Section 1281

Yuan Zun looked into the distance and responded leisurely.

"Natural refers to the kind of power that created the world."

"Don't you think that the world Zhang Yuhe has evolved into now?"

"Is it similar to the Chaos River?"

"Maybe it's because of the limitations of his cultivation, or maybe it's because of the limitations of this world."

"It makes it impossible for Zhang Yuhe to perfectly evolve the world."

"Otherwise."

"I doubt it."

"He can directly evolve a world that is completely comparable to the Chaos River."

"Maybe even a little stronger."

Hearing what Yuan Zun said.

Everyone was stunned.

to be honest.

before this.

Everyone has some guesses.

I feel that this vast river of chaos may be a world evolved by some great power.

It's just that such a height is really beyond their imagination.

No one dares to think about it.

Don't dare to jump to conclusions easily.

Until now.

Watching Zhang Yuhe's process of evolving the world, and then being reminded by Yuan Zun.

Everyone seemed to have a clear understanding.

It turns out that this is the real creation.

The so-called creation of the world should be like this.

...

Chapter 893 Everyone uses their own methods

Three thousand gods and demons created the world.

Looking at the vast scene above their heads, the Dao League disciples observing the scene were completely stunned.

They have seen many people evolve the world.

The Eternal Emperor is not that rare in the Dao League.

However, they have never seen anyone like Zhang Yuhe when evolving the world.

This is truly groundbreaking.

Three thousand gods and demons waved their weapons at the same time, and the vast world began to expand rapidly.

Zhang Yuhe stands tall on the rooftop.

As the Chaos Meridian of Gods and Demons slowly circulates, the surrounding spiritual energy rushes toward the heaven and earth above their heads.

Monks evolve heaven and earth.

It's naturally impossible, it comes out of thin air.

The rules of the avenue are the foundation for constructing the world, and the breath of divine power from outside.

It is the material that structures and evolves the world.

If there was no frenzy of spiritual energy coming from around him, he would just rely on the divine power stored in the monk's own Dantian.

I am afraid that even a world as big as a palm may not be able to evolve.

Zhang Yuhe looked up at the sky.

Three thousand gods and demons are still struggling to swing their weapons, and the world is still expanding.

As a creature nurtured in the world of its own evolution.

Zhang Yuhe naturally knows.

These seemingly powerful and terrifying chaos gods and demons are actually not real creatures.

Rather, it is the manifestation of his Great Way rules.

Three thousand avenues.

Zhang Yuhe carried the core of chaos and integrated the three thousand avenues into the world one by one.

The rules of the avenue permeated the world, slowly manifesting into chaotic gods and demons.

to be honest.

Zhang Yuhe didn't expect it either.

When I was evolving the world, such a scene would appear.

Gods and demons open the sky.

He had never even heard of such a scene.

He once consulted a large number of classics in Wanfa Tian.

Among them, there are countless classics about the evolution of the eternal emperor into the world.

But in so many classics.

Zhang Yuhe has never seen someone evolve the world.

There will be a scene where gods and demons open up the sky.

Everything is unknown.

despite this.

Zhang Yuhe still has no worries.

Because he knows.

This is definitely a good thing.

The great way to transform gods and demons may be the correct way for the eternal emperor to evolve the world and create the world.

As for the cosmic world evolved by other monks in the past.

Maybe he took some kind of shortcut, so he was limited by the world.

After all, you can't go far.

The gods and demons waved, and the heaven and earth expanded rapidly.

The vast vision of heaven and earth seemed to envelope the entire river of chaos.

Just like Zhang Yuhe, this world evolved.

It seems to overlap with the Chaos River.

No matter where you are in the long river, you can see the shocking scene of gods and demons opening up the sky.

Time passed slowly.

Boom...

Sudden.

A shocking loud noise came from the sky and the earth.

Everyone quickly looked up.

I saw the shadow of a tall portal slowly appearing at one end of the world.

The shadow of the portal exudes vast and mysterious power.

It seems like it can lead to infinite alternative worlds.

See this situation.

Yuan Zun couldn't help but exclaimed loudly.

"The Gate of Creation."

"This is the door of creation."

"The door of creation has really appeared."

"Hurry up and make some calculations to see where this portal's shadow corresponds to its real location."

When the Gate of Creation appeared, Yuan Zun shouted excitedly.

Although he knows.

Zhang Yuhe evolved the world and pulled out the door of creation.

Just a shadow.

But it doesn't matter.

Everything is alternate between reality and reality.

Now that the phantom of the Gate of Creation has appeared, it's time to find the real Gate of Creation.

It's not too far away.

Lord Yin Yang waved his right hand.

A vast map of the long river slowly appeared in front of everyone.

While looking at the map in front of him, he looked up at the phantom of the portal above his head.

At the same time, his left hand quickly moved the magic formula.

The Yin-Yang Lord achieved enlightenment through the Yin-Yang rules and was very good at the art of calculation.

All things in the world only need a trigger.

He can calculate the past and present lives of anything.

The rules of the Great Dao have infinite uses, and it is no exception.

The other Dao Alliance Lords looked up at the vast virtual shadow of the portal.

They also moved the magic formula quickly with their hands.

As an existence that masters the supreme rules.

Although they are not as good at calculation as the Yin-Yang Lord.

But the Great Dao has different paths and the same destination.

Each of them naturally has corresponding means of calculation.

The Lord of Samsara waved his right hand.

The vast rules of Samsara instantly permeated the surrounding heaven and earth.

While he urged the power of the rules, he looked at the virtual shadow of the Gate of Creation in the air.

The rules of Samsara covered the four directions, trying to find the true location of the Gate of Creation.

The Lord of Time quickly moved the magic formula.

A vast river of time slowly appeared around him.

The long river slowly rose, gradually approaching the portal phantom in the sky.

It seemed to want to use the power of time to check the past and future of the Gate of Fortune.

Others did not stop either.

Everyone used their own methods to take advantage of the portal phantom before it dissipated.

To locate the specific location of the Gate of Fortune as soon as possible.

Only Yuan Zun did not move.

He stood still quietly, without any movement at all.

Yuan Zun knew very well.

As a path to the secluded world, the Gate of Fortune was not so easy to find.

Although everyone had mastered a supreme rule of the avenue.

But the rules they mastered did not actually transcend this world.

And the Gate of Fortune was a passage connecting the inside and outside of the world.

How could such an existence that took away the fortune of the world let them find it easily?

What's more.

Yuan Zun was very self-aware.

Although he had mastered countless magical powers, the rules of the avenue had already exceeded a thousand.

But the power rules he mastered had nothing to do with the art of calculation.

In this regard,

He is indeed incomparable to the other Dao League masters.

So he is too lazy to bother himself.

Let others do it.

Yuan Zun looked at Yin Yang Master quietly.

In his opinion.

Only Yin Yang Master has the best hope of finding the specific location of the Gate of Fortune.

Before, without any basis.

Yin Yang Master can know the existence of the Gate of Fortune by relying on the power of rules.

This is already very remarkable.

Now the virtual shadow of the portal appears.

Yuan Zun believes.

With the virtual shadow of the portal as a trigger.

Yin Yang Master can definitely locate the real location of the Gate of Fortune.

As long as the Gate of Fortune can be found.

They will have hope in the future to pass through that mysterious portal.

Walk out of the long river of chaos and move towards a wider world.

Although this.

There will definitely be many prerequisites.

For example.

The portal is in front of them, but they can't see it at all.

Or.

They can find the Gate of Fortune, but they can't push it open at all.

There are all kinds of possibilities.

But for them now.

The first step.

We still have to find the location of the Gate of Fortune before we can consider other things.

"I have waited for so many years, I hope I can succeed this time."

Yuan Zun looked up at the sky, thinking silently in his heart.

...

Chapter 894 The key to open the door is on Zhang Yuhe

Zhang Yuhe stood on Chengtian Terrace, looking at the sudden appearance of the portal shadow.

He couldn't help but be stunned.

He didn't know that the vast portal in front of him was the legendary Gate of Fortune.

In fact.

Before this.

Except Yuan Zun.

No one else knew the concept of the Gate of Fortune.

Although he didn't know what the tall portal shadow above his head was.

But looking at the vast power and the mysterious charm that seemed to be able to penetrate the past and the future.

Zhang Yuhe knew.

This tall portal must have an unusual origin.

I'm afraid it is one of the deepest secrets of this world.

"What exactly is this portal, and where does its true body come from?"

"Just a shadow can emit such a vast aura of Taoism."

"If the portal's true body appears, how powerful will it be?"

"I'm afraid that people with weaker strength dare not look directly at it."

Looking at the tall shadow of the portal in the sky, Zhang Yuhe muttered to himself in his heart.

Suddenly he had an idea.

"Could it be that this tall portal is the passage out of the Chaos River?"

Thinking of this.

Zhang Yuhe couldn't help but be very excited.

Although he had just been promoted to the Eternal Realm.

It would take a long time to reach the limit of this world.

However, if he could find the passage out of the Chaos River in advance.

That would be good.

In fact.

Zhang Yuhe had already planned it.

After the evolution of the world was over and his cultivation was stabilized.

He was ready to enter the Land of Return to Void and find a passage out of this world.

Now the shadow of the portal appeared.

Zhang Yuhe immediately understood.

This is the passage they wanted to find.

But the portal they saw at the moment was just a shadow.

They had to find the corresponding real existence.

Section 1283

Thinking of this.

Zhang Yuhe's eyes flashed with a gleam of light.

He looked into the distance along the portal phantom, his eyes seemed to cross time and space.

Unlike those Dao League Lords.

Dao League Lords want to find the location of the Gate of Creation, and they have to go through repeated deductions.

And they may not be able to find it.

But Zhang Yuhe doesn't need it at all.

This portal phantom appeared because of him.

It can even be said that.

It was summoned by him.

So he doesn't need to spend much effort to find the real location of the Gate of Creation.

What's more.

Zhang Yuhe has already perfected the three thousand great ways.

The nine supreme rules have also been comprehended and advanced to the state of perfection.

What the Yin-Yang Lord can do, he can naturally do.

And it will definitely be faster and simpler.

Soon.

Zhang Yuhe fixed his eyes on a piece of nothingness.

He muttered to himself.

"The true body of that portal should be hidden here, right?"

"Is this the source of the Chaos River?"

"By passing through this void, we can go to a wider sky?"

"No, no."

"It must not be that simple?"

"In this void, there is no passage at all."

"Perhaps only by passing through that tall portal can we truly get out of the Chaos River."

"But what should we do to make the true body of that portal appear?"

Zhang Yuhe looked at the distant void and fell into deep thought in his heart.

Although this is a void, nothing can be seen at all.

But Zhang Yuhe knows.

That tall portal must be hidden here.

There is no reason.

But he can be sure.

Because the virtual shadow of the portal reflects the heavens, the corresponding real location is here.

It must be right.

As for why he can't see anything now.

Maybe it takes some opportunity for the true body of the portal to appear.

...

Just when Zhang Yuhe was still thinking.

Several Dao League masters were still deducing quickly.

At this moment.

Yin-Yang Lord suddenly shouted excitedly.

"I found it."

"The true body of the Gate of Creation is hidden here."

After saying this.

He stretched out his hand to the front end of the vast long river map next to him.

Hearing the shout of Yin-Yang Lord, everyone looked in the direction he pointed.

I saw that a light spot had been marked by Yin-Yang Lord on the upstream of the long river map.

Looking at the light spot on the map.

Everyone couldn't help but frown slightly.

Yuan Zun muttered to himself.

"So the Gate of Creation is hidden here?"

"It seems reasonable."

"This is the source of the destruction of the era."

"Every time the era comes, countless destruction beasts will appear out of thin air from here."

"Now it seems."

"Maybe those destruction beasts passed through the Gate of Creation and entered the Chaos River."

Hearing Yuan Zun's words.

Everyone was still a little puzzled.

The Lord of Samsara asked doubtfully.

"Yuan Zun."

"We have been to this place many times, but we have never seen the Gate of Fortune."

"Is the Gate of Fortune a virtual existence, or is it not in the same dimension as us?"

"So we can't see it at all."

"If that's the case."

"That's troublesome."

"Even if we find the location of the Gate of Fortune now, we can't make it show its true form."

"That doesn't make any sense."

"If the Gate of Fortune doesn't show, we have no chance to get out of this long river of heaven and earth."

Yuan Zun remained silent.

Faced with the question of the Lord of Samsara, he did not respond immediately.

In fact.

He was also thinking about this question.

As for the origin of the Destruction Beast, they had already made various speculations.

Everyone once thought.

Those Destruction Beasts were born naturally in this world.

After all, the way of heaven is reincarnation, and there is life and death.

Maybe this is the natural law of the operation of the Chaos River.

Now it seems.

Their previous speculation was obviously wrong.

The source of the Destruction Beasts just overlaps with the location of the Gate of Fortune.

If.

Those Destruction Beasts did not come in from the Gate of Fortune.

He would not believe it at all.

How could it be such a coincidence?

Now the location of the Gate of Fortune has been found.

But they need to face a more difficult problem.

That is.

How can the Gate of Fortune really appear?

Ordinary means are definitely useless.

Because they have been to the location of the Gate of Fortune many times.

Even everyone has been there several times.

They followed the tide of Destruction Beasts and tracked to the final source.

That is, the location of the Gate of Fortune.

They had fought many battles with the Destruction Beasts here.

But before that.

They had never seen the Gate of Fortune appear.

Obviously.

In order to make the Gate of Fortune show its true form, it requires a certain opportunity.

Thinking of these.

Section 1284

Yuan Zun raised his head and looked at Chengtian Terrace in the distance.

He muttered to himself.

"Maybe the hope lies with Zhang Yuhe."

Yuan Zun knew it very well.

Since Zhang Yuhe was able to make the phantom of the Gate of Creation appear when he evolved the world.

Then he might have a chance to summon the real Gate of Creation.

The key to the door lies with Zhang Yuhe.

You can't go wrong.

...

Chapter 895 Draining the River of Chaos

Yuan Zun raised his head and looked into the distance, silently lost in thought.

After a long time.

He then spoke leisurely.

"Maybe Yin Yang's guess is right."

"Only those who have perfected the three thousand avenues can inspire the Gate of Creation to appear in the world."

"That is to say."

"Currently, only Zhang Yuhe holds the key to the door of creation."

"Although we have checked at the source of destruction many times before."

"But none of us can meet the conditions to activate the Gate of Creation."

"So even if you pass by the Gate of Creation, you still can't see it."

"That's probably it."

After listening to Yuan Zun's narration, everyone nodded silently.

In fact, the reason is very simple.

Everyone understands.

before this.

They have traveled to countless areas in the Chaos River, but they have never found any clues.

Now Zhang Yuhe joins the Tao for eternity, the time of evolution of heaven and earth.

It actually summoned the phantom of the Gate of Creation.

Whatever the reason.

This all shows.

Zhang Yuhe has already touched the conditions set by the ancient power who created Changhe World.

Think of this.

Everyone looked at the Chengtiantai in the distance, their eyes glowing with blazing light.

For this day.

They have waited too long.

They tried various methods but could not find a way out of Changhe World.

Countless eras have passed by.

Until now.

Zhang Yuhe appeared.

Only then did everyone see hope.

The hope of getting out of the long river of chaos and heading towards a higher level of heaven and earth.

Lord Void murmured to himself.

"I don't know if Zhang Yuhe can directly open the door of creation after evolving the world."

"I still have to wait for him to be promoted to the supreme realm in the future."

Hear what he said.

Yuan Zun responded calmly.

"Not urgent."

"We have been waiting for so many years, and it is not short of time."

Lord Samsara next to him also responded.

"That's right."

"As long as there is direction and hope."

"We can afford to wait no matter how long it takes."

"Even in the future, Zhang Yuhe will still need hundreds of millions of chaotic eras to break through to the Supreme Realm."

"We can still wait."

"yes."

"As long as there is hope, time doesn't matter."

Everyone spoke in agreement, their voices full of excitement and determination.

Although the project still exists for the time being, there are many uncertainties.

But the goal is very clear.

That is.

Zhang Yuhe must be the person who meets the conditions to open the door of creation.

As for what kind of strength we have to wait for Zhang Yuhe.

Only then can we truly summon the Gate of Creation and successfully open this gate to the sky.

So what does it matter?

Even if you want to reach the Supreme Realm.

So what?

They can wait.

Although it is indeed extremely difficult for a monk to advance to the true supreme realm.

It can almost be said that it is more difficult than climbing to the sky.

Otherwise.

in the long years.

In the entire Chaos River, there will not be only nine of them who can achieve the true supreme state.

But that doesn't matter.

No one will worry that Zhang Yuhe will not reach the Supreme Realm.

Because this is basically impossible.

During the period of returning to the Dao League.

They had already investigated Zhang Yuhe's past experience thoroughly.

no doubt.

Zhang Yuhe was the most talented monk they had ever seen.

none of them.

Only billions of years have passed since Zhang Yuhe practiced cultivation.

He has walked the path that other monks took countless years to walk.

And he has cultivated all the way.

Zhang Yuhe seemed to have never encountered any difficulties.

Whether it's a bottleneck or something else.

His path of cultivation has always been very smooth.

It was as if God had favored me.

In everyone's opinion.

If even a person like Zhang Yuhe cannot break through to the Supreme Realm.

That is simply unreasonable.

not to mention.

Aren't they still here?

No matter how difficult it is.

Even pushing.

They can also push Zhang Yuhe up.

In everyone's opinion.

With the combined efforts of everyone, plus Zhang Yuhe's own incredible qualifications.

There will be no problem at all in being promoted to the Supreme Realm in the future.

Of course.

Section 1285

If you don't need to break through to the Supreme Realm, you can directly open the door to creation.

That's even better.

However, there is a vague understanding in everyone's heart.

The great man who created the world of Changhe originally set the conditions for opening the door of creation to be so strict.

Only monks who have reached the three thousand avenues of perfection will have the opportunity to open them.

There must be some reason for this.

Maybe it's because the living conditions outside the Chaos River are extremely harsh.

Those who lack strength cannot stand at all.

So in everyone's opinion.

I want to truly open the door to creation.

I guess it's really necessary to wait until Zhang Yuhe reaches the supreme realm.

Only when you reach the limit of this world.

However, the specific situation will not be known until Zhang Yuhe completes the evolution of the world.

Everyone looked at Chengtiantai in the distance and waited quietly.

...

Time passes slowly.

The vast spiritual energy craze has lasted for nearly ten billion years.

during this long time.

Almost all the divine power of the Chaos River was swept away by Zhang Yuhe.

Except for those closed cosmic worlds, because the origin is stable, the divine power has not been lost.

Other places, including the distant place of Guixu.

All the auras of divine power were drawn to the Dao Alliance station by Zhang Yuhe.

Finally, it is injected into the top of the head, where the world is evolving and perfecting.

The spiritual energy emitted by the Chaos River itself could not keep up with Zhang Yuhe's absorption speed.

The vast river of chaos is about to turn into a place of absolute spirituality.

There is almost not much divine power left.

Countless monks above the God King Realm can only stand at the entrance to their own universe.

Silently watching the magnificent world gradually evolve in the sky.

Because Zhang Yuhe swept away all the divine power of the entire chaotic river.

They can no longer practice.

I can only watch silently.

despite this.

No one will complain.

Long years passed.

Everyone knows it now.

The spiritual energy frenzy sweeping across the entire river this time was caused by the breakthrough of the Galaxy Holy Lord.

Faced with this unprecedented grand occasion, they would have to practice less for a while.

So what does it matter.

Anyway, after reaching the God King Realm.

Cultivation relies more on understanding the rules of the great road.

As for refining the breath of divine power, it is not very important.

When you have enough time in the future, you can do it slowly.

But it is impossible for them to see this vast breakthrough vision like this twice in their lifetime.

No one at this time is still thinking about continuing to practice in seclusion.

Because no one is willing to miss this only grand event in eternity.

Maybe their luck will break out.

From that vast vision, one can sense a hint of the Taoist aura of the Galaxy Holy Lord.

If you miss this opportunity.

It will never be possible to encounter such a grand occasion again in the future.

...

Chapter 896 The world is full of chaos

Zhang Yuhe stood on the rooftop and silently circulated the Scripture of Chaos Gods and Demons.

Tens of billions of years have passed.

At this time, above his head, the world he evolved was already extremely majestic and vast.

Heaven and earth hang high in the sky.

Almost covering one third of the entire Chaos River.

Zhang Yuhe looked up at the sky and looked at the vast world that he had evolved.

His brows couldn't help but frown slightly.

to be honest.

Although the world at this time is already extremely vast and vast.

But Zhang Yuhe was not satisfied.

Still feeling a little weak.

Compared with the long river of chaos.

The world that I have evolved lacks that reassuring heaviness.

By this time, the three thousand gods and demons had already dissipated.

The avenue spreads in all directions, gradually merging into the origin of heaven and earth.

Except at the very beginning.

The world can also expand and expand rapidly.

But in the following billions of years, there was almost no change in the vast world.

Despite the craze of spiritual energy, the influx continues.

But facing such a vast and vast world.

The craze of spiritual energy drawn from the outside world, no matter how fierce it is.

It seems that there is no way for heaven and earth to undergo fundamental changes.

A drop in the bucket.

The divine aura is totally not enough.

Since these tens of billions of years.

Zhang Yuhe swept away almost all the divine power of the entire chaotic river.

But it's still not enough.

Too far off.

Zhang Yuhe had a vague understanding in his heart.

If he wants to truly evolve this world into a perfect state.

Maybe we have to get out of the long river of chaos.

Although the river is vast and boundless.

But whatever.

It is impossible for the same world to evolve here.

This is indeed a bit too forced.

Following the divine power of the Chaos River, it was swept away by Zhang Yuhe.

The frenzy of spiritual energy gathering around him was slowly weakening.

"Hey, it looks like it won't work anymore."

See this situation.

Zhang Yuhe couldn't help but sigh.

he knows.

His evolution of the world can only go so far this time.

Even if he forced it to continue, he probably wouldn't be able to achieve the desired effect.

That being the case.

Might as well take it while it's good.

Taking advantage of the surrounding spiritual energy craze, it has not been completely extinguished.

Hurry up and stabilize the world first.

"That's it."

Section 1286

"First shrink and stabilize the world, and wait until we get out of the Chaos River."

"Consider expansion later."

Thinking of this.

Zhang Yuhe quickly pinched the magic formula.

The vast world above his head began to shrink rapidly.

Originally covering the Chaos River, one-third of the sky.

After a rapid contraction, it soon became only the size of three or five heavenly domains.

The vast world of the Great Dao is less than one percent of the original.

Although the world is shrinking.

But the atmosphere inside has become full of vitality.

In those tiny universes, various unknown weeds and trees.

Begin to grow out of the ground.

Slowly forming, a continuous primeval forest.

Roar...

As the world gradually shrinks, the origin of the Great Dao also slowly becomes stable and heavy.

Dragons roar and tigers roar in the forest.

Various innate creatures are constantly born from the origin.

It's like a newborn primitive world.

There are not just one or two such primitive worlds.

But they are spread all over the world.

Every tiny universe is a primitive continent.

Maybe after several years.

These innate creatures can walk out of the wilderness and go to the outside world.

If Zhang Yuhe is willing to guide them carefully.

He can even easily lead those innate creatures to the Chaos River.

Another billion years passed.

The spiritual energy frenzy completely dissipated.

Zhang Yuhe looked at the sky above his head, the world he evolved.

Finally nodded with satisfaction.

The world contains the wilderness.

It is like the myth of the blue star.

"Well, we have to give this world a nice name."

"Forget it, let's keep it simple and call it the Milky Way."

When the world was first created, the Milky Way.

This is the real Milky Way.

It is a heaven created by Zhang Yuhe.

When he walks out of the Chaos River in the future.

This heaven can continue to expand.

At that time.

It can evolve into a world that is truly comparable to the Chaos River.

Zhang Yuhe stretched out his right hand.

The Milky Way quickly shrank and soon became a mini Milky Way about a foot long.

Looking at the mini Tianhe in his hand, feeling the heavy breath of the origin in the Tianhe.

Zhang Yuhe couldn't help but smile.

He turned his wrist.

The mini Tianhe quickly merged into himself and disappeared in front of everyone.

Unlike other cultivators.

After the Eternal Emperor in the Chaos River evolved the world.

They usually hide their own world in the void interlayer.

And the Eternal Emperor in the Dao League puts his own world.

In the Dao League station.

But Zhang Yuhe didn't do that.

Although at the last time of contraction and stabilization.

The Milky Way has shrunk countless times.

But the vast world is obviously not something that can be hidden in the void interlayer.

Even if it is placed in the Dao League station, it won't work.

Even if the shrunken Milky Way is almost the same size as the entire Dao League station.

If he puts the Milky Way in the Dao League station.

Then all the universes of other people here will have to be squeezed aside.

Zhang Yuhe didn't want to do that.

It was totally unnecessary.

And he didn't need to hide it.

He planned to carry the Galaxy with him all the time in the future.

Unlike other cultivators.

Zhang Yuhe was not afraid of any danger.

This was not only because after breaking through to the Eternal Realm.

His strength was greatly improved again.

He might even be stronger than those Dao League Lords.

The most important thing was.

Zhang Yuhe had nine clones.

In this vast river of heaven and earth.

There was no way that any existence could threaten his safety.

He was really going to be forced into a corner.

The nine clones simultaneously activated the magical power of returning to oneness and integrated into the power of the world.

Then he used the God and Demon Sword.

He probably would even split this chaotic river.

In that case.

What was he afraid of?

He might as well carry the Galaxy with him.

This was even more convenient.

...

Seeing the frenzy recede and the strange phenomenon disappear.

The vast world hanging high above his head was also put away by Zhang Yuhe.

Wu Yiyi ran over quickly.

Looking at Zhang Yuhe's handsome face, she asked with concern in a gentle voice.

"Are you okay?"

"It took you so long to evolve the world."

"I thought something happened."

Zhang Yuhe reached out and pulled Wu Yiyi, smiling and responding.

"Don't worry, it's okay."

"It's just evolving the world, it just took a little longer."

"It's not a big deal."

"I'm sorry to make you worry."

"Well, I'm glad you're okay."

Wu Yiyi slowly leaned towards Zhang Yuhe and responded softly.

Zhang Yuhe merged with the eternal Tao and evolved the world for tens of billions of years.

Various strange phenomena appeared in it.

Wu Yiyi couldn't understand it at all.

But she knew.

As long as Zhang Yuhe was okay, it would be fine.

Section 1287

As for the details, it's not too important.

She just wanted to stay quietly by Zhang Yuhe's side.

Until eternity.

...

Chapter 897 The World of the Early Yuan Dynasty

Zhang Yuhe looked at the Taoist Alliance Lords in the distance. He reached out and patted Wu Yiyi gently.

Then he spoke softly.

"Yiyi, let's go over and say hello to a few seniors first."

"Um."

Wu Yiyi responded softly, with a faint blush on her face.

The two of them jumped into the air from the Chengtian Platform and flew towards Yuan Zun and the others quickly.

Zhang Yuhe flew in front of several Dao Alliance lords and immediately shouted respectfully.

"Disciple Zhang Yuhe, please pay homage to several lords."

Although it was the first time we met.

But it is naturally impossible for Zhang Yuhe to admit his mistake.

After all, hundreds of millions of years have passed since he joined the Dao Alliance.

About the deeds of several lords.

Of course he understood it.

Zhang Yuhe has also seen the portraits of several lords many times.

not to mention.

The nine lords of the Taoist Alliance stand in the sky, their auras as deep as the abyss.

And the respectful expressions of the Dao Alliance disciples in the distance.

Anyone who is not a fool can see it at a glance

These few are the founders of the Dao Alliance and the Lords of the Dao Alliance.

Seeing Zhang Yuhe coming over to say hello humbly and politely.

Satisfied smiles could not help but appear on the faces of several Lords.

Zhang Yuhe is not only extremely talented, but also extremely low-key and humble.

Not at all as arrogant and untamed as other talented people

If you don't pay attention to it deliberately.

It's even easy to ignore his presence.

For such people.

Who wouldn't like it?

not to mention.

They still hope that Zhang Yuhe can find the door of creation and open the passage between heaven and earth.

Feel the abyss-like Taoist aura all over Zhang Yuhe.

Yuan Zun responded with a smile.

"You're welcome, fellow Daoist Galaxy."

"Although your current cultivation level is slightly lower than mine."

"But in terms of real strength, I'm afraid they are far beyond us old antiques."

"It would be better for all of us to be of the same age."

"Otherwise."

"We old guys are a little embarrassed."

The Void Lord next to him quickly responded.

"Yuan Zun is right, it is more appropriate to be of the same generation."

Immediately afterwards.

Lord Void looked at Zhang Yuhe and continued to speak.

"Fellow Daoist Galaxy, let me introduce you."

He pointed to Yuan Zun beside him, and then introduced him to Zhang Yuhe.

"This is Yuan Zun, the founder of our Taoist Alliance."

"He is also the founder of the cultivation civilization in this long river of chaos."

"I've met Yuan Zun."

Zhang Yuhe shouted respectfully towards Yuan Zun again.

to be honest.

For this legendary Yuan Zun.

Zhang Yuhe has long been full of curiosity.

in the records of classics.

Yuan Zun seems to be a cheating existence.

According to the classic records.

Yuan Zun is the first monk to transcend his own universe and enter the river of chaos.

Without any guidance.

Yuan Zun started from scratch and moved forward all the way.

Created this vast cultivation civilization.

In the past, in this chaotic river, there were no concepts such as God King, Eternity, and Supreme.

Yuan Zun relied on his own exploration and constantly broke through the shackles.

Only then gradually formed such a long and chaotic practice system.

That's absolutely true.

Now all the monks in Chaos River have to call Yuan Zun Patriarch.

Because the path everyone is taking now was created by Yuan Zun.

If there is no Yuan Zun.

It's really hard for Zhang Yuhe to imagine.

Will this vast river of chaos still lead to the glorious age of cultivation?

Yuan Zun smiled and nodded.

Lord Void took Zhang Yuhe and introduced them one by one.

"This is the Lord of Reincarnation, this is the Lord of Yin and Yang..."

Let's go through the introduction in a circle.

Everyone seemed to be familiar with each other.

Everyone looked at Zhang Yuhe, as if they were hesitant to speak.

See this situation.

Yuan Zun laughed.

he shouted.

"I know you must have many questions that you want to ask Fellow Taoist Galaxy."

"But this is not the place to talk."

"Everyone go sit with me first, and then we can talk in detail."

"Okay, just listen to Yuan Zun."

A roll of Yuan Zun's sleeve robe.

I saw him making a fist with his right hand, and then punching out fiercely.

Boom...

The solid long river void was blasted out of a huge vortex channel in an instant.

See this situation.

Zhang Yuhe was simply stunned.

He looked very carefully just now.

Yuan Zun did not emit any spatial fluctuations.

He simply relied on brute force to create a teleportation channel directly in the void.

What kind of shocking power is required to achieve this level?

It's simply exaggerated.

Although Zhang Yuhe himself can easily open the transmission channel.

But he is different from Yuan Zun.

He relied on the rules of the void.

Only by using the power of rules to activate the infinite magical power of heaven and earth can the transmission channel be opened.

Section 1288

And Yuan Zun is useless.

Since he has not activated his magical power, he has not mastered the rules of the void.

With that terrifying brute force, he was able to create a teleportation channel in the void.

Such terrifying divine power simply subverted Zhang Yuhe's imagination.

"Yuan Zun is worthy of being the first Supreme Realm in the world."

"This strength is indeed terrifying."

Zhang Yuhe muttered silently to himself.

Originally, he was very confident in his own strength.

Especially now that he has broken through to the eternal realm and evolved into a vast world of heaven and earth.

He felt that before.

His own strength should have completely surpassed it, far beyond the Supreme Realm.

Now it seems.

He was obviously a little arrogant.

The others didn't say anything.

The hand Yuan Zun showed was definitely not weaker than his own.

Even if he activates the magical power of Hunyuan Guiyi, and the clone explodes with all his strength.

Probably nothing more than that.

Yuan Zun blasted away the void with his fist, and turned back to look at everyone.

Then he smiled and said.

"Come on, come and sit at my place."

After saying this.

Yuan Zun waved his sleeves and robe, and then stepped into the whirlpool passage.

It quickly disappeared.

Others quickly followed.

When only Lord Void, Zhang Yuhe, and Wu Yiyi were left in the end.

Lord Void stretched out his right hand and gestured to Zhang Yuhe with a smile.

"Fellow Taoist Galaxy, please come first."

"Okay, let's take the first step."

Zhang Yuhe was not polite either.

He nodded slightly, and then took Wu Yiyi's little hand.

The two of them stepped into the vortex channel together and teleported towards the distance.

As he walked out of the passage.

The vast Dao Yun aura rushed over instantly.

The surrounding spiritual energy rises, like a holy realm.

The mountains in the distance are undulating, as far as the eye can see.

Cranes soar in the mountains and forests, and golden dragons dance.

What a picture of a holy land beyond heaven.

If it weren't for Yuan Zun and the others, they would be nearby.

Zhang Yuhe might think so.

They have walked out of the long river of chaos and come to the outer world.

Zhang Yuhe turned around.

I saw a tall stone tablet towering into the sky.

The stone tablet is engraved with "Early Yuan Dynasty", two vigorous and powerful characters.

"The world of the early Yuan Dynasty."

"What a spirit."

See this situation.

Zhang Yuhe couldn't help but mutter to himself silently.

he knows.

This is the world where Yuan Zun evolved.

After countless years of development.

This world at the beginning of the Yuan Dynasty has been managed by him for a long time, far beyond the naturally formed universe and heaven and earth in the long river of chaos.

Compared with those invincible supreme beings, the holy world formed by integrating the body into the universe.

I don't know how much stronger it is.

This is the true Supreme Realm, the cards it should have.

Very strong.

Look at the world in front of you.

Zhang Yuhe can clearly know how strong Yuan Zun is.

He is worthy of being the first supreme state in the world.

...

Chapter 898 Chaos Spirit Tea

The center of the world in the early Yuan Dynasty.

A vast sky lake floats quietly above the mountains.

The lake is suspended in the sky and the blue waves are rippling.

Cranes soared and golden dragons danced in the mountains below.

Like a miracle.

The Supreme Creator creates heaven and earth.

Continuously integrate the rules of the great road that you have understood into the world

In the world of their own evolution, they can express themselves to their heart's content.

Can be operated in various forms.

Of course like Yuan Zun.

The world has been made so vibrant and colorful.

It is estimated that he is the only one in the entire Chaos River.

Zhang Yuhe believes it.

The worlds evolved by other heroes will certainly not be able to operate like this.

In the center of the Sky Lake.

There is a large pavilion.

Under the leadership of Yuan Zun.

Everyone sat down in the pavilion one after another.

Yuan Zun waved his right hand.

Eleven exquisite teacups slowly flew in front of everyone.

I saw him casually using the magic formula.

A burst of rich fragrance floated in the sky.

Before everyone could react.

Tea dripped from the sky.

Tea condenses in the void.

Tea dripped out of thin air.

In an instant.

The tea cups in front of everyone were filled with translucent tea.

Zhang Yuhe picked up the tea cup.

He took a gentle breath.

The aroma of tea hits my face.

It seems that if you take a breath, you will be intoxicated.

The tea has not been served yet.

Zhang Yuhe instantly felt that strength was surging in his Dantian, and his aura was slowly improving.

at the same time.

His understanding of the rules of the avenue seemed to have improved a lot out of thin air.

Just smelling the fragrance of tea has such a powerful effect.

What kind of tea is this?

How could it be so outrageous?

Section 1289

“Good tea.”

Zhang Yuhe was sincerely amazed.

At his current state, what good things have he not seen?

No matter how precious or good the tea is.

As long as there is this long river of chaos, he can get it.

Originally Zhang Yuhe thought.

He should know everything in this world.

Even if you haven't seen it, you have at least heard of it.

However, like the spiritual tea that Yuan Zun brought out in front of me.

Simply unheard of.

Zhang Yuhe never knew that such a good thing could exist in the world.

Seeing Zhang Yuhe's drunken appearance.

The Void Lord next to him said with a smile.

"This is the only chaos tea in the world. Of course it is good tea."

"In the entire river, only Yuan Zun cultivated this tea tree."

"Speaking of which, we also relied on your blessing."

"We have known Yuan Zun for many years, and this is only the second time that we have drank his Chaos Spirit Tea."

Lord Void has not finished speaking yet.

Lord Samsara next to him also complained.

"Hey, Yuan Zun is good at everything, but he's a little too stingy."

"He was the first person to enter the long river of chaos."

"All the good things in the entire river were fished out by him alone."

"When we people enter the long river of chaos, not even a hair will be left."

"You said Yuan Zun got so many good things."

"I'm actually reluctant to take it out."

"We even wanted to have a cup of tea, but we didn't have a chance to drink it."

"Yeah yeah."

"Yuan Zun, you have something good to share."

"Don't hide it all the time."

"This thing doesn't give birth to babies."

"There's no use keeping it."

Everyone looked at Yuan Zun next to him and started making complaints.

There was a joyous atmosphere at the scene.

Zhang Yuhe and Wu Yiyi couldn't help but feel a little dazed.

This posture.

He doesn't look like a high-ranking Dao Alliance Lord at all.

It seems like a common citizen.

Seeing everyone making noises and making complaints, Yuan Zun couldn't help but smile bitterly.

"You people are so dissatisfied."

"Did you know that it takes every epoch for this Chaos Tea Tree to grow nine tea leaves?"

"I have to wait for several epochs to have a drink myself."

"How can you still have a share?"

"This time it's to entertain fellow Taoist fellows Galaxy."

"I cleared out all the inventory."

"Next time I want to drink it, I don't know when it will be."

"Haha, Yuan Zun, do you think we will believe it?"

"Wait until there is a chance later."

"We must dig out all the good things you have hidden."

"Yes."

"We can't do it, so let Fellow Taoist Galaxy do it."

"Even if Yuan Zun is reluctant to give up."

"It will always be delayed, fellow Taoist practitioner Yinhe, hehe."

"Haha, reincarnation is right."

"Yuanzun, if you have any other good stuff, please take it out quickly so that everyone can open their eyes."

"Fellow Daoist Galaxy has just broken through to become the Eternal Emperor, and is in need of some heavenly materials and earthly treasures to speed up and stabilize his cultivation."

Faced with everyone's continuous hesitation.

Yuan Zun was not angry either.

He picked up the teacup, smiled at Zhang Yuhe and said.

"Fellow Taoist Galaxy, how would you like to taste my Chaos Tea?"

"This is the most precious spiritual root of heaven and earth that I found in the long river of chaos."

"I'm not bragging."

"Just drink a cup of Chaos Tea."

"Not only will it help you stabilize your realm in an instant, it will even allow you to break through a small realm on the spot."

"It probably won't be a big problem."

"besides."

"Chaos Spirit Tea also has incredible effects on stabilizing the rules of the avenue and broadening the origin of the world."

"Oh, is it so magical?"

Zhang Yuhe heard this.

He immediately picked up the tea cup and took a small sip.

The tea enters the stomach and the mouth is full of fragrance.

Divine power surged in the dantian, and the aura increased rapidly.

He felt as if his strength had improved a lot in an instant.

"It's really good tea."

Zhang Yuhe couldn't help but be amazed.

He has never seen it.

What good thing could have such an immediate effect?

If only a mortal could take a sip.

I'm afraid they all became gods immediately.

It's really incredible.

Wu Yiyi looked at Zhang Yuhe next to her and asked in a low voice.

"Can I drink too?"

Facing the Dao Alliance Lords around them.

Wu Yiyi felt a little restrained and felt the fragrance emanating from the tea cup in front of her.

Although I long for it in my heart.

But she didn't know whether she should drink it.

After all, this thing sounds like it should be extremely precious.

Even the few lords next to me had only drank once before.

Wouldn't it be too rash if she drank it all in one gulp?

Zhang Yuhe smiled slightly.

He responded in a soft voice.

"Drink, this is good stuff."

"Don't waste Senior Yuan Zun's kindness."

"Maybe after drinking this cup of spiritual tea, you can break through the eternal bottleneck and successfully merge directly."

Just at this time.

Yuan Zun also smiled and said.

"No need to be polite, Fairy Yitian, please try the taste of this spiritual tea."

"Thank you, Senior Yuan Zun."

Wu Yiyi smiled sweetly.

She picked up the teacup and took a sip.

A powerful aura instantly rose from her body.

Section 1290

Wu Yiyi stood up suddenly and was stunned.

She looked at Zhang Yuhe and murmured to herself.

"It seems like I'm really going to break through."

"You will be able to join the Tao for eternity immediately."

...

Chapter 899 Only those who can open the door of creation

Hearing Wu Yiyi's words.

Zhang Yuhe was stunned at first, and then turned into ecstasy.

He looked at Wu Yiyi and asked loudly and excitedly.

"Yiyi, do you feel the bottleneck is loosening?"

"Is it really possible to join the Tao for eternity immediately?"

"Um."

Wu Yiyi nodded slightly, and then responded happily.

"I have clearly felt that the eternal bottleneck has been resolved."

"As long as the time is right, you can be ready to join the Tao at any time."

"Okay, okay, very good."

After repeated confirmation.

Zhang Yuhe was extremely excited.

The eternal bottleneck is almost an insurmountable chasm for the God King monks.

In the galaxy holy world.

There are many god king monks, as many as millions.

Even at the peak of the Nine-step God King, there are tens of thousands or even hundreds of thousands of people.

But there are only about twenty eternal emperors in the entire holy world.

This is the result of countless years of accumulation.

To know.

Once the God King monk falls, he is truly dead.

And those eternal emperors have already evolved into the world.

Even if something unexpected happens.

They can also be resurrected in their own world.

Almost immortal.

In the past long years, due to various turmoil and accidents.

The god king monks in the Galaxy Holy Realm died one after another.

But among the twenty-odd eternal emperors, no one has ever truly died.

They have been together since eternity.

He has lived until now.

This aspect illustrates the Eternal Emperor's super life-saving ability.

At the same time, it also reflects from the side how difficult it is to advance to the eternal realm.

Endless years passed.

The huge galaxy holy world.

The disappearance of batches of god king monks only created more than twenty eternal emperors.

For normal god king monks.

The biggest difficulty for them to unite is to resolve the eternal bottleneck.

As long as the bottleneck is opened.

Other problems are not difficult.

Whether it's a boundary stone or a site needed for a joint road.

It requires consuming a large amount of divine power and so on.

These are solvable problems.

Only the eternal bottleneck is the real obstacle that the God King monks need to face.

Just remove this obstacle.

There is a smooth road ahead.

Now that Wu Yiyi has crossed this threshold, how can Zhang Yuhe not be excited.

He pulled Wu Yiyi, looked at Yuan Zun beside him, and said gratefully.

"Thank you, senior."

"If it weren't for Senior's Chaos Spirit Tea."

"Yiyi wants to resolve the eternal bottleneck, but she doesn't even know how long it will take."

Yuan Zun responded with a smile.

"You're welcome, fellow Daoist Galaxy."

"This is also Fairy Yitian's own opportunity."

"I believe."

"Even without the Chaos Spirit Tea, Fairy Yitian would not be trapped by the eternal bottleneck for too long."

Speaking of which.

Yuan Zun paused for a while.

He picked up the teacup and looked at Wu Yiyi, then continued to smile.

"Fairy Yitian, don't be in a hurry to join the Tao."

"This Chaos Spirit Tea has endless magical uses."

"In addition to helping to break bottlenecks."

"Its biggest function is to make it easier for monks to understand the rules of the great road."

"First, taste the tea slowly and try to understand the different rules of the avenue."

"The more Dao the God King monks understand before joining the Dao, the brighter their future will be."

"If you can take the opportunity to realize a supreme rule."

"Then it will be easy to surpass us old antiques in the future."

Hear this.

Zhang Yuhe quickly said to Wu Yiyi.

"Yiyi, Senior Yuan Zun is right."

"Don't rush to join the Tao yet, try to understand more of the rules of the Tao."

"Wait until things here are over."

"You will enter the Milky Way."

"There the heaven and the earth were first opened, and the rules of the great road were clearly manifested."

"It's easier for people to perceive success."

"Well, I listen to you."

Seeing Zhang Yuhe caring so much about him.

Wu Yiyi couldn't help but have a sweet smile on her face.

She held Zhang Yuhe's right hand and responded softly.

Just at this time.

Lord Void picked up the teacup and shouted loudly to everyone.

"Fairy Yitian successfully resolved the bottleneck. This is a great event worth celebrating."

"Come on, let's have a nice drink with tea instead of wine."

"Haha, Void is right."

"Let's all come together to congratulate Fairy Yitian."

Everyone picked up their teacups and each took a small sip.

Chaos Spirit Tea is not an ordinary thing.

Even if they are the lords of the Taoist Alliance, they would not dare to take a big sip of cattle.

This thing not only has a towering effect on low-level monks.

Even these supreme monks have already reached the limit of heaven and earth.

Drinking a sip of Chaos Spirit Tea will also bring you various mysterious insights.

If you're lucky.

Maybe we can take the opportunity to understand a few more rules of the great road.

It's rare that Yuan Zun takes out such precious spiritual tea.

They won't waste it.
