Section 1121

Push the power of rules to a perfect level.

That's even harder.

There are so many god king monks in the Chaos Sea.

Someone who can truly advance the power of rules to the level of perfection.

Not much in total.

Even those top nine-step god kings.

Some people also fail to master the power of a perfect level of rules.

It can be seen from this.

How difficult is it?

"Senior Zhang is too far away, I don't need to compare with him."

"As long as I can make steady progress."

An Tianzuo clenched his fists and thought silently in his heart.

...

Zhang Yuhe stands tall in the sky, quietly looking into the distance.

At this time, the entire fairy world seemed to have fallen into silence.

Except Li Tianxing and An Tianzuo.

All the monks in the entire fairy world are trapped in some kind of realization.

No one has woken up yet.

In Yitian City.

From time to time, there are strong and tyrannical auras that arise in the city.

This is a vision of a monk breaking through to a great realm.

However.

When these monks made a breakthrough, they didn't even know it themselves.

As long as you haven't woken up yet.

They don't know their own strength and have undergone earth-shaking changes.

Just at this time.

An astonishing momentum rose into the sky.

The tyrannical momentum soared into the sky and soon spread to the entire fairy world.

See this situation.

A faint smile couldn't help but appear on Zhang Yuhe's face.

Because this is He Yueyue's vision of breaking through to the virtual god realm.

Maybe he was affected by Dao Yun's aura just now.

He Yueyue finally took this step.

Becoming the Taoist Saint Sect in the Immortal Realm, the second person to cross the threshold of the Taoist Ancestor.

He Yueyue possesses the Taiyin Holy Body and has extraordinary talents.

Perhaps second only to Zhang Yuhe.

As a rising star.

She also entered Yu Fantian from Blue Star, and then rose up quickly together.

It didn't take long after he ascended to the fairy world.

He Yueyue left Wang Guofeng and Li Tian, the former seniors, far behind.

With the support of Zhang Yuhe, there is the foundation of Daosheng Sect.

Plus her extraordinary talent.

It doesn't seem particularly strange that He Yueyue can take this step.

Everything is natural.

Another moment passed.

He Yueyue slowly opened her eyes.

Feeling the changes in herself, she opened her mouth in shock.

How is this possible?

Why did the bottleneck that had troubled her for so many years suddenly disappear?

And he was directly promoted to the Dao Ancestor Realm.

wrong.

It's a catastrophe.

She didn't seem to feel the calamity coming.

He didn't survive the catastrophe, but just made a breakthrough like this?

He Yueyue simply couldn't believe her eyes.

She raised her head and looked at Zhang Yuhe in the distance.

I thought silently in my heart.

"Is all this the influence of the ancestor's Dao Yun aura just now?"

Think of this.

He Yueyue took a deep breath and slowly calmed down her excitement.

She quickly rose into the air and landed in front of Zhang Yuhe.

At the same time, he shouted respectfully.

"Greetings to the ancestor."

"Thank you, ancestor, for your advice."

"Otherwise, I don't know how long it will take for me to break through this step."

Zhang Yuhe responded with a smile.

"That's all your fault."

"There are many great people in the immortal world, but you are the only one who has taken this step."

"It shows that all of this is the result of your usual hard work."

"I'm just taking it easy."

...

Chapter 788 Rebuilding the Void Channel

He Yueyue broke through to the Taoist realm.

This is the first Taoist ancestor to appear in the new generation after Zhang Yuhe's group.

It symbolizes that the cultivation civilization in the fairy world is beginning to move towards more glorious prosperity.

Towards a new era.

Another moment passed.

The other monks in Yitian City finally began to wake up one after another.

They looked at the sky around them, and they were also very confused.

Everyone felt strange.

After the vast scene just now, why didn't the fairy world seem to have changed at all?

This shouldn't be the case.

Could it be that they were all dreaming just now?

Li Tian stood at the top of the hall.

He waved his fist and blasted it into the void where there was no one around him.

I saw the void trembling, clouds flying, and the aftermath continuing to spread out in all directions.

But that's all.

Li Tian was surprised to find out.

Now he strikes with all his strength, but he is unable to break through the void.

To know.

Daluo Realm is already considered the top existence in the fairy world.

Whenever the Great Luo Immortal fights, a large area of void will be shattered.

It will take a long time to slowly calm down.

However, now he is completely unable to break through the void barrier.

See this situation.

Wang Guofeng and others around him could not help but show surprise.

Li Tian was silent for a while, and then slowly spoke.

"The world of Immortal Realm seems to have become more stable."

"The Great Luo Realm can no longer break through the void."

Section 1122

"Is this about changing the day and rebuilding the rules?"

"The ancestor's magical power of creation has reached such an incredible level."

Wang Guofeng next to him smiled and said.

"That's not all."

"Don't you realize that your strength has improved?"

Hear this.

Li Tian couldn't help but look slightly stunned.

He felt it silently.

This was a surprising discovery.

I don't know when I have reached the level of perfection.

The Great Luo Xian is perfect.

He was clearly in the late stage of Da Luo Immortal before.

When did you break through?

I have no impression at all.

Li Tian glanced around.

Only then did he realize it.

Not only did I make some small progress.

The other Daosheng Sect elders around him have also made great progress.

There are even some Taiyi realm elders who have actually broken through to the Da Luo realm.

How long has it been?

It should take less than half a day.

Almost everyone around me has made progress in various aspects.

These are amazing.

Could it be that all of this was affected by the ancestor's aura just now?

Think of this.

Li Tian couldn't help but sigh.

He muttered to himself.

"What state is the ancestor in now?"

"Everyone made a breakthrough in just a flip of the hand."

"The creation of heaven and earth must be like this."

In fact, it is not just the people of Dao Sheng Sect who have benefited from the Dao Yun rules just now.

Almost all monks in the entire fairy world.

From ordinary Qi refining monks to Da Luo Immortal King.

When the rules of Tao Yun passed by just now.

All benefit greatly.

The lower the cultivation level, the greater the benefit.

There are even some low-level monks who cross several realms in a row.

Everyone understands.

All of this is the blessing brought by the Galaxy Emperor.

Creating all living beings is nothing more than this.

After the monk woke up, he felt a huge change in himself.

Everyone couldn't help but feel excited.

The entire fairy world was boiling instantly.

"Galactic Emperor."

I don't know who it was, who took the lead in calling out Zhang Yuhe's name.

follow closely.

All the monks in the immortal world shouted together.

The name of the Galaxy Emperor instantly spread throughout the fairy world.

Zhang Yuhe stands tall in the sky.

Look at the monk's excited expression.

A faint smile couldn't help but appear on his face.

This is the joy of all living beings and the will of all living beings.

Can provide help to all sentient beings in the world.

He himself was very happy.

But this is not enough.

Just now, he just integrated into the fairy world according to his own rules.

Replace the original rules of the fairy world.

This can only strengthen the heaven and earth of the fairy world and stimulate the majestic development vitality of the fairy world.

under the influence of his rules.

In the future, the fairy world will not only be troubled by the destruction of the era, but also will no longer be troubled by the destruction of the era.

And it also burst out with more powerful vitality.

Because Zhang Yuhe now masters the rules of the avenue.

It is far from comparable to the original rules of the fairy world.

Under the influence of the power of his rules.

The spiritual aura of the immortal world will become stronger.

In the future, it will be easier for monks in the immortal world to practice.

Breaking bottlenecks will also become easier.

More treasures of heaven, materials and earth will be cultivated in various places in the fairy world.

In short, everything has changed.

Make practice easier.

But Zhang Yuhe knew.

This is not enough.

No matter how the fairy world develops, it is still just a primitive world.

Sitting in a corner of the world.

That has no future.

I want the monks in the immortal world to go further.

It is necessary to open the passage from the fairy world to the sea of chaos.

The void passage that originally existed was completely insufficient.

Then you need the power of Dao Ancestor to protect yourself in order to pass through the passage to the Sea of Chaos.

For monks in the immortal world.

How difficult is it to be promoted to the Dao Ancestor Realm?

Even after Zhang Yuhe reestablished the rules, cultivation has become easier.

But the thought of being promoted to Dao Ancestor is still very difficult.

So the best way is to lower the threshold.

It allows people with lower realms to pass through the passage and head to the Sea of Chaos.

The Chaos Sea has vast original rules, which is more suitable for monks to practice.

Zhang Yuhe turned around and stared at the vortex in the distance.

He thought silently in his heart.

This void passage is really out of place.

It has to be readjusted.

Just do what comes to mind.

Zhang Yuhe quickly used the magic formula.

A vast momentum rose from his body to the sky.

It is different from the reconstruction rules.

Rebuilding the rules of the fairy world will test the monks' control over the rules of the avenue.

The more rules you understand, the higher your level of mastery will be.

It is indeed not too difficult to reconstruct the rules of one's original world.

But I want to penetrate a void passage from the primitive world to the Sea of Chaos.

This level of difficulty is completely extraordinary.

Because this is not just about breaking through the void barrier in the fairy world.

Section 1123

More importantly.

This is challenging the original rules of the Chaos Sea.

The primitive world is connected to the Sea of Chaos through passages.

This is the sea of chaos, the embodiment of existing rules.

All primitive worlds are like this.

Now Zhang Yuhe wants to restructure a

A passage that allows monks under Dao Ancestor to pass through.

Isn't this just challenging the original rules of the Chaos Sea?

Such a shocking feat.

Even those eternal emperors, no one dares to do it.

But Zhang Yuhe dared.

He is completely confident in his magical powers and strength.

He believed he could do it.

Zhang Yuhe decisively activated Hunyuan's magical power.

The vast momentum continued to rise on him.

His cultivation realm quickly rushed from the second-step god king level to the eternal realm.

Zhang Yuhe's majestic aura instantly covered the entire sky.

At this time, all the monks in the fairy world are separated by endless distances.

You can still clearly feel Zhang Yuhe's terrifying aura.

Zhang Yuhe's pressure enveloped the world, as if a god or demon had descended into the world.

...

Chapter 789 Shortcut to the Sky

Zhang Yuhe stared into the distance and made a stroke with his right hand.

The vast aura of divine power quickly surged towards the void passage.

It's different from when I returned to the fairy world.

It was only opened at that time, a temporary void passage.

Without the support of his divine aura, the passage would soon be closed.

Now Zhang Yuhe plans to build a permanent void passage.

Then he could only start from the original passage.

Building things out of thin air obviously doesn't work.

That is tantamount to confronting the original rules of the Chaos Sea head-on.

Zhang Yuhe asked himself.

I don't have that ability yet.

Even those extraterrestrial supreme beings did not dare to challenge the origin of the Chaos Sea head-on.

He's not even close yet.

But having said that.

Zhang Yuhe still has a way.

Because he has the Wuji of Heaven and Earth, this magical teleportation power.

If he integrated the transmission channel into the original void vortex.

Then make some adjustments.

Is it possible to construct a new channel?

About this idea.

Zhang Yuhe had already thought about it carefully.

he thinks.

This approach should work.

The void vortex is fixed at this end of the fairy world.

It's just that the exit on the other side of the Chaos Sea is a bit erratic.

So he only needs to find a stable position on the other side of the Chaos Sea.

Then connect them via transmission channels.

Wouldn't that be equivalent to fixing the original void vortex?

Of course.

It's certainly not that simple.

Want to do this.

It requires strong divine support.

It is precisely because of this.

Only Zhang Yuhe can activate the magical power of Hunyuan Guiyi.

Use your strongest state to build this new void passage with all your strength.

Following Zhang Yuhe's right hand stroke.

The vast void vortex in the distance seemed to become stagnant in an instant.

In the middle of the void channel.

A vortex of slightly smaller particles began to slowly emerge.

Zhang Yuhe kept pinching the magic formula.

His majestic divine power kept pouring into the particle vortex.

The particle vortex slowly grows.

Slowly covering the original void channel.

From circles within circles, finally merge into a circle.

The original void channel disappeared.

Only the particle vortex opened by Zhang Yuhe with the infinite magical power of heaven and earth was left in the sky.

The particle vortex crossed the void and soon marked its position on the other side of the chaotic sea.

The outer edge of Donghua World.

A figure with a vast aura stood quietly in the void.

This is one of Zhang Yuhe's clones.

At this time, the clone has also activated the magical power of Hunyuan Guiyi.

When the particle vortex slowly appeared in the void in the distance.

The clone followed with a stroke of the right hand.

The majestic aura of divine power quickly poured in towards the particle vortex.

Zhang Yuhe's true form is in the fairy world, but his clone is outside the Donghua world.

Both sides exert force at the same time.

Under the guidance of that vast divine power.

Those passage exits were originally scattered throughout the Chaos Sea.

They began to quickly merge into one, moving closer to the edge of the Donghua World.

The exits of the previous passages were all in a certain position.

There's no way to locate it.

But with the joint efforts of Zhang Yuhe and his clone.

The location of the passage exit was finally fixed.

And it's right near Donghua World.

As the aura of divine power continues to flow in.

A void passage traversing the two realms began to slowly take shape.

In Yitian City.

Countless monks looked up into the void.

Everyone looked at the huge vortex above their heads and felt that it was obviously different from before.

Before, the passage was so deep and unpredictable that it seemed like there would never be an end in sight.

But now everyone finds out.

They seemed to be able to see the other side of the vortex.

There seems to be a continent over there, which is rapidly taking shape.

Since Zhang Yuhe has marked the exit of the passage outside Donghua World.

Of course he will make certain arrangements at the exit.

At this time, his clone was at the exit, creating a vast continent out of thin air.

Void creation is not too difficult for the God King monks.

Section 1124

In fact.

There are many continents in the Sea of Chaos, all created by monks.

Just like Donghua World.

This place was originally a void, and there was no land.

Later, the God King Donghua wanted to establish a sect here.

This created the huge landmass of Donghua World.

Zhang Yuhe's clone shrouded all directions with divine power.

Various materials in the void gather quickly.

Soon, a vast land was created in the void.

above the land.

A huge vortex of particles hung quietly in the air.

At this point the vortex is completely fixed.

There is no need for him to input any more divine power, and it is still stable in the sky.

...

Fairyland, Yitian City.

Zhang Yuhe stands tall in the sky.

Looking at the particle vortex above his head, he couldn't help but nodded with satisfaction.

Under the simultaneous efforts of both sides.

He finally achieved this stable void passage.

Zhang Yuhe felt silently.

Although there is still a terrifying squeezing force in the passage that runs through the two worlds.

But compared to the previous natural channel.

Now the squeezing force in the channel has been weakened countless times.

This is the passage he built with the infinite magical power of heaven and earth.

With the protection of his Dao Yun rules, the terrifying squeezing power has been eliminated.

Weakened to the extreme.

despite this.

This newly built void passage can still only support Daluo monks to travel through.

If one's cultivation level is less than Daluo realm, it will be easily crushed by the power of void.

Zhang Yuhe has tried his best.

But some things are not subject to human will.

Just like those teleportation arrays in the fairy world.

Mortals cannot use it.

Even people with weaker cultivation levels are unable to ride on the teleportation array.

It's not that they can't use it.

But it doesn't work at all.

If you don't have enough cultivation to protect yourself.

Riding the teleportation array rashly is asking for death.

In a strict sense.

This void passage was built by Zhang Yuhe.

It's an alternative teleportation array.

only.

This is a fixed teleportation array.

There is no need for array support or manual opening.

No need to add extra energy.

As long as the monk enters the passage, he can reach the other end of the passage.

The premise is.

The monks want to reach the Daluo realm.

Looking at the vast vortex of channels in the sky.

The monks in the city were extremely excited.

Especially those Daluo Immortal Kings were extremely excited.

Because according to Zhang Yuhe.

This newly built void passage allows them to reach the Sea of Chaos smoothly.

Go to the legendary world of gods.

How could they not be excited about this?

They want to be promoted to the realm of Dao Ancestor in the fairy world.

The hope is almost slim.

But if you can enter the Sea of Chaos, it will be much simpler.

Just like many monks in the world of immortality.

Most of them will not be able to ascend successfully.

Even the Mahayana realm, few people can achieve it.

But if it is in the fairy world.

So is the Mahayana realm still difficult?

Not difficult.

As long as the qualifications are acceptable and there are sufficient resources to support it.

Most people in the fairy world.

All can cultivate to the Mahayana realm.

The same principle applies to the Sea of Chaos.

In the sea of chaos.

It is indeed not easy to break through to the true god realm.

Because you need to understand a rule first before you have a chance to break through to the True God Realm.

The rules are hard to understand.

This is the mountain that blocks the progress of most monks.

But promoted to the virtual god realm.

That's not too difficult.

Especially for those great Luo Immortals in the Immortal Realm.

They are exceptionally talented in their own right.

Otherwise.

It is also impossible to become a great Luoxian.

With their talents.

As long as you can enter the sea of chaos.

Breaking through to the Virtual God Realm in the future is almost certain.

This passage was built by Zhang Yuhe.

It was like opening up a shortcut to the sky for them.

Allowing them to break through to the Virtual God Realm earlier.

Such fortune comes.

How could they not be excited about this?

...

Chapter 790 Two Heavens

Zhang Yuhe stared at the void passage in the distance, thinking silently in his heart.

It's definitely not possible to leave the passage open like this.

Because this passage can only support the passage of monks above Daluo.

If a monk who is not strong enough enters the passage rashly.

Basically, there is death but no life.

But people are all lucky.

The extraterritorial passage is just like this, hanging high above Yitian City.

No matter how much Zhang Yuhe warned.

It will still be impossible to stop it, and many people will rush in without risking their lives.

There are many monks everywhere who believe that my fate is determined by fate.

Section 1125

A lot of people will definitely be thinking about that.

Maybe I'm lucky and can pass through the passage safely without reaching the Great Luo Realm.

Arriving at the Sea of Chaos successfully.

If it were a void passage, it would hang high in the sky without any obstruction.

There will definitely be many people who are not in the Daluo realm and will take risks.

Zhang Yuhe did not hope that such a situation would occur.

So the best way.

Still the same as before.

Seal the area near the void passage and set corresponding traffic conditions.

Only those who meet the conditions can approach the void passage.

"How to do it exactly?"

Zhang Yuhe looked around, thinking silently in his heart.

He didn't want to be exactly the same as before.

The entire lake area is sealed off.

That would be a shame.

This huge lake can be regarded as the most important scenery of Yitian City.

If they were all banned.

Wouldn't it be possible to see it no more?

That's not good.

Zhang Yuhe was not strong enough at the beginning.

This is the only stupid way to do it.

But now he has integrated the rules of the great road into the entire fairy world.

You can say that.

Now the entire fairy world is completely under his control.

He can create changes at will without any hindrance.

That being the case.

Why doesn't he come up with something more advanced?

"Well, that's it."

Zhang Yuhe touched his chin and quickly came up with an idea.

I saw him wave his right hand.

The vast power of rules instantly enveloped a large area.

Countless material factors around the lake quickly converged toward the sky above the lake.

After a while.

A vast sky continent slowly formed above the lake.

The Sky Continent vortexed the entire passage and encompassed it all.

A tall gate tower stands quietly on the edge of Sky Continent.

As the breeze blows.

The Sky Continent slowly disappeared.

Over the entire lake, only the tall gatehouse remained.

On the top of the gate tower is written "Two Realms of Heaven", three powerful characters.

It seems that there is infinite world inside.

Zhang Yuhe looked back into the void.

Looking at the gate tower hanging high in the sky, he nodded with satisfaction.

He thinks that this artistic conception is very good.

The two realms of heaven separate the void.

In the future, monks in the immortal world will want to enter the sea of chaos through the vortex passage.

You must first fly into the two realms of heaven.

Zhang Yuhe set up strong restrictions around the gate tower.

Monks who have not reached the Daluo realm cannot even touch the gates of the two realms of heaven.

Naturally, it is impossible for someone to break into the passage by mistake.

In Yitian City.

Countless monks looked up at the sky.

Looking at the huge void vortex, it slowly disappeared.

Instead, there was a tall gate tower.

Everyone couldn't help but be amazed.

These methods of void creation really make them yearn for it.

Zhang Yuhe waved his hand.

It condensed into one place, a huge sky continent.

Then a gate tower was used to fit the entire continent into it.

This method of arbitrarily kneading the heaven and earth is like the arrival of gods into the world.

How could you not amaze them.

Not to mention those immortal monks.

Even Li Tianxing and An Tianzuo have never seen such a method.

Today was an eye-opener for them.

Zhang Yuhe stood with his hands behind his back.

He glanced across the distance and spoke calmly.

"The passage is now reopened."

"In the future, as long as your cultivation level reaches the Daluo realm, you can pass through the two realms of heaven and enter the sea of chaos from the whirlpool channel."

"On the other side of the passage, I will arrange a dedicated person to pick you up."

Zhang Yuhe's voice seemed gentle, but it spread throughout the immortal world.

No matter where you are in the fairy world, you can hear it clearly.

His soft and calm voice.

In an instant.

The entire fairy world was completely boiling.

Everyone had only heard rumors before.

It is rumored that the Galaxy Emperor will reopen the extraterritorial passage and lower the conditions for entering the Sea of Chaos.

But that's just a rumor after all.

No one dares to take things too seriously unless something is certain.

Now Zhang Yuhe spoke in person.

And the magical method just now was displayed in front of everyone's eyes.

Now that the passage is complete, no one will have any doubts.

This means.

In the future, many monks in the immortal world will have the opportunity to enter the sea of chaos at a higher level.

It is difficult for Daozu to break through.

But relatively speaking, Daluo Realm is much simpler.

In the billions of years of history of the fairy world.

The total number of Taoist ancestors born will not exceed one hundred.

But the number of Daluo Immortal Kings is at least hundreds of thousands.

Zhang Yuhe's reopening of the passage undoubtedly opened the door of hope for these people.

Give them the opportunity to move towards a higher level of the world.

Have the opportunity to pursue a higher peak.

Just at this time.

Li Tian soared into the sky, landed in front of Zhang Yuhe, and asked excitedly.

"Ancestor, can we really go there?"

"certainly."

Zhang Yuhe responded with a smile.

"Then when can we go there?"

Looking at the Tongtian Avenue in the sky, Li Tian was full of yearning for the Sea of Chaos.

He is very clear.

In the fairy world.

Section 1126

If there is no special opportunity.

Perhaps the Daluo realm is his end.

The realm of Daozu is out of reach.

Although Li Tian has good talent and is born with a fire spirit body.

But breaking through the Daozu realm is too difficult.

Those Daozu emperors born in the fairy world before.

Who is not a special spirit body?

There may be many holy body monks.

His innate fire spirit body is not a big advantage.

It is indeed extremely difficult to take this last step.

But if you can enter the Chaos Sea.

It will be much easier.

Li Tian believes.

In that higher level world.

He will definitely be able to take that step and be promoted to the realm of Void God Daozu.

If the opportunity is right.

Maybe he still has a chance to become a true god or even a supreme god king.

Thinking of this.

Li Tian asked excitedly.

"Ancestor, when can we go there?"

"Now."

Zhang Yuhe responded lightly.

He turned and looked into the distance, then slowly spoke.

"The Daluo Immortals who want to go to the Chaos Sea can go back and arrange their affairs first."

"You can go through the Two Realms Heaven and enter the Chaos Sea from the passage at any time."

After saying this.

He looked at Li Tianxing and others beside him and said with a smile.

"Let's go first."

Zhang Yuhe flew up and disappeared from the sky above Yitian City in an instant.

Li Tian looked up at the sky.

He also took off.

When he approached the Two Realms Heaven, he immediately felt a vast pressure.

He urged the immortal power in his dantian, gritted his teeth and continued to fly upwards under the pressure.

After a while.

Li Tian passed through the tall gate tower and entered the Two Realms Heaven.

Looking at the vast vortex passage in the distance.

He didn't hesitate at all and threw himself into it directly.

After Li Tian.

There were some more Daluo Immortal Kings flying towards the gate tower in the sky.

No one would miss such an opportunity to leap to a higher level world.

Of course.

This is only a small part of the Daluo Immortals in the Immortal Realm.

More Daluo Immortal Kings, they can't just leave.

Many of them are the existence of the ancestors.

There are still many concerns in the Immortal Realm.

Can't just leave easily.

At least the affairs at hand should be arranged first.

...

Chapter 791 Desert Courtyard, Daozang Hall

Outskirts of Donghua World.

A vast continent appeared inexplicably in the void.

The mountains on the continent stretch, but no one can be seen.

Above the continent.

A huge vortex slowly flows in the void.

This is the continent newly created by Zhang Yuhe's clone.

It is not convenient for him to locate the void channel directly to Donghua Palace.

So he had to create this continent in the outer void.

Used to carry the exit position of the channel.

Zhang Yuhe arranged a powerful forbidden formation on the periphery of the continent.

Unless he gets his permission.

Otherwise.

In the future, this continent can only be left but not entered.

To prevent the cultivators in the Chaos Sea from mistakenly entering the fairyland through the passage.

After everything was arranged.

Zhang Yuhe's clone left quietly.

The whole continent was silent.

Only a huge vortex remained, slowly flowing in the void.

At this time.

A figure slowly emerged from the vortex.

Zhang Yuhe walked out of the vortex.

Following closely.

Li Tianxing, An Tianzuo, He Yueyue, Li Tian and others also walked out of the vortex.

Feeling the heavy and vast breath of the Chaos Sea.

Li Tian couldn't help but show excitement on his face.

He even felt.

He had just broken through to the perfection of the Daluo Realm, and the rock-hard bottleneck of the Void God.

It seemed that there was a tendency to loosen.

Li Tian had some insights in his heart.

It seemed that he only needed to settle down for a while before he could break through to the Void God Realm.

It would be so simple to break through the Void God Realm in the Chaos Sea.

This made Li Tian extremely surprised.

In the Immortal Realm, the Void God is called the Daozu Emperor.

Endless years have passed.

The total number of Void Gods born in the entire Immortal Realm will not exceed a hundred.

This shows that.

The difficulty can be imagined.

However, Li Tian had just arrived at the Chaos Sea.

He felt that the bottleneck of the realm was loosening.

And he had just been promoted to Daluo Perfection in just half a day.

Is it so easy to practice in the Chaos Sea?

Li Tian felt very incredible.

There were some Daluo realms around, which were teleported from the Immortal Realm one after another.

Everyone's face showed excitement.

Obviously.

They have all felt the difference between the Chaos Sea and the Immortal Realm.

The rules here are clear and the origin is rich.

The bottleneck of the great realm seems to be much easier than when in the Immortal Realm.

Zhang Yuhe stood in the sky.

He looked at Li Tianxing and An Tianzuo next to him and spoke slowly.

Section 1127

"Tianxing, Tianzuo, I may have to trouble you to stay on this continent for a while in the future."

"I have already said hello to the master of Yuanhe Palace."

"As long as the cultivators come from the fairyland, they can directly join Donghua Palace."

"If there are cultivators coming later, ask them about their wishes first."

"If they are willing, they will all be led to Donghua Palace."

After hearing Zhang Yuhe's arrangement.

Li Tianxing and An Tianzuo immediately responded respectfully.

"Please rest assured, senior, we will definitely do our best to handle this matter."

Zhang Yuhe nodded gently.

He turned to look at He Yueyue and Li Tian, and said with a smile.

"Let's go, I'll take you to Donghua Palace."

After saying this.

Zhang Yuhe made a stroke with his right hand.

A huge particle vortex slowly appeared in the void.

The three people disappeared instantly.

...

Bi Bo Lake, Yitianfu.

After leading He Yueyue and Li Tian into Donghua Palace, he didn't care anymore.

You have to rely on yourself to practice.

Zhang Yuhe could only help them by providing a better training environment and corresponding training resources.

As for how far they can go in the end, it depends on their own luck.

After returning to Yitian Mansion.

The ring on Zhang Yuhe's left hand flew out instantly.

The ring turned into a stream of light and quickly flew towards the back of the training platform.

A small purple tree slowly took root.

The purple tree swayed gently, as if greeting Zhang Yuhe.

Wu Yiyi did not transform into a phantom again.

This time, she returned to the fairyland with Zhang Yuhe, especially the experience on Blue Star.

It made her feel a lot.

There are so many ordinary talents and low realm cultivators on Blue Star.

They can still work hard and practice hard.

What reason does she have not to work hard?

At that moment, Wu Yiyi felt that she was not even as good as those mortal cultivators.

No wonder she made slow progress.

After so many years, she has only been able to practice to the third level of the True God Realm.

It's really too slow.

Wu Yiyi made up her mind secretly.

She must work hard in the future.

She will never play in the form of a phantom again unless she breaks through to the God King Realm.

Zhang Yuhe looked at the purple tree swaying gently.

He couldn't help but smile faintly on his face.

After this outing.

Wu Yiyi seemed to have changed a lot.

Maybe she has grown up.

Thinking of this.

Zhang Yuhe shook his head gently.

He walked to the practice platform and slowly sat down cross-legged.

The matter of the fairy world is over.

After he rebuilt the rules and opened a new transmission channel.

Zhang Yuhe believed.

In the future, there will definitely be a large number of Daluo realms, which will be transmitted from the fairy world to the Chaos Sea, and then join the Donghua Palace.

Enrich the strength of the Donghua Palace.

Although the Daluo realm is in the Chaos Sea, it is indeed not worth mentioning.

If you don't practice to the True God Realm.

In the Chaos Sea, there is almost no sense of existence.

But Zhang Yuhe believes.

These people will grow up sooner or later.

In an environment like the fairyland, they can all cultivate to the Daluo realm.

Then after entering the Chaos Sea.

Feeling clearer rules and having more abundant cultivation resources.

Breaking through to the Void God Realm is absolutely no problem.

Maybe some of them still have the opportunity to achieve the True God Realm.

They may even go further.

But that is all in the distant future.

Zhang Yuhe didn't think too much.

Compared with the affairs of the fairyland.

Improving his own strength is more important.

Advancing his cultivation to the level of the Nine-Step God King as soon as possible, and then comprehending more rules of the Great Dao.

That is his top priority.

Zhang Yuhe sat cross-legged on the practice platform, silently running the Chaos God and Demon Heavenly Scripture.

The majestic divine power around him quickly swarmed towards him.

...

Desert Courtyard, Daozang Hall.

A handsome young man flew and landed outside the hall.

In order to speed up the speed of comprehending the rules of the Great Dao.

Zhang Yuhe arranged a clone, holding a guest token, to come to the Desert Courtyard.

He had long yearned for the hundreds of millions of Daoist scriptures in the Desert Courtyard.

The last time he traded with Qi Feilong.

He exchanged two supreme statues for a divine flower and a guest status in the desert.

The divine flower was given to Duan Changqing.

The guest status was naturally his own.

Zhang Yuhe's original body was in charge of the sect.

There was a Dao Enlightenment Tree in Yitianfu, which was of great help in both enlightenment and cultivation.

Naturally, it should be fully utilized.

If there was no important matter, the original body would not leave easily.

So Zhang Yuhe sent a clone to the Desert Courtyard quietly.

The clone stood at the door of the Daoist Canon Hall with the guest token in his hand.

As a vast breath swept over, the door slowly opened.

Zhang Yuhe walked into the hall.

A vast world suddenly appeared before his eyes.

This was a Daoist Canon world.

Countless classics were distributed all over the world in various forms.

Those endless mountains were all mountains of classics.

There are various books recorded on jade slips, stone tablets, paper, and unknown fur.

Occasionally, there are even various types of artifacts flying across the sky, shining with some inexplicable runes.

It is also recorded, some mysterious magical skills.

Looking at the Daozang world in front of him.

Zhang Yuhe couldn't help but sigh.

This is the foundation that a superpower should have.

In comparison.

Section 1128

The Daozang Hall in Donghua Palace is like an out-of-the-ordinary existence.

The Desert Court has dominated the Sea of Chaos for countless years.

That terrible background.

At this moment, it was clearly displayed in front of Zhang Yuhe.

Even if he was mentally prepared.

See this vast Taoist and Tibetan world.

Zhang Yuhe still felt infinitely shocked.

...

Chapter 792 Years of Precipitation

Looking at the Daozang world in front of him, Zhang Yuhe seemed to have seen it.

The vast heritage accumulated by the Desert Courtyard over countless epochs.

The reason why the Desert Academy is able to dominate the Sea of Chaos is definitely not due to the great power of the owner of the Desert Academy.

Rather, it relies on the accumulation of countless people throughout the sect over many years.

With such a terrifying background, Donghua Palace was exposed in a short period of time.

It can't be done anyway.

Even if Zhang Yuhe succeeds in joining the Tao in the future, he will be promoted to the eternal emperor.

It is also impossible to lead Donghua Palace to reach such heights in a short period of time.

This is a kind of accumulation over time, not something that happens overnight.

Zhang Yuhe stood at the entrance of Daozang World and looked at it silently for a long time.

Then he stepped inside.

He came under a mountain of books.

All the books here are paper.

Countless paper books are piled up in layers to form mountains.

With the support of some inexplicable force.

There are layers of invisible bookshelves between books.

Even if there are mountains of books piled up.

It still looks in order and there are no signs of collapse.

Zhang Yuhe walked under the mountain of books.

He picked out a book at random and looked through it.

【Through Arm Fist】.

This is an ordinary boxing technique.

It can't even be said to be a monk's magical power, but a boxing technique practiced by mortals.

Zhang Yuhe took a general look.

The boxing skills are very ordinary and have no special features.

If he wants to.

Even in a single thought, hundreds of punches of the same type can be created.

despite this.

Zhang Yuhe still looked through it carefully, quietly trying to figure out the charm.

Any skill or magical power has its merits.

Zhang Yuhe wants to fully understand all three thousand avenues.

Then we must gather the strengths of everyone and absorb a wide range of knowledge.

Perhaps these inconspicuous classics will bring him opportunities.

Even if you don't gain anything, it doesn't matter.

Anyway, this Taoist world is very big, and the number of classics in it is exaggerated.

Zhang Yuhe still didn't believe it.

After he has seen the entire Taoist world, he will not be able to comprehend the thousands of Taoist rules.

As for saying.

How long does it take to read all the classics in the Taoist world?

None of this matters.

Zhang Yuhe was not in a hurry.

The years are endless.

Just take your time.

Time passed slowly.

Zhang Yuhe stayed under the mountain of books and silently looked through the classics.

As he flipped through it, he felt quietly.

I want to find an opportunity to understand the rules of the great road.

Zhang Yuhe slowly looked over the mountains of books.

No matter how low-level the classics are, he will read them carefully and ponder them carefully.

The years passed quietly.

In the world of Daozang, he would occasionally see the figures of other disciples of the Desert Academy.

Today, Zhang Yuhe is as famous as the sky.

Even ordinary monks have heard legends about him.

As for the disciples of the Desert Academy, they naturally knew the reputation of the Lord of the Galaxy Palace for a long time.

I also know this elder Keqing who has recently joined the Desert Courtyard.

when they see.

Zhang Yuhe was actually still there, looking through those low-level classics.

Everyone couldn't help but show surprise.

Are there any interesting things about these paper classics?

The skills and magical powers recorded above can even be used by those who have just embarked on the path of spiritual practice.

No one is interested in reading it.

It's really too low-end.

These classics are of no use to them at all.

Everyone even feels that.

The Desert Academy puts these low-end classics into the Taoist world.

It's completely used to make up the numbers.

Usually no one comes to look at it.

Even if there is.

Just look at it curiously, and then leave quickly.

There is no one like Zhang Yuhe.

Buried in those mountains of paper books, I seem to be very engrossed in reading.

This made everyone feel very puzzled.

But Zhang Yuhe didn't pay much attention.

When he met the disciples from the Desert Academy, he just nodded lightly.

Then continue to immerse yourself in the ocean of Shushan.

...

Deep in the Taoist world.

An inconspicuous small attic stands quietly among the mountains of books.

In a quiet room in the attic.

An old man with a white beard and a red face, holding a roll of unknown animal skin in his hand, was comprehending it carefully.

Sudden.

The old man stood up slowly, with a puzzled look on his face.

He looked into the distance, as if he had passed through the entire Taoist world.

Looking at Zhang Yuhe who was immersed in the mountain of books and quietly flipping through the classics.

The old man felt very puzzled.

He muttered to himself.

"This peerless genius is really strange."

"I have been in the Daozang world for so many years, but I have been reading those low-level classics."

"Is there any special Taoist charm hidden in those classics?"

This old man's name is Deng Chiming, and he is the oldest being in the entire Desert Courtyard.

Section 1129

He even lives longer than the Master of the Desert Courtyard.

When the Chaos Sea, Heaven and Earth first opened.

Deng Chiming is also a well-known big shot.

However, Hedao failed later and failed to be promoted to the eternal realm.

He no longer fought in Changhe outside the territory, but stayed in Desert Courtyard.

Responsible for guarding this Taoist world.

in endless years.

Deng Chiming has met countless talented people.

He has even seen many creatures who were born in the realm of true gods.

But he has never seen anyone like Zhang Yuhe.

It is clear that his strength is all-powerful, and the auras of various avenues are intertwined.

Obviously, he has understood the countless rules of the great road.

But even so.

Zhang Yuhe can still immerse himself in those low-level classics.

This made him feel very strange.

"Does this peerless genius have any special hobbies?"

"Do you like reading these low-level classics?"

"impossible?"

Deng Chiming shook his head gently.

This is obviously impossible.

Zhang Yuhe can use the power of the God King to kill the Eternal Emperor.

Naturally, he won't be a demonic person.

He must have some purpose in looking through the mountains of books in those low-level areas.

"Perhaps he wants to find a path that suits him from those classics?"

Deng Chiming thought silently.

Zhang Yuhe didn't know.

There was an ancient being who was quietly observing his actions.

Even if you know.

Zhang Yuhe wouldn't care either.

He came to Desert Courtyard originally to read the classics.

As for what types of classics to read.

Then it doesn't matter.

Anyway, Zhang Yuhe had already planned it.

Even if it takes tens of billions of years, he will destroy all the classics in the entire Taoist world.

Read them all.

Zhang Yuhe had a kind of enlightenment.

After he read all these classics.

There will definitely be great gains.

Not to mention comprehending all the three thousand avenues.

At least one can understand one or two thousand of the rules of the avenue.

As for the remaining rules of the avenue, I am afraid they do not exist at the origin of the Sea of Chaos.

Maybe you need to go to the long river outside the territory and look for other opportunities.

Zhang Yuhe's plan is simple.

That's step by step.

First, read the book on the Taoist World and understand all the rules of the Tao that you can understand.

At the same time, he slowly advanced his own cultivation realm.

If he could be promoted to the Nine-Step God King Realm.

Then if you go to Changhe outside the territory in the future, you will at least have safety guarantees.

Zhang Yuhe believes it.

Once he is promoted to the Nine-step God King, he will be blessed by the rules of thousands of avenues.

So as long as the Supreme doesn't come out, he is invincible.

No one can do anything to him.

...

Chapter 793 Sit back and watch the rise of the sect

Zhang Yuhe's original form is sitting cross-legged in Tianfu, and his body is immersed in the ocean of Shushan.

Years fly by, time flies by.

Fifty billion years have passed in a flash.

In these 50 billion years.

Donghua Palace opened its gates many times and recruited many disciples.

Relying on the reputation of the Lord of Galaxy Palace.

Young talents from all over the desert world are pouring into Donghua World.

Every time Donghua Palace opens its mountain gate, it will cause a huge sensation in the entire realm.

Although the incident of Zhang Yuhe beating Lu Yuan to death was not widely spread.

But when he was in the true god realm, he swept through the ten supreme god kings of Tianyang Sect.

That's a well-known thing.

It is also an extremely rare miracle for the True God cultivator to attack the Supreme God King.

At least in the Desert Heaven Realm, this has not happened for many years.

For Zhang Yuhe's name.

Countless talented people want to join Donghua Palace, hoping to see the true face of the Lord of Galaxy Palace.

Unfortunately.

So many years have passed.

The number of disciples in Donghua Palace now approaches tens of millions.

Nearly a hundred times more than before.

However, no one has ever seen these disciples who later joined the sect.

The legendary Lord of the Galaxy Palace.

Because Zhang Yuhe stayed in retreat in Yitian Mansion for many years and never came out at all.

Naturally no one can see it.

in these long years.

Countless immortals from the immortal world followed the passage opened by Zhang Yuhe.

Gradually teleported to the Sea of Chaos.

Under the guidance of Li Tianxing and An Tianzuo.

It was natural for everyone to join in the Donghua Palace.

Even the most lonely monk in the Immortal Realm never said he wanted to wander alone in the Sea of Chaos.

There is the big tree Zhang Yuhe.

Even if you are a fool, you still know to rely on it.

With such thick thighs, others may not be able to hug her if they want to.

They have such a good chance.

He and Zhang Yuhe come from the same primitive world.

There is such origin.

If you don't join Donghua Palace, wouldn't you be out of your mind?

Not only that.

The monks also changed the name of the fairy world to Galaxy Heaven.

Whenever I talk to outsiders.

Everyone will be proud to say it.

They are from the Milky Way World.

Being from the same world as the Lord of Galaxy Palace is their supreme honor.

Because of Zhang Yuhe's influence.

Everyone in Donghua Palace will take special care of this group of monks from the immortal world.

And the monks in the immortal world are indeed very impressive.

Section 1130

over the years.

A large number of immortal monks slowly integrated into Donghua Palace.

After years of precipitation.

Many of them have already broken through to the True God Realm.

Among them, the person who has made the fastest progress is still He Yueyue.

She has even surpassed Li Tianxing and An Tianzuo.

Breakthrough all the way to the seventh level of True God Realm.

Faintly becoming the senior sister in the eyes of the monks in the immortal world, she is second only to Zhang Yuhe.

As the number of disciples gradually increases, the scope of Donghua Domain is also slowly expanding.

Almost all of the original dangerous and secret areas have been destroyed by the disciples of Donghua Palace.

The vast Donghua Domain shows a prosperous scene.

The only pity is.

For so many years.

There is still no new god king monk born in Donghua Palace.

Duan Changqing is still in retreat.

Wan Fenghai and others are still troubled by the completion of the rules.

Even if the number of disciples in Donghua Palace increases hundreds of times.

But if you want to give birth to a supreme god king, you still need some luck.

Whether it is the completion of the rules or the bottleneck of the God King.

It can make monks trapped for countless years.

...

this day.

The sky above Donghua Palace suddenly changed, and spiritual waves surged.

Zhang Yuhe slowly opened his eyes.

He stood up and looked into the distance.

He muttered to himself.

"Senior Brother Duan is finally going to take that step?"

Looking at the direction of the spiritual tide surging in the distance.

Zhang Yuhe understood immediately.

Duan Changqing has broken through the bottleneck and is breaking through to the God King realm.

When the monks break through in the sea of chaos, there will be no heavenly disaster.

That is to say.

As long as you can break through the realm bottleneck, it is almost equivalent to a successful breakthrough.

All that's left is to accumulate divine power and slowly transform into a realm.

Basically no, no more accidents will happen.

See this situation.

Zhang Yuhe couldn't help but reveal a smile.

For countless epochs, Donghua Palace has only had three God-King Palace Masters.

Later, he was promoted to the God King Realm and became the fourth palace master.

Now Duan Changqing is about to break through and succeed.

That means.

Donghua Palace will appear, the fifth God King Palace Master.

This is a very good sign.

Perhaps it indicates that Donghua Palace is rising rapidly.

Duan Changqing is just the first.

in the years to come.

Maybe there will be a second or third one.

There will be a large number of Donghua Palace disciples who will eventually be able to cross the threshold and attain the Great Way of the God King.

Zhang Yuhe slowly flew up and stood in the sky above Yitian Mansion.

Just at this time.

The faint voice of God King Yuanhe was clearly heard in everyone's ears.

"Chang Qing is breaking through to the God King Realm."

"All disciples immediately went out to guard against deliberate sabotage."

"Yes, Palace Master."

As soon as Yuanhe God King finished speaking.

Countless disciples flew out of the mountain gate and everyone walked along the outside of Donghua Palace.

A long cordon was drawn up.

Now there are many disciples in Donghua Palace, and countless disciples are walking outside the mountain gate.

The cordon has been deployed in the void outside the Donghua World.

King Yuanhe glanced around.

He took out a formation disk and quickly fired a few spells.

The sect formation that shrouded the sky above Donghua Palace was quickly removed.

When a monk breaks through to the realm of the God King, he needs to absorb a massive amount of divine power.

Used to transform into a new realm.

Thinking of Zhang Yuhe's previous breakthrough scene.

King Yuanhe did not dare to be careless.

When Zhang Yuhe broke through to the True God, the mountain gate formation was closed.

The breakthrough almost failed due to insufficient divine power.

Now that Duan Changqing has broken through to the God King realm, he needs more divine power.

Relying on the supply of spiritual energy from a corner of the mountain gate is obviously not enough.

It is necessary to open the mountain gate formation to attract the gathering of spiritual energy in the vast void outside.

King Yuanhe put away the formation disk, and he glanced at Zhang Yuhe, who was standing in the air in the distance.

He immediately flew up and landed next to Zhang Yuhe.

he shouted with a smile on his face.

"Junior Brother Yuhe, you are finally out of seclusion."

Don't know why.

As long as he sees Zhang Yuhe, God King Yuanhe will feel an inexplicable sense of peace of mind.

It seems like no matter what happens.

As long as Zhang Yuhe is here, there is no need to worry.

Once upon a time, Donghua Palace encountered a crisis that was close to destruction.

As a result, Zhang Yuhe easily resolved the situation as soon as he took action.

Especially in recent years.

Ever since Zhang Yuhe was promoted to the God King Realm.

The reputation spread throughout the entire realm.

Nowadays, Donghua Palace disciples travel around the world and are always honored guests wherever they go.

It was all thanks to Zhang Yuhe.

Over the past 50 billion years.

The big forces around Donghua Palace, let alone cause any friction again.

They even voluntarily gave up a large area of land bordering the Donghua Domain.

Extensive backward contraction.

I was afraid that being too close to Donghua Palace would cause any misunderstanding.

When Zhang Yuhe was in the True God Realm, he could sweep through the Tianyang Sect.

Now he has broken through to the God King Realm.

Who dares to come and provoke the big forces around?

They can only be cautious.

I pray that Donghua Palace will not cause trouble for them, then they will burn high incense.

After all, Donghua Palace was weak back then.

The surrounding big forces have taken advantage of Donghua Palace.

Now that the world has turned upside down, don't they have to behave themselves?

Zhang Yuhe's power has already reached an incredible level.
