

## Top talent 1301

### Section 1301

From now on, the sky is high and birds can fly freely, and the sea is wide and fish can jump freely.

Hongmengyuan is the new world for them to truly pursue the great way.

As for this long river of chaos.

It is not worth lingering at all.

Compared with the excitement of the other masters.

Zhang Yuhe still looked calm.

He was not too excited.

This is not to say.

Zhang Yuhe felt that what Qingyangzi said just now was all lies.

No.

Maybe the world outside is really as Qingyangzi said.

It is so vast and boundless, and it is a real holy place for cultivation.

But Zhang Yuhe believes.

Things will never be as simple as they seem.

Can they really get out so easily?

Is there any danger after going out?

And.

Why has Qingyangzi never appeared in these long years?

Is he dead or alive now?

To be precise.

Can Qingyangzi be resurrected again?

Because Zhang Yuhe has seen it a long time ago.

The Qingyangzi in front of him was just a wisp of the original breath in the world.

He was not the real person.

He even had some doubts.

Could Qingyangzi have died long ago?

Only a trace of the origin of the Great Dao remained, hidden in the Gate of Creation?

Zhang Yuhe was filled with countless doubts.

But there was one thing he was sure of.

That was.

It was definitely not safe outside.

At least there must be some problems in the area outside the Chaos River.

Otherwise.

According to Qingyangzi.

He was a disciple of the saint.

Even if he was seriously injured and dying, he should be able to move the Changhe world to the holy land for help.

Even if he was seriously injured and couldn't even control his own world.

At least he could send a distress message to the holy land.

Wait for someone to come and save him.

But there was no one.

This is very telling.

Maybe outside the Chaos River, there is a Jedi that no one has ever set foot on.

Maybe even the saints can't get in.

So much so.

Qingyangzi couldn't even send out a distress message.

It only took a moment.

Zhang Yuhe had a rough idea in his mind.

So facing the big picture painted by Qingyangzi, he was not moved at all.

Qingyangzi smiled.

He looked at Yuanzun and others who were excited in the distance, and then looked at Zhang Yuhe who was calm beside him.

"Hey..."

After a long while.

Qingyangzi sighed softly, and then slowly spoke.

"You want to go out, of course you can."

"But the Qingyang Realm is in the depths of the Destruction Abyss at this time."

"There are powerful destruction beasts all around."

"If I hadn't turned the origin of the Great Dao into a portal and closed the entrance and exit of the Qingyang Realm."

"I'm afraid that the boundless destruction beasts would have destroyed this world long ago."

At this point.

Qingyangzi paused for a while.

He turned his head to look at Yuanzun and others, and then continued to speak.

"With your strength, going out now is just suicide."

Hearing Qingyangzi's words.

Everyone frowned.

Is the Destruction Beast so terrible?

Can they still stop it, with so many supreme powers?

Impossible.

You know.

Every one hundred trillion years, a round of era ends.

A large number of Destruction Beasts poured into the Chaos River.

But they didn't feel it.

How strong are these Destruction Beasts?

At least with the strength of these people, they can deal with it.

Is there anything special about the Destruction Beasts outside the Chaos River?

Yuan Zun looked at Qing Yangzi and asked with some doubts.

"Senior, you said that there is a Destruction Abyss outside, and there are many Destruction Beasts there?"

"Are those Destruction Beasts very strong?"

"So strong that we can't even save our lives?"

Yuan Zun really couldn't believe it.

Over the long years.

The number of Destruction Beasts he has killed is already countless.

I didn't think it was that strong.

With the strength of the Dao League Lords, they can destroy a large area with a wave of their hands.

Such a thing can threaten their lives?

Why is Yuan Zun a little unwilling to believe it?

Qing Yangzi is not fooling them, right?

Looking at everyone's suspicious eyes.

Qing Yangzi smiled bitterly.

He took a deep breath, and then asked lightly.

"Do you know what realm is above the Supreme?"

"I don't know."

Everyone shook their heads at the same time.

"Please teach me, senior."

To be honest.

Everyone is still very interested in this question.

To be precise.

Everyone is very interested in all the unknown and new knowledge.

After all, since the beginning of civilization.

The Chaos River has never had contact with the outside world.

The cultivation system in the river is evolved by the cultivators following the way of heaven and exploring on their own.

Section 1302

Compared with the complete cultivation system in the outside world, there will probably be some deviations.

Qing Yangzi looked at everyone and said with a smile.

"Hongmeng Yuantian is vast and boundless, and countless different civilizations coexist in the world."

"However, as far as the cultivation system is concerned, although the names of various civilizations may be different."

"But the overall connotation is basically the same."

"In Hongmeng Yuantian, the supreme realm is called Yin-Yang Realm."

"Reversing Yin and Yang and creating all things is the Yin-Yang Realm."

"If the supreme cultivator wants to reach the Yin-Yang Realm, he must first comprehend all the rules of the great way to perfection."

"This is a huge threshold."

"Even if Hongmeng Yuantian is vast and boundless, the number of Yin-Yang Realm cultivators is not large overall."

Speaking of this.

Qing Yangzi turned his head to look at Zhang Yuhe, and he continued with emotion.

"Friend Zhang has comprehended the rules of the Great Dao to perfection in advance."

"It can be said that he has reserved a ticket to the Yin-Yang Realm in advance."

"As long as you enter the Hongmeng Yuantian, there will be no big problem in advancing to the Yin-Yang Realm in the future."

"I have practiced for countless years and barely entered the Yin-Yang Realm."

"I am really envious when I say this."

Speaking of this.

Qing Yangzi pondered for a while, and then continued to speak.

"Above Yin-Yang is the saint."

"To be honest, I don't know the description of the saint realm."

"If you must describe the saint."

"Then there are only four words."

"Omnipotent."

"The saint is omnipotent."

...

## Chapter 907 The Origin of the Destruction of the Absolute Abyss

Listening to Qing Yangzi's narration, everyone's face lit up.

There is the Yin-Yang Realm above the Supreme, and there is the omnipotent saint.

This shows.

There is still a way forward for the Great Dao.

They have been trapped in the Changhe Heaven and Earth for countless years.

Now they finally see the way forward.

Although this way forward is not so easy to cross.

But at least there is a way there.

And according to Qing Yangzi.

Although there are not too many Yin Yang cultivators in Hongmeng Yuantian.

But there are some.

Even the omnipotent saints, there are as many as thirty-three.

Everyone can cultivate to the Supreme Realm in the Chaos River.

Everyone is naturally very confident in their own talents.

In their opinion.

Since there are Yin Yang Realm and saints in Hongmeng Yuantian.

Then in the distant future.

They can also.

But there is a prerequisite.

That is.

They have to walk out of the Chaos River and enter Hongmeng Yuantian.

Only there.

Can they carry more powerful power and higher realms.

Only then can they make progress.

Zhang Yuhe looked at the illusory figure of Qing Yangzi in the distance.

He murmured to himself.

"It turns out that above the Supreme, there are Yin Yang and Saint realms."

"Sure enough, the Great Dao is boundless and very far away."

Qing Yangzi has practiced for countless years, but he is still only in the Yin Yang realm.

He has not reached the end of the Great Dao.

But even so.

He can create such a vast world as the Chaos River.

Zhang Yuhe really finds it hard to imagine.

How powerful should those saints at the end of the avenue be.

Could they really be omnipotent?

"No."

"Qing Yangzi was already in the Yin-Yang realm before, and he was also a disciple of the saint."

"His strength must be strong."

"But how could he be trapped in the Destruction Abyss?"

"He has to rely on sealing the world to survive."

"He doesn't even dare to resurrect."

"How powerful are those destruction beasts outside?"

"Can they force a Yin-Yang realm to this point?"

"And why did Qing Yangzi come to the Absolute Abyss?"

Zhang Yuhe always felt that.

There must be some story behind this.

Thinking of this.

Zhang Yuhe looked at Qing Yangzi in the distance and asked respectfully.

"Senior."

"I wonder what kind of dangerous place is the Destruction Abyss you just mentioned?"

"What is the strength of the Destruction Monster there?"

"Compared with the Destruction Monsters that invaded Qingyang Realm at the end of the era, are they much stronger?"

Qingyangzi glanced at Zhang Yuhe.

He pondered for a while, and then slowly spoke.

"Hongmeng Origin Heaven has no beginning and no boundaries. In addition to those places where cultivators often move around."

"There are countless dangerous places that are rarely visited by people."

"Destruction Abyss is one of the most famous dangerous places."

Speaking of this.

Qingyangzi looked up into the distance, as if he had recalled a long-lost memory.

After a long while.

He looked back at everyone and continued to speak.

"Long ago."

"Different holy places in Hongmeng Yuantian, as well as different races and civilizations, fought for long-lasting battles to compete for cultivation resources."

"Until one day."

"Everyone suddenly discovered."

"In the vast Hongmeng, it seems that there is suddenly another powerful race."

"This race reproduces very quickly, and everyone is fearless and full of destructive aura."

"It seems that they were born to destroy Hongmeng."

"Everyone calls this race the Destruction Beast."

"While the monks were fighting each other, the Destruction Beast quickly swept through Hongmeng."

"Countless civilizations and races were swept into rubble by the Destruction Beast."

"It was not until this time that everyone suddenly woke up."

Section 1303

"If it continues unchecked."

"I'm afraid it won't be long before the entire Hongmeng Yuantian will be completely destroyed by these monsters."

"Even Hongmeng Avenue will be eroded by the aura of destruction until the avenue finally melts."

"If there is no Hongmeng Avenue, then the monks will have nothing to support."

"It will also gradually die out."

"For this reason, the major holy places finally let go of their grudges."

"At the call of the saints."

"The different races and civilizations in Hongmeng have all joined forces, organized a huge army of monks, and started to clean up the destroying monsters as planned."

"Although the Destruction Monsters are numerous and powerful."

"But under the leadership of the saints."

"A large number of destruction monsters were wiped out by the army of monks."

"The remaining monsters of destruction were driven away by the monks and finally reached the abyss of destruction."

"The huge army of monks entered the abyss."

"Thirty-three saints also took action at the same time."

"I vow to clean up all the destroying monsters and restore the clear sky to Hongmeng."

"It is indeed no joke that saints are omnipotent."

"Every time the saint takes action, it seems like the heaven and earth are overturned."

"Under the leadership of the saint, a large number of destruction monsters were quickly eliminated."

"But everyone soon found out."

"Those destructive monsters deep in the abyss seem to be inexhaustible."

"The monks killed a group, and soon more destroying monsters came out."

"And the Destruction Beast that appears later is getting stronger and stronger."

"Although in the end, no holy realm destructive monster appeared."

"But the destructive monsters in the semi-sacred realm are constantly emerging."

"The war lasted for tens of thousands of years."

"Everyone feels something is getting wrong."

"If we continue to kill, I'm afraid a holy realm of destruction monsters will appear."

"If that's the case."

"That would be a big problem."

"The reason why the monk army can always have the upper hand."

"That's because there are thirty-three saints here."

"If the monster is destroyed, a holy realm of the same level will also appear."

"Then with the unparalleled reproduction speed."

"How can a monk still be able to block it?"

"Faced with this weird predicament."

"The saints finally had to order a retreat."

"However, after the monk army exited the Jue Abyss."

"Everyone was surprised to find out."

"The number of destroying monsters inside the Jue Abyss seems to be gradually decreasing."

"Later, the saints, after repeated derivation and discussion, finally came to a conclusion."

"The birth of the Destruction Monster may be a stress phenomenon in Hongmeng World."

"The monks have been fighting among themselves for countless years, causing a lot of resentment to accumulate in all directions."

"These grievances evolved through the way of heaven, and finally formed the Destruction Monster, this extremely weird and terrifying race."

"That's exactly what I feel."

"The saints began to strictly control conflicts between all parties."

"Especially between the major holy places, there have never been any major battles since then."

"And the destroying monster in the abyss has not come out again."

"Of course."

"After the war, the destroying monsters in the abyss have not completely dissipated."

"There are still a large number of destruction monsters surviving in it."

"From then on, the Destruction Abyss became one of the most famous dangerous places in Hongmeng Yuantian."

"No one under the saint dares to set foot in it easily."

"Those destructive monsters in the semi-sacred realm are not that easy to deal with."

"Who comes and who dies."

...

Chapter 908 Hope it's not too late

Qingyangzi sighed endlessly.

It seems to be narrating a long and magnificent history.

Listen to Qingyangzi's narration.

A vast historical picture gradually unfolded in everyone's minds.

Everyone finally knows now.

It turns out that those destroying monsters were not born out of thin air.

But because of Hongmeng Yuantian, there are constant battles between monks.

A large amount of resentment was created, and finally the Destruction Monsters, a strange group of people, were formed.

The reincarnation of heaven is endless and has its own principles.

If the monks themselves don't cherish it.

No matter how vast and endless the world is, it may be destroyed by their own hands.

Fortunately, the saints finally woke up and controlled the fighting in Hongmeng.

A terrible destruction will eventually disappear into nothingness.

Zhang Yuhe even thought about it.

If it weren't for the saints making the right decision at the last moment.

Maybe Hongmeng Yuantian outside is probably gone long ago.

If even Hongmeng Yuantian did not exist, then the river of chaos they would live in would exist.

Of course it's gone a long time ago.

Although the Chaos River was created by Qing Yangzi.

But this world, after all, also exists dependent on Hongmeng.

If even Hongmeng is gone, the long river of chaos will naturally be impossible to talk about.

"wrong."

"Qingyangzi said so much."

"But there is one most critical issue."

"He didn't say that."

Zhang Yuhe quickly remembered.

When Qingyangzi was narrating.

It didn't say how he got trapped in the Abyss of Destruction.

Logically speaking.

Qingyangzi was a disciple of the saint, and he also participated in the war that year.

obviously.

He must be very familiar with the Destruction of Absolute Abyss.

He knows that it is very dangerous.

Below the Saint.

Once you enter the Absolute Abyss, you will almost certainly die.

In this case.

How could he be trapped here.

Why did he come to destroy the Absolute Abyss?

Was he chased by someone and finally forced to escape?

This is impossible.

Qingyangzi is a disciple of the Saint, who dares to chase him so recklessly?

Is there another reason?

Thinking of this.

Section 1304

Zhang Yuhe looked at the illusory figure on the Gate of Creation and asked respectfully.

"Senior, since destroying Jueyuan is so dangerous."

"Why are you here again."

Although Zhang Yuhe's tone was respectful, the questions he asked did not save Qingzi's face.

If you have any questions, clarify them on the spot.

Because they may need to work together in the future.

After all, according to what Qingyangzi said.

There are a lot of destroying monsters outside.

They want to escape from the Chaos River and enter Hongmeng Yuantian safely.

We must fight our way out of the abyss of destruction.

If you don't ask things clearly, everyone will have their own agenda.

Then it can't be done.

If you are not someone who knows everything, who would dare to cooperate with you wholeheartedly?

Zhang Yuhe had no scruples and asked directly if he had any questions.

He is not afraid that Qingyangzi will be unhappy.

relative to these.

He was more worried that there would be a big pit outside.

In order to avoid stepping into pitfalls, we must break the casserole and get to the bottom of it.

As for asking too directly, Qingyangzi would be unhappy.

So what does it matter?

Zhang Yuhe is not afraid of him falling out.

If the two parties really cannot cooperate in the end.

He is also confident that he can fight his way out of the abyss of destruction alone.

As long as he is promoted to the Supreme Realm in the future.

Zhang Yuhe is completely sure.

After all, according to Qingyangzi.

There are only two realms above the Supreme, Yin and Yang and Saint.

Among the Destroying World of Warcraft, there is no Saint Realm level existence.

The strongest one is only in the semi-sacred realm.

In Zhang Yuhe's view.

The so-called semi-saint.

At most, it's just a stronger Yin-Yang realm.

As long as you break through to the supreme realm.

Zhang Yuhe is confident.

When the magical power of Hunyuan Guiyi is activated.

Under the saint, he should be invincible.

There is no way those destroying monsters outside can stop him.

That being the case.

What does he have to worry about?

Hear Zhang Yuhe's question.

Qingyangzi looked slightly stunned.

He pondered for a moment and did not answer in a hurry.

After a long time.

Qingyangzi sighed, and then slowly asked.

"Do you know why there are only thirty-three saints in Hongmeng Yuantian?"

"No one has become a saint in all these endless years?"

Zhang Yuhe looked confused.

Does this have anything to do with the question he asked?

None of them have ever been to Hongmeng Yuantian, and they have never even seen what the saint looks like.

How could you know this?

Think of this.

Zhang Yuhe arched his hands towards Qingyangzi, and then asked politely.

"Please give me some advice, senior."

Qingyangzi took a deep breath.

He turned to look at everyone, and then spoke slowly.

"It is said that when Hongmeng first opened, some special divine light would occasionally appear between heaven and earth."

"Everyone calls these divine lights the innate Hongmeng Qi."

"If a monk receives these innate Hongmeng Qi."

"Then it's possible to get some kind of strange opportunity from it."

"It may be some kind of innate holy weapon, or it may be a divine medicine that defies heaven."

"There is also a more direct method, which is to obtain some kind of innate Hongmeng Kung Fu."

"According to legend, those thirty-three saints were born when the heaven and earth first opened."

"I accidentally received the innate Hongmeng Qi."

"They have either obtained an innate holy weapon, a divine medicine that defies heaven, or some kind of innate Hongmeng technique."

"It is precisely because of this that they can finally achieve enlightenment and become saints."

"This is also the only method of becoming a saint that has been spread in Hongmeng Yuantian."

"Unfortunately."

"After the Hongmeng world is stabilized."

"About the innate Hongmeng Qi, it has always existed only in legends."

"No one has ever really seen anything like this."

"So in this Hongmeng, there are only thirty-three saints."

"No new saint is born."

Hear this.

Zhang Yuhe suddenly had an idea.

He pondered for a while and tentatively asked Qingyangzi.

"Senior accidentally fell into the abyss of destruction, could it be because of the innate Hongmeng Qi?"

"Someone discovered the innate Hongmeng Qi in the Jue Abyss?"

"So senior also took the risk and broke in?"

Hearing Zhang Yuhe's words.

Qingyangzi shook his head first, and then sighed softly.

Then he spoke slowly.

"What you said is not entirely correct, but it is basically close."

Qingyangzi pondered for a while, and then continued to speak.

"When I was traveling to visit friends, I passed by Jueyuan."

"Suddenly I saw a strange divine light flashing in the distant sky."

"As a disciple of the saint, I know something about the innate Hongmeng Qi."

"The moment I saw that divine light."

"I quickly concluded that it was the innate Hong Qi."

"Facing this peerless treasure that can make people realize the truth and become a saint."

"You can imagine how excited I was at that time."

"Without any hesitation, I just followed the divine light."

"Tracking it all the way to the depths of the Destruction Abyss, I sacrificed it to the Qingyang Realm."

"Finally, bring that divine light into the world of Qingyang Realm."

"Unfortunately."

"I was rampaging all the way through the abyss, and also attracted the attention of the Destruction Monster."

"When I put away the divine light, there were several semi-sacred realm destruction monsters surrounding me."

"The destructive monster in the semi-sacred realm is extremely powerful."

"I can't even beat one."

"Faced with the siege of many semi-sacred realm destruction monsters, my body quickly fell."

"Later, I was resurrected through the origin of heaven and earth, and I tried many times to break out of Jueyuan."

Section 1305

"However, those destroying monsters seem to be targeting me."

"Whenever I just rush out, there will be many semi-sacred realm destruction beasts squatting next to me."

"After falling and resurrecting again and again."

"I have also consumed more than half of the origin of heaven and earth in Qingyang Realm."

"It wasn't until this moment that I had a rude awakening."

"If we continue to forcefully resurrect, I'm afraid this world will completely collapse."

"If that really happens, I will truly fall."

"For this reason, I turned the remaining source of heaven and earth into a portal to seal the passage between Qingyang Realm and Hongmeng."

"Then wait slowly."

"I hope I can wait until Master finds him in the abyss."

Speaking of which.

Qingyang paused for a while.

He looked at Zhang Yuhe in the distance and said with emotion.

"What I didn't expect is."

"I didn't wait for Master's rescue, but I waited for a peerless genius like you to rise up."

"I hope it's not too late."

"The Destruction of Warcraft has been launching continuous attacks on the Qingyang Realm over the past few years."

"The consumption of the origin of heaven and earth is also getting bigger and bigger."

"I have estimated it."

"The sealing ability of the Gate of Creation can only last until the end of this era at most."

"That is to say."

"We must rush out at the end of this era."

"Otherwise."

"If there is no seal of the Gate of Creation, let the destroying monsters from the abyss outside rush in."

"The Qingyang Realm will collapse in an instant."

"At that time, no matter it is me, or you monks who were born in Qingyang Realm."

"No one will be spared."

...

## Chapter 909 Speculations about the Scripture of Chaos Gods and Demons

"Can we only persist until this era?"

"That's too fast. There's no time at all. Let's prepare."

I heard Qingyangzi say that the sealing ability of the Gate of Creation can only last until the end of this era.

Everyone couldn't help but be shocked.

even though.

An epoch is very long, hundreds of billions of years.

Moreover, we are currently at the peak of the era, and this era has only just passed half.

That is to say.

There are still nearly 50 trillion years left before the deadline mentioned by Qingyangzi.

For an ordinary monk.

Fifty trillion years is enough time for them to reincarnate countless times.

But for these supreme realms.

Five hundred thousand years is really too short a time.

It's gone in the blink of an eye.

With so little time, what can they do?

Not to mention studying the rules of the great road and practicing magical powers.

Even if you were to refine the supreme artifact, you probably wouldn't be able to refine a few pieces.

If it were before that.

Everyone is anxious, wanting to escape from the Chaos River as soon as possible and enter Hongmeng Yuantian as soon as possible.

But now they are not so anxious.

Because beyond the long river of chaos is the extremely dangerous abyss of destruction.

There are countless powerful destruction monsters living there.

Even powerful Yin-Yang realm masters like Qingyangzi have been killed countless times by those destroying monsters.

And they are still in the Supreme Realm.

If you are not fully prepared, everyone will not dare to go out at all.

Qingyangzi looked at everyone, then sighed and said.

"Yeah, time is running out."

"This is the last chance."

"It's an opportunity for me, and it's also an opportunity for you."

"If we wait until the monsters are destroyed, they will flood into Qingyang Realm."

"Then we will all be doomed, and no one will be spared."

Speaking of which.

Qingyangzi paused for a while.

He looked up into the distance, and then spoke leisurely.

"When I accidentally encountered the innate Hongmeng Qi, I thought it was my chance."

"Even if he was killed by the Destruction Monster countless times in a row."

"I haven't given up either."

"Because in my opinion, as long as you get the innate Hongmeng Qi."

"I will naturally have the opportunity to slowly improve my strength."

"It's just something I didn't expect."

"That ray of innate Hongmeng Qi, after being taken into the Qingyang Realm by me."

"It can never be found again."

"I searched every corner of the Qingyang Realm, but I couldn't find any trace of the innate Hongmeng Qi."

"According to legend, treasures have spirits and can choose their owner after they die."

"I didn't believe it at first."

"But now I can't help but not believe it."

"Perhaps this innate Hongmeng Qi is destined to miss me."

"I don't dare to think too much now."

"I just hope that I can lead Qingyang Realm out of the abyss of destruction safely."

"But I know."

"I definitely can't do it on my own."

"Only by working together can we fight out together."

After listening to Qingyangzi's narration, everyone was silent for a long time.

After a while.

Yuan Zun suddenly asked.

"If senior is resurrected, how much strength can he regain?"

The situation is now very clear.

There is not much time left for everyone.

In such a short period of time.

It is almost impossible for them, the Dao Alliance Lords, to improve their strength.

Therefore, Yuan Zun can only place his hope on Qing Yangzi.

If Qingyangzi can return to his peak strength.

With the help of a few of them.

Maybe there is a chance to rush out.

However, Qingyangzi's response quickly shattered Yuanzun's dream.

Qingyangzi sighed, and then said helplessly.

"The origin of Qingyang Realm is damaged now, not even one-third of its peak period."

"I estimate that after resurrection, the strength will be the same as yours."

"Just an ordinary supreme realm."

"If you want to restore your peak strength, you need to repair the origin of Qingyang Realm first."

Section 1306

"It's impossible for the time being."

"Then I have to go back to the Holy Land and take a long rest."

After hearing Qing Yangzi's words.

Everyone was completely dumbfounded.

How can this be done?

There are so many destructive beasts guarding outside, and there are even semi-saint realm beasts.

And Qing Yangzi's strength cannot be restored.

Can they, a group of supreme realms, defeat those semi-saint realm destructive beasts?

No matter how confident they are in their own strength.

They dare not think so.

Everyone's face was full of worry.

Hope is right in front of them, but it can be shattered in an instant.

How uncomfortable it must be.

Suddenly.

The Void Lord had an idea.

He looked at Zhang Yuhe next to him and asked tentatively.

"Daoyou Yinhe, I wonder if you are sure that you can break through to the Supreme Realm in this era?"

"If you are promoted to the Supreme Realm, are you sure?"

"Can you beat those half-saint-level destructive beasts outside?"

Hearing the words of Lord Void, everyone suddenly woke up.

Everyone looked at Zhang Yuhe in unison.

It was too sudden just now.

They almost forgot that there was Zhang Yuhe, the peerless genius, beside them.

Normally.

An ordinary Eternal Emperor wants to break through to the Supreme Realm.

Even if everything goes well, it will take countless eras to slowly settle down.

But Zhang Yuhe is obviously different from others.

It only took him trillions of years to cultivate from a mortal to the Eternal Realm.

There are about 50 trillion years left before the end of this era.

For others.

This little time really can't do anything.

But for a peerless genius like Zhang Yuhe, it's hard to say.

Maybe he really has a chance to break through to the Supreme Realm directly.

With Zhang Yuhe's current strength.

Once he is promoted to the Supreme Realm.

Maybe he will have a chance to lead everyone out of the Destruction Abyss.

Facing everyone's expectant eyes, Zhang Yuhe did not rush to respond.

He was thinking about a question.

That is, where did the innate primordial energy that Qingyangzi mentioned before go.

To be honest.

During the long years of cultivation.

Zhang Yuhe has always had a question in his mind.

That is, where did the Chaos God and Demon Heavenly Scripture he practiced come from.

He once thought.

Maybe the Chaos God and Demon Heavenly Scripture is the innate practice method that evolved from this long river of heaven and earth.

However, after years of research.

Zhang Yuhe discovered.

In the Chaos Long River, there is no such thing as innate practice method.

All the practice methods and magical powers are all created by cultivators.

However, Zhang Yuhe has also seen the power and various wonders of the Chaos God and Demon Heavenly Scripture.

He really believes it.

In this long river of chaos, who can create such a powerful technique?

The Chaos God and Demon Heavenly Scripture suddenly came from Ruli.

This question has troubled Zhang Yuhe for a long time.

He even worried that this might be a trap set by a powerful person.

And he was just a guinea pig.

However, after listening to Qing Yangzi's narration just now.

Zhang Yuhe couldn't help but make a bold guess in his heart.

Could it be that the Chaos God and Demon Heavenly Scripture is related to that wisp of innate primordial energy?

...

Chapter 910 Good!

Zhang Yuhe has always had many doubts about the origin of the Chaos God and Demon Heavenly Scripture.

It was not until he just listened to Qing Yangzi's narration that he finally woke up.

This technique should be related to that wisp of innate primordial energy.

Is it really like this?

Thinking of this.

Zhang Yuhe was infinitely excited in his heart.

According to Qing Yangzi's statement.

Innate primordial energy.

That is the key to a cultivator's attainment of the Way and becoming a saint.

Thirty-three saints of Hongmeng.

Each of them obtained the opportunity to defy the heavens through the innate Hongmeng Qi.

Finally attained the Way and became a saint.

Zhang Yuhe thought.

If the Chaos God and Demon Heavenly Scripture that he practiced also came from the innate Hongmeng Qi.

Doesn't that mean.

The road to becoming a saint in the future has been opened for him?

That is an omnipotent saint.

How could Zhang Yuhe not be excited?

And he was not just thinking about it casually.

Zhang Yuhe had a basis for such speculation.

Qingyangzi just said.

He risked entering the Destruction Absolute Abyss because he was tracking the innate Hongmeng Qi.

Zhang Yuhe believed.

With Qingyangzi's knowledge and background, he shouldn't have mistaken the innate Hongmeng Qi.

More importantly.

Qingyangzi once put that strand of innate Hongmeng Qi into the Changhe Heaven and Earth.

But later he searched the Changhe and didn't find it again.

Qingyangzi had to attribute it to.

That wisp of innate primordial energy had nothing to do with him, and it might have already left the Changhe Heaven and Earth.

Disappeared without a trace.

But in Zhang Yuhe's opinion.

That may not be the case.

Maybe that wisp of innate primordial energy has always been in the Chaos Changhe.

It's just that Qingyangzi didn't find it.

Treasures are self-evident and cannot be detected.

This is also a very normal thing.

What's more.

Something like the primordial energy is so heaven-defying.

Section 1307

It doesn't want to be seen.

Even if it were placed in front of others, they probably wouldn't be able to see it.

That is to say.

Indeed, there was once a ray of innate Hongmeng Qi that existed in the Changhe world.

I have the opportunity to interact with these monks who were born in the long river.

at the same time.

Zhang Yuhe recalled the past miracles of the Chaos Gods and Demons.

in particular.

When he entered the sea of chaos from the fairy world.

The two stone tablets recording the upper and lower volumes of the exercises suddenly merged into one.

And the name of the technique.

It also changed from the Hunyuan Scripture to the Chaos God and Demon Scripture.

When the two stone tablets merged, the vision reached hundreds of millions of miles into the sky.

It really shocked Zhang Yuhe.

Fortunately, he was in a deserted void with no one at that time.

Otherwise.

The trouble is huge.

Zhang Yuhe had never heard of a technique that could fuse and evolve on its own.

Recalling the past of the Chaos Gods and Demons Scripture.

No matter how you look at it.

This is not like a technique created by monks and inscribed on stone tablets.

If.

This skill is created by heaven and earth, and comes from the innate Hongmeng Qi captured by Qingyangzi.

Then everything makes sense.

Only in this way can many things be explained.

"That must be it."

Think of this.

Zhang Yuhe's heart became hot.

With the help of this innate skill.

When he enters Hongmeng Yuantian in the future, he will have every chance of attaining the Saint Realm.

Become an omnipotent saint.

"Well, take your time step by step."

"The saint realm is still too far away, so set a small goal."

"Cultivation to the Supreme Realm first and then talk."

Zhang Yuhe thought silently in his heart.

Just at this time.

He raised his head and looked at the Dao leaders around him.

Facing everyone's expectant eyes.

Zhang Yuhe suddenly remembered.

Just now everyone seemed to be like, what's the problem?

correct.

What were they talking about just now?

It seems to be asking, can I cultivate to the supreme state before the end of this era?

Can you defeat those destructive monsters squatting outside Qingyang Realm?

That's probably what I'm talking about.

Think of this.

Zhang Yuhe couldn't help but feel speechless.

How much you look down on him.

There are still nearly fifty trillion years until the end of this era.

Such a long time.

Even if he crawls, can he climb to the Supreme Realm?

Although Zhang Yuhe also understands.

The further you go on the path of spiritual practice, the slower and more difficult it becomes.

But he didn't care at all.

No matter how slow it is.

Will it take another 50 trillion years?

Obviously not needed.

It only took him hundreds of millions of years to reach the eternal realm from a mortal who was initially exposed to spiritual practice.

Subsequently, he cultivated from the eternal realm to the supreme realm.

Even if it takes ten times longer than all previous realms.

That's only ten trillion years.

So there is definitely enough time.

About this question.

Zhang Yuhe has never been worried.

As for saying.

After he is promoted to the Supreme Realm, will he be able to defeat the destructive monsters outside?

Zhang Yuhe thought carefully for a while and felt that there was no problem.

After all, even ordinary monks can reach a certain level after their cultivation reaches a great level.

The strength will be greatly improved.

What's more, it's him.

When Zhang Yuhe was at the peak of the God King, he could sweep through all the invincible supreme beings.

Even facing the true Supreme Realm, he probably wouldn't be at a disadvantage.

Now that he has been promoted to the eternal realm, he is invincible across the entire Yangtze River.

Even if it is a veteran supreme realm like Yuan Zun, a being who is like a son of destiny.

Probably none of them are his enemies.

Although Zhang Yuhe doesn't know.

What is the true strength of the Yin-Yang realm above the Supreme?

How powerful is the semi-saint that Qingyangzi mentioned.

But Zhang Yuhe was still not worried.

What is he afraid of?

He can now sweep the Supreme Realm without breaking out.

It is estimated that the real strength should not be much weaker than those in the Yin and Yang realm.

Once he activates the magical power of Hunyuan Guiyi and explodes with all his strength.

It should be almost possible to sweep most of the Yin and Yang realm monks.

That's just for now.

Zhang Yuhe's strength still has a lot of room for improvement.

Once he is promoted to the Supreme Realm.

What does it mean to be a destructive monster in the semi-sacred realm?

Ice to the bottom.

Isn't it true that a semi-saint still belongs to the category of increased yin and yang?

It's just more powerful.

Zhang Yuhe has been practicing all the way up to now, and the challenge of jumping up to the next level has become a common occurrence.

If the Hunyuan Guiyi magical power is activated, it will explode with all its strength.

It can even be swept across by leaps and bounds.

to be honest.

Zhang Yuhe never paid attention to those destructive monsters that Qingyangzi mentioned.

Aren't they just a few semi-sacred ones, not worth mentioning at all.

Think of this.

Zhang Yuhe looked around and then responded calmly.

"It shouldn't be a big problem."

Section 1308

"As long as there are no big changes, I am completely confident that I will be promoted to the Supreme Realm before the end of the era."

"As for those destroying monsters beyond the river, that's not a big problem."

"Since the monks from the Hongmeng Source Realm back then were able to drive them into the Jue Abyss."

"I think we can kill them too."

"good."

"Haha, with the words of Taoist Fellow Galaxy, we feel more at ease."

Hearing everyone's affirmative answer, everyone couldn't help but look happy and cheered together.

Even Qing Yangzi, who was standing at the Gate of Creation, had a faint smile on his face.

In fact, only he knows best.

How difficult it is for a monk to comprehend all three thousand avenues.

He had never heard of it in the Holy Land.

Who can be like Zhang Yuhe, who is only in the eternal realm.

He has mastered all three thousand avenues.

It's just incredible.

A peerless talent like Zhang Yuhe, and his terrifying power.

Qingyangzi believes it.

Once you wait for Zhang Yuhe, you will be promoted to the Supreme Realm.

Those ordinary destructive monsters definitely cannot be stopped.

All they had to do was find a way to avoid those semi-sacred realm destructive monsters.

There is every chance to break out of the abyss and return to the vast Hongmeng Origin Sky.

...

Chapter 911 Destruction of Warcraft's Strength Division

Qingyangzi didn't think that Zhang Yuhe could beat the Destruction Beast in the semi-sacred realm.

Even if he breaks through to the Supreme Realm in the future, it will not work.

But he was still full of expectations for Zhang Yuhe.

the reason is simple.

It doesn't matter if you can't beat him.

As long as you can run out.

Qingyangzi's goal has never been to wipe out the destroyed monsters in the abyss.

This is simply impossible.

Back then, thirty-three saints, together with the armies of Hongmeng's various races, failed to level Jueyuan.

Naturally, he would not have such a dream.

Qingyangzi's idea is simple.

As long as Zhang Yuhe can lead them out of the abyss, it will be fine.

In his opinion.

This is entirely possible.

Zhang Yuhe is a peerless genius who has already mastered all three thousand avenues when he was in the Eternal Realm.

Then when he is promoted to the Supreme Realm in the future.

The strength will definitely be greatly improved.

Maybe even stronger than when he was at his peak.

It is completely enough to lead everyone out of the abyss.

And Zhang Yuhe is not alone.

Aren't there still people like them here?

With them assisting you, you should be more confident.

Think of this.

Qingyangzi looked at Zhang Yuhe in the distance and said with emotion.

"Zhang Xiaoyou is extremely talented, as long as he can break through to the Supreme Realm."

"The strength will definitely far exceed the ordinary Yin and Yang realm."

"At that time, everyone will have a chance to fight their way out of the abyss."

Hear this.

All the Dao Alliance Lords beside him nodded silently.

Zhang Yuhe is the most powerful monk they have ever seen.

none of them.

When it exploded with all its strength just now.

Zhang Yuhe's terrifying power frightened them all just looking at him.

This is just the moment he was promoted to the Eternal Emperor.

Once Zhang Yuhe breaks through to the supreme realm.

It's really hard for everyone to imagine.

How strong will Zhang Yuhe be at that time?

Even Qingyangzi at his peak is probably incomparable.

The only thing everyone is worried about is.

I don't know how many destruction monsters there are in the abyss outside.

What is the overall strength of those destroying monsters?

Just now I just listened to Qingyangzi.

There are countless destruction monsters in the abyss, and there are also semi-sacred realm destruction monsters.

But about the details.

Qingyangzi didn't make it clear.

Think of this.

Yuan Zun looked at Qing Yangzi in the distance and asked solemnly.

"Senior, I wonder what the overall strength of those destroying monsters outside is?"

Qingyangzi pondered for a while, and then slowly responded.

"A lot, very strong."

Hear this.

Yuan Zun and others couldn't help but be a little confused.

Could you please be more careful?

This is too general.

Think of this.

Yuan Zun continued to ask.

"senior."

"You said those destroying monsters are numerous and very powerful."

"Does it mean that there are a huge number of destroying monsters, and each one is very powerful?"

"Can you explain it in detail?"

"Let us be mentally prepared."

Qingyangzi looked slightly stunned.

Only then did he remember.

I have never spread the cultivation civilization in Qingyang Realm.

Nor has the common sense of spiritual practice been popularized.

The cultivation civilization in Qingyang Realm is all developed by the monks through their own exploration and development.

They are completely unaware of the situation in Hongmeng outside.

Naturally, there is no way to understand the destroying monsters in the abyss.

Although in Qingyang Realm, whenever an era ends, the sealing ability of the Gate of Creation will also become weaker.

The vast aura of destruction in the Jue Abyss poured into the Qingyang Realm through the Gate of Creation.

In the end, countless destructive monsters were transformed.

But these destructive monsters are, after all, just the illusion of breath.

It is definitely different from the real beast of destruction in the Jue Abyss.

No wonder Yuan Zun asked so carefully.

Qing Yangzi smiled awkwardly, then slowly spoke.

"There are countless destructive monsters in the Absolute Abyss, and it can even be said that they are overwhelming."

"Almost all over the Absolute Abyss."

Section 1309

"But fortunately, the strength of most of the destroying monsters is not too strong."

"During the war that year, the Saint once roughly divided the Destruction Monsters into five levels based on their strength."

"The first level is the strongest, the fifth level is the weakest."

"Among them, those with strength below the God King are fifth-level destruction monsters."

"The one whose strength is equivalent to that of the Eternal Realm is the fourth-level destroying monster."

"Third-level destroying monsters, their strength is basically the same as that of Supreme Realm monks."

"The second-level destruction monster is equivalent to the ordinary Yin-Yang realm."

"The strength of a first-class destroying monster is far inferior to that of a saint, but it is much stronger than a Yin-Yang realm monk."

"It's considered a semi-sacred realm."

"Although there are many Jueyan Destruction Beasts, most of them are only fourth or fifth level."

"It's not a big threat to us."

"Second and third-level destruction monsters are relatively rare in number."

"But Jueyuan is a vast territory after all."

"As long as you walk a certain distance in it, you will inevitably encounter it."

"There's basically no chance to avoid it."

"But the most terrifying ones are those first-class destruction monsters."

"The strength of the first-class destruction monster far exceeds that of the Yin-Yang realm."

"to be honest."

"Even when I was at my peak, I couldn't defeat any first-class destruction monster."

"That's why."

"Only by destroying the Jue Abyss can one become a recognized Jedi in Hongmeng."

"Under the saint, almost no one dares to come in."

"For us, the biggest difficulty is also these first-class destruction monsters."

"In order to track down the innate Hongmeng Qi, I went all the way to the depths of the Jue Abyss."

"Attracted the attention of many first-class destruction monsters."

"Even after countless years, those first-class destruction monsters are still standing nearby."

"Never left."

"If we can't break through the obstruction of these first-class destruction monsters, we won't be able to get out of the abyss."

Everyone nodded silently while listening to Qingyangzi's narration.

Now everyone finally has some understanding in their hearts.

I heard Qingyangzi talk about Destruction Jueyuan in such a scary way before.

Made them think so.

The destruction monsters there are all extremely powerful.

Maybe they can't even defeat the weakest.

Now it seems.

It's because they think too much.

There are many destroying monsters, but some are strong and some are weak.

As long as they avoid those powerful first- and second-class destruction monsters, they will have a chance to get out of the abyss.

Of course.

There is a premise here.

That is to get rid of those destructive monsters that have been squatting on the periphery of Qingyang Realm for countless years.

Everyone quickly thought about the scenarios they might need to face in the future.

They all felt that as long as Zhang Yuhe could hold back those first-class destruction monsters, it shouldn't be a big problem.

But if there were more manpower.

That's even better.

Think of this.

Yuan Zun suddenly had an idea.

He looked at Qingyangzi in the distance and asked solemnly.

"Senior, I don't know when the door of creation opens."

"Do you have any requirements for the strength of monks who have left the Qingyang Realm?"

"I think so."

"If there is no request, we can summon the monks in Qingyang Realm and above the Eternal Realm to act together."

"After all, there is strength in numbers."

"And not all of those destroying monsters are that strong."

"If we have a lot of manpower to help contain one or two."

"I guess I will be more confident about rushing out."

...

Chapter 912 The kindness of support will never be forgotten

Hearing Yuan Zun's words, everyone couldn't help but nod their heads.

Yuan Zun is right.

There is strength in numbers.

This is a very simple truth.

No one had thought about this before.

that is because.

Everyone didn't know before that the destruction monsters in the Jue Abyss also have many levels.

The weakest Destruction Monster is not even as powerful as the God King Monk.

If they summon the monks in the Chaos River and above the Eternal Realm to act together.

It will definitely be much easier.

To know.

The overall strength of the monks in the Chaos River is not weak.

Within the Dao Alliance, there are thirty million Eternal Emperors and hundreds of thousands of Invincible Supremes.

If you count those high-level monks in the river who have not joined the Tao Alliance.

This number must be increased at least ten times.

In the view of Yuan Zun and others.

If such a huge force is not utilized properly, it will become a huge force.

What a waste.

And everyone believes it.

As long as the news is released, it is said that a way out of the territory has been found.

I'm afraid the entire Chaos River will be shocked.

Without them deliberately recruiting them, there would be a large number of high-level monks willing to go together.

However, Qingyangzi's opinion must be sought on this matter.

After all, the world of Chaos River was created by Qing Yangzi.

In a strict sense.

These monks who were born in the long river can be regarded as the people of Qingyangzi.

It's just that now everyone is strong enough and doesn't want to be restricted.

Everyone just wants to transcend the Changhe world and move towards the vast Hongmeng Yuantian outside.

And tell the truth.

Qingyangzi can't restrain him either.

But it's hard to say for others.

Although Qingyang is seriously injured now.

Not even really resurrected.

But it is obviously not a big problem for him to control those cultivators below the Supreme.

For Qingyangzi.

All the cultivators in the entire Chaos River can be regarded as part of his power.

If more cultivators leave the Chaos River.

This means.

The more power he loses.

Normally speaking.

He will definitely not be willing to let a large number of cultivators in the Chaos River leave.

Section 1310

But there are exceptions to everything.

For example, now.

In order to ensure that we can successfully break out of the abyss of destruction in the future.

Yuan Zun believes it.

Qingyangzi will know how to choose.

Because this is not only related to everyone's fate, but also related to Qingyangzi's own fate.

Look at the eyes of everyone.

Qingyangzi was also very helpless.

If you can choose.

Of course he is not willing to let all the high-level monks in Qingyang Realm escape.

After countless years of evolution, it is indeed not easy for Qingyang Realm to develop into such a prosperous age.

Once a large number of high-level monks are lost.

I don't know how long it will take for it to develop to its current level again.

But Qingyangzi understood.

I have no choice.

He has only one request now, and that is to lead the Qingyang Realm out of the abyss of destruction.

As long as you can get out safely.

He is willing to pay any price.

It has been too long since Qingyangzi was trapped in the abyss of destruction.

He really didn't want to wait any longer.

Even if it can increase the chance of getting out safely.

He won't hesitate at all.

Think of this.

Qingyangzi sighed deeply.

He glanced at everyone and said helplessly.

"Just do it."

"You can let the news out."

"As long as the monks have reached the eternal realm or above, any monks who are willing to act together can come."

Speaking of which.

Qingyangzi paused for a while.

He looked at Zhang Yuhe in the distance, then smiled and said.

"As for when to take action, it depends on Zhang Xiaoyou."

"As long as Zhang Xiaoyou is successfully promoted to the Supreme Realm and stabilizes his cultivation."

"We can get started."

"In case something happens."

"Before the end of the era, Zhang Xiaoyou still has not succeeded in breaking through."

"We also have to rush out."

"I really can't delay it any longer."

"The aura of destruction in the Jue Abyss over the years has severely eroded the origin of Qingyang Realm."

"The sealing ability of the Gate of Creation will soon be unbearable."

"We only have this one chance."

"Everyone must take advantage of this."

"Later, I will manifest everything I have learned throughout my life on the Gate of Creation."

"Most of these are what I obtained in Hongmeng, and some are inheritances that can be taught to the outside world by the Holy Land of Shangqing."

"I hope it will be helpful to you."

After saying this.

Qingyangzi waved his right hand.

Magnificent pictures unfolded slowly on the Gate of Creation.

Everyone looked intently.

I saw that those scrolls all recorded various profound and mysterious skills, magical powers, alchemy skills, formation knowledge and other inheritances.

These precious inheritance methods.

It was simply unheard of before.

The long river of chaos isolates the inside and outside.

Since the evolution of heaven and earth has been successful.

Qingyangzi has never invested any inheritance in this world regarding cultivation.

Because the practice concept of the Holy Land of Shangqing is to follow the Tao and follow nature.

Qingyangzi's original thoughts.

I also want this world to evolve naturally.

rather than relying on him to guide you.

For so many years.

The long river of chaos has been evolving at an extremely slow speed from the beginning of the world to the birth of the cultivation civilization.

Until Yuan Zun left the universe and entered the depths of the river,

The cultivation civilization of the entire world has only begun to gradually prosper.

Originally, Qingyangzi did not want to affect the natural evolution of this world because of his interference.

But not anymore.

Now he desperately hopes that the strength of the monks in Changhe World can be improved quickly.

Whether it is the Tao Alliance Lords in front of them or the high-level monks in the Chaos River.

He hopes that the strength of these people can quickly improve to a higher level.

Only the stronger everyone becomes.

The greater their hope of breaking out of the abyss of destruction in the future.

Looking at the Gate of Creation, various inheritances emerged.

Everyone was completely stunned.

Yuan Zun murmured to himself.

"So this is the inherited technique in Hongmeng?"

"It's really perfect."

"Compared to these inheritances, the skills and magical powers I have created over the years still have too many flaws."

"I don't know if there's enough time."

"If the inheritance of the skills can be modified."

"I believe our strength can be improved a lot."

Lord Void and others next to him also exclaimed in surprise.

"yes."

"We had no one to guide us before, so we all relied on ourselves to explore and move forward."

"Now it seems."

"We have taken too many detours."

"But it's not too late to change your skills now."

"There are still fifty trillion years until the end of this era."

"Even if fellow Taoist practitioners from the Galaxy practice extremely fast, it will take at least trillions of years before they can be promoted to the supreme level."

"We have this time."

"It's enough for us to switch to new exercises."

"Yes, there will definitely be enough time."

Everyone looked at the picture scroll on the Gate of Creation, and their faces turned red.

This is the inheritance from Hongmeng.

Its preciousness is far from comparable to the techniques in the Chaos River.

Everyone had never expected it.

Qingyang would be so generous.

He would easily make all the precious skills he inherited public.

Thinking of this.

Everyone looked at Qingyangzi in the distance and shouted respectfully in unison.

"Senior, we will never forget your kindness in helping us."

...
