

Top talent 1321

Section 1321

Enlightenment tree.

Because of drinking Yuan Zun's Chaos Spirit Tea before, Wu Yiyi was lucky enough to break through the eternal bottleneck.

Opened the door to eternity.

despite this.

Wu Yiyi was not in a hurry to break through.

With everyone's suggestions.

Zhang Yuhe asked Wu Yiyi to enter his Galaxy Heaven to practice.

Because the Milky Way Sky is still in its initial stage, the Three Thousand Avenues are clearly presented.

It is easier for people to perceive success.

If Wu Yiyi can understand more rules of the great road.

Even comprehend the words of the supreme rules.

Then her future achievements will definitely go further and higher.

Looking at the towering trees in the sky and the earth.

Zhang Yuhe couldn't help but think of that beautiful and soft figure.

He gently clenched his right fist and encouraged silently in his heart.

"Yiyi, come on, you can do it."

After a while.

Zhang Yuhe waved his right hand gently.

The mini world rises slowly and floats quietly above the high platform.

"It's time for me to practice hard."

Think of this.

Zhang Yuhe's expression moved slightly.

Only nine figures appeared quietly next to him.

These are his nine clones.

In order to increase the speed of cultivation, we should be promoted to the Supreme Realm as soon as possible.

Zhang Yuhe gathered all nine clones on the high platform.

There is the pull of the Wanyuanguai Formation here.

It is definitely the place with the strongest aura of divine power in the entire Chaos River.

none of them.

Zhang Yuhe has never encountered a bottleneck in his practice so far.

He doesn't need the help of various elixirs and pills.

For Zhang Yuhe.

As long as the spiritual energy is strong enough, he can practice faster.

"Let's get started."

"I hope to be able to break through to the Supreme Realm as soon as possible."

Zhang Yuhe slowly walked to the center of the high platform and slowly sat down cross-legged.

The nine clones next to him also sat down cross-legged in various directions on the high platform.

Zhang Yuhe closed his eyes slightly and slowly started to run the Scripture of Chaos Gods and Demons.

Boom...

A silent wave centered on the high platform quietly spread to the distance.

The vast spiritual energy frenzy around them swept towards the high platform in an instant.

Spiritual energy is like rain.

They quickly gathered above the high platform, forming one huge vortex after another.

Below the vortex, there is a figure sitting in it.

The spiritual energy passed through the meridians and slowly poured into the sea of Zhang Yuhe's Dantian.

...

Time passed slowly.

Since Wanyuan returned to the formation and the layout was completed.

Zhang Yuhe entered a state of seclusion and never appeared again.

The nine great lords of the Taoist Alliance wanted to switch to Hongmeng Kung Fu.

Neither showed up.

At this time, the entire Chaos River seemed to be caught in a cultivation frenzy.

Whether it's the Dao Alliance or those remote areas.

It is almost difficult to see any monks moving around.

Even the once bustling Void City has gradually fallen into silence.

If not everywhere, there are constant waves of spiritual beings emerging.

Almost everyone thinks so.

Did this world encounter some major disaster, and all the high-level monks disappeared?

...

Galaxy Holy Land, Donghua Palace.

Nearly a hundred figures with powerful auras gathered in a magnificent hall.

In addition to Donghua, Duantian, Yuanhe, and other established gods in the God King Realm, there were other people present.

The others are all the same, with the aura of the God King Realm.

Some of them even have auras that are much more powerful than those of Yuan He Shenwang and others.

Wang Guofeng, Li Tian, He Yueyue, Lu Yunfei and others were all among them.

After years of development.

Today's Donghua Palace is no longer what it used to be.

Although Zhang Yuhe did not deliberately provide too much help.

But as a sect from which the Holy Lord came.

In the entire holy world, the influence is naturally extraordinary.

over the years.

The number of God King monks in Donghua Palace is no longer what it was before.

There are only three or two big and small kittens.

But there are nearly a hundred people.

Among them, monks from the immortal world accounted for almost half.

The group of Taoist emperors who followed Zhang Yuhe and entered the holy world together.

Without exception.

All have been promoted to the God King Realm.

And rising stars such as Wang Guofeng and Li Tian are also not far behind.

They were promoted to the Supreme God King one after another.

And most of them are in the God King Realm and have traveled a long distance.

have to say.

The monks of the same generation as Zhang Yuhe had indeed caught up with a good era.

Riding the east wind of Zhang Yuhe.

Most of them have reached a state that even they themselves could not imagine back then.

God King Donghua sat upright, looked back at An Tianzuo next to him, and asked with a solemn expression.

"Tianzuo, have you really thought it through and are you ready to try Hedao Eternal Life right away?"

"The eternity of Hedao is completely different from the ordinary breakthrough."

"You have to be confident enough."

"You must know that there is only one chance for a monk to unite for eternity."

"If you fail, there will be no regrets."

Li Tianxing, who was next to him, also started to persuade.

"Yes, Tianzuo, do you want to think about it again?"

"At the very least, we have to wait for the Holy Lord to come back before trying to join the Tao."

"It's too dangerous for you to join forces in such a hurry."

"If this happens, the road ahead will be cut off."

An Tianzuo looked at everyone, waved his hand and responded calmly.

"No need to wait any longer."

"I have already sensed that the bottleneck has loosened, and I am fully confident that I can succeed in the fusion of the Dao."

"As for waiting for the Saint Lord to come back?"

Section 1322

"There is no need to trouble his old man."

"The Holy Lord has been in seclusion for many years."

"According to the news from the Dao Alliance."

"The Holy Lord's retreat this time is no small matter. I heard that he will not leave the retreat until he breaks the Supreme Being."

Speaking of which.

An Tianzuo paused for a while, and then spoke leisurely.

"I also want to follow the footsteps of the Holy Lord and transcend this world."

Hearing An Tianzuo's words.

Everyone was silent and at the same time showed unnatural envy.

Everyone wants to achieve eternity.

This is not only a breakthrough in realm, nor is it just an improvement in strength.

the most important is.

This may be their only chance to escape.

Because only in the Eternal Realm can one follow Senior Qingyangzi and the Lord of the Dao Alliance.

Let's go through the Gate of Creation together, fight our way out of this world, and head towards the vast Hongmeng Yuantian.

However.

Eternal harmony is not that easy.

over the years.

Although the Holy World is booming, the number of God King monks has almost doubled or tripled.

But the number of eternal emperors in the holy realm has not increased at all.

There are still those twenty-odd emperors.

It can be seen from this.

How difficult is it for a god king monk to break through the eternal realm.

Now An Tianzuo has broken through the bottleneck and has the opportunity to join the Tao for eternity.

How could they not be envious of this?

Especially Donghua God King.

He has stayed at the peak of the God King Realm for countless years.

But that eternal bottleneck seems like an unbreakable shackles.

There is no sign of loosening at all.

Even if he wanted to take the risk of joining the Tao, he probably wouldn't have a chance of success.

Thinking of An Tianzuo next to him, he had not been practicing for more than an era.

Now not only has he reached the peak of the God King Realm early.

It even broke the eternal bottleneck.

This made God King Donghua feel a little jealous.

"As expected of a talented person from the same primitive world as the Holy Lord."

Divine King Donghua sighed silently.

Think of this.

He took a deep breath, then looked at An Tianzuo next to him, and spoke solemnly.

"good."

"The road is boundless, and monks should move forward without fear of risks."

"Now that you have made up your mind, start preparing."

"I will immediately inform the master of the desert courtyard and ask him to help protect the road."

"The union between the God King and the monks cannot be carried out in the holy world."

"You can only go to the long river outside the territory."

"The situation there is complicated. Without Senior Yong to help protect the road, it's really difficult to reassure people."

"Thank you, Palace Master, for taking the trouble."

An Tianzuo stood up quickly and said gratefully to God King Donghua.

...

Chapter 921 We are all in a good era

There is a void somewhere near Zhenshi Tianqian.

A group of monks with vast auras looked into the distance with solemn expressions.

In order to ensure that An Tianzuo will not be disturbed when he is on the road.

Nearly a hundred supreme god kings from Donghua Palace were dispatched.

As for the twenty-odd eternal emperors of the Galaxy Holy World, except for a few, they are practicing in seclusion.

It's really impossible to separate yourself from others.

The remaining dozen Eternal Emperors were led by the Master of the Desert Academy.

All were invited and rushed over.

The union of the God King monks for eternity is definitely a great event.

Especially for the Galaxy Holy World.

Even more so.

For countless years in the Holy World, a new Eternal Emperor has not been born for a long time.

Now that An Tian has overcome the bottleneck, he is ready to embark on the eternal journey of harmony.

Even if there is no Zhang Yuhe factor.

As an old-timer in the holy world.

It is impossible for the Desert Master and others to just sit back and watch.

It is also their inheritance responsibility to protect the Taoism of future generations.

even though.

Today, Zhang Yuhe is well-known throughout history.

under normal circumstances.

It is impossible for anyone to run wild near Tianguan.

An Tianzuo joins forces here, so accidents should be unlikely.

But everything is afraid of eventuality.

Just be careful and you won't go wrong.

not to mention.

Everyone looked into the distance silently.

I saw An Tianzuo sitting cross-legged on the high platform, and the vast spiritual energy frenzy around him quickly swept over.

With the violent spiritual tide, it is constantly being pulled and refined.

The aura on An Tianzuo's body also began to slowly increase.

Time passes slowly.

About two hundred thousand years passed.

A powerful aura rose into the sky from An Tianzuo.

The breath swept across the void, and the terrifying pressure spread across the void.

It even passed through the distant Tianguan and spread directly into the holy world.

See this situation.

All the god kings in Donghua Palace almost jumped up with excitement.

King Yuanhe murmured to himself.

"How many years has it been?"

"Our Donghua Palace finally gave birth to the first eternal emperor."

Although Zhang Yuhe was also born in Donghua Palace.

But since the creation of the Holy World.

He had left Donghua Palace long ago, and later even joined the Dao League.

Donghua Palace can only be regarded as Zhang Yuhe's old sect.

At this time, An Tianzuo succeeded.

This is the real, eternal emperor who belongs to Donghua Palace.

From now on, the sect has an emperor in charge. How can everyone be excited about this?

Li Tianxing looked at his old friend in the distance and finally took the most critical step.

He was genuinely excited for his old friend.

But it's still early.

The breakthrough is far from over.

Section 1323

Li Tianxing took a deep breath, looked at the Donghua Palace God King monks beside him, and spoke slowly.

"Let's not rush yet."

"Tian Zuo has just succeeded in joining the Tao. It will take a long time to evolve the world."

"We must remember not to be careless."

The Donghua Divine King next to him also echoed.

"Tianxing is right, everyone should pay more attention and don't let outsiders come and disturb you."

...

An Tianzuo sat cross-legged on the high platform.

The terrifying aura kept rising on him.

Just at this time.

A huge illusory universe slowly rose above his head.

Boom...

The surrounding area suddenly became turbulent.

The boundless spiritual energy craze soon became more and more violent.

The frenzy swept across all directions and quickly injected into the illusory universe.

The master of the desert courtyard stood in the distance.

See this situation.

He couldn't help but said with emotion.

"It's done."

"The illusory universe world takes shape. All we need to do in the future is to attract the surrounding divine power to continue to grow and evolve the world."

"There's almost no risk of failure."

The Beiyuan Emperor next to him also said with emotion.

"yes."

"Our Holy World has finally been born again, a new eternal emperor."

"It's really not easy."

"To be honest, we are really interested in what they call the fairy world."

"It's just less than half an era."

"Not only was the Immortal Realm born, a shocking figure like the Holy Lord was born."

"Soon after, another eternal emperor like An Tianzuo appeared."

"In a primitive world, two peerless geniuses will be born in succession."

"It's just amazing."

"After this matter is over, I must find time to go to the fairy world and take a closer look."

"Look at how magical that primitive world is."

The owner of the desert courtyard next to him smiled and said.

"Brother Beiyuan, the geniuses in the immortal world are not just as simple as the Holy Master and An Tianzuo."

"as far as I know."

"The Holy Lord subsequently led a large number of monks from the Immortal Realm into the Holy Realm."

"After joining Donghua Palace, many of those people have now achieved extremely high achievements."

"Among them, there are probably more than ten monks who are at the peak of the God King."

Hearing what the Desert Master said.

All the Eternal Emperors beside him couldn't help but feel stunned.

Emperor Heihe asked in shock.

"Da Mo, you are not mistaken, are you?"

"The rise of the Holy Lord has only taken ten trillion years at most."

"As for those who enter the holy world from the fairy world, their cultivation time will be even shorter."

"How is it possible that so many peak god kings appeared in such a short period of time?"

The master of the desert courtyard responded with a smile.

"Of course there is no lie in this matter. Donghua Palace is not hiding it."

"As long as you make a little inquiry, you will know the specific situation."

Hear this.

Everyone was silent for a long time.

After a while.

Emperor Heihe said with emotion.

"They are ahead of a good time."

"If there is anything special about the fairy world."

"That's when an astonishing figure like the Holy Lord appears."

"The Holy Lord alone has led a great era."

"As for the other people in the fairy world, they just happened to catch up with the trend of the times."

The Desert Master nodded and spoke slowly.

"It's not just them."

"We are also in a hurry. It's a good time."

"We are from the same realm as the Holy Lord, so we just need to follow the Holy Lord's footsteps."

"It will definitely not be abandoned by the times."

"Perhaps in the near future, one of us will take that crucial step."

"yes."

"This is a good era and we must seize it."

"Strive to catch up with the trend of the times, and never be abandoned by the times."

Emperor Beiyuan looked into the distance and spoke solemnly again.

"After this incident is over, I will definitely find an opportunity to visit the fairy world."

"Look at the traces of the Holy Master's practice back then, and observe the Taoist imprint left by the Holy Master in the immortal world."

Emperor Heihe also echoed.

"That's right, everyone will go together then."

"The Holy Lord was born in the fairy world and rose up in the holy world of this galaxy."

"Perhaps we can search for the Tao Yun mark of the Holy Lord."

"It's possible to get some insights from it."

"If you really want to gain something."

"Then maybe we can break through the shackles of heaven and earth and step into the realm of the Supreme."

"Yes, let's go together. Let's go together."

"You must go to the fairy world to see it."

Everyone spoke in agreement, and at the same time their hearts were filled with infinite yearning.

If they can gain some insights in the fairy world.

Then maybe you can, and soar into the sky from now on.

The supreme realm.

How can everyone not yearn for this?

...

Chapter 922 Emperor Tianzuo

An Tianzuo stands on a high platform.

The prototype of a huge world is gradually becoming solid.

at the same time.

The spiritual energy frenzy around him also began to become more and more violent.

The frenzy centered on Zhenshi Tianguan and swept almost half of the Milky Way.

Countless monks who were in retreat were disturbed by the spiritual tide.

I had to interrupt my practice.

Everyone walked out of the cave and entered the Chaos River.

Looking at the surging spiritual energy in the distance, everyone couldn't help but feel a little surprised.

A universe in the Milky Way.

Several Eternal Emperors walked out of the world entrance and came to the Chaos River.

Looking at the raging waves in the distance.

One of the Eternal Emperors said in surprise.

Section 1324

"Looking at the posture of this spiritual tide, someone must be trying to unite the Tao."

Another Eternal Emperor next to him quickly responded.

"That's right."

"Only the combination of the God King monks can trigger such a violent craze."

"I remember when the Holy Lord Galaxy joined forces."

"The craze of spiritual energy has even swept across the entire river of chaos."

"Even the distant land of Guixu is within the scope of the spiritual tide."

"Although nearly ten trillion years have passed since that terrifying power."

"I still remember it fresh."

"yes."

"The Holy Lord of the Galaxy is astonishing and talented, far beyond what we can imagine."

"But this spiritual energy craze is quite powerful, even though it's powerful."

"But it's only at a normal level."

Just at this time.

One of the Eternal Emperors said curiously.

"I don't know who is doing it."

"Should we go over and have a look?"

This person just finished speaking.

An older Eternal Emperor next to him immediately shouted loudly.

"You don't want your life?"

"The most important thing for monks to do is to be disturbed by others."

"If we go there at this time, wouldn't we make grudges with others?"

"The key is."

"Please carefully sense the direction in which the spiritual energy craze is gathering."

"If I'm not mistaken."

"That direction should be the Galaxy Holy World."

"80% of it is the Galaxy Holy Realm, and there are monks who are joining the Tao."

"We are going over at this time, in case it interferes with the eternity of the monks of the Galaxy Holy Realm."

"Once you anger the Holy Lord of the Galaxy, even if you have nine lives, you won't be enough to kill him."

Hear this.

Everyone couldn't help being shocked.

Everyone felt it carefully.

That's when I discovered it.

The direction where the spiritual energy frenzy is gathering is really the Galaxy Holy World.

Think of this.

Everyone couldn't help but feel a little scared.

Who doesn't know that the Holy Lord of the Galaxy is as powerful as the heavens.

As early as the period of the God King Realm.

He can kill the Invincible Supreme in reverse.

As early as ten trillion years ago.

The Holy Lord of the Galaxy is already in harmony with the Tao for eternity.

No one knows how terrifying his strength is now.

Such a ruthless man.

Once you get angry.

Who can stop it?

The face of the Eternal Emperor who was proposed earlier turned pale in an instant.

He took a deep breath and then spoke gratefully.

"Thanks for the reminder, Brother Dao."

"Otherwise, I would have almost caused trouble for everyone."

...

See the spiritual tide sweeping everywhere.

There are many God King monks and Eternal Emperors in the Galaxy Region, perhaps out of curiosity.

Maybe it's for some unspeakable purpose.

I want to follow the direction of the spiritual tide and step forward to see what happens.

But after they flew for a while, they couldn't help but suddenly turn around.

Because they already understand.

The center of the spiritual energy craze is in the direction of the Galaxy Holy World.

That is where the Lord of the Galaxy sits.

If we go over now, wouldn't that be seeking death?

...

Time passes slowly.

The Eternal Emperors of the Galaxy Sacred Realm, as well as the God King monks of Donghua Palace, silently looked at the high platform in the distance.

At the same time, observe the surrounding situation vigilantly.

In case there are foreign monks approaching and interfering with An Tianzuo's evolving world.

Perhaps he was intimidated by Zhang Yuhe's reputation.

so far.

The surrounding void has always been quiet, and no one has ever come close.

Even if someone breaks in unexpectedly.

He was so shocked that he immediately turned around and ran away.

Didn't dare to get close at all.

Looking at the high platform in the distance, the evolving world of An Tianzuo is gradually taking shape.

Everyone couldn't help but let out a sigh of relief.

Because they know.

An Tianzuo's process of evolving the world is about to end.

Their Galaxy Holy World will soon have an Eternal Emperor.

Another tens of thousands of years passed.

The frenzy of spiritual energy around him began to slowly weaken.

An Tianzuo stands on a high platform.

Look at the perfectly round world above your head.

At this moment, a faint smile couldn't help but appear on his face.

An Tianzuo waved his right hand.

The vast world hanging in the sky quickly shrunk and flew upside down.

Soon it disappeared into the Dantian Qi sea.

Normally.

After the Eternal Emperor merges with the Tao, he usually hides the world of his evolution in the void interlayer.

Thus.

Even if you die unexpectedly, you can still be resurrected in the world.

But for An Tianzuo now.

Obviously it's not necessary.

Because in the near future.

They will follow the footsteps of the Holy Lord and rush into the abyss of destruction.

The rules of Hongmeng Yuantian are definitely different from those of Chaos River.

The Eternal Emperor falls in the river of chaos and can be resurrected in the world.

But he fell in the abyss of destruction, and the world was placed in the river of chaos.

Then there is no possibility of resurrection.

That being the case.

The world they themselves evolved into naturally has to be carried with them.

In order to better display their strength.

An Tianzuo put away the world and immediately flew down from the high platform.

He quickly walked to the master of the desert courtyard and others, and said gratefully.

Section 1325

"I am really grateful for your protection of the Dao."

The head of the Desert Academy responded with a smile.

"Haha, Daoyou, you are welcome."

"This is what we should do."

"Daoyou, at this critical moment, successfully merged with the Dao forever, which is really gratifying."

"Congratulations, congratulations."

The other Eternal Emperors around also echoed.

"Congratulations to Emperor Tianzuo for merging with the Dao forever."

"In the future, we can work together, follow the footsteps of the Holy Lord, and fight together to destroy the Absolute Abyss."

"I hope we can all transcend the Chaos River and successfully enter the Hongmeng Source Heaven, haha."

The Eternal Emperor of the Holy Realm was talking and laughing with An Tianzuo.

This made the group of God King monks of the Donghua Palace next to him show envy.

They not only envied An Tianzuo for taking a key step and entering a higher realm.

The most important thing is.

Only by advancing to the Eternal Realm can we follow the footsteps of the Holy Lord and transcend the Chaos River.

An Tianzuo fought hard and finally caught the last train.

And they had to stay in the Chaos River and missed the only chance to transcend.

How could everyone not envy them.

Looking at the longing look of the crowd.

An Tianzuo stepped forward quickly.

He smiled and said.

"You don't have to worry."

"I still know what the Holy Lord is like."

"When it comes to the final departure, he will definitely take everyone with him."

"He won't leave everyone in the Chaos River."

"Don't worry."

...

Chapter 923 Is the Galaxy Saint Lord about to break through the Supreme Realm?

After listening to An Tianzuo's analysis, everyone nodded excitedly.

Especially Wang Guofeng and other old people who followed Zhang Yuhe a long time ago.

They have reacted now.

An Tianzuo is right.

How could the Galaxy Saint Lord forget them when he left.

Wang Guofeng looked back on the past.

From Blue Star to Yufantian, from Yufantian to the Immortal Realm.

From the Immortal Realm to the Chaos Sea, which is now the Galaxy Saint Realm.

Zhang Yuhe has never forgotten these old friends.

No matter how high Zhang Yuhe reaches, he will always think of helping his old friends.

If it weren't for Zhang Yuhe's care, how could they have achieved what they have today?

Thinking of this.

Everyone couldn't help but breathe a sigh of relief.

Before, it was them who didn't turn around.

Always thinking that the announcement of the Dao League said that only the Eternal Emperor could follow and kill into the Destruction Absolute Abyss.

Transcend from the Chaos River.

And most of them can't be promoted to the Eternal Realm before the final action.

For this reason.

Everyone is so envious of An Tianzuo's success in the integration of Taoism.

Now it seems.

They seem to be too worried.

Even if they can't be promoted to the Eternal Realm for the time being, it doesn't matter.

The Galaxy Saint will definitely take them away.

After all, the Saint has already integrated Taoism into eternity, and has evolved an unprecedented vast world.

As long as they are placed in the world, can't they be brought out of the Chaos River directly?

It's just a small matter.

I think Senior Qingyangzi won't mind.

They thought things too complicated before.

After changing their minds.

Everyone felt relieved instantly and came forward to congratulate An Tianzuo.

Li Tianxing shouted happily.

"Tianzuo, you are still fast, and now you are ahead of everyone again."

"Don't forget us old friends in the future."

An Tianzuo responded with a smile.

"I am just a small step ahead temporarily."

"I believe everyone can catch up soon."

"When we reach Hongmeng Yuantian, the rules of the avenue there will be clear."

"I think by that time, everyone can easily cross the bottleneck and take a step forward."

Everyone was talking and laughing happily.

At this time.

Donghua God King looked at the Desert Dean and others next to him, and he spoke respectfully.

"Thank you all, seniors, for protecting Tianzuo."

"Now that Tianzuo has successfully broken through, this is an unprecedented event in Donghua Palace."

"Please come to Donghua Palace and have a few drinks."

The head of the Desert Academy laughed.

"That's right, the Holy Realm hasn't produced an Eternal Emperor for many years."

"It's true that we need to have a few drinks."

After saying this.

Everyone flew up and quickly flew towards the direction of the Zhenshi Tianguan.

...

After the Dao League issued the announcement, the entire Chaos River fell into an unprecedented cultivation frenzy.

Especially those cultivators who are at the peak of the Divine King Realm.

They all secretly accumulated strength and fought hard.

Hoping to catch the last train to transcend the river.

A large number of cultivators at the peak of the Divine King Realm began to try to achieve the Eternal Merge.

It's a pity.

The Eternal Bottleneck is indeed very serious.

After all, there are only a few people who have successfully merged with the Dao like An Tianzuo.

...

The Dao League's headquarters, Chengtiantai.

Almost every once in a while, there will be a strong spiritual energy frenzy.

Sweeping the four directions with Chengtiantai as the center.

This is because there are disciples of the Dao League who are in the process of combining the Dao Yongheng.

Even under Chengtiantai, there are often disciples waiting in line to use it.

To be honest.

Since the establishment of Chengtiantai, it has never been so popular.

It is rare to have a Hedao at ordinary times.

Now everyone is lining up to come.

When the Dao League Master issued an announcement in the Dao Discussion Exchange Area.

Those Dao League disciples under the Eternal began to rub their hands.

Prepare to give it a try.

Section 1326

After all, the God King monks who can join the Dao Alliance are all the best in the world.

Everyone is pretentious about being extraordinary, how can they be willing to be inferior to others?

In the past, everyone was not too anxious.

Be prepared to lay a solid foundation so that you can go further in the future.

But that's obviously not possible now.

Time is running out now.

They must advance to the eternal realm before the end of this era.

Otherwise.

You may miss forever the opportunity to transcend the long river of chaos.

As a genius of the world.

How could they be willing to do so?

Fortunately, the Dao Alliance has countless resources and everyone has a solid foundation.

Just prepare properly.

The possibility of successfully joining the Tao for eternity is indeed much higher than that of people outside the Tao Alliance.

At this time, on the rooftop.

A Dao Alliance disciple was standing quietly on the high platform.

above his head.

A huge cosmic world has gradually taken shape.

This person has already successfully merged with the Tao, and the evolution of the world has basically been completed.

All that's left is to draw in the aura of divine power and slowly polish it.

At this time, it is below the Tiantai.

There are five or six Dao Alliance disciples waiting anxiously.

They are also preparing to come here to join forces.

even though.

The monks of the God King are in harmony with the Tao for eternity and do not need too much attention.

Even in the long river of chaos, choose a place at will.

Hedao can also be performed.

But they didn't do that.

Because everyone understands it very well.

This Heaven-bearing Platform built with great effort by several Lords was of great help to the success of the God-King monks' union.

Not only can it help the God King monks, but it can also draw the breath of divine power more easily.

Moreover, it breaks the eternal bottleneck for monks and stabilizes and evolves the world.

All of great help.

The Dao League has Chengtiantai, a powerful auxiliary formation.

Of course they should make good use of it.

It is impossible to be like those ordinary god king monks in the river.

Just find a place and start Hedao.

No one could be that stupid.

As for saying.

The number of seats in Chengtiantai is now very tight, so you need to queue up to use it.

But what does it matter?

The eternity of a monk's union can only last a few million years at most.

There are still tens of trillions of years left before the end of this era.

They can afford to wait.

Even if it's just to increase the chance of success in Hedao.

They also have to wait.

No one wants to take risks.

Several Dao Alliance disciples looked towards the direction of Chengtiantai in the distance.

One of the Dao Alliance disciples smiled and said.

"Fellow Daoist Yue Heng should be finishing soon, and it will be my turn next, haha."

"In order to use this Fangcheng Tiantai, I have been waiting in line for almost 30 million years."

"It's finally my turn."

This Dao Alliance disciple hasn't finished speaking yet.

Just at this time.

The frenzy of spiritual energy that was originally gathering towards Chengtiantai seemed to be subject to some terrible suction.

Suddenly it changed direction and rushed towards the distance.

See this situation.

Everyone couldn't help being surprised.

"How is this going?"

"Why did Chengtiantai's pulling power on spiritual energy suddenly disappear?"

"wrong."

"What's that place over there?"

"Why are the divine auras around me rushing that way?"

"Even the great formation at Chengtiantai was completely suppressed."

Everyone looked into the distance.

I saw a huge spiritual energy vortex slowly taking shape.

Let alone Chengtiantai.

The spiritual energy vortex that suddenly appeared on that side almost covered half of the Dao Alliance station.

See this situation.

Everyone couldn't help being shocked.

After a long time.

One of the Dao Alliance disciples seemed to have remembered something.

He reached out and pointed to the huge vortex of spiritual energy in the distance, and shouted loudly in shock.

"It seems to be the place where Holy Lord Galaxy practices."

"Is the Galaxy Holy Lord about to break through to the Supreme Realm?"

...

Chapter 924 Stable

At this time, Emperor Yue Heng on the Chengtian Platform was completely confused.

Originally, it should have been the most exciting moment for him to successfully merge.

However, I never thought about it.

Now he is just evolving the world into shape, but it has not yet been truly perfected.

However, all the aura of divine power around him disappeared.

No aura.

This leaves him with nothing else to do but continue to evolve and improve the world.

Looking at the huge spiritual energy vortex hanging high in the sky in the distance.

Emperor Yue Heng was speechless.

he knows.

Over there is the place where the Galaxy Holy Lord retreats.

over the years.

The Holy Lord of the Galaxy has continuously broken through many small realms.

Moreover, every time the Galaxy Holy Lord breaks through, he will set off a large-scale spiritual energy frenzy.

It's just that the area near Chengtiantai is protected by a formation.

The previous spiritual energy crazes had not affected the Dao Alliance disciples here.

Emperor Yue Heng never thought of it.

When he was still evolving the world, he happened to meet Zhang Yuhe who broke through to the Supreme Realm.

"I deserve my bad luck."

Think of this.

Emperor Yue Heng's face was full of helplessness.

He waved his hand.

Section 1327

The world suspended above his head slowly fell into his palm.

Looking at the world he evolved.

Emperor Yue Heng muttered to himself.

"Fortunately, the world has evolved into shape, but it is not perfect yet."

"Just leave it for later polishing."

Thinking of this.

Emperor Yue Heng took a deep breath and slowly integrated the world into his body.

Although he was really unlucky, he happened to encounter the breakthrough of the Galaxy Saint Lord.

But fortunately.

He has at least succeeded in merging with the Tao and successfully promoted to the Eternal Realm.

It does not affect his future to follow several lords and transcend from the Chaos River together.

It's just because the world he evolved is not perfect enough.

His strength is definitely weak among the Eternal Emperors.

But it doesn't matter much.

There will be a chance to make up for it in the future.

Thinking of this.

Emperor Yue Heng flew down from the Chengtian Terrace and silently looked at the huge spiritual vortex in the distance.

At this time, the Chengtian Terrace was empty.

But none of the Dao League disciples who were waiting below went up.

Now the divine energy around has been swept away by Zhang Yuhe.

Not to mention the eternal union of Dao, even normal cultivation cannot do it.

In this case.

Why are they still going up?

Just wait honestly.

After the breakthrough of the Galaxy Saint Lord, it will not be too late for them to go on stage to unite Dao.

...

The spiritual energy frenzy swept the entire Dao League station and quickly spread to the distance.

Countless Dao League disciples who were in retreat had to interrupt their retreat and walked out of the cave.

There was no way.

The divine energy around was completely out of control.

Even if they wanted to practice forcefully, it would not have any effect.

Maybe it would cause trouble.

When the spiritual energy frenzy rose.

Yuan Zun and other Dao League masters quickly flew out of the cave.

Everyone quickly gathered together.

Looking at the huge spiritual energy vortex in the distance.

Everyone couldn't help but show shock on their faces.

Yuan Zun muttered to himself.

"It's really too fast."

"It's less than 10 trillion years."

"The Lord of the Galaxy has really reached this point and is about to break through to the Supreme Realm."

The Lord of Yin and Yang next to him also echoed and said.

"Yes."

"Maybe after a while, everyone will call him the Lord of the Galaxy."

"To be honest."

"I have never thought that someone would practice as fast and smoothly as him."

"In the Lord of the Galaxy, I don't seem to see all kinds of difficulties and obstacles on the road of practice."

"Everything is so smooth."

"He doesn't even need to go out for training, nor does he need all kinds of auxiliary spiritual medicines or magic pills."

"It seems that just by closing the door, he can cross one realm after another and keep breaking through."

"This is simply not a human."

"Is he the reincarnation of a saint in Hongmeng Yuantian?"

"Otherwise."

"All this is really too hard to explain."

Looking at the huge spiritual energy vortex in the distance and the handsome figure on the high platform.

Everyone was silent.

To be honest.

In fact, as early as the beginning, when they were at the Gate of Fortune.

Everyone had thought about it.

According to Zhang Yuhe's previous cultivation progress.

He did have a great chance to quickly advance to the Supreme Realm.

At least before the end of this era.

Zhang Yuhe had a chance to achieve the Supreme Realm.

In order to improve Zhang Yuhe's cultivation speed and ensure that before the final action.

Zhang Yuhe could successfully break through.

Yuan Zun and others had spent a lot of effort, and they almost emptied the entire Dao League's assets.

To create the Wanyuan Guiyi Formation in front of Zhang Yuhe.

In their opinion.

Zhang Yuhe must succeed, and must succeed.

However, when this day came.

Everyone was still a little confused and a little uncomfortable in their hearts.

After all, these people have cultivated for countless chaotic eras.

This is how they have reached their current realm.

And Zhang Yuhe only took 10 trillion years.

He finished the road that they had walked for countless years.

The huge contrast in it.

It's really hard to adapt.

After a long time.

Yuan Zun took a deep breath, and then slowly spoke.

"It should be stable now."

"Fellow Daoist Yinhe has been promoted to the Supreme Realm."

"With his extraordinary fighting power."

"In the future, we will finally be able to fight our way out of the Chaos River and the Destruction Abyss."

The Lord of the Void next to him also responded.

"Yes."

"Fellow Daoist Yinhe's strength is unfathomable."

"When he summoned the Gate of Creation before, his vast avenue of power."

"It is still fresh in my memory."

"It feels like when he was in the Eternal Realm, he was several levels stronger than us Supremes."

"Now he has broken through again and successfully promoted to the Supreme Realm."

"I really can't imagine it."

"Once Fellow Daoist Yinhe bursts out with all his strength, how terrible it will be."

"Although I have never been to the Destruction Abyss, I have never really seen it."

"How powerful are the Destruction Beasts there."

"But in my opinion."

"No matter how many Destruction Beasts there are, no matter how strong they are."

"It is impossible to stop them, fellow Galaxy Daoist of the Supreme Realm."

After listening to the words of the Void Lord.

Everyone nodded silently.

They have practiced for countless years, and their knowledge is naturally not comparable to that of ordinary people.

Section 1328

Zhang Yuhe's strength has long surpassed that of monks of the same level.

You don't even need to make a special explosion, you can easily go against the odds and get into the realm.

Once he breaks out with all his strength, it will be his strongest strength.

You can even fight across two major realms in a row.

This is not their blind guess, but a result that has long been confirmed.

Back when Zhang Yuhe was still in the God King Realm, he could kill the Invincible Supreme in a row.

Later, he was able to easily hunt Chaos Beasts. Killing Chaos Beasts was as easy as killing a chicken.

To know.

The chaos beasts in the river are not comparable to those pseudo-supreme beings.

Except for the lack of divine passage methods.

The strength of almost every Chaos Beast is equivalent to the true Supreme Realm.

That is to say.

Zhang Yuhe already had supreme strength when he was still in the God King Realm.

Now he has broken through to the Supreme Realm.

Who dares to imagine how strong he will be?

No one dares to think about it.

But there is one thing that everyone can be sure of.

That is.

Their plan to transcend the Chaos River is now basically stable.

Zhang Yuhe is so strong.

Do they still need to worry?

Just follow behind and hang out.

He stayed there until Zhang Yuhe fought his way out of the Destruction Abyss and reached Hongmeng Yuantian.

Think of this.

A faint smile couldn't help but appear on everyone's faces.

...

Chapter 925 Qingyangzi's thoughts

The spiritual energy frenzy swept across all directions and soon spread to the entire Chaos River.

The violent spiritual tide seemed to have received some kind of summons.

It quickly rolled towards the direction of the Dao League's headquarters.

Countless monks were awakened by this.

Recently.

Due to the widespread spread of the Hongmeng inheritance, monks from all over the Chaos River have basically fallen silent in their cultivation.

People rarely go out to experience, and not many people hang out.

Everyone is focused on spiritual practice and wants to complete the revision of the practice as soon as possible.

So that we can reach a higher level in the future.

However.

This sudden spiritual energy frenzy directly interrupted everyone's training plans.

The spiritual tide spreads across the world.

Almost every corner of the entire Chaos River was affected by the spiritual energy frenzy.

The spiritual energy riots in various places are all rushing towards the Dao Alliance's headquarters.

It's not under control at all.

How can they practice cultivation?

It's impossible to practice at all.

Countless monks walked out of the cave and entered the river of chaos.

Seeing the spiritual energy surge in the distance, everyone was speechless.

The last time the Holy Lord of the Galaxy joined forces for eternity, he also came here once.

Now again.

Who is this powerful person, doing something big?

If this happens every once in a while.

Then do they still want to practice?

Think of this.

Everyone is depressed and helpless.

no doubt.

To be able to set off such an exaggerated spiritual energy frenzy in the Chaos River is obviously not an ordinary person.

At least not one they can afford to offend.

It's just that everyone is curious.

Who is it this time?

It can't be the Holy Lord of the Galaxy again, right?

The last time the Holy Lord of the Galaxy united for eternity was less than ten trillion years ago.

It's impossible for him to break through to the Supreme Realm in such a short period of time.

impossible.

Absolutely impossible.

The entrance to a certain universe.

A group of eternal emperors looked at the spiritual energy craze rolling forward in the distance.

Everyone was silent for a long time.

After a while.

One of them said in amazement.

"Sure enough, the prosperous age has arrived."

"I didn't expect that there would be anyone other than the Holy Lord of the Galaxy in this chaotic river."

"There are actually such terrifying geniuses who can set off such an exaggerated spiritual energy frenzy."

"I don't know who this person is, why have I never heard of him before?"

The Eternal Emperor next to him hesitated for a while.

Then he shook his head and said.

"It shouldn't be possible."

"in my opinion."

"It is impossible for another such heaven-defying figure like the Galaxy Holy Lord to appear."

"Perhaps this spiritual energy craze is also related to the Galaxy Holy Lord."

"After all, nearly ten trillion years have passed since the last time he united for eternity."

"Maybe the Holy Lord of the Galaxy is really breaking through to the Supreme Realm."

Hear this.

The person who spoke before immediately shook his head in denial.

"This is impossible."

"No matter how much the Holy Lord of the Galaxy defies heaven."

"It's impossible for him to break through to the Supreme Realm in such a short period of time."

"That's the supreme realm."

"In the endless years of the Chaos River, only the nine lords of the Tao Alliance have reached such a state."

"Probably not the Holy Lord of the Galaxy."

"This spiritual energy craze may have another reason."

"Then what do you think is the reason?"

"Do you think it could be the senior Qingyangzi who has never shown up?"

Speaking of which.

Everyone couldn't help but fell into silence.

They also learned about the existence of Qingyangzi from the Dao League's announcement.

to be honest.

If it weren't for the nine lords of the Dao Alliance who jointly issued an announcement.

Everyone may not want to believe it.

This vast and boundless river of chaos is actually just a world created by humans.

This statement is really a bit scary.

Section 1329

They turned out to be living in a world created by others.

Isn't this scary enough?

in everyone's thoughts.

If they are in a world created by others, their life and death can be easily controlled by others.

to be honest.

This feeling is indeed difficult to accept.

But everyone knows it.

The nine great lords of the Dao League jointly issued an announcement, which obviously couldn't be a joke.

This must be true.

The long river of chaos is really a world created by others.

The person who created this world is Senior Qingyangzi.

A person who can create such a vast world.

No matter how much commotion he caused in the world.

No one will be surprised.

So when Qing Yangzi was mentioned, everyone unnaturally fell into silence.

No one dared to speak.

They are not Zhang Yuhe, and they do not have Zhang Yuhe's knowledge and strength.

In their view.

Even if Qingyangzi is seriously injured, he is still the master of this world.

It is the sky of the entire chaotic river.

In the face of such power.

How dare they say anything.

Their cognitive limitations made them completely in awe of Qingyangzi.

Didn't dare to speak at all.

...

The source of the long river of chaos.

When the spiritual energy craze swept over.

A magnificent and tall portal slowly rose from the endless void.

This is the door of creation.

The frenzy swept across the Chaos River, summoning the Gate of Creation once again.

Qingyangzi's illusory figure slowly appeared on the Gate of Creation.

Looking at the boundless craze in the distance.

Qingyangzi couldn't help but show a look of shock.

He stared blankly at the frenzied sky in the distance.

After a while.

Then he muttered to himself.

"It's so fast."

"I didn't expect he actually did it."

"Unexpectedly, in such a short period of time, I have broken through from entering the eternity of Hedao to the supreme state."

"Such a terrifying genius, even Hongmeng Yuantian, seems to have never appeared before."

"Even the thirty-three saints of Hongmeng were not so exaggerated back then."

Qingyangzi looked into the distance quietly.

As the master of this world.

All changes in the chaotic river naturally cannot escape his perception.

As long as he wants.

You can see the past and present lives of everyone in this long river.

Qingyangzi paid even more attention to Zhang Yuhe.

He had carefully read Zhang Yuhe's cultivation track.

In Qingyangzi's view.

If you want to use one word to summarize Zhang Yuhe's cultivation career.

That must be [smooth].

Zhang Yuhe's life was really smooth.

From an ordinary mortal, he is now about to break through to the supreme realm.

I actually didn't encounter any difficulties.

Everything fell into place, it was simply exaggerated.

If this world is not under my control.

Qingyangzi even had some doubts.

Is Zhang Yuhe that kind of so-called son of heaven?

But Qingyangzi knew.

no.

Zhang Yuhe is just a monk with excellent talent, great luck, and a very calm mind.

If these qualities were taken individually, they would not be too outstanding.

In the vast Hongyuan Heaven, you can definitely find many such people.

However, people like Zhang Yuhe combine many perfect qualities into one person.

This is simply a myth.

Qingyangzi is a little doubtful now.

It is really possible for Zhang Yuhe to achieve enlightenment and become a saint in the future.

Become the thirty-fourth in Hongyuan Heaven, an omnipotent saint.

"fair enough."

"Zhang Yuhe was born in Qingyang Realm, and he has a natural connection with me."

"Maybe in the long future, I can take advantage of his momentum and take another step forward."

Think of this.

Qingyangzi couldn't help but reveal a faint smile.

As for saying,

In the future, he will break out of the abyss of destruction and return to Hongmeng Yuantian.

Qingyangzi is not worried anymore.

Zhang Yuhe should be able to lead them out with such a defiant figure.

Chapter 926 Lord of the Galaxy

Since Zhang Yuhe's breakthrough, the raging spiritual energy craze has continued for nearly a billion years.

during this time.

The monks throughout the Chaos River are in complete torment.

Originally everyone was thinking about it.

Now that we have the more mysterious Hongmeng inheritance, we should seize the time to practice.

As a result, Zhang Yuhe broke through and did this.

All the aura of divine power in the entire Changhe world was swept away.

They can't practice at all.

Everyone can only wait.

Nothing can be done.

Those monks with lower realms are relatively better off.

Although the spiritual energy craze set off by Zhang Yuhe also affected the interior of various universes and worlds.

But these cosmic worlds are protected by their origin after all.

The spiritual energy swept away by Zhang Yuhe was not very much.

Those monks who are above the God King realm may have too thin spiritual energy and cannot practice normally.

But those low-level monks basically don't matter.

Anyway, when they usually practice, they don't have high requirements for spiritual energy.

The influence from Zhang Yuhe is not great.

You can still practice normally.

It's just that their training speed will be slower than usual.

It's still acceptable.

Section 1330

...

The Taoist Alliance is stationed, and all sources return to the great formation.

Zhang Yuhe closed his eyes slightly and sat quietly on the high platform.

As the Chaos Gods and Demons Scripture slowly circulates, endless spiritual energy surges forward.

The spiritual energy passes through the meridians and quickly gathers into the Dantian.

At this time, boundless waves had already set off in the sea of his dantian.

With the continuous influx of spiritual energy, Zhang Yuhe's aura is slowly improving.

Not only that.

The mini world floating above the high platform is also constantly expanding and evolving.

The towering tree that was originally rooted in the void in the center of the world has long since disappeared.

Instead, there was Wu Yiyi's beautiful figure.

When Zhang Yuhe first started to break through.

Wu Yiyi had already woken up from her realization.

But she didn't come out of the Milky Way.

Instead, he transformed into a human body and stood quietly in the void, silently paying attention to the handsome young man sitting cross-legged on the high platform.

As time passes slowly.

Wu Yiyi couldn't help but feel a little anxious.

She muttered to herself.

"Why did it take so long?"

"According to the records in the classics, the nine lords of the Dao Alliance were making a breakthrough that year."

"It probably only takes about tens of millions of years."

"Why does it take so long for Zhang Yuhe to break through to the Supreme Realm?"

"There won't be any accidents."

However, there was nothing Wu Yiyi could do as her strength was low.

It is still only the God King Realm.

And being in the Galaxy Sky, she could not see the changes in Zhang Yuhe.

She could only look through the layers of void and silently pay attention to the person who made her worried and worried.

...

Far away from the high platform.

Yuan Zun and others stood quietly in the void.

Over the past billion years.

They never left, but quietly paid attention to Zhang Yuhe on the high platform in the distance.

Although these people had been promoted to the Supreme Realm countless years ago.

But watching others break through can still benefit them a lot.

not to mention.

Zhang Yuhe is not an ordinary person.

If they can, in the aura of Tao Yun surrounding Zhang Yuhe.

Feeling a little bit.

That will save them a lot of detours in the future.

Everyone looked into the distance silently.

I saw that the aura around Zhang Yuhe was gradually rising.

The vast divine power covered the sky and the sun, and even completely enveloped the entire Dao Alliance station.

Zhang Yuhe did not deliberately show off, just a little bit of dissipated power.

He suppressed the many Dao Alliance disciples in the station and did not dare to move at all.

Especially those Dao Alliance disciples in the God King Realm.

Facing the vast divine power, they were almost crushed to the ground.

Near Chengtiantai.

Those few Dao Alliance disciples who were waiting for the eternal union.

At this time, there were even more complaints.

Because they are closer to Zhang Yuhe, the suppression force they receive is naturally stronger.

Everyone sat cross-legged, gritting their teeth and silently operating the technique.

To make yourself feel better.

At this time, a Dao Alliance disciple said helplessly.

"How long will it last for the Holy Lord of the Galaxy to break through to the Supreme Realm this time?"

"To be honest, I almost can't bear it anymore."

"I should have known that was the case."

"I should have stayed away from the Dao Alliance station and found a remote place to join the Dao."

"Hey, who says it isn't?"

"This repressive force is really too harsh."

"We are also God King monks after all, but we can't even withstand even a trace of the remaining power emanating from the Galaxy Holy Lord."

"It's a bit embarrassing to say it."

"Tch, there's nothing to be ashamed of."

"Do you think we are the only ones being suppressed?"

"Let's go to the discussion area and have a look."

"Now the entire Dao Alliance station is shrouded in the divine power of the Galaxy Holy Lord."

"All the disciples below eternity have been suppressed to the point of being unable to move."

"So don't laugh at anyone, it's the same for everyone."

"Hey, is the Supreme Realm so scary?"

"The Holy Lord of the Galaxy has not yet completed his breakthrough, and he can dominate all directions with his divine power."

"If you wait until the promotion is successfully completed, how powerful will it be?"

"I just can't think of it."

"People are different."

"Even if they are both in the Supreme Realm, they are still quite different."

"When the other Lords broke through back then, they definitely wouldn't be as fierce as they are now."

"Otherwise."

"Before the Galaxy Holy Lord breaks through, several Lords will definitely ask everyone to evacuate from the station in advance."

"How can it be as embarrassing as now?"

"Right."

"Who could have imagined that the power of Galaxy Holy Lord's breakthrough would be so terrifying?"

"I guess the lords didn't think of it, right?"

"Bake it up slowly, Galaxy Holy Lord is probably coming to an end soon."

"I hope so."

"If it drags on any longer, I suspect I will be crushed."

Yuan Zun and others stood quietly in the void.

They naturally saw the situation of those Dao League disciples.

despite this.

They did not intervene.

He didn't come to the rescue either.

In their view.

Under the divine power of Zhang Yuhe, there are only benefits and no harm to those Dao League disciples.

Maybe after experiencing the suppression of this vast divine power.

Many of those Dao League disciples may undergo a complete transformation.

For these Dao League disciples.

Zhang Yuhe's terrifying suppression power is not a disaster, but a once-in-a-lifetime opportunity.

Everyone looked into the distance silently.

Feeling the rising aura of Zhang Yuhe in the distance.

Yuan Zun muttered to himself.

"It should be almost a breakthrough."

"It's just a breakthrough, but it lasted for nearly a billion years."

"It's really unheard of."
