Section 1221

But it will lead an era.

The knowledge of the Taoist monks is far beyond that of ordinary people.

They have gone through countless years and have seen too many influential figures rise.

But Zhang Yuhe is obviously not at the same level as other Tianjiao figures.

In their opinion.

The strength that Zhang Yuhe has shown now is enough to rival the nine great masters of the year.

It may even be stronger.

As long as there are no major accidents in the future.

Maybe in the distant future.

Maybe the tenth master will be born in this Taoist alliance.

If that happens.

This vast river of chaos will surely usher in prosperity again.

Maybe there is really hope to open a way to a new world.

People in the Taoist alliance are not fools.

They all understand.

This is a once-in-a-lifetime opportunity.

As long as they seize this opportunity.

Maybe they can follow Zhang Yuhe's footsteps and move towards a bright future.

Enjoy the dividends of the prosperity of the times.

It is precisely because of this.

Those old monks who have been trapped in their respective holy realms for countless years.

The passion has been rekindled.

Everyone has walked out of the holy realm and planned to fight again.

They all thought in their hearts.

This time they must fight for a future.

...

Chapter 852 Go to the Dao League

Looking at the chat messages of the Dao League monks in the discussion area.

Zhang Yuhe couldn't help but sigh.

They are all smart people.

In his opinion.

In fact, these people's ideas are indeed very reasonable.

The prosperity of the times will definitely create many people.

But you have to seize the opportunity in advance.

If you don't catch up with this wave of dividends, you may really miss it.

Just like when you were in the fairy world.

Most of the people who gathered around him have cultivated to the end of the fairy world.

Finally came to the Chaos Sea.

And most of them, under the care of Zhang Yuhe.

They have developed quite well.

Many of them have cultivated to the realm of true gods.

Even a few of them have achieved higher achievements.

For example, Li Tian, He Yueyue, Wang Guofeng and others are even in the realm of true gods, and have walked a long distance.

Maybe it won't be long.

The group of people in the fairy world will give birth to the supreme god king.

This is the opportunity of the times.

As long as you seize the opportunity, you may take advantage of the situation to take off.

"I hope that more like-minded Taoist friends can be gathered in the Taoist Alliance."

"Let's explore the end of the road together."

Thinking of this.

Zhang Yuhe couldn't help but smile.

The road is endless.

If you go alone, wouldn't it be boring?

And it's easy to get lost.

Only with like-minded Taoist friends can you correct the direction from time to time.

Let him take fewer detours.

After closing the discussion area.

Zhang Yuhe opened the Taoist Alliance task area next to it.

He took a rough look.

There are all kinds of tasks on it.

Some are tasks issued by the various halls of the Taoist Alliance.

For example, guarding the teleportation arrays in various places and exploring the unknown long river area.

Draw a new map.

Some are tasks posted by Dao League disciples individually.

Most of them are to collect materials, ask people to refine pills and tools, or some other assistance matters.

Zhang Yuhe even saw someone collecting a large amount of red gold divine sand in the task area.

It is estimated that this person is planning to refine a set of eternal treasures.

However, Zhang Yuhe only took a rough look and he was not interested in these tasks at all.

Although the rewards for the tasks are very generous.

But whether it is the guarding or exploration tasks posted by the Dao League, or the collection of materials or assistance tasks posted by individuals.

It takes a lot of time.

Zhang Yuhe has everything.

He doesn't want to waste time on doing tasks.

If he has that time.

He might as well find a way to comprehend one more rule of the great way.

After closing the task area.

Zhang Yuhe clicked on the map section next to it.

The entire map shows a vast and endless river.

Countless stars dotted every corner of the river.

Each star represents a universe or a secret dangerous place.

This is the long river map drawn by the Taoist monks after countless years.

Despite this.

This vast long river map is still not complete enough.

There are still a lot of blanks at both ends of the map.

Those are unknown areas that have not been explored.

No one knows.

Whether there are cultivation civilizations in those places, and whether they are really extending infinitely.

Over the years.

The Taoist League has been organizing sect monks to explore the two ends of the long river.

Everyone wants to know.

Is there really no end at both ends of this long river.

It's a pity.

After leaving the core area of the long river, the two ends of the area are all void.

The Taoist monks have never found any universe there.

Nor have they found the existence of secret places and dangerous places.

It seems that the two ends of the long river are completely a land of returning to the void.

In this endless area of returning to the void, the monks can't find any foothold at all.

Moreover, there are a large number of chaotic creatures living in these areas.

The monks with slightly weaker strength don't even dare to set foot in them.

Section 1222

Even the Eternal Emperor cannot travel too far in the Land of Return to the Void.

Only those invincible supreme beings are qualified to explore and advance there.

I heard that the nine great lords of the Dao Alliance have been in the land of Guixu.

Explore and open up those unknown areas and find the source of the long river of chaos.

Looking for a new world that can hold their power.

despite this.

After countless years of exploration, the Dao League still has not found the end of the long river.

There was no sign of civilization in Guixu Land.

It's as if the vastness of Guixu is really eternal and endless.

Look at the long river map dotted with stars.

Zhang Yuhe was thoughtful.

The overall strength of the Dao Alliance cannot be said to be weak.

There are hundreds of millions of god-king monks and thirty million eternal emperors.

Even the Invincible Supreme has hundreds of thousands of them.

Not to mention.

There are also nine great lords whose strength has already reached the limit of the Yangtze River.

Among them, Lord Void also mastered the avenue of space.

It should be the same as myself.

Break through the void and carry out ultra-long distance teleportation.

But even so.

The Dao League still has not explored the entire chaotic river.

It can be seen from this.

This vast and endless river of chaos is so vast and boundless.

"Wait, then."

"After I successfully merge with the Dao, I will always go to Guixu Land to visit."

"See if this vast river of chaos really has no end."

"Look for the source of this long river. Where is it?"

Zhang Yuhe thought silently in his heart.

After a long time.

He put away his identity token and made a swipe with his right hand.

I saw only a small vortex of particles slowly appearing in the void.

Zhang Yuhe took one step forward and quickly disappeared from the scene.

...

Outside Shangyunfang.

A figure flew across the sky, flying quickly towards Fangshi.

Zhang Yuhe plans.

Let's go to the Dao League station first.

The information found through the identity token.

He became even more interested in the Wanfa Tian of the Dao Alliance.

At the beginning, Holy Lord Lei Peng just mentioned it casually and did not go into too much detail.

Zhang Yuhe learned about it by searching the database.

The Wanfa Heaven of the Dao Alliance turned out to be a vast world.

It was not a Taoist palace, nor was it a world of classics.

But it is a vast world comparable to the Three Holy Heavens.

Maybe even bigger.

In such a vast world.

Various magical books collected and created by Taoist monks over countless years are placed here.

Wan Dharma Heaven is all-encompassing.

As long as there are martial arts books that have ever existed in the long river of chaos.

Basically you can find it there.

Zhang Yuhe is really imaginative.

That number is so huge.

For those countless Kung Fu books.

Daomeng did not keep itself to itself, but was completely open to the inside.

As long as they are monks who join the Taoist Alliance.

Whether it is the realm of the God King or the Eternal Emperor.

You can freely browse those classics after entering Wanfa Tian.

There are no restrictions at all.

Zhang Yuhe has not been practicing for a long time, and his experience and knowledge are compared to other veteran monks.

It's indeed a little lacking.

Now there is Wanfa Tian, such a wonderful place.

It allows him to have a more comprehensive understanding of the entire Changhe cultivation civilization.

How could he not go and take a look.

not to mention.

Zhang Yuhe is still more than 800 years away from the Three Thousand Avenues.

The further to the back.

It becomes even more difficult to understand the remaining rules of the avenue.

In the past, he could comprehend nearly two thousand rules of the Great Dao in the Dao Zang Hall of the Desert Academy.

But after this.

Even if he has collected all the classics of the entire Holy World, he has also visited all the secret realms and dangerous places of the Three Holy Heavens.

He has only comprehended dozens of rules of the great avenue.

If you keep following this progress and continue.

How long will it take?

Only then can he fully comprehend the three thousand avenues.

Now there is a shortcut to Wanfa Tian.

Zhang Yuhe had no reason not to go and take a look.

Maybe wait until he reads through all the classics in Wanfa Tian.

And he can understand hundreds more rules of the great road.

Wouldn't it be very close to the Three Thousand Avenues?

Think of this.

Zhang Yuhe couldn't help but look forward to it.

...

Chapter 853 Jump out of the pond

Zhang Yuhe flew through the void and quickly flew into Shangyunfang.

He wanted to go to the Dao League station.

Naturally, it is most convenient to take the teleportation array.

Although after Zhang Yuhe understood the rules of space, he could already use the infinite magical power of heaven and earth in the long river of chaos.

It's just that the long river is vast and endless, and the transmission distance of the infinite magical power of heaven and earth is indeed very far.

But it can only be teleported to the area around the Three Holy Heavens once.

If he wants to reach the Dao Alliance station smoothly, he may have to continuously use his teleportation power millions of times.

Even if Zhang Yuhe's Dantian is as vast as the sea, it doesn't have that much divine power.

It can support continuous transmission for such a long time.

So the best way.

Or take the Dao Alliance's teleportation array.

Anyway, as a Dao Alliance disciple, he doesn't have to pay to ride the teleportation array.

Zhang Yuhe thought.

There are free and convenient things that don't have to be free.

He flew quickly past Shangyunfang Void Island along the way.

We soon arrived at the city center.

Section 1223

Wu Yuxi closed her eyes slightly and sat quietly cross-legged under the teleportation array.

Just at this time.

His eyes shot open.

Saw Zhang Yuhe coming.

Wu Yuxi stood up quickly, stepped forward and shouted enthusiastically.

"Long time no see, Galaxy Taoist friends."

"Welcome to join the Taoist Alliance. From now on, we will all be considered brothers."

"You should take care of me more, haha."

Zhang Yuhe responded with a smile.

"I've met Emperor Yuxi."

"The emperor is overly praised."

"I'm still in the God King realm, so I need more help from my seniors."

Hear this.

Emperor Yuxi laughed, waved his hand quickly and said.

"Brother Yinhe can defeat me."

"There is no sequence in the Tao. The one who masters it is the teacher."

"Who doesn't know now that the Holy Lord of the Galaxy showed his might and killed three invincible supreme beings in a row?"

"With my small body, I'm afraid I can't even withstand the aftermath of your sword light."

"How dare you say any advice, hehe."

"By the way, brother Yinhe is going to the Dao Alliance station?"

"I'll start the teleportation array for you."

"Thank you, Emperor."

Zhang Yuhe cupped his hands, and then quickly flew up to the teleportation array.

As Wu Yuxi pinched the magic formula.

A dazzling light flashed across the sky and the earth.

Zhang Yuhe's figure disappeared from the scene in an instant.

Watch the light fade away.

Wu Yuxi was a little stunned.

He muttered to himself.

"The rise of such a terrifying genius does not know what surprises it will bring to this vast river of chaos."

"I hope that in the distant future, we can really open up a road leading beyond the long river."

Wu Yuxi thought silently.

He has been a member of the Taoist Alliance for countless years.

Even after being promoted to the Eternal Emperor, tens of thousands of chaotic eras have passed.

I was once a famous figure myself.

But as the years pass.

After he succeeded in joining the Tao.

Wu Yuxi found that her potential seemed to have been exhausted.

Even with the broad platform of Dao League, it is not enough to support his breakthrough to the supreme realm.

He has tried hard before.

But there was no hope.

There is no threshold between eternity and the Supreme.

It is an insurmountable chasm.

Now Wu Yuxi can only hope that someone can open up an unprecedented path.

Let him get out of the long river of chaos and move towards a new and broader world.

Maybe that's all.

Only then could he take that step.

And Zhang Yuhe is his hope.

Wu Yuxi once witnessed with his own eyes Zhang Yuhe's great power.

Kill the three invincible supreme beings with the sword.

The vast and arrogant sword light left a deep impression on him.

In Wu Yuxi's opinion.

Zhang Yuhe's potential is even stronger than that of the Nine Lords.

Maybe Zhang Yuhe can really break the shackles of this world.

Take an unprecedented path.

Leading everyone to a new world.

Think of this.

Wu Yuxi couldn't help but have some expectations in her heart.

...

Ten days later.

Zhang Yuhe continuously switched teleportation arrays and finally arrived at the area where the Dao League was stationed.

He stands in the void.

Look at the vast world in the distance.

I saw countless cosmic worlds, just like the starry sky at night.

Blooming with brilliant light.

Countless starlights are arranged in Tai Chi, slowly moving in the vast river.

Each of the nine halls occupies one side.

In the middle is where the Wanfa Heaven is.

Looking at such a magnificent scene.

Zhang Yuhe couldn't help but be amazed.

"The strength of the Dao Alliance Lord is really terrifying."

He knows it very well.

Those brilliant starlight worlds in the distance must not be naturally formed by the long river of chaos.

Rather, it was created by the nine great lords of the Dao Alliance with their astonishing power.

The Eternal Emperor can evolve the world.

But such a world is mostly a barren land.

Not to mention letting the world reproduce naturally.

Even if the creatures were moved in, they would basically not be able to survive.

Except for the monk himself.

Other weak creatures can hardly survive in the world evolved by the Eternal Emperor.

As for the Invincible Supreme, that is even more impossible.

The ordinary Invincible Supreme just takes a shortcut.

They gave up their own world and merged with the origin of the chaotic universe.

Replace your own world with a chaotic universe.

Only then did he reluctantly take a step forward.

So in the long river of chaos, there is such a saying.

The so-called invincible supreme beings are actually false supreme beings.

Only the Nine Lords of the Dao Alliance can truly rely on their own strength.

Breaking the shackles of heaven and earth.

Take that solid step and achieve the true supreme state.

The nine great lords evolved the universe from themselves.

It moved here and became the foundation of the Tao Alliance.

Just at this time.

Someone next to me said.

"Fellow Taoist Galaxy, this Shanmen Dojo is quite spectacular."

"It's truly spectacular."

Zhang Yuhe nodded gently in response.

This person's name is Li Mingsheng, who is in the invincible supreme realm.

Zhang Yuhe was passing by a teleportation array somewhere.

Li Mingsheng was about to return to the Taoist League.

Section 1224

The two of them walked together.

Zhang Yuhe looked into the distance and observed silently for a long time.

At this time, he suddenly discovered.

This vast mountain gate dojo seemed to have no formation.

There was no defensive formation covering the entire Dao League.

It was like an open dojo.

Seeing this situation.

Zhang Yuhe turned his head to look at Li Mingsheng and asked curiously.

"Saint Master Mingsheng, is there no defensive formation in our Dao League station?"

Hearing this.

Li Mingsheng responded with a smile.

"The Dao League's mountain gate station is indeed not set up with formations."

"Theoretically, anyone can come in."

"But the Dao League is aloof from the world."

"If there is no permission, which daring cultivator dares to break into the Dao League?"

"As for sneaking in quietly, don't even think about it."

"The Dao League has countless disciples, and there are hundreds of thousands of invincible supremes."

"There are more than tens of thousands of supreme cultivators who stay in the mountain gate."

"Even if it is just a wisp of dust, it can't escape everyone's perception."

"What's more, the nine great masters have left their Dharma bodies to sit in the mountain gate."

"Who is not afraid of death and dares to rush here rashly?"

"The masters said it back then."

"The Dao League station does not need to set up formations."

"If there really comes a day when formations are needed for defense."

"Then there is no need for the Dao League to exist."

After listening to Li Mingsheng's narration.

Zhang Yuhe couldn't help but look slightly stunned.

Is the Dao League Master so fierce?

Maybe this is called looking down on the world.

Really fearless.

Maybe except for the end of the ethereal avenue.

There is no other matter that can interest the nine masters.

They just want to jump out of this pond and move towards a wider world.

...

Chapter 854: Mountains like forests, classics like the sea

Looking at the starry mountain gate station in the distance.

Zhang Yuhe knew.

The nine masters of the Dao League are all people with great courage.

They are not afraid of threats or challenges.

There is nothing else in their hearts except the avenue.

Zhang Yuhe felt.

This is exactly the state of mind he pursues.

It's just that his strength is still far behind that of the nine masters.

Some things cannot be done as he pleases for the time being.

Maybe after Zhang Yuhe succeeds in the integration of the Dao.

He can be like the Dao League Master.

Dare not fear any threats again.

"I hope that this trip to Wanfatian will be rewarding."

Zhang Yuhe thought silently in his heart.

He was full of expectations for the cultivation manuals in the Wanfa Heaven.

He hoped that with these manuals,

he could comprehend more Dao rules.

Now Zhang Yuhe has cultivated to the Nine-Step Divine King Realm.

He is not too far from the perfect level.

And he did not feel the suppression of the eternal bottleneck.

It can be said that as long as Zhang Yuhe is willing.

He can succeed in merging Dao at any time and break through to the eternal realm.

But he is not willing.

Zhang Yuhe does not want to be an ordinary eternal emperor.

He wants to verify his previous ideas.

He wants to gather three thousand Daos in himself.

Zhang Yuhe guessed.

Once he comprehends all the Daos of heaven and earth completely.

Then when he merges Dao, the world he evolves.

It will definitely be very perfect.

Maybe it will be as vast and brilliant as the Chaos River.

That is the real creation.

That is Zhang Yuhe's pursuit.

He believes that he can succeed.

Thinking of this.

Zhang Yuhe turned and said to Li Mingsheng next to him.

"Saint Master Mingsheng, I want to go to Wanfatian to have a look, so I'll go first."

Li Mingsheng nodded gently.

He smiled and responded.

"Wanfatian is indeed worth a visit."

"There are almost all the martial arts books that have ever appeared in the entire Chaos River."

"Even those martial arts and magical powers that have been lost for countless years."

"You can still find them in Wanfatian."

"Many new disciples will come to the Dao League."

"They will be the same as you."

"The first step is to go to Wanfatian."

"Wait until you have read all the books inside."

"Not only can you master more magical skills."

"The most important thing is."

"The vast books can broaden the horizons of cultivators."

"Let you have a clearer understanding and cognition of the entire Chaos River."

Zhang Yuhe nodded gently.

He bowed to Li Mingsheng, and then spoke solemnly.

"Thank you for your guidance, senior."

...

Zhang Yuhe said goodbye to Li Mingsheng and flew quickly towards the brilliant galaxy in the distance.

After a while,

he flew into a vast world.

There was no formation at the Dao League's mountain gate station.

There was not even a formation to detect identity.

Zhang Yuhe flew into the Dao League without encountering any obstruction.

No one came forward to check his identity.

It was like entering an open market.

Section 1225

When Zhang Yuhe was flying quickly over Daomeng.

Occasionally, you can see individual Taoist monks passing by on the road.

When everyone saw Zhang Yuhe.

They couldn't help but look surprised.

obviously.

They all know Zhang Yuhe.

Know about his joining the Dao League.

Everyone nodded to each other and passed each other.

There wasn't much communication.

After all, everyone is busy.

Zhang Yuhe was in the sky above the Dao League, passing through the vast cosmic world.

Except for the nine great lords.

Many eternal emperors and invincible supremes in the Tao Alliance will also transform the world they evolve.

Moved to Shanmen Station.

Because in this vast river.

There is no place safer than Daomeng Mountain Gate.

If you move the world to Daomeng, you will never have to worry about being destroyed by others.

This is countless times safer than hiding in the void mezzanine.

In case they die unexpectedly.

You can also resurrect in the world.

Moreover, they can also find abundant cultivation resources in the Dao Alliance.

This will allow you to quickly recover your cultivation level.

There is such a thing as convenience.

Why should they hide their world in other places?

Of course, they are all placed in the Dao Alliance.

Daomeng Mountain Gate is vast and boundless.

Even if the entire Three Holy Heavens were put in, it would probably only occupy a small corner.

There is no separate teleportation array inside the mountain gate.

Daomeng disciples can only fly forward by themselves inside the mountain gate.

It may take hundreds of thousands of years for the disciples of the God King to pass through the entire mountain gate.

When I first flew into the Dao League.

Zhang Yuhe once tried to use the infinite magical power of heaven and earth.

I want to be teleported directly to Wanfa Tian.

But the result made him very depressed.

He simply cannot activate the infinite magical power of heaven and earth here.

The transmission channel cannot be opened.

Although there is no formation covering the sky above the Dao Alliance.

But there are a huge number of top monks gathered here.

In addition, the dharma bodies of the nine great lords also sit in the Tao Alliance all year round.

The ubiquitous Dao Yun aura exerts various magical powers.

It has a huge suppressive effect.

Since he couldn't teleport directly, Zhang Yuhe could only silently immerse himself in his journey.

Fortunately, he was not in a hurry.

Just fly slowly in the void.

After a hundred thousand years of flight.

Zhang Yuhe passed through the layers of the universe.

A vast and boundless world finally appeared in front of him.

Wanfatan.

This is where the Dao League collects classics.

Zhang Yuhe raised his head and looked into the distance.

I saw towering peaks towering into the sky in Wanfa Tian.

On those tall mountain peaks.

There are countless stone tablets of various shapes standing.

The vast aura of Taoism rises around the stone tablet in a form visible to the naked eye.

Near the peak.

There are also countless classics floating around.

These classics come in various shapes.

There are jade slips, paper ones, and many unknown animal skin classics.

The mountains are like forests and the books are like sea.

The Wanfa Tian is vast and boundless, almost completely covered with countless classics.

It's really hard for Zhang Yuhe to imagine.

How many classics are there?

It is estimated that few people in the entire Dao Alliance can explain clearly.

Looking at the vast sea of Wanfa Tian in the distance.

Zhang Yuhe couldn't help but have a faint smile on his face.

The number of classics here is extremely exaggerated.

If you want to read all the classics, it will probably take trillions of years.

It may not be enough.

despite this.

Zhang Yuhe still plans to read through all Wan Fa Tian's classics carefully.

No matter how much time it takes, it doesn't matter.

He has reached his current level of cultivation.

Time has become an abstract concept.

Many monks will not make any progress after reaching the God King Realm, even after tens of thousands of chaotic eras.

For Zhang Yuhe.

As long as you can make progress, you can meet your original expectations.

No matter how much time it takes, it is worth it.

"From now on, I will take root in Wanfa Heaven and slowly read through the magical books here."

Think of this.

Zhang Yuhe rose into the sky and quickly flew into the vast ocean of smoke-like books.

...

Chapter 855: Trillions of Years of Enlightenment

Zhang Yuhe flew directly into the center of Wanfa Tian and came to a tall stone monument.

He looked up towards the stone tablet.

I saw the vast and endless Taoist aura constantly flowing around the stone tablet.

The terrifying Dao Yun aura evolved into a phantom of the world.

Zhang Yuhe seemed to see countless vast worlds through these shadows.

The world goes on and on.

It's like it really exists.

See this scene.

Zhang Yuhe couldn't help but be amazed.

"What a strong Taoist aura."

"Is this the strength of the Nine Lords?"

This stone tablet was left by Lord Samsara.

It records a supreme magical power technique.

It's called [The Sutra of Immortality of Reincarnation].

Legend has it long ago.

Lord Samsara passed through a strange secret realm and suddenly had an enlightenment.

After that, tens of thousands of chaotic eras passed.

Section 1226

The Lord of Samsara finally understood a supreme rule of the great road from the secret realm.

He named this great law of reincarnation.

The name of the Lord of Samsara also comes from this.

After understanding the supreme rules.

He spent countless years and finally created the magical power of the [Sutra of Immortality of Reincarnation].

With this magical power.

Only then did the Lord of Samsara finally break the shackles of heaven and earth and advance to the true supreme realm.

After the Tao League was established.

Lord Samsara inscribed this magical power on the stone tablet.

Place it in Wanfa Heaven.

However, countless epochs passed.

No one can understand the rules of reincarnation from it.

Even the magical power of [Reincarnation and Immortality Sutra] has never been learned by anyone.

It is as if this magical power can only be enjoyed by the Lord of Samsara alone.

Others can no longer learn to be average.

Zhang Yuhe sat cross-legged near the stone tablet while looking at the magical skills recorded on the stone tablet.

While silently comprehending the Taoist aura flowing around the stone tablet.

I don't know how long it took.

Zhang Yuhe stood up slowly.

He couldn't help but sigh.

He muttered to himself.

"It seems that this technique is indeed not suitable for me."

"If you want to understand the rules of reincarnation, you probably have to find another opportunity."

Think of this.

Zhang Yuhe stood up slowly and quickly found another stone tablet.

Here is also the magical power technique left behind by the Lord of the Dao Alliance.

【Eternal Immortality Sutra】

It is a magical power technique created by the Lord Changsheng.

Zhang Yuhe was near the stone tablet and carefully understood millions of years of time.

Still nothing.

Not to mention comprehending the rules of the Great Dao from magical powers.

He didn't even have any clue about this magical power.

It's like reading a book from heaven.

I can't understand it at all.

Failed to comprehend twice in a row.

Zhang Yuhe couldn't help but fall into deep thought.

The magical skills created by Lord Daomeng are not that easy to learn.

Definitely.

Zhang Yuhe was also mentally prepared.

But he spent such a long time and continuously observed the magical powers and techniques left by the two lords.

Nothing gained.

Didn't even touch the threshold.

This is a bit abnormal.

Zhang Yuhe is very confident in his own understanding.

If you have any magical power in your hand, all you need to do is look at it a few times.

You can basically learn it.

No matter how difficult the magical power is, it can't stop him.

But now twice in a row, there has been no progress.

Something is wrong with this.

"Is it possible that the skills created by the Lord of the Dao Alliance are restricted by this world?"

"Are these skills and magical powers unique?"

"Except for the Lord who created the technique, no one else can learn it?"

This made Zhang Yuhe couldn't help but think of the Chaos Gods and Demons Scripture.

When I was in the fairy world.

Lu Yunfei had acquired this skill for millions of years, but he couldn't understand it at all.

He even placed the stone tablet recording the exercises directly in the mountain gate square of Daosheng Sect.

The monks coming and going throughout the sect can be seen as long as they raise their heads.

But so many years have passed.

No one has ever been able to learn the Scriptures of Chaos Gods and Demons.

Until Zhang Yuhe appeared.

He saw the stone tablet recording the first volume of the Chaos God and Demon Sutra in the Sutra Tower of the Yufan Tiandao Holy Sect.

It took very little effort.

He mastered this skill and got started.

It is precisely with the help of the Chaos Gods and Demons Scripture that Zhang Yuhe can exert his tyrannical fighting power.

He can even use the power of the nine-step god king to continuously kill the invincible supreme being.

In addition to his own innate magical power, Hunyuan Guiyi.

The role of the Scripture of Chaos Gods and Demons is also crucial.

Otherwise.

How could he be able to cross multiple realms and continuously kill the invincible supreme being?

This is almost impossible.

Zhang Yuhe thought silently for a long time.

He came to a conclusion in his mind.

The supreme rules of heaven and earth, and the magical powers derived from them, should all be unique.

It can only be learned by one person.

Maybe that's what it means.

The skills and magical powers left by the Dao Alliance Lord had no effect on him at all.

If Zhang Yuhe still wants to, continue to understand other supreme rules.

Then you have to find another opportunity.

For example, find the corresponding secret realm.

At that time, the Lord of the Tao Alliance understood the secret realms of the rules of the Tao.

They should still be there now.

I'll look for a chance to go and have a look in the future.

But there's no rush yet.

Let's wait until he has read all the other Kung Fu books in Wanfa Tian.

Think of this.

Zhang Yuhe jumped into the air and quickly flew towards the nearby mountain peak.

He cannot learn the magical power of the Dao Alliance Lord.

But you can still learn other magical powers and techniques.

Maybe it can be done and the rules of the great road can be understood from it.

...

Time passes slowly.

Zhang Yuhe is immersed in the ocean of classics.

In addition to the techniques created by the nine great lords.

Zhang Yuhe would not let go of any of the Kung Fu books in the Ten Thousand Laws Heaven.

He looked through it slowly.

Every time I read a classic, I silently gain some insights.

Occasionally an idea strikes.

Let him realize a new avenue of rules.

The Myriad Laws Heaven is vast and endless, and the martial arts books are countless.

Zhang Yuhe just slowly flipped through them.

Section 1227

A billion years, tens of billions of years, a hundred billion years.

Since entering Wanfa Heaven, he has never left again.

Not only that.

Zhang Yuhe even summoned his clones.

Except for leaving a clone behind, sitting in the holy world of the Milky Way.

The other eight clones were all summoned to Wanfa Heaven by him.

The original deity plus eight clones.

Nine people looked through the Kung Fu books at the same time, greatly improving efficiency.

...

Although Zhang Yuhe has not appeared for hundreds of billions of years.

But the legend about him is still spreading rapidly in the long river of chaos.

As long as there is an area where the Invincible Supreme is stationed.

Everyone knows that in this long river, a super terrifying genius has risen.

Everyone was extremely shocked by Zhang Yuhe's reverse attack on the Invincible Supreme.

Many people even think that this is fake.

Even if there is a photo stone, it records the scenes of the war that year.

There are still many people who don't want to believe this is true.

Because this is really scary.

...

Zhang Yuhe never paid attention to external affairs.

He was immersed in the vast ocean of classics.

Silently read through and gain insights.

One trillion years have passed.

...

Chapter 856 Leaving a Faraway Country

In the void outside Paulin's holy world.

The three supreme beings gathered together again.

But now, they are no longer as high-spirited as before.

The three of them sat cross-legged in silence in the void.

After a long time.

Taihua Supreme said with a gloomy expression.

"You have all heard about the Galaxy Holy Lord joining the Dao Alliance, right?"

Supreme Tianguang next to him responded angrily.

"Do you even need to say this?"

"Now in the entire Chaos River, who doesn't know that Zhang Yuhe was seen by the Taoist Alliance Lord and was pulled into the Taoist Alliance early on?"

"Hmph, return it to the Holy Lord of the Galaxy."

"He is a nine-step god king, but he dares to call himself the Lord of the Holy World."

"I simply don't know how high the sky is."

Hearing the words of Supreme Heavenly Light.

Taihua Supreme couldn't help but sigh.

He said leisurely.

"Tianguang, why do you have to say such angry words?"

"Zhang Yuhe stepped on us and rose to power."

"Now tell me about the Holy Lord of the Galaxy, who dares to object?"

Just at this time.

Paulin Supreme, who was next to him, waved his hands towards the two of them.

Then he spoke calmly.

"Okay, you don't have to worry about these trivial matters anymore."

"I came to you this time mainly to discuss things."

"What should we do next?"

"Zhang Yuhe is powerful and is suppressed by the origin of the universe near the Galaxy Holy Realm."

"There's absolutely nothing we can do about him."

"Now that he has joined the Dao Alliance, maybe he will break through to the eternal realm in the near future."

"When he is in the God King Realm, there is nothing we can do."

"Once he successfully merges with the Tao, he will be promoted to the Eternal Emperor."

"Then there will probably be no place for us in this Three Holy Heavens region."

"While Zhang Yuhe is still here, he has not yet broken through to the eternal realm."

"We must come up with a charter quickly."

"Otherwise, in the future we may really be able to retreat into our own holy world and never be able to step out."

Taihua and Tianguang looked at each other and then asked silently.

"Pauline, what do you suggest?"

"We couldn't do anything about Zhang Yuhe before."

"Now that he has joined the Taoist Alliance, do you still want to continue taking action?"

"To be honest, I wouldn't dare."

"If we attract those old monsters in the Dao Alliance, we will have to go around without food."

"If it really doesn't work."

"Let's just move the Holy World away."

"Just stay away from the Three Holy Heavens."

"I believe that Zhang Yuhe will not be able to come to us all over the world in the future."

Hear this.

Supreme Paulin couldn't help but fell into silence.

He had also considered Taihua Supreme's suggestion.

The invincible supreme body merges with the origin of the universe.

They can indeed move the Holy World to other places.

Although this will be very troublesome.

But it's not impossible.

It's just that he is a little unwilling.

I think of him as the invincible supreme being who has traveled across the river for countless years.

Now, he was actually forced to go far away from home by a nine-step god king.

It's frustrating to think about it.

But besides this, what else can they do.

Zhang Yuhe is rising day by day.

And now I can overwhelm them.

Not to mention anymore.

Wait until Zhang Yuhe succeeds in joining the road.

It is estimated that even if you are far away from the Galaxy Holy World, there will be no suppression from the Holy World.

None of them have confidence.

Can beat Zhang Yuhe.

They have already developed a grudge against the Galaxy Holy World.

There is almost no possibility of reconciliation between the two parties.

Waiting for Zhang Yuhe to rise like this, but without any countermeasures.

It makes them feel very uncomfortable.

Pauline Supreme looked into the distance.

He muttered and said.

"Maybe I really have no choice but to go far away."

This time, he invited the two Supremes Taihua and Tianguang to come together to discuss.

Originally, he hoped to find other ways, preferably to get rid of Zhang Yuhe.

But now it seems.

He was obviously overthinking it.

Section 1228

Taihua and Tianguang had long been frightened by Zhang Yuhe.

He didn't even dare to have any hostility.

If we leave aside Taihua and Tianguang.

Supreme Bolin was alone, and he did not dare to make any more moves.

That being the case.

Then just run.

Bolin Supreme thought.

There was nothing they could do about Zhang Yuhe.

Then we can only take the Holy World to the remote corner over there.

As long as they keep a low profile and hide.

Presumably Zhang Yuhe will not deliberately look for them in the future.

The three supreme beings stood quietly in the void, and the scene was silent for a long time.

Paulin Supreme said helplessly.

"In that case, let's go our separate ways."

"Take the Holy World away from this area and away from Zhang Yuhe."

"The day after tomorrow we will go our separate ways, two fellow Taoists, take care."

After saying this.

Pauline Supreme flew into the holy world.

After a while.

The surrounding void shook.

The huge Bolin Holy World began to break away from the void of the long river and slowly moved towards the distance.

Different from normal eternal monks.

The Eternal Monk can summon the world and merge it with himself.

But like Paulin and Taihua, these invincible supreme beings, on the contrary, cannot do it.

Because the holy world they are in did not evolve by itself.

And by integrating into the origin of the world, one can achieve the purpose of mastering the holy world.

In simple terms.

They are occupying the magpie's nest.

The Invincible Supreme cannot bring chaos to the world like the Eternal Monk.

Take the world on a quick run.

They can only rely on the power of their origin to push the holy world forward slowly.

This is indeed very troublesome, and the movement speed cannot be increased.

Once there is an emergency on the road, it will be great fun.

despite this.

Paulin Supreme still decisively led the Holy World away.

Because it won't work if I don't run.

He was also a little scared.

He was afraid that Zhang Yuhe would cause trouble for him in the future.

Only with the Holy World, hidden in a place no one knows.

Only then can we avoid Zhang Yuhe and wait for the situation to change.

...

The two Supreme Beings, Taihua and Tianguang, stood quietly in the void.

Watching Paulin's holy world gradually fade away.

They couldn't help but feel a little sad.

The rabbit dies and the fox is sad.

They had dominated the Three Holy Heavens for countless years.

Now he is forced to leave his hometown.

So far though.

Zhang Yuhe has not made any move yet.

But they all know it.

Once Zhang Yuhe is strong enough, he will definitely not let them continue to be free.

Maybe they will all be trapped in the holy world.

If that were to happen, it would be too frustrating.

So it is better to leave early than to leave late.

Now that I have decided to move to the Holy World.

Then we can't be sloppy.

Think of this.

Taihua Supreme said with emotion.

“Paulin is really decisive.”

"Let's just leave without any intention of lingering."

Supreme Tianguang responded sadly.

"With Zhang Yuhe here in the Three Holy Heavens, what else do we have to miss?"

"There is still a chance to leave now."

"When Zhang Yuhe succeeds in joining the road, we may not be able to leave even if we want to."

"Yeah, you have to leave early."

Taihua Supreme responded silently.

Then he took a deep breath and looked at Tianguang Supreme beside him.

He spoke slowly.

"Let's go too."

"Find a remote corner and settle down the Holy World first."

"From now on, the Three Holy Heavens region will be left to Zhang Yuhe."

Speaking of which.

Taihua Supreme paused for a while.

He asked Supreme Tianguang next to him.

"Tianguang, how about the two of us go together."

"It would be nice to have someone to take care of me in the future."

Supreme Tianguang pondered for a while, and then shook his head gently.

He responded slowly.

"Still not."

"Everyone goes his own way."

"Fellow Taoist, take care."

After saying this.

Supreme Skylight rose into the sky and quickly flew towards the distance.

He was indeed a little moved by Taihua Supreme's proposal.

But after some thinking.

He gave up on the idea.

The two of them hug each other and can indeed take care of each other.

But the goal is also bigger.

Not conducive to hiding traces.

What if Zhang Yuhe comes to your door in the future?

Wouldn't that be a big problem?

It is precisely because of these considerations.

Supreme Tianguang refused decisively.

It would be better to go alone.

He planned to find a remote area and hide for tens of thousands of epochs.

Avoid Zhang Yuhe's sharp edge.

We will look at the situation in the future and then consider whether to reincarnate.

Section 1229

The news that Paulin Supreme and others moved away from the Holy World.

Soon, it caused a huge sensation in the Sanshengtian area.

Everyone understands.

Why did these three invincible supreme beings leave?

Because they were all beaten to shame by Zhang Yuhe.

Even one life was lost.

Now that Zhang Yuhe has joined the Dao Alliance, these three invincible supreme beings are even more untouchable.

They couldn't do anything to Zhang Yuhe, so naturally they had no choice but to run away in advance.

Otherwise.

Once Zhang Yuhe waits, he will become truly powerful.

How can they still survive?

The three supreme beings left with the Holy World.

These Three Holy Heavens automatically turned into the Milky Way Heaven.

Zhang Yuhe has been immersed in the vast ocean of classics of Wanfa Tian.

He naturally already knew about the departure of the three supreme beings.

But Zhang Yuhe didn't pay too much attention.

Although he and the three supreme beings have already formed a grudge.

But seriously.

It's not him who suffers.

Now the other party is far away from home, running away in despair.

Naturally, Zhang Yuhe would not deliberately pursue and search for him.

Totally unnecessary.

Moreover, he has not started to join the Tao yet, and is still in the nine-step divine king realm.

After breaking away from the suppression of the holy world.

Even if all nine clones are gathered.

Zhang Yuhe is not sure how he can win over Bolin Supreme and others.

That being the case.

Then let them go.

As long as these three invincible supreme beings don't get in his face in the future.

If that's the case.

Zhang Yuhe didn't mind and got rid of them easily.

Following the three supreme beings, they left with their respective holy realms.

In the entire surrounding area, only the Galaxy Holy World is the only one left.

Countless god king monks walked out of the holy world and walked towards the vast river of chaos.

They no longer need to arrange a large number of manpower to sit at Tianguan like before.

There is no threat from the three supreme beings.

Who in the entire Milky Way would dare to come to the Holy World to seek death?

Following Zhang Yuhe's order.

Basically all the defensive forces of Zhenshi Tianguan have been withdrawn.

Only various formations are left to monitor people coming and going.

There is no need to deploy too many defensive forces at Tianguan.

More monks walked out of the holy world and ventured into the river of chaos.

Naturally, there will be opportunities to obtain more cultivation resources.

From this, the Galaxy Holy World began to move towards the fast lane of prosperity.

With the help of the rich cultivation resources in the river, the number of monks of the Holy World God King increased rapidly.

Even among the people who entered the Holy Realm from the Immortal Realm, many of them have already broken through to the God King Realm.

Like the veteran Li Tianxing, An Tianzuo and others, as well as the new generation Li Tian, He Yueyue, Wang Guofeng, etc.

After Zhang Yuhe went to Daomeng.

Taking advantage of the rise of the Holy Realm, they all broke through to the God King Realm one after another.

The Holy World was prospering, but Zhang Yuhe didn't pay too much attention to it.

Anyway, there is no need for him to interfere in the specific affairs of the Holy World.

Those eternal emperors will naturally arrange things well.

Zhang Yuhe just arranged for a clone to sit in the Holy Mountain Dojo.

Unless there is a foreign invasion.

Otherwise.

He doesn't have to worry about anything.

Just practice quietly.

...

Dao Alliance Wanfa Tian.

Zhang Yuhe himself and his eight clones were reading the classics.

While quietly comprehending.

Time passes slowly.

Trillions of years later.

Zhang Yuhe gently put the jade slip in his hand back to its original place.

He looked up into the distance and murmured to himself.

"Finally, I have read all the classics."

"The harvest is pretty good."

Feel yourself, the power of the vast and endless rules.

Zhang Yuhe couldn't help but reveal a faint smile.

Since these trillions of years.

He has been sitting quietly in the Wanfa Heaven, never taking a step forward.

By looking through countless classics.

Zhang Yuhe not only had a clear understanding of the Chaos River.

more importantly.

The vast number of classics here brought him a lot of inspiration.

It also made him realize hundreds of various rules of the great road.

Zhang Yuhe calculated silently.

Of the three thousand avenues, he has mastered 2,901.

That is to say.

With only the last 99 rules of the great road missing, he had fully comprehended the three thousand great roads.

These include seven supreme rules.

"Where to go next?"

Zhang Yuhe has read all the classics in Wanfa Tiannei.

Continuing to stay here won't be of much help to him.

For the remaining ninety-nine avenue rules, he can only travel to various secret realms and dangerous places.

Only then can I have a chance to realize it.

"Let's go to Yin Yang Tian to have a look first."

Think of this.

Zhang Yuhe soared into the sky and flew quickly towards the outside of Wanfa Tian.

...

In the vast river of chaos.

A huge divine boat quickly shuttled forward in the void.

Zhang Yuhe stood quietly at the front of the Shenzhou.

A strange world in the distance soon appeared in front of him.

This is the yin and yang sky.

It is the place where Lord Yin Yang attained enlightenment.

Legend has it long ago.

As soon as Lord Yin Yang entered the river of chaos, he was dragged into the vicinity of Yin Yang Tian by an inexplicable force.

By observing the strange sights here.

Lord Yin Yang suddenly realized something.

Section 1230

Unknowingly, he realized a supreme way.

Yin and Yang rules.

After the news spread.

There have been monks coming to Yin Yang Tian to observe and gain insights.

Everyone hopes that they can be like Lord Yin Yang.

Understand the supreme rules and embark on the road to heaven.

Unfortunately.

Countless years have passed.

People who come to the yin and yang heaven are like crucian carp crossing the river.

But no one can comprehend anything useful from it.

It was as if the entire universe and the rules of the great world had been absorbed by the Lord Yin and Yang.

Zhang Yuhe had seen allusions about Lord Yin Yang's enlightenment in Wan Fa Tian.

So come and have a look.

Zhang Yuhe thought.

Since the Yin Yang Lord back then was able to comprehend the rules of the Great Dao here.

Then you can definitely do it yourself.

As long as the origin of Tao Yun here has not been destroyed.

He will definitely be able to understand the rules of yin and yang from it.

Zhang Yuhe is completely confident in his own understanding.

Just like before in the Secret Realm of Time and the Realm of Taijin.

By understanding the origin of Tao Yun in the secret realm.

He successfully realized the two supreme rules of time and space.

The supreme rules are so mysterious and profound that few people can understand them and master them.

But that's for other people.

For Zhang Yuhe.

As long as the opportunity is still there.

With his heaven-defying understanding, he can comprehend even the most difficult rules of the Great Dao.

Zhang Yuhe looked into the distance.

I saw a strange world revealed in the vast river of chaos.

The sky and the earth are white and the bottom is black, with clear yin and yang.

The vast Taoist aura is constantly rising and falling in the black and white world.

The periphery of the yin and yang sky.

One after another, the Chaos Divine Boats were scattered in the void in the distance.

Even though so many years have passed.

No one can understand the rules of the Great Dao from the Yin and Yang Heaven anymore.

But there is a precedent for Yin Yang Lord.

Everyone still has expectations.

I hope I can be as lucky as the Lord and understand the rules of the great road.

And even if you don't understand the rules.

When cultivation is stagnant, many people will come here to observe.

After all, this is the place where Lord Yin Yang became enlightened.

Everyone is thinking.

View the remains of our ancestors.

Maybe you will also gain something.

...

Chapter 858 Holy Lord Minghao

Chapter 858

Zhang Yuhe stood quietly in the void, looking at the black and white yin and yang sky in the distance.

This made him couldn't help but sigh at the miraculous creation of heaven and earth.

Just at this time.

A hearty voice came from a distance.

"Brother Yinhe, I didn't expect to see you here, haha."

Zhang Yuhe looked in the direction of the sound.

He saw a tall figure flying towards him quickly.

He cupped his hands in the distance and responded with a smile.

"I've met senior Minghao."

This person's name is Lu Minghao, and he is the invincible supreme leader of the Tao Alliance.

Hundreds of millions of years have passed since Zhang Yuhe joined the Dao Alliance.

Although he has been staying in Wanfa Tian, he rarely meets other people.

However, there is a discussion area.

It also made him get to know many fellow Taoists.

This Lu Minghao is one of them.

Lu Minghao flew and landed on the Galaxy Shenzhou.

He walked up to Zhang Yuhe and shouted happily.

"Brother Yinhe, we have been friends in Lundao District for many years, but we never expected that we would meet here unexpectedly."

"By the way, are you also here to observe the relics of the Lord's enlightenment?"

Although Lu Minghao is the Invincible Supreme, Zhang Yuhe is only at the Nine-step God King level.

But he didn't have any arrogance, and he treated Zhang Yuhe like a brother.

There is no way to put down the airs of the seniors.

In fact.

In the entire Dao Alliance.

Not many people dared to put on airs in front of Zhang Yuhe.

Even if Zhang Yuhe's cultivation level is low.

Still no one dares to underestimate him.

Because the strength displayed by Zhang Yuhe is enough to be respected by everyone.

He even killed three of the Invincible Supremes.

Who dares to treat him as a junior?

Facing the enthusiastic Li Minghao in front of him.

Zhang Yuhe nodded and responded slowly.

"I have encountered some confusion in my practice recently, so I just took a walk and took a look."

"I hope you can gain something by observing the place where the Lord attained enlightenment."

Li Haohao nodded slightly, smiled and said.

"The road is endless, you really should get out and walk more often."

"Although there are countless classics in the Ten Thousand Laws Heaven, the things recorded in them are inclusive of all things."

"But those are just classics after all. There are some things that you have to see with your own eyes before you can understand them."

Zhang Yuhe responded calmly.

"Thank you for your guidance, senior."

Suddenly he seemed to remember something, and then asked Li Minghao.

"That's right, senior."

"I heard before that you were hunting chaotic creatures. I wonder what the harvest was like?"

Li Minghao seems to be very persistent towards chaotic creatures.

I have been calling friends in the discussion area.

Later, he actually asked him to find a group of fellow monks and hunt for Chaos Born together.

It's just that after so many years, I don't know what the outcome will be.

Hearing Zhang Yuhe's words.

Li Minghao waved his hand and responded depressedly.

"Don't mention it."

"I did underestimate the chaotic creatures before."

"This time, there were six of us, and we found several chaotic creatures one after another."
