Section 129

"Sect Master, follow me."

"My avatar has grabbed a teleportation array and can teleport directly to the vicinity of the Demon God's Palace."

After saying that, Zhang Yuhe turned into a stream of light and quickly flew away into the distance.

Feng Xiaotian followed closely and hurriedly followed.

Soon they came to another city.

This city is not big.

As for the demons in the city, they had already been killed by the incarnation.

They quickly arrived at the center of the city.

Only a black teleportation formation was seen, which was still in good condition.

An avatar is guarding the teleportation array.

They quickly stepped into the teleportation array.

Standing on the teleportation array, Feng Xiaotian asked with a slight frown.

"Senior brother, the demon clan's teleportation array has completely different array patterns from Yu Fantian's. We can't activate it at all."

Hearing this, Zhang Yuhe said with a smile.

"It doesn't matter. I have seen the jade slips related to the demon clan. It should be able to activate it."

He killed so many demons and Mahayana, and captured countless jade slips of various magical techniques.

There are also many jade slips about the demon formations.

Especially in Gu Xiao's storage ring, he found the complete inheritance about the demon teleportation array.

He had already read the above content on the way here.

Not to mention activating the teleportation array.

As long as there are enough materials, a complete teleportation array can even be arranged according to the demon clan's ideas.

For him, it's not a problem.

Standing on the teleportation array, Zhang Yuhe activated the magic formula.

A dazzling black beam of light enveloped them.

Soon they discovered that they had appeared in another demon city.

"No, Yu Fantian's monks are coming to kill us."

"Why are they able to teleport here? Didn't they ask you to close all the teleportation arrays?"

"What's the point of talking about this now? Start the defensive formation quickly."

...

The demon monks in the city saw Zhang Yuhe and two people suddenly appearing on the teleportation array.

They couldn't help but be surprised.

They clearly closed all the teleportation arrays, and most of the teleportation arrays had been completely destroyed.

Why are Zhang Yuhe and Zhang Yuhe still able to teleport here?

However, it's too late now.

Zhang Yuhe waved his right hand, and nine flying swords quickly fell in all directions.

As the magic formula was pinched, boundless sword energy swept across.

The buildings in the city were instantly razed to the ground by the sharp sword energy.

As for the indigenous demons, they had already turned into ashes.

Feng Xiaotian rose into the sky, and he was about to take action, but found that there was no target at all.

Zhang Yuhe moved too fast.

The entire city of demons was wiped out in an instant, without any need for him to take action.

He opened his mouth, wanting to say something.

However, after thinking about it for a while, I gave up again.

"Let's go to the Demon Palace."

Through previously captured maps.

Zhang Yuhe knew that the Demon God Palace was only tens of thousands of miles away from here.

They quickly took off into the air and flew towards the Demon Palace.

After a while.

A majestic mountain stretching for hundreds of thousands of miles appeared in front of them.

On the top of the giant mountain, stands an extremely large black palace.

The palace spans the entire huge mountain and covers an exaggerated area.

It is even much larger than an ordinary city.

Zhang Yuhe looked up at the huge palace on the top of the mountain and said to himself.

"Is this the Demon God's Palace?"

...

Chapter 120 Asking for help from the upper world

Seeing Zhang Yuhe and Feng Xiaotian arriving.

The Demon Palace was completely in chaos.

Although they have already activated the defensive formation of Demon God Palace.

But everyone knows that there is no Mahayana realm in the Demon God Palace.

No matter how strong the defensive formation is, it cannot stop Zhang Yuhe and Feng Xiaotian, the two Mahayana monks.

Sooner or later it will be breached.

Feng Xiaotian looked at the Demon Palace on the top of the mountain, shrouded in a light blue light curtain.

His brows couldn't help but frown slightly.

I saw him wave his right hand.

A golden seal flew out.

The seal quickly grew in size and slammed down against the light curtain above the palace.

Boom...

The golden seal hit the light screen hard, making a loud noise.

The blue light curtain moved slightly for a few times, then returned to normal.

Despite this, the demon monks guarding the palace did not have any smiles on their faces.

They know this is just the beginning.

If Feng Xiaotian is allowed to attack continuously, no matter how strong the Demon God Palace's defensive formation is.

It's just a matter of holding on for a little longer.

Feng Xiaotian looked at the blue light curtain above the Demon Palace and couldn't help but feel a little worried.

Through the previous attempt.

He had a general understanding of the defensive formations of the Demon Palace.

In his opinion, the defense of Demon God Palace is not much worse than that of Demon Suppression City.

The only difference is that there is no Mahayana realm in the Demon Palace.

Every attack he makes can land firmly on the defensive light screen.

Don't worry about being intercepted.

Despite this, he alone wanted to completely break this defensive light curtain.

The attacks must last for at least one year.

And this still doesn't count the recovery ability of the formation itself.

In fact, it may take longer.

Think of this.

He turned to Zhang Yuhe and said.

"Senior brother, the defense of the Demon Palace is too strong. It will take a lot of time to break through it. How about we go to other places first."

"When Yu Fantian's demon-suppressing army arrives in the future, we can defeat it together."

"No need to bother, let me do it."

Zhang Yuhe rejected Feng Xiaotian's suggestion.

How long will it take for Yu Fantian's demon-suppressing army to arrive?

There are still so many demons in Yu Fantian, and they will wait until the demon-suppressing army has completely wiped out the demons.

I'm afraid it will take decades.

He was not in the mood and kept waiting like this.

As for going to other places first?

Zhang Yuhe was completely uninterested.

The richest place in the entire demon world is undoubtedly the Demon Palace.

As long as the Demon God's Palace is breached, the resources collected will definitely be enough to build a high-grade thunder-absorbing pillar.
