### Section 1141

The brilliance shines on the formation platform, and the Taoist rhyme rises.

Two teams of God King monks stood quietly beside the formation.

This teleportation array is the most important place in Tianguan.

This is not only their retreat.

He is also a Chaos Sea cultivator, supporting the only passage to Tianguan.

No matter how dangerous the situation is.

Just keep the teleportation array intact.

The Eternal Emperors can quickly mobilize forces from all sides.

Defeat all invading enemies.

It is precisely because of this.

Near this teleportation array, there are two teams of twenty God King monks guarding it all year round.

And around the formation.

There is also an Eternal Emperor, hiding nearby.

to cope with all emergencies.

Just at this time.

A dazzling light soared into the sky from the formation platform.

As the light flashed.

More than three hundred vast figures slowly appeared on the formation.

"Meet the Master."

Seeing the appearance of the Desert Master, the surrounding God King monks guarding the formation immediately shouted respectfully in unison.

As Tianguan guards, they naturally recognize the master of the desert courtyard.

The Desert Master nodded slightly.

I saw him wave his right hand.

A huge chaos boat quietly emerged in the void.

Zhang Yuhe and others flew up.

The Chaos Boat turned into a stream of light and flew quickly towards the distance.

At this time, there was an inconspicuous small courtyard near the formation.

A vast figure slowly opened its eyes.

Looking at the direction where the Chaos Boat disappeared.

He couldn't help but mutter to himself with some doubts.

"Why did Damo bring so many people here?"

"Isn't this all going out in force?"

"Did they discover any valuable secrets in the Desert Courtyard?"

"The desert is really lucky."

The figure in the small courtyard is the Eternal Emperor who is responsible for guarding the teleportation array.

The name is Beiyuan.

Talk about it.

There is quite a connection between this man and Zhang Yuhe.

When I was in the secret realm of time.

Zhang Yuhe once had a conflict with the monks from Beiyuan Palace.

Moreover, he also killed a god king monk from Beiyuan Palace.

So many years have passed.

Presumably Beiyuan Palace has already found out his origin.

It's just that Beiyuan Palace doesn't seem to have any intention of causing trouble.

This is indeed the case.

Emperor Beiyuan looked into the distance, looking at the direction in which the Chaos Boat disappeared.

He muttered to himself.

"That handsome young man should be the legendary Lord of Galaxy Palace, right?"

"That terrifying aura is really a bit scary."

"It's really hard to imagine that he has only been cultivating for less than a hundred billion years."

"It's a pity that such a peerless genius was born in Desert Sky."

"It would be great if our Beiyuan Realm could have such talented people."

"It's so cheap in the desert."

Looking at the direction in which the Chaos Boat disappeared, Emperor Beiyuan sighed silently.

Then he slowly closed his eyes.

He never paid attention to the conflict between Zhang Yuhe and the monks from Beiyuan Palace.

The monks are so competitive among themselves that if they die, they can only blame themselves for their own incompetence.

He never thought about taking revenge for his disciples.

How big of a deal is this?

Not worth his trouble.

The only person that caught his attention was Zhang Yuhe.

Back then, Zhang Yuhe was still in the True God realm, and he was able to defeat the Supreme God King.

Even the enshrined elder of Beiyuan Palace, Nine-step God King Liu Yuantian, could do nothing.

Now Zhang Yuhe has broken through to the God King Realm.

And looking at the momentum, it seems to have reached the nine-step level.

This has just passed, and in less than 50 billion years, I have reached perfection from the true god realm.

Breakthrough to the Nine-Step God King.

This kind of cultivation speed can be seen even if one looks at the entire outer region.

That is also an extremely exaggerated existence.

Moreover, when Zhang Yuhe was in the True God Realm, he could defeat the God King.

Now he has reached the nine-step divine king realm.

How strong should it be?

I can't even think about it.

...

Chapter 801 Three Holy Heavens

The Chaos Boat sailed quickly over Tianguan.

The shape of Desert Master's Chaos Boat is almost the same as the previous Sky Crossing Boat.

It's just that this chaos boat is bigger and its flying speed is several times faster.

Zhang Yuhe stood at the front of the Chaos Boat, quietly looking down at the World-Zhentian Pass.

The scope of Tianguan is not as large as he imagined.

Compared with the ordinary giant cities in the Chaos Sea, it is even inferior.

Zhang Yuhe looked around.

I saw that at the end of Tianguan, three sides were hazy.

A mysterious mist rose and nothing could be seen.

Those three directions are close to the Chaos Sea and should be the location of the gap in the cosmic film.

Zhenshi Tianguan blocked the gap.

Any outsider monk who wants to invade the Sea of Chaos must pass through Tianguan.

As for the hazy cosmic film, except for the Destruction Beast.

No one can destroy it.

Even the Invincible Supreme cannot do it.

This is the only way to get in and out of the Sea of Chaos.

Zhang Yuhe raised his head and looked forward.

That is the exit of Tianguan towards the long river outside the territory.

Just fly out of Tianguan.

That means that we have truly stepped into the long river.

The Chaos Boat quickly sailed across the sky.

Zhang Yuhe silently felt the unique atmosphere of Changhe around him.

The breath is thick and vast.

It even has a hint of the return of all things to silence.

Section 1142

If there is not enough powerful divine protection.

This kind of tranquility may quickly erode the monk's body.

Let the monks gradually return to nothingness.

No wonder only by being promoted to the God King Realm can one set foot in the outer realm.

Without the cultivation of the God King Realm, there is no way to stop the erosion of this quiet charm.

The Chaos Boat flew forward quickly.

After a while.

He had already passed through Zhenshi Tianguan and flew into the endless river.

Zhang Yuhe instantly felt that his heart seemed to be hanging.

Feeling like you've temporarily lost something?

After flying out of Tianguan.

He could no longer sense the existence of the origin of the Chaos Sea.

Zhang Yuhe couldn't help but feel enlightened.

No wonder the Eternal Emperor of the Chaos Sea can rely on the power of Tianguan.

Keep those invincible supreme beings out of the sea of chaos.

Because within the Tianguan, it is still within the radiation range of the source of the Chaos Sea.

There is suppression of original rules.

Those invincible supreme beings from outside the territory simply cannot exert their full strength.

But after flying out of Tianguan, it is completely different.

The river is vast and endless.

it's here.

No one can rely on the origin of the universe, nor will it be suppressed by other origins of the universe.

Of course.

Perhaps the entire long river outside the territory also has a corresponding source of power.

The source of the long river is vaster and deeper.

But all universes are born in the long river.

So when everyone walks out of the universe and walks towards the long river.

That is to be on the same stage, a fair stage.

In the long river.

Everyone has been separated from their own universe origin.

We can only rely on our abilities.

The Chaos Boat flew forward quickly.

Zhang Yuhe looked behind him.

The originally vast sea of chaos was now only a broad outline.

The hazy outline shines faintly in the long river.

See this situation.

Zhang Yuhe couldn't help being a little stunned.

He muttered to himself.

"It's so beautiful."

Even if it has flown out, it is an endless distance.

But looking behind him, he saw the starry sea of chaos.

Zhang Yuhe was still a little drunk.

That was the universe in which he became enlightened.

How could it not be beautiful?

...

The river is vast and endless.

The Chaos Boat is like a flat boat, flying fast in the long river.

Zhang Yuhe stood at the front of the Chaos Boat, silently using the magic formula.

He wanted to try it.

Can you activate the infinite supernatural power of heaven and earth in the long river?

However, the result was a huge disappointment.

it's here.

He seemed unable to feel the existence of the basic particles that make up matter.

It seems that this long river outside the territory has a completely unique structure.

It is no longer composed of ordinary particles.

After many attempts, still no results.

Zhang Yuhe couldn't help but sigh.

There is no teleportation magical power accompanying him.

From now on, he will no longer be able to move freely in the river.

He could only fly slowly in the vast void like other monks.

This made Zhang Yuhe, who was used to fast teleportation, find it extremely inconvenient.

Just at this time.

The owner of the desert courtyard next to him said to him with a smile.

"Fellow Daoist Zhang, how do you feel when you come to Changhe, a foreign country, for the first time?"

"It's okay, but I feel too small, as if I can't see the end."

When I first flew in and out of Tianguan.

Zhang Yuhe once tried to activate his magical power to check the surrounding situation.

However, the waves fluctuated layer by layer, and the information fed back was all nothingness.

It was as if nothing existed in the entire river.

But Zhang Yuhe knew.

The long river outside the territory not only nurtures countless chaotic universes.

There are even countless secret places and dangerous places.

Countless monks have gone out of the universe and explored the long river to find opportunities.

Naturally, it is impossible for there to be no one.

It's just that the long river is really too vast and boundless.

Even Zhang Yuhe has already advanced the rules of the Wave Path to the level of perfection.

Through the magical power of Wave Dao, he can explore a very large range.

But still can't see anything.

Because this endless river is really too vast.

It is simply boundless.

The master of the Desert Courtyard responded with a smile.

"The river is vast and endless, that's not just talk."

"Don't say it's us."

"Even those invincible supreme beings cannot tell how big this long river is."

"As far as the area where our Chaos Sea is located."

"There are tens of thousands of chaotic universes that have been born."

Hearing what the Desert Master said.

Zhang Yuhe was simply stunned.

Tens of thousands of universes, is that an exaggeration?

He asked curiously.

"Are those universes the same as our Chaos Sea?"

"Are there any Eternal Monks in charge?"

Da Moyuan laughed and responded lightly.

"That's naturally impossible."

"In most weak universes, only the God King monks are in charge."

"They can only seal the entrance and rarely step into the river."

"Any universe that can give birth to an eternal realm is considered a powerful existence."

"The Eternal Monk evolved the world himself and can be resurrected in the world. He is an almost immortal existence."

"That's why I dare to take risks in Changhe without any worries."

Zhang Yuhe thought silently for a while.

Section 1143

He seemed to remember something.

Then he asked.

"Master, did you just talk about our area?"

"Is this long river outside the territory divided into many areas?"

The Master of the Desert Courtyard looked into the distance and said leisurely.

"That's natural."

"Our area is called the Three Holy Heavens."

"It is named because there are three holy realms where the Invincible Supreme sits."

"Besides the Three Holy Heavens, there are countless similar areas."

"In some of these places, the cultivation civilization is much stronger than what we have here."

"There are even truly invincible supreme beings who have mastered the supreme rules."

When it comes to this.

The Master of the Desert Academy looked into the void, looking very yearning.

Zhang Yuhe thought silently.

Three Holy Heavens?

It turns out that the area where the Sea of Chaos is located is called this name.

He had already learned about the three supreme holy realms around him from the classics.

Among them, Paulin Holy World has had a lot of dealings with him.

After all, many Bolin monks who sneaked into the Sea of Chaos fell into his hands.

As for the other two holy realms, they are Taihua Holy Realm and Tianguang Holy Realm.

In these two worlds, there are also invincible supreme beings.

Moreover, monks were also sent to sneak into the Sea of Chaos.

It's just because the number of monks who infiltrated is not large, and they are not in the Desert Heaven Realm.

So Zhang Yuhe has not dealt with them so far.

Zhang Yuhe looked into the distance and sighed silently in his heart.

There are tens of thousands of chaotic universes in the area of the Three Holy Heavens.

And there are three invincible supreme beings sitting in charge.

It turned out to be just a small corner of the long river.

Places like Three Holy Heavens.

There are countless rivers throughout the whole river.

There are even many areas where the cultivation civilization is more prosperous than the Three Holy Heavens.

So how big is this endless river?

Is there really no end?

Zhang Yuhe looked into the distance with some yearning in his heart.

...

Chapter 802 Dao League. Shangyunfang

The Chaos Boat sailed quickly through the void.

Occasionally, you can see some around, and little stars shine in the distance.

Those are all chaotic universes that have already been born, or secret and dangerous places that have been discovered.

The master of the Desert Academy talked eloquently and recounted the knowledge he knew about Changhe.

Outside the Three Holy Heavens, there are various prosperous cultivation areas.

Just because the distance is too far.

Even the Master of the Desert Academy has never left the scope of the Three Holy Heavens.

According to him.

If you want to get out of the Three Holy Heavens, even go to the nearest area.

A round trip requires several epochs of time.

This is the result of using the teleportation array and not considering the risk factors.

In fact.

The monks walked on the long river.

How could it not be in danger?

Even the Eternal Emperor dare not say that he is safe.

According to the owner of the desert courtyard.

There once was an Eternal Emperor in the Sea of Chaos, trying to get out of the Three Holy Heavens.

As a result, in less than half an era, he unexpectedly fell into danger.

Fortunately, the world that the emperor evolved is still there.

It can also be resurrected in its own world.

Since then.

The more than 20 eternal emperors in the Chaos Sea never thought of leaving the Three Holy Heavens.

Everyone is either guarding the Zhenshi Tianguan honestly, or looking for opportunities in the surrounding area.

...

The Chaos Boat flies rapidly across the long river.

There was silence all around.

It makes people seem to be unable to feel the existence of time and space.

I don't know how much time has passed.

Suddenly, a faint light appeared ahead.

The master of the desert courtyard pointed to the distance and said to Zhang Yuhe with a smile.

"Did you see that spot of light?"

"That's Shangyunfang, where there is a teleportation array established by the Taoist Alliance."

"Through these teleportation arrays, we can move within the surrounding area."

"Otherwise, it's just up to us to fly."

"Don't say you have left the Three Holy Heavens."

"Even within the scope of the Three Holy Heavens, we can't go far."

"Let's go to Shangyunfang first, and then pass through the teleportation array."

"We will soon arrive at the secret realm where red gold sacred sand is produced."

Zhang Yuhe nodded lightly.

In the vast and endless river outside the territory, there is actually a teleportation array.

This is simply incredible.

If it weren't for the Desert Master, he had told him about this matter in detail before.

Zhang Yuhe is really hard to believe.

To know.

He can't even sense the basic particles that make up matter.

There is no entangled correspondence between particles.

It shouldn't be possible to teleport in long rivers.

What is the operating principle of these teleportation arrays?

According to the owner of the desert courtyard.

In this vast river, there is an extremely terrifying giant force.

It's called Daomeng.

The Dao Alliance is the most powerful force in the entire river.

none of them.

It is rumored that the Dao Alliance was jointly formed by nine invincible supreme beings.

These nine invincible supreme beings are not pseudo-supreme ones like Supreme Bolin.

That is the true invincible supreme master who has mastered the supreme rules.

The Nine Supreme Beings of the Tao Alliance.

Everyone has mastered a supreme rule of the road.

Among them is a Void Lord, the one who has mastered the Void Avenue.

Teleportation arrays all over Changhe.

It was under the leadership of Lord Void that the construction was gradually completed.

Even in their relatively remote Three Holy Heavens, a large number of teleportation arrays were also built.

It facilitates the communication between the cultivators in the area.

Section 1144

In addition to these ordinary teleportation arrays.

The Lord of the Void also built a huge super formation at the center of the Three Holy Heavens.

Through that teleportation array, the monks can walk out of the Three Holy Heavens.

Go to other training areas.

Of course.

The cost of inter-regional transmission is not something that ordinary monks can afford.

Even the Eternal Emperor may not be able to collect the cost of a teleportation even if he spends all his wealth.

the most important is.

After going out.

You have to come back.

Even the Eternal Emperor couldn't afford the cost of teleporting back and forth twice.

Unless there will be additional big gains after being sent out.

Otherwise.

It's very likely that he won't be able to come back.

The eternal emperor of the Sea of Chaos.

It was because I didn't have enough teleportation fees to come back that I ventured around unfamiliar areas to collect resources.

As a result, he fell into a terrifying secret realm.

Compared to that cross-regional super teleportation array.

Dao alliances are established all over the Three Holy Heavens, and the cost of ordinary teleportation arrays is much cheaper.

Even the god king monks can afford it.

As the Chaos Boat flies quickly.

The distant light spots gradually became clear.

Zhang Yuhe looked around.

I saw only a small void island, standing quietly in the vast river.

The Void Island flashed with dazzling light, as if it was a bright light in the darkness.

Shining on travelers walking on the long river.

On the outskirts of Void Island.

There stands a tall gate tower.

On it, you can vaguely see, [Daomeng, Shangyunfang], several vigorous and powerful characters.

After a while.

The Chaos Boat landed outside the Void Island.

The Master of the Desert Courtyard said calmly.

"Let's go down."

"Chaos boats are prohibited from entering the Dao Alliance's territory."

Everyone jumped out of the Chaos Boat and quickly flew towards the depths of Void Island.

Zhang Yuhe was flying quickly while looking around at the void island.

There are constant exchanges of people around.

And everyone exudes a strong aura.

Astonishingly, they are all god king monks.

After all, this is also a long river.

The God King Realm is the threshold for entry.

Zhang Yuhe looked around.

He found that the monks here not only had different costumes, but also had slightly different breaths.

Monks in different universes have different inheritances.

Although the paths lead to the same destination.

But after all, the routes of practice are different, and the aura displayed is different.

Naturally it will be different.

Zhang Yuhe looked around as he walked, and everywhere he saw were God King cultivators.

As for the Eternal Emperor, none of them were seen.

In fact, this is normal.

The Eternal Emperor is definitely a truly top-notch combat power in the Three Holy Heavens.

Just like the Sea of Chaos.

Such a vast universe has accumulated over countless epochs.

There are only about twenty eternal emperors.

The same is true for other universes.

It's even like a sea of chaos.

Void Island is just a place where everyone stays for a short time.

The chance of meeting the Eternal Emperor is naturally very small.

Under the leadership of the Desert Master.

Everyone flew by quickly.

After a while.

They quickly arrived outside Fangshi in the center of Void Island.

Zhang Yuhe and his party of more than 300 people marched through Fangshi in a mighty manner.

Arriving near a huge formation.

Zhang Yuhe looked towards the direction of the formation.

I saw a monk wearing golden armor standing quietly under the formation.

The golden-armored monk's aura was restrained, as if he were an ordinary mortal.

If it weren't for the three small words "Dao League. Void Palace" embroidered on his sleeves.

People might mistakenly think that this is just an ordinary guard.

See this situation.

Zhang Yuhe couldn't help but be a little surprised.

Because he didn't realize it until then.

This golden-armored monk guarding the formation has a cultivation level of Eternal Realm.

It's just an ordinary Fangshi Teleportation Array, and it's guarded by the Eternal Realm.

And a teleportation array like this.

There are at least dozens of them in the entire Three Holy Heavens area.

As for the number beyond the Three Holy Heavens, I don't even know how many there are.

The Dao Alliance has established so many teleportation arrays in so many areas throughout the Yangtze River.

If every teleportation array was guarded by eternal monks.

How many people are needed?

It can be seen from this.

The overall strength of the Dao Alliance must be so powerful.

It is worthy of being the number one force in the Yangtze River.

It's just terrible.

...

Chapter 803 Eight more people

The Master of the Desert House took out a storage bracelet and quickly stepped forward.

He handed the bracelet to the golden-armored monk, and then said politely.

"Deacon Wu, please help teleport us to Yunquefang."

The golden-armored monk's surname is Wu.

Deacon of the Void Palace of the Dao Alliance, cultivated in the Eternal Realm.

in the Legends.

The entire Dao League has a total of 30 million deacons.

Everyone is in the Eternal Realm, and Deacon Wu is just one of them.

He has been responsible for guarding the teleportation array in Shangyunfang for several epochs.

The Master of the Desert Academy and others have been active in the river for countless years.

They often ride on the Dao Alliance's teleportation array.

Although there is no close friendship with Deacon Wu, he is at least acquaintance.

Every time we meet, we can talk for a while.

Section 1145

Deacon Wu took the storage bracelet and released his spiritual sense to scan it.

Then he turned to look at the Desert Master and said lightly.

"Damo, you know the rules of borrowing the Dao League teleportation array, right?"

The Desert Master responded with a smile.

"Of course I know."

"In the Three Holy Heavens, each time you teleport each person, you will receive five Chaos Source Stones."

"We have a total of 361 people, and we need 1,805 Chaos Source Stones."

Deacon Wu took the storage bracelet and glanced at Zhang Yuhe and others.

Then he said lightly.

"According to the rules of the Dao League teleportation array, any living being is counted as one person."

"If you carry a cave magic weapon with you, then the living beings in the cave must also be counted."

At this point.

Deacon Wu turned to look at the Desert Master and said silently.

"You have a total of 369 people, and you need to make up for the source stones."

"Unless someone doesn't need to be teleported."

Hearing this.

The Desert Master was a little confused.

How could it be?

How many people are there? Don't they know it?

As for the cave magic weapon?

They came out to fight.

And everyone knew that they needed to take the teleportation array.

They definitely wouldn't bring the cave magic weapon.

Otherwise.

Even a blade of grass in the cave might be counted as a living being.

The teleportation fee would be very exaggerated.

How could there be eight more people?

This shouldn't be.

The Desert Master looked at everyone in confusion.

When he saw Zhang Yuhe, he suddenly realized.

This was the first time Zhang Yuhe came to the long river outside the domain.

He had never taken the Taoist Alliance's teleportation array.

He certainly didn't know the rules.

The most important thing was.

The Desert Master knew.

Zhang Yuhe had mastered the ability of clones.

Maybe he brought a few clones with him when he came out this time.

No wonder there were eight more people.

This must be Zhang Yuhe's eight clones.

Thinking of this.

The Desert Dean took out another storage bracelet and handed it to Deacon Wu.

He said with a slightly apologetic look.

"I'm really sorry, I neglected it."

"We are indeed 369 people."

Deacon Wu took the storage bracelet and scanned it for a while.

Then he waved his right hand and said lightly.

"Go up."

The Desert Dean led everyone and flew onto the teleportation array.

As Deacon Wu pinched the magic formula.

A dazzling light pierced the sky, and the terrifying Dao Yun rules enveloped the four directions.

As the light flashed.

Zhang Yuhe and his party disappeared from Shangyunfang in an instant.

...

Skylark Square.

This is also the Void Square Market established by the Dao League in Sanshengtian.

In the center of Skylark Square, there stands a tall teleportation array.

Suddenly.

A dazzling light rose on the array.

Zhang Yuhe and his party of more than 300 people slowly appeared on the array.

The head of the Desert Academy bowed to the Taoist deacon below the array.

Then he waved his sleeves and said to everyone.

"Let's go."

The group quickly passed the Void Island and then drove the Chaos Boat.

Flying towards the distance.

Zhang Yuhe stood at the front of the Chaos Boat, silently lost in thought.

Just now when he was teleporting.

He seemed to have sensed a trace of special rule power from the vast Dao rhyme.

That should be the void rule.

Maybe the Taoist Void Lord relied on this rule power.

To build a teleportation array in this vast river.

Thinking of this.

Zhang Yuhe's mind couldn't help but become a little active.

Since the Void Lord can rely on the power of rules to build a teleportation array across the river.

Does that mean.

I will have the opportunity to use the teleportation magic in the river in the future.

The premise is.

You must first comprehend the void rule.

Thinking of this.

Zhang Yuhe suddenly had an inexplicable impulse.

He wanted to go to Taijin Maze immediately.

He didn't think about going there to find the two God Kings Donghua and Duantian.

But the space in Taijin Maze was layered, containing endless space changes.

Zhang Yuhe guessed.

Maybe that place, like the Secret Realm of Time, is a great place to comprehend the rules.

It's just that the Secret Realm of Time is suitable for comprehending the Avenue of Time.

And Taijin Maze should be suitable for comprehending the Avenue of Void.

"Hurry up and finish the things at hand, and then go to Taijin Maze as soon as possible."

Zhang Yuhe thought silently in his heart.

How convenient it would be if there was a teleportation magic to accompany you.

Come and go without a trace.

Cut through the void at will, go wherever you want.

Instead of like now.

You have to change the teleportation array everywhere, and you have to control the Chaos Boat.

Hurrying on the road in the desolate long river.

It's simply boring.

Waste of time.

Zhang Yuhe is a person who pays attention to efficiency.

He doesn't like to waste time.

...

The Chaos Boat crossed the long and desolate river, flying rapidly forward.

Section 1146

I don't know how much time has passed.

The master of the desert courtyard suddenly turned around and asked a middle-aged man in green clothes behind him.

"Mingjiu, how far are you from the secret realm now?"

The middle-aged man in Qingyi is named Du Mingjiu, and he is an elder of the God King of the Desert Courtyard.

It was when he was traveling in the Changhe River that he accidentally discovered the secret realm containing mineral veins.

Unfortunately.

When Du Mingjiu discovered it, it was a little too late.

At that time, Emperor Kongyuan of Mingxuan Realm had already brought a large number of manpower.

Came to the secret realm.

It is estimated that at this time, the red gold sacred sand should have been mined.

Du Mingjiu took out a map and silently calculated the location.

The long river is vast and desolate, and it is difficult to find corresponding reference objects.

Even if it is a god king monk, it is a bit troublesome to determine the coordinate position.

If you don't do it well, you'll get lost.

It will take a long time to slowly correct it.

Du Mingjiu calculated based on the map for a long time.

Then he said respectfully.

"Master, at our current speed, it will take about half a month to reach the secret location."

The Desert Master nodded slightly.

Half a month is not a long time.

Red gold sacred sand is not that easy to mine.

Even Emperor Kongyuan discovered the secret realm in advance.

And with a large number of manpower, they are mining the red gold sacred sand.

But I want to mine the entire vein.

It won't take a few hundred years, so there's no need to think about it.

They still have time.

Totally in time.

Fortunately, there is a teleportation array set up by the Taoist Alliance in the river.

Otherwise.

They were afraid that they would miss this opportunity.

If you just fly by the Chaos Boat.

Even if they flew continuously for tens of thousands of years, they would not be able to reach the location of the mineral vein.

There is still plenty of time now.

After being away from Du Ming for a long time, he discovered Emperor Kongyuan.

It's less than a hundred years old.

Totally in time.

As long as they can, they can repel Emperor Kongyuan.

You can get the mineral veins into your hands.

Thinking of the entire vein of red gold sacred sand.

The master of the desert courtyard couldn't help but be a little excited.

This is a huge asset.

It is even much more than what he has accumulated over countless years.

"We must get those red gold divine sands."

The master of the desert courtyard thought silently in his heart.

...

Chapter 804 There seems to be someone

In the vast river of chaos, there are countless universes and worlds.

There are also a large number of secret areas and dangerous places scattered around.

Most of these secret and dangerous places are similar to the cosmic world.

There is also a narrow entrance connected to the Chaos River.

If you don't know the location in advance, or walk close.

It is generally difficult for monks to discover the existence of these secret realms and dangerous places.

A far away place from Zhang Yuhe and others.

A huge whirlpool slowly flows in the long river.

However, this vortex seems to have been covered by a formation.

Even if a monk flies over the vortex, it is almost impossible to detect it.

At the entrance to the vortex.

Several monks with powerful auras were vigilantly observing the surrounding situation.

Passing through the entrance of the vortex, there is a red land inside.

Countless tiny grains of sand seem like red starlight.

Dotting the entire continent.

Emperor Kongyuan stood on a mountain peak not far from the entrance.

His vast consciousness always monitors the entire continent and the entrance to the vortex.

On the land below.

A large number of god king monks from Mingxuan Realm are working hard to use their magical powers to blow away the dust on the land.

Then carefully collect those tiny red sand grains one by one.

These red sand grains are the top refining materials.

Red gold sacred sand.

A few grains of red gold sacred sand are not of much value.

I want to use the red gold sacred sand to refine an eternal artifact.

At least dozens of parties are required.

Fortunately, the entire landmass is large enough.

Although those red gold divine sands are scattered in various places.

It is indeed very troublesome to collect them one by one.

But Emperor Kongyuan didn't pay too much attention.

What are you afraid of if you go slower?

It's just a matter of spending more time.

Moreover, after discovering the red gold divine sand.

He mobilized nearly half of the god king monks from Mingxuan Realm.

The Supreme God King is now scattered all over the place, collecting red gold divine sand.

There are tens of thousands of people.

There are so many people mining together.

At most, it will only take a few decades.

They can collect all the red gold sacred sand in this secret realm.

Emperor Kongyuan glanced across the continent.

Looking at the little bits of red starlight, he couldn't help but feel hot in his heart.

If you collect all the red gold sacred sand.

That's at least several thousand square meters.

So much red gold sacred sand for anyone.

All are a huge wealth.

Just go through some trading operations.

Emperor Kongyuan is confident.

It can be exchanged for at least a dozen copies, complete materials for refining the eternal artifact.

That is to say.

After this action is over.

It is possible that their Mingxuan Realm will have more than a dozen eternal artifacts.

In this case.

The overall strength of Mingxuanjie will inevitably reach a higher level.

Just at this moment.

Section 1147

A figure with a vast aura passed through the vortex, quickly flew to the top of the mountain and landed.

He shouted respectfully towards Emperor Kongyuan.

"Boundary Lord."

Emperor Kongyuan nodded slightly.

It is different from the Sea of Chaos.

In the nine heavens and ten lands of the Chaos Sea, more than twenty eternal emperors each control a domain.

The eternal emperor of each realm is just a cooperative relationship.

There is no real unity.

But in Mingxuan world.

Emperor Kongyuan is the only one who controls the entire chaotic universe.

Even eternal monks who belong to the same realm must be respectfully addressed as realm masters.

Look at the person coming in front of you.

Wan Kongyuan asked calmly.

"Jingming, nothing happened outside, right?"

The person who flew down just now is called Liu Jingming.

He is also an eternal monk in the Mingxuan world.

In order to be able to safely mine the red gold sacred sand in the secret realm.

Wan Kongyuan mobilized many eternal emperors from Mingxuan Realm.

Liu Jingming is one of them.

He looked at Wan Kongyuan in front of him and responded respectfully.

"Boundary Lord, please rest assured."

"We have already arranged a formation to completely cover the entrance to the vortex outside."

"Even if someone gets close, they won't be able to discover the existence of the secret realm."

"not to mention."

"We are still far away and have deployed a large number of warning formations."

"Whenever someone appears nearby, we will notice it immediately."

Wan Kongyuan nodded gently.

But he still said it with a solemn expression.

"Don't be careless."

"When we first came here, there was a God King monk hiding nearby."

"It's just that he was not captured by us because of the power of the talisman."

"Although that person has already left."

"But we don't know which world that person comes from."

"If it's a god-king monk from the three holy realms, then we might be in big trouble."

"Wait for him to send the news back."

"I guess those three invincible supreme beings won't be able to sit still either."

Speaking of which.

Wan Kongyuan paused for a while.

Then he looked at Liu Jingming in front of him and said solemnly.

"Be sure to be careful and vigilant."

"Once we find that the situation is not stable, we should make early plans."

"Yes, Realm Lord."

Liu Jingming responded respectfully, then turned around and flew towards the outside of the vortex.

Although they have already taken various precautionary measures.

But the formation is dead, but the people are alive.

If no one is watching outside.

In case others bypass the warning formation, they will knock on the door directly.

Wouldn't it be nonsense to block them all in a secret realm?

To know.

In order to mine red gold sacred sand.

Wan Kongyuan has mobilized nearly half of the God King monks in Mingxuan Realm.

The Eternal Emperor has more than half.

If something happens to all of them.

Then the entire Mingxuan world may be over.

It is precisely because of this.

Only Wan Kongyuan would let Liu Jingming, the powerful eternal monk.

Like an ordinary sentry, stand guard outside the vortex.

And every once in a while, you have to enter the secret realm to report on the situation outside.

Make sure nothing goes wrong.

...

In the vast river.

A huge chaos boat quickly sailed through the void.

Zhang Yuhe stood at the front of the Chaos Boat, constantly pinching the magic formula in his hand.

Layers of invisible fluctuations.

With the Chaos Boat as the center, it quickly spreads towards the distance.

Just at this time.

Zhang Yuhe suddenly shouted loudly.

"Stop."

The master of the Desert Court waved his sleeves.

The Chaos Boat turned into a shadow and slowly merged into the void.

It was as if it had never appeared before.

The Chaos Boat owned by the Desert Master is not only extremely fast.

And it also has extraordinary concealment properties.

I heard Zhang Yuhe shouting loudly.

The Master of the Desert Academy immediately stopped and at the same time activated the concealment formation on the sky boat.

He looked around vigilantly, but found nothing unusual.

despite this.

The master of the desert courtyard still did not take it lightly.

He turned to look at Zhang Yuhe and asked solemnly.

"Fellow Daoist Zhang, what did you find?"

The Master of the Desert Courtyard knows.

Zhang Yuhe used the magical power of Wave Dao to explore a huge area.

Far from comparable to his own divine consciousness.

As far as investigative methods are concerned.

I'm afraid the entire Three Holy Heavens region.

There are not many people who can compare to Zhang Yuhe.

Even those invincible supreme beings.

It is estimated that it is not as good as it is.

Zhang Yuhe's eyes were slightly closed, and he slowly activated his magical power.

After repeated confirmation.

He said solemnly.

"There seems to be someone in the distance."

...

Chapter 805 Nangong Desert, is that you?

Hearing Zhang Yuhe's words.

The Master of the Desert Academy frowned slightly.

He turned to look at Du Mingjiu behind him and asked with a somewhat puzzled expression.

"Mingjiu, how far is it from the secret realm now?"

Du Mingjiu took out the map and calculated silently for a while.

Section 1148

Then he responded respectfully.

"Master, is it still about half a day away?"

"Half a day..."

"The cultivators of Mingxuan Realm should not put the cordon so far away."

The Master of Desert muttered to himself silently.

At the speed of the Chaos Boat, it still takes half a day to fly.

It can be seen that this place is still far away from the secret realm.

No matter how vigilant the people of Mingxuan Realm are.

It is impossible to set up such a large cordon.

Thinking of this.

The Master of Desert turned to look at Zhang Yuhe and asked solemnly.

"Fellow Daoist Zhang, can you identify the other party's identity?"

Zhang Yuhe shook his head and responded slowly.

"The distance is too far, and the induction sent back by the wave magic is not very clear."

"I can't tell who the other party is."

"But judging from the breath, it should be an eternal realm."

The Master of Desert felt a little nervous.

If Zhang Yuhe's induction is not wrong.

Then it must be a cultivator from Mingxuan Realm.

The reason is very simple.

The Chaos River is vast and boundless, and the chance of accidentally encountering an Eternal cultivator is almost zero.

In a remote place like this.

It shouldn't be the presence of other cultivators.

Not to mention the Eternal Realm.

You know.

In an area as large as the Three Holy Heavens, there are a number of Eternal cultivators.

There won't be too many.

Since Zhang Yuhe sensed the breath of an Eternal cultivator.

Then there is no doubt.

It must be someone from Mingxuan Realm.

Thinking of this.

The Desert Dean asked solemnly.

"Fellow Daoist Zhang, can you avoid the other party's position?"

"Yes."

Zhang Yuhe nodded and responded seriously.

Immediately afterwards.

He stretched out his hand on the map and circled a location.

Then he said lightly.

"The other party is here, we just need to stay away from it."

"Okay."

The Desert Dean did not say anything.

He quickly turned around and flew to the side in the Chaos Boat.

Now there is still a long distance from the entrance of the secret realm.

He doesn't want to be discovered by the people of Mingxuan Realm so soon.

It would be best to launch a surprise attack and block all the opponents in the secret realm.

The Chaos Boat crossed the void and flew quickly forward.

However, after a while.

Zhang Yuhe frowned slightly, and he whispered to the head of the Desert Academy.

"It seems something is wrong."

"The position of that person has been moving."

"If we continue to move forward, we may collide with him soon."

After saying this.

Zhang Yuhe stretched out his hand on the map and drew a long arc.

Then explained.

"This is the opponent's movement trajectory. It feels like that person is circling us."

Looking at the arc drawn by Zhang Yuhe.

The head of the Desert Academy has not spoken yet.

Du Mingjiu next to him couldn't help but exclaimed.

"I understand."

"The other party is patrolling and guarding with the entrance of the secret realm as the center."

After saying this.

He stretched out his hand and tapped the center of the arc.

Then explained to everyone.

"This is the entrance to the secret realm."

"The other party is circling around the entrance, obviously on guard, worried that someone is approaching the secret realm."

After listening to Du Mingjiu's narration, everyone fell into silence.

What should we do now?

Should we rush up and do it directly, or continue to approach secretly?

Zhang Yuhe looked at the Desert Dean and asked slowly.

"Dean, what should we do now?"

"Or should we just get rid of this eternal cultivator who is on guard outside first."

The Desert Dean was a little entangled.

Of course he knew.

If he could get rid of the other party's eternal realm in advance.

That would definitely be a good thing.

I'm just afraid that it won't be done in a short time.

Eternal cultivators are not so easy to kill.

As long as they start.

Other Mingxuan Realm cultivators in the secret realm will definitely rush out immediately.

This also includes Wan Kongyuan, the top eternal emperor.

According to the previous idea of the Desert Dean.

He originally planned to.

Block all the opponents in the secret realm, and then kill them slowly.

The same way.

Not only can we kill all the cultivators from Mingxuan Realm who came out this time.

But we can also keep the secret of the mineral vein.

Otherwise.

Once some cultivators from Mingxuan Realm escape, they will definitely spread the news everywhere.

They probably can't think of mining the red gold sand safely in the secret realm.

But now the other party has set up the cordon so far.

And this is just what Zhang Yuhe found.

Maybe.

The other party has other hidden means of warning.

It seems impossible for them to continue to approach the entrance of the secret realm in secret.

Thinking of this.

The head of the Desert Academy no longer hesitated.

He said decisively.

"No matter what, let's kill the one on the outer guard first."

Since we can't avoid it, we can only try to kill the other party first.

The head of the Desert Academy looked at Zhang Yuhe and spoke slowly.

Section 1149

"Fellow Daoist Zhang, come and guide me."

"We are slowly touching it, hoping to reach it before Wan Kongyuan arrives."

"Get rid of this opponent first, the Eternal Realm."

Zhang Yuhe nodded and said nothing more.

Now he can clearly sense the aura of the eternal monk.

In his opinion.

This person's strength is not too strong.

Compared to Lu Yuan back then, that was far inferior.

Zhang Yuhe estimated.

If there is a sneak attack.

He doesn't need to activate the Hunyuan Guiyi magical power at all, nor does he need to use the Gods and Demons Killing Heaven Sword.

This person can be dealt with.

...

Liu Jingming flew back and forth around the entrance to the secret realm.

At the same time, vigilantly check the surrounding situation.

Although in his opinion.

In such a secret place, the possibility of encountering other monks is not high.

But thinking about Emperor Kongyuan's instructions.

Liu Jingming did not dare to be careless.

Still patrolling back and forth responsibly.

He didn't know.

At this time, the Master of the Desert Academy and Zhang Yuhe had already locked onto his figure.

With preparations for a thunderous strike.

The Chaos Boat is hidden in the void.

The head of the Desert Academy looked at Zhang Yuhe and said solemnly.

"Fellow Daoist Zhang, this time it's up to you."

Zhang Yuhe responded calmly.

"Don't worry, he can't run away."

After saying this.

Zhang Yuhe jumped off the Chaos Boat and quietly touched Liu Jingming in the distance.

The Desert Master followed closely behind.

According to the tactics they just discussed.

Wait until Zhang Yuhe quietly unfolds the sword array and traps the opponent.

The two of them attack together again.

Try to beat the opponent to death in one wave, without giving Emperor Kongyuan a chance to rescue him.

It's best before Emperor Kongyuan reacts.

They can take care of this eternal monk.

Then all the other Mingxuan Realm monks were blocked in the secret realm.

Liu Jingming flew around the entrance to the secret realm.

Just at this time.

He stopped suddenly.

I saw a huge sword energy light curtain rising quickly in the distance.

The light curtain enveloped all directions, completely encircling him.

"not good."

See this situation.

Liu Jingming took out the token and quickly cast a spell.

shouted at the same time.

"Boundary Lord, there is a sneak attack."

Before he could finish his words.

I saw boundless sword energy sweeping in quickly.

The terrifying sword energy carried huge pressure, making Liu Jingming suffocate.

at the same time.

The shadow of a huge millstone quietly appeared in the void.

The power of the millstone shrouded all directions, almost imprisoning him in place.

Liu Jingming quickly sacrificed a three-legged tripod.

Follow the magic formula and pinch it.

The tripod quickly floated overhead, casting a faint light.

All the invisible sword energy that swept in from the outside was blocked.

But before he could breathe a sigh of relief.

I saw a vast figure rushing straight through the sword energy light curtain.

See this situation.

Liu Jingming couldn't help but exclaimed loudly.

"Nangong Damo, is that you?"

...

Chapter 806 The real war is yet to come

Liu Jingming couldn't help but be frightened when he saw the master of the desert courtyard appear.

The master of the desert courtyard is not an ordinary person.

Look at the entire Three Holy Heavens area.

There are simply countless Eternal Emperors who are stronger than him.

The strength of the Master of the Desert is even worse than that of Emperor Kongyuan.

That's certainly not much different.

Faced with such a ruthless person who was suddenly killed.

Can Liu Jingming not panic?

not to mention.

The master of the desert courtyard is obviously not alone.

The terrifying sword array on the periphery, and the terrifying millstone shadow in the sky.

All explained.

The Master of the Desert Courtyard came prepared.

Maybe most of the more than twenty Eternal Emperors in the Chaos Sea have come to kill them.

Think of this.

Liu Jingming was completely panicked.

He frantically moved the tripod on his head.

The majestic aura of divine power poured into the tripod as if it was free of money.

This is an eternal artifact.

It is also Liu Jingming, the only eternal artifact.

Xuan Yue Ming Kong Ding.

This eternal artifact has a single function and almost no attack power.

It is a pure defensive artifact.

It is precisely because of this.

The defensive effect of Xuanyue Mingkong Cauldron is indeed surprisingly strong.

Otherwise.

Liu Jingming couldn't rely on the light shed by the Xuanyue Cauldron.

Zhang Yuhe's sword array and the power of the millstone were all blocked out.

despite this.

Liu Jingming still didn't dare to be careless in his heart.

he knows.

The Master of the Desert Academy is not comparable to the ordinary Eternal Emperor.

Without being able to fight back.

But with the Xuanyue Cauldron's defense, he definitely wouldn't be able to defend it for long.

Section 1150

Liu Jingming crazily activated his divine power.

He could only pray that Emperor Kongyuan's support would come quickly.

After all, it's not too far away from the entrance to the secret realm.

And he has already sent an emergency warning to Emperor Kongyuan.

Presumably at this time.

Emperor Kongyuan should be on the way already.

He just needs to hold on for a while longer.

Wait until Emperor Kongyuan arrives.

Then you don't have to worry anymore.

As a monk in the Mingxuan world.

They all have a kind of mysterious confidence in Emperor Kongyuan.

Everyone believes it.

The Realm Lord is omnipotent.

As long as the Realm Lord takes action, any crisis can be easily resolved.

After all, when he faced Paulin Supreme.

Even Emperor Kongyuan was able to stop it on his own.

Ordinary eternal monks can't even take two moves in front of Emperor Kongyuan.

Liu Jingming activated the Xuanyue Cauldron and firmly guarded the surrounding areas.

He only had one idea at this time.

That's drag.

Drag it until it's far away.

Liu Jingming believes it.

He should be able to hold on for a while against the Xuanyue Cauldron's defense.

Zhang Yuhe stood tall in the sky and quickly touched the magic formula with his hand.

He activated the sword formation and the Chaos Returning Magical Power to suppress Liu Jingming.

As for any more actions, he didn't do any more.

Zhang Yuhe neither activated the magical power of Hunyuan Guiyi nor used the Gods and Demons Killing Heaven Sword.

Not necessary at the moment.

Liu Jingming is just an ordinary eternal monk.

If it weren't for the support of the defensive eternal artifact.

A single sweep of sword energy just now would have beaten him to half a pulp.

Although Liu Jingming relied on the Xuanyue Cauldron to temporarily block out the sword energy and the magical power of the millstone.

But Zhang Yuhe was not worried.

He is not alone.

There is also the Master of the Desert Courtyard next to him.

He wanted to see it too.

How powerful is this legendary master of the courtyard with his magical powers?

Nangong Damo passed through the sword array light curtain, and a long stick covered in golden light suddenly appeared in his hand.

When the long golden stick appeared, the surrounding void seemed to become a little heavier.

Wutu shakes the sky stick.

This is Nangong Desert's natal artifact, and it is also the top eternal artifact.

This accounts for more than half of Nangong Desert's huge reputation.

They were all beaten with this Wutu Heaven-Shaking Stick.

At this time, he was holding a long stick in his hand, staring at Liu Jingming in the distance and rushing towards him.

When close to a certain distance.

Nangong Damo waved his long stick, and the shadow of the stick shone in the sky, shrouding Liu Jingming down.

Boom...

The heavy stick shadow bombarded the Xuanyue Cauldron, causing a loud noise that shook the sky.

Even if Liu Jingming used his divine power crazily, he still couldn't control it anymore.

The Xuanyue Cauldron, a top defensive eternal artifact, was blown away in an instant.

There is no protection from the Xuanyue Cauldron.

Liu Jingming's whole body was completely open, facing the golden stick shadow that filled the sky.

He didn't have time to react at all.

It was directly blasted into ashes.

Zhang Yuhe took action and went to Nangong Desert to beat Liu Jingming to death with a stick.

The whole process takes only a few moments.

A powerful eternal monk fell silently.

Although Liu Jingming is okay, he is resurrected in the world of his own evolution.

But wait until he returns to the eternal realm.

Don't even know how long it will take.

Looking at Nangong Damo, that domineering and unparalleled stick shadow.

Zhang Yuhe couldn't help but be amazed.

Could it be that Nangong Desert could achieve such a great reputation in the long river of chaos?

With the shadow of a stick holding up the sky, not many people can stop it.

Of course.

The reason why Nangong Damo was able to beat Liu Jingming to death so easily.

Mainly because Zhang Yuhe upgraded and deployed the sword formation, trapping the opponent in place and unable to move at all.

So facing Nangong Damo's stick shadow, he simply couldn't dodge and escape.

Just hold up your defense and carry it on.

It is equivalent to a dead target.

And Nangong Damo's Wutu Heaven-Shaking Stick is just the weapon to attack the enemy.

It couldn't be easier to hit such a dead target.

Nangong Damo rolled up his sleeves and put away the items scattered on the ground.

Then he shouted loudly towards Zhang Yuhe.

"Let's go, let's rush to the entrance of the secret realm as soon as possible."

"I hope we can block all the other parties in the secret realm."

After saying this.

Nangong Desert rose into the sky and flew quickly into the distance.

Although it was solved easily, the other party was an eternal monk.

But Nangong Dasho didn't feel any pride in his heart.

he knows.

Most of the credit for this must be attributed to Zhang Yuhe's terrifying sword formation.

If there is no suppression by the sword formation.

Liu Jingming would not stand there blankly like a fool and let him beat him.

The other party only needs to go around in a few circles at will.

I guess there is nothing I can do about it.

If an eternal monk wants to escape.

Nangong Damo has no confidence that he can keep the other party.

Zhang Yuhe and Nangong Damo activated their movements and rushed towards the entrance of the secret realm.

behind them.

More than three hundred nine-step god kings of the Desert Court also quickly formed their formations.

A wide blockade was opened outside the entrance to the secret realm.

Although he was killed, the other party was an eternal monk.

But everyone knows it.

The real war is yet to come.

Even if half of the nine eternal emperors of Mingxuan Realm stay in this realm.

There are at least four or five Eternal Realms that can be mobilized.

And this one.

There is also Emperor Kongyuan, the top existence.

The next battle will definitely not be so easy.
