Section 1161

When the golden giant sword slashed down, that was when he fell.

Wan Kongyuan held a gun in his right hand and quickly used the magic formula with his left hand.

Five square tripods appeared in a flash, spinning rapidly around him.

The dazzling light covered the sky and blocked out the sun.

The five giant cauldrons have different brilliance, but they are cleverly integrated into one.

A tight defensive formation was formed, firmly guarding Wan Kongyuan.

The Five Elements Royal World Cauldron.

This is a complete set of eternal-level defensive artifacts.

Under the condition of full force.

He can withstand even a few attacks from the Invincible Supreme.

When he saw the giant sword flying across the sky, Wan Kongwan reacted almost instantly.

He quickly used the Five Elements Royal World Cauldron.

Arrange layers of solid defensive brilliance around yourself.

despite this.

Wan Kongyuan is still a little worried.

He clenched the spear in his hand and stared at the dazzling giant sword in the sky.

Be prepared to respond at any time.

Zhang Yuhe stands tall in the sky.

I saw him waving his right hand and shouting softly.

"Gods and demons kill the sky, kill them."

The golden giant sword burst out with dazzling brilliance, and the terrifying power enveloped all directions.

The vast void around him instantly fell into deathly silence.

It seemed that except for the dazzling sword light, there was nothing else in the thousands of miles of void.

The golden sword light flashed away.

The sword light seemed to span time and space and struck in front of Wan Kongyuan in an instant.

Wan Kongyuan looked solemn.

He quickly waved his spear and faced the shining sword light directly.

Boom...

The huge sound shook the world.

The terrifying divine power of the golden sword light directly shook the world-fixing spear in Wan Kongyuan's hand without a trace.

The sword light remained unabated and struck at the rapidly rotating Five Elements Royal World Cauldron.

Boom...

As a more terrifying loud noise spread.

The defensive brilliance supported by the Five Elements Royal World Cauldron was instantly shattered.

The remaining power of the sword light struck Wan Kongyuan directly.

Phew...

Wan Kongyuan vomited blood and quickly flew backwards.

Zhang Yuhe only used one sword.

Not only did it knock away the spear in Wan Kongyuan's hand.

Moreover, his proud defense was directly smashed into pieces.

This is still Wan Kongyuan's quick response.

When he saw the sword light shining, he opened his defense early.

Otherwise.

That sword strike just now.

It could kill him directly.

The defense of the Five Elements Royal World Cauldron is indeed extremely extraordinary.

After Zhang Yuhe activated the magical power of Hunyuan Guiyi.

At this time, his cultivation aura was already at the peak of the Eternal Realm.

With such strength, he activated the God-Demon Heaven-Slaying Sword Formation again.

It can almost be said that it is unrivaled.

Even those ethereal invincible supreme beings probably wouldn't dare to take it head on.

Wan Kongyuan was struck by a sword, but he was still alive.

have to say.

This man does have two skills.

Indeed.

A ruthless man who once stood up to the invincible Supreme Being.

However, no matter how ruthless Wan Kongyuan was, he now met Zhang Yuhe.

That is also in vain.

He is destined to perish today.

Destiny is irreversible.

Wan Kongyuan flew back hundreds of millions of miles in a row, and then slowly stabilized his figure.

He looked at Zhang Yuhe in the distance, and the shock in his heart was beyond words.

"how can that be possible."

"How could there be such terrifying divine power?"

He just couldn't imagine it.

This is the divine power displayed by a nine-step divine king after an explosion.

Even back then.

When he encountered Paulin Supreme, it was nothing more than this at best.

Although he was guarding the entrance to the Changhe River in Mingxuan Realm back then.

There is the source suppression of Mingxuan Realm.

Paulin Supreme cannot fully display his strength.

But even so.

That's still too scary.

How could a nine-step god king exert such terrifying power?

Wan Kongyuan is completely unimaginable.

He now has some doubts about his previous judgment.

is not wrong.

Is Zhang Yuhe really just the Nine-step God King?

Can the Nine-step God King be so scary?

Even in those holy places of practice.

Those peerless geniuses in the Dao League would never be this strong.

The God King rebels against eternity, and his strength is close to that of the invincible Supreme One.

This is simply not possible.

"He must be hiding his strength."

"Maybe it's a pseudo-sovereign from outside."

"Leave quickly."

Think of this.

Wan Kongyuan took a deep breath.

He took a deep look at Zhang Yuhe in the distance.

Then he jumped into the sky and flew quickly towards the distance without looking back.

I saw a figure fleeing from the distance far away.

Zhang Yuhe said calmly.

"I told you, you can't leave today."

"Leave me here."

Chapter 814 A complete death

After being severely injured by Zhang Yuhe's sword, God Zhu Tian.

Wan Kongyuan never dared to stay again.

He turned around and flew towards the void in the distance.

He even has some doubts now.

Section 1162

Zhang Yuhe may be disguised as the invincible supreme being from the outside world.

Otherwise.

How could a nine-step god king be so strong?

That sword blow just now caused him so much damage.

Even better than when he fought against Paulin Supreme.

Both are much heavier.

Just a sword.

And this is still under the circumstances of his full defense.

He could be beaten so seriously.

If you still treat Zhang Yuhe as the Nine-step God King.

Then he is a fool.

If.

Zhang Yuhe himself is an invincible supreme being.

That makes perfect sense.

Think of this.

Wan Kongyuan didn't dare to stay for a moment.

He quickly turned around and flew towards the distance without looking back.

He couldn't afford to offend the Invincible Supreme.

Zhang Yuhe stands tall in the sky.

Looking at the direction Wan Kong was fleeing, he didn't stop there.

Now that a grudge has been made, he must be killed directly.

A powerful enemy like Wan Kongyuan must not be left alone.

Although for Zhang Yuhe himself.

Wan Kongyuan is no longer a threat.

But he is not alone.

Behind him is Donghua Palace and the entire Chaos Sea.

The monk walked out of the cosmic world and walked behind the long river of chaos.

He no longer represents himself alone.

But the entire universe.

If you let Wan Kongyuan leave today.

Then from now on, monks from the Chaos Sea will walk in the long river.

It would be very dangerous.

Once being targeted by Wan Kongyuan.

Except for a few powerful Eternal Emperors, they can also protect themselves.

Others are almost dead.

Zhang Yuhe didn't want to implicate others because of his temporary weakness.

Wan Kongyuan must die.

No reason.

Unless this person dies, he will not feel at ease.

Think of this.

Zhang Yuhe's expression moved slightly.

A vast figure suddenly appeared in the void in the distance.

This figure is almost exactly the same as Zhang Yuhe, both in appearance and aura.

This is exactly one of his clones.

Just in case.

When Zhang Yuhe came out, he specially brought eight clones with him.

In addition to leaving a clone behind, hiding in the Sea of Chaos, as the last life-saving trump card.

It can be said that Zhang Yuhe went out with all his strength this time.

The clone stands tall in the sky.

The nine divine swords appeared in a flash and quickly merged into one.

Forming a terrifying golden giant sword.

Wan Kongyuan ran all the way.

Just at this time.

He suddenly sensed that a great power was coming towards him quickly.

Wan Kongyuan looked back.

When he saw the giant sword crossing the sky, he was completely stunned.

How is this going.

Why are there two identical Zhang Yuhes.

And he still uses the same magical power.

The golden sword light seemed to be the god of death seeking life.

Leave him nowhere to escape.

Wan Kongyuan knew.

If he couldn't survive this wave, he wouldn't even think about running away.

Because the sword light was too fast.

It's so fast that it seems possible, ignoring time and space.

No matter how hard he activated his movements, he couldn't move faster than that terrifying sword light.

Think of this.

Wan Kongyuan took a deep breath.

He held the spear tightly in his hand and used the Five Elements Royal World Cauldron again.

When he was escaping just now, he had already taken back these two eternal artifacts.

After the artifact is refined by the monks, it becomes closely related to its own life.

As long as it doesn't completely fall, or the artifact is suppressed by others.

They can recall their artifacts at any time.

Wan Kongyuan had just prepared his defense.

The golden giant sword had crossed the void and struck in front of him quickly.

Boom...

The loud noise that shook the sky spread again.

The terrifying aftermath of shock swept across the entire void in an instant.

Nangong Damo and a group of God King monks quickly retreated.

Everyone looked at the indifferent and delicate figure in the distance.

I couldn't help but be amazed in my heart.

They all know it.

Zhang Yuhe is very strong.

Very strong.

But no one ever thought about it.

Zhang Yuhe could actually be so strong.

Wan Kongyuan was seriously injured with one sword strike.

To know.

The current Wan Kongyuan is blessed by the power of the world.

The strength is far from comparable to ordinary times.

But even so.

He still couldn't stop Zhang Yuhe's sword.

What kind of strength is this?

Nangong Damo ordered himself.

Those invincible supreme beings are probably nothing more than this.

At least in terms of offensive power.

Now Zhang Yuhe is completely comparable to the Invincible Supreme.

He has seen the Supreme take action.

Even long ago.

Supreme Bolin also once had the idea of Chaos Sea.

Section 1163

Back then, Nangong Damu fought against the Eternal Emperors of Chaos Sea.

He had a great battle with Supreme Bolin at the Zhenshi Tianguan.

In his impression.

Supreme Bolin's attack power was not even as strong as Zhang Yuhe's now.

Of course.

That was because of the suppression of the Chaos Sea Origin.

Supreme Bolin's strength could not be fully exerted.

But even so.

Nangong Damu still felt.

At this time, Zhang Yuhe was no less powerful than the Invincible Supreme in terms of attack power.

Puff...

Wan Kongyuan vomited blood again and fled quickly to the distance.

This time he was more seriously injured.

Although relying on the spear in his hand and the defense of the Five Elements Yushi Ding.

It had greatly weakened the terrifying power of the God and Demon Zhutian Sword.

But after the sword light passed through all the defenses.

The remaining power still beat him into a sieve.

At this time, there was no intact place on Wan Kongyuan's body.

The terrifying sword light pierced through him countless times.

The terrifying Dao Yun rules were still tearing the wound.

Despite this.

Wan Kongyuan did not dare to stop, even for a moment.

He knew.

He had to run quickly.

Only by running back to Mingxuan Realm could he survive.

As for the injuries on his body?

He could not take care of them for the time being.

The Eternal Monk has a strong vitality.

Unless the soul dissipates, or the world is destroyed.

Otherwise.

They will not die.

No matter how serious the injury is, there is a chance to recover.

Wan Kongyuan dragged the heavy injury and ran madly to the distance.

At this time.

A dazzling sword light flashed from a distance.

The sword light crossed the void and slashed down towards Wan Kongyuan.

"Come again."

Wan Kongyuan was almost desperate.

Is it going to end?

Why can such a terrible magical power be used continuously?

This is too unreasonable.

Even those pseudo-supremes were not so exaggerated.

Wan Kongyuan held his breath.

He once again activated the Five Elements Cauldron and the Dingshi Spear, and faced the life-threatening sword light with difficulty.

Boom...

With a deafening roar.

Wan Kongyuan's figure was directly torn into pieces by the sword light.

A miniature Nascent Soul flashed through the terrifying aftermath.

In the arms of the Nascent Soul, it seemed that there was still a vast world.

Facing the golden giant sword and the terrible divine power.

Wan Kongyuan decisively abandoned his body.

He embraced his own world with the Nascent Soul, burning the power of his soul crazily.

He ran quickly into the distance.

He had to take the world away.

As long as the world was still there.

He would be immortal forever.

"Huh, can you escape?"

Zhang Yuhe snorted coldly.

The golden sword light flashed again.

The sword light seemed to have crossed time and space, and instantly split Wan Kongyuan's Nascent Soul into ashes.

The world was destroyed.

Those living beings in the world also disappeared in an instant.

Wan Kongyuan died.

He died completely.

His Nascent Soul was shattered, and his soul dissipated.

Even the world he evolved was destroyed.

He didn't even have a chance to be resurrected again.

From then on.

There was no such person as Emperor Kongyuan in this world.

...

Chapter 815 Did the Realm Master Really Fall?

As the world was destroyed, a generation of Eternal Emperors fell.

Zhang Yuhe stood in the sky.

He waved his hand to collect the scattered items around him one by one.

As an existence that dominated a world.

Wan Kongyuan's wealth was far beyond the reach of ordinary eternal cultivators.

Zhang Yuhe took a rough look.

In addition to the Dingshi Spear and the Five Elements Cauldron.

Wan Kongyuan actually carried two eternal artifacts.

They were a knife and an axe.

Because when Wan Kongyuan escaped at the last moment, he only had a defenseless Nascent Soul.

Zhang Yuhe deliberately controlled the attack power of the God and Demon Sword.

Therefore, most of the items on Wan Kongyuan's body were preserved.

In addition to those eternal artifacts, there are countless artifacts of various levels.

As for various rare natural treasures and top-level refining materials.

Zhang Yuhe also found a lot.

Just the divine flowers that assist the true god cultivators to break through the bottleneck of the God King.

He found six of them.

Now the disciples of Donghua Palace are blessed.

In the future, as long as there are disciples of Donghua Palace who break through to the perfection of the true god realm.

And after pushing the power of rules to the realm of great success.

They can use these divine flowers to directly impact the bottleneck of the God King.

What surprised Zhang Yuhe even more was.

He found a storage bracelet among the items left by Wan Kongyuan.

It was filled with a large amount of red gold divine sand, as much as two or three thousand square meters.

Zhang Yuhe was full of joy and put away all kinds of items.

A wave of fat.

After killing Wan Kongyuan, he became rich instantly.

Perhaps now he is one of the richest people in the entire Chaos Sea.

Section 1164

Nangong Damo and others stood quietly in the distance.

Everyone has been completely stunned by Zhang Yuhe's terrifying power.

Wan Kongyuan, who had been in the Three Holy Heavens for endless years, actually died like this.

Even the world he evolved was destroyed by Zhang Yuhe's sword light.

A complete death.

The whole process seems to be without any suspense.

Zhang Yuhe only used four swords.

Then beat Wan Kongyuan to death.

This is no longer a cross-level challenge, a challenge to advance against the odds.

It's just crushing.

From the moment Zhang Yuhe started to counterattack, it was already a complete crushing game.

Facing the vast sword light.

Wan Kongyuan simply had no power to resist.

He only persisted for a moment before being struck to death by sword light.

Before that.

Nangong Dasho thought about many possibilities.

He once thought that there might be a fierce battle.

In order to repel Wan Kongyuan and others, and then grab the red gold sacred sand in the secret realm.

Especially when Wan Kongyuan summons the world.

Nangong Damo even thought that.

They may suffer a big loss this time.

However.

Wait until Zhang Yuhe takes action.

The result was completely beyond his expectation.

Including Wan Kongyuan.

All the Mingxuan Realm monks present were wiped out by Zhang Yuhe.

Except for Nangong Dasho himself.

This time, their Desert Courtyard was actually unscathed.

Others didn't even have a chance to take action.

Naturally it is impossible, there will be casualties.

That's when he started.

Wan Kongyuan suddenly broke out and swept away hundreds of millions of miles with one shot.

The injury was actually quite serious.

As for the group of nine-step god kings, not even a single hair was injured.

No shit.

"It seems like a great big shot is about to appear in our Chaos Sea."

Nangong Damo sighed silently.

In his opinion.

Zhang Yuhe's current strength is even inferior to those of the Invincible Supremes.

It's definitely not too far off.

Under the Supreme Being, it is even more incomparable.

Even a ruthless man like Wan Kongyuan couldn't stop Zhang Yuhe's swords.

If it were another Eternal Emperor, it would be even more unstoppable.

Nangong Damo ordered himself.

A terrifying sword light like the one just now.

He probably couldn't even catch two swords.

To know.

Zhang Yuhe is still only the Nine-step Divine King.

Once he successfully merges with the Tao, he will be promoted to the eternal realm.

Does it have to be powerful?

I'm afraid that's when that time comes.

A pseudo-supreme person like Paulin Supreme is probably no match for him.

Supreme.

Think of the near future.

A supreme combat power will be born from the Chaos Sea.

Nangong Damo couldn't help but feel a little excited.

He has never doubted whether Zhang Yuhe could succeed in joining the Tao in the future.

It's almost a no-brainer.

A peerless figure like Zhang Yuhe.

If they can't live together forever, it's simply unreasonable.

After Wan Kongyuan died.

The scene was silent, no one spoke.

They were already stunned.

Don't know what to say.

...

Zhang Yuhe's eyes scanned the void to make sure that no items were missing.

He flew over quickly.

He looked at Nangong Damo, smiled and said.

"Master, let's go take a look in the secret realm first."

"Hurry and get the remaining red gold sacred sand away."

"To prevent other incidents from happening again."

"Yes, let's go to the secret realm first."

Hearing Zhang Yuhe's words.

Nangong Damo suddenly woke up.

Although Wan Kongyuan is indeed completely dead.

But the death of Liu Jingming and others before was not complete.

They still have the world to rely on, and they are probably all resurrected at this moment.

Once Liu Jingming and others get the news that there are red gold veins in the secret realm.

If it is widely publicized.

I'm afraid they will be in a lot of trouble.

The monks from all around the world heard the news.

There will definitely be a swarm of people heading this way.

The whole vein of red gold sacred sand is attractive to the eternal monks.

Completely beyond imagination.

If ordinary monks come to cause trouble, it's not a big deal.

Zhang Yuhe is here.

They can kill as many as they come.

I'm afraid that the monks from the three holy realms will follow suit.

Although Zhang Yuhe is powerful.

But his true cultivation level is, after all, only the Nine-Step God King.

Facing those three supreme beings, at most they can only have the power to protect themselves.

It is obviously impossible to defeat or repel the three supreme beings.

So they have to hurry up.

Get rid of all the red gold sacred sand as soon as possible.

Fortunately it's remote enough.

Wait for others to receive the news and rush over.

They must have already left with the red gold sacred sand.

Everyone quickly rushed into the secret realm.

Seeing the stars all over the place, everyone's eyes couldn't help but shine.

This is red gold sacred sand, the top material for refining eternal artifacts.

Section 1165

Even just one and a half square meters of red gold divine sand is enough for the God King monks to struggle for countless years.

It's all over the place now.

They only need to use their magical powers to collect the red gold sacred sand on the ground.

No order from anyone.

Hundreds of nine-step god kings consciously dispersed throughout the secret realm.

Everyone worked hard to activate their magical powers to blow away the dust on the surface.

Then put away those shining red gold sacred sands.

Zhang Yuhe also summoned all eight clones.

The avatar and the main body each occupied one side and collected the grains of red gold sacred sand on the ground.

Although he had captured as much as two to three thousand square meters from Wan Kongyuan.

But for this kind of top-notch divine material for refining eternal artifacts.

No one can have too much.

...

The entrance to the Changhe River in Mingxuanjie.

A magnificent Guancheng stands quietly among them.

Tongtian Pass.

In the eyes of the monks from Mingxuan Realm.

As long as you can pass through this magnificent pass, you can go to the vast river and heaven.

This is a place that countless people yearn for.

To the north of Tongtian Pass, there is a magnificent hall.

In the main hall at this time.

Four eternal emperors with vast auras sat quietly on both sides.

But the strange thing is.

in the middle of them.

There are also four weak True Immortal cultivators among them.

Although there is a huge difference in strength between the eight people.

But they seemed to be on equal footing in the main hall.

There is no difference in status.

Everyone in the hall was dejected and there was silence.

It was as if they had just experienced something terrible.

After a long time.

An eternal emperor suddenly asked in a deep voice.

"Jing Ming, what happened?"

"Has the Realm Lord really fallen?"

...

Chapter 816 I don't know where the ruthless person came from

Liu Jingming looked gloomy.

He had just been resurrected from his own world, so he didn't know what had happened.

If not a long time ago.

Wan Kongyuan gave each of them a special teleportation talisman.

Now he is still trapped in his own world and cannot return to Mingxuan World at all.

After the Eternal Emperor succeeded in Hedao.

Generally, they hide the world they evolve in the void interlayer of the long river of chaos.

If you die unexpectedly, you can still be resurrected in the world.

But before restoring his cultivation level to the God King realm.

They had no choice but to get out of their own world.

Let alone return to Mingxuan Realm.

Now I heard my companion asking about Emperor Kongyuan.

Liu Jingming was speechless.

How could he know what happened next?

At the beginning.

He was beaten to death by Nangong Damo with a stick.

If not after coming back.

It was discovered that in the world of Mingxuan, Wan Kongyuan's regular Tao Yun dissipated.

He didn't even know that Wan Kongwan was already dead.

Liu Jingming originally thought that.

The invincible Lord of the Realm had already killed those monks from the Desert Academy and fled.

No idea.

Now this is the result.

Not only the fellow monks, but also all of them died inexplicably.

Even the Realm Lord has completely fallen.

There is not even a chance of resurrection.

Worse than them.

Think of this.

Liu Jingming said depressedly.

"do not ask me."

"I do not know anything."

"I was on guard duty at the perimeter."

"At the beginning, he was enveloped by an inexplicable sword formation, and then he was beaten to death by Nangong Damo with a stick."

"As for what happens next, you have to ask other people."

After saying this.

Liu Jingming looked at the other three True Immortal cultivators beside him.

These three people were also just resurrected, and then teleported back to Mingxuan Realm with the help of magical talismans.

In Liu Jingming's opinion.

These three people fought with Emperor Kongyuan to the end.

You should know what happened next.

Look at the looks cast by everyone.

The three of them looked slightly embarrassed.

Although they did live longer than Liu Jingming.

But I'm also confused.

Before death.

They clearly saw the Lord Realm erupting with terrifying power.

One shot swept away Nangong Desert.

The scene made people feel as if the gods and demons were fighting against each other, and no one could stop it.

Why did he suddenly die later?

They really can't understand it.

What happened?

Could it be that Nangong Damo alone could defeat the invincible Realm Lord?

Or.

Is it that handsome young man who suddenly appeared?

This shouldn't be the case.

Although the young man's sword formation was indeed extremely terrifying.

It was able to suppress all three of them at the same time until they were completely unable to move.

But that's it.

It is impossible to beat Emperor Kongyuan to death.

How could Emperor Kongyuan be compared to the three of them?

Even in ordinary times.

None of them could take a shot from Emperor Kongyuan.

not to mention.

Section 1166

The Emperor Kongyuan at that time had already integrated the power of the world into himself.

The strength is close to that of the Invincible Supreme.

How could he die?

Could it be that.

That handsome young man actually has something to hide.

It seems possible.

When dealing with them.

The young man just deployed a sword formation, plus a terrifying millstone magical power.

besides.

There is no other action.

Until the final fall.

None of them could see the depth of that young man's strength.

Maybe that boy.

It was Nangong Damo, who invited the peerless power from nowhere.

Maybe it's the invincible supreme being from outside?

The three of them were silent.

Everyone couldn't help but feel a little anxious.

An eternal emperor roared angrily.

"say something."

"Such a big thing has happened now, and even the world lord has fallen."

"You were at the scene, don't you have nothing to say?"

The three true immortal monks looked at each other.

Then one of them sighed and said.

"We don't know exactly what happened."

"Before we fell, the Realm Lord was still safe and sound."

"It has even integrated the power of the world, and its strength is unrivaled."

"We really can't figure out why the Realm Lord fell."

Hear this.

Everyone in the hall looked at each other.

what's the situation.

The Realm Lord is dead.

Now they are, they don't even know how the world lord died.

This is too nonsense.

Just at this time.

Another Eternal Emperor asked silently.

"Besides Nangong Desert, what other enemies were there at that time?"

"Can they threaten the Realm Lord?"

"It's not like there are still enemies hiding in the dark."

"Did you suddenly come out after you died?"

A true immortal monk responded immediately.

"probably not."

"The enemies had already appeared."

"Except for Nangong Damo, all the others are Nine-Step God Kings."

"About three hundred people."

"But there is a Nine-step God King among them, whose strength is extremely terrifying."

"That man suddenly burst out in strength and raised his cultivation to the peak of the eternal realm."

"The opponent only has a sword formation and a terrifying millstone magical power."

"They completely suppressed the three of us, and we couldn't break free until the end."

"What did you say, Nine-Step God King?"

"A nine-step god king suddenly broke out and suppressed all three of you to death?"

"Are you kidding me?"

"Indeed."

The three True Immortal monks nodded awkwardly.

They are also very depressed.

It sounds incredible, but it's true.

If they hadn't experienced it themselves, it would be hard to believe it.

A nine-step god king could be so terrifyingly powerful.

At this time Liu Jingming also said in agreement.

"There is indeed someone on the other side who is proficient in the magical power of sword formation."

"I was the same at that time. I was suppressed by the opponent's sword formation."

"Then he was beaten to death by Nangong Damo."

"But I haven't even seen that person's face."

"It's probably the same person."

After repeated inquiries.

They finally figured out a rough clue.

Nangong Damo came prepared.

Not only did he bring more than 300 top nine-step god kings with him.

And it also hides a super trump card.

That was a terrifying nine-step god king.

Or.

He is a peerless expert who has cultivated his skills and disguised himself as a nine-step god king.

The monks in Mingxuan Realm had not yet reacted.

They were all defeated by the nine-step god king.

In the end, only Wan Kongyuan was left.

Although they currently don't know how Wan Kongyuan died.

But according to speculation.

He should have died at the hands of that young man and Nangong Damo.

The scene was silent for a long time.

An eternal emperor asked in a deep voice.

"Do you know who the Nine-step God King is?"

"After cultivating to the Nine-Step God King Realm, it's impossible that there won't be any noise at all?"

"Is there no trace of the other party's activities in this chaotic river?"

"have no idea."

"I've never seen this guy before."

"Maybe he's not a monk from the Sea of Chaos."

A True Immortal cultivator waved his right hand and quickly drew a portrait of Zhang Yuhe.

Everyone stood up and looked at the portrait in front of them silently.

However, no matter how they looked, they had no impression.

It was as if this handsome young man appeared in the river of chaos for the first time.

It just appears out of nowhere.

Normally.

After the monks break through to the realm of God King, they will step out of their own universe.

Adventure in the long rivers of the Chaos Sea.

As long as the God King monk has appeared before, they will have some impression.

After all, Mingxuanjie will also deliberately collect information on monks from all sides.

However, everyone looked at the portrait in front of them.

I really can't think of any information about Zhang Yuhe.

They simply don't know.

This is the first time for Zhang Yuhe to come to the Chaos River.

before this.

Section 1167

Don't talk about them, people from the extraterrestrial universe.

Even in the Sea of Chaos.

Zhang Yuhe, that is, has some reputation in the Desert Heaven Realm.

in other realms.

Not many people know Zhang Yuhe.

It is naturally impossible for monks like them in the Mingxuan world.

Will learn any information about Zhang Yuhe.

Even looking at the portrait.

I don't know anything at all.

I don't know where this ruthless person came from.

...

Chapter 817: Diverting trouble to the east

After deducing the general reason for Wan Kongyuan's death.

The hall fell into silence again.

Actually for them.

How Wan Kongyuan died is not that important now.

What's important is that

Now there is no Wan Kongyuan, such a supreme eternal state.

What will they do in the Mingxuan world in the future?

Just in case someone knocks on the door again.

Can these few of them be able to stop it?

Although with the help of the suppression of the origin of the universe, as long as it is still within the scope of Tongtian Pass.

They will have the confidence to deal with all attacks from eternal monks.

But what if the Invincible Supreme comes?

Supreme Bolin once had an idea of their Mingxuan Realm.

Only to be repelled by Wan Kongyuan later.

In case Bolin Supreme, after getting the news of Wan Kongyuan's death.

Will it strike again?

If the Bolin Supreme strikes again.

Can they still stop it?

Everyone in the hall knew it.

it's out of the question.

They couldn't stop the Supreme's attack.

Even if there is suppression from the origin of the universe.

Facing the Invincible Supreme, they still had no power to resist.

Think of future situations.

Everyone in the hall looked sad.

In the past, there was a vast sky that supported them.

They never need to worry about these things.

Now the sky is falling.

What to do next?

Are you just sitting there in a desperate situation, waiting to be enslaved by the Supreme?

Everyone in the hall was silent, no one dared to speak.

Just at this time.

Liu Jingming suddenly spoke.

"Why don't we get the news out first."

"Let's just say that the Lord of the World was attacked by a Nine God King cultivator from the Chaos Sea and fell."

Before Liu Jingming could finish speaking.

The four Eternal Emperors next to them suddenly stood up.

One of them roared loudly.

"What did you say?"

"Liu Jingming, what do you mean?"

"Are you afraid that Supreme Bolin won't come quickly enough?"

The terrifying momentum of the Eternal Emperor overwhelmed Liu Jingming, the little true immortal.

I can barely breathe.

Although it has been resurrected.

But now Liu Jingming has just returned to the cultivation level of a true immortal.

If you want to return to the top, you don't know how long it will take.

If you are weak, you have no right to speak.

Although they were once equal brothers.

But that was before.

It's different now.

Facing the four eternal emperors, the terrifying power.

The other three True Immortal cultivators next to them didn't even dare to take a breath.

Liu Jingming's face turned pale and he explained with a trembling voice.

"Don't get excited yet, please listen to what I have to say."

The expressions of the four Eternal Emperors softened slightly.

They seemed to feel that they were indeed overly excited.

After all, Liu Jingming is also a monk in Mingxuan Realm.

If Mingxuan Realm is breached by the Supreme, it will not do him any good either.

Think of this.

The four eternal emperors sat back in their original positions.

Liu Jingming took a deep breath and explained slowly.

"If we put the news out, let everyone know."

"A nine-step god-king has risen from the Chaos Sea, who can suppress the top emperors."

"What do you think the three supreme beings would think?"

"Are they still interested in causing trouble for our Mingxuan?"

Everyone frowned slightly.

For a moment, no one understood what Liu Jingming meant by his words.

Suddenly an Eternal Emperor asked in a deep voice.

"You mean, those Invincible Supremes will immediately go deal with the Sea of Chaos after hearing the news?"

Liu Jingming nodded and responded firmly.

"That must be the case."

"A nine-step divine king suddenly emerged from the Chaos Sea, who can defeat the top emperors and even kill an emperor as powerful as the Realm Lord."

"It's impossible for those supreme beings not to pay attention to it."

"I think they don't want a fourth supreme combat power to appear in the Three Holy Heavens, right?"

"If that's the case."

"In the future, these three holy heavens will probably have to be renamed the four holy heavens."

"Yes, indeed."

After some explanation by Liu Jingming.

Everyone in the hall suddenly woke up.

Anyway, Wan Kongyuan's death must not be kept secret for long.

That being the case.

Then they might as well take the initiative to spread the news.

Let those invincible supreme beings aim their spears at the Sea of Chaos.

Thus.

Isn't the crisis in their Mingxuan world temporarily lifted?

Let those invincible supreme beings fight to the death with the Sea of Chaos.

Then they sit back and watch the show.

Section 1168

If things are really like what everyone expected.

Then they can be regarded as taking revenge on Wan Kongyuan.

Think of this.

An eternal emperor said excitedly.

"Immediately let the news out, saying that the Lord of the Realm was beaten to death by a Nine-step God King from the Sea of Chaos."

"By the way, we also need to spread the news about the red gold vein."

"The wider the message needs to be spread, the better."

"Let everyone in the entire Three Holy Heavens know."

"The Sea of Chaos killed our Realm Master, but he still wants to mine the red gold sacred sand safely."

"That was a dream, huh."

"Yes, let's do it."

Everyone in the hall quickly reached a consensus.

They quickly arranged their manpower and passed through Dao League's Void Island City.

Quickly spread the story throughout the Three Holy Heavens.

After the news spread.

Everyone within the Three Holy Heavens found it incredible.

Wan Kongyuan is dead.

And he still died at the hands of a nine-step god king.

This is really, really unbelievable.

But the news was spread by Mingxuanjie, and it was said with both nose and eyes.

People can't help but believe it.

the most important is.

A very crucial news also came out in the Mingxuan world.

That is the red gold vein.

They discovered a whole vein of red gold in a secret place.

It was precisely because of this mineral vein that the conflict between Mingxuan Realm and Chaos Sea was triggered.

In the end, Wan Kongyuan was killed by a nine-step god king in the Chaos Sea.

For the monks from all sides of the Three Holy Heavens.

How Wan Kongyuan died is actually not very important.

Anyway, even so.

They also won't go after Mingxuanjie.

After all, there were originally nine eternal emperors in the entire Mingxuan world.

Now he is dead far away.

There are also eight eternal realms.

Apart from those invincible supreme beings, who would dare to take advantage of Mingxuan Realm?

On the contrary, it was the red gold vein that attracted everyone's attention.

After all, the red gold sacred sand is the top material for refining eternal artifacts.

Now there is a whole vein of minerals, right in front of everyone.

Mingxuanjie has clearly disseminated the coordinates of the mineral veins.

That being the case.

So what are you waiting for?

Hurry up and grab the red gold sacred sand.

We can't just let the Sea of Chaos swallow up the mineral veins, right?

Even in the Chaos Sea, a heaven-defying nine-step divine king really emerged.

Able to defeat the top emperors.

Even Wan Kongyuan can be beaten to death.

But so what.

Could it be that they in the Chaos Sea dare to be enemies with the entire Three Holy Heavens?

Let's all go mining together.

Can that nine-step god king still kill everyone?

This is obviously impossible.

All of a sudden.

Within the entire Three Holy Heavens, crowds of waves surged.

Countless monks passed through the teleportation array and quickly rushed towards the secret location.

Whether it is the Eternal Emperor or the Divine King Monk, no one is willing to lag behind.

I hope I can get to the secret realm as early as possible and mine more red gold sacred sand.

Get there early.

The more red gold sand you dig out, the less you will have to struggle for countless years.

Faced with this rare opportunity in millions of years.

Who would want to miss it?

...

Chapter 818 Pack it all up and take it away

Within the secret realm.

Zhang Yuhe pinched the magic formula in his hand.

Invisible fluctuations spread rapidly around.

The dust blew away instantly, revealing red sand grains.

After collecting the red sand on the ground.

Zhang Yuhe quickly changed positions and then followed the same pattern.

Under the influence of the magical power of fluctuations.

He collects sand very quickly.

In less than half a year, dozens of square meters of red gold sacred sand have been collected.

Just at this time.

Nangong Dasho suddenly flew over.

He looked at Zhang Yuhe and said solemnly.

"We're in trouble."

"I just received the summons."

"People from Mingxuan Realm actually spread the news of Wan Kongyuan's death throughout the Three Holy Heavens."

"The most important thing is that they have completely disclosed the location of the secret realm to everyone."

"There are already a large number of monks on their way here."

"According to my estimation, it will take another half a year at most."

"The first batch of monks will arrive here."

Speaking of which.

Nangong Damo paused for a while, and then asked Zhang Yuhe.

"What should we do now?"

"If there are too many monks coming, we won't be able to stop them at all."

"And I'm worried that those three invincible supreme beings are getting the news."

"It's very possible that he will come over."

"How about we retreat first."

Looking at the red stars all over the ground, Nangong Damo's face was filled with regret.

They had just mined for a short time, and they didn't get much red gold sacred sand in total.

Although Wan Kongyuan and others had already mined part of it before.

But there are at least several thousand cubic meters of red gold sacred sand left in the secret territory.

So much red gold sacred sand was placed in front of them.

But there is no time to mine.

It's a pity to think about it.

But Nangong Damo also knows his priorities.

Although the red gold divine sand is very precious.

But everyone's safety is more important.

Once the Invincible Supreme blocks them in the secret realm.

Section 1169

That would be all over.

No matter how powerful Zhang Yuhe is.

There is no way to stop the Invincible Supreme.

This is not the world-defying Tianguan, and there is no source of suppression.

The Supreme can exert its full strength.

It is far from comparable to Wan Kong before.

Zhang Yuhe looked into the distance and spoke slowly.

"So much red gold sacred sand, if you give up all of it."

"what a shame."

He pondered for a moment and then continued.

"How about this."

"You ask everyone to evacuate the secret realm first."

"I'll see if I can destroy the secret realm and pack it away."

Hearing Zhang Yuhe's words.

Nangong Damo couldn't help but be stunned.

What does it mean?

Is it possible for humans to destroy the entire secret realm?

To know.

Although the secret space is not as huge as the chaotic universe.

But as an independent space naturally cultivated in the long river.

There is also an origin.

That vast origin has a strong ability to suppress foreign monks like them.

Otherwise.

They didn't need to activate their magical powers and slowly collected the red gold sand.

Normally.

Whether it is a god king monk or an eternal emperor, one move of magical power can destroy a continent.

But not here.

it's here.

Their magical powers are greatly restricted.

It's hard to even mine, let alone destroy the entire secret realm.

Nangong Damo looked at Zhang Yuhe and asked with a somewhat puzzled expression.

"you sure."

"This is a secret space, it cannot be destroyed so easily."

Zhang Yuhe raised his head and looked into the distance, and he responded calmly.

"Try it."

"Anyway, at the normal speed, we can't mine all the red gold sacred sand and take it away."

"In that case, I might as well give it a try."

"Okay, just follow what fellow Taoist said."

Nangong Damo didn't hesitate.

As Zhang Yuhe said.

Anyway, they don't have time now to continue mining the sacred sand safely.

Since Zhang Yuhe has an idea, let's give it a try.

In fact, Nangong Damo is very curious.

He wanted to see it too.

Where is the limit of Zhang Yuhe's strength?

Is it really possible to destroy a secret space?

Think of this.

Nangong Damo shouted to everyone in the distance.

"Everyone withdraw from the secret realm, and someone will be here soon."

"We have to go back first."

Hear Nangong Dasho's cry.

Everyone gathered quickly.

Everyone was very puzzled.

Why don't you continue to mine so much red gold sacred sand?

Even if someone comes over, don't worry.

Anyway, the Lord of Galaxy Palace is here.

Who comes and who dies.

What are you afraid of?

Even the powerful Eternal Emperor Wan Kongyuan was killed by the Lord of Galaxy Palace with just a few swords.

Are those people coming over? Stronger than Wan Kongyuan?

impossible.

Within the entire Three Holy Heavens.

People who are stronger than Wan Kongyuan can be counted on one hand.

Unless the Invincible Supreme One comes personally.

Otherwise.

Who can stop the sword of the Galaxy Palace Master?

But now that Nangong Damo has spoken.

Although everyone is unwilling to do so.

Still following the entrance of the vortex, he quickly withdrew from the secret realm.

Zhang Yuhe stood in the void, and Nangong Damo stood quietly behind him.

Just at this time.

A figure suddenly flashed in the distance.

This is Zhang Yuhe's clone.

in previous battles.

A total of three clones took action, and the remaining five clones just watched the show quietly.

Totally useless.

But it's just right now.

Zhang Yuhe summoned a clone.

He wanted to try it.

Let's see if we can destroy this secret space under full attack.

if you can.

After the secret realm is destroyed, he can put the whole thing into the cave and pack it away.

The clone activates the magical power of Hunyuan Guiyi.

The majestic aura of divine power keeps erupting.

The terrifying divine power pervades the entire secret realm.

The nine divine swords flashed away and quickly merged into one in the void.

Forming a terrifying golden giant sword.

However, under the suppression of the origin of the secret realm.

The power of the golden giant sword is not even one-tenth of its original strength.

The clone frowned slightly.

He quickly pressed the magic formula.

Rune patterns quickly flashed on the surface of the giant sword.

Zhang Yuhe gave all the power of rules to the giant sword.

But the power of these rules is still greatly suppressed.

So much so.

The originally powerful Tao Yun rules could only appear on the surface of the giant sword.

It cannot show power.

Just at this time.

A dazzling light suddenly flashed on the surface of the giant sword.

Time rules.

Section 1170

The origin of the universe can suppress all external rules.

But after all, this is just a small secret realm.

It is not a complete chaotic universe.

The origin in the secret realm cannot suppress the rules of time.

Under the urging of the clone.

The rules of time broke out in full force.

The golden giant sword bloomed with dazzling light.

The terrifying divine power spread in all directions, shrouding the entire secret realm.

"Gods and demons kill the sky, kill them."

Then the clone gave a soft drink.

The giant sword traveled across the sky and quickly slashed directly toward the bottom of the secret realm.

Boom...

A loud roar spread throughout the entire secret realm in an instant.

Click...

A slight click sound suddenly came from a distance.

Zhang Yuhe raised his head and looked towards the sky.

I saw terrifying cracks constantly appearing in the sky.

After a while.

The entire secret realm exploded.

Boundless air waves swept past.

A large number of red starlights shone little by little with the air waves.

See this situation.

Next to him, Nangong Damo was completely stunned.

He muttered to himself.

"It's done."

"The origin of the secret realm is beginning to collapse."

"It really destroyed the secret realm."

Zhang Yuhe waved his right hand.

Nine divine swords appeared in a flash, slowly flowing around the body.

follow closely.

He sacrificed another pagoda.

This is a Dongtian artifact.

The cave space in the artifact is even larger than the entire secret realm.

If it weren't for the existence of the origin in the secret realm.

He could have activated the Cave Heaven Artifact a long time ago and directly removed the entire secret realm.

But it works now.

Now that the source of the secret realm has collapsed, it no longer has the power to stop the pulling force of the cave sky.

The pagoda hangs in the sky.

Slowly absorb the entire secret realm into it.

Zhang Yuhe glanced at Nangong Damo next to him, and then reminded him loudly.

"Come on, this place is about to collapse."

Nangong Damo suddenly woke up.

The two of them activated their movements and followed the entrance of the vortex that was about to collapse.

Flying by quickly.

...

Chapter 819 The Supreme Appears

Zhang Yuhe and Nangong Damo quickly flew out of the entrance to the secret realm.

He looked back towards the entrance. .

I saw that the huge secret vortex was slowly shrinking.

Everyone stood in the distance, watching everything in front of them quietly.

Totally stunned.

Qi Feilong walked up to Nangong Damo and asked in a low voice.

"Master, what happened?"

At this time, Nangong Damo still had not recovered his senses.

After a while.

He responded leisurely.

"The Lord of Galaxy Palace completely destroyed the entire secret realm."

"There will never be a secret realm here again."

Hear this.

The more than three hundred nine-step god kings standing next to him were completely stunned.

How is this possible?

Can all secret realms be destroyed?

really.

To know.

The secret realm is similar to the cosmic world, both are born from the river of chaos.

Each has its own corresponding origin.

Zhang Yuhe can destroy a secret realm.

Doesn't this mean.

Can he also destroy a chaotic universe?

Even if not now.

In the future, wait until Zhang Yuhe's strength is strong enough.

It can destroy a universe.

Think of this.

Everyone couldn't help but feel a little scared.

in the long years.

They have never heard of anyone who can completely destroy a universe.

Even the Invincible Supreme cannot do it.

in everyone's impression.

The origin of the universe is vast and endless, and it is simply an unfathomable existence.

No one has ever been able to compete head-on with the origin of the universe.

Even those invincible supreme beings want to invade a universe.

It also has to rely on the power of its own rules to slowly erode the origin of the universe.

Only then can the goal of controlling a world be achieved.

This is a long process.

Moreover, it is necessary to kill all the original indigenous creatures in the universe first.

However, Zhang Yuhe can do it, relying on his domineering brute force.

Directly destroying a party contains the secret realm of the origin.

How terrible this must be.

It simply subverts everyone's previous understanding.

Everyone looked into the distance silently.

The shock in my heart was completely overwhelming.

Time passed slowly.

The secret vortex gradually shrinks.

After a while.

The originally huge vortex entrance completely disappeared in front of everyone's eyes.

A mini nine-story pagoda slowly emerged in front of the vortex.

Zhang Yuhe stretched out his right hand and took the pagoda into his hand.

He glanced at it with his spiritual consciousness.

All kinds of substances in the secret realm were seen filling the entire pagoda space.
