

TOP TALENT, GAME UPGRADE

Section 13

She couldn't earn this amount of spiritual stones, so she could only shake her head.

"snort."

Wu Wei had a gloomy face, flicked his sleeves, and led Liu Yihe out of Fengxin Tower.

He couldn't afford to offend Fengxin Tower. The Wu family was considered a powerful force in Feiyun City, but in Yunzhong Fucheng, there were many forces stronger than the Wu family.

As a force in Yunzhong City, Fengxin Tower is even more mysterious and powerful, and they cannot afford to offend it.

Five thousand spirit stones were thrown away, so I could only accept them.

Chapter 12 Tao Sheng Sect

Zhang Yuhe quickly passed through Zhongzhou City and rushed towards the south of the city.

He didn't know that a huge crisis was chasing behind him, but because he ran too fast, the crisis disappeared.

Different choices will lead to different consequences.

If he had run a little slower just now, he would definitely be caught up.

Things in the world are so wonderful.

...

Daosheng Sect is located 60,000 miles south of Zhongzhou City, and there is no direct teleportation array.

To be precise, there is no external teleportation array. If the monks want to go to Dao Sheng Sect, they can only fly there by themselves.

With Zhang Yuhe's current strength, even if he flew at full strength, it would probably take several days.

After running out of Zhongzhou City, Zhang Yuhe released his flying sword and walked quickly on the sword.

Occasionally, a stream of light passed by him quickly on the road, maybe it was a Dao Sheng Sect disciple returning from an outing.

However, he did not come forward to strike up a conversation, but kept his head buried in flying.

Seven days later, a huge fairy mountain appeared in front of him.

The fairy mountains stretch endlessly, and the peaks reach straight into the sky. Some of the towers and pavilions on the peaks are looming in the clouds and mist, giving it the impression of a holy land of fairy families.

"Is this the Dao Sheng Sect?"

Seeing the fairy mountain in front of him, Zhang Yuhe couldn't help but let out a long sigh of relief.

To be honest, with his current strength during the Qi training period, flying for seven consecutive days was really tiring.

Following the directions on the map, Zhang Yuhe quickly arrived at the reception desk.

Seeing someone arriving, a pretty girl in purple walked out of the reception area and asked him politely.

"I am Zhao Qingqing, an outer disciple of Dao Sheng Sect. Please tell me what business Brother Dao brings here."

The purple-clothed girl was not obviously arrogant and snubbed just because Zhang Yuhe was weak.

The reception area is often visited by outsiders, most of whom are visiting friends or visiting relatives who are practicing in Dao Sheng Sect.

The girl in purple clothes didn't know the origin of Zhang Yuhe. What if he was the descendant of some old monster in the sect.

She has worked at the reception desk for many years and has long developed a natural and friendly attitude.

No matter who comes, no one can be offended.

Zhang Yuhe didn't waste any time, took out the token and asked Zhao Qingqing politely.

"I want to join the Dao Sheng Sect. Do you think this will work?"

After saying that, he handed over the token in his hand.

Hearing this, Zhao Qingqing couldn't help but be stunned.

Dao Sheng Sect rarely recruits disciples from outside. She had only heard about fools like Zhang Yuhe who came directly to join the sect, but this was the first time she saw them.

However, Zhang Yuhe took out an unknown token. Zhao Qingqing didn't recognize it, so she couldn't help but ask curiously.

"What is this?"

"A token. With this token, you can join the Dao Sheng Sect."

Seeing Zhao Qingqing's expression, Zhang Yuhe replied slightly uneasily.

Could it be that the information in the token is deceptive? He thought that as long as he came with the token, he could directly join the Dao Sheng Sect.

Now it seems that is not the case. Zhao Qingqing has obviously heard about the tokens.

Zhao Qingqing frowned slightly, she had indeed never heard of the token thing.

However, she has not been in the sect for a long time, so it is possible that there are some secrets that she does not know about.

Zhao Qingqing took the token, input spiritual energy and checked it carefully, with a surprised expression on her face.

This token does not seem to be fake. There is indeed information in the token that can be used to join the Daosheng Sect.

At this time, she was a little hesitant. She couldn't dare to make an independent decision on this kind of thing.

After thinking for a while, she took out a letter and sent it out, and then said politely to Zhang Yuhe.

"Brother Taoist, please wait a moment. I have sent a message to the sect and someone will come to deal with it soon."

After finishing speaking, Zhang Yuhe was welcomed into the reception hall and served tea.

The two sat opposite each other, Zhang Yuhe was holding a tea cup, feeling slightly nervous.

"I hope nothing unexpected happens."

Suddenly, Zhao Qingqing, who was sitting in front of him, quickly stood up and shouted respectfully behind him.

"Disciple Zhao Qingqing has met Elder Lu."

Zhang Yuhe immediately turned around and saw an old man with sword-shaped eyebrows and kind eyes, dressed in white robes, appearing behind him at some point.

He also stood up quickly and shouted respectfully.

"I've met senior."

The old man in white robe waved, then took the token and looked at it carefully.

After a long time, the old man asked Zhang Yuhe.

"Is this token yours?"

"Yes."

Zhang Yuhe quickly replied.

"Do you know the origin of the token?"

Zhang Yuhe shook his head blankly.

What the hell, this was exploded by him when he was fighting monsters. Who knows the origin? Can it be said that it was exploded by a tiger monster?

He just hopes that the information in the token is true so that he can join the Dao Sheng Sect.

But judging from the old man's expression, the token must be real.

After all, it was produced by the system, so it was impossible to fool him.

Then, the old man spoke leisurely.

"About 100,000 years ago, demons invaded Yu Fantian and caused a catastrophe. In the war to resist the demons, countless heroes died on the battlefield."

"In order to take care of the descendants of heroes and to alert the world to the harm of demons, Daosheng Sect made this token as a token."

"The ancestors left a legacy that anyone holding the token can join Daosheng Sect as an inner disciple and can choose any technique to learn in the Sutra Building."

"A total of 100 tokens were made. After 100,000 years, the other tokens have long returned. This is the last one."

Hearing this, Zhang Yuhe couldn't help but breathe a sigh of relief.

It's okay if he can really join Daosheng Sect. As for the origin of the token, it doesn't matter to him.

Demons and such have nothing to do with him. He is a Blue Star, not a native of Yufantian.

Even if there is another demon invasion, it's okay.

They are players. They can be heroes again the next day after death, and they can also log off.

For Zhang Yuhe, there is nothing important in Yufantian except cultivation.

The purple-clothed girl next to him couldn't help but show envy.

There are 100,000 disciples in Daosheng Sect, but most of them are just outer disciples.

It is not so easy to enter the inner sect, and there are huge threshold requirements.

For her, every inner sect disciple is a big shot.

The Daosheng Sect gathers talents from all over the world, but the number of inner sect disciples has always been only 3,000.

This shows that.

Zhang Yuhe, a small cultivator in the Qi training period, can actually enter the inner sect to practice directly, and can also choose any technique in the Sutra Building.

What is the Sutra Building?

The Daosheng Sect's techniques and magical powers are placed in the Book Building and the Sutra Building respectively.

The techniques and magical powers below the Earth Level are placed in the Book Building and are open to all disciples. As long as the merits are sufficient, they can be exchanged in the Book Building.

The Sutra Building collects techniques and magical powers above the Heaven Level, and only inner sect disciples can enter.

Even for inner sect disciples, it is not so easy to enter the Sutra Building to exchange techniques. Some inner sect disciples may not be able to exchange for a technique and magical power after accumulating hundreds of years of merits.

She was a little jealous of this treatment.

The white-robed old man on the side saw the expressions of the two.

But he didn't care.

It is hard to say what the chance is.

In his opinion, this token is a great opportunity for Zhang Yuhe.

With this token, he can embark on the road to heaven.

As for how far he can go, it depends on his luck.
