Chapter 139

Just in time to actively build the Immortal City.

After a while, Wang Guofeng landed in the center of the Immortal City.

Seeing Wang Guofeng coming.

Several backbones of the Immortal Cultivation Alliance quickly stepped forward and shouted respectfully.

"Meet the President."

Wang Guofeng smiled, nodded to everyone, and then spoke.

"Everyone has worked hard."

"It's not hard. It's our honor to build our own Immortal City."

For the construction of the Immortal City, the Blue Star cultivators are full of infinite enthusiasm.

Because this is Blue Star, it is the Immortal City that truly belongs to them.

Wang Guofeng looked up and looked around.

The Immortal City is extremely vast, covering an area of 5,000 miles.

This is the largest building in the history of Blue Star.

According to the drawings given by Zhang Yuhe.

The walls of the Immortal City are 3,000 feet high, slightly higher than the original highest peak of Kunlun Mountain.

There is a city gate in each of the four directions of the city wall.

The streets in the city are neat and uniform.

On both sides of the street, there are various buildings and manors with Blue Star characteristics.

These buildings and manors will be allocated to the Blue Star monks who participated in the construction of the city to live and operate in the future.

It is truly their own industry.

In the center of the fairy city, there stands a large platform.

According to Zhang Yuhe's design, he will arrange various large formations around the platform.

On the one hand, it is used to attract matter in the universe and expand the scale of Blue Star.

On the other hand, it is used to arrange the defense and control formations of the city.

This platform will be the center of the entire fairy city.

Looking at this magnificent fairy city, Wang Guofeng's heart is full of infinite pride.

This is the result of the construction under his leadership.

Of course, Wang Guofeng is just proud, he doesn't want to take credit.

He didn't forget that it was under the leadership of Zhang Yuhe that this magnificent fairy city came into being.

Thinking of this, Wang Guofeng stepped onto the platform.

Then, with a solemn expression, he took out a tall sculpture from the storage ring.

Under the support of mana, the sculpture slowly fell in the center of the platform.

When the sculpture was placed steadily,

Wang Guofeng took a few steps back and bowed respectfully to the sculpture.

He looked up at the sculpture in front of him, his expression full of admiration.

This is a sculpture of Zhang Yuhe.

It was carved by Wang Guofeng himself.

He had this idea at the beginning of the construction of the Immortal City.

He wanted the name of Zhang Yuhe to be spread forever in Blue Star.

He felt that this was the honor that Zhang Yuhe deserved.

And Zhang Yuhe is the honor of all Blue Star people.

For this reason, Wang Guofeng did not ask Zhang Yuhe for his opinion, but directly made this tall statue.

Everyone at the scene looked at the sculpture on the high platform, and then looked at Wang Guofeng's respectful expression.

They couldn't help but be stunned.

"President, whose sculpture is this? Is it the Three Pure Ones or the Taoist Ancestor in ancient mythology?"

"Fuck, isn't this Patriarch Zhang?"

"Which Patriarch Zhang?"

"Are you blind? Patriarch Zhang Yuhe of the Taoist Saint Sect is the Patriarch Zhang who killed the Mahayana of the Demon Clan as easily as cutting melons and vegetables."

"Damn, I remember it now, it's true."

"It's really strange, why did the president put the sculpture of Patriarch Zhang in the fairy city of our Blue Star?"

"Maybe it's some kind of ritual, praying that Patriarch Zhang can protect our Blue Star like he protected Yuhua Fantian."

"Are you kidding me?"

"Why do I always feel like something is wrong."

...

Wang Guofeng stood on the high platform, turned around and said to everyone with a smile.

"Don't guess, you'll know in a moment."

At this moment, a stream of light passed from the horizon and landed directly on the high platform in the city.

After seeing the person clearly, Wang Guofeng shouted respectfully.

"Hello, senior."

Zhang Yuhe nodded, but didn't say anything.

He looked up at the sculpture on the platform, not knowing what to say.

Wang Guofeng was really good at handling things, he actually erected a sculpture for himself in the Immortal City.

He was going to put him up there.

But after thinking about it, he felt that it didn't matter.

In the past, he just wanted to keep a low profile in his cultivation, so he never showed off on Blue Star.

But now he doesn't need to.

He has already cultivated to the perfection of Mahayana, and will soon pass the great heavenly tribulation and ascend to the Immortal Realm.

Zhang Yuhe thought that it didn't matter if he was a little more high-profile now.

After he ascended and left, he could still leave countless legends on Blue Star.

This is also good.

The people in the audience were all confused when they saw Wang Guofeng calling him senior.

Isn't Wang Guofeng the highest cultivator on Blue Star now?

Who can deserve his title of senior?

However, everyone reacted quickly.

"Damn, why does this guy look like a sculpture?"

"No way, why did Zhang Laozu come to Blue Star? Can the natives of Yufantian come to Blue Star now?"

"Do you think Zhang Laozu is a player from Blue Star like us?"

"What a joke, the game has only been open for a short time, how could someone cultivate to the Mahayana realm?"

...

Wang Guofeng looked at Zhang Yuhe cautiously.

Finding that Zhang Yuhe was not angry, he couldn't help but breathe a sigh of relief.

It was his own decision to place the sculpture in the fairy city.

I want the legend of Zhang Yuhe to be spread forever in Blue Star, and at the same time, it can also inspire other players to practice harder.

Seeing that Zhang Yuhe was not angry.

Wang Guofeng looked excited and said loudly to everyone in the audience.

"You all must know this senior. He is none other than Senior Zhang Yuhe. Like us, he is a player who entered Yu Fantian from Blue Star."

"The establishment of Immortal City this time was initiated by Senior Zhang, and the subsequent layout of the formation will be completed by Senior."

"Everyone has met the seniors together."

"I've met senior."

As soon as Wang Guofeng finished speaking, the entire fairy city suddenly became agitated.

"Zhou Cao, it can't be fake."

"That's nonsense. The president said it himself. Can this still be fake?"

"That's right, do you think the Mahayana ancestor can still look at a bigger place like Blue Star?"

"really."

"Awesome, I didn't expect that Patriarch Zhang who saved Yu Fantian in the end was actually one of our Blue Star people. I'm very excited just thinking about it."

"Blue Star people are mighty."

...

Everyone knows Zhang Yuhe's great achievements in Yu Fantian.

However, it was not until now that everyone knew that Yu Fantian was the most awesome Mahayana ancestor.

He is also a Blue Star player.
