Section 1061

...

Lorraine Wilderness Land, North.

The mountains stretch on and on.

among the mountains.

A small city stood quietly.

The monks in the city are constantly coming and going, and there is a peaceful atmosphere.

Most of them don't know.

Below the city, there is also a huge palace.

Zheng Qiuming slowly stood up from the high platform.

do not know why.

He suddenly.

I felt a little restless.

It was as if a disaster was about to happen.

He became the leader of the branch altar of the Bolin Sect and was stationed here.

Zheng Qiuming acted cautiously.

Since taking office.

Except in the beginning.

Occasionally, some local monks would be captured and baptized and purified.

He almost never appeared in front of outsiders.

Zheng Qiuming has always been in charge of the division and in control of the overall situation.

As for specific matters.

They are all left to those members of the congregation who have been baptized.

For safety reasons.

He even set up a warning circle in the endless void far away from the altar.

For so many years.

Always safe and sound.

This is his forum.

Never been discovered.

Just don't know why.

Just now.

Zheng Qiuming suddenly felt a strong uneasiness in his heart.

He whispered to himself silently.

"Is something big going to happen?"

Think of this.

Zheng Qiuming turned his right hand.

A black array disk appeared in his hand.

After playing a magic formula.

Dots of light quietly appeared on the array disk.

"It's really strange, no outsiders broke in?"

"What is it that makes me feel so uneasy?"

Zheng Qiuming was thoughtful.

There is nothing unusual about the light spots on the array disk.

It means that no outsiders touched the warning arrays on the outside.

"Am I overthinking it?"

Zheng Qiuming looked up at the tall statue in front of him.

Silently talking to himself.

After a while.

It was like a statue of the Supreme Pauline, giving him inexplicable confidence.

Zheng Qiuming's anxious heart slowly relaxed.

He turned around slowly.

Turn over your hand and take out a token.

After playing a magic formula.

Zheng Qiuming said calmly.

"Wang Cheng, come here."

"Yes, Altar Master."

After a while.

An old man in green clothes and white hair walked quickly into the hall.

Wangcheng is the first group of believers to be baptized in the Pauline branch.

He is also the city lord in the city outside.

It is precisely because of Wang Cheng's cover outside.

Only the Bolin branch where Zheng Qiuming was located could always be hidden in the deserted land of Lorraine.

Never been discovered.

Wang Cheng walked into the hall and shouted respectfully to Zheng Qiuming on the high platform.

"Altar Master, I don't know how to call my subordinates over, but what are your orders?"

Zheng Qiuming glanced at him, and then asked slowly.

"Has anything unusual happened in the city recently?"

"Are there any special unfamiliar faces entering the city?"

Wang Youcheng couldn't help but be stunned.

What is this nonsense?

In such a big city, people come and go every day.

Even if he keeps watching carefully.

I can't tell who is the unfamiliar face.

Although I think so in my heart.

But the people in Wangcheng have become mature.

Of course he wouldn't say that.

After pondering for a while.

Wang Cheng said slowly.

"Reporting to the Altar Master, there has been nothing unusual in the city recently."

"The city's guards have been patrolling inside and outside the city."

"Even in the outer void, my subordinates have arranged for people to patrol and monitor from time to time."

"I didn't find any special personnel entering the deserted land of Lorraine."

Zheng Qiuming nodded gently.

In fact, he also knows.

Of course, it is impossible for Wang Cheng to find anything abnormal.

Otherwise.

I had already reported it to him.

How can I wait for him to come and ask in person?

Zheng Qiuming asked Wang Cheng to come over.

Just to seek some psychological comfort.

The two continued chatting for a while.

Zheng Qiuming waved his hand and said.

"It's okay, you go down first."

"Yes, Altar Master."

Wang Cheng bowed and bowed, then slowly exited the hall.

...

In the void outside Lorraine Desolate Continent.

A strange chaos boat flew quickly and silently.

Qi Feilong stood at the front of the Tianzhou.

Every once in a while, he would throw up a formation flag.

Half a day passed.

Section 1062

They finally circled the entire void and flew in a full circle.

Zhang Yuhe made a rough calculation.

during this time.

There were a total of 108 formation flags thrown by Qi Feilong.

obviously.

This is setting up a super ban formation.

Otherwise.

It doesn't have to be so troublesome.

After throwing out the last formation flag.

Qi Feilong smiled and asked Zhang Yuhe.

"Brother Yinhe, please try again."

"That extraterrestrial evil god hasn't escaped yet, has he?"

"No, it's still where it is."

Zhang Yuhe nodded lightly.

During this time.

He continued to display the magical power of Wave Dao.

In addition to preventing contact, the opponent also arranged a warning circle.

Also, keep an eye on the movements of the extraterritorial evil god.

Fortunately, they are secretive.

The other party didn't find anything.

Qi Feilong said with a smile.

"Since he hasn't run away yet, he can't run away anymore."

After saying this.

I saw him quickly using the magic formula.

A faint light curtain slowly rose from the periphery.

The light curtain is faint and invisible.

Soon it disappeared into the void again and disappeared without a trace.

But Zhang Yuhe could clearly feel it.

Under the shroud of light.

There is an extra thick breath.

Wait until the light curtain disappears completely.

Qi Feilong said calmly.

"let's go."

"This Tianluo Sealing Formation exists."

"Even if the other party discovers an abnormality now, there is no chance of running away."

"The formation sealed the entire sky."

"Not only are the transmission and communication functions blocked, but the flight speed in the area is also suppressed."

"There's no way he can run away."

Qi Feilong's eyes were sharp and he looked into the distance silently.

Zhang Yuhe did not ask in detail.

He pinched the magic formula casually.

Dutianzhou turned around and flew quickly towards the target location.

...

Chapter 752 Hey, they are moving the idols

After the blocking light curtain rises.

The monks on the deserted land of Lorraine did not notice anything unusual at first.

Because this place is originally a very remote small land.

There is no public teleportation array.

This aspect will not affect ordinary monks on land.

However, the sealing formation blocked the communication and at the same time suppressed the monk's flying speed.

As time passes slowly.

More and more monks discovered this abnormal phenomenon.

Because they want to contact the monks they are familiar with.

I found that I couldn't be contacted.

There are even some monks.

The subpoena was originally in progress, but it was suddenly cut off.

more importantly.

The monks on the deserted land of Lorraine soon discovered it.

Their strength seems to have been greatly suppressed.

While everyone is flying.

The speed is not even half of the usual speed.

News of an abnormality in Lorraine's wasteland quickly spread across the continent.

People were panicked for a while.

Some smart people think of it immediately.

There may be some kind of terrifying force coming to the deserted land of Lorraine.

This triggered such an astonishing anomaly.

Everyone flew out of the mainland one after another, trying to escape the possible disaster.

In the underground palace.

Wang Cheng ran all the way, quickly running towards Zheng Qiuming's main hall.

As he approached the main hall.

A figure with a deep breath suddenly stepped forward and stopped him.

He is clearly a true god monk.

"City Master Wang, you are not allowed to enter without being summoned by the Altar Master."

At this critical moment, I saw someone blocking the way.

Wang Cheng couldn't help but feel anxious.

he shouted.

"Get out of the way, I have something big to do to see the Altar Master."

However.

The true god monk was obviously very loyal to his duties.

No intention of getting out of the way.

Just at this time.

Zheng Qiuming's voice came out faintly in the hall.

"What happened, come in and tell us."

Wang Cheng quickly walked into the hall.

He looked at Zheng Qiuming on the high platform and said anxiously.

"Altar Master, something big happened."

Zheng Qiuming's heart skipped a beat.

Wang Cheng had just left his place, but now he came over immediately.

This already made him very strange.

Now I heard Wang Cheng say this.

Zheng Qiuming was even more panicked.

He immediately asked solemnly.

"So what happened?"

"Have powerful foreign monks entered the deserted land of Lorraine?"

Wang Cheng took a deep breath.

He collected his thoughts and then spoke anxiously.

"I can't tell exactly what happened."

"Just a little while ago."

"The communication throughout Lorraine's wasteland was suddenly cut off by some force."

Section 1063

"Even the strength of the monks has been greatly affected."

"The speed of our flight over the continent has been greatly suppressed."

"The Forbidden Array?"

After listening to Wang Cheng's narration.

Zheng Qiuming stood up in an instant.

He immediately knew the reason.

As a Divine King monk from the Bolin Holy Realm.

Zheng Qiuming's knowledge is naturally not comparable to those ignorant natives in the Lorraine Wasteland.

He immediately judged.

This must be the influence of the Forbidden Array.

And it is an extremely powerful Forbidden Array.

The Array is silent.

Even he, the Supreme Divine King, did not notice anything unusual.

Zheng Qiuming took out a token and quickly cast a spell.

It was found that the communication had indeed been cut off.

No message could be sent at all.

Zheng Qiuming dodged and rushed to the back of the hall.

He just waved his right hand.

The wall behind the hall burst open.

A tall array platform quietly appeared in front of him.

This is a super teleportation array.

Zheng Qiuming himself is a master of array formation.

After serving as the master of this place.

He not only arranged a large number of warning arrays on the periphery.

He also arranged various top-level defense arrays around the underground palace.

Of course.

The most important thing is the super teleportation array in front of him.

Because this is his last escape route.

Once an unpredictable danger occurs.

He can escape quietly through this teleportation array.

For this teleportation array.

He is the only one who knows about it in the entire branch.

Zheng Qiuming took a deep breath.

He looked at the teleportation array in front of him and quickly cast a spell.

A dazzling light rose on the array platform, and then soon fell into darkness.

Seeing this situation.

Zheng Qiuming couldn't help but feel depressed.

"It is indeed a forbidden formation."

"Even teleportation and communication are completely blocked."

"Who is it?"

"Is it the Desert Academy, or other forces?"

"Or maybe it's just other cultivators fighting outside."

"It accidentally affected this side."

Zheng Qiuming was extremely anxious.

He didn't know whether this powerful force was coming for him.

But he knew.

He had to avoid it quickly.

No matter whether the other party was coming for him or not.

He couldn't put himself in danger.

When encountering something he couldn't understand.

Just run away first.

This is the life-saving principle that he has believed in for so many years since he entered the Chaos Sea.

Thinking of this.

Zheng Qiuming quickly returned to the hall.

He said to Wang Cheng anxiously.

"Immediately notify all believers to evacuate according to the emergency plan."

After saying this.

Zheng Qiuming quickly came to the statue.

He bowed respectfully to the Supreme Statue.

Then he stretched out his hand and slowly pressed on the pedestal below the statue.

Although the situation is urgent now.

But Zheng Qiuming still dared not abandon the statue.

He must take the statue away.

Otherwise.

Once the statue is lost.

His life will end.

The head of the main temple, Lu Yuan, will not let him go.

Wang Cheng bowed and left.

Prepared to notify others to evacuate.

At this time.

A huge Chaos Boat quietly flew over the city.

Qi Feilong stood at the front of the Sky Boat.

He swept his eyes over the city below.

His spiritual sense kept investigating downwards.

However, he did not find anything unusual.

This is a very ordinary city.

There are also ordinary mountains outside the city.

As for under the city.

He investigated all the way underground and found nothing.

Qi Feilong couldn't help but feel a little confused.

Could it be that Zhang Yuhe saw it wrong?

There is nothing under the ground here.

Where did the Bolin branch temple come from?

He looked at Zhang Yuhe and asked uncertainly.

"Brother Yinhe, you are not mistaken, are you sure it is here?"

Zhang Yuhe smiled and nodded.

"Yes, it is here."

"There are multiple concealment formations set up under this ground."

"Normally, it can't be seen at all with the divine sense."

"Oh, no."

"They are moving the statue."

While talking.

Zhang Yuhe suddenly found in the underground palace through the wave divine power.

The foreign evil god was moving the statue of Bolin Supreme.

Zhang Yuhe already knew how precious the Supreme statue was.

Although he couldn't use it himself.

But those Eternal Emperors needed it.

Nothing that the Emperor needed was cheap.

Zhang Yuhe couldn't let Zheng Qiuming take the statue away.

What if the other party destroyed the statue.

Section 1064

Wouldn't that be a big loss?

It must be stopped.

He has already taken a liking to this statue.

No damage can occur.

I've taken a fancy to it, it's mine, don't let me ruin it!

...

Chapter 753 Beating up the little chicken

I saw Zheng Qiuming transferring the statue of the Supreme God.

Zhang Yuhe did not hesitate anymore.

He was still thinking about it.

Let Qi Feilong and Deacon Hall do the actual work.

He is only responsible for leading the way to find people.

But now the other party actually wants to remove the Supreme God Statue.

Then he couldn't wait any longer.

Don't wait for others to react.

Zhang Yuhe was seen quickly using the magic formula.

A huge millstone suddenly appeared in the void.

The millstone covered the sky and covered the entire sky.

As the millstone slowly rotates.

Time and space for millions of miles around seemed to be stagnant.

In the underground palace, the countless Bolin followers were overwhelmed by this terrifying divine power.

It was crushed directly into a bloody mist.

Zheng Qiuming just reached out and touched the base of the statue.

The terrifying divine power has already enveloped him.

The divine power was unparalleled, and it directly locked him in place, completely unable to move.

Qi Feilong and others nearby saw Zhang Yuhe suddenly take action.

Everyone couldn't help but be stunned.

What kind of trouble is this?

No one has seen it yet.

Your magical power covers all directions.

It's a bit outrageous.

In case you are not careful and make a mistake.

So aren't those monks in the city below very innocent?

Zhang Yuhe did not explain.

I saw him wave his right hand.

A magnificent sword light flashed.

It directly split the city below into two halves.

The sword light flashed across the sky and the earth.

A bottomless ravine was carved into the ground below the city.

A huge underground palace was finally revealed to everyone.

Above the palace.

Countless arrays of light curtains are layered on top of each other.

However, these light curtains have been blocked by Zhang Yuhe's terrifying millstone magical power.

Crushed to pieces.

Everyone looked towards the underground palace.

I saw that countless monks had turned into balls of blood mist.

Various items were scattered messily on the ground.

But what attracted everyone's attention the most was the tall statue in the center of the palace.

The idol shines brightly.

When people look at it, they can't help but feel a little intoxicated.

As for Zheng Qiuming next to the statue.

No one paid much attention.

Although Zheng Qiuming is not dead yet.

But in everyone's eyes.

There is no difference between that and a dead person.

An extraterrestrial evil god whose strength was suppressed by the origin of the Chaos Sea.

Under the strong watch of their supreme god kings.

Can he still run away?

not to mention.

At this time, Zheng Qiuming had already been possessed by Zhang Yuhe's mysterious millstone power.

He was directly suppressed in place, unable to move at all.

It's just a dead person.

Everyone watched everything in front of them quietly, and no one made a move.

Everyone was beaten to death by Zhang Yuhe.

No need to take action again.

At the same time as Zhang Yuhe took action.

Qi Feilong unfolded his consciousness.

The vast divine power shrouded all directions.

All the monks on the deserted continent of Lorraine were suppressed in place.

According to past experience.

As long as it is where the Pauline cult's altar is.

The monks nearby will be more or less involved.

They are either themselves members of the Pauline Cult.

Or he is unknowingly serving the Bolin Cult.

Or maybe some of the relatives have joined the Pauline Cult.

Anyway.

Whenever the Pauline Sect sets up a branch altar on a continent.

They will develop a complex network of relationships locally.

Qi Feilong believed it.

He slapped it down.

All over the continent.

Among ten people, there will be no more than two innocent people.

despite this.

He did not wipe out all the monks on the entire continent.

Instead, suppress these people in place first.

Wait until the matter is over.

Then use the space artifact to imprison these people first.

Later, I will take it back to the Deacon Hall and review it slowly.

Damoyuan will never let a bad person go.

Anyone who colludes with the evil gods outside the territory cannot escape the word "death".

Zhang Yuhe stands at the front of the sky boat.

Quickly pinch the magic formula with your hand.

When the black millstone in the sky turned a small half circle.

Zheng Qiuming in front of the statue suddenly exploded into a ball of blood mist.

Completely disappear from this world.

An extraterrestrial god-king died like this.

Die quietly.

Zhang Yuhe didn't even bother.

He just used the magical power of Chaos to Return to the Void and enveloped it.

Section 1065

Just this Fangbo Lin branch temple was completely wiped out.

No living creature was left at the scene.

Under the divine power of the millstone, all died.

But this is normal.

With Zhang Yuhe's current strength.

Let alone Zheng Qiuming, a foreign god king whose strength was suppressed.

Even if it was a genuine Chaos Sea God King cultivator.

He didn't have to work too hard to kill.

Except for those old-fashioned nine-step god kings.

Zhang Yuhe might need to be taken seriously.

Like those ordinary god king cultivators.

Few people can block his magical power.

Seeing this situation.

All the god kings of the Deacon Hall on the Tianzhou couldn't help but be amazed.

First, they were amazed at Zhang Yuhe's decisiveness.

He said he would take action.

Never drag his feet.

Second, they were amazed at Zhang Yuhe's strength.

Everyone knows that Zhang Yuhe is very powerful.

When he was still in the realm of true god, he could sweep across the Tianyang Sect alone and beat the ten great god kings in a row.

Now Zhang Yuhe has been promoted to the God King Realm.

His strength must be even stronger.

But what they didn't expect was that.

That foreign evil god was just like a little chicken.

He was easily crushed by Zhang Yuhe.

You know.

That was also an almighty God King.

Although most of his strength was suppressed by the Chaos Sea Origin.

But he was also a God King.

The God King cultivator couldn't even block a single move from Zhang Yuhe.

What kind of strength is this?

It's simply terrifying.

Everyone couldn't help but sigh.

Zhang Yuhe withdrew his hands and stood behind his back.

The millstone phantom in the sky began to slowly dissipate.

The scene fell into silence.

Qi Feilong looked at the Supreme God Statue in the distance, and his heart couldn't help but be hot.

If he could contribute this statue to the head of the Desert Academy.

I'm sure the head of the Academy would like it.

But this thing obviously belongs to Zhang Yuhe.

The man was found by Zhang Yuhe, and was also killed by Zhang Yuhe.

There is no such thing as a distribution issue.

Qi Feilong hesitated.

For a moment, he didn't know how to start.

After a long while.

He asked Zhang Yuhe seriously.

"Brother Yinhe, I wonder if you can give me this statue."

"Brother Dao, if you have any needs, please feel free to ask."

Zhang Yuhe smiled slightly.

He said lightly.

"That's easy to say."

"Anyway, I can't use the Supreme Statue."

"In the entire realm, except for the head of the Desert Academy, no one else is qualified to comprehend the Dao rhyme on the statue."

At this point.

Zhang Yuhe pondered for a while.

Although he couldn't use the statue.

But it certainly couldn't be given away for free.

Only an equal exchange would be in the interests of both parties.

Only in this way can the relationship between the two sides be maintained normally.

Zhang Yuhe had an idea in his mind about what he needed.

That was the material.

The material for refining the God King's weapon.

Although he has been promoted to the God King Realm for 100,000 years.

But his natal artifact is still a true artifact.

It has not been promoted yet.

The natal artifacts of the nine clones are also the same.

There is no way.

The materials for the true artifact are easy to find.

There are some in the Chaos Sea.

But the materials for refining the God King artifact are very difficult to get.

There are almost no such materials in the entire Chaos Sea.

Only by going to the long river outside the domain.

Can similar materials be found in the dangerous secrets.

Donghua Palace has no stock.

After all, there were only three God Kings in the entire Donghua Palace before.

They themselves are not enough, how can there be any stock.

However, if Donghua Palace has no stock, the Desert Court must have it.

After all, it is the overlord of a domain.

There are many God Kings in the Desert Court, and most of them are in charge of the outer gate of the domain all year round.

More importantly.

With the Desert Court Master here.

It should not be difficult for them to get some materials.

Thinking of these.

Zhang Yuhe waved his right hand.

He took out a blank jade slip.

He recorded the materials needed to upgrade the Nine Heavens Hunyuan Sword on the jade slip.

Then he handed the jade slip to Qi Feilong.

"I want the materials on it. I wonder how much you can give me?"

...

Chapter 754 A peerless God King is rising

Qi Feilong took the jade slip.

He just glanced at it and knew what Zhang Yuhe wanted these things for.

To refine the God King weapon.

Thinking of Zhang Yuhe, he had just broken through to the God King realm not long ago.

It is indeed time to make some preparations for the promotion of the natal artifact.

The materials for refining the God King weapon are naturally available in the Desert Academy.

Even the materials listed by Zhang Yuhe on the jade slip.

They all have them.

But the problem is.

Section 1066

Zhang Yuhe wants too much.

There are so many kinds of precious weapon refining materials, including hundreds of them.

And the quantity required for each material is still very large.

Qi Feilong was a little skeptical.

Why does Zhang Yuhe need so many materials?

Did I guess wrong?

Is it really for the promotion of the natal artifact?

What kind of natal artifact requires so many materials?

So much material.

Even if it were to refine hundreds of divine king weapons, it would be more than enough.

Even a complete set of divine king weapons definitely does not require so many materials.

Of course.

None of this is critical.

Zhang Yuhe opened his mouth to bid, and it wouldn't be surprising if he asked for more.

But the problem is.

There are so many materials for the God King Artifact that the Desert Academy really can't come up with.

Although the Desert Court family has a great cause.

They can indeed obtain many kinds of treasures from the long river outside the territory.

But there are many people in Desert Courtyard.

Everyone needs the treasures of heaven and earth.

The consumption is also very large.

So it accumulates over a long period of time.

They really don't have much in stock.

Zhang Yuhe wants so many things.

He can't take it out.

Even if it means emptying out the treasure house of Desert Courtyard.

Not so much.

Unless you immediately send someone to the extraterrestrial gate to temporarily find other monks to trade and acquire.

But this will take time.

It's obviously not possible in the short term.

Look.

He needs to bargain with Zhang Yuhe.

Think of this.

Qi Feilong couldn't help but frown slightly.

He, the dignified master of the Deacon Hall of the Desert Courtyard, actually wanted to bargain with others.

It's really a shame.

But in order to get it, the supreme statue in the distance.

Qi Feilong was ready to fight.

After he pondered for a while, he slowly spoke.

"Brother Yinhe, our Desert Academy does have the materials above."

"But currently, we can only make up to two copies at most."

"If you need more materials."

"Then I'm afraid I'll have to wait a little longer."

"It doesn't matter, just two materials."

"That supreme statue belongs to you."

Zhang Yuhe responded lightly.

He didn't seem to care too much.

He really didn't think about it, and killed the main body and the nine clones in one wave.

All the materials needed to upgrade the natal artifact can be gathered together.

The main body and the clone together have ten sets of Nine Heavens Hunyuan Swords.

A total of ninety-nine divine weapons.

The materials needed are absolutely massive.

And each of those materials is extremely precious.

How is it possible to get it all together at once?

Just follow what Qi Feilong said.

One idol is exchanged for two sets of artifact materials.

Zhang Yuhe didn't think that he would lose.

Maybe in other people's eyes.

These statues containing the supreme Taoist charm are of immeasurable value.

But in Zhang Yuhe's view.

This is nothing.

Because of this kind of thing, he can get a lot more in the future.

Not to mention the extraterritorial evil gods in other places.

Just in the Desert Heaven Realm alone, there should be many branches of the Bolin Sect.

Once you clear out an altar, you can get a statue of the god.

According to the current agreed price.

The most Zhang Yuhe needs is to wipe out four other branches of the Bolin Cult.

You can gather together the materials for your true self and clone to upgrade your natal artifact.

It's not difficult at all.

As for saying.

Qi Feilong doesn't have that much material on hand now?

That doesn't matter.

As long as there is more in the future.

Zhang Yuhe can wait.

He was not in a hurry.

for quite some time to come.

Zhang Yuhe plans to focus on improving his cultivation level and understanding the rules.

There are no plans to go to the extraterritorial gate.

Since I don't plan to leave the Sea of Chaos.

With his current strength, it is completely sufficient.

Promotion of the natal artifact is not an urgent need for the time being.

It was so refreshing to see Zhang Yuhe.

Qi Feilong couldn't help but be overjoyed.

He originally thought.

The idol of the Supreme God is so precious.

Zhang Yuhe may be reluctant to let go.

Who knew it would be so easy.

Using only two sets of materials for the God King's Tool, he traded the Supreme God Statue.

Think of this.

Qi Feilong said excitedly.

"Thank you very much, Brother Yinhe."

After saying this.

He immediately sacrificed a space artifact and put away the tall statue in the distance.

They have no formula for controlling the Supreme God's statue.

You can't be like those evil gods from outside the territory, and you can shrink the statues and take them away.

But that's okay.

No matter how mysterious the statue of the Supreme God is.

It was just a dead thing.

It's just a bit bigger.

Want to take it away by force.

Section 1067

Naturally, it is difficult for them.

...

After wiping out a branch of the Pauline Cult.

The ferry boat returns to its original route.

Zhang Yuhe stood at the front of the sky boat, constantly using his magical powers.

Continue to search for traces of evil gods outside the territory.

At this time, we are on the boat crossing the sky.

Everyone's faces were filled with excitement.

If.

at the beginning.

They may still have doubts about Zhang Yuhe's ability.

Even Qi Feilong, who presided over the operation.

Not completely sure either.

After all, the rules of Wave Dao have been cut off in the Sea of Chaos for countless years.

He didn't know much about the rules of this avenue.

Just from the records in the classics.

Know that this is an extremely powerful detection rule.

But what about the specifics.

How powerful is the detection ability?

Then he doesn't know.

With the destruction of the extraterritorial branch just now.

The doubts in everyone's minds were instantly wiped away.

The Pauline Cult branch altar just now was so secretly hidden.

Even if they are standing on the altar.

Still didn't notice anything.

But Zhang Yuhe can, across the endless and distant void.

Feel everything clearly.

What kind of terrible magical rule is this?

There are such mysterious rules of the avenue.

No matter how deep those extraterrestrial evil gods hide.

In the end, Zhang Yuhe will dig them out one by one and solve them.

This is done once and for all.

This is the best chance to completely eliminate those extraterritorial evil gods lurking in the desert sky.

Everyone looked at Zhang Yuhe and couldn't help but be full of curiosity.

At the same time, there was a hint of awe.

They didn't think that Zhang Yuhe just relied on a wave of Tao rules.

can achieve today's achievements.

Because when I took action just now.

The magical power of the millstone displayed by Zhang Yuhe.

Everyone was very impressed.

The millstone that covers the sky and the sun carries a terrifying power.

Directly from a distance of millions of miles, all the Bolin cultists in the underground palace were suppressed.

As a god king monk.

Everyone on the ferry boat could clearly feel it.

The magical power of the millstone that covers the sky carries a vast aura of rules.

And not just one.

There are many kinds of rules, intertwined.

This allowed the millstone in the sky to exude such terrifying power.

Zhang Yuhe had just been promoted to the God King Realm.

He actually realized the power of multiple rules.

Then his understanding must be so terrifying.

Everyone simply didn't dare to think about it.

But there is one thing.

They all know it very well.

At least in the God King stage, Zhang Yuhe should not have many obstacles.

Maybe you can continue to practice smoothly and reach the nine-step god king realm.

The Eternal Emperor is high above.

The Nine-Step God King Realm is the top existence in the entire Chaos Sea.

In addition, Zhang Yuhe's combat power is incredible.

Once he is promoted to the Nine-Step God King.

How powerful should that be?

A peerless god-king is rising.

Think of this.

How could they not be in awe.

...

## Chapter 755 Lu Yuan's decision

Time passes slowly.

More than 200,000 years have passed since Zhang Yuhe discovered the first branch of the Bolin Cult.

During these more than two hundred thousand years.

They wiped out three more Pauline cult altars in succession.

Compared with the previous time.

The next three times will be much smoother.

After all, not every evil god from outside the realm is as proficient in formations as Zheng Qiuming.

Outside the endless and distant void, a large number of warning arrays were deployed.

A normal Bolin Cult branch would naturally not have the ability to arrange the formation to this extent.

At best they are.

Not far from the altar, some warning and defensive formations were arranged.

Such a formation will naturally not cause much trouble to Zhang Yuhe and others.

Same as before.

Zhang Yuhe drove the boat across the sky and rushed directly to the sky above the Bolin Sect's branch altar.

Then wait for others to react.

It's just a magical move.

Directly crushing all the Bolin followers and the altar leaders inside into a ball of blood mist.

the whole process.

Don't be too simple.

Zhang Yuhe took four consecutive shots and captured four supreme statues.

And they are all intact.

Under the supervision of Zhang Yuhe.

Those extraterrestrial evil gods have no chance at all to destroy the Supreme God Statue.

during this time.

The complete statue obtained by Zhang Yuhe.

Even more than what was obtained in the entire history of the Chaos Sea.

Qi Feilong was so excited that he almost fainted.

How difficult it is to capture the complete statue of the Supreme God.

Those extraterritorial evil gods only need to sense something is wrong.

The idol will be destroyed immediately.

The Chaos Sea monks would not be given a chance to seize the statue.

It is precisely because of this.

These statues of gods with the supreme Taoist charm are extremely precious.

Section 1068

However, Zhang Yuhe took action.

Those extraterrestrial evil gods were like wooden men, easily crushed to death.

Not even one of the four supreme statues was damaged.

All intact.

Whenever Zhang Yuhe moves, he will wipe out a bolin altar.

Qi Feilong happily sacrificed the space artifact and put away the supreme statues.

As for the price.

Naturally it is the same as before.

Two sets of materials to upgrade your natal artifact.

Now Qi Feilong is not worried, there are not enough materials in the treasure house.

Anyway, it's already overdrawn.

As the saying goes, if you have too much debt, you don't have to worry.

He already owed Zhang Yuhe a lot, and he didn't lack this much.

Just owe it first.

After this is over.

He planned to go to the extraterritorial gate in person.

Find those familiar God King monks and exchange a batch of materials back.

In Qi Feilong's view.

For the statue of the Supreme God, what does a few materials mean?

Although each of the materials for refining the divine king's weapon is extremely precious.

But compared with the Supreme God statue.

That is one heaven and one underground.

What the Eternal Emperor regards as a treasure, how can it be compared to the mere material of the God King?

that's all.

Zhang Yuhe was responsible for searching and mopping up the evil gods outside the territory, while Qi Feilong just put away the statues.

Both of them were very happy.

Continuously sweep all the way across.

...

In a void continent somewhere far away from them.

A magnificent palace, hidden deep underground.

Lu Yuan was dressed in white and walked back and forth on the high platform.

I felt a little restless in my heart.

He looked back at the tall and glorious statue behind him.

He muttered to himself.

"Something must have happened, it must have happened."

during this time.

There were four separate altars in a row, and suddenly they lost contact.

It started when Zheng Qiuming lost contact.

Lu Yuan decided that something might have happened.

Perhaps it was the God King monk from the Chaos Sea who accidentally discovered the location of the altar.

Maybe Zheng Qiuming was beaten to death before he could send out the message.

despite this.

Lu Yuan didn't really care.

Since the day they entered the Sea of Chaos.

Lu Yuan knew it.

Death will be with them.

Occasionally someone dies.

That's also normal.

After all, their strength has been greatly suppressed.

Chaos Sea monks are not only numerous in number, but also have local advantages.

In a head-on confrontation.

That's no different from seeking death.

It is precisely because of this.

Lu Yuan has repeatedly warned his subordinates about the different altar leaders.

You must act with caution.

Rather do less than take risks.

But even so.

in the long years.

There are still monks from the Bolin Realm who have fallen into the Sea of Chaos due to various accidents.

From the previous He Rufeng, Wu Wei.

Until now.

In just 200,000 years, Zheng Qiuming and other four altar masters lost contact one after another.

Apparently it has also fallen.

Lu Yuan is convinced.

This is certainly not an accident.

An accident can be said to be an accident.

Having two accidents in a row may also explain that it may be bad luck.

But now, things have happened in four consecutive sub-stages.

So no matter what, it can't be said to be an accident.

"What is the reason that allows people from the Chaos Sea to always find our branch?"

Lu Yuan raised his head and looked at the tall and majestic statue in front of him.

Thoughtful in mind.

At this time, he had already felt that a huge threat was slowly approaching.

If no further measures are taken.

Maybe he will, and follow in the footsteps of Zheng Qiuming and others.

Although Lu Yuan is very confident in his own strength.

When he was in Paulin's holy world.

He is the famous eternal emperor.

However, this is the Sea of Chaos.

it's here.

His strength was greatly suppressed.

Lu Yuan is not afraid of the God King monks in the Sea of Chaos.

No matter how many god king monks come.

He's not even afraid.

I miss him as the majestic and eternal emperor.

No matter how much his strength is suppressed.

It is not comparable to those god king monks.

But the problem is.

What if the master of the desert courtyard comes too?

Lu Yuan was not confident.

Able to escape from the master of the desert courtyard.

Let alone the Sea of Chaos.

Even in the long river outside the territory.

The strength of the Desert Master can still completely crush him.

That's right.

Lu Yuan was a little skeptical.

Recently, there have been a series of accidents in various branches. It is very likely that the master of the Desert Academy is personally raiding various places.

Otherwise.

Ordinary god king monks simply cannot achieve this level.

Not to mention quietly, four sub-altars were wiped out in succession.

Section 1069

under normal circumstances.

Those god-king monks couldn't even find their separate altars.

"It must have been the Master of the Desert Academy who took action."

Lu Yuan thought about it for a while and quickly came to a conclusion that he thought was accurate.

The conclusion is reached.

So what to do now?

He couldn't defeat the Desert Master.

Even with the help of the Supreme God Statue, he could temporarily unblock the source of the Chaos Sea.

Get full combat power.

But still can't beat it.

"It seems like it's time to move."

Lu Yuan looked up at the statue of the Supreme God and made a decision quickly in his heart.

Since you can't beat it, just avoid it.

Think of this.

Lu Yuan turned around suddenly.

He shouted lightly.

"Someone's coming."

"Meet the palace master."

Two figures walked in quickly from outside the hall.

When Bolin came to Lu Yuan, there were originally three major protectors.

All are top-notch nine-step god kings.

Even if it is suppressed by the origin of the Chaos Sea, it can still display the strength of the God King.

However, Wu Wei died unexpectedly in Tianfeng Continent before.

Now only the two guardians are left.

Lu Yuan glanced at the two of them and said calmly.

"Wei Feng and Zhao He, notify them immediately and ask everyone to prepare to evacuate to Base Zero according to the plan."

"In addition, we will notify all sub-forums and ask them to pay more attention to it recently."

"Stop all actions and don't be exposed."

"Ah, Palace Master, why is this?"

"Don't ask so many questions, just do as I say."

"Yes, Palace Master."

Wei Feng and Zhao He bowed out of the hall with full doubts.

Lu Yuan was the only one left at the scene, standing blankly on the high platform.

After a long time.

He then muttered to himself.

"I hope I can avoid this wave."

...

Chapter 756 It seems that he has run away?

Following Lu Yuan's order.

The huge underground palace suddenly became commotion.

Countless Bolin cult members were running quickly in the same direction.

Lu Yuan stood on the high platform.

Looking back at the magnificent statue behind me, I couldn't help but feel a little dazed.

Now I'm ready to move.

Naturally, he wanted to take this supreme statue of God with him.

Lu Yuan stretched out his right hand and slowly pressed it on the base of the statue.

The faint brilliance of the Supreme Statue began to slowly converge.

It quickly shrank into a mini statue about a foot tall.

After putting away the statue.

He took a quick glance around.

Then he dodged and quickly disappeared from the hall.

Southeast corner of the underground palace.

A tall formation was constantly flashing with dazzling light.

The two of them, Wei Feng and Zhao He, brought with them a large number of Bolin Sect followers.

At this time, they have gathered near the formation.

Saw Lu Yuan coming.

Everyone shouted respectfully in unison.

"Meet the palace master."

Lu Yuan just nodded slightly and did not speak.

He walked to the side of the formation and sighed silently.

After a while.

Lu Yuancai said calmly.

"let's start."

"Yes, Palace Master."

Wei Feng responded respectfully.

Then he waved his right hand and shouted to the teacher next to him.

"According to the plan, everyone took turns teleporting away."

soon.

The first batch of Bolin Cult members quickly walked onto the teleportation array.

As a dazzling light flashed.

A group of hundreds of people quickly disappeared in front of everyone.

follow closely.

The second group of people walked up quickly.

As the Bolin God Cult, it is the main altar in the Sea of Chaos.

The number of congregants here is really quite large.

If you include peripheral personnel, it would be even more exaggerated.

I want to evacuate everyone secretly and safely.

That is of course impossible.

Lu Yuan didn't have this idea either.

He just plans to.

Evacuate the key personnel in the main altar.

As for the remaining fringe characters.

Just stay and keep this underground palace company.

Base Zero is Lu Yuan's escape route carefully prepared for him.

It is also his last resort.

There are many people in the general forum, and the crowd is a bit complicated.

Although they have all been baptized by the Supreme God.

But there is no guarantee that there will not be any accidents.

To ensure absolute safety.

Lu Yuan excluded most of the believers with low cultivation levels.

Only those who were above the False God Realm, and those who had served the Bolin Sect for a long time, were taken away.

As for those who were not notified to evacuate.

We are all still in the dark now.

They simply don't know.

This huge Bolin Cult main altar will soon turn into a dead place.

The light on the array platform flashed continuously.

under strict organization.

The teleportation evacuation work is proceeding in an orderly manner.

Half an hour later.

Section 1070

All congregants who received the notice were teleported away.

Only Lu Yuan and Wei Feng and Zhao He were the two guardians left at the scene.

Lu Yuan's consciousness slowly unfolded and he looked at the magnificent underground palace in front of him.

He seemed a little reluctant to give up.

Since arriving in the Sea of Chaos.

He has always been rooted here.

Through long years of operation.

He had already built this underground palace to look like an iron barrel.

Now I suddenly have to give up.

Of course Lu Yuan was a little reluctant to give up.

Just what he was thinking.

The owner of the Desert Courtyard may be following him.

He had to give up again.

Lu Yuan knew it very well.

No matter how hard he manages, no matter how many defensive formations he arranges.

It is impossible to stop the Desert Master.

So now we can only evacuate temporarily and avoid this wave of blows first.

I don't know how long it took.

Wei Feng, who was next to him, suddenly shouted a reminder.

"Palace Master, it's time for us to leave."

Lu Yuan slowly came back to his senses.

He muttered to himself.

"Yeah, it's time to go."

"First go to the void outside the territory and hide for hundreds of millions of years."

"When this crisis subsides, we will eventually be able to fight back."

"Let's go."

After saying this.

Lu Yuan dodged and soon appeared on the teleportation array.

I saw him taking out a formation disk, reaching out and playing a few magic spells.

A strong wave quickly swept through the entire underground palace.

Countless Bolin followers who stayed behind all died silently in an instant.

follow closely.

A terrifying light rose into the sky from the underground palace.

The light swept across the entire continent with terrifying divine power.

Countless monks on the surface still don't know what happened.

In an instant, they were all crushed into a ball of blood mist by this terrifying divine power.

The entire continent turned into a desert, as if no living thing had ever survived here.

Lu Yuan stood on the teleportation array.

After putting away the array disk in his hand, he said calmly.

"Let's go too."

As a dazzling light flashed.

The three people disappeared from the formation in an instant.

The huge underground palace soon fell into deathly silence.

After a while.

The teleportation array began to slowly appear cracks, and soon exploded suddenly.

Turned into a ball of gray ash.

It was obviously Lu Yuan who had arrived at his destination and used special techniques to destroy the teleportation array.

Since we have to stay away from the attack of the Desert Master.

Naturally, he would not leave the teleportation array behind and let others follow it.

All traces are gone now.

Naturally, there is no way to track it.

No one knows where they went.

...

Time passes slowly.

Zhang Yuhe drove the boat across the sky and swept across one continent after another.

Just over the years.

He did not discover any new Pauline cults.

In fact, this is normal.

Although these extraterritorial evil gods are indeed a big threat to the Sea of Chaos.

But this threat comes more from the unknown Invincible Supreme.

As for these extraterritorial evil gods themselves, for the Chaos Sea monks.

It's not too much trouble.

And there aren't many of them.

According to Qi Feilong's estimation.

In the entire Desert Heaven Realm, the number of extraterrestrial evil gods does not exceed a hundred at most.

With just a few people in total, we can't create many separate altars.

Moreover, the Bolin Cult General Forum will definitely need a considerable number of extraterritorial evil gods to stay behind.

That is to say.

There should be no more than twenty Pauline cult branches in the entire realm.

There may even be only about ten seats.

Zhang Yuhe and the others were able to wipe out four sub-altars in a row at the beginning.

Already considered very lucky.

It is impossible to find a Pauline cult altar every once in a while.

There are simply not so many sub-forums for them to clean up.

Another fifty thousand years passed.

The boat crossing the sky sailed silently across the sky.

Huh?

With the magical power of the Wave Dao, it unfolds continuously.

Zhang Yuhe suddenly let out a light sigh.

Qi Feilong, who was standing nearby, suddenly woke up.

he asked excitedly.

"Brother Yinhe, have you discovered any traces of the evil god from outside the territory again?"

Due to the continuous annihilation, four intact statues of the Supreme God were seized from all the Bolin Cult branches.

Now Qi Feilong is very interested in those extraterritorial evil gods.

If you say before.

He just wanted to wipe out the evil gods from outside the territory and eliminate the hidden dangers in the Desert Sky.

Now it is to capture more statues of the Supreme God.

In Qi Feilong's view.

The Paulin altars are simply golden mountains and treasures.

And Zhang Yuhe.

He is the most professional prospector.

Specially excavate those supreme statues.

Now seeing Zhang Yuhe, he suddenly stopped again.

Qi Feilong couldn't help but become interested.

I thought I had discovered a new Pauline cult.

Zhang Yuhe was not in a hurry to respond.

He slowly closed his eyes, silently comprehending the Botao magical power and the information fed back.

After a while.

Zhang Yuhe couldn't help but frown.

He spoke slowly.
