

Top talent 146

Chapter 146

Almost all the players on Blue Star chose to log in to the game online.

This is their pride, and also their dream.

Since the game was launched.

Countless people have dreamed of whether they can really become immortals.

Now Zhang Laozu is finally taking the last step, how can everyone not be excited.

At this time, even those players who are at the second and third levels of Qi Refining have entered the game early.

Due to their limited talents, it is almost impossible for these people to go too far on the road of cultivation.

But their enthusiasm is still there.

Since the advent of the heavenly tribulation, everyone has been waiting anxiously.

Until the immortal music lingered and the colorful auspicious clouds fell, the stone in everyone's heart finally fell.

Even the most ignorant people understand at this time.

Zhang Laozu has survived the heavenly tribulation and is about to ascend to the immortal world to achieve true freedom and longevity.

Thinking of this, the players can't help but feel a little lost.

Since the establishment of Kunlun Immortal City yesterday, Zhang Laozu appeared in front of the world for the first time.

It has only been a day, and Zhang Laozu is leaving them.

From then on, immortals and mortals were separated.

After ascending, Zhang Laozu could no longer provide shelter for Blue Star.

However, thinking of Kunlun Immortal City standing on Blue Star, everyone's hearts were filled with infinite hope.

Although Zhang Laozu ascended and left, he planned a bright future for Blue Star.

As long as they practice hard.

Maybe in the near future, they can also follow Zhang Laozu's footsteps and embark on the road of ascension.

...

Zhang Yuhe stood in the center of Thunder Lake.

When the heavenly tribulation passed, a colorful light column emitted a dazzling light and completely enveloped him.

When the colorful light column descended, the Dantian in Zhang Yuhe's body immediately underwent earth-shaking changes.

The sea of mana in the Dantian set off a huge wave.

At the same time, the originally colorless sea of mana slowly turned into colorful colors.

Zhang Yuhe knew that this was the process of mana transforming into immortal energy.

According to the records in the classics.

After the cultivators have survived the great heavenly tribulation, the mana in the Dantian will soon be transformed into immortal energy.

Once the immortal energy is transformed, the Immortal Ladder will descend.

Following the Immortal Ladder, the cultivators will be led to the Immortal Realm and become a real immortal.

Zhang Yuhe silently felt the changes in the Dantian.

I don't know how long it has been.

After all the mana in the Dantian has been transformed into Immortal Energy.

Suddenly, a colorful ladder suddenly hung in the sky, exuding a magnificent atmosphere.

Zhang Yuhe opened his eyes, looked up at the long ladder in the sky, and muttered to himself.

"Is this the Immortal Ladder?"

At this time, infinite emotion rose in his heart.

He has been practicing Taoism in Yufantian for nearly two thousand years, and finally reached this step.

Back then, he was just an ordinary person on Blue Star who was very inconspicuous.

Although he was not in a bad situation, he was definitely not very outstanding.

He had no family background and could only rely on himself to fight in the city.

Through hard work, he has a small fortune, but that's all.

Zhang Yuhe never thought that one day he would be able to become an immortal.

Thinking of all this, it was like a dream.

"I don't know who made this game?"

"Is it the founder of the Daosheng Sect, Lu Yunfei?"

Zhang Yuhe guessed silently.

Although he has completed the transformation of the immortal energy.

At this time, he is already a real immortal.

But Zhang Yuhe still knows nothing about the means of the great powers in the immortal world.

It is difficult for him to imagine what kind of great power can pull so many Blue Star players into Yufantian.

And it can also give players various game functions, and even revive them after death.

Such means are completely beyond his imagination.

Zhang Yuhe thought silently.

"Maybe I will know when I reach the immortal world."

At this time, Feng Xiaotian has brought the elders of the Daosheng Sect to the vicinity of Thunder Lake.

They looked at Zhang Yuhe, who was shrouded in a colorful light column, and their hearts were filled with infinite respect.

Feng Xiaotian took the lead, bowed and shouted in the direction of the light column.

"Congratulations to the ancestor for successfully surviving the heavenly tribulation and living forever."

Zhang Yuhe survived the great heavenly tribulation and became a true immortal.

Feng Xiaotian could no longer call him senior brother, but had to call him ancestor.

The Daosheng Sect elders standing behind him also shouted in unison.

"Congratulations to the ancestor for successfully surviving the heavenly tribulation and living forever."

Zhang Yuhe turned his head to look at everyone and nodded slightly.

The colorful light column was like a natural moat that separated him from everyone.

Being enveloped by the colorful light column was like being in another world.

Even though the two sides were not far apart.

But he still couldn't hear what Feng Xiaotian and others were saying.

But he could guess that it was nothing more than some congratulations.

Zhang Yuhe thought for a while, then quickly took out a blank jade slip and recorded his experience of surviving the tribulation.

For future reference.

Although the heavenly tribulation he led was particularly abnormal, it would still be of great reference value to future generations.

After doing everything.

Zhang Yuhe placed the jade slip at his feet.

Then he took a step towards the immortal ladder in the sky.

The immortal ladder took him up slowly and slowly disappeared in front of everyone.

As he disappeared, so did the colorful light column.

Only a golden jade slip was left at the scene.

...

In the room of Zhang Yuhe of Blue Star.

The octagonal flying fairy platform on the desk suddenly turned into a little light and disappeared out of thin air.

It was as if this thing had never appeared.

...

Feng Xiaotian flew down and solemnly put away the jade slip on the ground.

At the same time, he quickly swept across the lake and collected the scattered lightning-absorbing columns one by one.

After doing all this.

Feng Xiaotian looked at the elders behind him, pondered for a long time, and then spoke.

"This is the place where Zhang Laozu achieved enlightenment. You must protect it carefully. From now on, this place will be called the Galaxy Sea."

"I plan to build this place into a holy place. Any cultivator can come here to admire and observe."

"In addition, Zhang Laozu also left behind a very powerful tribulation formation."

"I will continue to set up the formation here. In the future, any cultivator who wants to survive the tribulation can apply to use it."

After a pause, Feng Xiaotian continued to add.

"Whether or not a cultivator is from the Daosheng Sect, you can apply to use this formation."

"Yes, Sect Master."

The elders responded excitedly in unison.

They have all seen Zhang Laozu's great tribulation.

The formation that can withstand this kind of tribulation is used to help them survive the tribulation. It's like playing.

Thinking of having no worries about surviving the tribulation in the future, everyone couldn't help but look excited.
