Section 1231

"In the end, I didn't even hit one."

"On the contrary, two of our fellow Taoists were beaten to death by the chaotic creatures."

Hear this.

Zhang Yuhe couldn't help but look slightly stunned.

Are chaotic creatures so fierce?

Although he knew it before.

Every Chaos is born to be difficult to deal with.

Even the weakest chaotic creature can rival the Invincible Supreme.

But the problem is.

Li Minghao and others had been preparing for such a long time, and six of them acted together.

Unexpectedly, he was unable to kill even one of the chaotic creatures.

This is a bit exaggerated.

Could it be that Li Minghao and others specifically selected those powerful chaotic creatures to kill?

Looking at Zhang Yuhe's face, there was a puzzled expression.

Li Minghao said helplessly.

"Chaos creatures are indeed very strong, and none of them are easy to deal with."

"But this is not the main reason why our operation failed."

"The main reason is that none of the six of us have a supreme artifact."

"And everyone's magical powers are geared towards defense or life-preservation."

"In terms of attack power, it is indeed somewhat lacking."

"Even if the six of us attack together, we still won't be able to cause fatal damage to the chaotic creatures."

Speaking of which.

Li Minghao seemed to think of something suddenly.

He turned to look at Zhang Yuhe and asked eagerly.

"Brother Yinhe, I wonder if you are interested in hunting chaotic creatures with us?"

"If anyone joins."

"We will definitely be able to successfully hunt the chaotic creatures."

Looking at Li Minghao's eager eyes, he did not respond in a hurry.

Zhang Yuhe really planned to hunt down a group of chaotic creatures.

It's just that I didn't think about joining forces with others before.

Zhang Yuhe is used to living alone.

more importantly.

The chaotic creatures he needs to hunt are not just one or two.

But a large number.

Zhang Yuhe is preparing for the future of Hedao.

Normally.

After the god-king monk successfully merges with the Tao, he needs to immediately evolve his own world.

And to evolve the world, you need to use boundary stones.

Use the boundary stone to stabilize the world and achieve the purpose of transforming the virtual into the real.

But Zhang Yuhe has a grander plan.

Except for the boundary stones.

He also needs to prepare a batch of cores of chaotic creatures in advance.

Chaos creatures are huge, almost as big as the universe.

Every chaotic creature, similar to the universe, has its own original aura.

And their core is where their origin is stored.

When Chaos is born and dies, its origin will also dissipate.

But their cores can be completely preserved.

The core of a chaotic creature can carry the origin of the avenue.

It is an extremely precious treasure.

In Zhang Yuhe's plan.

He wanted to evolve a vast world comparable to the long river of chaos.

Just wanting to do this is not that easy.

Except for the Three Thousand Avenues.

Maybe some carriers are needed to carry the origin of the avenue.

Zhang Yuhe could think of the best carrier to be the core of a chaotic creature.

It's just that chaotic creatures are not easy to kill, and he needs a lot of them.

Three Thousand Avenues.

Every avenue requires a carrier.

That is to say.

He needs to hunt down a total of three thousand chaotic creatures.

have to say.

This is an extremely crazy plan.

despite this.

Zhang Yuhe didn't intend to give up either.

He wanted to evolve an unprecedented vast world.

You need to be adequately prepared.

Even if it takes a little more time, it's worth it.

As for saying.

Chaos creatures are difficult to kill.

When a monk faces chaotic creatures, it is like facing a vast universe.

Moreover, it is a universe with a complete origin.

Even the Invincible Supreme cannot easily kill a chaotic creature.

The six of them, Li Minghao, joined forces and finally returned home.

Two people even died.

It can be seen from this.

How fierce are the chaotic creatures.

Chapter 859 The Rules of Yin and Yang

Li Minghao's suggestion made Zhang Yuhe feel a little moved.

In the future, he wants to evolve an unprecedented vast world.

It requires the cores of a large number of chaotic creatures.

But there is basically no circulation transaction for this kind of thing.

throughout the entire river.

The number of chaotic creatures that monks can find is not very large.

Except for the Guixu Land at both ends, chaotic creatures are rarely found in other places.

Moreover, the chaotic creatures are not only powerful, but their vitality is also ridiculously strong.

Even if it is besieged by a group of invincible supreme beings.

It's probably hard to beat them to death.

Even if the Invincible Supreme occasionally kills a chaotic creature.

There is no way to trade the core.

The core of a chaotic creature can not only be used to carry the origin of the avenue.

It can also be used to expand the world of monk evolution.

After eternity.

The world is the foundation of the monk.

We use various means to continue to grow and improve the world.

For example, adding natural materials and earthly treasures, integrating the rules of the avenue, etc.

The core of the chaotic creature is one of the best treasures for growing the world.

for such items.

It is impossible for anyone to trade it.

This is a treasure that you really want to buy but can never buy.

Section 1232

If Zhang Yuhe wants the core of the chaotic creature, he can only hunt it by himself.

Originally, he planned to act alone.

Zhang Yuhe believes it.

Wait until he knows the three thousand avenues, especially the nine supreme avenue rules.

After everything is fully understood.

The strength must be enough to reach the next level.

By that time.

He then summoned his clones to join forces, and at the same time activated the magical power of Hunyuan Guiyi.

With the power of the God-Devil-Destroying Heaven Sword.

No matter how tyrannical the chaotic creatures are, he should be able to beat them to death.

But since Li Minghao invited him to hunt chaotic creatures together.

So it doesn't hurt to go and have a look.

Just think of it as gaining knowledge.

Look at how powerful the chaotic creatures are.

It's also a good idea to give yourself a leg up.

Think of this.

Zhang Yuhe responded with a smile.

"Since senior invites you, how can I refuse?"

"I don't know what senior plans to do. When will we start taking action?"

Zhang Yuhe did not ask about the distribution of the spoils after killing the chaotic creatures.

No need to ask about this.

When the bird is flying in the sky, you have to consider whether to roast it or boil it.

It's really too early.

If they really could, kill a Chaos Indifferent creature.

When the time comes, it will naturally be distributed according to everyone's contribution.

I heard Zhang Yuhe readily agreed.

Li Minghao couldn't help but be very excited.

They had acted many times before, all because of insufficient attack power.

In the end they all ended in failure.

Now that Zhang Yuhe has joined, the certainty will be much greater.

There are still photos and videos of Zhang Yuhe killing three supreme beings in a row.

Li Minghao had studied it carefully.

Zhang Yuhe's vast and arrogant sword light was almost one of the most powerful attacking magical powers in the entire Chaos River.

Under the sword light, even the Invincible Supreme can be killed instantly.

Although the strength of the chaotic creatures is more powerful than the Invincible Supreme.

Especially the vitality is countless times stronger.

But so many years have passed.

Li Minghao didn't believe that Zhang Yuhe had not made any progress.

Although Zhang Yuhe has not yet begun to unite with Tao Eternity.

He is still in the nine-step divine king realm.

But how could a peerless talent like him be stuck in a rut?

Li Minghao believes it.

Zhang Yuhe's current strength is definitely better than when he killed the three supreme beings before.

It's a big improvement.

not to mention.

Zhang Yuhe is not alone this time.

Li Minghao originally had a team of six people.

Now adding Zhang Yuhe, that's seven people.

Seven people joined forces.

It will definitely kill the chaotic creatures successfully.

Think of this.

Li Minghao took a deep breath.

He pondered for a moment, then slowly responded.

"For the time being, it will be set tens of billions of years later."

"Last time, two of our fellow Taoists were unfortunately killed by chaotic creatures."

"They are still recovering from their cultivation."

"It is estimated that it will take another tens of billions of years to return to its peak state."

"When the time comes, we will act together again. What do you think, Brother Yinhe?"

"Okay, then wait ten billion years."

Zhang Yuhe did not hesitate and responded readily.

It just so happens that he still needs to continue to search for secret and dangerous places and understand the last 99 rules of the great road.

Tens of billions of time is almost enough.

The two continued to discuss some details.

Li Minghao quickly flew away.

He knows it very well.

When Zhang Yuhe came to Yin Yang Tian, he would naturally not be like ordinary people.

I just came here to admire the relics of the enlightenment of our predecessors.

There must be another way.

Since the time for action has been agreed upon, it is naturally inconvenient for Li Minghao to continue interrupting.

As Li Minghao left.

Zhang Yuhe sat cross-legged on the Shenzhou, looking at the black and white world in the distance.

The silent realization in my heart.

The vast Dao Yun aura in the distance constantly appeared in his mind.

Zhang Yuhe closed his eyes slightly.

Silently analyze the origin of yin and yang.

Time passes slowly.

I don't know how much time has passed.

Zhang Yuhe suddenly stood up slowly.

I saw him making a stroke with his right hand.

A tiny area of black and white appeared quietly in front of his eyes.

Black, white and earth are like a square of Tai Chi, slowly flowing in front of you.

See this situation.

Zhang Yuhe looked slightly happy.

He muttered to himself.

"Finally figured out another avenue rule."

"It seems that as long as you find the secret realm to deal with, you should be able to fully understand the remaining 98 avenue rules."

Once again, he has mastered a great way, and it is also the supreme rule of yin and yang.

This made Zhang Yuhe very happy.

The rules are hard to understand.

This is the consensus of Changhe monks.

Starting from the False God Realm, the rules of the avenue are the biggest obstacle that prevents monks from moving forward.

Countless monks do this because they do not have enough understanding of the rules of the great road.

In the end, they were stuck and could no longer make breakthroughs.

But for Zhang Yuhe.

Learning the rules is not difficult.

The difficult thing is to find the right direction and a suitable carrier for him to understand.

For example, magical books, or special secret realms and dangerous places.

Now Zhang Yuhe has basically read through all the classics he can find.

There are still 98 rules of the great road that have not yet been understood.

He could only continue to explore the secret realm and comprehend the remaining rules of the avenue.

Section 1233

This time when I came to Yin Yang Tian, Zhang Yuhe was very satisfied with the harvest.

In less than a million years, a supreme rule was understood and completed.

And most of this time is spent on the road.

If it is just calculation, when he attained enlightenment in the Yin and Yang Heaven.

It is estimated that it will not be more than 100,000 years old.

It only took Zhang Yuhe a hundred thousand years to comprehend and master the supreme Tao rules.

I'm afraid no one will believe it if I tell you.

This is Zhang Yuhe's biggest advantage.

His unparalleled understanding is enough to allow him to ignore any difficulties.

No matter how difficult it is to understand the rules of the great road.

to him.

There is no difficulty at all.

"Let's go, let's go to God's Domain next."

Following Zhang Yuhe, he moved the magic formula.

The Galaxy Chaos Divine Boat instantly turned into a stream of light.

Disappeared into the distant sky.

...

Chapter 860 The three thousand avenues are perfect

Zhang Yuhe stands in the void.

A vast vortex channel slowly rotates in the distance.

This is the entrance to the divine realm.

It is also the place where Lord Divine Soul attained enlightenment.

It is different from the yin and yang sky.

At every moment of the Yin and Yang Heaven, there will be a large number of monks observing the relics of the Lord's enlightenment.

Everyone hopes to get a hint of the rules of the great road from it.

But there was not a single person around the entrance to the divine realm.

It seems that no one is interested in the place where Lord Divine Soul attained enlightenment.

Not really.

Of course everyone is very interested in the place where the Lord attained enlightenment.

It's just that it's too dangerous in this secret realm of God's Domain.

To be precise.

God's Domain is a Jedi.

If a monk enters it, he will surely die.

Except for the Lord Divine Soul, there are no exceptions.

Even if he is rescued, he will eventually become insane and die due to confusion.

After the news spread that the Lord Divine Soul had understood the supreme rules here.

There used to be a large number of monks who wanted to copy the Lord's path and swarmed into it crazily.

As a result, long years passed, and none of those who entered came out.

Later, Lord Divine Soul personally took action and entered the divine domain again.

Brought back the fallen monks one by one from the secret realm.

Unfortunately.

When those people walked out of God's Realm, they were already unconscious.

He kept mumbling.

"I am the omnipotent God..."

Every once in a while.

These people are dying in their madness.

After this incident.

Lord Shenhun then spoke.

Changhe monks should not enter the divine realm again unless necessary.

Because the vast Taoist atmosphere inside will be deeply imprinted on the soul of the monk.

Gradually people lose themselves, as if they are omnipotent gods.

But once you leave the divine realm.

Without the support of the vast Dao Yun aura, the monk is just a shell.

His mind has long been eroded to nothingness, and he will naturally die soon.

Zhang Yuhe looked at the whirlpool passage in the distance and hesitated slightly.

It is different from other secret and dangerous places.

He has nine clones.

No matter how dangerous the secret realm is, they can't do anything to him.

At most, one of the clones is lost and can be resurrected.

But in this divine realm, it's completely different.

The Taoist aura in the divine realm will directly erode the monk's soul consciousness.

Once the soul is annihilated, it is truly dead.

No matter how many clones Zhang Yuhe had, they would still be of no use.

Because the clone and the main body are in a state of sharing the soul.

Once he loses himself in the divine realm, his nine clones will also be lost quickly.

This is a secret realm that poses a real fatal threat to Zhang Yuhe.

This makes people hesitate.

Consider whether to go in or not.

There are countless secret realms in the Chaos River.

But it can really make people understand the secret realm of the Divine Soul Avenue.

Zhang Yuhe only knew this place.

If you don't go in.

Then where should he understand the rules of the soul?

"No matter, let's go in and give it a try."

After much consideration.

Zhang Yuhe no longer hesitated.

He quickly rose into the air and flew towards the vortex of the secret realm in the distance.

Zhang Yuhe is very confident in his own understanding.

he thought.

Since the Lord of the Soul was able to understand the rules of the Soul here.

Then you can definitely do it yourself.

Moreover.

He also mastered the rules of space.

Once you find something is wrong.

You can also use the infinite magical power of heaven and earth to teleport it quickly.

Pass through layers of vortex channels.

The vast rules of Dao Yun were eroded in an instant.

soon.

Zhang Yuhe seemed to have lost his sense of time and space.

He didn't know where he was or who he was.

Standing in a strange place of nothingness,

One after another, vast thoughts constantly invaded his soul and consciousness.

That thought was telling him.

He is the omnipotent god and can create everything.

It can also destroy everything in an instant.

As long as the mind moves, you can control the birth and death of all things.

This is the ultimate hypnosis, enough to make people lose themselves instantly.

Zhang Yuhe at this time.

I feel like I am the eternal ruler who controls everything.

Section 1234

As long as he wants.

Just can do anything.

In this confusion.

He just waved his hand gently and saw countless vast universes.

It instantly turned into nothingness.

Wave again.

The universe reappears and everything is reborn.

Under the erosion of the divine Taoist aura, Zhang Yuhe gradually lost himself.

Just standing in a void.

I don't know how much time has passed.

Zhang Yuhe gradually woke up from this confusion.

He muttered to himself.

"I am Zhang Yuhe, a disciple of the Taoist Alliance and the Lord of the Galaxy Holy World."

Feel the vast Taoist atmosphere around you.

Zhang Yuhe couldn't help but feel a little scared.

He didn't even know how he got lost.

Don't even know.

How did I wake up?

Zhang Yuhe stood there, thinking silently in his heart.

After a long time.

He finally figured it out.

It turns out that the previous loss was actually a process of enlightenment.

As long as you successfully comprehend the origin of the great avenue in the divine realm.

You will wake up naturally.

If you still can't understand the Great Way, then you really have no choice but to die.

Think of this.

Zhang Yuhe couldn't help but feel a little scared.

Fortunately, his understanding is strong enough.

Even when you lose yourself.

Still able to quickly understand the rules of the avenue.

If it takes a while longer.

The consequences were unbelievable.

"Forget it, get out quickly."

Although I have just understood the rules of the soul to the entry level.

But Zhang Yuhe doesn't want to stay here any longer.

I just want to leave quickly.

Even if it takes more time to advance the rules of the soul to a perfect level.

He didn't want to stay in the divine realm for even half a quarter of an hour longer.

Because it's really too dangerous here.

It was so dangerous that it scared him.

Zhang Yuhe made a stroke with his right hand.

A small vortex of particles slowly appeared in front of him.

He took one step forward.

Soon he left the secret realm of the divine realm and returned to the river of chaos.

After summoning the Galaxy Shenzhou.

Zhang Yuhe quickly pressed the magic formula, and the Shenzhou turned into a stream of light and disappeared into the distance in an instant.

Time passes slowly.

Since leaving the secret realm of God's Domain.

Zhang Yuhe did not stop.

According to the information on the Dao League map, he searched for secret realms.

Some of these secret realms are near the Dao League, while others are in extremely far places.

It has even come close to the void at both ends of the Chaos River.

But no matter how far the distance was, Zhang Yuhe did not give up.

Anyway, there are Dao Alliance teleportation arrays everywhere, and he himself also has teleportation powers.

Zhang Yuhe first passed through the teleportation array and quickly arrived at the place closest to the secret realm.

Then he used the infinite magical power of heaven and earth to relay to the outside of the secret realm.

that's all.

Zhang Yuhe searched for the secret place all the way.

Every time he observes a secret realm, he can understand a kind of Taoist law.

Until eight billion years later.

He finally understood all the remaining 99 Dao rules.

The three thousand avenues are perfect.

...

Chapter 861 Return to the Holy World

Entering the holy world from Zhang Yuhe, I came into contact with the rules of the avenue for the first time.

From him, he understood the first great way of heaven and earth, the rules of the wave path.

Trillions of years have passed until now.

Zhang Yuhe finally understood all three thousand avenues completely.

It can be said without exaggeration.

In terms of understanding the rules of the avenue.

Zhang Yuhe is definitely the number one person in the entire Chaos River.

He is the first person to fully understand all three thousand avenues.

For others, even if they have been cultivating for years, no matter how long it takes.

Even the nine great lords of the Dao Alliance have definitely not achieved what Zhang Yuhe has achieved now.

The road is perfect.

The three thousand great avenues belong to oneself.

Now Zhang Yuhe only needs to gently activate his magical power.

The vast and endless rules of the great road will reveal its divine power inadvertently.

The road is perfect.

This is a limit.

It is the end point that monks can reach in the long river of chaos.

It is impossible for anyone further up to understand the 3001st avenue rule.

When Zhang Yuhe realized the last rule of the great road.

He suddenly discovered.

Not only does it become more casual and smooth when you use your magical powers.

Moreover, the power of magical powers is several times more powerful than before.

It was as if after the Great Dao was perfected, the power of magical rules had undergone some kind of qualitative change.

From quantitative change to qualitative change.

Zhang Yuhe stood quietly in the void, silently feeling the changes in his own strength.

Suddenly he waved his right hand.

A magnificent sword light flashed across the sky and the earth in an instant.

The sword light swept across the sky and the earth, splitting the void in the distance into two halves.

See this situation.

Zhang Yuhe couldn't help being stunned.

To know.

This is a long river of chaos, and the space is extremely stable.

Even if the Invincible Supreme takes action, it is impossible to give Changhe Void.

Bring the slightest destruction.

But now Zhang Yuhe just swung his sword at will.

Section 1235

Just split the void directly.

And he did not use the teleportation magic, just an ordinary sword light.

The sword opened the long river.

What kind of power is this?

Zhang Yuhe couldn't believe his eyes.

Is this really the sword light he casually chopped out?

It feels a bit unreal.

"How strong am I now?"

Zhang Yuhe was a little confused.

He didn't know where the limit of his strength was now.

Although Zhang Yuhe is still in the ninth step of the God King realm.

But compared with the time when he fought three invincible supremes under the world-suppressing heavenly gate.

The strength is obviously different.

Zhang Yuhe even has some doubts.

Maybe now he doesn't need to open the Hunyuan Guiyi magic.

He only needs to use the God and Demon Zhutian Sword to directly kill an invincible supreme.

"Am I really that strong?"

Looking at the chaotic void in the distance that was split into two by the sword light.

Zhang Yuhe's face was full of incredible expressions.

"Forget it, I'll find a chaotic creature next time and try it out and you'll know."

"Now let's go back to the Holy Realm and rest for a while."

There are still 20 trillion years before the agreement with Li Minghao.

There are not too many chaotic creatures in the long river.

It's not easy to find a chaotic creature.

Unless he wants to enter the void at both ends of the long river.

Zhang Yuhe naturally has no plans in this regard.

He has not yet merged with the Tao, and is still only the ninth step of the God King realm.

No matter how confident he is in his own strength.

Zhang Yuhe will not enter the terrifying void for the time being.

In fact.

Even in the entire Dao League.

Except for the nine great masters, few other people will explore the void.

Even if they occasionally enter, they will only taste it and return soon.

The void is very special.

The divine power there is extremely strong, but no chaotic universe has been derived.

It's like the residence of the gods, where mortals cannot set foot.

Once a cultivator enters the land of nothingness, it is not only difficult to tell the direction.

And it is impossible to find any foothold.

You can only keep exploring and moving forward in the void.

If you don't have enough strength to support, just explore in the void.

How many people can bear it?

What's more.

In the land of nothingness, there are also a large number of chaotic creatures.

Those chaotic creatures, each of them is extremely powerful.

If the Invincible Supreme acts alone, once he encounters a group of chaotic creatures.

It is almost a matter of death.

So for so many years.

Although the Dao League has always said that it wants to explore the end of the long river.

Open up a road to a new world.

In fact, these things.

That is, the nine great masters have been doing it.

As for the other people in the Dao League, they can't get involved at all.

They can only move in the explored areas and dare not go deep into the void.

Zhang Yuhe naturally doesn't dare.

At least he doesn't dare now.

Maybe after he succeeds in merging with the Dao and evolves his own world.

Only then will he enter the chaos void and look for the possible source of the long river.

As for now.

Forget it.

If he wants to hunt chaotic creatures, he can find them in the places that have been explored.

Although these places have few chaotic creatures and it is difficult to meet them normally.

But the disciples of the Dao League are all over the long river.

As long as he is in the mission area and issues the task of finding chaotic creatures.

Naturally, someone will provide him with the coordinates.

However, Zhang Yuhe has no intention of doing so for the time being.

Since he has agreed with Li Minghao before, let's wait for a while.

Let's talk about it later.

He has been out for trillions of years, and it's time to go back to the Holy Realm.

There is not only his hometown, but also many relatives and friends.

More importantly.

There is the person he misses the most.

Thinking of this.

A faint smile appeared on Zhang Yuhe's face.

He muttered to himself.

"After so many years, I don't know how Yiyi is doing?"

"Has her enlightenment tree grown stronger?"

"Is it still the same height as before?"

"Let's go back and take a look."

Thinking of this.

Zhang Yuhe made a stroke with his right hand.

A huge particle vortex slowly appeared in the void.

After fully understanding the three thousand great ways.

The effect of Zhang Yuhe's activation of the boundless magical power of heaven and earth is no longer the same as before.

The void channel he opened now not only has a very wide entrance.

Even if thousands of people enter at the same time, it will not seem crowded at all.

More importantly.

The distance that the boundless magical power of heaven and earth can transmit is now countless times farther than before.

In the past, it could only be transmitted near a certain area.

Now each transmission can almost cross half of the Chaos River.

Zhang Yuhe teleported from the Dao League to the Galaxy Holy Realm.

At most, he only needs to activate the boundless magical power of heaven and earth three to five times, and that's basically it.

Looking at the particle vortex above his head, Zhang Yuhe took a step forward.

Soon he disappeared from the scene.

In the endlessly distant long river void, Zhang Yuhe activated his teleportation ability again.

He teleported four times in a row.

Zhang Yuhe quietly returned to the top of the Holy Mountain.

Section 1236

A towering tree is constantly exuding a vast Taoist aura.

The years since Zhang Yuhe left.

Wu Yiyi took root in the Holy Mountain Dojo and has been quietly breathing in the divine power of the Holy World.

She was never far away.

After hundreds of millions of years of practice.

Wu Yiyi finally broke through from the early stage of true god back then to the level of nine-step god king.

It can be regarded as catching up with Zhang Yuhe's footsteps.

As the origin of heaven and earth, creatures born naturally.

Wu Yiyi is inherently talented and rarely encounters bottlenecks.

As for understanding the rules of the great road, that is not a problem.

As a tree of enlightenment, it transforms into a spirit.

Even if we look at the entire river of chaos.

Wu Yiyi's understanding talent is definitely second to none.

Except for Zhang Yuhe, this incredible figure.

There should be very few people who can surpass Wu Yiyi in terms of understanding.

During these billions of years.

Wu Yiyi took root in the dojo and quietly practiced and enlightened.

Not only did she advance her cultivation strength to the nine-step divine king realm.

Moreover, her Enlightenment Tree itself grew from a sapling about ten feet tall.

Grow into a towering tree that reaches into the sky.

The huge tree canopy blocked the sky and sun, covering more than half of the entire dojo.

Whenever a monk comes to the Holy Mountain.

Seeing the vast aura of the Enlightenment Tree, one can't help but worship it.

Just because.

Everyone knows that the Enlightenment Tree Transformed Spirit is the Taoist companion of the Holy Lord.

more importantly.

Everyone hopes.

By worshiping the Enlightenment Tree, they can gain good luck.

The Enlightenment Tree is a creature of heaven and earth.

In the holy world.

There are many versions of the legend that have been circulating.

someone said.

Breathe in the aura emanating from the Enlightenment Tree.

It can make people realize instantly.

We can easily achieve breakthroughs in bottlenecks that we didn't understand before.

Someone else said.

The Enlightenment Tree is actually the incarnation of the goddess of luck.

As long as you see a corner of the Enlightenment Tree, you will get long-lasting good luck.

Some even say.

In fact, the Enlightenment Tree is the manifestation of the origin of the holy world.

It is precisely because of the favor of the Enlightenment Tree.

The sage Zhuang Yuhe was able to achieve such high achievements in such a short period of time.

There are many legends about this tree of enlightenment in the Holy Mountain.

Each version convinces countless people.

Even when those eternal emperors came to the Holy Mountain Dojo.

Everyone will respectfully worship the Enlightenment Tree.

The Holy Mountain is not a closed ashram.

Every day, a large number of monks come to and from the Holy Mountain in an endless stream.

this day.

Fairy Liuyue came to the Holy Mountain and was worshipping the Enlightenment Tree in the distance that covered the sky and the sun.

As the chief disciple of Taoist Li Tianxing.

Fairy Liuyue had already broken through into Daluo Jinxian a long time ago.

But later it got stuck.

She cannot break through in the immortal world for hundreds of millions of years.

It has always been the realm of the Immortal King.

Until Zhang Yuhe returned to the fairy world and re-constructed the passage connecting the holy world and the fairy world.

Only then did Fairy Liuyue have the opportunity to step out of the fairy world and come to this vast holy world.

Maybe it's because of deep blessings, or maybe it's due to other reasons.

After coming to the holy world.

Fairy Liuyue was out of control, and her cultivation level improved rapidly.

She even crossed the threshold of the God King before her master.

Prove the Supreme God King.

Now so many years have passed.

Fairy Liuyue has long been a well-known figure in the entire holy world.

Her seven-step divine king cultivation level is even in the area around the Chaos River.

All have a lot of influence.

despite this.

Almost every once in a while.

Fairy Liuyue will come to the Holy Mountain and silently worship the Enlightenment Tree in the distance.

She always thought.

The reason why he is able to be in the holy world is that Xiu Feng has been going smoothly without any hindrance.

It is the tree of understanding that brings good luck.

Otherwise.

Like her.

Even the bottleneck of the Immortal King can trap ordinary monks for countless years.

How could there be a chance to shine in this vast holy world?

It must be the Enlightenment Tree that brought her good luck.

To this.

Fairy Liuyue firmly believed it.

Just getting ready to worship.

Just at this time.

Fairy Liuyue was surprised to find out.

The Enlightenment Tree, which had always been calm, suddenly swayed slightly.

Then it quickly disappeared.

The tall tree crown that blocked the sky and the sun suddenly disappeared from everyone's sight.

"Hey, what's going on?"

"Why did the holy aunt suddenly disappear?"

"Is there anything strange about this? Maybe he went out."

"impossible."

"Since the establishment of the Holy World, Saint Aunt has been rooted in the Holy Mountain Dojo."

"Never left."

"She probably won't go out."

"You think it's because the Holy Lord has returned, so..."

"Yes, the Holy Lord must be back."

"It is rumored that hundreds of millions of years have passed since the Holy Lord joined the Taoist Alliance."

"It's time to come back now."

...

Wu Yiyi quietly breathed in the breath of divine power.

Saw Zhang Yuhe suddenly appeared.

This made her very happy.

Section 1237

She gently swayed the tree crown, and then turned into a beautiful figure with a whoosh.

Quietly appeared in front of Zhang Yuhe.

Watching the boy I had missed for countless years reappear before my eyes.

Wu Yiyi said softly.

"You're back."

"Um."

Zhang Yuhe responded softly.

Looking at the beautiful figure in front of him, he suddenly realized.

Wu Yiyi seems to have changed a lot from before.

In the past, Wu Yiyi could only conjure up an illusory figure.

The Wu Yiyi in front of her was obviously an entity.

A real person.

See this situation.

Zhang Yuhe asked in surprise.

"Yiyi, can you transform?"

Seeing Zhang Yuhe discovering his changes, Wu Yiyi's face flashed bright red.

She responded happily.

"Yes, when I was promoted to the God King Realm, I could already transform."

"It's just that you're not in the Holy Mountain, and no one is watching your transformation."

Looking at Wu Yiyi, she returned to her previous lively appearance.

A faint smile couldn't help but appear on Zhang Yuhe's face.

in particular.

Now that Wu Yiyi has successfully transformed, he feels even more excited.

Zhang Yuhe said happily.

"Now that you can transform, when I go out in the future, just follow me."

"Um."

"Wherever you go from now on, I will go."

Wu Yiyi nodded gently and responded as softly as a mosquito.

After a simple exchange.

The two stood side by side on the top of the holy mountain and walked quietly.

Telling each other about their experiences over the years.

Although Zhang Yuhe left a clone behind and sat in the holy mountain.

But don't know why.

Wu Yiyi didn't like being close to his clone.

Only when Zhang Yuhe returns.

She would unnaturally show excitement and happiness.

So many years have passed.

Zhang Yuhe didn't even know.

Wu Yiyi has long since transformed into a true monastic being.

From now on, he no longer has to turn it into a ring and let him wear it everywhere.

...

Chapter 863 Galaxy Immortal Couple

Seeing that Wu Yiyi could finally successfully transform, Zhang Yuhe couldn't help but be very excited.

When I couldn't transform before.

Wu Yiyi can only be regarded as a tree.

No matter how strange the Enlightenment Tree is, it is just a tree.

Now that she has transformed into a spirit, she can be considered a true spiritual life.

Only then can you be with yourself forever and explore the end of the road together.

When not incarnate.

The phantom transformed by Wu Yiyi cannot be far away from the body of the Enlightenment Tree.

Every time you go out.

They all have to transform the Enlightenment Tree into a ring before they can follow Zhang Yuhe on their journey.

This causes a lot of inconvenience.

Now that Yiyi has successfully transformed, she no longer has these worries.

Think of this.

Zhang Yuhe said softly.

"Yiyi, let's go, I'll take you to see the vast scenery of the river."

After saying this.

I saw Zhang Yuhe making a stroke with his right hand.

A vast vortex channel slowly appeared in the void.

He took Wu Yiyi's showy hand and stepped into the vortex passage.

Soon it disappeared from the holy mountain.

Zhang Yuhe returned to the holy world and had not stayed for half a quarter of an hour.

Soon he re-entered the long river of chaos.

This made the monks in the holy world confused.

Nangong Damo and other Eternal Emperors sensed the aura of Zhang Yuhe's return.

He immediately came to the Holy Mountain, hoping to see the Holy Lord and listen to the Holy Lord's instructions.

Unfortunately.

Before they arrived, Zhang Yuhe had already left again.

at the same time.

The Enlightenment Tree has shrouded the Holy Mountain all year round, blocking out the sky and the sun.

He also disappeared with him.

See this situation.

Everyone seemed to understand something.

Looking at the majestic holy mountain in the distance, Emperor Heihe murmured to himself.

"The Holy Master took the Holy Girl to travel across the river, and he may not come back in a short time."

"yes."

"I originally saw the return of the Holy Lord and wanted to listen to his instructions. It seems I can only wait until next time."

It took hundreds of millions of years for the Holy World to be established.

As Zhang Yuhe's reputation grew, everyone began to respect the Holy Lord.

Even worse than before.

Even though they are both eternal emperors, their cultivation level is even higher than Zhang Yuhe's.

But this still cannot stop everyone's respect for Zhang Yuhe.

Because they all understand.

A peerless talent like Zhang Yuhe should no longer be viewed in terms of realm.

Back then he was able to slash the Invincible Supreme with his sword.

Countless years have passed since Zhang Yuhe joined the Dao League.

Although the realm is still in the realm of the God King, it has not yet begun to merge into eternity.

But everyone knows it.

Naturally, Zhang Yuhe could not waste these hundreds of millions of years in vain.

Even if his realm remains unchanged, his understanding of the avenue remains unchanged.

You probably don't even know what terrifying heights it has reached.

It is precisely because of this.

Everyone will come here in a hurry.

Hope to meet you.

If you can get it from Zhang Yuhe's vast Taoist aura.

Even if they only realize a little bit, it will be enough for them to benefit a lot.

Unfortunately.

Zhang Yuhe left the holy world again without even showing his face.

Section 1238

Everyone looked at the Holy Mountain in the distance, with a look of regret on their faces.

...

In the vast endless river, a huge Chaos Divine Boat quickly shuttled forward in the void.

Wu Yiyi stood at the front of the Shenzhou, looking at the stars in the distance of the long river.

she asked curiously.

"Zhang Yuhe, those stars are so beautiful, shall we go over and take a look?"

Zhang Yuhe responded with a smile.

"Some of them are chaotic universes, chaotic universes like the Holy World."

"Some are special secret realms."

"Every bit of starlight represents a chaotic universe and secret realm."

"Ah, the holy world is so vast and boundless."

"Why does it look like just a small dot?"

Wu Yiyi couldn't help being surprised when she heard Zhang Yuhe's explanation.

She blinked her eyes and looked at Zhang Yuhe with some disbelief.

Seeing Wu Yiyi's confused eyes.

Zhang Yuhe said with a smile.

"Those chaotic universes are too far away, so they only look like small points of light."

"Let's go, I'll take you over and have a look."

After saying this.

Zhang Yuhe turned the Yinhe Shenzhou and flew towards a certain starlight position.

...

Zhang Yuhe took Wu Yiyi and flew freely in the vast river of chaos.

Whenever they encounter something novel, they will go and take a look.

As time passes slowly.

The deeds of the Galaxy Immortal Couple began to gradually spread throughout the river.

From time to time, monks would see a huge Chaos Divine Boat.

Appearing on the outskirts of various secret realms and dangerous places, and even appearing near some chaotic universes.

On top of that Chaos Divine Ship.

Holy Lord Yinhe and Goddess Yitian are like a couple of gods and goddesses, admiring the scenery everywhere.

Occasionally, when a monk is in danger, the Galaxy Holy Lord will help solve the problem.

Long years passed.

Today's Zhang Yuhe is no longer the unknown Donghua Palace disciple he was back then.

But the famous Galaxy Holy Lord.

As long as the monks can walk into the river, almost all have heard the legend of the Galaxy Holy Lord.

The peerless genius who used the power of the God King to continuously defeat the invincible Supreme Being.

It is simply a mythical existence.

Almost no one in the river knows about it.

not to mention.

With Zhang Yuhe joining the Tao League.

Dao League disciples are distributed all over the Yangtze River, passing through the Taoist Exchange Area.

Zhang Yuhe's reputation has already spread to every corner of the river.

...

Zhang Yuhe took Wu Yiyi to travel across the Yangtze River. As for the affairs in the holy world, he completely ignored them.

There are all the great eternal emperors in the Holy Realm, so he doesn't need to worry about everything.

Others will take care of things naturally.

During this time.

Zhang Yuhe also stopped practicing.

His cultivation realm has long been at the peak of the God King realm.

It has reached the point of no further progress.

Unless harmony lasts forever.

A normal god king monk only needs to complete the nine avenues and prepare the boundary stone.

Then you can start to work on the right things.

But Zhang Yuhe was not in a hurry.

For him, the eternal realm is just within reach.

As long as he wants.

Success can be achieved at any time.

But Zhang Yuhe didn't want to just achieve the ordinary eternal state.

He wanted to evolve an unparalleled chaotic world.

Forge an unprecedented path.

In order to achieve this goal.

Zhang Yuhe had already fully comprehended all three thousand avenues.

Even these rules of the avenue have been advanced to the level of perfection.

But Zhang Yuhe thinks.

Maybe that's not enough.

Three Thousand Avenues has integrated into the world, but it still lacks a foundation.

It is difficult for the rules of the great road to evolve and grow in one's own world.

to this end.

Zhang Yuhe is another remote stream path.

He planned to use the core of the chaotic creature as a carrier.

To carry these avenue rules.

Then gradually embed themselves into the world.

Maybe that's all.

Only in the world that one evolves can the great road be manifested more clearly.

Moreover, with the core of chaotic creatures carrying it, the rules of the avenue may still have a chance to grow and expand on their own.

Of course.

This is just a conjecture of Zhang Yuhe.

This is a road that no one has ever traveled before.

despite this.

Zhang Yuhe still wants to give it a try.

If things are really as he imagined.

Then he will evolve into an unprecedented world in the future.

Maybe the world he evolves into will be like this chaotic river.

Vast and endless.

...

Chapter 864 The appointment has arrived

Mangrove sea.

Countless pink trees take root quietly in the void of the long river.

The giant pink trees stretch endlessly, like a sea of red.

The mangrove sea also got its name.

Normally.

The long river of void should be unsuitable for species to survive.

Apart from chaotic creatures, there are no other species that naturally grow in the river.

Even if it is a monk who asks the heaven and the Tao.

Only after cultivating to the realm of the God King can one step out of his own universe and finally enter the river of chaos.

A slightly weaker creature.

It is simply unbearable, the extremely thick divine power aura of the Chaos River.

It will be crushed directly.

But these giant pink trees are obviously an exception.

The giant tree is rooted in the void, with no land underneath to support it.

Section 1239

It's like it lasts forever.

People used to think.

These giant pink trees must be a species with extremely terrifying strength.

However, after many trials.

The monks were surprised to find out.

These giant pink trees turned out to be just ordinary plants.

Don't talk about being powerful?

These giant red trees have never embarked on the path of spiritual practice.

Not even any intelligence.

Except for the slightly exaggerated size.

It's not much different from the big trees you usually see.

The miraculous creation of heaven is truly amazing.

These mangroves have no strength or cultivation.

It can actually grow in such a harsh void,

After a long time.

Eventually a magnificent sea of mangroves was formed.

When the monks first discovered this sea of mangroves.

Everyone thought that these giant red trees must be some kind of precious natural and earthly treasures.

However, the results were very disappointing.

These giant red trees have no spirituality at all.

It is simply a mortal thing.

In addition to fastening tree trunks, it can also be used as building materials.

It no longer has any value.

It can neither be used to refine artifacts nor used as medicine.

Even more troublesome is that.

These mangroves are extremely difficult to cut down.

Even if the God King monk slashed down with his sword, he could not leave even the slightest mark on the tree trunk.

Only the Eternal Emperor activates the power of the world.

Only then can I barely shake one or two.

Mangroves themselves have no value and are extremely difficult to shake.

It is precisely because of this.

Only then can these mangroves grow quietly in the void.

Forming the current pink ocean.

Zhang Yuhe and Wu Yiyi walked quietly through the mangroves.

Feel the faint fragrance emanating from the tree crown.

Wu Yiyi looked up at the sky.

He couldn't help but murmured a little drunkenly.

"It's so beautiful here."

"There is such a beautiful scenery in the world."

She suddenly turned her head to look at Zhang Yuhe, blinked and said.

"How about we transplant a batch of these mangroves into the holy world."

"That way we can always see these big pink trees."

Hear this.

Zhang Yuhe couldn't help but smile bitterly.

This is not easy to handle.

The growing conditions of mangroves are extremely special.

Except for this area.

There is no other place in the entire Chaos River where they can grow.

There were monks who once had the idea of transplanting mangroves.

But in the end they all failed.

Even the holy world created by the Invincible Supreme cannot allow these mangroves to survive.

"Well, I guess not now."

"I'll think of a solution after I successfully merge."

Zhang Yuhe looked at the beautiful figure beside him and responded in a soft voice.

For other monks.

Even the nine great lords of the Tao Alliance.

They want to transplant these mangroves to other places.

That is completely impossible.

But for Zhang Yuhe, that is not necessarily the case.

Zhang Yuhe is determined to evolve into a chaotic world that is completely comparable to Changhe's.

Since these mangroves can grow in the long river of chaos.

Then Zhang Yuhe believes it.

When he successfully merges with the Tao in the future and evolves into the world.

The world of its own must be enough for these mangroves to grow normally.

If you can't even do this.

Then wouldn't all his efforts over the years have been in vain?

Zhang Yuhe worked hard to understand all three thousand avenues.

And he also pushed all these rules of the avenue to the level of perfection.

Not only that.

He also plans to use the core of chaotic creatures to carry these rules of the avenue.

That's absolutely true.

Zhang Yuhe has made all the preparations needed to evolve the world to the extreme.

We are embarking on a path that is completely unimaginable to ordinary people.

Moreover, Zhang Yuhe did not just think about the design of this road casually.

And after repeated deductions.

He felt he could succeed.

As long as the core of the chaotic creature is obtained, the verification can begin.

Hear Zhang Yuhe's response.

Wu Yiyi's face couldn't help but reveal a sweet smile.

Of course she knows.

These mangroves are not that easy to transplant.

Otherwise.

There are so many monks in the Chaos River, even the Invincible Supremes are countless.

Although these mangroves do not have much practical value.

But the unique scenery of the mangroves alone is enough to make countless monks' hearts flutter.

Who doesn't want to make their holy world look more beautiful?

Unfortunately.

These mangroves have stood in the river for countless years, and no one has ever successfully transplanted them.

But Wu Yiyi believed it.

Zhang Yuhe can definitely do it.

in her mind.

Zhang Yuhe is omnipotent, and nothing is difficult for him.

No matter how difficult the task is, Zhang Yuhe can handle it easily.

Wu Yiyi looked at the red ocean in the distance, filled with infinite expectations.

She looks forward to one day in the future.

Being able to be with Zhang Yuhe in a similar sea of red trees.

Have been walking quietly.

Wu Yiyi pulled Zhang Yuhe and slowly shuttled forward under the tall tree canopy.

over the years.

Zhang Yuhe took her to see countless beautiful scenes along the long river.

Section 1240

Whether it's a strange secret place or a high-risk dangerous place.

Zhang Yuhe was beside him.

They were walking on level ground without any obstacles at all.

Even if there is a greater danger, it will not affect their interest in enjoying the scenery.

Just at this time.

Zhang Yuhe suddenly frowned slightly.

I only saw his right hand.

A golden token appeared in his hand.

After playing the magic formula.

Li Minghao's hearty voice came from the token.

"Brother Yinhe, I wonder how prepared you are for what I mentioned last time?"

Zhang Yuhe responded calmly.

"I can leave at any time, just waiting for senior to call me."

"I wonder if the cultivation of those two senior friends has recovered."

"Haha, after nearly ten billion years of cultivation, they have fully returned to their peak."

"We are at the Dao Alliance station, please come with us."

"As long as you arrive, we will set off together to hunt the chaotic creatures."

"Okay, let's meet in Taoist alliance."

Zhang Yuhe put away his identity token and looked into the distance silently.

He had made an appointment with Li Minghao to hunt chaotic creatures together.

It's just because Li Minghao still has two friends who died because of the Dharmakaya.

It is necessary to restore cultivation in the original source, which has been postponed until now.

Now they are finally waiting for their cultivation to recover.

It's time to see how powerful the chaotic creatures are.

Think of this.

Zhang Yuhe looked at Wu Yiyi beside him and said softly.

"Yiyi, I made an appointment with the seniors in the Dao Alliance, and we are going to hunt the chaotic creatures together."

"Would you like to come with me, or return to the Holy Realm first?"

Wu Yiyi's heart tightened, and she asked worriedly.

"Is there any danger?"

Zhang Yuhe smiled lightly.

"Don't worry, I'm just killing a chaotic creature, there's no danger."

"Then I want to see it too."

"Anyway, wherever you go, I'll go."

"Hmph, don't even think about leaving me."

Wu Yiyi clenched her fists and looked up at Zhang Yuhe expectantly.

"Okay, let's go together."

Zhang Yuhe didn't talk nonsense either.

I saw him making a stroke with his right hand.

A huge vortex of particles slowly appeared in the void.

Zhang Yuhe pulled Wu Yiyi, and the two stepped into the whirlpool passage together.

It disappeared from the sea of mangroves in an instant.

...

Chapter 865 Meeting

After receiving the summons from Li Minghao, Zhang Yuhe did not hesitate at all.

He took Wu Yiyi, quickly opened the void passage, and shuttled all the way towards the Dao Alliance station.

Zhang Yuhe didn't think it would be inconvenient to take Wu Yiyi with him to hunt chaotic creatures.

Even after being promoted to the God King realm, Wu Yiyi's strength was still scummy.

She has hardly learned any powerful combat powers.

Fortunately, Wu Yiyi's life-saving ability has never been bad.

not to mention.

Have yourself by your side.

So what are you worried about?

Zhang Yuhe believes it.

With him guarding you, there will never be any accidents.

Although Zhang Yuhe has not truly verified it after comprehending the Three Thousand Avenues.

What is the specific limit of my current strength?

But he believed it.

Mere chaotic creatures should not pose much of a threat to him.

Although the chaotic creatures are powerful, not even the Invincible Supreme can do anything about them.

Even Li Minghao teamed up with many invincible supremes to take action.

They can't kill even one chaotic creature.

But that doesn't mean.

The strength of chaotic creatures is so terrifying.

The reason why Li Minghao and others couldn't beat him.

That's because they don't have enough explosive power.

Chaos creatures are huge, almost as big as a chaotic universe.

With such a large body, the vitality is naturally extremely exaggerated.

He won't be beaten to death by a monk easily.

But that's about it.

In Zhang Yuhe's view.

The chaotic creatures only rely on their unparalleled size to make the Invincible Supreme helpless.

But it is not that easy for them to kill an invincible supreme being.

Just pay a little attention.

Just look at the exaggerated size of the chaotic creatures.

How is it possible to hit someone?

I really don't know how Li Minghao's two friends died before.

I guess it was too aggressive.

Zhang Yuhe considers himself to be prudent.

Will not rush forward.

not to mention.

He is different from others.

Zhang Yuhe has comprehensive strength.

There are not only gods and demons killing the sky, but also such terrifying magical attacks.

Moreover, the defensive power of the Nine Heavens Hunyuan Sword Formation is not comparable to ordinary people.

Back then, he was under the Zhenshi Tianguan.

The three supreme beings jointly attacked, but failed to penetrate the defense of his sword array.

Now that Zhang Yuhe has understood the three thousand avenues, his strength has been further improved.

The defensive power of the sword formation is far from what it was back then.

Zhang Yuhe is confident.

Now even if he stands still.

Just unfold the Nine Heavens Hunyuan Sword Formation.

There is no invincible supreme being who can do anything to get it.

To have strength is to be confident.

A chaotic creature that others fear like a tiger.

Zhang Yuhe didn't take it seriously.

It wouldn't hurt to even take Wu Yiyi with him to have a look.

...

After several consecutive transmissions.
