Section 128

The black hole exudes a magnificent aura, connecting the two worlds.

Looking at the passage in the air, Feng Xiaotian couldn't help but frown.

He said with a puzzled look.

"It's really strange, why didn't these demons seal the passage when they evacuated?"

Zhang Yuhe was also a little puzzled.

Logically speaking, all the Mahayana cultivators of the demon clan had been killed by him.

Those remaining demons should have immediately sealed the passage and completely isolated the two worlds.

Aren't these demons afraid that they will kill their way into the demon world?

You know, there should be no Mahayana realm in the demon world at this time.

If they kill their way into the demon world at this time, who can stop them?

"Maybe this passage is not so easy to seal at all?"

Zhang Yuhe guessed silently.

"Oh, what do you think we should do now, Senior Brother?"

"Should we charge directly into the Demon Realm, or find a way to seal the passage."

"Of course, we should charge into the Demon Realm."

"The demons can come to Yufantian, so why can't we charge into the Demon Realm?"

"Why don't we take advantage of the weakness of the Demon Realm and completely occupy it?"

Faced with Feng Xiaotian's question, Zhang Yuhe answered without hesitation.

Since the demons can come to Yufantian to cause trouble, why can't they fight back?

There are only some weaklings left on the other side anyway.

Now is a good opportunity to completely occupy the Demon Realm.

If the Demon Realm can be occupied, with one more world, I think the Daosheng Sect will usher in a wave of outbreaks.

And in order to prepare for the future great calamity, he also needs more resources.

And the Demon Realm is a good place for him to get resources.

"Okay, Senior Brother, wait a minute, I'll go over to explore the way first."

After Feng Xiaotian finished speaking, he prepared to fly into the passage.

Now they don't know what arrangements the demons will have on the other side of the passage.

If there was an ambush, Feng Xiaotian would rather take the risk himself than let Zhang Yuhe get into an accident.

In his opinion, as long as Zhang Yuhe was there, Daosheng Sect would stand forever.

Zhang Yuhe naturally knew what Feng Xiaotian was thinking.

But he was a little speechless.

There was no need to be so troublesome.

He immediately stopped Feng Xiaotian.

"Master, this matter is not urgent, let me let the incarnation go to explore the way."

He had three thousand incarnations, so why did Feng Xiaotian need to take risks?

Sending an incarnation over, wouldn't that be very safe?

...

Chapter 119 Demon God Palace

Zhang Yuhe stopped Feng Xiaotian.

With his three thousand incarnations, there was no need to take risks at all.

What is the situation of the demon world opposite now? Send a few incarnations to see what's going on.

He quickly pinched the magic formula, and an incarnation quickly flashed out, and then flew towards the passage.

After a while, Zhang Yuhe suddenly frowned slightly.

Feng Xiaotian, who was standing next to him, asked him hurriedly.

"Brother, what's the situation on the other side?"

Zhang Yuhe thought for a while before he slowly said.

"There are a large number of demon army defending on the other side. The incarnation died just after walking out of the passage."

"How about I go over and take a look first?"

Hearing Zhang Yuhe's words, Feng Xiaotian spoke again.

The incarnation's strength is still too weak.

Currently, it is only in the middle stage of the Refining Void Realm.

Facing the demon army, it can't last long.

"No hurry, I'll try again."

After saying that, Zhang Yuhe pinched the magic formula again.

One incarnation after another flashed out quickly, and there were as many as three thousand.

Zhang Yuhe thought that one incarnation could not withstand the demon army on the opposite side.

But three thousand incarnations can always do it.

In his opinion, there are no Mahayana cultivators in the demon world, and even the combined cultivators are estimated to be few left.

Most of the combined cultivators of the demon clan died under the Demon Suppression City.

Under such circumstances, it would not be a big problem for the three thousand incarnations of the Refining Void Realm to sweep across the Demon Realm.

As the spell was pinched.

The three thousand incarnations quickly flew towards the black passage in the air.

After a while, a smile slowly appeared on Zhang Yuhe's face.

He smiled and said to Feng Xiaotian.

"Master, let's go over there. The demon army on the opposite side has been cleared."

Hearing this, Feng Xiaotian couldn't help but be overjoyed, and he responded excitedly.

"Okay, let's go."

Zhang Yuhe took off and flew quickly towards the passage in the air.

With a period of time and space conversion, they had already arrived in the Demon Realm.

Zhang Yuhe looked up and looked around.

They were in the sky above a huge city with magnificent momentum.

This city is so big that it is not much inferior to the Demon Suppression City.

But there are no demons in the city.

The demon army that was originally guarding here has been cleared by his three thousand incarnations.

Although there was a demon in the Fusion Realm guarding here before.

But facing the three thousand incarnations of the Refining Void Realm, the combined demons were no match.

Random punches killed the master.

The combined demon was beaten to death by the incarnations.

Except for the physical demon, the other so-called demon army was not worth mentioning.

They were quickly swept away by the three thousand incarnations.

...

Zhang Yuhe silently summoned the game system.

A game panel soon appeared in front of him.

Seeing the panel appear, Zhang Yuhe breathed a sigh of relief.

The game functionality is still valid in the demon world, so he was relieved.

This way, no matter what happens, he doesn't have to worry.

After all, he can be resurrected after death.

Without any worries, he can let go and collect resources in the demon world.

For them, all the resources in the demon world are ownerless.

As long as they see them, they can be taken away at will.

As for those indigenous demons?

In Zhang Yuhe's eyes, they are all dead.

No one cares about the thoughts of the dead.

Feng Xiaotian quickly searched around and soon returned to Zhang Yuhe.

"Brother, we know nothing about the demon world, and we don't know where the Demon Palace is. What should we do now?"

"No hurry, wait a little longer."

Although they had just arrived in the demon world and were in the dark, Zhang Yuhe was not in a hurry at all.

He had already arranged three thousand incarnations to explore everywhere.

After a while, Zhang Yuhe's eyes suddenly lit up.
