flew from a distance and quickly fell outside the city.

Zhang Yuhe showed up and walked slowly into the city.

He planned to rest for a while.

The experience just now made him understand a truth.

If you walk along the river frequently, you will get your shoes wet.

During this period, he attacked the demon army crazily, and he was indeed a little too proud of himself.

In fact, there was no need to do this.

He should slow down and go out to steal from time to time.

Entering Dingzhou City, Zhang Yuhe did not alarm anyone.

Instead, he found an unmanned house and lived there.

Due to the threat of the demon army.

Monks and people from all over the country are rapidly migrating to the west of the Liuyun Corridor.

Dingzhou City, which was once extremely prosperous, is now in a state of depression.

There are uninhabited houses everywhere.

Zhang Yuhe sat cross-legged in the room, silently reflecting on his recent battle experience.

Facing the demon Mahayana, he could only run away every time.

This feeling made him very uncomfortable.

He wondered if there was any way to improve his strength in a short period of time.

He felt that he still lacked sufficient deterrence, which made the demon Mahayana so arrogant.

Although he had killed a demon guard before, it was still not enough.

He had to let those demon Mahayana understand.

If you want to wait for him again, you have to pay a high price.

However, with his current strength, it is obviously not enough to scare the demons.

You must find a way to improve your own strength.

For the time being, you don't have to think about cultivation.

He just broke through to the Mahayana realm not long ago.

If you want to go further, it will take at least hundreds or thousands of years to break through to the middle stage of Mahayana.

"Then we can only think of some ways in terms of magical powers."

Zhang Yuhe thought silently.

The magical powers he learned were basically from the Daosheng Sect Sutra Building.

It can be said that they are the top magical powers in Yufantian.

But he felt that it was still a little insufficient.

Although these magical powers are powerful, they are still a little lacking.

After all, the magical powers of every Mahayana are not weak.

In terms of magical powers, he does not have too many advantages.

Maybe it's time to create a magical power of his own.
