

Top talent 1271

Section 1271

Because it started from the sublimation of the first avenue.

Now, more than 2,000 kinds of rule auras have appeared in the direction of Chengtiantai.

This makes everyone completely unable to understand.

How many kinds of avenue rules has Zhang Yuhe mastered?

Is there really more than 2,000 kinds?

Isn't this too exaggerated?

Three thousand avenues.

This is the limit of the Chaos River.

The number of avenue rules in the entire Changhe world is limited.

There are only 3,000.

And Zhang Yuhe alone has mastered more than 2,000 kinds.

Is this still a human?

Most cultivators can't even master one avenue rule.

They can't even cross the threshold of the True God Realm.

Even those Eternal Emperors and Invincible Supremes have already succeeded in merging with the Dao.

But they are still worried about understanding the avenue rules.

Many people are like Liu Chengjiang.

After practicing for endless years, they can master the avenue rules.

At most, there are only a few dozen.

How long has Zhang Yuhe practiced?

Just over 100 million years.

One hundredth of the Chaos Era.

It is really hard for everyone to imagine.

How did he do it? In such a short time, he mastered so many Dao rules.

Could it be that Zhang Yuhe was born for the Dao?

Can he directly master the Dao rules without deliberately understanding?

Are there really such people in the world?

What is even more difficult for everyone to understand is.

In the direction of Chengtiantai in the distance, the Dao sublimation is still continuing.

It has not ended.

In other words.

Zhang Yuhe may have mastered more Dao rules.

Seeing this situation.

The Dao League disciples who were watching around were already confused.

Somewhere in the void.

An invincible supreme asked his companion next to him in shock.

"Brother Dao? How many kinds of Dao rules has the Lord of the Galaxy sublimated?"

"I just counted them carefully, it should be 2568."

"There are many Dao rules that I have never seen before."

"I have never even heard of them."

"If it is not the Dao sublimation, the vast aura cannot be fake at all."

"I suspect that it is not the Dao rule at all, it may be the pressure displayed by some special magical power."

"Yes, it is too terrible."

"2568 Dao rules are actually mastered by a cultivator at the same time."

"This is simply unimaginable."

"What's more terrifying is."

"The Lord of the Galaxy is still continuing."

"What do you think he really mastered? How many Dao rules are there exactly? "

"Is it 2800 or 2900?"

"It can't be that all three thousand Daos are mastered by him."

"Impossible, absolutely impossible."

"If the three thousand Daos are perfect and unified, then isn't he the incarnation of the Heavenly Dao?"

"Maybe more than 2900."

"After all, the Heavenly Dao is flawed."

"Three thousand Daos are just an imaginary number speculated by everyone."

"Are there really so many Dao rules in this long river world?"

"That's all very uncertain."

"What if it's true?"

"If the Lord of the Galaxy really comprehends the three thousand Daos to perfection and unity."

"What kind of scene will it be?"

Everyone was silent.

After a long while.

An invincible supreme responded slowly.

"If that's the case."

"Then it's almost certain."

"In the near future, the Galaxy Saint will surely lead everyone to open the shackles of heaven and earth."

"Go to the sky outside the long river."

"Even if there is no new world outside this chaotic long river."

"The Galaxy Saint can also create a wider world."

Another invincible supreme beside him also responded.

"Yes."

"The three thousand great ways are perfect as one, and the power of the Galaxy Saint in the future is completely unimaginable."

"It's not an exaggeration to say that he is the incarnation of the way of heaven."

"Even if he creates a world comparable to the chaotic long river."

"That's completely possible."

"After all, the core of constructing the world is those illusory rules of the great way."

"The more and more complete the rules, the more perfect the world and heaven constructed will be."

"Wait."

"When the Galaxy Saint begins to evolve the world."

"I guess we can get a glimpse of it."

...

Time passed slowly.

Tens of thousands of years passed.

The sublimation of the avenue in the direction of Chengtiantai is still continuing.

The magnificent aura of Taoism complements each other.

If.

At the beginning.

Because of the deep spiritual energy frenzy, everyone can't see the specific rules and weather on Chengtiantai.

Then as Zhang Yuhe merged with the Tao, the rules of the avenue sublimated more and more.

The vast momentum has already reflected the entire sky.

No matter where you are in the Tao League.

Everyone can see clearly.

In the direction of Chengtiantai, the endless brilliance that continues to rise.

At this time.

A terrifying momentum rushed into the sky.

The terrible divine power swept across the four directions, and in an instant, the whole world seemed to be eclipsed.

The disciples of the Tao League who were watching around had long been numb.

But seeing the scene in front of them.

Everyone still couldn't help but exclaim.

"Three Thousand Avenues."

Section 1272

"I really have mastered all three thousand avenues."

"The heavenly posture of the Holy Lord of the Galaxy."

"To be able to understand all the great rules of this Changhe world to perfection."

"Then how high will his achievements be in the future?"

"Don't think about it."

"Don't talk about us, even the nine great lords will probably pale in comparison."

"The Holy Lord of the Galaxy is unparalleled in the past and will definitely become the number one person in this world."

"Even transcending the long river of chaos and overriding this world."

"That's completely normal."

"yes."

"We are like ants watching the birth of gods when we observe the union of the Holy Lord of the Galaxy."

"How can we imagine what he will accomplish in the future?"

"It's not something we can evaluate."

"The gap is too big."

"That's a good thing too."

"Wait until the Holy Lord of the Galaxy opens the shackles of heaven and earth and moves toward a broader sky."

"Maybe we can follow suit and enjoy the dividends of the times together."

"Maybe I can make further progress in this life."

"Achieve the true supreme realm, haha."

"Brother Dao is right."

"A new era has arrived."

"As long as we follow the footsteps of the Galaxy Holy Lord."

"There will definitely be opportunities in the future to get out of this Changhe world."

"Stepping out to a new level."

"I will never be trapped in such an embarrassing situation like now."

"After all, being a pseudo-supreme is not pleasant to say."

...

Chapter 887 Impossible, impossible

Zhang Yuhe sits cross-legged on the rooftop.

Three thousand avenues intersect with each other.

With the last avenue rule sublimation success.

At this time, earth-shaking changes also occurred in his Dantian.

The golden Nascent Soul shines with inexplicable brilliance.

Located in the middle of Dantian sea, that huge illusory land.

At this time it has become completely solid, as if it really exists.

at the same time.

A vast aura quickly rose up on Zhang Yuhe.

The terrifying power spreads in all directions.

Eternal realm.

After the sublimation of Three Thousand Avenues is over.

At this time, the aura on Zhang Yuhe's body was already in the realm of eternity.

This is the true state of eternity.

Unlike before, he activated the magical power of Hunyuan Guiyi and forcibly elevated himself to the eternal realm.

Normally.

The God King monk only needs to cross the bottleneck and at the same time sublimate the avenue to completion.

Even if the breakthrough is successful.

As for the subsequent evolution of the world, it is just a kind of effort.

Although it also takes a lot of time, and it cannot be interrupted by interruptions.

But after Hedao succeeds and then evolves the world, there is basically no possibility of failure.

Nothing more than that.

A world that evolves based on everyone's different backgrounds.

There will be some differences.

Wu Yiyi stood quietly in the void.

Looking at the direction of Chengtiantai in the distance, the vast momentum rose rapidly.

She couldn't help but let out a sigh of relief.

Zhang Yuhe succeeded in joining the road.

Wu Yiyi's anxious heart finally relaxed.

She looked into the distance silently.

A sweet smile couldn't help but appear on his face.

Zhang Yuhe stood up slowly.

At this time, the spiritual energy craze around them showed no intention of stopping.

Instead, it became more and more intense.

Hedao Eternity is divided into two steps.

The first step is to follow the path.

The second step is to evolve the world.

Zhang Yuhe has only succeeded in integrating the Tao, but he has not yet begun to evolve the world.

Therefore, the spiritual craze around us will naturally not end so quickly.

Only by waiting for him can the entire evolution of the world be completed.

Only then will this vast spiritual energy vision finally return to peace.

It's still very early.

The evolution of the world by the Eternal Emperor is not something that can be accomplished overnight.

This requires a long process.

It may be millions of years, it may be tens of millions of years, it may even take hundreds of millions of years.

Zhang Yuhe stood on the rooftop and silently looked at the vast Taoist atmosphere around him.

Look at the spiritual energy craze sweeping the sky.

He muttered to himself.

"The movement this time seems a bit too big."

Although he did not go to the Lundao communication area, check the chat information above.

No one summoned him.

But Zhang Yuhe could feel it clearly.

The vast spiritual energy frenzy has now swept through most of the Chaos River.

It is even continuing to spread.

Wait until he officially evolves the world.

There will be more divine auras that need to be pulled.

Maybe that time will come.

The entire long river of chaos, even including the ethereal realm of Guixu.

They will all be stirred into chaos by the spiritual craze he triggered.

"I hope that the aura of divine power that pulls the entire river can support me to complete the evolution of the world."

Zhang Yuhe thought silently.

to be honest.

He was really worried that the divine aura would not be enough by then.

This has just been successful.

The spiritual energy craze has already swept through most of the Chaos River.

Normally.

The divine power that the Eternal Emperor needs to consume to evolve the world.

At least several times as many times as when they are in harmony.

Now it has drawn the divine power of most of the chaotic river.

Wait until it is time to evolve the world.

Even if the entire Chaos River, all the divine energy is drawn here.

Section 1273

I guess it's still not enough.

But there is no way.

This is already a limit.

If it weren't for the Lord of the Dao Alliance, he would have built the Heaven Bearing Platform at his feet.

He might not be able to attract even half of the divine power.

Even the previous Hedao may fail.

As for the world that will evolve later.

Will there be insufficient divine power?

Then we can only leave it to fate.

After all, no matter how defiant he is.

It is impossible to let the craze of spiritual energy sweep beyond the long river.

Zhang Yuhe has no such ability.

Don't even dare to think about it.

I guess no one can tell clearly so far.

Is there really another world beyond this long river?

Now everyone is just guessing.

There's no exact number.

That is to say.

The divine aura that Zhang Yuhe can pull is, at most, limited to the Chaos River.

There can't be more.

Even if it is not enough.

There is nothing we can do about that.

"take it easy."

Zhang Yuhe thought silently.

He has already planned it.

If the spiritual energy is not enough in the end.

Then he would first evolve his own world into a rough prototype.

It will be gradually improved in the future.

Think of this.

Zhang Yuhe's thoughts moved slightly.

At this time, in the Dantian sea, the illusory continent began to rise slowly.

Sudden.

The mainland broke away from Dantian and jumped up.

Slowly hanging above the head.

This is the foundation of Zhang Yuhe's path.

When he was still Taiyi Immortal, this continent was cultivated in his dantian.

It's just that this continent used to be almost illusory to the point of being invisible.

As his cultivation realm slowly improved.

The land in Dantian also gradually became solid.

Now this land is separated from Dantian.

Just means.

Zhang Yuhe Avenue has been completed.

From now on, he can only gradually improve it without making fundamental changes.

This is qualitative.

When the illusory continent leaps out.

The frenzy of spiritual energy around him instantly became more violent.

The frenzy swept across all directions.

It soon spread to the entire Chaos River.

...

The Lord of the Void and the Lord of Reincarnation have just left the place of return to the void.

He was immediately met with an oncoming wave of spiritual energy.

Watching the divine energy around you surge wildly, quickly sweeping towards the distance.

The two looked at each other.

Although the two of them have reached the limit of this world.

But they have never seen a formation like this.

Lord Samsara looked around at the frenzy of spiritual energy sweeping across the sky.

He muttered to himself.

"What the hell is going on?"

Lord Void couldn't help but frown slightly.

I saw him flip his right hand.

Quickly take out a golden token.

After playing a magic formula.

I saw the information that quickly filled the screen in the discussion area.

He couldn't help shouting.

"How can it be."

"These spiritual energy frenzy turned out to be a vision caused by Zhang Yuhe's breakthrough."

"What?"

Hear this.

Lord Samsara looked incredulous.

He quickly took out the token.

Look at the information above.

His whole expression was completely dull.

"No way, no way."

"This is already the edge of the Chaos River, endlessly far away from the Dao Alliance station."

"Zhang Yuhe just broke through the eternal realm, how could he trigger such an exaggerated spiritual energy craze."

"This is incredible."

The two looked at each other.

There was a look of shock on his face.

...

Chapter 888 I might as well wait.

The two Lords of Samsara and Void looked at the vast spiritual energy craze around them.

I also thought about the information I saw everyone discussing in the forum.

The expressions on both of their faces were completely shocked.

They were just out for a trip.

Less than an epoch before and after.

Has the outside world changed?

How could Zhang Yuhe, such an incredible figure appear?

Where did this Zhang Yuhe come from?

That's outrageous.

Zhang Yuhe just broke through the eternal realm, how could he cause such an exaggerated spiritual energy frenzy?

Back when these people were breaking through to the Supreme Realm.

It seems that no one can reach such a situation?

The frenzy swept across the entire Chaos River.

It's simply incredible.

Even though they have lived for countless years and have seen countless peerless geniuses.

But there has never been anyone like Zhang Yuhe.

It gave them such a big shock.

Oh, no.

They haven't even met Zhang Yuhe yet.

Section 1274

Just walked out of the Return to Void Land.

They were completely confused by the strange phenomenon caused by Zhang Yuhe's breakthrough.

This is fucking.

If there was no discussion area, they could get the specific information in time.

They might all think.

Has something big happened to this vast river of chaos?

The two sighed silently for a long time.

The Lord of the Void slowly spoke.

"Let's go."

"I really want to see the legendary Lord of the Galaxy as soon as possible."

"Who is he?"

"One eternal union can cause such a big storm."

After saying this.

He waved his sleeves.

The void in the distance seemed to be neatly cut.

It was instantly divided into two.

The Lord of the Void took a step forward and flew into the crack.

The Lord of the Wheel of Reincarnation followed closely.

The two quickly rushed towards the Dao League's residence.

...

Zhang Yuhe sat cross-legged on the Chengtian Terrace.

The surrounding atmosphere was magnificent.

The vast world projection completely enveloped the entire Dao League station.

A huge new world was slowly forming a rough outline above the Chengtian Terrace.

While Zhang Yuhe was running the Chaos Heavenly Scripture, he silently observed the outline of the world he had evolved.

The surrounding spiritual tide was surging, rushing quickly towards the outline of the world above his head.

As more and more spiritual energy poured in, the outline of the world gradually became more and more solid.

But so far.

This world is still just a rough shadow prototype.

It is not a real world.

After the God King cultivator merged with the Tao, he wanted to evolve a real world.

To achieve the effect of turning virtual into real.

You need to use a very special treasure.

Boundary Stone.

The Chaos River is vast and endless.

Almost every moment, a new universe is born, and an old universe will perish.

Whenever the universe naturally dies, a special treasure will be formed.

It is called the Boundary Stone.

As the essence of a universe, condensed.

The Boundary Stone has infinite uses.

Not only can it be used to refine various top-level eternal artifacts.

It can also be used to refine various peerless divine pills.

However, for cultivators.

The greatest role of the Boundary Stone.

It is used to stabilize the foundation of the Great Dao after the Divine King cultivator successfully merges with the Dao.

Let the shadow of one's own Great Dao transform from virtual to real, and finally evolve into a real world.

Zhang Yuhe looked up at the sky.

Suddenly.

He flipped his right hand.

A purple sphere the size of a bowl quietly appeared in his hand.

The sphere was purple.

The surface seemed to be dotted with countless flowers and birds, and it seemed to contain countless heavens and earths.

It was so hard to see the end.

This is the Boundary Stone.

A universe, condensed essence.

Long ago.

Zhang Yuhe issued a task in the Dao League and finally exchanged for this Boundary Stone.

That is, he joined the Dao League, which made it so convenient.

Otherwise,

It is not so easy to exchange for a treasure as precious as the Boundary Stone.

In the Three Holy Heavens before.

Each Boundary Stone is almost equivalent to an Eternal Emperor.

Whoever obtains such a treasure will definitely keep it carefully.

It will not be easily exchanged.

However, in the Dao League, it is completely different.

The Dao League has countless disciples, and its influence is spread throughout the entire Chaos River.

There are tens of millions of Eternal Emperors alone.

Everyone is scattered all over the place.

Moreover, they have been in harmony with the Tao for countless years and have evolved their own world.

Although the Boundary Stone is also a precious treasure for them.

But it is no longer a necessity.

As long as you are willing to pay the price, you can naturally exchange it.

Zhang Yuhe held the purple sphere in his hand.

As the spell was quickly pinched.

The purple sphere slowly rose and slowly approached the virtual shadow of heaven and earth above his head.

Boom...

When the Boundary Stone touched the virtual shadow of heaven and earth.

A sound of the nameless avenue suddenly spread between heaven and earth.

The shadow above his head instantly burst into a magnificent light.

The light illuminates the heavens.

The entire Chaos River, no matter where you are.

Everyone looked up at the sky.

You can see a vast world slowly appearing in the air.

There is heaven and earth in the air.

This does not mean.

The world evolved by Zhang Yuhe has completely covered the entire Chaos River.

That is of course impossible.

This is just a mysterious vision.

When the Eternal Emperor evolves the world, various visions will appear.

But like Zhang Yuhe.

The visions illuminate the heavens, as if they are everywhere.

This has never happened before.

Looking at the vast vision of heaven and earth.

The Taoist League disciples who were watching around have long been numb.

To be honest.

Although the visions reflecting the heavens are indeed a bit exaggerated.

But compared to.

Take the spiritual energy frenzy that swept the entire Chaos River.

Everyone thinks.

This seems quite normal.

Section 1275

Starting from Zhang Yuhe's Hedao, there are all kinds of exaggerated anomalies.

They have long been used to it.

Even when the world is evolving now, the visions of heaven and earth are no matter how outrageous.

No one finds it strange.

After all, they have seen even more outrageous things before.

What is this?

Um!

Very normal.

Calm down.

Just at this time.

A wide gap suddenly opened in the sky.

Two figures stepped out of the crack one after another.

See this situation.

Everyone shouted respectfully in unison.

"Greetings to the Lord of the Void, and to the Lord of Reincarnation."

After a series of broken voids.

The two Lords finally rushed back to the Dao Alliance station.

Facing the countless Dao Alliance disciples around, they shouted respectfully.

The Void Lord waved his sleeves.

and didn't speak.

He and Lord Samsara had long since lost the intention to respond to those Dao Alliance disciples.

The two of them stared into the distance.

Looking in the direction of Chengtiantai, the vast and endless phantom of heaven and earth is changing from illusory to reality.

Looking at the delicate and peerless young man under the world.

It seems to contain endless Tao charm.

"What a peerless young man."

"I might as well wait."

The two stared at each other for a long time.

Lord Samsara sighed silently.

...

Chapter 889 The only one in eternity

Looking in the direction of Chengtiantai, you can see the vast Taoist atmosphere.

Lord Samsara couldn't help but sigh.

Zhang Yuhe's foundation is much stronger than theirs.

Don't say anything else.

Just those three thousand avenues that surround and complement each other.

Just looking at it made him envious.

This is the real Three Thousand Avenues.

The Lord of Samsara has gone through countless years.

It never occurred to him.

There really are people in the world who can comprehend all three thousand avenues to perfection.

He considers himself extremely talented.

Otherwise.

It is also impossible to comprehend the supreme rules of reincarnation.

Even if he is also the Lord of the Dao Alliance, few people can convince him.

But after so many years.

The rules of the great road mastered by Lord Samsara still do not exceed a thousand.

Originally he thought.

Mastering hundreds of Dao rules by yourself is already pretty good.

Among the several lords of the Dao League.

He is considered to be at the forefront.

Except for the unfathomable Yuan Zun.

The other lords may not be as powerful as him.

But looking at Zhang Yuhe sitting cross-legged on Chengtian.

Lord Samsara was completely convinced.

The rules of the avenue are mysterious and unpredictable.

Every avenue rule has extremely high thresholds.

It is extremely difficult to master the rules of a great avenue.

And it also requires a certain amount of luck.

Especially at the back.

As you master more Dao rules, you will want to understand new rules.

That's even harder.

Lord Samsara no longer remembers.

When did he realize the last rule of the great road?

Maybe it was dozens of epochs ago, maybe it was hundreds of epochs ago.

Anyway, it's been a long, long time.

in these long years.

He never understood even one of the great rules.

Lord Samsara has always thought.

Three thousand avenues.

But there may be a limit to the rules that a monk can master.

Perhaps this limit is the number of one thousand.

It is impossible for any monk to master more Dao rules than this number.

so far.

There are more than 800 kinds of Dao rules mastered by Lord Samsara.

There is still a long way to go to reach the number of one thousand.

Among the nine great lords of the Tao League.

Yuan Zun is undoubtedly the strongest.

Although they never knew how many great rules Yuan Zun had mastered.

But in the eyes of Lord Samsara.

The number of avenues mastered by Yuan Zun should not exceed one thousand.

There should be more than nine hundred.

Better than yourself.

But it didn't go beyond the limit.

However, when he looked at Chengtiantai in the distance.

Lord Samsara knows.

My vision is still too small.

It's simply a frog in the well.

If you can't do something yourself, you think others can't do it either.

Isn't Zhang Yuhe in the distance a living example?

The vast and majestic aura of the avenue makes people feel suffocated just by looking at it.

Lord Samsara doesn't even need to count.

You will know.

That is the true perfection of the three thousand avenues.

Not a single one was left behind.

There were many rules of the avenue that he had never seen or even heard of.

It just appeared in front of you quietly.

If you haven't seen it with your own eyes.

Lord Samsara simply couldn't believe that someone could really do this.

Section 1276

But things lie ahead.

He couldn't help but not believe it.

not to mention.

Whether it's the vast Dao Yun aura or the spiritual energy craze sweeping the world.

Everything is explained.

Although the young man on the Chengtian Platform is far inferior to him in terms of cultivation level.

But that unparalleled foundation was far away from him.

The Lord of the Void looked quietly at the constantly changing visions of heaven and earth in front of his eyes.

After a long time.

He just said silently to himself.

"Too strong."

"No wonder he could kill chaotic creatures like grass when he was in the God King Realm."

"Three thousand avenues belong to oneself. This is something that many people dare not even think about."

"Now people actually do it."

"I don't know where Yuan Zun is now?"

"If he sees the young man in front of him, he will definitely be convinced."

Lord Samsara looked into the distance and responded calmly.

"That's natural."

"Although Yuan Zun is extremely talented, he is still compared to Zhang Yuhe."

"That's still a long way off."

Throughout the history of chaos.

Yuan Zun can definitely be regarded as a unique existence throughout the ages.

very few people know.

This vast long-term cultivation civilization was actually created by Yuan Zun.

Before Yuan Zun.

Although there are indeed different cultivation civilizations in some corners of the river.

But those cultivation civilizations are completely unsystematic.

Not to mention the eternity of the God King.

Even the system of immortal civilization has never appeared.

Until Yuan Zun was born.

With his unprecedented talent, he constantly improves the existing practice system.

At the same time, we are pioneering development forward.

This formed the current realm of Shinto practice such as virtual god, true god, god king, eternity, supreme, etc.

Each of the nine great lords of the Tao Alliance masters a supreme rule.

Everyone has their own characteristics.

Although there is no conflict of interest between them.

But deep down in my heart, I don't obey anyone.

Except Yuan Zun.

This is not just that Yuan Zun created a practice system and shaped a practice civilization.

more importantly.

Yuan Zun's strength is also unique, enough to convince everyone.

There are three thousand avenues, each with its own characteristics.

There are nine supreme rules among them, which are even more supreme existences.

Each of the nine of them mastered a supreme rule.

What Yuan Zun masters is the rules of power.

On the surface.

The power rules are ordinary and not enough to be classified as the supreme rules.

But everyone understands the existence of Yuan Zun.

The law of power is the most powerful of the three thousand avenues.

Yuan Zun used the rules of power to cross the eternity.

Even if they are both Taoist Alliance Lords.

People like Samsara Void and others couldn't survive three moves under Yuan Zun.

It can be seen from this.

Yuan Zun is so powerful.

However, in the eyes of Lord Samsara.

Compared to Zhang Yuhe in the distance, Yuan Zun was still far behind.

Although he has never seen Zhang Yuhe take action, although Zhang Yuhe has only just broken through to the eternal realm.

The world hasn't even evolved yet.

But there is the vast aura of the great avenue around, as well as the vast vision of heaven and earth.

That's enough to explain everything.

The Three Thousand Great Ways belong to oneself, this is truly the only one in eternity.

In the long history of Chaos, there has never been such a peerless figure.

Lord Samsara believes.

In the endless years to come, it is impossible for a legend like Zhang Yuhe to appear again.

This is the only one in the world.

Unreplicable existence.

Lord Void looked into the distance and sighed.

"yes."

"The avenues are endless, but Zhang Yuhe can complete the three thousand avenues as one."

"How can we compare to such a person?"

"Even Yuan Zun, who created civilization, is completely incomparable."

"Wait, then."

"I believe."

"In the near future."

"Zhang Yuhe can definitely create a higher level of cultivation civilization."

"Perhaps it can bring us to a higher level of spiritual practice."

Speaking of which.

Lord Void looked at the Chengtian Platform in the distance, his face full of expectation.

...

Chapter 890 The Gate of Creation

The two Lords of Samsara and Void looked quietly at the Chengtian Terrace in the distance.

Just at this time.

A vast figure flew quickly from a distance.

The two turned around and looked.

I saw a Taoist with a tall white beard slowly revealing his figure in the void.

After seeing the person appear.

Lord Samsara laughed and shouted loudly.

"Old Taoist Yin and Yang, are you back too?"

"I thought you were trapped in Guixu Land and couldn't come back for the time being."

Taoist Gao Guan rolled his eyes at him, and then responded calmly.

"Reincarnation, do you think there is any other place in Guixu that can trap me?"

"You just took a ride on the void."

"Otherwise."

"Maybe I'll come back one step ahead of you."

I saw another Lord returning.

The Dao League disciples who were watching around were instantly shocked.

everyone shouted in unison.

"Greetings to Lord Yin Yang."

Taoist Gaoguan waved his sleeves and then looked towards the Chengtian Terrace in the distance.

Section 1277

In fact.

As early as billions of years ago, when Zhang Yuhe just joined the Dao League.

Yin Yang Zunzhu accidentally saw the information about Zhang Yuhe in the Dao Discussion Exchange Area.

When he saw the news that Zhang Yuhe used the power of the God King to defeat the three invincible supreme beings in succession.

Yin Yang Zunzhu could not sit still.

He immediately ended his exploration in the Land of Return to Void and set off to return to the Dao League.

It was just that the environment in the Land of Return to Void was too complicated.

He could not break through the void and teleport quickly like the Void Zunzhu.

He could only adjust the direction according to some specific coordinates.

So until now.

He returned to the Dao League headquarters.

Looking at the direction of Chengtiantai, the vast and endless Dao rhyme.

And the spiritual energy frenzy that swept the world around.

Yin Yang Zunzhu could not help but feel fortunate.

Fortunately, he came back quickly.

Otherwise.

He might miss this grand occasion that would never be seen in the world.

Yin Yang Zunzhu watched silently for a long time.

Then he said with emotion.

"We have been busy for nothing these years."

"If I had known that such a great person would be born in this Changhe world."

"Why should we, old antiques, go to Guixu Land to make trouble?"

"Everyone should just sit at home and wait."

Hearing the words of Lord Yin Yang.

The Lord of Void next to him asked with a puzzled look.

"Yin Yang, what do you mean by this?"

"Why don't I understand it?"

"Do you think our previous direction was wrong?"

"Shouldn't we go to Guixu Land to find a way out for the future?"

"Or."

"Do you think there is no other world outside this Changhe?"

Facing Lord Void's question.

The Lord Yin Yang did not respond directly.

He looked up and looked into the distance.

After a long time.

He spoke slowly.

"There is naturally another world outside the long river."

"But with our vision, we probably will never find it."

"Perhaps there is a strange portal somewhere in the Chaos River."

"Only through this portal can we walk out of the Chaos River and move towards a wider world."

"But it is obvious."

"The great power that created this long river world would not allow people to find the portal so easily."

"Through these years of exploration, I have come to a conclusion."

"Perhaps only when all three thousand great ways are fully comprehended and perfected."

"The portal to the world outside the domain may appear."

"But I used to think that my inference must be wrong."

"The rules of the great way are mysterious and unpredictable."

"Being able to comprehend hundreds of them is already extremely against the sky."

"How could anyone be able to master all three thousand great ways?"

Speaking of this.

The Yin-Yang Lord paused for a while.

He looked at the Chengtian Terrace in the distance, and then continued.

"Until now."

"I finally understood after seeing Zhang Yuhe's breakthrough."

"It turns out that there are people who can achieve the perfection of the Great Dao."

"If that's the case."

"Then our previous exploration is really meaningless."

"Just wait for Zhang Yuhe to successfully break through, or wait for him to be promoted to the Supreme Realm in the future."

"Maybe the legendary portal will naturally appear."

Hearing the narration of Lord Yin and Yang.

Void and Samsara looked at each other, both with incredible expressions on their faces.

Is there such a saying?

Why didn't they know it before.

Only by mastering the Three Thousand Great Daos can the portal be manifested.

Only then can the road to the outside world be opened.

Why does this sound a bit mysterious.

"Yin and Yang, the portal you are talking about should be the Gate of Creation."

Just when Void and Samsara were still a little confused.

An ethereal voice came faintly from the distant sky.

Everyone looked back in a hurry.

I saw a huge vortex appearing in the sky.

A figure in white slowly walked out of the vortex.

Seeing this.

Everyone shouted excitedly.

"Greetings to Yuan Zun."

Void, Samsara, Yin Yang, and the other three shouted respectfully at the same time.

"Yuan Zun, you are finally back."

Although the nine great masters of the Dao League are all in the same state of supreme.

But Yuan Zun's status is obviously unique.

Not only because he called for the establishment of the Dao League.

More importantly, it is strength.

Yuan Zun's strength far exceeds that of everyone.

From the way he appeared, everyone can clearly see that.

Yuan Zun did not master the rules of the void.

But he can directly break the void with pure power.

To achieve teleportation in the void.

What kind of amazing power is this?

It is completely beyond everyone's imagination.

Yuan Zun has a handsome appearance, like a boy next door.

If you are not a person who knows him well.

You will probably think that he is a scholar in some mortal world.

But in fact.

He is the oldest existence in the entire Chaos River.

Even the cultivation system in the Changhe River was created by him.

He also advocated the establishment of the Dao League.

In theory.

All the cultivators in the entire Chaos Changhe River have to call him the ancestor.

However, Yuan Zun has always used his name as his title.

[Yuan] is his name.

Unlike the other Zun Lords.

Section 1278

He did not use the supreme rules he mastered as his title.

Instead, use the name directly.

Yuan.

The beginning of heaven and earth, the beginning of all things.

This is the most domineering name in the world.

See Yuan Zun appear.

Void, Samsara and others immediately flew forward.

Lord Void asked quickly.

"Yuanzun, what do you mean by the Gate of Creation just now?"

"Is there really such a portal between heaven and earth?"

Yuan Zun looked into the distance.

After a long time.

He then spoke leisurely.

"A long, long time ago, in this long river of chaos, there was no cultivation civilization."

"I should be the first monk to step out of the universe and enter the river of chaos."

"The moment I stepped into the long river."

"There was once a mysterious will telling me."

"Crossing the long river is only the first step."

"If you want to get out of this world, you must find the door of creation."

"Only through the door of creation can we move towards a broader sky."

"I didn't understand what this meant at the time."

"Until the cultivation level continues to improve and breaks through to the supreme realm."

"That's when I remembered what happened back then."

"It turns out that this world also has its limits."

"Although the Chaos River is vast and endless, its carrying limit is only the Supreme Realm."

"If you want to pursue a higher realm, you have to look for the legendary Gate of Creation."

"That's why over the years, I have been letting everyone enter the Guixu Land to explore."

"I hope I can find that legendary portal."

...

Chapter 891 Evolution of Heaven and Earth

Yuan Zun narrated silently, as if he was recalling past events.

Everyone couldn't help being surprised when they heard this.

It turns out there is still such a thing.

When Yuan Zun stepped into the river of chaos, he actually received the mysterious voice of heaven?

Why didn't they hear it later?

Is there only the first person to break away from his own universe and enter the river of chaos?

Can you hear such a great sound?

no doubt.

Yuan Zun was the first monk to enter the river of chaos.

before him.

Although there are some cultivation civilizations in the cosmic worlds everywhere.

But the level of those cultivation civilizations is very low.

Before leaving the universe.

Everyone even thought that.

The universe in which you live is the only world in the world.

They don't even know.

There are countless similar universes out there.

And the vast and endless river of chaos.

When Yuan Zun entered Changhe, he created a higher level of cultivation civilization.

And will spread the cultivation civilization to the universe and the world everywhere.

This formed the vast long river civilization today.

Only then did the Tao Alliance come into being.

I heard Yuan Zun's narration.

Lord Void asked in shock.

"Yuan Zun, will that Gate of Creation really exist?"

to be honest.

When Lord Yin Yang mentioned the Gate of Creation before.

He didn't believe it.

After all, Lord Yin Yang only relied on speculation to reach that conclusion.

There is no real evidence.

Moreover.

As one of the most powerful people alive.

The Void Lord thinks so.

There shouldn't be any secrets that he doesn't know about in this Changhe world.

Now it seems.

He is obviously too arrogant.

If only Yin Yang Lord, one person said this.

He really wouldn't believe it.

But Yuan Zun said the same thing, which is completely different.

Moreover, Yuan Zun is not a conclusion drawn from thin air.

The information he received was guidance from the Voice of the Great Way.

This is completely different.

The Lord of the Void believes it.

on such issues.

Yuan Zun definitely didn't say it casually.

It must be true.

But the more so.

The Lord of the Void felt even more incredible.

Yuan Zun looked into the distance.

He did not directly respond to the Void Lord's question.

After a while.

He turned back to look at the Yin Yang Lord next to him, and couldn't help but sigh.

"The Yin-Yang Dao is indeed one of the most mysterious Dao rules in the world."

"It has the power to conquer the creation of heaven and earth."

"The reason why I know the existence of the Gate of Creation is because of the guidance of the voice of heaven."

"You can actually deduce it based on these years of exploration."

"In the vast river of chaos, there is such a portal."

"It's really amazing."

Hear Yuan Zun's praise.

Lord Yin Yang was stunned for a moment, then asked in surprise.

"Yuan Zun."

"You mean, my original conclusion was correct?"

"Does such a portal really exist?"

Yuan Zun responded with a smile.

"That's natural."

"The guidance of the voice of heaven will definitely not be false."

"You may not feel anything."

"In fact, I have been practicing all the way to this day."

"I have received guidance from heaven many times, and every time it turned out to be right."

Section 1279

"The Gate of Creation naturally exists."

"Unfortunately."

"For so many years."

"I have traveled all over the river of chaos, but I can't find the shadow of the Gate of Creation."

"I hope now that your conclusion is correct."

"Three thousand avenues are perfect, I have never thought about it before."

"There's no chance of doing it."

"But now Zhang Yuhe has done it."

"I hope it's as you imagined."

"It will allow us to find clues about the Gate of Creation from the vision of Zhang Yuhe's breakthrough."

"Certainly possible."

Lord Yin Yang looked at the Chengtian Terrace in the distance and said silently to himself.

As time passes slowly.

Several other Dao Alliance Lords also began to return one after another.

Everyone gathered in the void, silently paying attention to the Chengtian Terrace in the distance.

Looking at the delicate figure in the distance.

Everyone was full of expectations and a little uneasy.

They have already reached the limit of this world.

No more progress can be made.

If you can't find a way out.

Everyone may be trapped in this river of chaos forever.

As the most outstanding figures in this world, they are naturally not willing to do this.

So over the years.

Except for the Era craze, they have been exploring the Land of Return.

Hope to find a way out.

The road is now in front of you.

Maybe it's on the boy in the distance.

If Lord Yin Yang's inference is not wrong.

Maybe in the process of Zhang Yuhe evolving the world.

They can see some clues.

When monks break through the realm, they will be accompanied by various mysterious visions.

When the Eternal Emperor evolves the world, there will be even more strange phenomena.

As Zhang Yuhe gradually evolved.

Perhaps in these visions, there will be the shadow of the Gate of Creation.

Everyone looked into the distance silently, and no one spoke.

...

Zhang Yuhe sat cross-legged on the training platform.

While he was activating the Chaos Gods and Demons Scripture, he was always paying attention to the changes in the heaven and earth above his head.

This is the world he evolved into.

Although it is still just a prototype, it already has some atmosphere in the cosmic world.

Along with the boundary stone, it gradually integrates into the world.

The heaven and earth above Zhang Yuhe's head finally became completely solid.

This is a real world.

It is completely no different from the river of chaos and those naturally born cosmic worlds.

Even the heaven and earth above his head is larger than the ordinary universe.

It also looks even more perfect and vast.

Aura surged in around him.

The world evolved by Zhang Yuhe is also slowly expanding and growing.

I don't know how much time has passed.

The world he evolved has completely enveloped the entire Dao Alliance.

The world is vast and boundless.

Even compared to the Chaos River, that square area of the sky is even larger.

There are many things in the world.

Various tiny cosmic worlds, as well as some irregular void continents, are constantly taking shape in the heaven and earth.

Roar.....

Sudden.

An inexplicable roar came from the world where Zhang Yuhe evolved.

The roar penetrated the heaven and earth and spread directly to the Dao Alliance station on the outside.

Countless Dao Alliance disciples heard the shocking roar.

Everyone couldn't help but feel inexplicable fear.

It was as if he was being targeted by something terrible.

Everyone looked towards the sky and the earth above their heads.

I saw a tall humanoid creature slowly emerging from the heaven and earth.

The humanoid creatures are extremely tall, even hundreds of times larger than the chaotic creatures in the river.

The surrounding micro-universes and irregular continents.

The moment the humanoid creature stood up, it seemed like a grain of sand.

Not worth mentioning at all.

The huge body of the humanoid creature is like a god or demon descending into the world.

It seems to have infinite power and can destroy everything.

See this situation.

Everyone was completely shocked.

...

Chapter 892 Three Thousand Gods and Demons Create the World

A peerless god and demon suddenly appeared in the world where Zhang Yuhe evolved.

This made the Dao League disciples who were watching around him completely confused.

There is nothing special about the Eternal Emperor's evolving world.

As a disciple of the Tao Alliance.

We are all the best and top people in the entire Chaos River.

What haven't they seen?

even though.

Because everyone's foundation is different, the world that evolves will definitely be different.

But the essence is the same.

That is.

When the world first evolved, it was all nothingness.

Not even a blade of grass.

Even if you want to move some creatures in, there is no chance of survival.

Only through continuous management.

Slowly integrate into various avenue rules.

Only in this way can the world in which it evolves gradually become suitable for the survival of species.

But that was a long time ago.

But the problem is.

What do they see now?

Zhang Yuhe's process of evolving the world is not over yet.

Inexplicably, a god-like existence was born on that day and on earth.

The key is.

This terrifying god and demon was not brought in by the outside world, but was born naturally from heaven and earth.

Heaven and earth naturally nurture life.

Then you have to wait until the Supreme Realm to be able to do it.

Zhang Yuhe has just broken through to the Eternal Emperor.

Section 1280

Even in a strict sense.

He hasn't broken through yet.

The world has not evolved yet.

It's certainly not the end of the story.

And there is.

Where did that terrifying god and demon come from?

They were watching all the time.

However, no one understood what was going on.

Yuan Zun looked at the sky silently.

When the heaven and earth where Zhang Yuhe evolved suddenly heard the roar of gods and demons.

He was also stunned.

"Chaos Gods and Demons?"

"It's actually a Chaos God and Demon?"

"how can that be possible."

"How could chaos gods and demons be born in the world where Zhang Yuhe evolved?"

Lord Yin Yang asked quickly.

"Yuan Zun, what are Chaos Gods and Demons?"

"Is that the big guy?"

"Why have I never heard of such a thing?"

Yuan Zun pondered for a while, then slowly responded.

"It is said that when the world first opened, it was accompanied by the birth of chaos gods and demons."

"Chaos gods and demons are the earliest living beings in the world."

"We monks are just the later evolution of heaven and earth."

Hearing what Yuan Zun said.

Everyone found it incredible.

Lord Void asked curiously.

"Since the beginning of the world, chaos gods and demons were born."

"But why, have we never seen it?"

"Where have all those chaos gods and demons gone?"

"Have they all perished?"

"impossible."

Lord Samsara shook his head and flatly denied it.

"Look at the aura of the Chaos God and Demon. I'm afraid it's stronger than the average Invincible Supreme."

"How could such a powerful creature perish?"

"Even if it falls, at least it will leave some traces."

Yuan Zun looked up at the sky.

After a while.

He then turned to look at the crowd and responded slowly.

"I have also seen records about the gods and demons of Chaos on an ancient tablet."

"It's just that it was so long ago that the writing on that stone tablet was not very clear."

"I also inferred a rough idea from the few words above."

"I didn't expect that today I would be able to see gods and demons appear with my own eyes."

"This Zhang Yuhe is really not simple."

"Perhaps the world he evolved can really be comparable to this Fang Changhe world."

Roar.....

Yuan Zun hasn't finished speaking yet.

Only another roar was heard, coming from the heaven and earth above his head.

Everyone looked up.

I saw that in the hands of that god and demon, I don't know when, suddenly there was a huge axe.

Gods and demons stand in heaven and earth.

His hands suddenly swung the giant axe.

Boom...

A silent sound shook the world.

Everyone immediately felt that the surroundings seemed to fall into an emptiness.

There was no sound at all.

After a while.

When they raised their heads again and looked at the heaven and earth above their heads.

Everyone couldn't help being surprised.

Above their heads, they saw the world where Zhang Yuhe had evolved.

It is expanding rapidly at this time.

If.

That square of heaven and earth before was already big enough, and could even completely cover the entire Dao Alliance station.

However, after the god and demon just struck out with an axe.

The world Zhang Yuhe evolved was so big that they couldn't even see their head.

Maybe it can be enveloped, and the surrounding area is less than half of the river of chaos.

this.....

See this situation.

For a moment, everyone didn't know what to say.

Because since Zhang Yuhe started to join the Tao until now.

There have been too many things that they can't understand.

It was as if they and Zhang Yuhe were from different worlds.

This is not a difference in realm at all.

It's a cognitive blind spot.

I can't understand it at all.

Yuan Zun looked up at the sky with a silent expression.

Because he can't understand it either.

As the world expanded rapidly, the surrounding spiritual energy frenzy began to become more and more violent.

A violent spiritual energy frenzy swept across all directions.

It was as if the entire long river of divine power was being sucked dry.

Roar.....

Another loud roar came from the vast world above his head.

Everyone looked up.

I saw a slightly smaller Chaos God Demon standing up slowly.

Roar.....

Before everyone could react.

In that vast world.

One after another, powerful chaos gods and demons are constantly being nurtured by heaven and earth.

Those gods and demons waved the weapons in their hands, constantly blasting out terrifying divine power.

The heaven and earth expanded again, as if they were about to grow to no end.

See this situation.

Yuan Zun murmured to himself.

"Three thousand gods and demons will create the world."

"Is this what happened?"

"Today I finally saw the might of the ancient power that created the world."

Hear this.

The Yin Yang Lord next to him asked curiously.

"Yuan Zun, who are you referring to by the ancient powers?"

He was very curious.

Yuan Zun himself is the existence that created civilization. Is there anyone older than him?

This shouldn't be the case.
