

## Top talent 136

### Section 136

Zhang Yuhe said to Feng Xiaotian.

"Sect Master, it's over here. I'm going back to Yu Fantian first."

"Okay, senior brother, please go back first. I still need to stay here for a while."

Feng Xiaotian nodded and said.

He knew that Zhang Yuhe needed to go back to practice.

Moreover, Yu Fantian cannot live without Mahayana monks for a long time.

It's just right for Zhang Yuhe to go back.

He himself still needs to stay in the Cangyun Realm for the time being. He cannot leave until the demons are basically eliminated.

In this way, the two of them each guard a boundary to ensure that there are no problems on both sides.

The two then chatted about other things.

After a while, Zhang Yuhe finally spoke.

"Sect Master, then I will go back first."

After Zhang Yuhe finished speaking, he turned into a stream of light and left.

...

Return to Daoshengzong Galaxy Peak.

Zhang Yuhe called Wang Guofeng over and handed him a large amount of cultivation resources.

Since the invasion of the demons, Wang Guofeng has provided him with a large amount of information through the Immortal Cultivation Alliance.

Not only that, during the hundred years of the battle to suppress the Demon City, Wang Guofeng also led the Blue Star players to fight on the front line.

Although the player's purpose is to kill the demons in exchange for merit rewards, it is not to defend Yu Fantian.

But the players did play a big role in the war.

This is worthy of recognition.

Zhang Yuhe stood on the Milky Way Peak. He threw the Spirit Gathering Tower and stepped into the nine-story training platform.

...

Time passes slowly.

Three hundred years will soon pass.

Under the leadership of the Dao Sheng Sect, the Yu Fantian monks had already completely wiped out the invading demons.

The entire world has completely restored its former prosperity.

Not only that, there are also a large number of monks who continue to go to Cangyun Realm to seek more opportunities to practice Taoism.

With the arrival of a large number of demon-suppressing troops.

The demons in the Cangyun Realm have been basically wiped out, except for a few who have taken refuge in various secret places.

The monks thrived in the Cangyun Realm, and the scale of the human race expanded rapidly.

The Cangyun Realm has become a real spiritual world, and the traces of the demon clan are slowly being erased.

Zhang Yuhe took one step out of Juling Pagoda.

At this time, the aura on his body was much stronger than before.

As early as a hundred years ago, he had reached the late stage of Mahayana cultivation.

After remaining in seclusion for a hundred years, he made a lot of progress in the late Mahayana period.

It's not too far away from Mahayana perfection.

Zhang Yuhe estimated that it would only take another two hundred years to practice at most.

He will break through to Mahayana perfection.

By that time.

You can consider leading the great tribulation.

Once you survive the great catastrophe, you can ascend to the immortal world through the Immortal Ladder.

From then on, he lived happily ever after.

Zhang Yuhe looked up at the sky and muttered to himself.

"Some things need to be arranged."

He brought up the system panel, glanced at the countdown on it, and chose to log off and leave.

Return to Blue Star's room.

Zhang Yuhe walked to the balcony and watched the light passing by from time to time outside.

He has been practicing in Yufantian for more than 1,500 years.

More than ten years have passed since the game started, and Blue Star has passed.

At this time, Blue Star's spiritual energy was as rich as Yu Fantian's ordinary small town.

The entire Blue Star has entered the age of cultivating immortals.

The only problem is that Blue Star is too small.

In such a small world, if there were no games, it would be difficult to support the cultivation of so many players.

After going offline this time, Zhang Yuhe plans to completely solve this problem.

Before ascending, he needed to carefully plan the future of Blue Star.

The world is too small, then expand the world.

Although this sounds a bit incredible.

But the existence of monks is to make the impossible possible.

There are immortal immortals, so what's weird about expanding the world?

Just wanting to expand the world is really difficult.

But he's confident he can do it.

Zhang Yuhe picked up the phone and selected a number to dial.

"Are you busy? Come here."

"Yes, senior, I will be there soon."

Wang Guofeng was extremely excited when he received Zhang Yuhe's call.

In his heart, Zhang Yuhe was a god-like being, a Mahayana monk who could transcend calamity and ascend at any time.

He is almost an immortal in his own right.

It is not an exaggeration to say that he is a fairy.

Although he had followed Zhang Yuhe for more than a thousand years in Yu Fantian.

But he has never seen Zhang Yuhe himself in Blue Star.

Thinking of this, Wang Guofeng was extremely excited.

...

Chapter 126 Planning the Fairy City for Five Thousand Miles

Wang Guofeng put away his cell phone and quickly turned into a stream of light, flying towards Xijiang City.

Although they were offline, they had almost no communication.

But he knew Zhang Yuhe's address.

Because Zhang Yuhe neither hid in a deep mountain forest nor bought a quiet seaside villa.

Instead, they live in a community building in Xijiang City like ordinary people.

Like a banished immortal in the world of mortals.

The people around him had no idea that there was a big boss who was almost a god living in their community.

Zhang Yuhe has never hidden his whereabouts, he just doesn't show off his cultivation at Blue Star.

All the identity information he left on official channels is true.

So as long as you are careful, you can easily find his address.

After a while, Wang Guofeng looked at the direction and landed outside the gate of the community.

When he was about to enter the community.

Suddenly found Zhang Yuhe, who had appeared beside him without knowing when.

Wang Guofeng immediately shouted respectfully.

"I wonder what instructions do you have, senior?"

"Follow me."

After Zhang Yuhe finished speaking, he rolled up his sleeves and turned into a stream of light, taking Wang Guofeng away into the distance.

...

As the highest mountain range on Blue Star, Kunlun Mountain is known as the roof of the world.

Since ancient times, there have been countless ethereal legends of gods and immortals here.

However, with the revival of spiritual energy, the era of cultivating immortals has begun.

Players searched everywhere in Kunlun Mountain, but did not find any miracles.

Legends are just legends after all, and they may not be real.

This is just a vast mountain range.

Suddenly, a stream of light passed from a distance and landed on the highest peak of Kunlun Mountain.
