Section 1341

Can they really make it out?

Things that Qingyangzi couldn't do back then.

With the addition of the Eternal Emperors and the Invincible Supremes from the Chaos River, is it possible to do it?

Originally, everyone had some doubts.

But when they heard Zhang Yuhe's confident words.

Everyone was finally relieved.

Because they all know it very well.

The Holy Lord is a low-key person, and he never speaks big words.

Now I dare to make such bold statements.

It is obvious that the Holy Lord's strength has reached some incredible level.

Only then will the destructive monsters in the abyss be taken seriously.

Zhang Yuhe looked into the distance.

He didn't pay attention to everyone's thoughts.

It doesn't matter what you think.

If you are willing to go with us, just go with us.

He never forced anything.

In fact.

The announcement issued by Daomeng did not force anyone to do so.

Not so much a summons.

It's more like an announcement.

Inform all monks above the Eternal Realm in Chaos River.

We're leaving.

If you want to come along, just come.

Zhang Yuhe looked at the Milky Way Holy World in the distance.

In everyone's surprised eyes.

I saw him wave his right hand.

A huge sky and earth suddenly enveloped all directions, enveloping the Galaxy Holy World and surrounding areas.

follow closely.

Everyone was shocked to find out.

The Holy World of the Galaxy, which had stood in the Chaos River for countless years, was actually moving slowly.

Slowly plunged into the vast world, and then disappeared without a trace.

Everyone suddenly discovered.

They can't sense the existence of the Holy World at all now.

It was as if the entire holy world had completely disappeared.

Zhang Yuhe waved his right hand.

The vast world shrank rapidly and was quickly put away by Zhang Yuhe.

"this....."

At this time, everyone was shocked and speechless.

Of course they know where the Milky Way has gone.

That was taken away by the Holy Lord.

What kind of strength is this?

It can actually take away a chaotic universe completely.

They can't imagine it and don't dare to think about it.

"No wonder the Holy Lord is so confident."

"This kind of miraculous strength has probably exceeded the endurance limit of the Chaos River, right?"

Everyone was thinking silently in their hearts.

...

Chapter 934 The emperor is like clouds, the supreme is like rain

At this time, there is still a peaceful atmosphere in the Galaxy Holy World.

The monks in the holy world did not know that they had been completely removed from the river of chaos by Zhang Yuhe.

Zhang Yuhe will take them to the endless distance.

The highest holy land in the world of spiritual practice, Hongmeng Yuantian.

When one person attains enlightenment, chickens and dogs ascend to heaven.

Nothing more than that.

The Eternal Emperors nearby watched Zhang Yuhe put away the Galaxy Holy Realm.

Everyone couldn't help but feel excited and extremely proud.

This is their Holy Lord.

The omnipotent Holy Lord.

...

One hundred thousand years later.

Somewhere outside the Dao League station.

A huge high platform stood quietly in the void.

There were so many people around the high platform that it was impossible to see beyond.

Everyone here exudes a powerful aura.

Shockingly, they are all above the eternal realm.

Although there was a huge crowd of monks around, they slowly approached the high platform in an orderly manner.

Waves of dazzling light continued to rise on the high platform.

Whenever the light flashes.

Tens of thousands of people disappeared instantly.

follow closely.

Tens of thousands more people quickly climbed onto the high platform.

This goes on and on.

The number of Eternal Emperors gathered around them slowly began to decrease.

The high platform in front of him is the super teleportation array temporarily arranged by Zhang Yuhe.

This teleportation array can span the endless void and reach directly near the Gate of Creation at the source of the long river.

Recently.

Countless eternal emperors and invincible supreme beings, through this super teleportation array, continuously teleport to distant gates of creation.

Zhang Yuhe and the nine lords of the Dao Alliance stood quietly in the void.

Looking at the high platform in the distance.

Looking at the number of monks gathered around the teleportation array, it has begun to gradually decrease.

Everyone could not help but breathe a sigh of relief.

Zhang Yuhe looked at Yuan Zun and others beside him and asked calmly.

"This should be the last group of people."

Yuan Zun nodded slightly, then said with a smile

"It's almost there."

"Thanks to Fellow Daoist Galaxy for setting up this super teleportation array."

"Otherwise."

"It's really hard for me to imagine."

"How can we get so many people from here to the Gate of Creation within a hundred thousand years?"

The Void Lord next to him also echoed.

"yes."

"to be honest."

"Although when you set up the formation, I was watching from the side."

"But even now, I still haven't figured it out."

"How did you make this super teleportation array exert such an exaggerated effect?"

"It's actually possible to teleport to such a long distance."

"The Milky Way Dao Gong participates in creation, and we are far away from it."

Zhang Yuhe smiled slightly and responded modestly.

"The two Taoist brothers are very impressed."

Section 1342

"I just gained a little from observing the inheritance left by senior Qingyangzi, and it happened that I came across a new formation method."

Everyone was talking quietly while quietly looking at the teleportation array in the distance.

A few days later.

When the last batch of Eternal Emperors teleported away, the scene finally returned to calm.

Zhang Yuhe waved his right hand.

Formation flags quickly fell on the outside of the teleportation formation.

follow closely.

He quickly pinched the magic formula in his hand.

soon.

A faint light curtain slowly rose in the void.

The light curtain completely enveloped the entire teleportation array.

As the breeze blows.

The light curtain quietly disappeared.

Also disappearing at the same time was the magnificent super formation.

In order to prevent future generations from entering this place by mistake, we were teleported together to the Gate of Creation.

Zhang Yuhe completely sealed the entire teleportation array.

As for after they left.

How will Qingyangzi deal with it?

Then he has nothing to do with it.

After doing all this.

Zhang Yuhe looked around at everyone and said calmly.

"It should be almost the appointed time."

"Let's go there too."

After saying this.

I saw Zhang Yuhe making a stroke with his right hand.

A huge vortex channel slowly appeared in the void.

Everyone did not hesitate and flew up one after another.

He quickly disappeared from the scene.

...

The source of the Chaos River and the location of the Gate of Creation.

At this time, hundreds of millions of monks are neatly arranged in the vast void.

They form a square array of millions and are densely distributed over tens of millions of miles.

Everyone stood quietly in the void, waiting silently.

Just at this time.

A dark vortex channel slowly appeared in the void.

follow closely.

Several vast figures slowly walked out of the passage.

See this situation.

Everyone shouted excitedly.

"Greetings to the Lord."

The shout was like a roaring mountain and a tsunami, shaking the void for hundreds of millions of miles.

Zhang Yuhe looked into the distance.

Looking at the dense phalanx of monks, I couldn't help but secretly marvel.

There are so many people.

Tens of trillions of years have passed since Zhang Yuhe practiced cultivation.

But he had never seen such a huge team of monks.

And the dense phalanx in front of them was no ordinary monks.

Everyone here is a top power in the river of chaos.

Everyone starts at least in the Eternal Realm.

Even the invincible supreme beings, which are usually rare to see, are also numerous here.

I'm afraid there are millions of them.

It's simply exaggerated.

And the number of eternal emperors is even greater.

Zhang Yuhe felt a little dizzy.

According to the legend, the emperor is like passing away, and the supreme being is like rain.

It's nothing more than that.

Yuan Zun saw Zhang Yuhe looking a little shocked.

He smiled and spoke.

"We have statistics."

"The total number of Invincible Supremes involved in this operation is as many as three million."

"As for the lower-level Eternal Emperor, the number is even closer to one billion."

"to be honest."

"I have been here for countless years."

"I never knew,"

"There are actually so many high-level monks in this world."

"The road is boundless."

"In order to pursue the supreme law of the road."

"Now everyone shows up."

Zhang Yuhe opened his mouth slightly.

I didn't know what to say for a moment.

Three million invincible supreme beings and nearly one billion eternal emperors.

This number really shocked him.

The vastness of the river is indeed no joke.

in the long years.

This vast river of chaos has nurtured countless geniuses.

We usually live in different places, and most people have never seen each other.

Because the Chaos River is really too big.

Just like the sea of chaos back then.

Among the more than twenty eternal emperors, no one has ever left the Three Holy Heavens.

The Three Holy Heavens region is so vast and endless.

It is so big that even the Eternal Emperor cannot easily get out.

And areas like the Three Holy Heavens.

I don't know how many there are in the entire Chaos River.

With such a huge area, it is no wonder that there are so many high-level monks.

This time, if it weren't for the Dao Alliance, the teleportation arrays in various places would be open to all Eternal Emperors for free.

It is estimated that most of them still cannot come.

The river of chaos is really too big.

It is so big that even the top powers cannot travel far to other domains.

So much so.

Everyone can only dominate their own one-third of an acre of land, alone and dominate.

If it weren't for the fact that the door of creation was about to open this time, the road to transcendence would be about to begin.

It is estimated that most people here are still staying on their own turf and practicing silently.

...

## Chapter 935 The Gate of Creation Appears

Saw Zhang Yuhe and Lord Daomeng appear.

The scene was filled with cheers.

Most of them have been waiting here for tens of thousands of years.

Under the leadership of Dao League monks.

They are a group of one million people and have been working hard to practice the combined attack formation.

## Section 1343

In the hope that he can enter the abyss of destruction as soon as possible and fight towards the coveted Hongmeng Yuantian.

Now Zhang Yuhe and the Lord Dao Alliance have arrived.

Everyone understands very well.

The final moment of action has arrived.

For this day.

They have been waiting for a long, long time.

Now it's finally here.

Everyone looked at Zhang Yuhe and his party expectantly, their eyes full of eagerness.

Yuan Zun looked into the distance into space.

He looked back at Zhang Yuhe and said.

"Fellow Daoist Galaxy, please summon the Gate of Creation first."

"If the Gate of Creation doesn't appear, Senior Qingyangzi probably won't be able to be resurrected."

"good."

Zhang Yuhe nodded lightly.

The gate of creation is the origin of the long river of chaos.

Moreover, Qingyangzi has long since died. If he wants to be resurrected, he can only rely on the origin of Changhe.

If the Gate of Creation is not summoned.

It is estimated that Qingyangzi will not be able to come out.

Think of this.

Zhang Yuhe looked into the distance and quickly touched the magic formula with his hand.

boom.....

The vast and regular divine power was instantly revealed from Zhang Yuhe.

The avenue rises, and pressure envelopes all directions.

The monks who were shouting around them seemed to have lost their voices in an instant.

The vast rules of the avenue suppress everything around them.

Naturally, this also includes sound.

Fortunately, the people who came to participate in this operation were all pretty good.

Moreover, Zhang Yuhe's mastery of the power of rules has already reached a level as fine as a millimeter.

Although the divine power was leaked, it did not cause any harm to the people around him.

Feel the vast power of rules in the distance.

Everyone was shocked.

"That's the Lord of the Galaxy, he's really scary."

"Just showing the power of the rules can make the void disappear."

"What kind of strength is this."

"It's really hard to understand."

"It feels like if I get even a little closer, I will be instantly crushed to pieces by the terrifying power of the rules."

"Brother, don't feel it."

"We are so far away now that we are so suppressed that we can hardly breathe."

"You still dare to say that you are close?"

"If you can, try taking two steps and see if you can still walk now?"

"Well."

"Speaking of which, Lord Galaxy suddenly showed off his power. What is he doing?"

"besides."

"Didn't you say that the Gate of Creation is here?"

"How come we haven't seen the shadow of the Gate of Creation until now?"

"By the way, there is also the legendary senior Qingyangzi."

"Why haven't you shown up yet?"

"It can't be that the Taoist League is deceiving us."

"What are you thinking about?"

"Do you have anything worth deceiving the Dao Alliance?"

"Take a good look."

"Look at the power of the Galaxy Lord in front of you."

"If he wants to do something, does he still need to lie?"

"I'm afraid all he needs is a small burst of energy to turn us all into scum in seconds."

"That's right."

"Then here's the problem."

"What is Lord Galaxy doing?"

"Could it be that the Gate of Creation is hidden near here?"

"Does the Galaxy Lord need to use his magical powers to summon it?"

"have no idea."

"Watch it carefully."

"The opportunity to understand the rules of Tao Yun so clearly at such a close distance is probably rare to come across again in the future."

"Yes, don't make any noise."

"Perceive it well."

...

Zhang Yuhe quickly pinched the magic formula in his hand and exerted the power of the rules with all his strength.

However, this time he did not activate the Hunyuan Guiyi magical power like last time.

After observing the Hongmeng inheritance left by Qingyangzi, Zhang Yuhe gained a further understanding of the rules of the great road.

not to mention.

His current strength is no longer comparable to that of before.

When I first came here.

He has only just entered the eternal realm.

It is now the ninth level of the Supreme Realm.

The gap in strength is huge,

Now that he summoned the Gate of Creation, he no longer had to expend so much effort.

As the magic formula continues to pinch.

The vast power of rules rolled towards a certain point in the void.

Boom...

Sudden.

Bursts of dull loud noises continued to come from the depths of the void.

follow closely.

A ray of magnificent golden light shot straight out from the void.

In an instant, the entire chaotic river was illuminated.

Everyone looked towards the direction of the golden light.

I saw a vast portal rising slowly in the void.

"The Gate of Creation."

"This is the door of creation."

"Haha, the Gate of Creation finally appeared."

"Daomengguo didn't lie to us."

"There really is a door to creation."

"As long as we pass through this portal, can we enter the abyss of destruction and escape from the long river of chaos?"

"probably."

When the door of creation appears.

Countless Eternal Emperors and Invincible Supremes were present, shouting and discussing.

The opportunity for transcendence finally presented itself.

How could they not be excited about this.

Although the road ahead is dangerous and unknown.

But at least the road has emerged.

All they have to do is move forward.

Even if you die midway.

Section 1344

They won't regret it either.

There is nothing to regret about dying in pursuit of the great road.

Everyone stared at the tall portal in the distance.

Sudden.

An illusory figure slowly appeared on the Gate of Creation.

Zhang Yuhe and several Dao Alliance lords immediately shouted respectfully.

"I've met senior."

Qingyangzi looked at Zhang Yuhe and others in the distance, and then scanned the densely packed Eternal Army of nearly a billion around them.

A faint smile couldn't help but appear on his unreal face.

"You are finally here."

"This time, fellow Taoists are helping me."

"I believe we can definitely break out of the abyss of destruction and enter the vast Hongmeng Yuantian."

Qingyangzi was very emotional.

He took a deep breath.

Then he looked at Zhang Yuhe and others, and then spoke solemnly.

"I'm ready to resurrect the origin."

"The Gate of Creation will then dissipate."

"Without the seal of the Gate of Creation, those destructive monsters in the Jue Abyss will definitely attack the Chaos River."

"You must keep those destroying beasts out of the passage."

"Wait until I'm resurrected."

"Let's all fight out together."

Zhang Yuhe raised his head and looked into the distance, and responded calmly.

"Senior, don't worry."

"Those destroying monsters can't get in."

"Okay, then I'm going to get started."

Hearing Zhang Yuhe's words, Qingyangzi breathed a sigh of relief and responded with a smile.

Although there are nearly a billion monks on site.

There are even nine Dao Alliance Lords.

But in Qingyangzi's view.

Only Zhang Yuhe is the most reliable person.

Because he had discovered it long ago.

Zhang Yuhe not only broke through to the Supreme Realm early.

He has even advanced very far on the road to the Supreme Realm.

He actually reached the ninth level of the Supreme Realm.

Thinking of Zhang Yuhe's terrifying combat power and seeing his current incredible state.

Qingyangzi believes it.

Even if there are some first-class chaos monsters that are comparable to the semi-saints.

Zhang Yuhe should be able to stop it.

That being the case.

Then what is he worried about?

Resurrect quickly and fight out together.

Let's fight together towards the abyss of destruction and return to the hometown that makes people miss each other day and night.

Hongmeng Yuantian.

...

Chapter 936 Don't panic, let me do it

After Qingyangzi solemnly explained a few words.

His illusory figure slowly blended into the Gate of Creation.

Countless people at the scene stared nervously into the distance.

I saw the door of creation suddenly lifted up in the air.

A huge vortex channel appeared in front of you in an instant.

Endless aura of destruction rushed out quickly along the suddenly appeared vortex channel.

The terrifying pressure of destruction rushed towards us, as if the world was about to collapse, making people feel suffocated.

See this situation.

Yuan Zun quickly jumped into the air.

He shouted loudly towards the dense phalanx of monks on the outside.

"According to the rehearsal plan, immediately form a combined attack formation."

"The Destruction Beast is about to rush in."

"We will wait at the entrance of the passage until Senior Qingyangzi is resurrected."

"Let's all fight out together."

"Yes, Lord."

Following Yuan Zun's order.

The nearly one billion Eternal Emperors and Invincible Supremes quickly took action.

Everyone stepped on the formation plate, and their breaths were closely connected.

A combined attack formation composed of millions of eternal emperors, and there are also a large number of invincible supreme masters to control the formation eyes.

Once this kind of formation is fully deployed, its power is absolutely extraordinary.

Even if it is not as good as the true Supreme Realm, it is probably not much different.

Countless monk formations slowly unfolded in the void.

The formation is ring by ring.

Surround the vortex channel in the distance tightly in the middle.

Zhang Yuhe glanced at the whirlpool channel and didn't pay too much attention.

Nothing to worry about.

He's here.

It is impossible for those destroying monsters to get in.

Zhang Yuhe raised his head and looked into the void in the distance.

I saw that the tall Gate of Creation had begun to gradually fade away.

And slowly condensed into a figure.

Zhang Yuhe knows.

This is Qingyangzi being resurrected.

After the monk reaches the eternal realm.

Theoretically, they are immortal and can always be resurrected in their origin.

Of course.

If you die too many times.

If it consumes too much of the source, it's hard to say.

Qingyangzi has been resurrected countless times in his early years in order to break out of the abyss of destruction.

Most of the source of the entire Changhe world was consumed by him.

If it weren't for these years of cultivation.

If the origin of heaven and earth can be restored.

Maybe Qingyangzi might not be able to be resurrected.

Roar.....

Just at this time.

Waves of heart-stopping roars continued to come from the whirlpool channel.

Yuan Zun looked slightly stern, and then said solemnly.

"Everyone, be careful, the Destruction Monster is coming."

Zhang Yuhe looked back and then said calmly.

"Don't panic, I'll come."

After saying this.

I saw him wave his right hand.

The nine divine swords flashed away and quickly fell at the entrance of the vortex passage.

Following Zhang Yuhe, he moved the magic formula.

Section 1345

The surface of the Divine Sword has a vertical and horizontal rhyme, and a sword formation slowly rises.

Completely covering the entire vortex channel.

Roar.....

After the sword formation fell.

The roar of beasts in the passage came from far to near.

There are obviously a large number of destruction monsters, and they are almost reaching the river of chaos through the passage.

Everyone was nervous and stared in the direction of the passage.

Just at this time.

A terrifying breath of destruction rushed towards his face.

Everyone looked up.

I saw wolf-shaped monsters swarming out of the passage.

These destroying monsters are not that big.

It's about the same size as an ordinary prairie wolf.

If it weren't for that one, the aura of destruction would be daunting.

Maybe everyone will still think so.

Where are these little wolves that escaped from somewhere?

With the emergence of a large number of destruction monsters.

The terrifying aura of destruction raged across the world.

The entire chaotic river seemed to have fallen into doom.

snort!

Zhang Yuhe couldn't help but snorted coldly.

I saw him pinching the magic formula in his hand.

The sword array in the distance rose rapidly.

The boundless sword energy swept across all directions.

Those seemingly incredibly powerful monsters of destruction were cut into ashes in an instant.

Not even a bit of dregs is left.

this.....

See this situation.

Yuan Zun and all the Dao Alliance Lords were completely stunned.

The so-called insiders look at the door, while laymen look at the excitement.

They can clearly sense it.

The auras of some of those destruction monsters that just rushed in were even stronger than theirs.

It is conservatively estimated that it is also the supreme starting point.

But even so.

Still unable to stop him, Zhang Yuhe swept across with a sword formation at will.

It's really an exaggeration.

How strong is Zhang Yuhe?

They couldn't understand it at all.

The first batch of destruction monsters that rushed out of the long river of chaos were instantly wiped out by Zhang Yuhe.

However, there are still a large number of destruction beasts rushing out of the whirlpool channel.

It seems like it is endless.

But under the cover of Zhang Yuhe's sword formation.

No matter how many and powerful the monsters were destroyed, they still couldn't stir up even a single wave.

Just like this, it was wiped out silently.

"Is this the strength of the Galaxy Lord?"

"It's really too strong."

The Eternal Emperors and Invincible Sovereigns surrounding the outer formation could not help but exclaim in admiration.

They had only heard some legends before.

Not many people have actually seen Zhang Yuhe take action.

Now I see the exaggerated sword formation and the unparalleled power.

Everyone finally understands.

Why was Zhang Yuhe able to achieve such great fame?

Those world-destroying monsters.

In Zhang Yuhe's hands, they seemed worse than chicken cubs.

So fragile.

It's just outrageous.

It's too exaggerated.

Zhang Yuhe stood with his hands behind his back, looking at the whirlpool passage in the distance.

Countless monsters of destruction swarmed like moths.

It kept pouring out of the channel, and then collapsed in an instant.

This goes on and on.

It seemed like it would never end.

Look at all this.

Countless monks present were completely numb.

They no longer knew what words to use to describe Zhang Yuhe's power.

It's so strong.

So many destroying monsters.

And each of these auras of destroying monsters is so strong.

But under Zhang Yuhe's sword formation.

It's as if all living beings are equal.

Whether it is a fourth or fifth level Destruction Monster with slightly lower strength, or a third level Destruction Monster that is as strong as the Supreme.

None of them could stop Zhang Yuhe from sweeping across with sword energy.

Is this still the Supreme Realm?

I'm afraid those yin and yang powers in Hongmeng are probably no more powerful than this.

It's probably worse.

I saw Zhang Yuhe showing off his power.

Killing the beast of destruction is like cutting grass.

The nearly one billion monks present cheered loudly.

Everyone was extremely excited.

Now that the Lord of the Galaxy is in charge, do they still need to worry?

Maybe after fighting out of the Destruction Abyss, they might not need to take action.

Zhang Yuhe went through several rounds of sword formation.

Can you clean out most of the destroying monsters in the abyss, right?

They just need to follow behind and happily run towards the exit of Jueyuan.

Everyone originally thought.

They want to escape from the Chaos River and reach Hongmeng Yuantian smoothly.

It must have taken a fierce fight.

Maybe there are nearly a billion of them.

The one who can finally break out of the abyss of destruction and reach Hongmeng Yuantian safely may be the only one who can survive.

If you think about it a little more extreme.

Maybe if one of them fails, everyone may be wiped out together.

But now it seems.

They obviously thought too much before.

Zhang Yuhe is so powerful.

Just destroy the monsters, so what's there to fear?

Now everyone just hopes that Qingyangzi can be resurrected as soon as possible.

Then rush into the abyss of destruction.

Kill towards the Hongmeng Yuantian that they yearn for infinitely.

Everyone looked into the void in the distance.

I saw that Qingyangzi's figure had become completely solid at this time.

Section 1346

The aura on his body also rose rapidly.

True Immortal...True God, Divine King.

Almost just a moment later.

The aura on Qingyangzi's body rushed to the supreme realm.

And it continues to slowly improve.

...

Chapter 937 The road is ahead

The aura on Qingyangzi's body rose rapidly.

He rushed to the seventh level of the Supreme Realm and then slowly slowed down.

The monks at the scene looked at the vast power around Qingyangzi in the distance.

Everyone's expressions couldn't help but be a little strange.

"very strange."

"I feel that the aura on Senior Qingyangzi's body is stronger than that of the Dao Alliance Lords."

"But compared to Galaxy Lord, he seems to be much weaker."

"Isn't he a powerful person in the Yin and Yang realm?"

"Why do you feel like you are inferior to the Lord of the Galaxy?"

"There's nothing strange about this."

"Senior Qingyangzi has been seriously injured for many years, and the origin of heaven and earth has been damaged."

"He is definitely unable to return to his peak for the time being."

"All right."

"That makes sense."

Qingyangzi stands quietly in the void.

Feel the change in your own breath.

He couldn't help but take a deep breath.

He said silently to himself.

"Although I haven't been able to return to my peak state."

"But being able to reach the seventh level of the Supreme Realm is already much better than imagined."

"With such strength, coupled with the combined efforts of many monks in Qingyang Realm."

"It should be possible this time. You must have successfully escaped from the abyss of destruction."

Qingyangzi looked around.

When he saw the magnificent sword formation blocking the entrance to the vortex in the distance.

They couldn't help but feel shocked and stunned.

Although he had long known that Zhang Yuhe was very powerful.

It is far from comparable to the Supreme Realm of the same level.

Even most of the great masters in the Yin and Yang realm are probably no match for Zhang Yuhe.

But when he saw.

Zhang Yuhe only relied on a sword formation.

Just like mowing grass, you can harvest waves of destroyed monsters without any pressure.

Qingyangzi was completely uneasy.

Is this still the Supreme Monk?

Even the strongest Yin-Yang realm master in Hongmeng probably wouldn't be able to do it this easily.

If you don't know Zhang Yuhe's past clearly.

He really has to doubt it.

Could Zhang Yuhe be the reincarnation of some saint?

"It's really strong."

"But this is fine."

"There is such a powerful fighting force as Zhang Yuhe."

"This time we will break out of the abyss of destruction."

"It seems there is no problem."

He thought that he would be able to get out of the abyss soon and return to Hongmeng Yuantian smoothly.

Returning to the Holy Land of Shangqing that he longed for day and night.

Qingyangzi was very excited.

Think of this.

Qingyangzi took a deep breath, then quickly flew down in front of everyone.

Yuan Zun led everyone to shout respectfully.

"Congratulations to Senior for resurrecting again."

Qingyangzi smiled and nodded.

He walked quickly to Zhang Yuhe, and then spoke with emotion.

"My Taoist fellow Galaxy is so powerful that it's really amazing."

"With the strength of fellow Taoist."

"Even if we look at the entire Hongmeng, we are probably only below the saints."

"Fellow Taoist Galaxy is here this time."

"There's nothing to worry about anymore."

Hearing Qingyangzi's praise.

Zhang Yuhe quickly cupped his hands and responded modestly.

"Senior has given you too much praise."

"I have only achieved a small amount of success, and I don't deserve such praise from my seniors."

After everyone was polite.

Qingyangzi looked at the whirlpool passage in the distance, and then spoke solemnly.

"Now that everything is ready, it's time to fight towards Jueyuan."

"Everyone must be more careful after passing through the vortex passage."

"The Qingyang Realm is deep in the abyss."

"As long as we rush over."

"We will inevitably encounter the siege of countless destructive monsters."

"And among them there will definitely be first-class destructive beasts whose strength is comparable to that of a semi-saint."

"First-class destruction monsters are powerful."

"Except for Fellow Daoist Galaxy, everyone present is by no means an enemy of Yihe."

"Everyone must pay attention to avoid it."

Hear this.

Everyone responded in unison.

"Senior, please don't worry."

"We have been preparing for this day for countless years."

"Even if they fall into the abyss, no one will retreat even a step."

Qingyangzi took a deep breath.

He looked back at Zhang Yuhe next to him, and then spoke excitedly.

"Fellow Daoist Galaxy, please remove the sword formation."

"Let's fight out together."

"good."

Zhang Yuhe nodded lightly.

He looked around, looked at the Dao Alliance Lords next to him, and then spoke calmly.

"I'll take the lead later, and you can just follow me."

After saying this.

A roll of Zhang Yuhe's sleeve robe.

Nine divine swords flew back quickly in the distance.

follow closely.

Zhang Yuhe jumped into the air and quickly flew towards the whirlpool channel in the distance.

There is no longer the suppression of the sword array.

Countless monsters of destruction rushed out.

However.

Section 1347

Before they could rush out of the vortex entrance.

Zhang Yuhe had already rushed over with boundless power.

Nine divine swords surround the body.

The majestic sword energy bloomed wantonly.

In an instant, all the destroying monsters that rushed out were killed.

Zhang Yuhe didn't stop for a moment.

He protected his whole body with the Nine Heavens Hunyuan Sword Formation and sank directly into the whirlpool channel.

Looking in the direction where Zhang Yuhe disappeared.

Everyone couldn't help but feel excited.

Because opposite is the holy land of practice that they yearn for.

Hongmeng Yuantian.

As long as you pass through the vortex channel, you can reach the abyss of destruction.

And Jueyuan is also part of Hongmeng.

Yuan Zun took a deep breath.

He looked at Qingyangzi next to him, and then asked excitedly.

"Senior, let's set off too."

"Okay, everyone, follow quickly."

After saying this.

Qingyangzi then flew into the whirlpool channel.

Yuan Zun looked around.

Looking at the countless army of monks in the distance.

He shouted to everyone.

"The action begins."

"The great road lies ahead."

"Everyone must move forward bravely and carve a path to heaven for yourself."

"Everyone forms a team of one million people, keeps the formation operating effectively, and enters the vortex channel one by one."

"I wish you all eternal prosperity and immortality."

"let's go."

After saying this.

Yuan Zun then led a group of Dao Alliance Lords and flew into the whirlpool passage.

follow closely.

The huge army of monks followed quickly.

The spaces in the vortex channel are layered on top of each other.

Countless monsters of destruction were rushing wildly in the passage.

However.

Zhang Yuhe took the lead.

He activated the Nine Heavens Hunyuan Sword Formation, facing the huge tide of destruction beasts, and charged forward with an indifferent expression.

No matter how many the oncoming destruction monsters are, how powerful they are.

Even if it is a second-class destruction monster that is comparable to the power of the Yin and Yang realm.

Still unable to block the power of his sword.

Zhang Yuhe is like a warrior going upstream.

The powerful wave of destruction beasts could not stop him even half a step.

So Qingyangzi, who followed closely behind, ran quickly in the empty passage.

Still didn't see Zhang Yuhe's back.

Even the destructive monsters in the passage had already been cleared by Zhang Yuhe.

Nothing stands in the way.

He still couldn't keep up with Zhang Yuhe.

Qingyangzi ran fast all the way, looking a little dazed.

He couldn't see any trace of the existence of the Destruction Beast in the whirlpool channel.

It's like this is just an ordinary passage between heaven and earth.

But the outside is not like a terrifying abyss of destruction.

"It's so strong."

Qingyangzi sighed silently while burying his head in the road.

He traveled across Hongmeng for countless years.

I have never seen a monk as powerful as Zhang Yuhe.

Even the thirty-three saints in Hongmeng.

When there was no enlightenment.

Probably not as powerful as Zhang Yuhe.

"It has to be faster."

"Otherwise."

"In case I go out."

"Zhang Yuhe killed all the destruction monsters outside."

"Then it's a bit too embarrassing for me, a senior in the Yin and Yang realm."

Think of this.

Qingyangzi exploded with all his strength, urging his body and magical powers to run forward quickly.

He doesn't want to win by lying down.

Because that would be very embarrassing.

...

## Chapter 938 Unrivaled Power!

Zhang Yuhe protected his whole body with the Nine Heavens Hunyuan Sword Formation and ran quickly in the whirlpool passage.

Countless destructive monsters were crushed by the sword array.

They all turned into ashes.

Just at this time.

Zhang Yuhe suddenly discovered.

These destructive monsters seemed to emit some special aura after their death.

These special breaths come without any guidance.

It quietly merged into Dantian, and then gradually merged into the Milky Way.

Zhang Yuhe looked at it intently.

Only then did I suddenly realize it.

At this time, the Milky Way Heaven contained in Dantian was unconsciously present.

It has increased several times.

Zhang Yuhe couldn't help but be shocked by this discovery.

"Hunting and destroying monsters actually has such benefits?"

"Can it accelerate the growth of the monks' inner world?"

"I've never heard Qingyangzi say this before."

Zhang Yuhe thought silently for a moment.

I soon figured out why.

Qingyangzi didn't say, maybe he didn't know at all.

Although hunting and destroying monsters, a special aura will flow into the dantian.

But you have to kill enough.

Although it may be beneficial if only a small amount of hunting and destroying monsters is done.

But the special aura produced is really too little.

It was so small that even the monks could hardly detect it.

There is simply no way to detect this change.

to be honest.

If Zhang Yuhe hadn't been paying attention to his inner world.

He probably discovered it all at once.

"Where do these special smells come from?"

"Is it the Hongmeng Heavenly Way, a natural operating rule?"

Section 1348

"Is this a reward for monks to hunt and destroy monsters?"

"Is it a different kind of salvation merit?"

Zhang Yuhe thought silently while running forward quickly.

At this time, his mind couldn't help but become a little lively.

Originally he just planned.

After rushing out of the passage, quickly find a way out of the abyss.

Zhang Yuhe doesn't think so now.

Since hunting and destroying monsters will bring special benefits.

Then he must clean up the entire Destruction Abyss.

Although according to Qingyangzi.

The destruction monsters in the abyss are endless.

No matter how many people are killed, more destroying beasts will appear soon.

But what does that matter?

It's not Zhang Yuhe who wants to bulldoze the entire abyss of destruction.

He just wants to get more benefits.

Think of this.

Zhang Yuhe couldn't help but speed up his running pace.

The vortex channel is deep and long, as if it is never-ending.

I don't know how much time has passed.

Sudden.

A bright light shot over from a distance.

follow closely.

Zhang Yuhe rushed out of the passage, and his eyes suddenly opened up.

Looking at the vast world around me, I felt the extremely heavy aura.

Zhang Yuhe muttered to himself.

"Is this Hongmeng Yuantian?"

"It is indeed a vast and endless world."

"No."

"This can no longer be said to be a world."

"It's endless, it's never-ending."

Although he has just stepped out of the vortex channel.

Zhang Yuhe can still clearly feel the vastness of Hongmeng Yuantian.

It's truly big and the sky's the limit.

Roar.....

While Zhang Yuhe was still deep in thought.

There were waves of terrifying beast roars around him, which soon woke him up.

Zhang Yuhe looked around.

In the vast surrounding world, countless wolf-shaped monsters were seen rushing towards him quickly.

These wolf-shaped monsters are not only exaggerated in number.

And some of them have extremely powerful auras.

Even stronger than Qingyangzi's aura.

"Is this a first-class destructive monster in the semi-sacred realm?"

Looking at several golden destruction beasts in the distance, they exuded a terrifying aura.

Zhang Yuhe quickly concluded.

Those should be the first-class destruction monsters that Qingyangzi said.

His strength is comparable to that of a half-saint.

No one but a saint can be defeated.

"Just let me take a look."

"What kind of existence is a half-saint?"

A sharp look flashed in Zhang Yuhe's eyes.

I saw him wave his right hand.

The sword formation that was originally surrounding them quickly expanded into the distance.

The boundless sword energy swept across all directions.

The destructive monsters encountered on the way.

Whether it is fourth or fifth grade, or second or third grade, there is no difference.

When the sword energy swept across, it instantly turned into a special stream of air.

The Milky Way Heaven quietly gathers in Dantian.

Zhang Yuhe mobilized the Nine Heavens Hunyuan Sword Formation with all his strength.

The sword formation grew wider and wider.

Covered to a very far range.

Just at this time.

The golden destruction monsters that roared just now have also been trapped in the sword formation.

Roar.....

The boundless sword energy quickly sliced through the golden destruction monster.

The vast rules of the avenue instantly suppressed these destructive monsters on the spot.

Just as the most powerful existence in the abyss.

These golden destruction monsters are obviously not comparable to ordinary destruction beasts.

Several rounds of sword energy cut it down.

The magnificent sword array was already completely empty.

The massive amount of destructive monsters were swept away by Zhang Yuhe in an instant.

But those golden destruction monsters are still standing firm in the sword array.

"Hey, there's something there."

"It looks like I need to give you some strength."

Think of this.

Zhang Yuhe's sword tactics turned slightly.

The magnificent sword array quickly narrowed the area.

The terrifying divine power suppressed them.

Roar.....

The golden destruction monster roared in pain.

Then soon, he was struck by the terrifying power of the Nine Heavens Hunyuan Sword Formation.

It was directly crushed into dregs.

Just at this time.

Qingyangzi quickly rushed out of the passage.

He sacrificed his divine weapon and looked into the distance warily.

When I saw the silence all around.

All the destruction monsters have been wiped out by Zhang Yuhe.

Even the first-class Destruction Beast, whose strength was comparable to that of a Half-Saint, was crushed into ashes.

See this situation.

Qingyangzi was completely stunned.

"Is this still the Supreme Realm?"

"That's just the way saints are."

He just couldn't imagine it.

Just how strong is Zhang Yuhe.

If.

When fighting alone.

Zhang Yuhe was able to repel one or two golden destruction beasts.

That's quite understandable.

But what did he see?

Under Zhang Yuhe's sword formation.

Those golden destruction beasts that are as powerful as half-saints seem to be no different from ordinary destruction beasts.

Section 1349

Zhang Yuhe didn't even have to work hard, he was killed so easily.

Qingyangzi is not a person who has never seen the world.

He also participated in the war that swept Hongmeng that year.

He has seen the scene of the saints taking action.

It seems that they are not as relaxed as Zhang Yuhe.

"Is he stronger than the saint?"

I don't know when.

Qingyangzi suddenly had this weird idea in his mind.

He actually thought.

A supreme cultivator would be stronger than a saint.

This is outrageous.

In the hearts of Hongmeng cultivators.

The power of saints has long been deeply rooted.

No matter how powerful a person is, as long as he has not yet achieved the Tao and become a saint.

It is impossible to challenge the authority of the saint.

However, now Qingyangzi saw an alternative.

An alternative who can challenge the saint before achieving the Tao.

"Hongmeng Yuanlai has come such a ruthless person, I don't know whether it is good or bad."

Looking at Zhang Yuhe's unparalleled power in the distance.

Qingyangzi muttered to himself silently in his heart.

He didn't know either.

What kind of changes will the appearance of Zhang Yuhe bring to Hongmeng?

I hope there will be no chaos.

...

Chapter 939 The 34th Saint (The Finale)

With the death of several golden destruction beasts.

Zhang Yuhe clearly felt that several strands of extraordinary special airflows quickly merged into the inner world.

Obviously.

The special breath provided by the golden destruction beast is far from ordinary destruction.

At least several times more.

Zhang Yuhe's expression moved slightly.

He just waved his right hand.

A huge world appeared in the abyss in an instant.

The vast Milky Way expanded rapidly and extended to the periphery.

Zhang Yuhe silently watched this inner world that he had evolved.

He looked back again and saw the Qingyang Realm in the distance.

That is, the Chaos River.

Only then did he realize.

Now his own Milky Way is several times larger than the Qingyang Realm.

You know.

Before walking out of the passage.

The size of the Galaxy Sky is less than one-tenth of the Qingyang Realm at most.

Now because it has absorbed the special aura from the Destruction Beast.

The Galaxy Sky has expanded dozens of times continuously.

This makes Zhang Yuhe very happy.

The world is the source of his power.

As long as the Galaxy Sky is bigger, his strength will also be stronger.

Zhang Yuhe looked into the distance.

He wanted to find more Destruction Beasts to kill.

But the surroundings had already been cleared by him.

There was no target to kill.

Unless he was willing to go further and go deeper into the Absolute Abyss.

Thinking of this.

Zhang Yuhe's expression moved slightly.

Nine figures flashed by his side and quickly killed towards the depths of the Absolute Abyss.

Zhang Yuhe needed to stay here and wait for the follow-up army of cultivators.

It was not convenient to leave for the time being.

But he still had nine clones.

He didn't need to do it himself.

With the power of the nine clones, he could still completely clear the Destruction Beasts in the Absolute Abyss.

...

At this time.

Yuan Zun and others also passed through the passage and quickly arrived in the Absolute Abyss.

Looking at the empty surroundings.

The originally imagined tragic battle seemed to have never happened.

Not to mention the massive destruction beasts.

There were only Qing Yangzi and Zhang Yuhe around.

They didn't even see a hair.

Yuan Zun glanced at Zhang Yuhe in the distance, and then quickly flew to Qing Yangzi.

He asked with a puzzled look.

"Senior, where are those destruction beasts?"

"Dead."

"All killed by fellow Yinhe."

Qing Yangzi responded strangely.

Hearing this.

Yuan Zun was a little confused.

He knew that Zhang Yuhe was very strong.

He also thought of many possibilities.

In his opinion.

The most ideal state should be.

Zhang Yuhe repelled the siege of the destruction beasts and opened up a road to Hongmeng Yuantian for everyone.

He had never thought.

Zhang Yuhe could clean up all the destruction beasts.

Because that was something that the thirty-three Hongmeng saints had not done.

But Zhang Yuhe in front of him seemed to have done it.

Yuan Zun was very confused.

This made him not know what to say for a moment.

He did not dare to ask.

Because he had already seen it.

At this time, the aura of Zhang Yuhe was a little bit wrong.

It seemed to be improving rapidly.

Zhang Yuhe was breaking through?

Just after walking out of the Chaos River, he was about to break through?

This is too exaggerated.

In the vortex channel.

A huge army of cultivators was rushing out continuously.

Under the guidance of Yuan Zun.

The army of cultivators still had millions of people, forming a square formation.

Quickly build a defense line around.

Section 1350

Although there is no trace of the Destruction Beast around.

But it never hurts to be more careful.

While everyone was quickly deploying, they looked at Zhang Yuhe in the void and the vast and boundless Milky Way sky.

"Hey, where are those destroying beasts."

"Didn't I say that there are countless destructive beasts in this abyss?"

"Why can't I even see one?"

"have no idea."

"Maybe they have been killed by the seniors."

"That's right, look quickly."

"What is the Lord of the Galaxy doing?"

"The aura on his body is so scary?"

"It feels much scarier than Senior Qingyangzi."

"Well, look at that posture."

"The Lord of the Galaxy seems to be breaking through the realm."

"No way."

"Isn't he at the supreme level?"

"Is it possible that he will break through to the Yin-Yang realm as soon as he emerges from the river of chaos?"

"This is too exaggerated."

"Who knows."

"How can we imagine the legend of Lord Galaxy?"

"But this is fine."

"If the Galaxy Lord breaks through successfully."

"We will have a big backer in Hongmeng Yuantian from now on."

"After all, we all come from the same place."

"I can take care of you to some extent."

"yes."

"I hope he can make a breakthrough."

...

At this time, Zhang Yuhe's nine clones had quickly entered the depths of the abyss.

The clones were divided into nine groups, and each deployed the Nine Heavens Hunyuan Sword Formation.

Harvesting and destroying the lives of monsters.

Along with countless destruction beasts died.

The special aura that was originally invisible was like a torrent.

They quickly gathered towards Zhang Yuhe.

The Milky Way sky above his head was expanding rapidly.

At the same time, Galaxy Sky also began to feed back countless powers to him.

Boom...

Sudden.

A vast force of power rose from around Zhang Yuhe.

The Taoist aura is intertwined with yin and yang, just like the creation of heaven and earth.

"Is this the Yin and Yang realm?"

"It's really scary."

See this situation.

All the Dao Alliance Lords and countless monks at the scene were stunned.

Zhang Yuhe really made a breakthrough.

In this way, we arrived at the Yin and Yang realm.

The sudden change made everyone feel a little confused.

Qingyangzi looked into the distance.

Compared to others.

He knew better how difficult it was for a monk to break through the Yin and Yang realm.

But Zhang Yuhe succeeded.

And it seems to be so easy and simple.

It was as if the Hongmeng Heavenly Way was deliberately trying to achieve Zhang Yuhe's success.

"why is that?"

"Is it because of merit that saves the world?"

Qingyangzi's knowledge is naturally not comparable to that of ordinary people.

He knew that in Hongmeng Yuantian, there was a theory of merit and enlightenment.

It's just necessary to do something earth-shattering and achieve great merit.

Zhang Yuhe's ability to clear away the destructive monsters in the abyss was an earth-shattering merit.

If he could completely level the entire Jue Abyss and eliminate the plague of the Destruction Beast forever.

Perhaps this huge merit is enough to support Zhang Yuhe's enlightenment and sainthood.

Think of this.

Qingyangzi himself was stunned.

Is this possible?

The thirty-fourth saint will appear in Hongmeng?

And he became a saint right in front of his eyes?

...

Zhang Yuhe's nine clones pushed forward all the way, and countless destructive monsters fell under the sword energy.

However, the number of destroying beasts in the abyss has not decreased.

In the depths of the abyss.

Countless destroying monsters are still rushing out in a steady stream.

It seems that there is really no end to the killing.

But Zhang Yuhe doesn't care about this.

He just kills.

At least he can't finish the killing.

That doesn't matter anymore.

As long as those special air currents can increase his strength.

Then keep killing.

Keep killing until all the destroying beasts are dead, or until you can no longer improve.

Time passes slowly.

The army of monks in the Chaos River have all arrived.

It stands to reason.

They should now walk towards Hongmeng outside as soon as possible.

Get out of this dangerous abyss.

However, no one moved at the scene.

Everyone looked at Zhang Yuhe in silence.

At this time, Zhang Yuhe's aura was still rising rapidly.

The first level, the second level, the sixth level of Yin and Yang realm...

It seems that the luck of Hongmeng Heaven and Earth is converging towards Zhang Yuhe.

He vowed to push him to the realm of saint.

At this time, it is deep in the abyss.

The nine clones rushed forward to kill.

No matter how many and powerful the countless destroying beasts are, they still can't stop these clones.

The dazzling sword light spread across the world.

Even from a long distance, everyone can clearly feel it.

Those sword lights were terrifying.

Everyone at the scene understood.

Zhang Yuhe is not only practicing, but also killing the destroying beast.

He didn't even know where he had entered Jue Abyss.

Looking into the distance, the sword shines brightly.
