Chapter 826 Coming

Tens of millions of gods, kings and emperors were riding on chaos boats.

Heading towards the direction of Zhenshi Tianguan, it rushed towards them in a mighty manner.

The alarm bells are ringing in Tianguan.

Countless God King monks from the Chaos Sea rushed to the top of the city, paying close attention to the situation outside the city.

Everyone occupied one side and stood in their respective defensive positions.

Everyone understands.

A shocking battle is coming soon.

Regarding the situation of the Holy World army, news continued to come from the front.

In the years of preparation for war.

The emperors of the Chaos Sea would naturally not do nothing.

They had already deployed countless warning formations outside Tianguan.

With Tianguan as the center.

The warning formation continued to spread outwards, extending to the vicinity of Shangyunfang.

Therefore, the actions of the holy army have always been under the control of the emperors.

Don't worry about being suddenly attacked by the opponent.

Qi Feilong flew across the void.

He flew quickly above the city and shouted loudly to everyone.

"Stay in your positions and be vigilant."

"In half a day at most, the enemy will arrive near Tianguan."

"Don't worry too much, everyone is suppressed by the source of the Chaos Sea."

"The strength that the god-king monks of the three holy realms can unleash."

"It won't be much better than the True God Realm."

"We have the blessing of formations in the city. Dealing with their God King monks is as easy as cutting up a chicken."

"The eternal realm of the three holy realms will naturally be dealt with by the emperors."

"We don't need to worry about it. We just need to keep the opponent's god-king army out of Guancheng."

"As for the three invincible supreme beings, the Lord of Galaxy Palace will stop them all."

"We will never let those supreme beings threaten everyone's safety."

"You will soon see the invincible power of the Lord of the Galaxy Palace."

"This battle is not just a battle to protect the Sea of Chaos."

"It's also the battle for the rise of the Chaos Sea."

"After this battle."

"Looking at the entire river, no one will dare to bully us and the Chaos Sea easily."

"This war will surely go down in history forever."

"It's an honor for all of us to be able to participate in this battle."

"We must cheer up and fight for glory."

As one of the top supreme divine kings in the Sea of Chaos.

Qi Feilong commanded tens of thousands of monks and was responsible for guarding nearly a million miles of city walls.

He constantly conveys the latest information to everyone.

At the same time, his passionate voice continued to inspire everyone's fighting spirit.

Let everyone feel excited when they hear it.

for the coming war.

No one was afraid.

As god king monks, they have lived for countless years.

Participated in numerous battles.

Every hundred billion years, there will be an epochal craze that sweeps across the entire river of chaos.

As long as the god king monks have been enlightened for more than 10 billion years, almost all of them have participated in the epochal war.

There are even many of them.

Participated in the war to resist the invasion of the Holy World of Bolin a long time ago.

for them.

War is not terrible.

They are guarding the Heavenly Gate of Zhenshi, within the radiation range of the source of the Chaos Sea.

Has unparalleled advantages.

Even if the three holy realms come together.

So how can that be so.

Is it possible to break through this rock-solid world-defining gate?

It was just a dream.

not to mention.

This time they also have the Lord of Galaxy Palace with them.

The Lord of Galaxy Palace is so powerful that he can kill even a ruthless person like Emperor Kongyuan with one sword.

Then what are you worried about?

Is it within the scope of this Tianguan?

Can those invincible supreme beings be stronger than Emperor Kongyuan?

it's out of the question.

Thinking of the Lord of the Galaxy Palace, his unprecedented achievements.

Everyone couldn't help but yearn for it.

Also as a god king monk.

The strength of the Galaxy Palace Master has already surpassed them by countless levels.

Not even the Eternal Emperor is his rival.

Everyone even speculated.

Perhaps the current strength of the Lord of the Galaxy Palace has reached the level of the Supreme.

Even without the suppression of the origin of the Chaos Sea.

The Lord of the Galaxy Palace is still not inferior to those invincible supreme beings.

...

Zhang Yuhe stands in the void.

Twenty-one eternal emperors stood silently behind him.

This is the entire Chaos Sea, its entire strength.

After hearing the news that the Holy World is about to invade.

Countless monks who took risks in the long river returned quickly regardless of the cost.

The last two eternal emperors finally met more than a hundred years ago.

Bypassing the Holy World army, he returned to Zhenshi Tianguan.

Zhang Yuhe looked into the distance and kept pinching the magic formula in his hand.

Invisible fluctuations spread rapidly towards the distance.

Information transmitted back through invisible waves.

He saw the three holy realms and the vast army of god kings.

Saw a lot of Eternal Emperors.

At the same time, I also saw the three legendary invincible supreme beings.

The power of the Supreme God is vast and boundless.

Zhang Yuhe's wave power was approaching the Supreme Being.

It was like falling into some kind of terrible vortex.

Suddenly and inexplicably disappear.

Although the whole picture of the Supreme cannot be seen clearly.

But Zhang Yuhe knew.

Those three whirlpools that seem to be able to swallow everything are the cancer of this long river.

It's those three shameless supreme beings.

Zhang Yuhe used the wave path magic to sense silently for a long time.

He suddenly stood with his hands behind his back and said lightly.

"Here it comes."

Section 1182

"Have you come over already?"

Hearing Zhang Yuhe's words, all the Eternal Emperors behind him couldn't help but look slightly stunned.

They looked into the distance into the void, but couldn't see anything.

The long river is empty and silent.

Not even a human figure.

There is absolutely no sign of an incoming army.

Emperor Beiyuan turned his right hand.

A mysterious array appeared in his hand.

After playing the magic formula.

Countless light spots continued to appear on the array disk.

These light spots were the warning formations they had deployed on the outside.

I saw that the light spots on the formation were extinguishing one by one.

The endless darkness quickly moved toward Tianguan.

When the light spot goes out, it means that the warning formation has been destroyed by the enemy.

It also indicates that the enemy is approaching quickly.

Emperor Beiyuan looked at it silently for a while, and then said to everyone with a solemn expression.

"The Lord of the Galaxy Palace is right, the enemy is already here."

"In half an hour at most, they will appear outside Guancheng."

Hear this.

Everyone was shocked.

Many of them didn't understand Zhang Yuhe's magical power.

But they all knew about the formation disk held by Emperor Beiyuan.

Because those warning formations were arranged by themselves.

Since Emperor Beiyuan said that the enemy has arrived.

It must have really come.

Everyone silently sacrificed the artifact and looked into the void in the distance.

The storm is about to come and the wind is filling the building.

everybody knows.

A shocking battle is coming.

They were completely confident about the outcome of this war.

It is different from previous wars.

In the past, whenever there was a war, they did not dare to completely let go.

Because they still need to devote a lot of attention to the Invincible Supreme.

Even if the three of Nangong Damo join forces, they can indeed contain a supreme being.

But that kind of containment is not very stable.

It is possible for the Supreme to escape from the control of the three people at any time.

Then sneak attack others.

But this time it's different.

Because Zhang Yuhe is here this time.

Nangong Desert once recorded the scene of Zhang Yuhe's sword slashing Wan Kongyuan with a photo stone.

When everyone saw the sword light across the sky on the image stone.

After seeing Zhang Yuhe's unparalleled terrifying power after the explosion.

Everyone knows it.

This war is over.

Zhang Yuhe's terrifying power was not to mention suppressed by the source of the Chaos Sea.

Even in the long river far away from the Chaos Sea.

It is estimated that he can hold a few moves against those invincible supreme beings.

Everyone is even thinking about it.

If those invincible supremes knew that Zhang Yuhe's explosive strength would be so terrifying.

I guess they don't even dare to come.

can only say.

It was the people from Mingxuan Realm who tricked those supreme beings.

They just said that Zhang Yuhe was extraordinarily powerful.

But what kind of strong method is it?

They didn't make it clear.

Or.

People in Mingxuan Realm don't know either.

Because in that battle, all the monks in Mingxuan Realm were killed by Zhang Yuhe.

And the four eternal emperors who were later resurrected.

They didn't even see Zhang Yuhe's sword light across the sky.

They are already dead.

Didn't see it at all.

They didn't know what Zhang Yuhe's method was.

Beat Wan Kongyuan to death.

can only say.

Maybe this is the will of God.

God wants the Chaos Sea to rise through this battle.

And that Great Supreme is Zhang Yuhe's stepping stone.

It is also a stepping stone to the Chaos Sea.

...

Chapter 827 Heading towards death

In the desolate long river void.

A huge army of God Kings is rapidly advancing towards Zhenshi Tianguan.

Countless Chaos Divine Boats filled the entire void.

There are dozens or hundreds of God King monks standing on each Chaos Boat.

in front of them.

Each team also has an Eternal Emperor leader.

In front of the entire army.

A terrifying chaos boat, like a blue dragon, quickly shuttles forward in the void.

Above this chaos ship.

A broad red flag fluttered in the wind.

The rhymes on the flag are vertical and horizontal, and they automatically combine to form [Pauline], two mysterious characters.

This is the ship of Supreme Bolin.

Legend has it long ago.

Supreme Bolin hunted a special chaotic creature in the void.

He used the body of a chaotic creature to refine this powerful Chaos Divine Boat.

The Bolin is not only extremely fast, but also has super defensive power.

The ordinary Eternal Emperor's attack hit the Bolin.

Not even a trace will be left.

Only with the power of the Supreme can it be possible to break through the Paulin's defense.

Such a terrible defensive ability.

It has completely exceeded the scope of ordinary chaos boats.

It can be called a semi-supreme artifact.

To know.

These are the invincible supreme beings who have reached Taoism through remote streams.

There is no ability to refine the supreme artifact.

The artifacts in their hands are basically at the eternal level.

There is no essential difference from the artifacts in the hands of the Eternal Emperor.

That is to say, the quality of the artifact is better than those of the Eternal Emperor.

Section 1183

Although Supreme Paulin does not have a supreme artifact.

But he has this Chaos Ship, which is close to the supreme artifact.

It is by relying on this terrifying ship.

Jean Paulin's supreme strength is faintly superior to the other two.

Within the scope of the Three Holy Heavens.

The two Supremes, Taihua and Tianguang, did not dare to compete with Paulin.

At this time, the Bolin Chaos Boat was on board.

The three supreme beings stood at the front, silently looking into the void.

I saw the outline of a huge Guancheng slowly appearing in the void.

Just at this time.

A mysterious and huge aura enveloped them.

Supreme Paulin's expression darkened, and he spoke coldly.

"This damn universe is so disgusting."

"If these origins did not exist, those creatures would be weak."

"How could he be qualified to occupy that vast chaotic universe?"

Although it has not yet arrived at Zhenshi Tianguan.

But the vast and boundless original power of the Chaos Sea has already enveloped them.

The radiation range of the origin of the universe is extremely broad.

Once a foreign monk approaches, even if they are thousands of miles apart.

It will still be suppressed by the origin of the universe.

The larger the chaotic universe, the stronger the source's suppression ability and the greater the radiation range.

In the area of Three Holy Heavens.

As far as geographical scope is concerned.

The Chaos Sea is second to none.

It is even larger than the three holy realms.

It is precisely because of this.

Only the three supreme beings have been coveting the Sea of Chaos.

They tried their best to send a large number of monks to sneak into the Sea of Chaos through the cracks in the void.

I want to achieve the purpose of eroding the origin by spreading Shinto.

Unfortunately.

For so many years, those holy monks who have sneaked in have not made any achievements.

Even the monks from the Bolin Holy World were wiped out by Zhang Yuhe.

Although there are still some monks hiding in the Sea of Chaos in the other two holy realms.

But they could only hide in the dog hole and tremble, not daring to come out and move around at all.

The so-called spreading of the divine way and eroding the origin of the Sea of Chaos is out of the question.

Originally, the three supreme beings planned to leave the Sea of Chaos alone and take their time later.

Anyway, the supreme time is unlimited, and they can afford it.

And there are so many cosmic worlds in this long river area.

There is absolutely no need for them to keep staring at the universe of the Sea of Chaos.

But it's different now.

With Zhang Yuhe's strong rise.

The three supreme beings suddenly woke up.

they know.

My previous plan was so wrong.

How could a cosmic world as huge as the Chaos Sea remain ordinary forever?

Sooner or later, a talented person will rise up.

So after receiving the news spread by Mingxuanjie.

The three supreme beings almost unanimously rushed to the scene of the incident.

Through careful inspection, the Taoist aura left behind in the battle can be seen.

They make decisions quickly.

The universe of Chaos Sea must be destroyed immediately and Zhang Yuhe must be completely killed.

Otherwise.

Zhang Yuhe, this terrible genius, will ride on their heads sooner or later.

This is absolutely not something they can tolerate.

Feeling the origin of the Chaos Sea, its suppressive power.

Supreme Taihua next to him responded with a smile.

"Pauline, you don't have to be angry."

"The cycle of heaven has its own reason."

"The chaotic universe contains the origin, which is actually the protection of everyone."

"Just like ourselves."

"If we don't integrate our own Tao rules into the origin of the Holy World, we can control the entire Holy World."

"How can we get to this point?"

Supreme Tianguang also responded with emotion.

"yes."

"If there is no origin, even if we have supreme cultivation, we will not be able to control the entire holy world."

"Once we face a strong enemy, we may die."

"But because there is the origin of the universe, it's completely different."

"When we merge with our origin, we are truly immortal."

"Unless the Holy World is completely destroyed, no one can do anything about it."

"But who in this world can destroy a holy world?"

"Even the nine high-ranking lords in the Dao Alliance probably can't do it."

"so."

"The origin of the universe not only protects those weak creatures."

"It also protects us."

"snort."

Supreme Paulin snorted coldly.

Of course he understands the truth.

But he just wasn't happy.

Within the radiation range of the origin of the Chaos Sea, his own laws of the avenue were completely suppressed without a trace.

It can't be used at all.

There is no blessing from the power of rules.

Then their strength will be greatly restricted.

You can only rely on the supreme realm, the majestic aura of divine power, to use your magical power to activate the artifact.

But this way.

The actual strength they can display is almost non-existent.

Thinking that he would have to fight with those eternal monks in the Sea of Chaos later.

This made Supreme Paulin feel very unhappy.

If it is in its prime.

How could he take the more than twenty eternal emperors in the Sea of Chaos seriously?

No amount of it would be enough to kill him.

But there is no way.

Who made this the opponent's home court?

If he wanted to conquer the Chaos Sea, he had to be suppressed by the origin.

...

The huge fleet of Chaos Boats quickly spread through the void.

When the fleet approached the radiation range of the Chaos Sea Origin.

Everyone felt a little depressed.

It was as if there was something terrible pressing on their heads.

This terrifying suppression made them completely unable to sense the existence of their own avenue rules.

Although for this kind of suppression force from the origin of the universe.

Section 1184

Everyone has become accustomed to it.

But now the war is underway.

This inexplicable suppression still makes them feel very uncomfortable.

It seems like something bad is going to happen.

This sudden suppression seemed to be foreshadowing.

They embarked on a road of no return.

Heading towards death.

...

Chapter 828 He will definitely die today

Zhang Yuhe stood in the void and looked quietly into the distance.

I saw a black line rolling in from the distant horizon.

After a while.

The black line seemed to turn into an endless tide, instantly covering the void in the distance.

The enemy is coming.

Looking at the vast momentum of the holy army in the distance.

Nangong Damo couldn't help but said in amazement.

"These Invincible Supremes are really generous."

"Looking at the size of those Chaos Divine Ships, there must be tens of millions of Supreme God Kings."

The Beiyuan Emperor next to him responded silently.

"I just made a rough calculation. The number of the other party's God King monks is estimated to be 40 million."

"Even the Eternal Emperor is as large as two to three thousand people."

"The Three Supreme Beings are spending a lot of money."

"I guess they have gathered all the forces they can mobilize."

"They are not afraid either. What if all the God King's eternal army is destroyed in the sky?"

Emperor Heihe snorted coldly and said calmly.

"What are they afraid of?"

"Even if all the god kings are eternal, they will all die."

"These invincible supreme beings who are so high above themselves will not die."

"They are integrated into the origin of chaos and are immortal."

"Unless someone can destroy the Holy World and completely wipe out the origin of the Holy World."

"Otherwise, these invincible supreme beings can always be at ease in the river."

"No one can do anything about it."

Speaking of these invincible supreme beings.

Everyone hates it with it.

To say that the Supreme is extremely powerful, forget it.

The key is.

These invincible supreme beings cannot be killed at all.

no matter who.

None of them can kill the Invincible Supreme.

What a headache it must be to face a group of enemies that cannot be defeated.

Even if they repel the Holy World army this time.

But who knows.

After a period of recuperation, will the other party make a comeback?

Think of this.

Everyone couldn't help but feel a little depressed.

Nangong Damo subconsciously looked at Zhang Yuhe beside him.

He saw it with his own eyes.

Zhang Yuhe activated his clone and unleashed terrifying power.

Directly destroy the origin of a secret realm, and finally pack away the red gold veins in the secret realm.

Maybe someday in the future.

Zhang Yuhe can directly destroy the origin of a holy world.

If that's the case.

Then the end of the three supreme beings is really coming.

The emperors stood behind Zhang Yuhe, silently sizing up the enemies in the distance.

Although the holy army is huge in size and extremely powerful, it is extremely powerful.

But everyone still looked calm.

No one showed any fear.

In fact.

Everyone has already expected this situation.

When the monks in Mingxuan Realm spread the news.

The emperors of the Chaos Sea will understand.

The three supreme beings would never let Zhang Yuhe continue to grow.

Their Chaos Sea will inevitably usher in the thunder attack from the Holy World.

And this time when the three holy realms join forces, they will obviously come out in force.

It certainly won't be like it used to be.

Once you find that you can't attack, you will withdraw your troops and retreat.

The three supreme beings will definitely not retreat this time.

Even if all the armies under their respective command are used up.

They won't retreat either.

For those invincible supreme beings.

No matter how many of the God King's eternal army under his command dies.

That doesn't matter.

Anyway, it will be okay in the future, continue to cultivate slowly.

But Zhang Yuhe's strong rise is a real threat.

To eliminate this threat.

Not to mention Pinguang's army.

Even if they fight until their Dharmakaya falls, they probably won't hesitate.

Determination for the Three Supreme Beings.

The Eternal Emperors of the Sea of Chaos have already anticipated this.

And they have been prepared for it.

Since the three supreme beings want to fight hard.

Come then.

No one is afraid.

Use this battle to create a future for the Sea of Chaos.

They have enough confidence.

Because Zhang Yuhe is here.

Zhang Yuhe's terrifying power after the explosion, the fused sword light across the sky.

It has already left a deep impression on everyone's hearts.

Everyone believes it.

Zhang Yuhe alone is enough to repel the three supreme beings.

If done properly.

Maybe Zhang Yuhe still has a chance to kill a Supreme Dharmakaya directly.

The Invincible Supreme Being is immortal.

But there is still hope to kill the opponent's life.

To this.

Everyone is full of expectations.

Compared to all the Eternal Emperors, he looked indifferent.

The God King monks of Chaos Sea on the city wall seemed a little panicked.

How have they never seen such a formation?

Section 1185

Although everyone has known it for a long time.

The scale of the joint attack of the three holy realms will definitely not be small.

But the overwhelming Chaos Divine Ship in front of them still stunned everyone.

Forty million supreme gods and two or three thousand eternal emperors.

Such a terrifying power.

Even if the entire long river area is swept and flattened.

It is estimated that it is not a difficult task, right?

Now in their Chaos Sea, there are only a little over a million god kings.

There are only twenty-one eternal emperors.

The strength gap between the two sides is hundreds of times.

Even with the suppression of the Chaos Sea Origin and the help of the formation in the Heavenly Pass.

I am afraid that this battle will be difficult to fight.

What's more.

The other side has three invincible supremes with divine power.

How can we fight?

Looking at the mighty holy army in the distance, the cultivators were uneasy.

Everyone held the artifacts in their hands tightly and thought silently in their hearts.

Maybe after this battle.

No matter who wins or loses.

It is estimated that more than half of the millions of supreme gods who defended the city would perish.

...

The chaotic divine boats rolled forward.

When they were still a million miles away from the world-suppressing Heavenly Gate.

Supreme Bolin waved his right hand.

The huge army of the Holy Realm stopped instantly.

Tens of millions of supreme gods and two or three thousand eternal emperors stood on their respective chaotic boats.

Their auras were not concealed.

The huge army of the Holy Realm exuded a terrifying might at the same time.

It seemed that the entire long river void was about to bow down.

Supreme Bolin looked into the distance, looking at the familiar outline of the Heavenly Gate.

His mood was a little complicated.

Many years ago.

He had also led a team to attack this world-suppressing Heavenly Gate.

It was only because the Chaos Sea monks fought desperately.

In order to avoid too much loss.

He had to withdraw his troops and retreat.

Now he faced the world-suppressing Heavenly Gate again.

Supreme Bolin made up his mind secretly.

This time he would never retreat again.

Even if his Dharma body dies, he vows to break through this world-suppressing Heavenly Gate.

Completely destroy the Chaos Sea.

Most importantly.

Zhang Yuhe must be killed.

This boy must not be left alive.

Otherwise, there will be endless troubles.

Taihua Supreme silently looked into the distance.

When he saw the handsome young man standing in the void outside the Heavenly Gate.

He couldn't help but sigh.

"Sure enough, he is only at the Nine-Step Divine King Realm."

"It's hard to imagine what kind of heaven-defying means he borrowed."

"Only with the power of the Divine King can he kill a top-level Eternal Emperor like Wan Kongyuan."

"Is it a talisman or a formation, or is it relying on a special geographical advantage?"

When he clearly sensed the aura emanating from Zhang Yuhe.

Taihua Supreme really couldn't figure it out.

Zhang Yuhe's true cultivation level is really only at the Nine-Step Divine King Realm.

He hasn't even reached the peak of perfection.

With such a cultivation level.

How did he kill Wan Kongyuan?

Is Wan Kongyuan standing there like a fool to be killed?

It is really incomprehensible.

Supreme Bolin took a deep breath and responded calmly.

"No matter what means he used before."

"But today, he has no chance."

"There is nothing here except the formation of Tianguan that he can borrow."

"What's more."

"We are not Wan Kongyuan, that brainless fool."

"We will never let him have the opportunity to exploit any loopholes."

"He will definitely die today."

...

Chapter 829 If you don't die, I will be uneasy

Although the three supremes, when they checked the sword marks and Dao rhyme left by Zhang Yuhe.

They judged that.

His real cultivation level would not exceed the God King realm at most.

Because they did not feel the existence of the world power from those sword marks and Dao rhyme.

The world power is one of the iconic powers of the eternal cultivator.

Even if it is not integrated with its own world, it can borrow part of the world power.

When the Eternal Monk attacked.

That faint world power would be revealed unnaturally.

However, in the sword marks left by Zhang Yuhe at that time.

There was no trace of any world power at all.

So the three supremes judged at that time.

Zhang Yuhe's strength must not have reached the level of Hedao Eternity.

Despite this.

When they really saw Zhang Yuhe, they still felt a little unbelievable.

It's really just the Nine-Step God King Realm.

The Nine-Step God King reversed and killed the top emperor.

The myth is right in front of us.

This made Supreme Bolin and others feel fortunate.

How correct their decision was at the beginning.

Such a terrible peerless genius.

If you can't kill it now.

I'm afraid there will be no chance in the future.

Supreme Bolin's sharp eyes stared at Zhang Yuhe in the distance.

He murmured to himself.

"You must die today, you must die."

"If you don't die, I can't rest."

Thinking of this.

Supreme Bolin waved his hand and said calmly.

"Kill, break through the world-suppressing gate, and flatten the Chaos Sea."

Section 1186

Following the order from Supreme Bolin.

The Chaos Divine Boats filling the sky began to slowly disperse.

Countless God King monks jumped out of the Chaos Boat.

Led by two to three thousand Eternal Emperors, they rushed towards the Zhenshi Tianguan in the distance.

The huge Holy World army spread out instantly, and its terrifying power covered the sky.

Inside Zhenshi Tianguan.

Layers of formation light curtains slowly rose.

The light curtain stretched for millions of miles from the inside of the city to the outside.

As the gateway to the entire Chaos Sea.

The eternal emperors of the past dynasties have already built this world-defining gate like an iron barrel.

Various defense, suppression and amplification formations are layered on top of each other.

These formations can not only protect the God King monks on the city wall.

Suppress the enemy attacking outside the city.

Moreover, it can also significantly improve the strength of the monks in the city.

Once Tianguan's protective formation is fully activated.

That means.

The Sea of Chaos has reached a critical moment of life and death again.

There are nearly a million God King monks on the city wall, staring closely at the Holy World army approaching quickly outside the city.

While slowly unfolding the formation.

Everyone follows the usual drills, or forms a team of three or five people.

Or more than ten people form a combined attack formation.

Or hundreds of people, forming a huge formation of the God King.

Everyone sacrificed their magical weapons, ready to deal with the enemy's impact at any time.

Nangong Dasho glanced at the Holy World army approaching rapidly in the distance.

He turned to the others and said.

"Let's go back and defend the city. Just leave this place to the Lord of Galaxy Palace."

After saying this.

Twenty-one eternal emperors rose into the sky at the same time.

Everyone quickly rushed to their respective guarding positions.

This time, a total of two thousand eternal emperors were dispatched from the three holy realms.

If they don't press the battle on the city.

Those millions of God King monks alone would certainly not be able to defend Guancheng.

Fortunately, Zhang Yuhe was here this time.

Those three invincible supreme beings no longer need them to worry about.

Zhang Yuhe can naturally handle it.

They just need to keep some of the Holy World troops under the city.

Aboard the Pauline Chaos Ship.

The three supreme beings stood quietly at the front.

Seeing the Eternal Emperors in the Sea of Chaos, they all returned to defend.

Zhang Yuhe was the only one left in the void outside the city.

They couldn't help but feel a little angry.

Taihua Supreme snorted coldly, and said with a gloomy expression.

"Isn't this Galaxy Palace Master too arrogant?"

"He asked the other Eternal Realms to all go back to defend."

"Did he want to stop the three of us on his own?"

"I'd like to take a look."

"What is the ability of this peerless genius who killed the top emperor in reverse?"

"I'll go meet him first."

After saying this.

Taihua Supreme soared into the sky, carrying a terrifying power.

He rushed towards Zhang Yuhe.

The two supreme beings, Bolin and Tianguang, still stood quietly on the Chaos Boat.

They were in no hurry to get started.

To deal with a nine-step god king, there is no need for three people to join forces.

Even this nine-step god king once had extremely amazing achievements.

They didn't take it too seriously.

In their view.

No matter how powerful the peerless genius is, before he finally grows up.

It is impossible in any case, it is these supreme opponents.

Even under the suppression of the origin of the universe.

They are unable to display the rules of the avenue and exert their full strength.

That is also an invincible supreme being, not comparable to a nine-step god king.

Zhang Yuhe stood quietly in the void.

Looking at Taihua Supreme in the distance, the terrifying figure rushed towards him quickly.

Still looking calm.

I saw him wave his right hand.

The nine divine swords slowly unfolded.

Layers of sword energy light curtains spread rapidly towards the distance.

It stretches to millions of miles away.

Taihua Supreme had just jumped out and soon fell into the huge sword energy light curtain.

"Ah ah ah, open it for me."

Taihua Supreme sacrificed a pair of purple sledgehammers.

I saw the shadow of the hammer waving all over the sky, quickly breaking through the surrounding sword energy light curtain.

"Hmph, the so-called peerless genius is nothing more than that."

With just two swings of the hammer, Zhang Yuhe's sword energy defense was easily broken.

This made Supreme Supreme Taihua feel contemptuous.

Although the sword energy light curtain in the distance is still recovering quickly.

But under the suppression of his purple hammer shadows.

I saw that the sword energy light curtain was shattered layer by layer, and it was simply vulnerable.

Taihua Supreme was almost a little suspicious.

Could the news spread by those Mingxuan Realm monks be false?

Just based on Zhang Yuhe's current strength.

How could it be possible to beat Wan Kongyuan to death?

It's not just spreading rumors.

"Forget it, why do you care so much?"

"Even if the news was false before, we must kill him first."

Seeing Zhang Yuhe in the distance, his expression was still indifferent.

Taihua Supreme was very unhappy.

This is because he is not taking this invincible supreme being seriously.

It's all come to this time.

How dare you bluff.

Think of this.

Taihua Supreme quickly pinched the magic formula.

The purple hammers burst into dazzling light.

Hammer shadows all over the sky broke through the layers of light curtains and went straight to Zhang Yuhe at the center.

Watching the purple hammer shadow approaching quickly.

Zhang Yuhe looked neither happy nor sad.

Sudden.

A strong aura rose from him.

It happened in just a moment.

Section 1187

The cultivation aura on Zhang Yuhe's body is from the nine-step divine king realm.

He rushed directly to the peak of the eternal realm.

Faced with Taihua Supreme, who was rushing straight towards him.

Zhang Yuhe decisively activated the magical power of Hunyuan Guiyi.

The vast aura spread across all directions, and even had a faint tendency to suppress Taihua Supreme's divine power.

He quickly pressed the magic formula.

The majestic aura of divine power poured in crazily towards the sword energy light curtain.

The dense sword energy defense firmly protects itself.

With the blessing of Hunyuan Guiyi's magical power.

The defensive power of the Nine Heavens Hunyuan Sword Formation was instantly increased countless times.

Taihua Supreme's powerful hammers approached tens of thousands of miles away.

It was finally blocked by the sword energy light curtain.

And with Zhang Yuhe, he continued to inject divine power.

The purple hammer shadow that filled the sky was actually forced to retreat slowly.

...

Chapter 830 It seems to be worse

"presumptuous."

Taihua Supreme was completely angry.

Originally he thought.

A nine-step god king like Zhang Yuhe, no matter how powerful his combat power is.

He can still handle it easily.

No idea.

It didn't take long for him to be proud.

Zhang Yuhe suddenly activated his magical power, and his cultivation level instantly reached the peak of the eternal realm.

In full view of everyone, he directly forced his seemingly invincible purple hammer shadow back.

See this situation.

Tai Hua Zhizun's complexion instantly turned into the color of pig liver.

This is angry.

To think that his majestic and invincible supreme being could not defeat a nine-step god king.

He was even forced to retreat by the opponent.

Doesn't he want to lose face?

So many people are watching.

There are tens of millions of god kings and eternal monks in the three holy realms around.

Seeing that he couldn't even defeat a nine-step god king.

How can he survive in this river in the future?

the most important is.

Two old rivals, Paulin and Tianguang, were also watching from behind.

At this time, Taihua Supreme wanted to bury his face in the ground.

He volunteered to take the lead.

Originally I wanted to show my face.

Let the juniors see the mighty power of this invincible supreme being.

As a result, my face was not exposed, but my butt was exposed.

If this is spread.

Wouldn't that mean that people would laugh at you for hundreds of millions of years?

Taihua Supreme couldn't bear it anymore.

Zhang Yuhe must be captured.

He wanted others to know.

My title of Invincible Supreme is not given for nothing.

Taihua Supreme stretched out his right hand.

He grabbed two purple sledgehammers in his hands and roared.

I saw him swinging his double hammers, breaking through the sword energy light curtain around him, and rushing towards Zhang Yuhe again.

...

On the Chaos Divine Ship in the distance.

When he saw Zhang Yuhe, he suddenly burst into terror.

The two Supremes, Paulin and Tianguang, were completely stunned.

A Nine God King can actually reach the peak of eternity in an instant.

How terrible is this?

They've never heard of it.

What kind of special magical power is there that can improve one's cultivation level so much?

Supreme Paulin looked into the distance and murmured to himself.

"No wonder Wan Kongyuan was beaten to death by a nine-step god king."

"It turned out to be an explosion of magical power."

"It's just that this explosive magical power is too scary, isn't it?"

"It's just unheard of."

Tianguang Supreme, who was next to him, also responded in amazement.

"yes."

"The explosive magical power that directly crosses a large realm, even a low-level monk."

"That's impossible, right?"

"I didn't expect that a nine-step god king would explode with all his strength."

"It can be so powerful that it is so terrifying."

"Wan Kongyuan's death is not considered unjust."

"This child really cannot be kept."

"Once he successfully merges with the Tao, he will successfully become the Eternal Emperor."

"Then after activating the explosive magical power, even we may not be able to stop the horror."

The two supreme beings, Paulin and Tianguang, still stood quietly at the front of the Chaos Divine Boat.

They didn't seem to have any intention of intervening.

Even if Zhang Yuhe activates the magical power of Hunyuan Guiyi and raises his cultivation to the peak of the eternal realm.

They didn't take it too seriously.

It's just the realm of eternity.

They didn't know how many they had killed.

Even under the suppression of the origin of the Chaos Sea.

They don't think so either.

Zhang Yuhe can take advantage of Taihua Supreme.

In their view.

Zhang Yuhe is nothing more than relying on a unique defensive sword formation.

Just to resist Taihua Supreme's attack.

If you keep it for a long time, you will lose it.

Wait until Zhang Yuhe is exhausted.

Taihua Supreme will definitely be able to take him down.

And even if Taihua Supreme fails.

That doesn't matter either.

Aren't the two of them still raiding the formation nearby?

If something unexpected happens.

They didn't mind and went up to make a few more cuts.

This time their three supreme beings were dispatched at the same time.

Not to mention Zhang Yuhe, he was just a Nine-step God King.

Even if you are a supreme monk of the same level, you have to take a detour.

...

The two Supremes, Paulin and Tianguang, stood silently watching the battle from a distance.

Chapter 1188

They have no intention of intervening at the moment.

Taihua Supreme swung his hammers vigorously.

His majestic divine power flowed crazily into the purple hammers.

The terrifying hammer shadow covered the sky and the sun.

It was as if this pair of unparalleled hammer shadows were the only ones left in the entire world.

The hammer shadows filled the sky like a tidal wave.

One wave after another.

He rushed towards Zhang Yuhe in the distance quickly.

However.

Whenever the Hammer Shadow approaches a certain distance.

You will be instantly forced to retreat by those ubiquitous sword energy light screens.

"Ah ah ah, die."

Taihua Supreme roared crazily while swinging his hammers.

He really couldn't understand.

What kind of enlightenment does Zhang Yuhe's sword formation have?

Why couldn't he pass the attack even though he tried his best?

Those dense sword energy defenses seemed like a bottomless pit.

All his attack power was slowly consumed and consumed.

Taihua Supreme kept activating various magical powers.

The result was like hitting a sponge.

It has absolutely no effect.

Zhang Yuhe stood quietly in the void.

Facing Supreme Taihua, the majestic hammer shadow power.

He still looked calm.

Didn't take it to heart at all.

It seems that what he is facing now is not an invincible supreme being.

But an ordinary monk with low strength.

In fact.

In Zhang Yuhe's view.

In fact, it's not much different.

He even felt it.

After the double suppression of the origin of the Chaos Sea and the formation light curtain of Zhenshi Tianguan.

Taihua Supreme is now exerting its strength.

Compared to Wan Kongyuan after integrating the power of the world, it may still be worse.

After Wan Kongyuan exploded with all his strength.

It can also force him back continuously.

Even though he had already activated the Hunyuan Returning Divine Power, he used all his strength to activate the Nine Heavens Hunyuan Sword Formation.

It is still necessary to keep retreating to widen the distance from Wan Kongyuan.

To avoid being hurt by the opponent's attack power.

But now when facing Taihua Supreme.

Zhang Yuhe suddenly discovered it.

He didn't even need to take a step back.

Because of Taihua Supreme, that seemingly mighty purple hammer shadow.

There was no way it could be delivered to him.

There are still tens of thousands of miles between us.

Can't even hit myself.

So why is he still retreating?

It's totally unnecessary.

Zhang Yuhe even had some doubts.

Isn't Taihua Supreme a parallel importer?

The legendary invincible supreme.

That's it.....

It seems to be much weaker than he thought before.

Of course.

Zhang Yuhe also knew.

He had a geographical advantage.

If the battlefield was not at Zhenshi Tianguan, he would not dare to be so confident.

If there is no suppression from the origin of the Chaos Sea.

Once Taihua Supreme exerts his majestic power of rules.

Zhang Yuhe definitely couldn't be as relaxed as he is now.

The Nine Heavens Hunyuan Sword Formation alone may not be able to stop it.

not to mention.

The power of the Supreme is all-round.

The origin of the Chaos Sea just suppressed the Supreme Avenue Rules.

The majestic divine power of the Supreme, as well as the terrifying physical strength.

It will not be suppressed by the origin.

Unable to display the rules of the avenue, it only weakens the supreme attack power.

Their defensive power will not be weakened much.

That is to say.

Although Taihua Supreme's attack does not threaten Zhang Yuhe's safety.

But Zhang Yuhe wanted to make a substantial counterattack.

It's not that easy either.

Supreme and invincible.

That's no joke.

I want to kill a supreme Dharmakaya.

Then he would have to put some thought into it.

...

Chapter 831 Isn't this idea too crazy?

In Zhang Yuhe's plan.

He didn't just want to repel the three supreme beings.

Today he knocked the opponent back.

Maybe tomorrow, the other party will come back again.

So endless words.

When will it be the end?

He has no interest.

Guarding this gate every day, waiting for endless attacks from the other side.

According to Zhang Yuhe's idea.

You can only hit the opponent until it hurts and the three supreme beings are frightened.

They will not have any intention of getting involved in the Sea of Chaos.

And want to do this.

Then the Dharmakayas of the three supreme beings must be beaten to death under this heavenly barrier.

At least one of them must be killed.

Only in this way.

Only then would the three supreme beings be afraid.

Make them fearful.

can act as a deterrent.

Let them from now on.

I no longer dare to take a peek at the Chaos Sea.

However, it is not that easy to achieve this step.

Chapter 1189

The defensive power of the Invincible Supreme is outrageous.

Even if they stand still.

Just relying on the defensive power of the flesh, they can block most of the emperor's attacks.

Unless it is the top-level Eternal Emperor.

Otherwise.

Don't even think about breaking the physical defense of the Supreme.

What's more.

These Invincible Supremes are not fools.

They will not stand there and get beaten.

Even if they are suppressed by the origin and cannot exert the power of rules.

There is still boundless divine power in their Dantian Qi Sea.

Just activating one or two defensive magical powers is enough to make the Eternal Emperor despair.

It can't be beaten at all.

Despite this.

Zhang Yuhe still wants to give it a try.

He wants to see.

Is the Invincible Supreme really invincible?

Even if the Supreme can be resurrected infinitely and can quickly restore his cultivation in the origin of the Holy Realm.

But as long as he is beaten to death once.

Zhang Yuhe believes.

These Invincible Supremes will definitely not dare to be presumptuous again.

This is the effect he wanted.

And in order to achieve his goal.

Zhang Yuhe had already made preparations.

As for whether he could succeed in the end.

That would depend on God's will.

...

Taihua Supreme swung his two hammers wildly and launched a violent attack.

Zhang Yuhe did not retreat a single step.

He quickly pinched the magic formula.

The majestic divine power continued to flow into the Nine Heavens Hunyuan Sword Formation.

Not only that.

Zhang Yuhe also integrated all his vast and endless rule power into the sword formation.

Countless rule rhymes were intertwined and presented on the sword energy light curtain.

The defensive power on the sword energy light curtain reached a terrifying level.

Under Zhang Yuhe's full urging.

The sword energy light curtain continued to extend far away.

Taihua Supreme was forced to retreat continuously by the sword energy light curtain.

He was even almost retreating to the vicinity of the Bolin Chaos Shenzhou.

In other words.

Taihua Supreme fought hard for a long time, but he was still standing still.

This made his face look more and more ugly.

Every step back.

Taihua Supreme seemed to be greatly insulted.

However, there was really no way.

He really tried his best.

Zhang Yuhe's sword array defense was really a bit outrageous.

Even if he tried his best.

He still couldn't break through the tight sword defense.

Then he killed Zhang Yuhe.

Taihua Supreme's face was as gloomy as water.

He no longer roared in anger, but silently swung his double hammers.

"I don't believe it."

"With my supreme divine power, I can't outlast you, a nine-step god king in the burst state."

Taihua Supreme thought silently.

He had already planned.

That is to fight with Zhang Yuhe.

He didn't believe it.

Zhang Yuhe's powerful burst magic can continue.

As long as he waits until Zhang Yuhe's burst ends.

Then it's his turn to show his power.

In Taihua Supreme's opinion.

If there is no burst magic blessing.

He only needs two hammers to smash Zhang Yuhe into slag.

...

Zhang Yuhe took on the attack of Taihua Supreme with a relaxed and calm look.

The world-suppressing gate on his body.

The battle was a stalemate.

Although the Chaos Sea monks had the advantage of geographical location.

After being suppressed by the Chaos Sea Origin and the formation in the city.

In the Holy Realm Army, whether it was Yuanshang God King or Yongheng Emperor.

Their strength was suppressed to the limit.

Not only were they unable to exert the power of rules.

Even the divine power aura was greatly restricted.

Despite this.

Relying on the absolute advantage in numbers.

The Holy Realm Army formed a huge battle of monks.

Fighting the attack on the gate, they bravely charged forward.

The two sides launched a fierce battle near the city wall.

Nangong Damao waved the Heaven Shaking Stick.

A top emperor of the Bolin Realm was swept away with one stick.

He looked back at the battlefield on Zhang Yuhe's side in the distance.

I couldn't help but feel a little confused.

Nangong Dame knew Zhang Yuhe's strength very well.

However, so far.

Why did Zhang Yuhe keep getting beaten but not fighting back?

Is there any other plan?

Nangong Dame didn't think so.

Zhang Yuhe would not be able to beat Taihua Supreme.

Under this heavenly gate.

As long as Zhang Yuhe displayed his terrifying fusion sword light.

He definitely had a chance to seriously injure Taihua Supreme.

But why didn't Zhang Yuhe take action?

Did he want to beat Taihua Supreme to death under this heavenly gate?

When this idea came to his mind.

Nangong Dame couldn't help but scare himself.

Can such a terrifying existence as the Invincible Supreme be killed?

In their previous concept.

The Supreme was invincible.

Even with the help of the origin suppression, they could repel the Supreme.

Section 1190

Yet they never thought about it.

He wanted to beat an invincible Supreme to death.

But they can't.

But it doesn't mean that Zhang Yuhe can't do it either.

Nangong Damo knows it very well.

Zhang Yuhe also has many clones.

And the strength of those clones is exactly the same as his own.

It can also trigger the explosion of magical powers.

If Zhang Yuhe finds the right opportunity.

With multiple clones erupting at the same time, it is indeed possible to kill an invincible supreme being.

"That would be crazy if that's the case."

Looking at the battlefield in the distance.

Nangong Dasho's eyes couldn't help but shine with a burning light.

If Zhang Yuhe could really kill an invincible supreme being.

So from now on.

Who dares to act recklessly around the Sea of Chaos anymore?

Think of this.

Nangong Damo excitedly waved the Sky-Shaking Stick and quickly rushed towards the enemies around him.

Although the war has been going on for a while.

But Zhenshitian is still as stable as Mount Tai.

Under the unanimous protection of everyone.

The huge Holy World army had no chance at all.

Fight into the gate of heaven.

The war has been going on in the void near the Tianguan City Wall.

But that's about it.

The Holy World army couldn't fight in, and the Chaos Sea monks didn't have the ability to fight into the army.

Although the two sides fought for a long time.

But the number of casualties was not large.

Whether it is the Sea of Chaos or the three holy realms.

The people participating on both sides all started with the level of God King.

to their state.

If the strength gap is not too big, or they are in some kind of desperate situation.

It won't be so easy to die.

Tens of millions of god-kings from both sides form countless combined attack formations.

Under the cover of the formation.

They work closely together and collaborate with each other.

The void surrounding the Tianguan City Wall was filled with darkness.

If there is no special transfer.

The army of monks formed by these supreme god kings and eternal emperors.

It is estimated that even if the fight lasts for tens of thousands of years, both sides will definitely be able to decide the winner.

In the chaotic battlefield.

Everyone unanimously turned their attention to Zhang Yuhe in the distance.

Everyone understands.

The person who can really influence the situation of the battle is over there.

Regardless of Zhang Yuhe, he repelled the three supreme beings.

It was the three supreme beings who beat Zhang Yuhe to death.

As long as one of the results appears.

This war will be over soon.

...

Chapter 832 Sword light, spear, hammer shadow

The two supreme beings, Paulin and Tianguang, stood quietly at the front of the Chaos Boat.

The two of them silently watched the fierce battle between Taihua Supreme and Zhang Yuhe.

As for the eternal battle scene of tens of millions of god kings on the far side of the city wall.

They didn't give it a second glance.

Because the two supreme beings know very well.

If they don't take action.

Just rely on those supreme god kings and eternal emperors.

It is simply impossible to capture this steel fortress that has been run by Chaos Sea monks for countless years.

Even if the Holy World army is very large.

But it is the three supreme beings who can really play a decisive role.

The main purpose of gathering the Holy World Army is to suppress the God King Monk of Chaos Sea Monk.

So that they can free their hands to deal with the Eternal Emperor of the Sea of Chaos with all their strength.

In the original plan of the three supreme beings.

Wait for them to deal with the Eternal Emperor of the Chaos Sea first, and then break into the Tianguan in one fell swoop.

Enter the sea of chaos.

But when Zhang Yuhe showed a terrifying explosive strength.

They immediately changed their minds.

Ignore those Eternal Emperors for now.

They want to hold off Taihua Supreme to prevent any accidents from happening.

What if Zhang Yuhe kills Taihua Supreme and walks away into the void of the Yangtze River.

That's the big trouble.

The fierce battle lasted for most of the day.

during this time.

The battle situation in the void near the city wall has always remained in a stalemate.

Although the holy army has a numerical advantage of hundreds of times.

But because of the suppression from the origin of the Chaos Sea.

Moreover, the Chaos Sea monks also have the amplifying effect of the formations in the city.

It can improve everyone's strength a lot.

the most important is.

There are also a group of eternal emperors from Nangong Desert, standing beside them.

Wherever there is a crisis, they will quickly provide support.

All of them are full-status eternal emperors.

Whether they are god king monks or eternal emperors in the holy army.

They are not their combined enemies.

If it weren't for the Holy World Army, which has been maintaining various combination formations.

It is estimated that Nangong Damo and others have already killed each other.

With the blessing of various advantages.

Although the Chaos Sea monks are temporarily unable to repel the Holy World army.

But they always kept each other firmly outside Guancheng.

That's absolutely true.

As long as the three supreme beings don't take action.

They can hold on forever until the Holy World army is completely exhausted.

...

Zhang Yuhe put his right hand behind his back, and quickly pinched the magic formula with his left hand.

Layers of sword energy light curtains continued to spread into the distance.

Guard yourself firmly within it.

Taihua Supreme worked hard and tried to advance forward several times.

As a result, he faced Zhang Yuhe and faced this endless sword energy formation.

There is absolutely no way.
