### Chapter 142

He stood up and turned back to say to the three people.

"In the entire Daosheng Sect, I am most optimistic about you three people. I hope that one day, we can all meet in the fairyland."

Hearing this, Feng Xiaotian was fine.

Through the large amount of resources obtained in the Demon God Palace, coupled with the hard practice of these years.

He has broken through to the middle stage of Mahayana.

And he is in his prime, and there is indeed a great opportunity to practice to the perfection of Mahayana in the future.

There is even a great possibility of surviving the great heavenly tribulation and ascending to the fairyland.

Li Tian and Wang Guofeng were stunned.

Although they were also very confident, Zhang Yuhe, the big man who was about to ascend.

Truly thought so highly of them.

This made them extremely excited and even a little at a loss.

The two looked at each other and said in unison.

"The younger generation will definitely work hard to practice and will not disappoint the old ancestor's expectations."

Zhang Yuhe smiled and showed encouragement.

He handed over two storage rings to Li Tian and Wang Guofeng respectively.

There are a lot of cultivation resources inside, and there is also a set of five-element spirit gathering array.

Zhang Yuhe hopes that these things can help them to a certain extent.

After doing this, Zhang Yuhe turned to Feng Xiaotian and said,

"I will go to Yunmang Mountain Range in Yunzhong Prefecture in ten days to receive the arrival of the great heavenly tribulation. I would like to trouble the sect master to arrange it in advance."

The great heavenly tribulation of the ascension of the cultivator is not only very powerful, but also covers a wide range.

The place for the tribulation needs to be prepared in advance.

Otherwise, once the heavenly tribulation comes, it will surely affect the innocent.

Therefore, before receiving the great heavenly tribulation, the site needs to be cleaned up in advance.

Although the Yunmang Mountain Range is vast and boundless, this is far from enough.

The cultivators and people in the surrounding states and prefectures must be relocated in advance.

Hearing this, Feng Xiaotian replied solemnly.

"Brother, just concentrate on preparing for the tribulation, and I will let people handle other things."

"Then I'll leave this matter to the sect master."

The two chatted for a while, and Feng Xiaotian flew away.

Li Tian and Wang Guofeng bowed to Zhang Yuhe and followed him to leave the top of Yinhe Peak.

Zhang Yuhe looked up at the mountain gate.

He had been practicing Taoism here for nearly two thousand years, and he was somewhat reluctant to leave.

"I don't know if I will have the opportunity to come back here again in the future."

Zhang Yuhe muttered to himself silently, then turned around and walked into the cave.

He needed to adjust himself to the best state to deal with the great heavenly tribulation ten days later.

Chapter 131 Asking for Taoism and becoming an immortal, today

With Feng Xiaotian's order, the entire Daosheng Sect quickly took action.

The Mahayana ancestor guided the ascension tribulation, which was a major event in the entire Yufantian.

The last time someone passed the ascension tribulation was two hundred thousand years ago.

It was the then leader of the Daosheng Sect, Xie Mingyuan.

Xie Mingyuan practiced Taoism for 60,000 years, successfully passed the great heavenly tribulation, and successfully ascended to the fairyland.

He became the third ascended cultivator in the history of Yufantian.

Maybe the Qi was exhausted.

Since Xie Mingyuan ascended, the overall strength of Daosheng Sect began to decline gradually.

Even 100,000 years ago, it was invaded by the demons of Cangyun Realm and entered Yufantian.

Now, Patriarch Zhang has appeared out of nowhere and is about to usher in the great heavenly tribulation.

In the eyes of everyone, this is a sign of the revival of Daosheng Sect.

Daosheng Sect is extremely proud of this.

They quickly rushed to Yunzhong Prefecture.

With Yunmang Mountain Range as the center, all residents within a radius of tens of millions of miles were temporarily relocated.

The last time the demons invaded, a large number of residents migrated westward with heavy hearts.

But this time, everyone was extremely excited.

There are cultivators who have transcended the tribulation and ascended, which means that the immortal way of Yufantian is recovering its former prosperity.

This may represent the beginning of a new era.

Under the mobilization of Daosheng Sect.

Residents around Yunmang Mountain Range were soon temporarily relocated.

...

Ten days later.

Zhang Yuhe stood above Thunder Lake.

Looking at the huge lake in front of him, he was filled with infinite emotion.

This is the place where he became enlightened.

He crossed the tribulation for the first time here.

Originally, this place was just an unknown lake with a radius of thousands of miles.

As he broke through the realm here three times in a row and led the heavenly tribulation to come.

The entire lake has been expanded to nearly 100,000 miles in radius.

When he crosses the great heavenly tribulation of ascension here this time.

Perhaps the entire Yunmang Mountain Range will no longer exist and will completely become an inland sea.

At this time, a stream of light passed from the sky and soon fell beside Zhang Yuhe.

Feng Xiaotian showed his figure and asked.

"Brother, everything is ready, we can start."

"Okay."

Zhang Yuhe responded, and then flew to a high platform in the middle of the lake.

Feng Xiaotian naturally knew the requirements for the layout of the Renshui Thunder Absorption Array.

Therefore, he had already asked people to move the mountains from the surroundings and fill a high platform in the middle of the lake.

Zhang Yuhe stood on the high platform and nodded with satisfaction.

He waved his right hand, and a lightning-absorbing column flew out of his sleeve.

Quickly falling towards the edge of the lake.

Looking at these shining lightning-absorbing pillars, Feng Xiaotian couldn't help but open his mouth wide.

These lightning-absorbing pillars were all top-grade spiritual treasures.

And there were as many as 1,024 of them.

He couldn't help but wonder, do you need so many lightning-absorbing pillars to set up a lightning-absorbing array?

He also knows this formation.

When he was promoted to the Mahayana realm, he also used the lightning absorption formation to resist the bombardment of the heavenly tribulation.

But isn't the lightning absorption formation composed of 28 low-grade lightning absorption pillars?

Why did it become so exaggerated when it came to Zhang Yuhe?

Of course, he knew that Zhang Yuhe must have improved the lightning absorption formation.

But such a big move was really beyond his expectations.

"No wonder Senior Brother is confident that he can survive the great heavenly tribulation of ascension."

At this time, Feng Xiaotian already understood where Zhang Yuhe's confidence came from.

With such a huge lightning absorption formation, what kind of heavenly tribulation can't be survived?

Soon, Feng Xiaotian's heart was filled with heat.

He thought that once Zhang Yuhe survived the heavenly tribulation, these lightning absorption pillars would naturally not be taken to the fairyland.

They would definitely stay and be given to them to use.

Feng Xiaotian understood that if Daosheng Sect had this set of formations, then they would never have to worry about surviving the tribulation again.

This formation will be the true foundation of the Daosheng Sect.

With this formation, the high-end power of the Daosheng Sect will surely increase exponentially in the future.

This is especially true for Feng Xiaotian himself.

With this formation, he no longer has to worry about the future great heavenly tribulation.

As long as he can cultivate to the perfection of Mahayana, he can directly transcend the tribulation and ascend.
