Section 1201

"This name is resounding, it's called Galaxy Holy World."

"But from now on, we can no longer call Fellow Daoist Zhang the Lord of the Galaxy Palace."

"You have to call him the Holy Lord of the Galaxy."

"right."

"Meet the Holy Lord of the Galaxy."

"Meet the Holy Lord of the Galaxy."

The twenty-one eternal emperors in the hall stood up almost at the same time.

Everyone looked at Zhang Yuhe and shouted respectfully in unison.

See this situation.

Zhang Yuhe was a little confused.

what the hell is this?

Didn't it mean that everyone got together to discuss post-war arrangements?

Why do you want to perform a drama about wearing a yellow robe?

Isn't this not good?

Zhang Yuhe pondered for a while, but he did not respond immediately.

In fact, he also knows.

For so many years, the Sea of Chaos has not been unified.

It's not that it's not necessary, nor that it's impossible.

Most of the major cosmic worlds in the Chaos River have a unified form.

Just like Mingxuanjie.

It is to form a unified cosmic world with Wan Kongyuan as the leader.

Only the Sea of Chaos is the exception.

In the nine heavens and ten lands of the Chaos Sea, each of the great eternal emperors is in charge of one side.

Only at Zhenshi Tianguan will they fight against the enemy together.

In normal times.

Everyone is doing their own thing.

Just like Nangong Desert, when the red gold veins were discovered.

He would rather drag Zhang Yuhe with him than find other Eternal Emperors.

Although they can work hand in hand.

But if the universe and the world are not unified, there will inevitably be a lack of cohesion.

Once something big happens.

Everyone still has to get together to discuss appropriate measures at the last minute.

It's very inappropriate.

Actually a long time ago.

Someone suggested that all forces should be united.

Form a unified force and realize the unification of the Chaos Sea, Heaven and Earth.

It's just because there is no truly outstanding leader in the entire Chaos Sea.

Everyone is the Eternal Emperor, and their strength is about the same.

What to do after unification?

Who will be the boss?

It's not easy to do.

So this proposal fell through later.

For a long time.

When the Chaos Sea is open to the outside world, it has always used the Shifang Palace to discuss matters.

to decide all external matters.

In fact, everyone hopes that the Sea of Chaos can be unified.

As long as there is a leader who convinces everyone, there will be a leader.

No one will reject it.

A unified universe is a good thing for everyone.

And Zhang Yuhe is such a person.

Everyone is convinced.

So faced with the proposal of Emperor Heihe.

There was almost no need for discussion and everyone quickly reached an agreement.

...

Chapter 839 The Holy World Cauldron, Eternal Eternity

Of course, Zhang Yuhe knew what everyone was thinking.

Everyone hopes.

The Chaos Sea can become a unified chaotic universe.

So far though.

When the Chaos Sea faced the outside world, there was never any big disagreement.

Everyone unites as one to fight against foreign enemies.

But this loose alliance, in action.

It's not that convenient after all.

If the Sea of Chaos were to be unified, it would be completely different.

That would not only be convenient, but also quickly mobilize resources and power to protect the safety of the Chaos Sea.

At the same time, you can better explore and collect various resources in the long river.

It will help improve the overall strength of the Chaos Sea.

Everyone understands.

Unification of heaven and earth is definitely a good thing.

about this matter.

Zhang Yuhe didn't reject it either.

But I want him to be the Holy Master.

He hesitated a little.

to be honest.

I have been on the path of spiritual practice for so many years.

Zhang Yuhe has never pursued issues of power.

He just wanted to practice quietly.

Power means responsibility.

He didn't want these things to affect his cultivation.

Zhang Yuhe was originally thinking.

From now on, I only need to take care of Donghua Palace a little bit, and I don't need to worry about other things.

If he is allowed to be the Holy Lord.

Then he has to take care of the monks in the entire Chaos Sea.

That would be too much trouble.

Zhang Yuhe doesn't like trouble.

Looking at the expectant eyes of everyone.

He hesitated.

He is also a part of the Chaos Sea.

We really need to put some effort into the development of this universe.

Moreover, as the Lord of the Holy World, he is not required to be responsible for specific affairs.

Just like it was in the fairy world.

The Dao Sheng Sect grew stronger all the way, just with the help of his influence.

Matters within the sect will naturally be handled by other people.

It doesn't require him to do it himself.

Think of this.

Zhang Yuhe looked at the crowd and responded slowly.

"Since the seniors are so kind, I will do my duty."

"Tell the world immediately."

"The holy realm is established."

Section 1202

"From now on, the Sea of Chaos is renamed the Galaxy Holy World."

"As for building a holy mountain and unifying the specific affairs of all parties in the holy world."

"Seniors, please discuss it and come up with a charter, and then we can get started."

"Yes, Holy Lord."

All the Eternal Emperors in the hall responded respectfully in unison.

...

Zhang Yuhe swept through the Holy Realm army at the Tianguan outside the territory and killed the three supreme beings.

Soon it spread throughout the entire Chaos Sea.

at the same time.

The emperors and kings informed the world.

The holy realm is established.

From then on, the Sea of Chaos was renamed the Holy World of the Galaxy, with the Lord of the Galaxy Palace as the Holy Lord.

When the news spread.

The entire Galaxy Holy World is boiling with excitement.

The Holy World army invaded earlier, and everyone was still a little panicked.

After all, those are the three holy realms.

There are three unrivaled supreme leaders.

Facing such a powerful enemy, no one can say that they will be able to defend it.

Once the extraterritorial gate is lost.

That means.

The Holy World army will march into the Sea of Chaos, and everyone will die without a burial place.

But what is unexpected is.

The war had just begun and it was already over.

The Holy Lord of the Galaxy wiped out the entire Holy World army with his own strength.

Even the three invincible supreme beings were killed by the Galaxy Holy Lord on the spot under the gate of heaven.

when hearing the news.

Everyone couldn't believe this was true.

Because this news is really incredible.

That is the invincible supreme being.

They were all beaten to death.

How powerful is the Holy Lord of the Galaxy? He is actually able to kill three supreme beings in a row.

Everyone wishes they could be in Tianguan and see the Holy Lord of the Galaxy with their own eyes, displaying his majestic power.

Unfortunately.

Except for the million god king monks, others have no chance at all.

They simply cannot gain a foothold in Tianguan until they reach the realm of the God King.

No chance to go outside the territory.

...

Following the emperors' call to the world.

The entire holy world quickly took action.

Countless monks, led by the God King and the Emperor, gathered in the Desert Heaven Realm.

Everyone started to build the holy mountain with the void near Donghua Palace as the center.

Zhang Yuhe also sent clones to the nine heavens and ten places in the holy world.

Teleportation arrays were built.

through these teleportation arrays.

From now on, monks from the Holy Realm will be able to travel to and from the Holy Mountain more conveniently.

...

One hundred thousand years later.

The Holy World held a grand celebration to welcome the Lord of the Galaxy to the throne.

All the major forces in the Holy World sent representatives to the Holy Mountain.

According to the results of the discussions among the emperors.

Zhang Yuhe divided the forces in the entire holy world into four levels: heaven, earth, xuanhuang.

The forces with the Eternal Emperor as their commander are called heaven-level forces.

The forces with the Supreme God King as their commander are called earth-level forces.

The forces controlled by the True God cultivators are Xuan-level forces.

The forces established by the virtual god monks are called yellow-level forces.

As for the forces established by monks below the virtual god, they are collectively referred to as not entering the stream.

According to the arrangements of the emperors.

As long as it is an influent force, representatives will be sent to the Holy Mountain to participate in the celebration.

The entire Galaxy Holy Realm is so vast.

There are so many forces above Huang rank that they are completely innumerable.

Fortunately, Zhang Yuhe had already arranged clones and established countless teleportation arrays in various places.

Otherwise.

Those monks who are below the true gods.

There is really no way to reach the Holy Mountain.

this day.

The holy mountain is majestic, with purple rising and auspicious clouds filling the sky.

Zhang Yuhe stands on a high platform on the top of the mountain.

Next to him, Nangong Dasho was holding a gold book.

Looking at the countless guests coming to congratulate him below.

He slowly unfolded the golden book and spoke loudly.

"Chaos begins, and all things begin."

"A saint has come to this world today."

"Sage Zhang, named Yinhe, opened a holy mountain here and established a holy world."

"The holy world is now standing, which benefits all living beings and will last for eternity."

"I hereby tell the world."

"Congratulations to the saint!"

"Meet the Holy Lord of the Galaxy."

As Nangong Damo's words fell, the surrounding mountains roared and the tsunami roared.

Everyone cheered excitedly.

The holy world stands in harmony, and heaven and earth are unified.

From now on.

In this vast river, there is no longer a world like the Sea of Chaos.

Instead, it is the Galaxy Holy Realm.

As a holy monk.

Everyone felt proud and their faces were filled with excited smiles.

Nangong Damo put away the gold book and respectfully handed it to Zhang Yuhe's hand.

Zhang Yuhe took the golden book.

I saw him reaching out a little, and the golden book slowly rose.

Dazzling golden light covered the heaven and earth, and the power of vast rules spread throughout the holy world.

See this situation.

Countless holy monks cheered heartily.

"Holy Lord of the Galaxy."

"Holy Lord of the Galaxy."

...

The celebration lasted for half a month before finally coming to an end.

As representatives of the major forces gradually returned.

The majestic holy mountain slowly returned to calm.

Zhang Yuhe stands on the top of the mountain.

A beautiful figure stood silently behind him.

Wu Yiyi looked at Zhang Yuhe's back, looking a little crazy.

Section 1203

After the establishment of the Holy Mountain.

Zhang Yuhe moved the tree of enlightenment to the dojo on the top of the mountain.

He no longer hides the tree of enlightenment in the cave like before.

Instead, he generously allowed Wu Yiyi to take root in the center of the dojo.

Her faint Taoist aura filled the entire dojo.

With Zhang Yuhe's current strength.

He no longer needed to cover up.

Wu Yiyi doesn't have to worry, someone will try to take advantage of her.

Everybody knows.

This is the Holy Lord Taoist Companion.

Don't mention that Wu Yiyi is in the dojo.

Even if she is alone, walking around the holy world.

No one dares to covet him.

Everyone would just shout respectfully.

【Saint Aunt】 .

...

Chapter 840 Return to the Long River

Wu Yiyi looked at Zhang Yuhe's back, her eyes seemed to have countless stars.

His face was full of admiration.

when she heard.

When Zhang Yuhe was at Tianguan outside the territory, he killed three invincible supreme beings in a row.

Wu Yiyi was stunned.

Since its birth from the origin.

She wandered in the holy world for countless years.

Not to mention the Invincible Supreme.

Wu Yiyi has never even seen the God King.

In her previous impression.

The God King is a high-ranking, indomitable figure.

But now Zhang Yuhe has a big battle.

He directly wiped out tens of millions of such a supreme god-king.

Even the Invincible Supreme killed three of them on the spot.

Although since the fairyland.

She has been staying with Zhang Yuhe.

Wu Yiyi also knew that Zhang Yuhe was very powerful.

But she never thought about it.

Zhang Yuhe has actually become so powerful that it is so terrifying.

If I hadn't seen Zhang Yuhe with my own eyes, he had grown rapidly from Daluo Immortal to where he is now.

She might even think so.

An old monster in Zhang Yuhe was reincarnated.

But Wu Yiyi knew very well.

Zhang Yuhe has cultivated all the way from an ordinary mortal to his current state.

It is not the reincarnation of anyone.

She also went to Blue Star and saw the place where Zhang Yuhe was born and grew up.

It only took tens of billions of years.

Zhang Yuhe has grown from a mere mortal to the invincible realm he is today.

How could Wu Yiyi not admire this?

As a creature born naturally from heaven and earth, she was not as good as Zhang Yuhe's case.

It's depressing to think about.

Zhang Yuhe stands on the top of the mountain.

Suddenly he turned around to look at Wu Yiyi and asked with a smile.

"Yiyi, do you want to come with me and see the scenery of the long river outside the territory?"

Hear this.

Wu Yiyi jumped for joy.

Zhang Yuhe was willing to take her with him wherever he went, which made her feel happy.

However.

Wu Yiyi's face quickly fell.

She said helplessly.

"forget it."

"The long river outside the territory is really too dangerous, so I will stay here at the Holy Mountain Dojo."

"Not going anywhere."

Although Wu Yiyi really wanted to follow Zhang Yuhe to Changhe outside the territory.

It is not the scenery of the long river that is so attractive.

She just hoped to be able to follow Zhang Yuhe quietly all the time.

But Wu Yiyi knew.

The long river is endless.

There are countless strong people.

If something unexpected happens, she will become a drag on Zhang Yuhe.

Although Wu Yiyi also hopes to go out with Zhang Yuhe.

But she didn't want to bring any trouble to Zhang Yuhe.

It would be nice to stay in this Holy Mountain Dojo.

No worries here.

No one will bother you.

Although Zhang Yuhe is about to leave.

But after he leaves, he will also leave a clone to sit on the Holy Mountain.

When she saw the clone, it was like seeing Zhang Yuhe.

There is no difference.

Zhang Yuhe nodded lightly.

Wu Yiyi's thoughts.

He understands.

There are countless dangers in the long river outside the territory.

If only he was alone.

That is truly fearless.

Anyway, he still has a clone, sitting in the holy world.

No matter how great the danger is.

Even if he falls into the river of chaos, it doesn't matter much.

As long as a clone remains, he can be resurrected quickly.

The powerful life-saving ability of the God and Demon Clone Technique is better than those of the invincible Supreme Body Fusion Source.

Even more convenient.

He is alone and has nothing to fear.

But if you bring Wu Yiyi, it will be completely different.

It doesn't matter if you die.

But Wu Yiyi only has one life.

If something unexpected happens, it may be lost forever.

Think of this.

Zhang Yuhe nodded lightly.

He said softly.

"Then you stay at the Holy Mountain Dojo."

"If you're really bored, you can wander around the Holy World by yourself."

"I will leave a trace of my breath on you."

Section 1204

"No one dares to disrespect you."

"Um."

Wu Yiyi responded softly.

...

The long river is empty.

A huge Chaos Divine Boat, like a blue dragon, quickly shuttles forward in the void.

This was the former ship of Pauline Supreme.

But now it has changed its owner and became the Galaxy Shenzhou.

Zhang Yuhe stood at the front of the Shenzhou, looking quietly into the distance.

After roughly settling things in the holy world.

He quickly teleported to Zhenshi Tianguan and entered the river of chaos.

The nine-step god king who has practiced to this day.

It is completely meaningless for Zhang Yuhe to continue to practice in the holy world.

He needs to find all kinds of strange secret and dangerous places in the long river.

To understand the corresponding Dao rules.

This is impossible in the holy world.

The rules of the holy world are not apparent.

He is not like the Supreme, who can blend into the origin.

You can explore the rules of the avenue hidden deep in the origin.

In the past 50 billion years in the holy world.

Zhang Yuhe has already understood that there are more than two thousand different avenues.

But there are still hundreds of avenue rules, and I have no clue at all.

He knows it very well.

The remaining rules of the avenue may not exist in the origin of the holy world at all.

Or it may not be fully cultivated yet.

It cannot be understood for the time being.

Zhang Yuhe wants to understand all the remaining rules of the great road.

Achieve the Three Thousand Great Ways and take it upon yourself.

Then he has to go to the Chaos River.

Explore strange secret places in the long river.

From those secret realms, the corresponding rules of the great road can be understood.

Zhang Yuhe stands at the front of the Shenzhou.

I saw him wave his right hand.

A vast map of the long river clearly appeared in front of him.

This is the result of countless eternal monks of the God King who have jointly explored and drawn it over the years in the Holy World.

The universe is unified, heaven and earth are unified.

Everyone contributed what they had seen and heard in the river.

The map will naturally be much more detailed.

Information sharing and resource exchange.

This is also the meaning of the unity of the holy world.

Zhang Yuhe looked at the map in front of him and frowned slightly.

He muttered to himself.

"The Taijin Mysterious Territory is so remote. There is not even a teleportation array from the Dao Alliance around."

"We can only rely on the Chaos Divine Boat to fly over slowly."

The map in Zhang Yuhe's hand is the most detailed one in the entire holy world.

But compared to the entire long river of chaos.

Still just a corner of it.

Even if it is only within the scope of the Three Holy Heavens.

There are still many places on the map that are not marked.

The Chaos River is really too vast.

There is truly no end.

Even the Lord of the Dao Alliance cannot accurately describe this long river of chaos.

How big is it?

Where does the long river come from and where does it ultimately flow?

About this question.

No one can explain.

The river is vast and boundless.

The area that the Holy World monks have explored over the years.

Not even half of the scope of the Three Holy Heavens.

Most places are blank.

Those places are holy monks, and no one has ever been there.

Or.

All those who have been there have fallen.

Couldn't bring back any news.

But that was before.

Now with the defeat of the three supreme beings.

In the future, the scope of activities of monks in the holy world will become wider and wider.

Maybe a few more epochs.

The traces of the monks from the Holy Realm will be spread throughout the Three Holy Heavens.

Zhang Yuhe kept adjusting the Yinhe's flight direction while looking at the map in front of him.

He is going to visit the Taijin Mysterious Realm.

The two divine kings Donghua and Duantian have been lost in the lost realm for so many years.

It's time to bring the two of them back.

more importantly.

Zhang Yuhe guessed.

The topography of the Taijin Confused Realm is strange, and perhaps it contains the rhythm of space rules.

Maybe he can.

From it, we can understand the avenue of space.

If that's the case.

He made a lot of money.

...

Chapter 841 Mysterious Space

Zhang Yuhe entered the river of chaos again.

His first goal was to go straight to the Taijin Mysterious Realm.

Many years ago.

When he first heard King Yuanhe talk about the Mysterious Realm.

I have some guesses about the strange terrain in this secret place.

The mysterious space is layered upon layers and is constantly changing.

A new independent space will be generated at any time.

It seems like a certain powerful person who controls the rules of space.

It's like constantly displaying magical powers.

In Zhang Yuhe's view.

It is very possible that a terrain like the Taijin Confused Territory contains a space avenue.

If that's the case.

Maybe he can, by comprehending the various visions in the Mysterious Realm.

In this way, he can understand the avenue of space, the supreme avenue of rules.

To verify my guess.

Zhang Yuhe almost didn't think about it and went straight to the Taijin Mysterious Territory.

If it really succeeds, he will make a lot of money.

Section 1205

As for saying.

Recovering the two divine kings Donghua and Duantian was just a matter of course.

...

The Galaxy Chaos Boat quickly sailed through the void.

Two hundred years later.

A huge vortex channel appeared in front of Zhang Yuhe.

The vortex was vast and boundless, as if it could swallow up everything around it.

Zhang Yuhe stood at the front of the Chaos Boat, silently watching the vortex channel in front of him.

Vast and mysterious divine power is constantly radiating from the vortex to all directions.

Anyone who looks at it will seem lost.

It is different from other secret realm entrances.

The position of the vortex channel in front of us is not fixed.

Instead, it has been moving slowly.

Even the speed at which the vortex channel moves is extremely unstable.

Sometimes extremely fast, sometimes extremely slowly.

If the monk passes by.

An accident.

It is very likely that he will be involved in the vortex channel.

See this situation.

Zhang Yuhe finally figured it out.

No wonder God King Donghua accidentally fell into this confusing realm.

Probably when he flew by nearby.

Being sucked into the vortex channel that suddenly and rapidly changed its position.

Zhang Yuhe closed his eyes slightly.

Silently comprehending the vast and mysterious power emanating from the vortex channel.

Just at this time.

The vortex channel rotated rapidly and swept towards Zhang Yuhe's direction.

Um?

Sense sudden changes.

Zhang Yuhe suddenly opened his eyes.

He quickly pressed the magic formula.

The Galaxy Chaos Divine Boat, like a blue dragon, quickly passed through the void.

Flying back hundreds of millions of miles continuously.

Look at the direction in which the vortex channel is rolling away.

Zhang Yuhe's eyes sparkled, and he murmured to himself.

"It's interesting."

"This secret realm seems to be alive."

"Will you take the initiative to capture the creatures passing by?"

Zhang Yuhe followed the whirlpool from a distance.

The more he looked at it, the weirder it seemed.

The vortex channel will not move early and will not move later.

But when he first arrived, there was a sudden riot.

If he hadn't been observing carefully.

He must have been involved just now.

Zhang Yuhe had never heard of a secret realm that would actively devour and capture living beings.

If it weren't for this Fang Taijin Confused Realm, it would have existed in Changhe for countless years.

Zhang Yuhe would even be suspicious.

Is there a powerful person controlling all of this in the secret realm?

But he knew it.

That's not the case at all.

Because in the entire Chaos River, except for the legendary Lord of the Void.

It's impossible for anyone else to be able to do this.

And the Void Lord of the Dao Alliance is obviously not bored enough to do such a thing.

no doubt.

The various inexplicable changes in the vortex channel are purely a natural reaction.

Maybe it was already like this when the secret realm was formed.

"Go and have a look first."

Zhang Yuhe followed the whirlpool passage and observed it quietly for a long time.

The decision was then made quickly.

Taijin Mysterious Realm is indeed scary.

Once a monk is lost in it, it is difficult to get out.

But Zhang Yuhe was not afraid.

He still has nine clones outside.

With the clone as a coordinate, he doesn't have to worry about getting lost in the secret realm.

Zhang Yuhe put away the Chaos Boat and quickly took off into the sky.

It flew directly towards the vortex channel in the distance.

as he neared the vortex.

A vast gravitational force swept over him.

He was soon involved in the passage.

Traveling through the vortex passage, Zhang Yuhe felt the layers of space around him.

It seems endless.

I don't know how much time has passed.

The vast gravity of the vortex channel suddenly disappeared.

Zhang Yuhe looked around.

I found myself in a strange, deserted space at this time.

There is nothing here.

No sky, no land.

Zhang Yuhe couldn't feel any life here.

Even the vast and endless aura of divine power in the long river.

There is nothing left here.

It seems like a magical place.

"No wonder the monks will be completely lost once they fall into this place."

Feel your surroundings.

Zhang Yuhe immediately understood the reason why those monks were lost.

There is not even a breath of divine power here.

Once trapped, the monks would not dare to use their magical powers excessively.

Because the divine power in their Dantian is limited.

If it is not replenished, it will be depleted very quickly.

Without the support of divine power, the monks can't do anything.

They probably don't even dare to fly and explore.

I can only sit there and slowly wait for the surrounding space to change.

If you're lucky.

Maybe he can be thrown out of the secret realm.

Zhang Yuhe closed his eyes slightly.

Silently feeling the changes in the surrounding space.

Just at this time.

A slight fluctuation came from a distance.

Zhang Yuhe suddenly opened his eyes.

He looked at his surroundings with an incredible expression on his face.

Because it was just a little while ago.

Section 1206

The space around him completely changed.

Although it looks like it is still deserted.

But Zhang Yuhe understood.

He is no longer where he was before.

Although he stood still and didn't move.

But the surrounding world has undergone a complete change.

See this situation.

Zhang Yuhe couldn't help but exclaimed.

"It's amazing."

"Quietly changing the world, what kind of shocking power is this?"

"Even the Void Lord of the Dao Alliance shouldn't be able to do this, right?"

The world changes instantly.

This is almost impossible to do manually.

The miraculous creation of heaven and earth is truly unimaginable.

"Such mysterious and unpredictable spatial changes should be the manifestation of the rules of the avenue."

"I'm not going anywhere, I'm just going to feel it here."

Think of this.

Zhang Yuhe immediately sat down cross-legged and closed his eyes slightly.

Originally he had planned.

After entering the confusing realm, first find a way to find the two god kings Donghua and Duantian.

After sending them out.

Slowly, in the secret realm, I realized the great avenue of space.

but now.

Zhang Yuhe has changed his mind.

He is not in a hurry to find the two god kings Donghua and Duantian.

Wait until he understands the rules of space.

Such a once-in-a-lifetime opportunity.

Once missed.

I don't know when the next time will be.

...

Chapter 842 The Essence of Space

Zhang Yuhe sat cross-legged on the spot, silently comprehending the rhythm of the surrounding space.

A square of independent space in the Mysterious Domain is constantly being generated.

Then quickly disappeared.

Zhang Yuhe could clearly sense it.

These disappeared spaces have not been destroyed.

Instead, they are moving towards the depths of the Enchanted Realm, constantly superimposing.

Layers of space are intertwined.

It seems endless.

Once the monk falls into it.

Slowly it will be transported to the depths of the secret realm by these overlapping spaces.

Without extreme luck.

It's almost impossible to escape.

This is exactly the terrifying thing about Taijin Lost Realm.

Although this secret realm will not cause direct harm to the monks.

But being stuck in such a magical place, you can never get out.

I can no longer continue practicing.

A monk with a slightly worse character is in such an environment.

Wouldn't that make you crazy?

The secret spaces are layer upon layer, and the world is constantly evolving.

It's as if there is some omnipotent creator.

An independent world space is created here.

Space is constantly evolving.

Zhang Yuhe silently realized.

Various mysterious thoughts were constantly forming in his mind.

The essence of space, the creation of the world.

it's here.

Zhang Yuhe seemed to have seen the origin of all space in the world.

a long time ago.

Zhang Yuhe has always believed that all matter in the world is composed of countless tiny particles.

Particles decompose infinitely, and there is never a smallest state.

However, when he entered the long river of chaos.

Zhang Yuhe suddenly discovered it.

The magical power of teleportation he originally created cannot be used in the long river.

It's not because of lack of divine power.

But he simply couldn't see through the nature of Changhe's structure.

Find the fundamental building blocks of long rivers.

But when he entered the realm of Taijin.

Feel the evolution and death of various spaces in the realm of fascination.

Zhang Yuhe finally captured the essence of these spaces.

It was the same as his previous guess.

The various spatial structures in the Mysterious Realm are also composed of tiny particles.

It's just that he couldn't see it at all in the chaos before.

But here it is.

The continuous evolution of space, the composition and essence of space, finally appeared clearly in front of Zhang Yuhe.

Through the nature of space.

He saw those particles that had been decomposed countless times.

These tiny particles eventually combine to form a huge square space.

"I see."

Zhang Yuhe was thoughtful.

As long as the theory is correct.

Then his magical power of teleportation will be useful.

Zhang Yuhe has become accustomed to relying on the infinite magical power of heaven and earth to quickly teleport far away.

But after entering the long river of chaos.

However, this magical power has no clue and cannot be used at all.

In the end, he could only do the same as other monks.

Take a long journey on the long river by riding the Chaos Divine Boat.

This kind of efficiency is really too slow.

This made Zhang Yuhe very unhappy.

That's why he went straight to the Taijin Confused Realm.

I hope to be able to understand the rules of the middle space avenue here.

Then through the power of rules, the purpose of transmission is achieved.

With various insights, they continue to appear in my mind.

Zhang Yuhe suddenly understood.

I seemed to have understood it wrong before.

The essence of teleportation magical power is not to rely on the power of space rules.

Rather, it is through the rules of this avenue to understand the structural nature of space.

Eventually, the tiny particles that make up the space will be revealed one by one.

Then these tiny particles are used to achieve the purpose of transmission.

Section 1207

Zhang Yuhe suddenly understood.

Simply understanding the rules of space is not enough to use teleportation powers in the long river of chaos.

The power of rules is the foundation, and transmitting magical powers is the important means.

If there is no magical blessing.

It is obviously impossible to teleport solely by relying on the power of rules.

That is to say.

Even other monks have also understood the rules of space.

It may not necessarily be possible to teleport in the long river of chaos.

certainly.

The great road has countless supernatural powers.

Zhang Yuhe was able to create the teleportation power of Heaven and Earth Wuji.

Others will naturally have the opportunity to create other similar teleportation powers.

For example, Lord of the Void.

Legend has it that this Tao Alliance Lord can teleport through the river of chaos.

It is estimated that Lord Void, like Zhang Yuhe, also created a similar magical method.

Supernatural powers are the means, and the rules of the great road are the foundation.

If there is no foundation, no matter how mysterious the method is, it will be impossible to use it.

If there are no suitable means, no matter how solid the foundation is.

Also powerless.

Zhang Yuhe already had magical powers.

When I was in the fairy world.

He created the magical teleportation power of Heaven and Earth Wuji.

What Zhang Yuhe lacked was just the basics.

As long as the avenue of space is understood, the tiny particles of space will be formed.

Able to analyze clearly.

Then he will definitely be able to use teleportation powers in the long river of chaos.

Zhang Yuhe sat cross-legged in the void.

Various thoughts kept flashing in my mind.

I don't know how much time has passed.

Zhang Yuhe slowly opened his eyes, a faint smile appeared on his face.

He muttered to himself.

"It turns out this is the Space Avenue."

"The greatest truth is simplicity. I thought it was too complicated before."

Zhang Yuhe stood up slowly.

I saw him making a stroke with his right hand.

A vortex of particles gradually appeared in the void.

The particle vortex is not that big.

Only three feet in diameter.

Just enough for one person to walk through.

Through the particle vortex.

Zhang Yuhe could clearly see the towering holy mountain of the Galaxy Holy Land.

Across an endless distance.

Teleport magical powers directly to the holy world.

From now on, he won't have to drive the Chaos Divine Boat around the Yangtze River.

You can teleport directly wherever you want.

See this situation.

Zhang Yuhe couldn't help but show an excited expression on his face.

After a while.

The particle vortex slowly collapsed, and the void returned to calm.

Zhang Yuhe made another stroke with his right hand.

The particle vortex reappears.

After many attempts.

Zhang Yuhe suddenly discovered it.

Teleporting in the long river of chaos is not without limits.

He is in the Taijin Mysterious Realm and can directly teleport to the Galaxy Holy Realm.

Even further afield.

But that's about it.

If it goes beyond the scope of the Three Holy Heavens, the power of the particle vortex will not be able to penetrate it.

That is to say.

He can currently only teleport within the Three Holy Heavens area.

If you leave this area.

You have to reopen the particle vortex and keep moving forward.

Watching the vortex of particles in the void.

Zhang Yuhe was thoughtful.

"Maybe my understanding of Space Avenue is not enough."

"Wait until I advance this avenue of rules to a perfect level."

"You should be able to teleport farther, right?"

"Try other applications of space rules."

Think of this.

Zhang Yuhe quickly used the magic formula.

Layers of invisible fluctuations slowly spread towards the distance.

He added the rules of space to the magical power of wave.

Fluctuations pass through the layers of space, changing the situation of the entire secret realm.

Everything was clearly presented in his mind.

...

Chapter 843 God King Donghua is confused

With the blessing of space rules.

The range of the wave power's magical power extends infinitely into the distance.

The entire situation in the secret realm was clearly presented in front of Zhang Yuhe.

Even if there are layers of space barriers, it still does not affect the spread of the power of rules.

The rules of space seem to be able to ignore everything.

Even outside the secret realm, there is a long river of chaos around it.

Zhang Yuhe can see clearly through the magical power of Wave Dao.

After mastering the avenue of space.

Zhang Yuhe's detection range has increased by almost hundreds of times.

This is just the simplest application of space rules.

as a supreme rule.

The Space Avenue is naturally impossible and will only be used for investigation.

"Try the attack power of Space Avenue again."

Think of this.

Zhang Yuhe waved his right hand.

I saw a dazzling sword light flashing between heaven and earth.

The sword light spread across the sky.

Directly split the void in the distance into two.

"So strong."

See this situation.

Zhang Yuhe couldn't help but be amazed.

The long river of chaos is extremely stable.

Not to mention a nine-step god king like him.

Section 1208

Even the invincible supreme being could not destroy the void of the long river.

Even if the supreme being used all his strength, it was still impossible to break the void.

But now Zhang Yuhe did it.

He did not activate the magical power of returning to oneness of the primordial chaos, nor did he use the God and Demon Sword.

He just swung out an ordinary sword light.

He could neatly split the stable void of the long river of chaos into two.

This is the power of the Great Dao of Space.

Shattering the void with a wave of his hand.

If this rule power is applied to a cultivator.

Who can stop it?

Even the invincible supreme being.

It is estimated that he cannot stop such a powerful space cutting force.

Zhang Yuhe even thought.

If he had mastered the Great Dao of Space before.

Then when dealing with the three supreme beings last time, he probably didn't need the nine clones to attack at the same time.

Maybe he only needed to activate three or five clones.

He could cut all the three supreme beings into pieces.

He mastered one more rule of the great Dao, and it was the supreme great Dao of Space.

This has raised Zhang Yuhe's current strength to a new level.

"Don't go back for now, wait until you push this rule power to the state of perfection."

After comprehending the Great Dao of Space.

Zhang Yuhe did not leave immediately, nor did he rush to find the two God Kings Donghua and Duantian.

In fact.

Just now, when he activated the wave path magic power and swept across the entire secret realm.

He had already seen the figures of Donghua and Duantian.

The current condition of these two people is fine.

They are not injured.

Except that they can't get out, there is no danger for the time being.

So Zhang Yuhe is not in a hurry.

Wait until he pushes the space rules to the state of perfection.

Then send these two people back.

Anyway, it won't take too long.

With Zhang Yuhe's extraordinary understanding.

As long as he comprehends the rules of the Great Dao, it won't be a difficult task later.

It only takes a few hundred years at most.

He can push a rule of the Great Dao to the perfect level.

Anyway, the two God Kings Donghua and Duantian have been trapped in the maze for billions of years.

I guess the two of them don't need this little time.

Zhang Yuhe continued to sit cross-legged in the void, silently comprehending the changes in the Great Dao of Space.

At the same time.

His nine clones were also comprehending the new rules of the Great Dao in various places.

...

Time passed quickly.

Three hundred years later.

Zhang Yuhe slowly stood up.

He casually pinched the magic formula.

Feeling the vast power of the rules of space around him.

Zhang Yuhe muttered to himself.

"Finally done."

"Now it's time to send the two God Kings Donghua and Duantian back to the Holy Realm."

Thinking of this.

Zhang Yuhe quickly pinched the magic formula.

Layers of invisible waves quickly spread towards the distance.

After a while.

Zhang Yuhe locked the position of God King Donghua.

Although he had never seen God King Donghua himself.

But after all, he had stayed in Donghua Palace for hundreds of billions of years.

As the founder of Donghua Palace.

There would naturally be a statue of God King Donghua in the sect hall.

Zhang Yuhe made a stroke with his right hand.

A small particle vortex slowly appeared in the void.

He took a step forward.

He quickly crossed the layers of space and appeared next to Donghua God King.

Seeing that there was suddenly another person in front of him.

After Donghua God King stood up suddenly, he quickly took two steps back.

At the same time, he sacrificed his natal sword, then looked at Zhang Yuhe and asked vigilantly.

"I am Chaos Sea Yu Donghua, I wonder what your name is?"

Seeing Zhang Yuhe suddenly appear.

Donghua God King's first reaction.

That is.

He thought Zhang Yuhe was also a cultivator trapped in the Taijin Maze.

It was just because the space in the secret realm was constantly changing.

Maybe it was just a coincidence.

So he moved Zhang Yuhe to his side.

Donghua God King had never seen Zhang Yuhe before.

He only thought he was a cultivator from the outer universe.

There are countless worlds in the Chaos Long River.

When cultivators from different universes meet in the Long River.

It is hard to say how friendly they are.

Therefore, Donghua God King must be careful and alert.

To avoid being attacked by others.

Looking at Donghua God King's alert face.

Zhang Yuhe smiled and said.

"I am Zhang Yuhe, from the Galaxy Holy Realm, which is the Chaos Sea you mentioned."

"Galaxy Holy Realm?"

Hearing Zhang Yuhe's words.

Donghua God King was a little confused.

When did another holy realm appear within the scope of the Three Holy Heavens?

Galaxy Holy Realm?

He had never heard of it before.

Has it been a long time since I was trapped here?

To the extent that a new holy realm was born within the scope of the Three Holy Heavens?

It shouldn't be possible.

Donghua God King calculated quickly with his hands.

He wanted to accurately calculate.

How long has it been since he was trapped here.

After a while.

He muttered to himself in his heart.

"That's right, it's only been less than 60 billion years."

"The time is not too long."

Section 1209

"Is it possible that a holy world will be born within the scope of these three holy heavens?"

"wrong."

God King Donghua seemed to suddenly remember something.

He looked at Zhang Yuhe and asked excitedly.

"The Galaxy Holy World you just mentioned is the former Sea of Chaos?"

"The Sea of Chaos has now become a holy realm?"

"Which Eternal Emperor has been promoted to the supreme realm?"

God King Donghua didn't pay much attention before.

Only now did he remember.

The Galaxy Holy World that Zhang Yuhe just mentioned seems to be the Sea of Chaos.

In the understanding of Donghua Divine King.

Only the chaotic universe where the Invincible Supreme sits can be called a holy world.

There are many eternal emperors in the Chaos Sea.

He didn't know much about these eternal emperors.

Could it be that there really was an emperor during the time he was away?

Promoted to Invincible Supreme?

Seeing the excitement of God King Donghua.

Zhang Yuhe responded with a smile.

"There is currently no emperor who has been promoted to the Supreme Realm."

"But the sea of chaos you mentioned is indeed a holy world now."

"It's a holy world that no one dares to mess with."

...

Chapter 844 Let me send you back first

"Has the Sea of Chaos really become a holy realm?"

I heard Zhang Yuhe confirm again.

God King Donghua is still the same, with a face full of disbelief.

This news is really shocking.

After being trapped in the Lost Realm for tens of billions of years, the world has changed outside.

Even the Sea of Chaos has become a holy realm.

He simply couldn't believe it at all.

Just don't know.

It was the Eternal Emperor who was promoted to the Supreme Realm and brought the Sea of Chaos to the level of the Holy Realm.

Think of this.

God King Donghua looked at Zhang Yuhe and asked eagerly.

"Fellow Daoist Zhang, I wonder which emperor has been promoted to the Invincible Supreme?"

"Is it Senior Nangong, or the two emperors Beiyuan or Heihe?"

Zhang Yuhe responded with a smile.

"It's not a hurry. You'll find out later when you go back."

Zhang Yuhe did not respond directly, but casually avoided the topic.

What did he say?

You can't always tell.

Was he the one who killed three invincible supreme beings in succession, and then brought the Sea of Chaos to the level of the Holy Realm?

Even if he says so.

I guess God King Donghua wouldn't believe it either.

Who would believe that he, a nine-step god king, could beat the Invincible Supreme to death?

Unless you see it with your own eyes.

Otherwise.

Others will only regard it as a legend.

Hearing Zhang Yuhe's words.

Donghua Divine King couldn't help but be stunned.

Is there anything that can't be said?

Is there any secret in this?

Think of this.

God King Donghua pondered for a while, and then continued to ask.

"Zhang Daoyou looks a little unfamiliar. I wonder if he also comes from the Sea of Chaos."

Until this time.

God King Donghua is still a little skeptical.

Because the cultivation level displayed by Zhang Yuhe is at the nine-step divine king level.

But he had no impression of Zhang Yuhe.

Although there are countless Chaos Sea God Kings.

There are nearly a million.

It is naturally impossible for God King Donghua to know all the God King monks.

However, there are not many people who can cultivate to the Nine Steps of God King Realm.

Even if he doesn't know him.

There should be some impression.

Seeing God King Donghua, I still had some doubts.

Zhang Yuhe responded with a smile.

"Speaking of which, we are still from the same clan."

"I am also from Donghua Palace."

"It's just that when I added Donghua Palace, fellow Taoist, you were already trapped in this confusing realm."

Speaking of which.

Zhang Yuhe moved his right hand, took out a jade talisman and handed it over.

Then he continued to speak.

"This is the talisman of Palace Master Yuanhe."

"You'll understand once you take a look."

God King Donghua took the jade talisman and examined it carefully.

On the surface of the jade talisman is a trace of the divine soul mark of Yuanhe God King.

He knew it as soon as he saw it.

This is the specially made token of Yuanhe Divine King.

Zhang Yuhe holds the token of God King Yuanhe, so he is naturally one of his own.

Until this time.

Only then did God King Donghua put away his doubts.

He handed the jade talisman back.

Then he said with emotion.

"I didn't expect that after all these years since I left, there would be people like fellow Taoist people joining the sect."

"After we go out, we must have a few drinks, haha."

Zhang Yuhe responded with a smile.

"This matter is not urgent. Let's go find King Duantian God first."

"Then we will return to the Holy Realm together."

"What? Is Duantian also trapped in the Lost Realm?"

"wrong."

"You can find other people in the Lost Realm."

"You can also take us out."

Zhang Yuhe smiled and nodded.

I saw him wave his right hand.

A small vortex of particles slowly appeared in the void.

Looking through the vortex to the other side.

I saw a tall monk sitting quietly in the void.

"Duan Tian."

Section 1210

Seeing the figure on the other side of the vortex, God King Donghua couldn't help but exclaimed loudly.

He didn't know.

After he was trapped in the maze.

God King Duantian took the initiative to enter the secret realm and wanted to take him back.

As a result, both of them were trapped in this maze for tens of billions of years.

Now seeing the figure of God King Duantian, God King Donghua was full of emotion.

Zhang Yuhe smiled and said.

"Let's go, let's meet up with Duantian, and then go back together."

God King Donghua looked at the vortex channel in the void and asked with some confusion.

"How do we get through?"

"Just go through this channel directly?"

Zhang Yuhe nodded gently.

He responded lightly.

"Yes, this is the void channel I opened temporarily, and you can teleport directly there."

"This..."

God King Donghua looked at a blank face.

For a moment.

He didn't know what to say.

Void teleportation.

What level of great magical power is this?

He had never heard of it before.

However, looking at the figure of Duantian on the opposite side, and thinking of the letter from Yuanhe God King before.

Donghua God King was not too entangled.

He took a step forward.

He was quickly teleported.

Zhang Yuhe also flew into the particle vortex.

Seeing the two people suddenly appear.

Duantian God King simply couldn't believe his eyes.

He looked at Donghua God King and shouted excitedly.

"Grand Palace Master."

"Duantian, I haven't seen you for many years."

"I didn't expect you to come to this maze to find me."

"It's really too reckless."

"I think you knew the situation in Taijin Maze before."

"Unless the fusion of Dao succeeds and evolves its own world."

"Using the world outside to locate can ensure that you will not get lost."

"Otherwise."

"After entering, don't think about going out again."

Duantian God King scratched his head.

He responded with a somewhat embarrassed expression.

"I didn't think so much at the time."

"I just came to take a look."

"Who knew that this Taijin Maze would be so difficult."

"I was just approaching the entrance to the secret realm and was directly swept in."

"By the way, Palace Master, you haven't introduced this fellow Taoist yet, what is the name of this fellow Taoist."

The God King Duantian immediately changed the subject.

He looked at Zhang Yuhe next to him and asked the God King Donghua.

"Haha, let me introduce you."

The God King Donghua stretched out his hand and looked at Zhang Yuhe, then said with a smile.

"This is Zhang Yuhe, fellow Taoist Zhang."

"He is the new fellow Taoist who joined Donghua Palace after we left."

"Oh, it turns out that fellow Taoist Zhang is also a fellow disciple of our Donghua Palace."

"Welcome, welcome."

"I didn't expect that after not going back for billions of years, there are new fellow Taoists who joined the sect."

"Haha."

The God King Donghua responded with a smile.

"There are many things you don't know."

"During the time we were away, not only did Donghua Palace gain the Supreme God King Zhang Daoyou."

"Even our Chaos Sea has risen to the level of the Holy Realm."

"What?"

"Holy Realm?"

"Chaos Sea?"

"Isn't that impossible?"

"Is there any emperor who has been promoted to the Invincible Supreme?"

"Why have I never heard of it?"

Donghua God King shook his head and said with a smile.

"I don't know the details very well."

"These things were just told to me by Daoyou Zhang."

Seeing God King Duantian, his face was full of disbelief.

Zhang Yuhe responded lightly.

"Some things can't be explained clearly in a short time."

"When you return to the Holy Realm, you will naturally understand everything."

"I'll send you back first."

...

Chapter 845 You didn't make a mistake, did you?

"Send us back?"

"Everyone is trapped in the maze, how can you send us back?"

God King Duantian hasn't reacted yet.

Just Zhang Yuhe made a stroke with his right hand.

A small particle vortex slowly appeared in the void.

Looking across the vortex channel.

The scene inside the mountain gate of Donghua Palace suddenly appeared clearly in front of him.

Seeing such a situation.

God King Duantian was completely stunned.

This...

Directly breaking through the void and opening the transmission channel.

What kind of magical power is this?

What kind of strength is needed to achieve this step?

God King Duantian simply couldn't imagine it.

Is Zhang Yuhe really just a nine-step God King on the surface?

Is he a fellow disciple of their Donghua Palace?

Duantian couldn't believe it.

It can't be fake.

He almost thought that what God King Donghua said just now.

Was he lying to him.

Or.

Did God King Donghua say such nonsense because he was coerced and controlled by someone?

God King Duantian was at a loss.

He looked at Zhang Yuhe warily, and then looked at God King Donghua.
