

## Top talent 1211

### Section 1211

It seems that he is trying to find a reasonable answer.

"Hahaha."

Seeing King Duantian, he had a somewhat suspicious expression.

God King Donghua laughed heartily.

He responded with a smile.

"Duantian, don't think too much."

"It's always a good thing to be able to return to Donghua Palace."

"As for other issues, we will naturally understand them all after we go back."

After saying this.

God King Donghua took one step forward, stepped into the whirlpool channel, and quickly disappeared from the scene.

I saw the Donghua God King disappearing from the whirlpool passage and appearing in the Donghua Palace on the opposite side.

King Duantian finally felt relieved.

He turned back and cupped his hands towards Zhang Yuhe, while saying gratefully.

"Thank you, Fellow Daoist Zhang, then I will take the first step."

Zhang Yuhe gestured with his hands, and then responded calmly.

"Please give my regards to Palace Master Yuanhe."

The vortex channel slowly closed.

Looking at the direction in which the two disappeared, Zhang Yuhe stood quietly.

He did not follow and returned to the Holy Realm together.

Zhang Yuhe planned to continue to feel the vast aura of the great avenue in the Lost Realm.

Although he has advanced the rules of space to a perfect level.

But you can still continue to understand.

The monks divide the rules of the Tao into four levels: entry, minor success, great success, and perfection.

But that doesn't mean.

Once the rules of the Great Dao are advanced to the level of perfection, there is no way forward.

The road is boundless.

You can explore endlessly.

The perfection of the road is not the end, maybe it is just an alternative starting point.

Zhang Yuhe continued to sit cross-legged in the void, silently sensing the Taoist aura around him.

All kinds of mysterious thoughts kept rising in his mind.

...

Donghua Palace.

A vortex of particles hangs high in the sky.

The two divine kings, Donghua and Duantian, walked out of the passage one after another.

Looking at the familiar scene in front of me, I felt the familiar atmosphere inside the mountain gate.

Donghua God King murmured to himself.

"Trapped in the Lost Realm for tens of billions of years, now I'm finally back."

The King Duantian next to him also responded.

"Yeah, I'm finally back."

"It's not easy."

"In the past, few of the God King monks who fell into the Taijin Realm could come out."

"If we can come back, we must express our gratitude to Fellow Daoist Zhang."

"By the way, where is the origin of Fellow Daoist Zhang?"

"Is he really also a fellow disciple of our Donghua Palace?"

Regarding the previous words of Donghua God King.

Duan Tian has always had doubts.

Their Donghua Palace is just an ordinary big force in the Desert Heaven Realm.

A nine-step god king like Zhang Yuhe, a nine-step god king whose magical powers are extremely heaven-defying.

It can even break through the void and open the transmission channel.

The nine-step god king with such heaven-defying methods.

How could it be possible to join Donghua Palace?

This is simply impossible.

Moreover, Zhang Yuhe looked like he wanted to speak but hesitated just now.

That's not all.

It left him completely confused.

King Duantian always felt that.

There should be some other things hidden inside.

Of course.

One thing is for sure.

That is.

Zhang Yuhe must have good intentions towards Donghua Palace.

Otherwise.

They will not be sent back to Donghua Palace.

Face the problem of breaking the sky.

In fact, Donghua Divine King is also confused.

He fell into confusion earlier than Duantian.

Things about the outside world.

It is naturally impossible to know more than Duan Tian.

Just at this time.

Two figures flew across the sky and earth, flying towards them quickly.

See this situation.

God King Donghua said with a smile.

"Yuanhe is here."

"Now the questions in our minds will soon be answered."

"He has always been in charge of the sect, so he naturally knows what is going on."

Divine King Yuanhe and Duan Changqing suddenly felt two familiar auras coming to the sect.

They immediately walked out of the hall and flew towards the direction where the breath came from.

soon.

They saw two familiar figures.

King Yuanhe shouted excitedly.

"Donghua, Duantian, you are finally back."

Duan Changqing also shouted.

"I've met the First Palace Master and the Second Palace Master."

Divine King Donghua took a deep breath and shouted excitedly.

"Yuanhe, long time no see."

"Evergreen, tens of billions of years have just passed."

"I didn't expect you to be promoted to the God King Realm. Congratulations, congratulations."

Duan Changqing responded with a smile.

"I also have the blessing of the Holy Lord."

"Otherwise, how could we have reached this point so easily."

Hear this.

Donghua and Duantian looked at each other, and then asked solemnly.

"Holy Lord?"

"Which senior is the Holy Master you are talking about?"

"I heard from fellow Daoist Zhang before that the Sea of Chaos has been promoted to the Holy Realm."

"But he didn't tell me the specifics."

"By the way, there is also the matter of Fellow Daoist Zhang."

"Is he really also a fellow disciple of our Donghua Palace?"

Looking at the confused expressions of the two people.

King Yuanhe said with a smile.

Section 1212

"It's a long story."

"Let's go in first, sit down and talk slowly."

"good."

A group of four people flew across the sky and quickly arrived at Donghua Hall.

Wait until you are seated.

King Duantian couldn't wait to ask.

"Junior Brother Yuanhe, please tell me quickly."

"Which emperor has been promoted to the invincible supreme?"

"And that fellow Daoist Zhang, what's going on?"

King Yuanhe pondered for a while, then asked with a smile.

"You were able to escape from the Taijin Realm. It should have been sent back by the Holy Lord."

"Except for the Holy Lord."

"I really can't think of anyone who has that ability."

"I can accurately find your location in the layers of confusion."

"And transport you safely back to the Holy Realm."

Hear this.

The two divine kings, Donghua and Duantian, were completely stunned.

"Yuanhe, you are not mistaken."

"You're talking about Zhang Yuhe, fellow Taoist Zhang, who sent us back."

"Is this the Lord of the Holy World?"

"This isn't right."

"The aura on his body seems to be at the Nine-step God King level."

"If you don't even have the Dao, how can you lead the Sea of Chaos to the level of the Holy Realm?"

"No way, absolutely impossible."

"I guess you made a mistake."

...

Chapter 846 Seeing the River of Chaos

I saw the disbelieving expressions on their faces.

King Yuanhe couldn't help but sigh.

to be honest.

Who would believe it.

Zhang Yuhe, the nine-step god king, was able to kill three invincible supreme beings in a row?

Even with the help of the suppression of the origin of the universe, it is still very incredible.

Except for these parties.

I once saw what happened at Tianguan in the outer territory with my own eyes.

It's really hard for other people to believe it.

But that's what it is.

There were so many of them who saw Zhang Yuhe kill three invincible supreme beings with their own eyes.

Sweeping tens of millions of foreign god kings forever.

The invincible divine power was unforgettable to anyone who saw it at that time.

King Yuanhe pondered for a while, then took a deep breath.

He spoke slowly.

"That's not a mistake."

"The person who sends you back must be the Holy Lord."

"Because only he has the ability to bring you out of the confusion."

"Especially his teleportation power. It is estimated that it will be difficult to find a few more in the entire Chaos River."

"As for the Holy Lord's cultivation, it is indeed only the Nine-Step God King Realm."

"But his strength cannot be viewed in terms of his cultivation level."

"Not to mention the God King monk, even the top Eternal Emperor is not the enemy of the Holy Lord."

"Even the legendary Invincible Supreme is no match for the Holy Lord."

"One hundred thousand years ago."

"The three holy worlds join forces to invade the holy world."

"The God King is forever overwhelming, and the three supreme beings are also taking action together."

"That terrifying power is enough to level the entire Three Holy Heavens."

"However, in the face of the divine power of the Holy Lord, the three holy realms are like chickens and dogs, which is not enough."

"The Holy Lord continuously displays great magical powers."

"Not only will tens of millions of God-King Eternals be wiped out, they will all be wiped out."

"Even the three invincible supreme beings were also beheaded by the Holy Lord on the spot under the gate of heaven."

"Even killed the Invincible Supreme?"

Hear the narration of Yuanhe Shenwang.

The two divine kings Donghua and Duantian had incredible expressions on their faces.

What a powerful existence the Invincible Supreme is.

He will actually die.

And he was beaten to death by a nine-step god king.

How can people believe such myth-like legends?

God King Yuanhe looked into the distance and responded with a leisurely expression.

"yes."

"The three invincible supreme beings are all dead."

"The Holy Master only made one move and killed the three supreme beings at the same time under the gate of heaven."

"Although the matter has passed, a hundred thousand years ago."

"But that sword light across the sky, that vast and incomparable divine power."

"When I think about it now, it still makes people infinitely yearn for it."

After listening to the narration of Yuanhe Shenwang.

Donghua and Duantian couldn't help but fell into silence, they were completely stunned.

Is there really such a powerful nine-step god king?

It's simply unthinkable.

After a long time.

Donghua God King murmured to himself.

"The nine-step divine king reverses and kills the invincible supreme being. What a divine power that is."

"I wish I could see it with my own eyes."

"If I had known that Fellow Daoist Zhang was the Lord of the Holy World."

"We shouldn't have been in a hurry to come back in the first place."

"If we can follow the Holy Lord and stay in the Lost Realm for a while longer."

"It will definitely benefit a lot."

King Duantian also responded in annoyance.

"Who says it isn't?"

"The Holy Lord is so powerful, if you can follow him."

"Perceiving the Taoist aura escaping around him, maybe I can take a step further."

"Haha, this is not urgent."

"The Holy Lord has left a clone that sits on the Holy Mountain."

"If anything happens, we can see you at any time."

King Yuanhe laughed.

The four of them gathered together happily.

King Duan Tian suddenly asked.

"Brother Yuanhe, when we were in the secret realm before, I heard from the Holy Lord that he was also from our Donghua Palace?"

"Is this true?"

"Indeed."

Divine King Yuanhe smiled slightly, as if he was recalling the past.

He slowly opened his mouth to respond.

Section 1213

"That was more than 50 billion years ago, not long after you fell into the Lost Realm."

"The Holy Lord has just entered the Holy World from the primitive world."

"I sensed the aura of the lead-in order on him."

"Let's arrange for Chang Qing to introduce him into the sect."

"The Holy Master has been in Donghua Palace since then, cultivating to the current state."

"to be honest."

"No one expected that."

"I was a virtual god who first entered the holy world."

"It has only been 50 billion years, but it has grown to the point where it can kill the invincible supreme being."

"When I think about it now, it feels like I'm dreaming."

The four of them sat around the hall and talked about the major events that had happened in the past few years.

From the destruction of Tianyang Sect, to the invasion of the three holy realms.

Picking up Zhang Yuhe from Duan Changqing, he was intercepted and killed by evil spirits from outside the territory on the way.

Speaking of the war outside the territory, Zhang Yuhe slashed the Invincible Supreme with his sword.

Scene after scene, it seems like it happened yesterday.

Hearing this, the two divine kings Donghua and Duantian couldn't help but feel excited.

There is nothing like this among the most talented people.

...

Taijin Confused Realm.

Zhang Yuhe sat cross-legged in the void, various insights constantly emerging in his mind.

The origin of space in the realm of confusion is manifested.

It can make people clearly understand the various mysteries of the Space Avenue.

This is the best place for enlightenment.

Zhang Yuhe continued to analyze the avenues of space.

As time goes by slowly.

He felt as if he was comprehending the rules of space.

One step further.

Thirty thousand years later.

Zhang Yuhe stood up slowly.

He made a stroke with his right hand.

Only a small vortex of particles was seen, slowly appearing in the void.

The vortex passage is mysterious and deep, as if it can reach endless distances.

See this situation.

Zhang Yuhe couldn't help but look happy.

He muttered to himself.

"These 30,000 years of enlightenment are finally not in vain."

"The teleportation channel now opened can already pass through the scope of the Three Holy Heavens."

As his understanding of the avenue of space continued to deepen.

The transmission range of the infinite magical power of heaven and earth has also become more distant.

When he first understood the rules of space to the level of perfection.

The magical power of teleportation can only be used within the scope of the Three Holy Heavens.

As for further places.

It requires continuous relay transmission and cannot be delivered directly at once.

But it's completely different now.

Now the transmission channel he opened can lead directly to the outside of the Three Holy Heavens.

Although it covers the entire Chaos River, it is definitely impossible.

But being able to expand the transmission range will naturally be much more convenient.

The road is boundless.

Zhang Yuhe believes it.

As he went on, his understanding of the avenue of space continued to improve.

The transmission range of the Wuji Divine Power of Heaven and Earth can continue to expand.

Maybe one day in the future.

He can see the entire river of chaos through this magical power.

"The understanding of the Space Avenue has come to an end for the time being."

"It's time to leave the Three Holy Heavens and go to other places in the Chaos River."

Zhang Yuhe looked into the distance, thinking silently in his heart.

He felt very happy to have once again mastered one discipline, the supreme rule of the avenue.

But this is not enough.

In Zhang Yuhe's plan.

He wanted to give it a try to see if he could fully comprehend all three thousand avenues.

If this can be achieved.

Then when he joins the Tao in the future, he will definitely be able to evolve.

A world with complete rules.

Maybe the world he evolves will be as vast and boundless as this long river of chaos.

Think of this.

Zhang Yuhe couldn't help but look forward to it.

...

Chapter 847 Holy Lord Lei Peng

Zhang Yuhe has ambitious goals.

He does not intend to be like other Eternal Emperors, as long as he can successfully merge.

Evolving a world at will is considered a success.

Zhang Yuhe has his own advantages.

His incomparable understanding makes it easier to understand the rules of the great road.

As long as the opportunity is right.

No matter how difficult the rules are, he can understand them.

That being the case.

Then why doesn't he set his goal higher?

For example.

First understand the three thousand avenues?

Zhang Yuhe is looking forward to it very much.

If he realizes all the great ways in the world to perfection.

What kind of state should that be?

Maybe then.

He'll have a chance.

Let's explore the end of the long river.

"Where to go next."

Zhang Yuhe pondered silently.

Although there are countless secret and dangerous places scattered within the scope of the Three Holy Heavens.

But there are not many secret realms like Taijin Mysterious Realm that contain rules and avenues.

In this period of time.

Zhang Yuhe himself is in the realm of confusion, comprehending the rules of the great avenue of space.

A clone sits in the holy realm of the Galaxy.

The other eight clones were also not idle.

He has been traveling around the Three Holy Heavens.

during these years.

The clone has long been within the scope of the Three Holy Heavens.

I visited all the secret places that might contain rules and regulations.

By comprehending the Taoist rhyme in these secret realms.

Zhang Yuhe once again realized the rules of more than ten avenues.

Section 1214

But that's it.

He is still more than 800 ways away from the Three Thousand Avenues.

It is estimated that within the scope of the Three Holy Heavens, there should be no chance for further progress.

Zhang Yuhe wanted to understand more rules of the great road.

Then we must go out of the Three Holy Heavens and go to a wider world.

The river of chaos is vast and endless.

The Three Holy Heavens are just an inconspicuous corner among them.

There are countless Changhe Heavens and Earths that are more prosperous than the Three Holy Heavens.

Only go to a wider world.

Only then can he find more suitable secret realms and comprehend more rules of the great avenue.

In this way, all three thousand avenues will be fully understood.

He already had a plan.

Just about where to go next.

Zhang Yuhe, however, had no clue at all.

The Milky Way Holy World was first established.

Information about the Three Holy Heavens has been collected through the pioneering work of the seniors over the years.

It's quite complete.

But for those outside the Three Holy Heavens.

Zhang Yuhe is completely blind.

Nothing.

Except there was once an Eternal Emperor who went to Wusitian next door.

As for other places.

No one has ever been to the Holy World.

Naturally, there is no information record about those places.

"Well, if that doesn't work, then let's go to Wusitian first."

"After we get there, we can ask for information about other Changhe worlds."

Think of this.

Zhang Yuhe took one step forward.

Soon he passed through the entrance of the vortex and appeared outside the secret realm.

When he looks in the right direction.

He was preparing to break through the void and head to Wusitian.

Just at this time.

Zhang Yuhe suddenly stopped.

He looked up into the distance.

I saw a stream of light streaking across the sky and flying towards him quickly.

"Who is this?"

Zhang Yuhe's heart trembled.

I saw a vast figure, and soon appeared not far away.

The figure's aura restrained, but the terrifying coercion still couldn't be hidden.

Zhang Yuhe just felt it a little bit.

He just knew it.

This is an invincible Supreme Being.

And it is a more powerful existence than Paulin Supreme.

I saw the Supreme coming to me suddenly.

Zhang Yuhe felt very strange.

There are only three invincible supreme beings in the Three Holy Heavens: Bolin, Taihua, and Tianguang.

And because of its remote location.

There are also very few invincible supreme beings passing by the Three Holy Heavens.

Now, suddenly, an invincible Supreme appeared in front of him inexplicably.

Zhang Yuhe knows.

This certainly can't be a coincidence.

Eighty percent of it is for yourself.

With the power of the nine-step god king, he killed three invincible supreme beings under the Heavenly Gate of Zhenshi.

The reputation has already spread throughout the Three Holy Heavens, and even the surrounding Changhe Heaven and Earth.

It is estimated that many people have heard of his name as the Galaxy God King.

The invincible Supreme who suddenly appeared in front of him may have heard of this matter.

That's why I came here specifically.

As for whether it is good intentions or malicious intentions.

That's hard to say.

Think of this.

Zhang Yuhe shouted without being humble or arrogant.

"I'm Zhang Yuhe, I've met my senior."

No matter whether the other party comes with good intentions or malicious intentions.

Zhang Yuhe didn't care at all.

He was able to defeat the three invincible supreme beings under the Heaven Pass.

Of course, you can also beat other invincible supreme beings to death.

Although near Tianguan, there is suppression from the source of the Holy World.

The strength of Paulin Supreme and others has been greatly restricted.

Unable to exert the power of rules.

Even 10% of the strength may not be able to be exerted.

And this place is far away from the holy world.

No origin of the universe can spread here.

The Supreme can display its complete strength, which is far beyond the comparison of Paulin and others.

But so what.

Zhang Yuhe is still not afraid.

Even if the Invincible Supreme was in its full state, he didn't take it too seriously.

Now that he has mastered the rules of space, the clone can teleport over quickly.

It really makes Zhang Yuhe anxious.

He summoned all nine clones.

At that time, the main body and the clone will activate the magical power of Hunyuan Guiyi together.

Let's cast the God-Devil-Destroying Heaven Sword together.

Even if he is the Invincible Supreme in his full state, he still has to stay away.

I would never dare to be tough with him.

That being the case.

What else is Zhang Yuhe afraid of?

With his current strength.

Except for the nine legendary lords in the Tao Alliance.

No one can make him back down.

Even the Invincible Supreme will not be an exception.

The tall figure looked at Zhang Yuhe.

He looked at it carefully for a while and nodded gently.

Then he spoke calmly.

"Your name is Zhang Yuhe."

"very nice."

"You can kill the invincible Supreme Being at the Nine-Step God King Realm."

"Although it is with the help of the suppressive power of the origin of the universe."

"But if you can achieve this, you can indeed be said to be the first person in history."

"Even within our Dao Alliance."

"Except for the nine great lords, no one else has ever had such a brilliant record."

"By the way, I come from the Dao Alliance Void Palace."

Section 1215

"You can call me Holy Lord Lei Peng."

"I have met Holy Lord Lei Peng."

After hearing that the other party was from the Dao League.

Zhang Yuhe quickly shouted respectfully.

The Dao Alliance is different from all other forces. It can be said to be a transcendent existence.

They neither participate in the fights between the parties, nor have they ever suppressed them.

Those newly rising geniuses or big forces.

The Tao Meng doesn't care about almost anything.

in the Legends.

The Dao League has only two goals.

One is to explore the end of the long river and find the world beyond the long river.

As for the other goal.

That is.

In order to cope with the epochal disaster that occurs every tens of billions of years.

Every time the era changes, the monsters of destruction rise.

The Taoist Alliance will rush to the front.

They block the upper reaches of the long river of chaos.

Intercept the army of destruction beasts at the beginning of the long river.

The other universes need to face the army of destroying beasts.

In fact, it's just some that I missed occasionally, just small fish and shrimp.

If there is no Taoist alliance standing in front.

You can say that.

Throughout the long river of chaos.

Except for those holy realms.

No other cosmic world can survive the disaster.

Even the former Chaos Sea had twenty-one eternal emperors.

It is impossible to block the endless army of destruction beasts.

So just talk about Tao Meng.

No one dares to be disrespectful.

This is not only a manifestation of strength, but also an admirable responsibility.

Enough to make everyone admire.

...

Chapter 848 I am willing to join the Tao Alliance

Seeing Zhang Yuhe being so respectful, Holy Master Lei Peng nodded with satisfaction.

he asked with a smile.

"I believe you have already guessed the purpose of my visit this time."

"The Taoist Alliance recruits talents from all over the world, as long as they are talented and like-minded."

"We are all welcome to join."

"As early as a hundred thousand years ago, the Dao Alliance began to examine you."

"I have to say that your talent is indeed far beyond ordinary people."

"And he has good character and meets the requirements for joining the Dao Alliance."

"Now, I, Holy Lord Lei Peng, officially represent the Dao Alliance Void Palace, and invite you to join."

"I wonder if you are willing?"

Not waiting for Zhang Yuhe to respond.

Holy Lord Lei Peng continued to speak.

"Don't rush to answer. You must think carefully before speaking."

"The Dao Alliance is responsible for guarding the safety of the entire Chaos River."

"Our philosophy is to provide a safe world for all sentient beings."

"If you don't have such a concept in your mind."

"Then I would like to advise you to think about it carefully and not to make a rash decision."

After listening to the narration of Holy Lord Lei Peng.

Zhang Yuhe nodded lightly.

Naturally, he has heard about Daomeng's philosophy for a long time.

The Taoist Alliance has stood erect for endless years and can win the respect of everyone.

It has never been about strength, but this selfless concept.

Just like the teleportation arrays distributed all over the place.

If there were no Dao Alliance Void Palace to build these teleportation formations.

So hard to imagine.

How can the monks communicate after entering the river?

How can we travel far and have adventures?

The river of chaos is vast and endless.

Not to mention the God King cultivator, even the Eternal Emperor.

For the rest of his life.

It is estimated that it is impossible to walk one billionth of the long river.

It is precisely because of these teleportation arrays.

Only the God King monks can travel around and go further.

Go to more dangerous places and secret realms and dig out more cultivation resources.

It also allows monks from different universes to communicate and integrate better.

As for the catastrophe of the era.

Not to mention that.

If there is no Taoist alliance blocking the front, the boundless army of destruction beasts will be destroyed.

If intercepted in the upper reaches of the long river.

I'm afraid there won't be much left of the countless chaotic universes in the entire river.

Facing a massive army of destroying beasts.

Except for those cosmic worlds where the Invincible Supreme sits.

No other world can stop it.

That's absolutely true.

It is precisely because of the selfless dedication of Youdao League.

Only then can this vast river continue to give birth and evolve countless cosmic civilizations.

The Taoist League holds up the sky for all the creatures in the river.

It is the most important guarantee for all living beings to create and reproduce civilization.

If there is no Taoist alliance.

hard to imagine.

What will this vast and endless river of chaos look like in the end?

Facing the invitation from Holy Lord Lei Peng, Zhang Yuhe fell into deep thought silently.

He didn't rush to respond.

Daomeng's philosophy is indeed good and basically consistent with his own character.

The Taoist League does not care about foreign affairs.

Except when the disaster of the era comes.

The nine great lords will gather the disciples of each temple to go to the upper reaches of the Yangtze River to intercept the army of destroying beasts.

Normally everyone can basically practice freely.

Go wherever you want.

Not subject to any constraints.

A large number of tasks will also be released in various Dao League halls.

Like the Temple of the Void.

A large number of deacons are needed to go to various places to guard the teleportation array.

But these are not mandatory tasks.

If the disciples of each temple look down upon the generous rewards of these tasks.

It can be completely ignored.

Section 1216

Zhang Yuhe thought quietly.

If the Dao League is really like the rumors.

He would naturally be willing to join.

Anyway, he is not needed to do anything.

As for the epochal catastrophe.

What does it matter.

Even if he does not join the Dao League.

He is in the Holy Realm.

He also needs to deal with the coming of the epoch every one hundred trillion years.

Heaven and earth are in a cycle.

This is something that cannot be avoided.

The only thing that makes Zhang Yuhe curious is.

I wonder what kind of benefits he will get after joining the Dao League?

As a top force that transcends the long river of chaos.

Joining the Dao League should have very good benefits, right?

Thinking of this.

Zhang Yuhe looked at the Holy Lord Lei Peng and asked expectantly.

"If I join the Dao League, I wonder what kind of benefits I can enjoy."

The Holy Lord Lei Peng rolled his eyes at Zhang Yuhe, and then responded lightly.

"No."

"The Dao League does not have any benefits."

"No matter who joins the Dao League, everything depends on themselves."

"The Dao League will not provide any help."

"But the disciples of the Dao League are all over the world, and everyone has different needs."

"So there are always a lot of tasks hanging in the task hall."

"The rewards for these tasks are generally very good."

"As long as you are willing to take some tasks."

"Basically, disciples of the Dao League do not have to worry about cultivation resources."

"Of course."

"There is another benefit to joining the Dao League."

"That is Wanfatian."

"Wanfatian collects the magical skills and various enlightenment experiences collected and created by the predecessors of the Dao League over the years."

"Even the enlightenment experiences of the nine great masters are placed in Wanfatian."

"As long as you become a disciple of the Dao League, you are eligible to check these skills and experiences."

"No restrictions."

Hearing this.

Zhang Yuhe couldn't help but be very happy.

He responded immediately.

"Senior, I am willing to join the Dao League."

Nothing else.

Just for the experience of the techniques in Wanfatian, he had to join the Dao League.

Zhang Yuhe had thought before.

He wanted to comprehend different Dao rules by visiting secret realms in various places.

But that was too troublesome.

The key point was.

He didn't know where there was a suitable secret realm that could allow him to comprehend the Dao rules.

The entire Sanshengtian was such a vast area.

He only found a dozen secret realms suitable for comprehending the Dao rules.

This was Zhang Yuhe, who was more familiar with Shengtian.

If he left Sanshengtian.

In other regions, he was completely blind.

If he wanted to find a suitable secret realm, he didn't know when he would have to wait.

And in the Wanfatian of the Dao League, there were countless techniques and classics.

As long as he joined the Dao League.

He could read them at will.

Although the Saint Master Lei Peng didn't elaborate.

But Zhang Yuhe knew it without thinking.

How exaggerated would the Dao League have accumulated classics for countless years?

Not to mention the former Donghua Palace.

Even the original Desert Courtyard.

Their vast world of books is probably not even one tenth of that of the Dao League.

With such a good place.

Why doesn't he join?

Although he can't get any benefits after joining the Dao League.

But with the foundation of the Dao League, just revealing a little information.

It may save him a lot of detours.

For example.

Map about the distribution of secret realms.

Zhang Yuhe believes.

The Dao League will definitely have a more detailed map of the long river.

Not just one area.

But the entire Chaos Long River.

Just for these.

Zhang Yuhe has no reason to refuse.

As for.

After he goes to the Dao League.

What about the Holy Realm?

Isn't that simple?

Leave a clone and sit in the Holy Realm.

With the suppression of the Holy Realm's origin.

Zhang Yuhe's clone is enough to deal with any threat.

Besides.

Once he joins the Dao League.

As a disciple of the Dao League, the Holy Realm.

Is there anyone who dares to have any small thoughts?

Although the Dao League does not care about external affairs.

But it is impossible to let his own disciples be bullied by others.

It is precisely because of these considerations.

Zhang Yuhe did not hesitate and decisively responded to the Holy Lord Lei Peng.

He expressed his willingness to join the Dao League.

The Dao League is not only the most powerful backer of the entire Chaos River.

It is also the best place for Zhang Yuhe to pursue the Tao.

...

## Chapter 849 Discussion and Exchange Area

For Zhang Yuhe.

The Dao League is indeed the most ideal place.

Because there is a group of fellow Taoists with similar ideas.

They are true friends of discussion.

The Dao League does not compete with the world.

### Section 1217

The nine great lords have already reached the limit that this world can reach.

They have reached the end of their rope.

So I have been searching for the world beyond the long river.

I hope to find the source of the long river and a world that allows everyone to take a step further.

The Nine Lords firmly believe it.

The Chaos River is not isolated, there must be similar worlds.

There will also be higher levels of heaven and earth.

Just like when Zhang Yuhe and the others were still in the immortal world.

When the immortal road comes to an end, you must find a way forward.

And this path must exist.

The same is true for the Chaos River now.

There must be a broader, higher-level world.

It's just that now everyone is limited to the long river and cannot see what is beyond the long river.

I don't know where the way forward is.

But the road ahead always needs someone to explore and open up.

The core concept of Daomeng is to explore the end of the long river.

Find new horizons and open up new paths.

It is also because of this goal that everyone gathers together.

Today's Tao Alliance was formed.

Zhang Yuhe's philosophy is actually the same.

Although he is still in the Nine-Step God King Realm, far away from the limit of the Chaos River.

Still very far away.

But Zhang Yuhe believed it.

Sooner or later, he will be able to reach the limit of what the river of chaos can carry.

By that time.

He must find a new way forward.

Now there is a group of like-minded colleagues working together in this direction.

Wouldn't that be more perfect?

There was no reason for him to refuse.

Anyway.

There are many benefits to joining the Dao League, as well as disadvantages.

There is none.

There is no reason for him not to join.

Seeing Zhang Yuhe's straightforward response, Holy Master Lei Peng nodded with satisfaction.

He smiled and spoke.

"Welcome to join the Daomeng family."

"From now on, we will explore the end of the road together and protect the safety of the Chaos River."

After saying this.

Holy Lord Lei Peng stretched out his right hand.

He took out a golden token and handed it to Zhang Yuhe.

Then he continued to speak.

"This is your ID token."

"With this token, all the teleportation arrays of the Dao Alliance will be in the future."

"You can use it for free."

"You can also use the identity token to search for the current internal tasks of the Dao League."

"And all kinds of public information."

"As for the other wonderful uses of the token, you will know it after you slowly explore it for a while."

Zhang Yuhe took the token.

He glanced briefly.

On the front of the token, there is a picture of a vast river engraved on it.

As for the back of the token, it says "Daomeng. Zhang Yuhe", a few small words.

Zhang Yuhe put away the token.

He arched his hands towards Holy Lord Lei Peng, and then asked respectfully.

"Senior, I wonder when I need to report to the Dao Alliance?"

Holy Lord Lei Peng waved his hand gently.

He responded calmly.

"anytime."

"You are now an official disciple of the Dao Alliance."

"Whether you want to go to the Dao Alliance station now, or you want to stay in your own holy world."

"That doesn't matter."

"The Dao Alliance does not have any restrictions on the behavior of the disciples in the sect."

"As long as the era comes, just obey the Lord's call."

"Okay, mission accomplished."

"I will return to the Dao League first."

"When you have time, you can go to the Dao League at any time."

After saying this.

The sleeves of Holy Master Lei Peng rolled up and soon turned into a stream of light, disappearing into the void in the distance.

Looking at the direction in which Holy Lord Lei Peng disappeared, Zhang Yuhe was thoughtful.

Dao Meng is indeed free enough.

He has become a disciple of the Taoist Alliance without even passing by.

And even if he never passes, he is still considered a disciple of the Dao Alliance.

have to say.

Zhang Yuhe liked this kind of free and easy sect power very much.

"Let's take a look at the identity token first. What functions does it have?"

Think of this.

Zhang Yuhe played a magic formula.

Something similar to a game panel soon appeared in front of him.

Name: Zhang Yuhe.

Taoist name: Galaxy Holy Lord.

Birth: Three Holy Heavens.

Identity: Disciple of Void Palace.

Current tasks: None.

Below the Dao Alliance Lord, the status is divided into three levels.

The God King Realm is a disciple, and the Eternal Emperor is the deacon of each palace.

Take the Invincible Supreme as the elder.

But within the Taoist Alliance.

Status hierarchies have no real meaning.

Whether he is a disciple of the God King or a supreme elder.

Everyone communicates equally.

There is no difference.

Look at your identity on the token.

Zhang Yuhe was thoughtful.

Each of the nine great lords of the Dao League leads a palace.

Holy Lord Lei Peng came from the Void Palace, so he automatically became a disciple of the Void Palace.

But Zhang Yuhe didn't care.

No matter which Lord you join.

That doesn't matter.

It's just an identity.

That's all.

Zhang Yuhe looked at his identity panel.

Section 1218

above the panel.

Three different areas were also marked out.

They are [Tao Discussion Area], [Quest Area], and [Explored Changhe Map].

Zhang Yuhe clicked on [Tao Discussion Area].

I saw a large amount of information above, which was rapidly refreshing the screen.

It almost gave him an illusion.

It's like entering a newly opened game.

"Miao Chengtian discovered a chaotic creature. Are there any fellow Taoists who are interested?"

"Let's go kill it together?"

"If you can kill this chaotic creature, take the body materials from it."

"It is estimated that it is enough to refine a good supreme artifact."

"Zhou Cao, brother, do you want your life?"

"How dare you mess with the chaotic creatures?"

"Be careful, I will knock you back to the origin of the universe, and you will have to be reborn again."

"What are you afraid of?"

"Even if you are beaten to death by chaotic creatures, what does it matter?"

"Anyway, we and the Invincible Supreme can be resurrected quickly."

"It's nothing more than spending tens of billions of years to regain the realm of cultivation."

"No, no."

"The chaotic creatures are too fierce."

"No one is easy to mess with."

"If I have that leisure, I might as well visit a few more secret places."

"Maybe there will be some unexpected gains."

"Coward."

"It's in vain that you are still the Supreme Holy Lord, even a chaotic creature is afraid of you."

"Why don't we take advantage of the current calm period to improve our strength."

"When the era comes, it'll be up to you what you do."

"What are there to be afraid of those destroying beasts?"

"Anyway, the Lord is in front."

"We are just taking care of some of the weaker Destruction Beasts."

"This is true in every era."

"There's no pressure at all."

"I'm already used to it."

Looking at the discussion area, several invincible supreme beings were exchanging information.

Zhang Yuhe couldn't help but smile.

These supreme powers were in their own chaotic universe.

They are all high-ranking holy masters.

As a result, in the communication area of the Dao League, he seemed to be a player in the game.

This feeling.

It was very interesting for Zhang Yuhe to watch.

It seems a little missed.

...

Chapter 850 Be careful if someone beats you up

Chapter 850

Looking at the discussion area, several Invincible Supremes were discussing about hunting chaotic creatures.

This made Zhang Yuhe couldn't help but think of it.

When I was at Blue Star, I was playing online games.

The scene of teaming up to fight the BOSS together.

It's very real.

However, the chaotic creatures in the river are indeed very difficult to deal with.

In the vast and endless river.

In addition to countless cosmic worlds, there are also many chaotic creatures surviving.

These chaotic creatures have been extremely powerful since their birth.

Even the weakest chaotic creature is completely comparable to the Invincible Supreme.

As for the powerful chaotic creatures, they are even more incredible.

Even if the Dao Alliance Lord encountered him, he would probably have to retreat.

I dare not have any ideas at all.

Chaos creatures are huge.

Every chaotic creature is almost the same size as a universe.

The huge size creates the unrivaled tyrannical strength of the chaotic creatures.

An ordinary invincible supreme being in front of chaotic creatures.

Not an enemy at all.

Rumor has it that Pauline became the Supreme because of his great luck.

Encountered a seriously injured chaotic creature.

Only then was he finally successfully killed and his torso muscles removed.

Refining a semi-supreme artifact-level Chaos Ark.

This is because Paulin's supreme foundation is not enough.

If it is left to the Tao Alliance, those veteran invincible supremes who are proficient in refining weapons will refine it.

Maybe we can get a truly supreme level Chaos Divine Boat.

Of course.

Bolin Supreme's Chaos Divine Boat has now fallen into Zhang Yuhe's hands.

Renamed Galaxy.

The discussion area was bustling with activity.

There are countless disciples of the God King, eternal deacons and supreme elders in the Dao Alliance.

Let's chat together in the communication area and exchange cultivation experiences with each other.

At the same time, they also discussed the different experiences and strange things from different places in the endless river.

The power of the Taoist Alliance spans endless regions across the Yangtze River.

As long as there is a cultivation civilization, there will be the power of the Taoist Alliance.

Dao League disciples from different regions use the platform of the exchange area.

Exchange information with each other and exchange local knowledge.

Everyone talked about almost everything.

Watch the information in the communication area refresh.

This opened Zhang Yuhe's eyes.

In the past, he only knew something about the Three Holy Heavens.

Outside the scope of the Three Holy Heavens, basically nothing is known.

By viewing the information above in the communication area.

Zhang Yuhe sighed differently.

This vast river of chaos is really too vast.

Even if it's just the Taoist Alliance, the area it's distributed in is already so large that it's boundless.

As for there are many places, even the Dao League has never touched them.

We don't even know how many areas there are.

Since the founding of the Dao League.

The nine great lords are committed to exploring this vast and endless river of chaos.

But even if the Taoist alliance has vast power, there are hundreds of millions of fellow Taoists.

The source of the long river has still not been found, and no one has seen the end of the long river.

It seems that the entire river of chaos is really endless.

But everyone understands.

No matter how vast the world is, there will be a limit in the end.

This vast river of chaos is no exception.

Section 1219

Just so far.

No one has found it yet, just the end of the long river.

Zhang Yuhe browsed all the way, and the information in the communication area quickly refreshed the screen.

Suddenly a message jumped into his field of vision.

"Have you heard about it?"

"The Three Holy Heavens suddenly rose up, a super terrifying peerless genius."

"He used the power of the nine-step god king to kill three invincible supreme beings in a row."

"It's just absolutely horrific."

"It's impossible, it's fake."

"The Nine-step God King may not be able to withstand even a trace of the supreme pressure."

"Even if the Invincible Supreme is seriously injured, it is impossible for the Nine-step God King to kill him."

"Not to mention, he killed three invincible supreme beings in a row."

"I do not believe."

"Rumors are always exaggerated and 80% of them are false."

"This rumor is indeed a bit outrageous, but I don't believe it anyway."

Wu Yuxi from Void Palace:

"This is true. I will guard the teleportation array with the Three Holy Heavens."

"During the war, I once separated a ray of consciousness and possessed a puppet to watch the battle from a distance."

"That peerless genius relies on the suppression of the origin of the universe."

"Directly kill the three invincible supreme beings in the void on the spot."

"And he only made one move."

"Those three invincible supreme beings haven't even reacted yet."

"It was directly chopped into ashes."

"This matter is almost universally known throughout the Three Holy Heavens."

"Even in other surrounding areas, it has gradually spread."

"Now the three invincible supreme beings have been shrinking in the holy world."

"I don't dare to show my head at all."

"It's probably because he hasn't recovered his cultivation level after his resurrection."

Emperor Yuxi gave a general description of what happened during the war.

The entire communication area fell silent instantly.

Everyone was shocked by this news.

After a long time.

The communication area suddenly exploded.

"Zhou Cao, is there really such a fierce Nine-Step God King?"

"Emperor Yuxi, are you sure you read it correctly?"

"You can't be mistaken."

"How can you joke about such a big thing?"

"After the incident happened, I immediately reported it to the Void Palace."

"I guess the elders in the hall are inspecting him."

"Perhaps after some time, this peerless genius will be drawn into the Taoist Alliance."

"Looking at what you said about having a nose and eyes, it can't be true."

"If that's the case."

"That would be terrible."

"With nine steps to the level of God King, you can kill the invincible Supreme One in a row."

"How outrageous is this?"

"Even if he used the origin of the universe to suppress most of the strength of the Invincible Supreme."

"That's still too exaggerated."

"Has there ever been a similar fierce man in the Chaos River before?"

"I don't know, I've never heard of it."

"It is very rare for a god king to rebel against the eternal emperor."

"Beheading the Invincible Supreme One in reverse is simply a legend."

"In my mind, there shouldn't be such a fierce person before."

"Not always."

"It is said that when the Lord was young, he was also very fierce."

"The step-up challenge is as simple as eating and drinking."

"I guess they had a similar record back then."

"Zhou Cao, what else can you ask me to say?"

"Don't you think so?"

"Can this newly emerged peerless talent be compared with the nine great lords?"

"It's hard to say."

"The road is long-term, and who can be sure of what will happen in the future?"

"By the way, what is the name of that peerless genius?"

"What I'm concerned about right now is, has he joined the Taoist Alliance?"

"Don't let the elders miss out on such talented people."

"Don't worry, such a fierce man will definitely join the Tao Alliance."

"Because only Dao Alliance is his best choice."

"And as long as the elder is not blind, he will find a way to bring him into the Taoist Alliance."

Void Palace Lei Peng:

"The latest report is that Zhang Yuhe has joined the Dao Alliance Void Palace."

"I just sent him the ID token."

"Maybe right now, someone is secretly peeking at the screen."

"I advise you to be careful what you say."

"Don't say anything bad about Zhang Yuhe."

"If he sees you, be careful and they'll beat you up."

"That's a ruthless person who can beat even the Invincible Supreme to death."

"I may not be able to hold it back, hehe."

...

## Chapter 851 Passion Rekindled

When everyone heard Holy Lord Lei Peng say that Zhang Yuhe had joined the Dao Alliance Void Palace.

And he has already sent the identity token to Zhang Yuhe.

This made the originally bustling communication area even more lively.

"Lei Peng, is it true?"

"Zhang Yuhe has joined the Taoist Alliance?"

"Is that what Emperor Yuxi said just now, the peerless genius who killed three invincible supreme beings in a row?"

"Yes, that's him."

"I just finished delivering the identity token and am now preparing to return to the Dao Alliance station."

"Maybe he is using the identity token to read our communication information."

"Ha ha."

"Call Zhang Yuhe and ask the boss to show up."

"Call Zhang Yuhe and ask the boss to show up."

...

Looking at the Dao Discussion and Exchange Area, a group of Dao League monks suddenly talked about himself.

Zhang Yuhe was speechless.

He was still happily eating melons, watching those Eternal Emperors and Invincible Supremes talking nonsense.

How come they suddenly talked about themselves?

This is a bit embarrassing.

Seeing everyone in the Dao Discussion and Exchange Area, constantly calling.

Zhang Yuhe was a little embarrassed.

He had to split a wisp of consciousness and put it into the identity token.

Section 1220

Then he spoke slowly.

"I'm Zhang Yuhe, I've met all of you seniors."

"Please take good care of me in the future."

As Zhang Yuhe appeared.

The discussion area became more lively.

"Haha, it really came out."

"Lei Peng is very efficient."

"It really draws people into the Taoist Alliance."

"Look at what you said."

"What does it mean to join the Dao Alliance?"

"It makes our Dao Alliance seem like a den of thieves."

"Welcome Taoist fellow Galaxy to join the Tao Alliance. Let's sit down and talk about the Tao together if we have the opportunity in the future."

"Not bad."

"Let's have a good chat together when you have time."

"By the way, Emperor Yuxi, do you have any reservations about the video of Fellow Daoist Galaxy killing the Invincible Supreme with his sword?"

"Share it quickly."

"Let us all see the majestic appearance of fellow Daoist Galaxy fighting against the Invincible Supreme, hehe."

"The video has been uploaded to the database, fellow Taoists, please search it yourself."

During the Zhenshi Tianguan War.

It is not too far away from the Shang Yunfang teleportation array where Emperor Yuxi is stationed.

He is possessed by a puppet.

Just hide and watch the battle from a distance.

When I saw Zhang Yuhe, he was so invincible.

Emperor Yuxi immediately thought of it.

Such a peerless talent must be brought into the Taoist Alliance.

He was going to report to the Void Palace of the Alliance, so he would naturally take photos of the battle scenes.

After hearing that Emperor Yuxi had already uploaded the video to the communication area database.

Everyone went over to check it out.

Countless Taoist monks clicked on the video uploaded by Emperor Yuxi.

When they saw it, Zhang Yuhe slashed his sword into the air.

The vast and endless sword light enveloped the world in all directions and instantly drowned the three invincible supreme beings.

Then it was gone.

Under the shroud of sword light.

Those three invincible supreme beings could not hold on even for a moment.

It was immediately chopped into ashes.

Not even a bit of dregs is left.

The nine-step God King reversed and beheaded the invincible Supreme One.

And he still killed three of them with one sword.

Even if you just watch the video on the photo stone, everyone can still feel it.

Zhang Yuhe's vast and invincible power at that time.

Everyone said in amazement.

"wild."

"It's really fierce."

"It's really hard to imagine that the Nine-step God King can actually unleash such terrifying lethality."

"Even with that shocking sword light, I'm afraid I won't be able to catch it."

"Don't be afraid, you just can't take it."

"If you are struck by fellow Daoist Galaxy's sword."

"The end won't be much better than those three, hehe."

"Yes, such a terrifying magical power of swordsmanship, and it also has nine swords in a row."

"How many people in the Nine Halls of the Dao Alliance can stop them?"

"Fellow Daoist Galaxy is currently only at the nine-step divine king level."

"Once he successfully merges with the Tao, he will be promoted to the Eternal Emperor."

"How powerful that must be."

"It's really that time."

"I guess apart from the nine great lords, there is no one who dares to overwhelm him."

"That's a good thing."

"The rise of peerless geniuses like Fellow Daoist Galaxy shows that our chaotic river is heading towards prosperity and development."

"Maybe one day in the future."

"We can really clearly understand the entire river of chaos."

"Open up a new path that has never been seen before."

"That's right."

"The emergence of geniuses is a sign that this world will prosper."

"We must also work hard and follow in the footsteps of geniuses."

"Only in this way."

"When new roads open up in the future, we can also follow them to a new world."

"Fellow Taoist is right."

"A new era is coming, if you don't want to be abandoned by the times."

"We just need to work harder."

"Say nothing more."

"I am leaving the holy world now and preparing to go to Changhe to find adventure in the secret realm."

"You will never make progress if you sit in the holy world every day."

"Fellow Taoists, does anyone want to go with us to hunt the chaotic creatures?"

"I really want to kill a chaotic creature and refine it into a supreme artifact."

"To think that my majestic and invincible Supreme Being, the Lord of the Holy World, doesn't even have a Supreme Artifact at my disposal."

"It's just embarrassing."

"Count me in."

"Ask a few more fellow Taoists to go with us, that way we will be more confident."

...

Maybe it's because of Zhang Yuhe's appearance.

The monks in the Dao Alliance suddenly cheered up.

Originally, they all thought that this life had reached its limit.

It may be difficult to make any big breakthrough again.

After all, those with the lowest cultivation level among them are all at the peak God King level.

Most of them are still eternal emperors.

Even the Invincible Supremes are not in the minority.

They have been called ancestors in their respective universes for countless years.

The passion has long since faded.

Without special opportunities, it is almost impossible to make much progress.

Everyone was lying flat.

Don't want to work harder.

Because in their opinion.

No matter how hard you try, it won't make any sense.

It's all in vain.

But when they heard.

Zhang Yuhe used the power of the God King to kill three invincible supreme beings in a row.

This made everyone's passion burn again.

According to past practice.

Whenever a genius rises, there will be a large number of people who follow in his footsteps.

They can also achieve considerable results.

Because when a genius rises, he is not the only one.
