

Top talent 1261

Section 1261

I saw the young man standing with his hands behind his back, and a beautiful woman standing next to him.

But that's not the point.

The key point is that the sword light flies back in the distance.

It slowly circulated around the young man.

obviously.

The magnificent sword light just now was the magical power displayed by this young man.

Moreover, the aura on this young man's body was clearly that of the God King.

See the picture scroll in front of you.

Lord Void was completely stunned.

After a long time.

He muttered to himself.

"This is too exaggerated."

"Really, only the God King realm can kill chaotic creatures with such ease."

"Where did this peerless talent come from?"

"Are you really a local monk from this world?"

"It doesn't come from outside the world, does it?"

...

Chapter 879 Return collectively

A handsome young man looking at the picture scroll.

Lord Void's face was full of disbelief.

There really is such a heaven-defying person in the world, even when he was in the God King Realm.

You can kill powerful chaotic creatures.

Although in the eyes of the Lord of the Void, the strength of the chaotic creatures is just that.

If you go all out.

No matter how many chaotic creatures there are, they can still be destroyed with just a few hands.

But the problem is.

The handsome young man in the photo scroll is still in the God King realm.

There are two huge thresholds between eternity and supremeness between his own cultivation realm.

Although in the long history.

There has never been a shortage of geniuses who have gone against all odds.

But it also depends on what realm it is.

It is relatively common for people under the True God to go against the odds and reach the realm.

It is basically rare for a god king monk to fight against eternity.

But with the foundation of Dao Alliance.

There are no such characters.

Pretty much every once in a while.

Such peerless characters will appear in the Dao League.

But the Eternal Monk turned against the supreme warrior.

In the history of Dao League, it has never appeared before.

Even in the entire history of Chaos River, there should have never been such a fierce person.

As for saying.

Like the handsome young man in the photo scroll.

With a cultivation level in the God King realm, one can kill chaotic creatures equivalent to the invincible supreme being.

This is simply a myth.

If you haven't seen it with your own eyes.

Lord Void simply couldn't believe it, this was true.

But the video cannot be faked.

And he believes it.

It's impossible for Lord Samsara to fool him with a fake video.

Totally unnecessary.

That is to say.

This must be true.

In the years they've been gone.

In the long river outside, a truly outstanding figure appeared.

This man is stronger than them all.

In the impression of Lord Void.

When he was in the God King Realm, let alone killing chaotic creatures.

Even if you want to escape from the pursuit of the chaotic creatures, it is impossible.

Even among the nine great lords, Yuan Zun is the most powerful.

When he was in the God King Realm, he was definitely no match for the chaotic creatures.

It is even less possible to beat the chaotic creatures to death.

The strength shown by Zhang Yuhe.

It is completely beyond the knowledge of Lord Void.

It even made him feel.

Zhang Yuhe may have come from outside the world.

He is not a figure in this chaotic river.

Is this just possible?

Will there really be monks from outside the realm entering this river of chaos?

Think of this.

He looked at the Lord Samsara in front of him and asked with some uncertainty.

"Samsara, have you found out the details of this person?"

"Is he a wood-and-earth monk from our Chaos River?"

"Could it be from outside the world?"

"By the way, what's this person's name?"

"Haha, Void, you are really thinking too far."

Lord Samsara laughed.

Then he slowly responded.

"Although I haven't inquired carefully yet."

"But judging from what others have said in the discussion forum."

"This person must be a local monk from our Chaos River."

"As for the outer world?"

"Then don't think about it."

"We've been looking for so many years, but we haven't found any trace."

"Whether there is another world beyond the river is very uncertain."

"How could there be monks from outside the realm entering the river of chaos?"

"By the way, that young man's name is Zhang Yuhe."

"I heard that he was from the Three Holy Heavens before he came."

"But in the past, the Three Holy Heavens, those three invincible supreme beings, were beaten away by him long ago."

"Now the Three Saints Heaven has been renamed Galaxy Heaven."

"This young man's Taoist name is the Holy Lord of the Galaxy."

"His growth path is completely traceable."

"It can't be wrong."

Lord Void nodded slightly.

Since the Lord of Samsara said so.

That must be true.

None of them knew they were old monsters who had lived for a long time.

As long as you are willing to investigate.

Nothing can escape their eyes.

Even if they haven't returned yet.

Section 1262

Just relying on the few words of those Dao Alliance monks in the discussion area.

I believe that Lord Samsara can also make correct judgments.

The Lord of the Void looked into the distance.

After a long time.

He said leisurely.

"There really is such a heaven-defying person in the world."

"I don't know if Yuan Zun and others have also received the news."

Lord Samsara responded calmly.

"Don't worry, they must have received the news."

"Maybe by now, everyone will be on their way back."

"If you didn't think about it, your void magical power would make it easier to travel."

"I've gone back a long time ago."

Things are just as Lord Samsara said.

At this time, several other Dao Alliance Lords had already noticed the changes in the outside world.

Everyone has already set off and is on the way back to the Dao Alliance.

After all, Zhang Yuhe's sudden rise was enough to make them put down everything in their hands.

What heights can such a legendary genius reach in the future?

No one can imagine it at all.

It's safe to say.

Zhang Yuhe's future prospects will definitely be stronger than those of them.

Maybe they have hope of getting out of this world in the future.

It must be pinned on Zhang Yuhe.

It's just that this place of Guixu is really too vast and boundless.

And there are no azimuth coordinates.

Even with the strength of these people.

If you want to rush back to the Dao League, it won't happen overnight.

If you are not lucky.

It may take hundreds of millions of years to return to the Dao Alliance smoothly.

It is with these in mind.

Only the Lord of Samsara would think about finding a way to find the Lord of Void first.

The Void Lord controls the Void Avenue.

Able to use the power of rules to open up transmission channels.

Traveling is much more convenient than for people like them.

The travel time can be greatly shortened.

"Okay, then let's go back quickly."

"I also want to see what kind of magic is this unparalleled talent that defies the heavens."

The Lord of the Void did not hesitate.

After saying this.

I saw him making a stroke with his right hand.

A wide crack suddenly appeared in the distant void.

Today the entire world was divided into two by him.

It is different from Zhang Yuhe's infinite magical power.

The Void Lord's method of teleportation mainly relies on brute force.

He used the power of void rules to directly separate the heaven and the earth.

Then form a shortcut to get on the road.

Although this method is also very unnatural.

But compared with Zhang Yuhe's infinite magical power, it lacks some flexibility.

And unlike Zhang Yuhe, who can teleport to extremely long distances instantly.

Every time the Lord of the Void opens a passage, it can only be within the range of his regular induction.

Once it's out of range, there's nothing you can do.

Moreover, his brute force method has great news about divine power.

despite this.

The Lord Samsara next to him still couldn't help but look envious.

This is much more convenient than flying slowly.

...

Chapter 880 Chengtiantai

The Lord of the Void continuously broke open the world, leading the Lord of Samsara to shuttle forward quickly.

at the same time.

The other seven lords of the Dao Alliance were also quickly returning to their base.

It's just that they are in the land of Guixu and cannot communicate smoothly for the time being.

Everyone does not know the specific movements of others.

However, considering that there is a discussion area.

People like them will discover changes in the outside world sooner or later.

Naturally, I will try my best to rush back.

...

Jade tomorrow.

While Lord Void and others were still on their way quickly.

Two figures stood tall in the sky.

As Zhang Yuhe quickly moved the magic formula.

A magnificent sword light crossed the sky and fell into the distance in an instant.

Roar.....

A huge creature that looked like a rhinoceros let out a loud roar.

The sword light flashed past.

Slice directly through the neck of the rhinoceros creature, splitting it into two instantly.

The huge rhinoceros-like chaotic creature barely made any struggle.

It just fell silently.

Zhang Yuhe stretched out his right hand.

A crystal purple bead appeared in his hand instantly.

It is the core of chaotic creatures.

Look at the purple ball in your hand.

Zhang Yuhe couldn't help but reveal a faint smile on his face.

See this situation.

Wu Yiyi next to her also said happily.

"This should already be the 3,000th Chaos Core."

"You have been hunting Chaos creatures all these years, and finally gathered the Chaos Core together."

"The next step is to prepare for Hedao Eternity."

"Are you sure?"

Wu Yiyi looked at Zhang Yuhe next to him, looking a little worried.

Hedao Eternal is a huge threshold that the God King monks need to face.

It is different from breaking through other great realms.

Monks break through other realms, such as the true god realm or the god king realm.

Even if the breakthrough fails, it can be done after a period of rest.

Keep coming again.

But Hedao will never work.

Although the God King monks have countless opportunities to join the Tao.

But don't know why.

Maybe it's because of the limitations of heaven.

Only when you hit the road for the first time can you have a chance to succeed.

Once Hedao fails.

Section 1263

No matter how hard you try in the future, you will never succeed again.

In the long history of Chaos River, there has never been a God King monk.

There is a precedent for successful combination after many times.

No matter how talented he is, he is a top-notch person.

After the failure of Hedao.

It can only return to the ordinary and never regain its former glory.

Wu Yiyi looked up at Zhang Yuhe, her face full of worry.

Although she also knows.

With Zhang Yuhe's talent, he had also made sufficient preparations.

The probability of Hedao failure is infinitely close to zero.

But she was still a little worried.

Nothing is permanent.

Who can guarantee that accidents will never happen.

Seeing Wu Yiyi's worried look.

Zhang Yuhe smiled slightly and responded in a soft voice.

"Don't worry, nothing will happen."

"If it weren't for the purpose of evolving into a perfect world after Hedao."

"As early as billions of years ago, I could have started to join the Tao."

Zhang Yuhe's words were completely full of confidence.

This is indeed the case.

Maybe it's related to his Hunyuan Taoist body, or it may be other unknown reasons.

Zhang Yuhe has been practicing all the way and has never felt the existence of a bottleneck.

Even if it was Hedao Eternal, he still didn't feel the bottleneck.

When I was advancing my cultivation to the perfection of the God King.

Zhang Yuhe had a premonition.

As long as he wants.

You can succeed at any time and evolve your own world.

It's just that he didn't want to do it at first.

Zhang Yuhe has always had a dream.

He wants to evolve the most perfect world.

It was a world comparable to the Chaos River.

In Zhang Yuhe's view.

This vast river of chaos may be the world that a certain powerful person once evolved.

It's just that there might have been an accident, and that powerful person has already fallen.

Only then will the entire river of chaos remain in disorder.

Let no one see the future.

Zhang Yuhe thought.

Since the world of Chaos River may have been evolved and created by others.

Then why can't he create a similar world?

Zhang Yuhe had a premonition.

If he is in harmony, he can evolve a world comparable to the Chaos River.

Then all the mysteries in this world will be suddenly solved.

There is no longer any problem that can defeat him.

As for getting out of the long river of chaos and heading towards a new world.

Then it won't be a problem.

"That's good."

Seeing Zhang Yuhe's confident look, Wu Yiyi couldn't help but reveal a sweet smile on her face.

"Let's go."

"Everything is almost ready, it's time for us to go back."

After saying this.

I saw him making a stroke with his right hand.

A huge vortex of particles slowly appeared in the void.

Zhang Yuhe followed Wu Yiyi, stepped out of the whirlpool channel, and disappeared in an instant.

Only the vertical and horizontal rhymes of sword energy and Dao were left on the scene.

It seems to be telling that a shocking battle once took place here.

...

Daomeng station.

Two figures quickly passed by in the sky.

Everything is ready, just waiting for harmony.

For the god king monk.

The location of Hedao also has some particularities.

In the cosmic world, that is definitely not possible.

For example, the Galaxy Holy World is not suitable for monks to join the Tao of Eternity.

Because the origin of the Holy World is not as complete as imagined.

Three thousand avenues.

A naturally born universe may only contain one or two thousand rules at most.

As for more Dao rules, they simply don't exist in those universes.

that's why.

When Zhang Yuhe was in the Galaxy Sacred World, why could he only understand more than a thousand rules of the great road.

Later, he wanted to understand more rules of the great road.

He can only leave the holy world and go to the river of chaos.

The Holy World itself has no rules of the Great Dao, so naturally no monks can understand them.

Even if Zhang Yuhe's understanding is as incredible as Zhang Yuhe's, it is impossible to comprehend a rule out of thin air.

If this is the case.

That is not understanding the rules, but creating them.

Maybe there is someone who can do this.

But that is definitely not in this Changhe world.

Limited by the rules of this world, there are only three thousand avenues.

No more.

Unless someone appears who can surpass the power that originally created this long river, heaven and earth.

so far.

Obviously there is no such a heaven-defying person.

At least it won't appear in this world.

The union of the god king monks for eternity can only be done in the long river of chaos.

Because the long river of chaos contains all the rules of the world.

As for the specific location on the long river, there is not much emphasis on it.

despite this.

Zhang Yuhe still chose the location of the Tao Alliance at the Taoist Alliance station.

Because there is an extremely effective Hedao facility here.

Chengtiantai.

This is a large formation created by the nine great lords of the Tao Alliance to assist Hedao.

...

Chapter 881 The breath of the avenue rises, and the craze of spiritual energy sweeps everywhere

Zhang Yuhe took Wu Yiyi and flew forward quickly at the Daomeng station.

I don't know how much time has passed.

A vast high platform finally appeared in front of the two of them.

Taiwan is thousands of miles high.

Around Chengtian Terrace, tall black pillars rise into the sky.

This is Chengtian Terrace.

Section 1264

As long as the disciples of the God King in the Dao Alliance sense an opportunity for a breakthrough.

Everyone will come here to join the Tao.

Zhang Yuhe flew up to the high platform.

Looking at the tall pillars around him, he couldn't help but exclaimed.

"The Lord Dao Alliance is really generous."

"These Heaven-bearing Pillars are all supreme artifacts."

Zhang Yuhe had already known it from the classics he had read in Wanfatian.

These black pillars around are called Chengtian Pillars.

These black pillars include the entire rooftop.

In fact, it has only one function.

That is the aura of divine power gathered in the long river.

Once Chengtiantai starts.

The entire river of chaos, the vast and endless aura of divine power.

They can all gather near here.

The biggest difficulty for the God King monks to achieve eternity is the realm bottleneck.

Then there is the world of evolution.

But that's not to say.

As long as the bottleneck is broken, the union will be successful.

The God King monks are no matter when they are in harmony or when they are evolving the world.

All require massive amounts of divine power to support them.

Although the power of the Chaos River is endless.

No matter how hard the God King cultivator tries, there will never be a situation where his divine power is insufficient.

But everything is afraid of accidents.

When the God King monks were in harmony, they had a world-devouring aura.

It can almost absorb all the divine power in a heaven.

If it cannot be replenished in time, it is likely that there will be insufficient follow-up.

Especially when it comes to evolving the world.

The more rules of the avenue you understand, the more terrifying the divine power you need to consume.

Ordinary God King monks are better.

They usually just happen to understand the nine rules of the great road.

The demand for divine breath is not too much.

But for those geniuses.

That's different.

Like those God King disciples in the Taoist Alliance.

Everyone is extremely talented.

In addition to the nine great rules they need to break through to the nine-step god king.

You may also realize additional avenue rules.

When they are in harmony.

The amount of divine power that needs to be consumed will also increase exponentially.

A long time ago.

There have been cases in the Dao Alliance where the disciples of the God King failed to join the Dao due to lack of divine power and aura.

to this end.

The nine great lords made up their minds.

They spent their entire life's accumulation working together to create this super formation.

The entire Chengtiantai is made of extremely precious divine materials.

As for the supporting pillars around them, each one is at the level of a supreme artifact.

Zhang Yuhe made a rough count.

There are actually millions of Heaven-bearing Pillars around.

See this situation.

Zhang Yuhe couldn't help but secretly dumbfounded.

To know.

The total number of invincible supreme beings in the entire Dao Alliance is just over three to four hundred thousand.

Moreover, few of these invincible supreme beings have supreme artifacts in their hands.

It can be seen from this.

The supreme artifact must be so precious.

How many chaotic creatures did the nine great lords kill before they could refine so many Heaven-bearing Pillars.

It's scary to think about.

This is truly a big deal.

Zhang Yuhe had only heard of it before.

Now that I see Chengtiantai in front of me with my own eyes, I feel very incredible.

Look at Chengtiantai in front of you.

Zhang Yuhe can imagine it.

The strength of the nine great lords of the Dao Alliance must be so powerful.

Otherwise.

They couldn't kill so many chaotic creatures, and they couldn't refine so many Heaven Bearing Pillars.

Looking at the dense Chengtian Pillars around them.

Zhang Yuhe will know.

The gap between the nine great lords of the Dao League and those invincible supreme beings is huge.

A normal Invincible Supreme, even if multiple people join forces, cannot defeat a single chaotic creature.

However, the Lord of the Dao Alliance can kill millions of chaotic creatures.

Let's not talk about the limited number of chaotic creatures.

It would be difficult to find millions of them.

It takes a long time to make it possible.

As for killing so many chaotic creatures, there's no telling how much effort it would take.

Zhang Yuhe looked into the distance and murmured to himself.

"Perhaps after I successfully merge, I should be almost as good as the Nine Lords."

Think of this.

Zhang Yuhe turned back to look at Wu Yiyi beside him, and spoke softly.

"Yiyi, I'm getting ready to start."

"Well, come on."

Wu Yiyi clenched her fist and waved it slightly.

Then he flew down from Chengtiantai.

Until it flies out into the infinite distance.

She just stopped and looked silently in the direction of Chengtiantai in the distance.

Zhang Yuhe stood quietly on the high platform.

After a long time.

He slowly sat down cross-legged.

Daomeng's Chengtiantai has rules of use and does not require a reservation.

First come, first served.

As long as no one is on it, it can be used normally.

As for the formation.

When the god king monks join together, they will naturally open up.

No manual operation is required either.

It's very convenient.

Zhang Yuhe closed his eyes slightly and silently ran the Chaos Scripture.

In order for the God King monks to join the Tao, they do not need to integrate the rules of the Tao that they have understood into one.

The road remains unchanged.

What changes is the monk himself.

When a cultivator breaks through the eternal bottleneck, the rules of the great way he comprehends will also be sublimated at the same time.

Or you can say it in other words.

Section 1265

It is the monks who sublimate the rules of the great road to another level.

Only then can the eternal bottleneck be broken.

As for which statement is more accurate.

In the long river of chaos, there has always been controversy.

But in Zhang Yuhe's opinion.

There is no order of precedence between breaking the eternal bottleneck and ascending the great road.

The two should complement each other.

In fact, as long as the monk's own background is sufficient.

Whether it's the sublimation of the avenue or the breaking of the eternal bottleneck.

That's all a matter of course.

Zhang Yuhe sits cross-legged on the rooftop.

As the Chaos Scripture slowly rotated, the surrounding divine power began to gather rapidly.

Three thousand avenues surround it, blooming with vast divine power.

The aura of the avenue manifests one by one.

Until then.

The rules of the great road that Zhang Yuhe understood were clearly displayed in front of the world.

But now, there are no Dao Alliance disciples around Chengtiantai.

After all, this is the place where the God King monks come to join the Tao.

Normally no one would come here.

Although there are countless Dao League disciples.

There are as many as 30 million deacon disciples in the eternal realm.

As for the ordinary disciples of the God King Realm, there are hundreds of millions of them.

But these people have been practicing for countless years.

Those who can break through have already succeeded in joining the Way.

Naturally, he would not get together with Zhang Yuhe.

At this time, around Chengtiantai.

Except Zhang Yuhe.

Only Wu Yiyi stood nervously watching from a distance.

No one else exists anymore.

As Zhang Yuhe continued to operate his skills.

The surrounding avenues were abnormal and began to become more and more intense.

The aura of divine power gathered all over the sky quickly.

The spiritual energy frenzy, centered on Chengtiantai, quickly swept through the entire Dao Alliance station.

And there is a trend of continuing to expand.

...

Chapter 882 Could it be the Holy Lord of the Galaxy who is in Hedao Eternity?

As Zhang Yuhe slowly moved his skills, a vast wave of spiritual energy swept everywhere in an instant.

Countless Dao Alliance disciples who stayed behind walked out of their respective cave worlds.

Looking at the astonishing spiritual energy craze outside, everyone couldn't help but feel a little dazed.

The monk's vision of breakthrough.

Of course they've seen it all.

Even the top eternal emperor is integrated into the universe and promoted to the invincible supreme.

They have also seen a lot.

But like this, a sudden spiritual energy craze.

And the momentum is so huge.

They really can't understand it.

When the monk breaks through.

Shouldn't the spiritual energy craze be slowly getting stronger bit by bit?

How could it happen suddenly, such a violent wave of visions?

It's very strange.

Could it be that some Eternal Emperor is at the critical moment of breaking through to the Invincible Supreme?

But this isn't right either.

When the eternal emperor merges into the universe and is promoted to the invincible supreme.

Various visions are also getting stronger bit by bit.

How could it be like this?

Before, I was still blind.

Why suddenly, there was such a violent spiritual energy frenzy.

This is completely incomprehensible to everyone.

Li Minghao flew out of his holy world.

Looking at the vast aura outside, he couldn't help but feel a little confused.

At this time, Liu Chengjiang and others also flew over.

The distance between their holy realms is not too far.

So they came together quickly.

Looking at the spiritual energy craze around him, it has become more and more violent.

Li Minghao looked at Liu Cheng and asked with a somewhat puzzled expression.

"Brother Liu, do you know what is going on?"

"Is there someone who is integrating the origin of the universe and becoming the invincible supreme?"

Liu Chengjiang shook his head.

He pondered for a moment, then slowly responded.

"It doesn't look like that."

"You and I have both gone through this step before, so naturally we are well aware of the visions involved."

"The Eternal Emperor's breakthrough to the Invincible Supreme is simply not like this."

"Even when different people make breakthroughs, their visions may be somewhat different."

"But that's not the case."

"Without any warning at all, such an amazing spiritual energy craze suddenly set off."

"It's just a little bit baffling."

"I have some doubts as to whether one of the lords has returned and is practicing some kind of powerful magical power."

Liu Chengjiang has been practicing cultivation for a long time, and he is almost of the same generation as the nine great lords.

But with his knowledge.

Still can't understand what happened.

It's very strange.

But the problem is.

In addition to the strong spiritual energy frenzy that will be triggered when a breakthrough is made in cultivation.

The monks usually go through all kinds of troubles, but they can't produce such a vision.

He could only guess.

Maybe a lord has returned and is practicing some powerful magical power.

The shocking power of the Dao Alliance Lord is far beyond the imagination of the invincible supreme beings like them.

Although these people can also be regarded as supreme realm.

But compared with the Tao Alliance Lord.

That is simply the difference between heaven and earth.

Only when the Taoist Lord breaks the shackles of heaven and earth can he truly transcend eternity.

It is truly a supreme realm.

As for them.

To say that you are a pseudo-supreme is just to put gold on your own face.

They couldn't understand the huge spiritual energy craze in front of them at all.

So Liu Chengjiang could only guess that it might be related to the Lord of the Dao Alliance.

After all, the power of the nine great masters is beyond their imagination.

No matter how big the commotion is, they will not find it strange.

"Has a master returned? Why haven't I heard of it?"

Section 1266

Hearing Liu Chengjiang's words, Li Minghao was even more puzzled.

The whereabouts of the Dao Alliance Lord are usually not secretive.

As long as the Lord returns.

They should have heard the news a long time ago.

It can't be this peaceful.

Just at this time.

Xia Yuanji, who was next to her, pointed forward and spoke slowly.

"If you feel it carefully, the center of the spiritual energy craze seems to be in the direction of Chengtiantai."

"Um?"

"impossible."

Hearing Xia Yuanji's words.

Everyone looked in disbelief.

Where is Chengtiantai?

It was a formation that the nine great lords jointly built for the God King monks to use to unite the Tao for eternity.

Could it be this amazing spiritual energy craze in front of me?

Is it just a vision caused by a god king monk who is joining the path?

This is impossible.

Chengtiantai is already very far away from here.

Normally when the god king monk is in harmony.

Standing here, they could hardly feel the presence of the vision.

To know.

The scope of the entire Dao Alliance station is completely boundless.

There are tens of millions of universes evolved by Dao League disciples alone.

So many cosmic worlds gathered at the Dao Alliance station.

Still didn't feel crowded at all.

This is conceivable.

The entire Dao Alliance station must be huge.

Even these invincible supreme beings want to fly on their own.

It may take tens of thousands of years to fly from one side of the Dao League to the other.

Occasionally, some god-king monks succeeded in joining the Tao, and the visions they caused caused.

At most, it will affect the area around Chengtiantai.

There will definitely not be such a big momentum.

Let the craze of spiritual energy sweep over them.

But under Xia Yuanji's reminder.

Everyone still felt it seriously.

soon.

Everyone's faces couldn't help but show expressions of shock.

Because Xia Yuanji was indeed right.

The center of the spiritual energy craze is indeed in the direction of Chengtiantai.

The auras of divine power surging around are all converging in the direction of Chengtiantai.

See this situation.

Everyone looked in disbelief.

Liu Chengjiang murmured to himself.

"It's really in the direction of Chengtiantai."

"Could it be that these violent spiritual energy crazes in front of us are visions caused by someone's successful union?"

"If that's the case."

"That would be an exaggeration."

"What kind of peerless person can induce such a violent spiritual energy frenzy when he joins the path?"

"By the way, tell me, could it be the Holy Lord of the Galaxy, who is uniting in eternity over at Chengtiantai?"

Liu Chengjiang suddenly remembered.

Normal God King monks would naturally not be able to make such a big noise when they were in harmony.

But if the person who is in harmony now is Zhang Yuhe.

That's understandable.

The monks of the God King are in harmony with the Tao for eternity, and the more rules of the Tao they understand.

There will be more divine power required.

When the Hedao is successful, the spiritual energy frenzy triggered will naturally become more violent.

They had all seen Zhang Yuhe's strength with their own eyes.

That exaggerated sword light magical power is enough to be unforgettable for a lifetime.

Although the initial battle was very short.

They also did not see the specific rules of the avenue contained in Zhang Yuhe's magical power.

But one thing is for sure.

There are definitely more than nine kinds of Tao rules that Zhang Yuhe has understood.

Maybe dozens, or even more.

Otherwise.

The sword struck by Zhang Yuhe could not have such terrifying power.

Not even the powerful chaotic creatures could stop his sword.

...

Chapter 883 It turns out to be him

"It must be the Holy Lord of the Galaxy, who is breaking through the eternal realm."

Hear Liu Chengjiang's reminder.

Li Minghao responded firmly.

The situation now is obvious.

The vision of spiritual energy frenzy comes from Chengtiantai in the distance.

And that place.

Apart from being a god-king monk, it has no other use.

That is to say.

This sudden vision was caused by someone being in Hedao Eternity.

Li Minghao wants to come.

Apart from Zhang Yuhe, there should be no one else.

the reason is simple.

Although there are many disciples of the Dao Alliance, there are even hundreds of millions of disciples of the God King.

But there are only a few people who have truly reached the edge of Hedao.

As for the person who can trigger such an exaggerated vision when he is in harmony.

Li Minghao couldn't think of any of them.

In his opinion.

It can only be Zhang Yuhe.

And the time is just right.

Zhang Yuhe has been at the peak of the God King Realm for many years.

The conditions for eternal harmony have long been met.

Li Minghao believes it.

A peerless figure like Zhang Yuhe will certainly not be suppressed too much by the eternal bottleneck.

Zhang Yuhe went with them to hunt chaotic creatures before.

Maybe he's making final preparations.

Everything is ready now.

It is also normal for Hedao to be eternal.

Others also echoed.

"Yes, it must be Fellow Taoist Galaxy."

"Come on, let's go there and take a look."

"Brother Yinhe is such a peerless figure, and the scene where he unites with the Tao for eternity must be unparalleled in history."

Section 1267

"Such a grand occasion, if you miss it this time."

"I'm afraid I'll never have the chance to see it again."

"Let's go and take a look together."

After saying this.

Everyone jumped into the air and quickly flew towards the Chengtiantai.

Although they are still very far away from Chengtiantai.

But it doesn't matter much.

It is a long process for the god-king monk to become one with the Tao of eternity.

It may take millions of years in the short term, or hundreds of millions of years in the long term.

Now the Reiki craze has just begun.

They had enough time to see Zhang Yuhe's eternal grand occasion.

Li Minghao and others were able to quickly discover the source of the spiritual energy craze.

Other people in the Dao Alliance can naturally find out too.

After all, if you pay a little attention, you will find it.

The vast spiritual energy craze is gathering in the direction of Chengtiantai.

Although the answer is hard to understand.

But everyone knows it.

This is the direction of Chengtiantai, and someone is Hedao Eternity.

Especially those Dao League disciples who are slightly closer to Chengtiantai.

He felt the influence of the vast spiritual energy frenzy even earlier.

They all flew towards the direction where the spiritual energy gathered.

Everyone wants to take a look.

Which peerless person is he?

Being able to trigger such an exaggerated vision when He Dao is eternal.

After a while.

Dao League disciples rushed to the vicinity of Chengtian Terrace one after another.

Everyone first saw Wu Yiyi, and then looked at Chengtian Terrace in the distance.

It's just that Chengtiantai at this time was completely enveloped by the vast aura of divine power.

Even with their level of spiritual consciousness, they still cannot penetrate the envelope of divine power.

See clearly the specific situation on the rooftop.

They could only vaguely see that there was indeed a figure sitting cross-legged on the platform.

That's all.

As for which disciple it is, he is currently in Hedao Eternity.

They couldn't see clearly at all.

As more and more Dao League disciples gathered around.

Everyone was in groups, talking quietly.

"Who is the fellow Taoist on Chengtian Platform who is breaking through the eternal realm? Does anyone know?"

"I don't know, the aura of divine power over there is really too strong."

"It's almost solidified, and we can't see clearly what's going on above the Chengtiantai."

"I don't know how many Taoist rules this fellow Taoist has understood."

"This vision of spiritual energy frenzy is indeed a bit exaggerated."

"Who says it isn't?"

"I have been practicing for countless epochs, and I have never seen such an exaggerated spiritual energy phenomenon."

"Even when the Invincible Supreme attained enlightenment, the craze of spiritual energy was not so violent."

"The key is, look at that posture."

"This fellow Taoist on Chengtian Platform seems to have just begun."

"At the beginning of Hedao, the vision was so intense."

"Then when he evolves the world, the vision will be so exaggerated."

"It's just unimaginable."

"latest news."

"I just saw it in the discussion area."

"The craze of spiritual energy has spread outside the Dao Alliance."

"Some fellow Taoists outside have been affected by this craze."

"No way, so fierce?"

"The Dao Alliance's base is so vast. It's even larger than hundreds of squares of heaven."

"Now the spiritual energy frenzy has spread beyond the Dao Alliance."

"Doesn't that mean that we will wait until the fellow Taoist above evolves the world?"

"It is possible that the spiritual energy craze will sweep across the entire Chaos River."

"this....."

Speaking of which.

Everyone was completely confused.

They didn't know how many visions of monks' breakthroughs they had seen.

But no one has ever seen the vision that swept through the entire river of chaos.

Haven't even heard of it.

When the nine Dao Alliance Lords were breaking through to the Supreme Realm.

It probably hasn't reached this point.

Will such an exaggerated spiritual energy phenomenon really happen?

Everyone was silently speculating.

Soon everyone came to a conclusion.

That is indeed possible.

Because at this time, Zhang Yuhe had obviously just begun to break through.

The subsequent process of joining the road will take a long time.

As for evolving the world, it will take even longer.

According to normal conditions.

When the god king monk is in harmony.

The further you get to the back, the more divine power you will need.

The scope of the spiritual energy craze will naturally become larger.

Otherwise.

There may be no supply of divine breath.

In everyone's opinion.

If the spiritual energy craze spreads as fast as it currently does.

Then it is entirely possible for it to sweep through the entire Chaos River later on.

Think of this.

Everyone felt very incredible.

Will such an unprecedented vision really happen?

At this time, they were facing the stage and trying to figure out the identity of that person.

I felt more and more curious.

"Who on earth is it?"

"It's really weird."

"I haven't heard of any Taoist friends who are going to join the Tao for eternity."

"And this Taoist friend is too big to jump."

"When he was in Hedao, he didn't even ask anyone to protect him."

"Aren't you worried about being disrupted and disturbed by others?"

"There's nothing to worry about."

"The Dao Alliance can be stationed here, and there are several dharma bodies of the Lord sitting here."

"Who dares to be presumptuous?"

"Right."

"I remembered."

Just at this time.

Suddenly someone exclaimed loudly.

Section 1268

He pointed to Wu Yiyi in the distance, and then spoke excitedly.

"Look over there, is that Fairy Yitian?"

"With Fairy Yitian beside you, the person who is making a breakthrough on the Chengtian Platform must be Taoist Fellow Yinhe."

As soon as this man finished speaking.

Everyone suddenly felt enlightened.

"It turned out to be him."

"It's no wonder."

"Only Daoist Fellow Galaxy can trigger such a violent spiritual energy craze when Hedao is eternal."

...

Chapter 884 Three thousand avenues complement each other

After someone reminded them, everyone suddenly woke up.

Everyone looked at Wu Yiyi in the distance.

Zhang Yuhe is famous throughout history.

Although there are not many people in the Dao Alliance who have seen him with their own eyes.

But with his resounding name. .

Everyone is naturally aware of Zhang Yuhe's deeds.

Even the people who appear next to Zhang Yuhe are also the object of everyone's attention.

Especially Wu Yiyi.

This Fairy Yitian has been with Zhang Yuhe for many years.

Everyone has heard about it for a long time.

Although few people have ever seen Wu Yiyi's appearance with their own eyes.

But according to the discussion area, there are various legends that have been circulated.

Now someone spoke up to remind me.

Everyone quickly remembered.

The beautiful fairy in the distance is indeed Fairy Yitian.

Then there is no doubt about it.

Now on the Chengtian Platform, the person who is Hedao Eternal must be Zhang Yuhe.

In the long river of chaos, there has been such a legend for a long time.

Legend has it that Fairy Yitian is a Taoist companion who accompanies the Holy Lord of the Galaxy.

No matter where you go.

The Holy Lord of the Galaxy will always take Fairy Yitian with him.

Now the storm is surging on Chengtiantai, and the craze of spiritual energy is sweeping all directions.

But Fairy Yitian is alone, standing quietly in the void.

Is there any need to think about it now?

The figure sitting cross-legged on the rooftop, stirring up the storm, must be Zhang Yuhe.

Think of this.

The Dao Alliance disciples who gathered around couldn't help but talk about it.

"The Holy Lord of the Galaxy has finally reached this point."

"I thought he would stay in the God King Realm for a long time."

"What are you thinking about?"

"With the terrifying talent of the Holy Lord of the Galaxy, isn't it normal for the Eternal Harmony?"

"Ordinary god king monks may be stuck in the eternal bottleneck for several chaos eras."

"Even most of the God King monks will never be able to cross this threshold in their lifetime."

"But Galaxy Holy Lord, what kind of figure is that?"

"It's just an eternal bottleneck, how can it be difficult to contain him?"

"Perhaps he can join the Tao long ago."

"Just to make the road more complete and to go further in the future."

"Only the Holy Lord of the Galaxy will stay in the God King Realm until now."

"Hey, who says it isn't?"

"The heavenly posture of the Holy Lord of the Galaxy."

"When he was in the nine-step divine king realm, he could kill three invincible supreme beings in a row."

"Later, even chaotic creatures can be killed easily."

"It's really hard to imagine."

"Once you succeed in joining the path, you will be promoted to the eternal realm."

"How powerful will the Holy Lord of the Galaxy be?"

"yes."

"The eternity of harmony and the evolving world are a huge threshold."

"As long as you cross this threshold, your strength will improve by leaps and bounds."

"When the Holy Lord of the Galaxy succeeds in uniting, maybe he will be able to explode in strength."

"It's not much worse than a few lords, right?"

"That's hard to say."

"The nine great lords have already reached their peak, and their strength is far beyond what we can predict."

"Who can know what kind of strength these Lords will have when they explode with all their strength?"

"That's right."

"Countless epochs ago, I saw Yuan Zun take action with my own eyes."

"The vast divine power is something that people can't forget even now."

"When I was in Guixu Land, I happened to encounter Master Yuan Zun who was cleaning up the chaotic creatures."

"Thousands of powerful chaotic creatures are as useless under Yuan Zun's hands."

"Everything turned into ashes with a wave of my hand."

"With such terrifying divine power, no matter how many invincible supreme beings there are, they are probably not a single enemy."

"Although the Holy Lord of the Galaxy is very strong, Hedao Eternal will be improved by leaps and bounds."

"But in my opinion."

"If you want to compare with the nine Lords, it will probably take some time."

"Hey, what are you talking about?"

"Even before the union, Holy Lord Galaxy is still the first person under the Lord."

"Now that he is about to succeed in joining the Tao, how can we imagine it?"

"Yes, Lord, it is unimaginable."

"The Holy Lord of the Galaxy is also unimaginable."

"Compared with us, the gap is really huge."

"Tell me, how many avenue rules does the Galaxy Holy Lord master?"

"Why did he trigger such an exaggerated spiritual energy frenzy at the beginning of He Dao?"

"It's hard to say, there must be hundreds of species."

"Otherwise, it would be impossible for him to exert such power."

"Hundreds of kinds?"

"Is it so exaggerated?"

"We understand the nine rules of the great road, and it's like dying."

"How can the Holy Lord of the Galaxy be so fierce?"

"What's weird about this."

"If there weren't so many Dao rules to bless him, how could he easily kill the chaotic creatures?"

"That's right."

"Hearing you say that, it seems to be the case."

Countless Dao League disciples gathered around, pointing and talking in low voices.

Wu Yiyi stood quietly in the void, looking at the direction of Chengtiantai in the distance.

There seemed to be infinite worries in her heart.

Although she also knew.

With Zhang Yuhe's profound background and talent far beyond imagination.

There is no problem with Hedao Yongheng.

And now the strange phenomenon has appeared.

It means that Zhang Yuhe should have broken through the bottleneck of eternity and taken a key step.

Section 1269

The rest is just to sublimate the avenue and evolve the world.

Despite this.

Wu Yiyi still felt a little inexplicably nervous.

This is an inexplicable feeling.

I am just very worried.

...

On the Chengtian Terrace.

Zhang Yuhe silently circulated the Chaos Heavenly Scripture.

The divine power that swept in from all around has become more and more intense.

There is even a tendency to solidify.

Three thousand avenues surround him, shining with inexplicable brilliance.

It is just that due to the divine power, the outside world cannot see the manifestation of the avenue on the Chengtian Terrace.

Otherwise.

If people see the three thousand avenues shining around him.

I am afraid that their jaws will drop to the ground.

The avenue is difficult to understand.

In order to master the rules of a great way, ordinary cultivators may be stuck for countless epochs.

If there is no special opportunity.

It is estimated that there will be no progress.

There are countless Chaos Long River God Kings, but there are not many Eternal Emperors.

Not even one tenth of the God King cultivators.

Moreover, most of the Divine King cultivators cannot reach the realm of the Nine Steps.

The reason is very simple.

The Divine King advances one level at a time.

Every step forward requires one to comprehend one more Dao rule.

To reach the Nine Steps of the Divine King, one needs to master nine Dao rules.

This is a huge hurdle.

It has blocked countless Divine King cultivators who are devoted to the Dao.

Let alone Zhang Yuhe, who is now like this, with the Three Thousand Daos perfect as one.

Even if there are only Divine King cultivators who have mastered ten or twenty Dao rules.

There are not many in the entire Chaos River.

It is precisely because of his heaven-defying comprehension.

Zhang Yuhe can open up such a big gap with other cultivators of the same level with the Three Thousand Daos.

Even when he goes against the Invincible Supreme, he does not feel any pressure at all.

The Three Thousand Daos complement each other, and the atmosphere is as vast as the sky.

This is Zhang Yuhe's true foundation.

It is his most powerful capital to break the shackles of heaven and earth and walk out of this world in the future.

...

Chapter 885 I don't understand it at all!

Zhang Yuhe sat cross-legged on Chengtian Terrace.

As time passed slowly.

The rules of the avenues surrounding him became more and more magnificent.

At this moment.

One of the avenue rules suddenly burst out with a terrifying pressure.

A terrifying wave swept quickly to the distance with Chengtian Terrace as the center.

Those Dao League disciples who were watching around were shocked by this wave.

Especially those Divine King monks with low cultivation.

They were almost crushed to the ground by this sudden wave.

Even Wu Yiyi, who was standing far away, was not spared.

Her figure shook unnaturally for a few times, and then she quickly retreated.

Although Wu Yiyi was very concerned about Zhang Yuhe's current situation.

But she knew better in her heart.

Only by staying far away and not disturbing Zhang Yuhe.

In fact, it was the greatest help.

Those Dao League disciples who were watching around also quickly retreated to the back.

Soon.

Another wave of terrifying waves swept around.

The fluctuations continued. They spread rapidly towards the distance.

Seeing this situation.

Everyone was stunned.

A disciple of the God King who had not practiced for a long time asked the Eternal Emperor next to him in confusion.

"Senior, what is going on?"

"Are all the God King cultivators so terrible when they are in harmony with the Dao?"

"We are far enough away, but we are still affected."

"The continuous pressure just now seemed to be more terrible than facing the Invincible Supreme."

"It's incredible."

An Eternal Emperor next to him shook his head slowly.

After a long while.

He responded slowly.

"This is the sublimation of the Great Dao."

"The Lord of the Galaxy has taken the most critical step."

"When he sublimates all the rules of the Great Dao to a higher level."

"You can start evolving the world."

"Once the evolution of the world is over, it means that the harmony of the Dao is successful."

At this point.

The Eternal Emperor paused for a while.

Then he said hesitantly.

"But Lord of the Galaxy, this aura of the combined Dao is indeed a little strange."

"When the normal Dao sublimates, there will also be unusual pressure."

"But that kind of pressure will not be as fierce as his, and the coverage area will not be so large."

"Maybe it's because the Lord of the Galaxy is unusual."

"So when he combines the Dao, some strange weather will naturally appear."

The crowd retreated farther and farther.

They retreated until they could no longer see the Chengtian Terrace, and then they slowly stopped.

In the direction of Chengtian Terrace at this time.

The aura of the Dao continued to rise.

The terrifying aura swept across the four directions.

Even the most marginal places of the Dao League could feel a faint pressure.

The aura of the Dao continued to spread, and it has been going on for tens of thousands of years.

There is still no sign of stopping.

It seems to be endless.

At this time, Li Minghao and others finally arrived near Chengtian Terrace.

They looked at the rising aura of the Dao in the distance, and they didn't even dare to breathe.

Because the vast power of the Dao was really scary.

Even these invincible supreme beings could only watch from afar.

I didn't dare to get close at all.

Time passed slowly.

The aura of the Great Dao continued to spread, and the terrifying divine power swept across the four directions.

Tens of thousands of years passed.

Section 1270

The divine power coming from the direction of Chengtiantai not only did not stop.

On the contrary, it has become a trend that will intensify.

Everyone looked at each other.

It was as if he had thought of something very incredible.

Liu Chengjiang looked into the distance.

He muttered to himself.

"How long has it been since?"

"It should be almost two hundred thousand years since the first sublimation of the avenue to now, right?"

"Why isn't it over yet?"

"How many kinds of Dao rules has Brother Yinhe mastered?"

"Why does the mere sublimation of the avenue last for such a long time?"

"It's really hard to understand."

Everyone was silent.

Because they have never seen such an exaggerated momentum.

The rules of the avenue are just sublimated, and it is something that can be accomplished overnight.

If it's fast, it may only take a moment to complete the process of sublimation of the avenue.

Even if it's slower.

It will only take a few years at most.

Even like Zhang Yuhe.

It has been going on for such a long time and there are signs of stopping.

It's really incredible.

Just at this time.

Li Minghao, who was next to him, suddenly asked with some doubts.

"Have you ever calculated carefully?"

"How many different kinds of divine power are there in total, sweeping from the direction of Chengtiantai?"

Hearing Li Minghao's words.

Everyone couldn't help but be stunned.

to be honest.

They really haven't thought about it carefully.

After all, the great power of the avenue is continuous, and no one would seriously consider such a thing.

But after Li Minghao's reminder.

Only then did everyone remember.

The Three Thousand Avenues are all different.

When the monks of the God King join the Tao, the aura revealed by the sublimation of the rules of the Tao.

There will also be significant differences.

That is to say.

As long as you carefully calculate, how many different kinds of divine power of the avenue were swept across just now.

You will know.

How many kinds of Dao rules does Zhang Yuhe master?

Everyone thought silently.

Just at this time.

Xia Yuanji, who was next to her, said leisurely.

"If I am not mistaken."

"From the first breath of the avenue to the present."

"There should have been 1,688 different kinds of divine power sweeping around us."

"More than 1,600 kinds?"

"Fairy Yuanji, are you sure you remember correctly?"

Hearing Xia Yuanji's words.

Everyone was completely stunned.

Before, they just felt that the power of various avenues was continuous.

It seems that there are indeed a lot of them.

But they really didn't pay attention to the specific number.

Now I heard Xia Yuanji talking about it.

Everyone had incredible expressions on their faces.

1,688 different avenue scents.

That is to say.

There are at least 1,688 kinds of Dao rules that Zhang Yuhe has mastered.

In fact it will definitely be more.

Because on the rooftop in the distance, the avenue is sublimated.

He had no intention of stopping.

Still going on.

Liu Chengjiang muttered silently to himself.

"How is this possible?"

"1,688 avenue rules, maybe more."

"Could it be that the Dao rules mastered by Fellow Daoist Galaxy have exceeded 2,000?"

"Isn't this too exaggerated?"

"Countless epochs have passed since I started practicing."

"I don't know more than a hundred rules of the avenue that I have mastered."

"The years of cultivation of fellow Daoist Galaxy have only just passed a trillion years."

"How did he do it and understand so many great rules?"

"Could it be that he was born with the Dao and can master the rules of the Dao naturally without having to understand it himself?"

Everyone was silent.

No one answered.

Because like Liu Chengjiang, they had long been confused by this result.

The further the rules of the great road go, the harder it is to understand them.

Liu Chengjiang has been practicing Buddhism for a long time.

After he joined the Tao, he still did not relax his cultivation.

After countless years of hard work.

Being able to understand nearly a hundred avenue rules is already considered very good.

Even if it is placed in the entire Dao Alliance.

He can also be regarded as being at the forefront.

But what's going on with Zhang Yuhe now.

No one understands it at all.

Just cheat.

Otherwise.

How could it be such an exaggeration?

He was able to master more than two thousand avenue rules in such a short period of time.

It's simply incomprehensible.

...

Chapter 886 A new era has arrived

The aura of the avenue continued to sweep from Chengtiantai towards the surroundings.

The breath is endless.

It actually lasted for hundreds of thousands of years.

This made the Dao League disciples who were observing around him completely numb.

Li Minghao and others were able to pass through the aura of the avenue that swept past.

Let's calculate the number of Dao rules that Zhang Yuhe has mastered.

The other Dao Alliance disciples around him can naturally imagine this as well.

But that's exactly why.

Everyone will feel that it is very incredible.
