Section 1111

There are dozens of members of the Wang family who have ascended to the immortal world.

With Wang Guofeng's care.

They are considered a considerable force in the fairy world.

After the two left.

A graceful figure quietly appeared next to Zhang Yuhe.

Wu Yiyi appeared.

She asked happily, looking at the endless ocean around her.

"Zhang Yuhe, is this your hometown?"

"This world looks so small."

"I don't even dare to show my breath, for fear of bursting the world."

Zhang Yuhe smiled slightly.

He said in a soft voice.

"This is not a small thing anymore, this is how the world of immortality is."

"The highest power it can carry does not exceed the Mahayana realm."

"Of course it's impossible, how big is it?"

"This is still the result of subsequent expansion."

"This world back then was even pitifully small."

"Before I ascended to the fairy world, I could see the whole world at a glance."

"Haha, was this place so small before?"

"Isn't it worse than an ordinary magic weapon cave?"

Wu Yiyi's face was full of curiosity.

She could hardly believe it.

How could such a narrow world give birth to a genius like Zhang Yuhe?

Time passed slowly.

The two of them wandered freely in the void and visited mountains and rivers all over the place.

Looking at the fairy cities everywhere, as well as the large and small sects hidden in the mountains.

Wu Yiyi felt even more curious.

She has never been to the world of immortality.

Wu Yiyi was born at the origin of the Chaos Sea, and was later trapped in the fairy world.

This was the first time she had seen a low-level world like Blue Star.

Looking at those weak humans, they are still working hard to practice.

Wu Yiyi seemed a little touched.

"Maybe I should try harder."

She whispered to herself silently.

Compared to others.

Wu Yiyi was born with a golden key in her mouth.

She was born from the origin of chaos and was born close to the avenue.

And there is nothing lacking, as long as you practice, you can improve.

But after so many years.

Her strength has reached the third level of True God Realm.

Compared with those weak humans.

Wu Yiyi felt that she was too lazy.

No wonder Zhang Yuhe is far away from him now.

You must work harder in the future.

Wu Yiyi silently made up her mind.

The two of them were strolling around Blue Star.

this day.

They came to the sky above Youjiang City.

Zhang Yuhe looked down at the city below.

This is where he grew up.

The city is still there.

Just compared to back then.

Those high-rise buildings have long disappeared.

Instead, there are rows of magnificent lofts.

It is completely no different from those cities in the world of immortality.

"Hey, the community I lived in is still there?"

Zhang Yuhe suddenly discovered.

The community where I lived back then is still intact.

A dozen-story reinforced concrete community with surrounding pavilions.

Seems so out of place.

Following Zhang Yuhe's gaze, Wu Yiyi also saw the peculiar community.

She asked curiously.

"Is that where you lived here before?"

"yes."

Zhang Yuhe responded with a smile.

"Let's go over quickly and take a look."

Without waiting for Zhang Yuhe's response.

Wu Yiyi floated down and soon landed outside the community.

At this time, a wide square was built outside the gate of the community.

In the center of the square stands a tall statue of an immortal.

The immortal carries a long sword on his back and holds a scroll of Taoist scriptures, looking as if he is about to fly.

Not far from the statue, there is a tall stone tablet.

The letter [Former Residence of Galaxy] contains four powerful characters.

There is a constant flow of people in the square.

Apparently monks from all over came here to pay homage to the former residence of the Yinhe Ancestor.

Zhang Yuhe and Wu Yiyi mingled in the crowd and were not worried about being discovered.

Not to mention a small place like Blue Star.

Even in the Sea of Chaos.

If Zhang Yuhe didn't want others to see him, it would be difficult for anyone to discover what he was doing.

I saw countless monks worshiping Zhang Yuhe's statue devoutly.

Wu Yiyi couldn't help but feel a little emotional.

Maybe this is a way.

The way of all beings.

Preached to all living beings, it has lasted for a long time.

Let the great road be passed down to the world forever.

Being able to do this is absolutely amazing.

The two passed through the gate and quietly entered the community.

As a very commemorative place.

Zhang Yuhe's former residence community is not open to the public.

Everyone can only worship in the square, but cannot enter it.

There is a very strong formation covering the entire community.

Since it is to prevent intruders, it is also to keep the community as it is.

To know.

This kind of reinforced concrete community cannot withstand the erosion of time.

If not protected.

It won't take more than a hundred years at most, and it may collapse due to various reasons.

However, these formations naturally cannot stop Zhang Yuhe and the others.

They quietly entered the community and soon arrived at the room where they once lived.

Zhang Yuhe glanced around.

The furnishings in the room remain the same.

Section 1112

It was almost exactly the same as before he ascended.

He knew.

This was the result of Wang Guofeng's careful arrangement.

Even though endless years have passed.

Under the maintenance of the successor monks of Blue Star, this place remains the same.

Zhang Yuhe walked to the balcony silently and looked at the sky in the distance.

In the past, after Yu Fantian went offline.

He would lie quietly on the balcony and watch the changes in the outside world.

Zhang Yuhe turned around on the balcony.

He found that the recliner was still there.

He walked over silently and lay down slowly.

He felt very comfortable all over.

It was as if he had returned to the time when he just logged off from the game.

Wu Yiyi followed silently beside him.

She looked at the sky outside.

She felt infinite emotion in her heart.

She really couldn't imagine it.

It was from here that Zhang Yuhe embarked on the road of cultivation.

He walked to the fairyland and the sea of chaos.

Maybe one day in the future.

Zhang Yuhe can go even further.

Maybe he can reach a realm that no one has ever reached before.

Birth does not determine everything.

Hard work is more important.

Wu Yiyi looked at the scenery outside the balcony and reminded herself secretly in her heart.

She must work harder in the future.

Otherwise.

If one day, she is left too far behind by Zhang Yuhe, maybe she will become a dispensable existence.

Then she may never be able to follow Zhang Yuhe again.

Wu Yiyi clenched her fists and said to herself silently in her heart.

"I will work hard to practice, so that I can stay with him forever in the future."

...

Chapter 782 The Great Dao is immortal, and the inheritance is endless

Zhang Yuhe closed his eyes slightly and lay quietly on the recliner.

I don't know how long it has been.

He suddenly opened his eyes and looked at Wu Yiyi next to him and asked.

"Yiyi, how long has it been?"

Wu Yiyi said softly.

"Not long, less than half a month."

Hearing this.

Zhang Yuhe was speechless.

He actually fell asleep just now.

And he slept for half a month.

Is this the taste of hometown?

It makes people feel so peaceful.

Thinking of this.

A faint smile appeared on Zhang Yuhe's face.

He stood up from the recliner and said slowly.

"Yiyi, let's go. I'll go back to the fairyland after I do something."

After saying this.

Zhang Yuhe's figure flashed slightly and soon disappeared from the balcony.

...

Kunlun Mountain.

A towering fairy city stood quietly among the mountains.

Under the effect of the great formation of the stars in the sky, the area of Blue Star has expanded countless times.

The original Kunlun Mountain will naturally expand along with it.

As the mountain range continues to expand.

The original fairy city occupied the entire Kunlun Mountain, but now it has become a small dot among the mountains.

Zhang Yuhe stood on the top of the mountains, looking at the vast fairy city in the distance.

Thinking secretly in his heart.

Now that the fairy way of Blue Star is prosperous, he no longer needs to provide support.

If necessary.

Wang Guofeng and others had naturally already taken care of it.

No need to wait for him to come.

Zhang Yuhe was thinking.

What other help could he provide to Blue Star?

To be honest.

As long as Zhang Yuhe wanted.

He could even move the entire Blue Star to the Immortal Realm.

But he didn't plan to do that.

For the Blue Star cultivators, it was not necessarily a good thing to integrate into the Immortal Realm as a whole.

"How can we ensure that the inheritance of Blue Star will never end?"

"Even if the world is destroyed, the inheritance can still be continued."

Zhang Yuhe stood on the top of the mountain, thinking silently in his heart.

With his current strength, his vision is naturally not comparable to that of ordinary people.

In Zhang Yuhe's view.

The world is fragile.

Not to mention Blue Star, even a vast world like the Immortal Realm.

It is still very fragile.

Whenever an era comes, the world will be completely destroyed.

Once the world is destroyed.

Then the inheritance that once existed in this world will naturally no longer exist.

Zhang Yuhe didn't want to see this happen.

He could indeed prevent the destruction of the era.

But that has to be done in the fairy world.

But for Blue Star.

It is also possible that it will face various sudden disasters.

Maybe it will cause the destruction of the world.

Zhang Yuhe is thinking.

How can the Blue Star Continent be permanently solid.

Even if a devastating disaster occurs, the world can be restored.

"Maybe I should try the power of rules."

Thinking of this.

Zhang Yuhe slowly pinched the magic formula.

An inexplicable breath emerged faintly.

The breath swept across the mountains and quickly spread to every corner of the entire Blue Star.

Solid rules.

This is a not very important rule of the avenue.

Even in the Chaos Sea.

Section 1113

There are very few people who would comprehend such a great rule.

Because this great rule is not very useful at all.

It cannot improve the combat strength of the cultivators.

What can the solid rule do?

Is it to use this rule power to build?

It is completely useless.

However, Zhang Yuhe did not pay much attention to it.

As long as it is a great rule, he will comprehend it with his heart.

It won't take much time anyway.

The power of the rule spans the continent and then slowly merges into the ground.

After a while.

Zhang Yuhe stopped and stood.

As the solid rule merges into the earth, it will slowly change the characteristics of the blue planet.

In the future, even if a powerful person at the level of the God King takes action, he can't easily destroy this world.

"Maybe I can add something else."

Zhang Yuhe thought silently for a while.

Then he pinched the formula again.

The mysterious breath swept over the sky of the blue planet and soon slowly merged into the ground.

Restore the rules.

When this rule power is attached to an item,

Even if the items are destroyed, they will slowly recover by themselves.

This is a very strange rule power.

Of course.

In fact, when fighting.

Such rule power is also useless.

But it is just right to use it on Blue Star.

Zhang Yuhe knows.

With the improvement of his cultivation.

The time of retreat will become longer and longer in the future.

Perhaps a retreat may take tens or even hundreds of billions of years.

If something unexpected happens to Blue Star during this period.

He probably won't be able to take care of it.

Now with the blessing of these two rules.

He is much more relieved.

The solid rules are integrated into the earth, making the mountains and rivers of Blue Star forever solid.

Even if something unexpected happens again.

The restoration rules can still restore Blue Star to its original state.

Of course.

This takes time.

And the creatures living on Blue Star will definitely not be resurrected.

Unless Zhang Yuhe can comprehend the law of life and let life reappear.

But it doesn't matter.

As a cultivation world.

The lifespan of the creatures on Blue Star is not that long.

The cycle of life and death.

When one group of creatures disappears, the next group of creatures will be born.

As long as the world is still there and there is a suitable environment.

New creatures will be born naturally.

Thinking of this.

Zhang Yuhe waved his right hand.

A huge piece of divine ore slowly appeared in the air.

With the flash of sword light.

The divine ore was quickly cut into five stone tablets of the same size.

Zhang Yuhe stretched out his right hand and quickly carved on the stone tablet.

One after another, the skills and magical powers kept flashing under his hand.

Then they were quickly carved into the stone tablet.

After a long time.

Zhang Yuhe waved his right hand.

The stone tablet turned into a stream of light and fell on the four corners of the world of Blue Star.

Then it slowly merged into the ground.

Zhang Yuhe engraved some basic skills and magical powers on the stone tablet.

If one day.

Blue Star really encountered an irresistible disaster and was destroyed.

With the power of restoring rules, the world can also be restored to its original state.

At that time, the five stone tablets will appear in all directions of heaven and earth.

When living beings are born.

You can quickly embark on the road of immortality through these five stone tablets.

After doing all this.

Zhang Yuhe finally nodded with satisfaction.

With these measures.

Even if the world rotates and everything is annihilated.

Blue Star will still be that Blue Star.

The Great Dao is immortal and the inheritance is endless.

In fact, Zhang Yuhe does not need to do these at all.

After he restructures the rules of the fairy world.

He can stop the advent of the era.

The fairy world is immortal, and there is the Dao Shengzong.

The possibility of accidents on Blue Star is almost zero.

Despite this.

Zhang Yuhe still makes preparations in many aspects.

He does not want one day.

When he wakes up from his retreat, he suddenly finds that Blue Star is gone.

That would be too sad.

Zhang Yuhe is a sentimental person.

He hopes that this world where he grew up can last forever.

When he occasionally thinks of it, he can come back and take a look.

Look at his former hometown.

...

Chapter 783: Release of the Vow

Zhang Yuhe stood on the top of the mountain, Wu Yiyi followed him silently.

The two looked into the distance, their clothes fluttering, like a pair of immortals.

After returning to Blue Star this time.

Zhang Yuhe did not show up in front of people, nor did he leave anything for the Blue Star people.

He just quietly strolled in the void.

Then he left a means for the eternal continuation of heaven and earth under the ground of Blue Star.

It ensures that no matter what kind of disaster Blue Star encounters, the immortal inheritance of Blue Star can still be passed on forever.

For him.

Only the inheritance remains.

No matter how many times Blue Star has been destroyed, no matter how many generations of Blue Star people have changed.

Section 1114

This will still be his hometown.

Zhang Yuhe stands quietly on the top of Kunlun Mountain, looking at the magnificent mountain and river scenery in the distance.

After a long time.

He said in a soft voice.

"Yiyi, let's go back first."

"I still have a lot of things to do in the fairy world."

"Um."

Zhang Yuhe made a stroke with his right hand.

A huge vortex of particles slowly appeared in the void.

The two of them jumped into the vortex one after another and quickly disappeared.

The Blue Star people didn't know.

Their galactic ancestors once returned to their homeland.

Zhang Yuhe came quietly and then left quietly.

While walking.

He didn't even inform Wang Guofeng and He Yueyue who came back together.

Anyway, these two people have already been promoted to the Great Luo Realm.

With their current strength.

There is no difficulty at all in breaking through the space barrier between Blue Star and the Immortal Realm.

In the central square of Kunlun Fairy City.

At this time, Wang Guofeng and He Yueyue were leading a group of Blue Star Mahayana monks.

He was worshiping the ethereal statue of an immortal in the center of the square.

The moment Zhang Yuhe left.

The two looked back almost at the same time.

After a while.

Wang Guofeng said silently to himself.

"Hey, the ancestor has returned."

"I thought he would come to Kunlun Fairy City to take a look."

Next to him, He Yueyue said leisurely.

"The ancestor created heaven, maybe he has been here a long time ago, but we just don't know it."

"If it weren't for the sudden void fluctuation just now, we wouldn't even know that he had left."

"Right."

"After we're done, let's go back quickly."

"I heard that the ancestor plans to rebuild the rules of the fairy world and build a new extraterrestrial channel."

"This is such a grand occasion as the opening of heaven, if we miss it."

"I'm afraid I will regret it for the rest of my life."

"Yes, we really need to go back quickly."

Although anxious to return to the fairyland.

But He Yueyue and Wang Guofeng still followed the established procedures.

Lead the Mahayana monks from all walks of life in Blue Star to solemnly worship the statue in the center of the square.

Until it's over.

They hurriedly flew out of the city.

In a deserted mountain range, Shattered Void returned to the fairyland.

...

The fairy world is in the center of Yitian City.

There is a large amount of fog shrouded here all year round.

No matter how they walked, the monks in the city could not get into the fog.

According to the legends left by the older generation of monks.

Under the mist, there is a huge lake.

The powerful Supreme True God once resided here.

The Supreme God controls all chaos beasts through a mysterious sacrificial method.

Trouble in the fairy world for countless years.

until one day.

The Galaxy Emperor crossed the boundless continent of chaos and directly reached the sky above the lake.

Beat the terrifying Supreme True God to death.

From now on.

Never to be used again in the fairy world, suffering from the chaos beasts.

There is no Supreme God behind the scenes.

Even the remaining chaos beasts have been wiped out by the monks.

The Galaxy Emperor killed the Supreme True God, which not only completely solved the problem of Chaos Beasts.

Moreover, the road from the fairy world to the outside world has been opened.

Since then.

The Dao Ancestor Realm is no longer the end point of cultivation.

Beyond the fairyland, there is a vaster world and a higher realm.

There is a true god, a supreme god-king, an eternal emperor, and even an ethereal and invincible supreme being.

And the way forward to the outside world is in this fog.

The Galaxy Emperor used his great supernatural power to seal off the entire area.

Immortal monks can only pass through the fog after breaking through to the Dao Ancestor Realm.

See that road to heaven.

Only with the power of Dao Ancestor to protect himself can he pass through that mysterious void passage.

Go to the vast foreign world.

...

At this time, Zhang Yuhe was standing in the main hall square above the lake.

Yitian Temple.

This was Zhang Yuhe before leaving.

The core of the formation was specially built to seal off the space passage.

Looking at the tall stone monument in front of the hall.

Zhang Yuhe couldn't help but feel a little emotional.

In order to ensure that, the information of the fairy world was not leaked to the right direction.

Especially the news about the Enlightenment Tree cannot be known to the Chaos Sea monks.

Zhang Yuhe specially built this stone tablet.

And there is an oath engraved on it.

All Taoist ancestors who leave the immortal world must leave their mark on the oath.

Now so many years have passed.

Zhang Yuhe has already risen in the Sea of Chaos.

He doesn't need to have any scruples anymore.

Even if the information in the fairy world is leaked, even if someone knows that there once was a tree of enlightenment in the fairy world.

Even if someone knows, the Enlightenment Tree is by his side.

He didn't have to worry at all.

With Zhang Yuhe's current strength, he could defeat the Eternal Emperor.

Does anyone dare to break into the fairy world and disturb his ancestral land?

Is there still someone who dares to take advantage of him?

Zhang Yuhe is confident.

As long as he does not leave the Sea of Chaos, he is invincible.

Even if it is nine heavens and ten earths, the eternal emperors from all sides are here.

He was not afraid at all.

Think of this.

Zhang Yuhe walked silently to the oath stele.

He stretched out his right hand and lightly touched the stone tablet.

This oath that bound everyone completely disappeared.

Behind Zhang Yuhe.

Section 1115

Li Tianxing and An Tianzuo suddenly felt relieved.

It was as if some kind of restraining force suddenly disappeared.

Although the Yitian Oath did not cause much harm to them.

But cultivators seeking the great way emphasize freedom and spontaneity.

Being able to cancel the oath is naturally a good thing.

Sensing the disappearance of the Yitian Oath.

Li Tianxing asked with some confusion.

"Senior, what does this mean?"

Zhang Yuhe responded lightly.

"This oath is no longer needed now."

"In the future, when cultivators leave the fairyland, they will no longer be subject to any constraints."

Li Tianxing nodded gently.

Although he didn't know how strong Zhang Yuhe was now.

But with Zhang Yuhe's current cultivation level.

Even if he was the same as an ordinary supreme god king, no one would dare to provoke him.

Although the Chaos Sea is huge.

But supreme god kings are rare.

Just like the huge Donghua Palace, there are only four god kings now.

Moreover, the two God Kings Donghua and Duantian have never appeared.

Before Zhang Yuhe rose.

Only Yuanhe God King alone could guard the vast Donghua region.

This shows.

How powerful is the influence of the God King cultivator in the Chaos Sea.

The three stood quietly in front of the hall.

At this time.

An Tianzuo suddenly asked.

"Senior said before that you want to rebuild the rules of the fairy world, I don't know how to implement it specifically?"

"Do you need to call on the immortal world cultivators to make some preparations in advance."

To be honest.

So far.

An Tianzuo doesn't know.

What Zhang Yuhe plans to do.

How can the rules of such a vast world in the fairy world be rebuilt?

This is the world of a true god, not a magic weapon space.

The rules of a world.

Shouldn't it have been completely finalized when the world was born?

Can it still be changed?

When Zhang Yuhe let people spread the news.

An Tianzuo felt very puzzled.

Changing the rules of the world, is this something that human power can do?

If it wasn't for repeated confirmation later that it was indeed Zhang Yuhe who let someone release it.

He would have thought.

This is someone making trouble.

...

Chapter 784 The Origin of the Destruction of the Era

Facing An Tianzuo's question.

Zhang Yuhe said lightly.

"Changing the rules of a world is not too difficult."

"As long as you comprehend the appropriate rules of the avenue and push the power of the rules to perfection."

"You can replace the original rules of the world with your own rules."

"At least you can strengthen the rules of the world."

"Just like the Donghua World."

"The sky above the entire world is shrouded by the rules of the Donghua God King."

"Even if he has not been in the Chaos Sea for many years."

"The Yuanhe God King can still protect the entire world with the power of the rules he left behind."

Hearing Zhang Yuhe's words.

Li Tianxing and An Tianzuo next to him couldn't help but silently marvel.

It's easy for Zhang Yuhe to say this.

But how many people can comprehend the power of rules to the perfect level?

Just like these two people.

Li Tianxing and An Tianzuo both think they are extremely talented.

Especially An Tianzuo.

As the first person in the fairy world back then.

His talent is undoubtedly the strongest among the entire fairy world.

However, after entering the Chaos Sea.

Now more than a billion years have passed.

He has only barely comprehended an ordinary rule to the entry level.

An Tianzuo is still good.

As for the entry level of a rule, it has initially met the conditions for breaking through the True God Realm.

Li Tianxing is even worse.

So far, he has not touched the threshold of the rules.

Although he has pushed his cultivation to the peak of the Void God Realm.

But because he has not mastered the power of rules.

He is not even qualified to touch the True God Realm.

The rules of the Great Dao are elusive.

Li Tianxing doesn't know when he will be able to initially master a rule.

Only then can he be qualified to impact the True God Realm.

Zhang Yuhe opened his mouth and asked for the perfection of the rules, and he still asked for the perfection of multiple rules.

Even the appropriate Dao rules are needed.

Only in this way.

Can the rules of the fairy world be rebuilt.

What kind of amazing power is this?

It's simply not human language.

Such a realm is too far away from them.

If such a great power is directly displayed in front of them.

Then can they get a glimpse of the way from it?

Thinking of this.

Li Tianxing and An Tianzuo couldn't help but look forward to it.

If they could watch Zhang Yuhe restructure the rules of the fairy world on the spot.

For them.

It is definitely a great opportunity.

But can Zhang Yuhe really do it?

Can he really rebuild the rules of the fairy world?

And with the power of the new rules, can he stop the arrival of the era of destruction?

Are the Dao rules of the perfect realm really so magical?

Thinking of this.

An Tianzuo asked respectfully.

"Senior, if the rules of the fairy world are rebuilt, can it really stop the arrival of the era?"

"The fairy world will be like the Chaos Sea in the future, no longer troubled by the destruction of the era."

Section 1116

"Can it last forever and spread between heaven and earth?"

Zhang Yuhe turned around.

he asked with a smile.

"Do you know where the so-called destruction of the era comes from?"

"have no idea."

An Tianzuo and Li Tianxing shook their heads in confusion.

Regarding the legends of the Era, they had only seen some records in ancient books.

According to the records in the classics.

Every hundreds of billions of years, heaven and earth will go through a cycle of reincarnation.

When the time comes.

The terrible epochal disaster will come.

By that time.

Then the heaven and earth will collapse, and all things will dissolve.

No creature in the fairy world can escape the catastrophe of the era.

After they arrived at the Sea of Chaos, they had a better understanding.

But that's just knowing.

There will be epochal catastrophes in all primitive worlds within the Chaos Sea.

Whenever an era comes, the primitive worlds of all parties will soon be destroyed.

Then after a long period of time, a new world will be formed again.

Then slowly, life was nurtured, and various immortal civilizations were born.

As for why the primitive world suffered the catastrophe of the era.

But the Chaos Sea does not.

They have absolutely no idea.

From their perspective, these are the only books they can access.

It's like the destruction of the era, only for those primitive worlds.

If they hadn't lived in the Sea of Chaos for more than ten years.

If you have some understanding of the Sea of Chaos.

They may even think so.

The destruction of the era that affects the fairy world is caused by some powerful manipulation from the Sea of Chaos.

Now listen to Zhang Yuhe say this.

Obviously it's impossible.

There must be another reason.

Seeing the two of them shaking their heads in confusion.

Zhang Yuhe looked into the distance and spoke slowly.

"I believe you all know that beyond the Sea of Chaos, there is an endless river of extraterritoriality."

"In that vast river, there are countless huge cosmic worlds."

"The Sea of Chaos is just one of them, an inconspicuous existence."

Speaking of which.

Zhang Yuhe paused for a while, and then said slowly.

"As far as I know."

"Every billions of years, a terrifying monster of destruction will be born in the long river outside the territory."

"These destructive monsters seem to be specially born to destroy the world."

"Whenever an era comes, endless monsters of destruction sweep across the river."

"Many weak cosmic worlds will be wiped out in an instant."

"The Chaos Sea is powerful and has many eternal emperors."

"There is an Eternal Emperor sitting in every realm of the Nine Heavens and Ten Earths."

"Every time before an era comes."

"The Eternal Emperor will recruit the god king monks in the realm and go to the long river outside the realm together."

"Stop those endless destruction monsters and get closer to the area around the Sea of Chaos."

"That's why."

"Even if countless epochs have passed, the Sea of Chaos can still stand firm in the long river."

After listening to Zhang Yuhe's narration.

Li Tianxing and An Tianzuo were even more confused.

Since the Chaos Sea monks can successfully block the destruction monsters every time, they approach.

Do not let the Chaos Sea suffer any damage.

But why, a primitive world like the fairy world.

We will still face epochal disasters.

Aren't all those destroying monsters blocked?

Why do those primitive worlds still go to destruction?

This seems a bit unreasonable.

After all, those primitive worlds were also part of the Sea of Chaos.

This shouldn't be the case.

Seeing the confused expressions of the two people.

Zhang Yuhe couldn't help but sigh, and he said with emotion.

"Whenever the era comes, the monsters of destruction sweep across the entire extraterrestrial river."

"That terrifying aura of destruction can even pass through the cosmic membrane and reach the center of the sea of chaos."

"It's just because of the deep origin of the Chaos Sea."

"The aura of destruction that penetrates cannot cause too much disaster to the Sea of Chaos."

"And there are high-level monks everywhere suppressing it, which is enough to calm those destructive auras."

"But a primitive world like Fairyland is completely different."

"The origin of the original world is weak, and the strength of the monks is only at the virtual god level."

"There's not even one person who knows the rules."

"Even if there is only a little bit of destruction, it penetrates into the primitive world."

"It will also cause the world to collapse and all things to die."

"There's simply no way anyone can stop it."

"So that's it."

After listening to Zhang Yuhe's narration.

Li Tianxing and An Tianzuo finally had a clear understanding of the origin of the destruction of the era.

to be honest.

It's just that the monks in the primitive world were too weak.

When faced with disaster, there is no resistance.

If there is such a powerful supreme god king like Zhang Yuhe sitting in charge.

The so-called era destruction is simply impossible to happen.

Like a sea of chaos.

The Sea of Chaos is located on the long river, facing endless destructive monsters.

But the monks in the Sea of Chaos are stronger.

They can absolutely destroy those terrifying monsters.

Directly intercepted outside the Chaos Sea.

Naturally, there won't be any disaster.

In fact, all of this is related to strength.

Like the monks themselves.

As long as the strength is strong enough.

That is, it is immune to all disasters and all laws.

The same is true for one world.

As long as the world is strong enough.

The so-called era of destruction is completely a cloud.

It is not affected at all.

The way is ruthless, only strength is eternal.

Section 1117

Chapter 785 The vortex channel reappears

Zhang Yuhe looked into the void and sighed silently in his heart.

As his strength continues to improve.

He realized more and more deeply the meaning of the words "The Great Way is Endless."

Even if it is a vast river outside the territory, terrifying monsters of destruction will still be born inexplicably.

It seems that there is a will in the dark, controlling the development of the avenue.

Whenever the era comes and the monsters of destruction sweep across the river.

A large number of monks will die.

throughout the entire disaster.

There can only be one God King monk, an ordinary big-headed soldier.

Only the Eternal Emperor can truly stand alone.

Under that catastrophe.

Countless god king monks will fall at the hands of the destroying monsters.

Even the Eternal Emperor may be overwhelmed by the endless tide of beasts.

After the divine power is exhausted, he still cannot escape the fate of death.

Fortunately, every Eternal Emperor has evolved its own world.

Even after falling.

You can still be reborn in the world.

It is precisely because of this.

Only those eternal emperors would hide their own world deeply in the void.

If you weren't worried, you would die due to various accidents.

They can carry the world with them.

The most powerful state of the Eternal Emperor is when the power of the world is returned to oneself.

Unfortunately.

No eternal emperor would dare to take such a risk.

The world is hidden away.

There is still a possibility that they will be resurrected.

If you carry the world with you.

That way the strength will be stronger.

But once you encounter danger and cannot escape.

That might lead to complete death.

Zhang Yuhe looked up into the void.

Even though he has now become one of the top people in the Chaos Sea.

He still didn't dare to be proud.

As you become stronger, you learn more.

Zhang Yuhe felt more and more like he was beyond the endless river.

There is an underlying will that controls everything in all sentient beings.

In the eyes of that will.

Maybe they are like insignificant ants.

Zhang Yuhe couldn't help but think of it.

Those light elves I once saw in the secret realm of time.

Elves live a wonderful life in the world of light.

But in the eyes of these monks.

Aren't those tiny light creatures just like ants?

In the eyes of some will.

That endless extraterrestrial river may be just one side, an alternative world of light.

And every hundred billion years, there is a wave of destruction.

Maybe it's just the result of intentional or unintentional manipulation by those wills.

"Hey, why do you think so much?"

"When I am strong enough, I will reach the end of that long river sooner or later."

"Look beyond that end, is there someone controlling all of this?"

Think of this.

Zhang Yuhe couldn't help but shook his head gently.

The road is boundless.

With every step he took, he felt as if he was getting smaller and smaller.

After a long time.

Zhang Yuhe came back to his senses.

He looked at Li Tianxing and the two of them, smiled and said.

"It's almost time to start."

"After we finish things, we have to return to the Sea of Chaos early."

Hearing Zhang Yuhe's words.

Li Tianxing and An Tianzuo immediately retreated to a distance.

They had experienced Zhang Yuhe's terrifying power.

When I first opened the passage to return to the fairy world.

Zhang Yuhe's terrifying aura almost overwhelmed them.

I heard Zhang Yuhe say that it would start soon.

Li Tianxing and An Tianzuo did not dare to stay around Zhang Yuhe.

He immediately exited tens of thousands of miles away.

It's better to keep some distance.

This is in the fairy world.

There are countless disciples and disciples outside, watching.

In case someone sees it.

They were pushed to the ground.

How embarrassing that must be.

The two retreated tens of thousands of miles away and looked at Zhang Yuhe in the distance.

Zhang Yuhe waved his right hand.

The fog formation shrouding the surroundings began to dissipate quietly.

The original purpose of building this formation was to prevent monks from accidentally breaking in.

Unless the strength reaches the Tao Ancestor realm.

Now we need to rebuild the rules of the fairy world and restructure the void channel.

Let all Daluo monks in the immortal world be able to go to the Sea of Chaos.

So this fog formation is naturally a bit out of place.

It needs to be rearranged.

Outside the fog formation, the huge Yitian City is already overcrowded.

Countless monks stood in the void, quietly looking into the distance.

Since the news came out before.

The Galaxy Emperor will reestablish the rules of the fairy world and open a new void passage.

After receiving the news, monks from all over the country quickly rushed to Yitian City.

Everyone wanted to see the emperor's beauty.

If you're lucky.

Maybe they can still see it.

The vast and shocking power displayed by the Galaxy Emperor.

The sky above Daoshengzong.

He Yueyue stood quietly in the air.

around her.

Li Tian and a group of Dao Sheng Sect elders also stood on the top of the hall.

Everyone looked into the distance together.

When the fog clears.

The huge lake in the center of Yitian City finally revealed its true face.

Over the lake.

Section 1118

A magnificent hall stands quietly in it.

Although Yitian Temple has been established for countless years.

But no one has seen the monks in the immortal world.

Except for the original batch of Dao Ancestors who entered the Sea of Chaos with Zhang Yuhe.

Others have no idea at all.

What is the specific situation in this fog?

Now the fog has cleared.

Look at the beautiful lake over there and the magnificent hall above.

Everyone couldn't help but be amazed.

"It turns out that there is such a scene in the middle of Yitian City."

"I have lived in the city for hundreds of millions of years, and this is the first day I see it."

"Who isn't?"

"Before the Fairy City was established, the Galaxy Emperor had already sealed off the lake area."

"I heard that I was worried that someone might accidentally enter that void passage."

"I have long heard that in the center of Yitian City, there is a passage leading to the outside of the territory."

"Why haven't I seen it yet?"

"And Emperor Galaxy, why did you close that passage?"

"Can't we go through the passage and go to the outside world?"

"Of course not."

"How powerful is the passage that penetrates the outside world and the force of void squeezing?"

"You can imagine what it feels like to ride in a super teleportation array."

"The squeezing force of that channel connecting the outside world will probably be hundreds of millions of times stronger."

"I heard that if you don't cultivate to the Dao Ancestor realm, you simply can't withstand such a squeeze."

"If you break in rashly, you will die or die."

"As for the location of that passage."

"It must be in that hall."

"The layers of formations in the hall are sealed, so naturally we can't see them here."

"The Dao Ancestor Realm is too far away."

"I can't even think about it."

"I heard that the Galaxy Emperor will soon reopen a more stable channel."

"In the future, as long as your cultivation level reaches the Daluo realm, you can go through the passage and go outside the territory."

"I don't know if it's true."

"Is there such a good thing?"

"Doesn't that mean that we will have the opportunity to go outside the territory in the future?"

"Brother Dao, you are only in the early stage of Taiyi Immortal."

"The Great Luo Realm is also very far away from you."

"Haha, it doesn't matter."

"I don't dare to think about the Dao Ancestor Realm, but I can still look forward to it in the Da Luo Realm."

Zhang Yuhe stands tall in the sky above Yitian Palace.

I saw him wave his right hand.

The huge Yitian Palace flew up instantly and quickly turned into a mini palace, slowly falling into the hand.

Put away the back of Yitian Palace.

That vast void passage finally reappeared before the eyes of the world.

A huge vortex hangs high in the sky.

Endless terrifying auras continue to emanate from the vortex.

Let the weaker monks.

Even from a long distance, I still feel frightened.

Just one look at it makes you panic.

It can be seen from this.

Once you enter the vortex, it will be so terrifying.

No wonder the Galaxy Emperor wanted to block this passage before.

How can ordinary people be able to withstand such terrifying power of the void?

Even Daluo Immortal King.

Once you fall into the vortex.

It would probably all turn into a ball of blood mist instantly.

...

Chapter 786 Everything is renewed and Taoism rises

After Zhang Yuhe put away Yitian Palace.

The void passage that he had sealed off and hidden was finally revealed in its entirety.

Looking at the vast vortex of void.

Zhang Yuhe couldn't help but sigh silently.

The creation of heaven and earth is indeed extremely miraculous.

One layer of world within another layer of world.

The world is interconnected.

Then, through different operating rules, these worlds at different levels are perfectly connected together.

When he was in the world of cultivating immortals.

After a monk breaks through the Mahayana realm, he only needs to survive the heavenly tribulation.

You can ascend to the fairy world and complete a cross-level leap.

As for the monks in the fairy world, although they can no longer ascend.

But the way of heaven works, and there is room for everything.

And this void passage in front of us.

Perhaps it is the mysterious way of heaven that leaves room for the monks in the immortal world.

As long as a monk is promoted to the realm of Dao Ancestor, he can pass through this void passage.

Go to the wider sea of chaos.

Achieve an alternative level jump.

Even in the Sea of Chaos, this is actually the case.

Only when the Chaos Sea monks break through to the God King Realm can they go to the long river outside the territory.

If your cultivation is not enough.

They simply cannot resist the invasion of the aura of the river.

Improve your realm, pass the test, and then jump to a new level.

Everything is natural.

It seems as if it was deliberately created by someone.

The only thing Zhang Yuhe is not sure about is.

Beyond that long river.

Is there another world?

if so.

What conditions are needed?

Only then can we get out of the long river?

About this question.

It's still a mystery.

At least in the Sea of Chaos, no one can give an accurate answer.

Maybe someday in the future.

When Zhang Yuhe's strength becomes strong enough.

He must go to the end of the river himself to find out the mystery.

Zhang Yuhe stared at the vast whirlpool of passages not far in front of him, feeling silently in his heart.

After a long time.

He finally turned around.

This time he returned to the fairyland, he still had a lot of things to do.

Not just to take a look at this vast void passage.

Section 1119

Although this void passage is magical.

But to Zhang Yuhe's current state.

This can no longer be considered, how mysterious it is.

if needed.

He can even construct an identical void passage.

The power of the God King is naturally not only reflected in the combat level.

Everything is created by heaven and earth as if it were done by hand.

Think of this.

Zhang Yuhe looked into the distance and quickly touched the magic formula with his hand.

Mysterious invisible fluctuations spread rapidly towards the distance.

The vast aura of rules in the fluctuations is almost visible to the naked eye.

Various rules of power, centered on the lake.

Quickly scan the entire fairy world.

Some of the power of rules fell to the ground and slowly merged into the underground of the fairy world.

The power of some rules gradually surfaced and quietly merged into the void.

Hundreds of various avenue rules span the entire fairy world.

That vast scene.

The countless monks who were watching could not help but marvel.

Even those monks who are separated by endless distances.

Even the most remote place in the fairy world.

I can still feel it clearly.

The vast rules of the avenue, the mysterious scene that spans the heaven and the earth.

The rules of the avenue sweep across the fairy world.

Everything is renewed and Taoism rises.

At this time, almost all the monks in the immortal world.

They were all watching quietly, a sight they would never forget.

The endless Taoist aura filled the entire immortal world.

Even the eternal lunar and solar stars.

It all seemed to have lost its luster at this point.

It seems that in the entire immortal world, there are only those mysterious and inexplicable Taoist rhymes left.

In the eyes of the immortal world.

At this time, there is nothing but the vast Taoist rules.

Seeing that person, it was a shocking sight that was beyond words.

All the monks in the immortal world couldn't help but be intoxicated with it.

Some of them have quietly broken through the bottleneck and reached a new level without even realizing it.

Someone inexplicably realized a new Taoist magical power.

Some people suddenly opened new acupoints in their Nascent Soul.

The spring breeze blows on my face, moisturizing everything silently.

As Zhang Yuhe unfolded his vast and terrifying power of rules.

Almost all the monks in the entire immortal world have been promoted inexplicably.

Or strength, or realm.

Even some veteran Taiyi Immortals have been stuck in the state of perfection for countless years.

They have even given up long ago and see no hope of breaking through the bottleneck.

However.

When Zhang Yuhe's power of rules traversed the fairy world.

Some of them are lucky enough to get over the bottleneck inexplicably.

Quietly broke through to the Daluo realm.

Not only that.

After their breakthrough.

Even the catastrophes that need to be faced to advance to the great realm.

It didn't even come.

It's like the road has changed.

The monks in this world no longer have to face catastrophe.

All these changes are happening quietly.

Except Zhang Yuhe.

At this time, all the monks were still immersed in inexplicable insights.

Including Li Tianxing and An Tianzuo, who were at the peak of Virtual God, they were also affected by the power of Zhang Yuhe's rules at this time.

Immerse yourself in the vast Taoist atmosphere.

They have no idea.

The world has changed, the road has changed.

From now on.

In this fairy world, there will be another side of the sky.

Zhang Yuhe replaced the original avenue of the fairy world with the power of his own rules.

The power of hundreds of rules envelopes the fairy world.

Under the protection of the power of these rules.

From now on, there will be no more worries about the ages in the fairy world.

The little aura of destruction that seeped in could not shake the origin of the fairy world at all.

Even if a foreign monk accidentally breaks into the fairy world.

They also don't want to cause too much damage to the fairy world.

Unless someone can break Zhang Yuhe's terrifying power of rules.

Normally.

This is obviously impossible.

There are hundreds of avenue rules for the perfection realm, even for the top god king monks.

Don't even think about shaking it even half a cent.

Only those eternal emperors who are aloof can rely on the power of the world.

Break Zhang Yuhe's rule envelope.

obviously.

No one will do this.

How many eternal emperors are there in the entire Chaos Sea?

They wouldn't be so bored that they would destroy this primitive world for nothing.

...

Zhang Yuhe stands tall in the sky, constantly activating the power of various rules.

Time passes slowly.

I don't know how much time has passed.

Zhang Yuhe suddenly stopped his hand and stood up.

Looking at the new weather in the distance, he nodded with satisfaction.

Changing the rules of a world is simple to say.

All you need to master is a few rules of the Great Way of Perfection.

But actually implementing it is not that easy.

Because there is almost no big difference between changing the rules and remaking the world.

It might even be a little harder.

Because when Zhang Yuhe activated the power of rules, he could not cause any damage to the world itself.

Nor can it hurt the monks in the fairy world.

This requires a very high degree of mastery of the power of rules.

Moisturizes things silently.

Everything is going on quietly.

Even the monks inside didn't find anything.

This is the ultimate in mastery.

That's absolutely true.

Except Zhang Yuhe.

Section 1120

Among the Divine Kings of the entire Chaos Sea, no one else can do what he did.

...

Chapter 787 The Second Dao Ancestor of the Dao Sheng Sect

I don't know how long it has been.

An Tianzuo was the first to wake up.

He looked up at the sky in the distance, and couldn't help but feel a little confused.

Just now, he clearly felt that there were earth-shaking changes outside.

But why.

After he woke up.

Looking at the surrounding scenes, it seemed that there was no change.

Everything was exactly the same as before.

It was still the fairyland.

He didn't see anything unusual.

It was really strange.

Could it be that when he was immersed in the rules of Dao Yun just now.

All his perceptions were illusions?

This shouldn't be.

An Tianzuo thought silently.

After all, he is also a peak-level virtual god cultivator.

It's impossible that he can't even distinguish between reality and illusion.

An Tianzuo looked into the distance.

Feeling the atmosphere inside and outside Yitian City, he still didn't notice any changes.

"Maybe my strength is too weak."

"I didn't understand even a little bit of Senior Zhang's magical power."

Thinking of this.

An Tianzuo couldn't help but shook his head helplessly.

After a while.

Li Tianxing next to him also woke up.

He was full of joy and excitement.

Seeing this situation.

An Tianzuo couldn't help but ask with some doubts.

"Tianxing, did you pick up a treasure?"

"Why are you so happy?"

"Haha, I'm happier than picking up a treasure."

Li Tianxing laughed.

He said excitedly.

"I finally comprehended the rules."

"Just now, I felt Senior Zhang's vast Dao rhyme, which gave me an idea."

"Finally, I comprehended the power of the seal rule from it."

Over the years.

Li Tianxing has been troubled by how to comprehend a rule of the great way.

He has reached the peak of the virtual god realm.

If he doesn't comprehend a rule again.

Then he can't move forward.

The rules of the avenue are the biggest obstacle that blocks him from breaking through the realm of true gods.

Li Tianxing is good at the art of formations, and uses the Three Elements Cauldron of Heaven and Earth as his life-saving magic weapon.

All his magical powers are based on the avenue of sealing.

It is precisely because of this.

Li Tianxing has always focused his comprehension on the rules of sealing.

It's a pity.

In the past tens of millions of years in the Chaos Sea.

He didn't even touch the threshold of the rules of the avenue.

This made him a little frustrated.

Li Tianxing sometimes even wondered if he needed to change direction.

Maybe he didn't have much talent in the avenue of sealing.

His previous achievements might just be his own illusion.

However.

Just now, when he was observing Zhang Yuhe's vast Daoyun rules.

Among them was the rules of sealing.

Li Tianxing had a flash of inspiration.

Just inexplicably, he comprehended the rules of this avenue.

Something that he had been seeking but couldn't get.

Now it's so easy to succeed.

This made him feel very incredible.

It was as if everything was in a dream.

Looking at Li Tianxing's excitement.

An Tianzuo next to him couldn't help but show envy.

So easy to master, a great rule?

Why doesn't he seem to have much gain.

Uh, no.

It seems that I have also gained.

An Tianzuo silently comprehended himself.

At this time, he suddenly realized.

The annihilation rule he mastered seemed to have advanced to the realm of minor success.

It was still at the entry level before.

How did it suddenly reach the realm of minor success?

He himself didn't feel anything.

It was as if everything happened quietly.

It was very magical.

An Tianzuo felt it was incredible.

He looked up at Zhang Yuhe in the distance.

His heart was filled with infinite awe.

What kind of amazing power is this?

It actually allowed him and Li Tianxing to make considerable progress in the direction of rule comprehension at the same time.

It seemed that the creation of heaven and earth was all in Zhang Yuhe's control.

As long as he was willing.

It can enlighten all living beings and make them evolve and grow.

This is simply incomprehensible.

Feeling the changes in his own rule power.

An Tianzuo couldn't help but yearn for it.

When can he push the rule power to the perfect level like Zhang Yuhe.

And he has to push all kinds of rule power to perfection.

"Oh, it's too far away."

Thinking of this.

An Tianzuo couldn't help but shake his head silently.

After entering the Chaos Sea for so many years.

He only mastered the annihilation rule that he was most familiar with.

If he wants to comprehend the second rule, he doesn't know when he will have to wait.

As for that.
