Section 115

Three of the twelve demon guards have been killed by him.

It would be strange if Mo Yuetian didn't go crazy now.

We really need to run away quickly.

Feng Xiaotian rolled up his sleeves and took Zhang Yuhe to the teleportation hall of Dingzhou City.

The aftermath of the previous battle destroyed most of the buildings in the city.

Fortunately, there was an elder of the Daosheng Sect guarding the teleportation hall.

It didn't suffer too much impact.

The two of them landed on the teleportation array, and Feng Xiaotian turned around and said to the guarding elder.

"Immediately evacuate all the cultivators in Dingzhou City, and the Mahayana demons will arrive soon."

"Yes, Sect Master."

After Feng Xiaotian finished speaking, he immediately activated the teleportation array and teleported to the Demon Suppression City.

After arriving at the Demon Suppression City, Zhang Yuhe's tense nerves finally relaxed.

Finally safe.

The Demon Suppression City gathered most of the power of the entire Yu Fantian.

After this period of hard work, the Demon Suppression City has begun to take shape.

Most of the defensive formations in the city have been arranged.

Even if the demons came at this time, they would not get any good results.

Not to mention, the demons are still hundreds of millions of miles away from here.

It is impossible for them to come here in a short time.

Feng Xiaotian took him to a mountain in the north of the city.

"Junior brother, take good care of yourself first, I will come to see you in a few days."

"Thank you, Sect Master."

Zhang Yuhe bowed his hands to thank him.

He could see that Feng Xiaotian really cared about him.

If Feng Xiaotian hadn't arrived in time this time, it would have been difficult for him to escape.

Wang Guofeng sent a message just now.

There are already two demons in the Mahayana realm, not far from Dingzhou City.

If Feng Xiaotian hadn't taken him away.

In his state at that time, I'm afraid he wouldn't even be able to run to the teleportation hall in Dingzhou City.

Of course.

As long as he was not targeted by the demons on the spot, he still had a way to get away.

He had the ultimate escape skill of the player.

The method of going offline.

As long as he chose to go offline, the demons would naturally be unable to do anything to him.

There are certain restrictions for logging off through the game system.

That is, you cannot be in combat mode, and there is a one-minute countdown time for logging off.

In other words, as long as no one is watching you and you are in a relatively safe position.

He can log off and leave.

Chapter 108: Divine Powers and the Ninth-grade Spiritual Essence

Zhang Yuhe walked into the cave and sat cross-legged on the practice platform.

After opening the Five Elements Gathering Spirit Array, he slowly circulated the Hunyuan Heavenly Scripture.

The surrounding spiritual energy swarmed and gathered.

The originally dry Dantian sea began to slowly have a trickle of water.

Three days later.

Zhang Yuhe exhaled lightly and slowly stood up from the practice platform.

"Finally recovered."

In more than a thousand years of cultivation, this is the first time that he has exhausted his magic power.

The feeling of weakness all over his body is really uncomfortable.

Fortunately, everything is over now.

"Let's take a look at the harvest first."

Zhang Yuhe came to a hall in the cave.

He took out all the storage equipment he had recently seized and checked them one by one.

After two or three days of hard work, he finally sorted out the items.

The majority of them were magic crystals and various magic weapons.

There were so many that he felt dizzy.

Unfortunately, these things were of little use to him, so he put them aside for the time being.

There were also countless jade slips of various magic skills of the demon race.

The main reason was that the number of demons he killed was indeed a bit too many.

And there were three demons in the Mahayana realm among them, and these people were all very rich.

He definitely couldn't use the skills.

Zhang Yuhe had no intention of switching to the path of magic.

But those jade slips of magic skills could be kept for now.

When he deduced the magic skills in the future, these jade slips of magic skills of the demon race could serve as a reference.

In addition to these, the various materials seized were even more numerous.

From the most rubbish first-level spiritual herbs and materials to the ninth-level spiritual herbs and materials, they were completely countless.

Zhang Yuhe made an estimate.

Just those ninth-level spiritual materials are enough to refine more than twenty high-grade Tongtian Lingbao-level lightning-absorbing pillars.

Ever since he was promoted to the Mahayana realm.

He has been making plans for the future great heavenly tribulation.

The most important part is to increase the power of the Renshui lightning-absorbing array.

However, it is really difficult to replace all the lightning-absorbing pillars with high-grade Tongtian Lingbao.

The key is that there are not so many high-level materials.

Now that the demons are invading, Zhang Yuhe sees hope.

So many demons are all his money-giving boys.

As long as the invading demons are killed.

Then the materials for the lightning-absorbing pillars will be there, right?

If it is not enough, he can still go to the demon world at that time.

With the resources of the demon world, let alone 108 high-grade Tongtian Lingbao-level lightning-absorbing pillars.

Even if there are 1,000 of them, it is not a problem.

After killing Wu Tian, Zhang Yuhe is now full of confidence.

Since he could kill Wu Tian, he could also kill Mo Yuetian.

It was nothing more than waiting for another hundred years.

Wait until Hunyuan returns to oneness and cools down.

Then he would find an opportunity to go out and kill Mo Yuetian.

The rest of the demons could only wait for him to harvest them.

While looking forward to a bright future, Zhang Yuhe took out a jade slip.

This was the magical jade slip found in Zhao Mingyue's storage bracelet.

Transform into thousands of magical powers.

After Zhang Yuhe carefully checked the content, he could not help but be amazed.

This is really an incredible magical power.

According to the description on the jade slip.

This magical power can create up to 3,000 incarnations.

These incarnations not only look like real people, but also have independent thinking.

It can be said that each incarnation is a new life form.

It can act independently without the control of the original body.

And the incarnation does not need to practice.

As long as the original body's cultivation level improves, the incarnation's strength will also improve.

However, the incarnation's strength is two realms lower than that of the original body.
