Chapter 136 The Realm Division of the Immortal World

In fact, Zhang Yuhe was not wrong.

Liu Fang was just selling.

It's just that he was not selling ordinary products, but Daosheng Sect.

He also wanted to maintain the dignity of the True Immortal.

However, the sect gave too much.

After all, every ascending cultivator is in the True Immortal Realm.

And the True Immortal cultivators are not cabbages in the Immortal World.

At least in this Ji'an Sea, every True Immortal cultivator is the backbone of the major forces.

In order to attract more True Immortal cultivators, Daosheng Sect has always been willing to spend a lot of money.

According to the sect's regulations, as long as he successfully guides an ascending cultivator and joins the sect.

Liu Fang can get a large amount of resources.

For this resource, how can he not work hard to sell?

And this doesn't require him to go out and risk fighting, it's just a matter of moving his lips.

Seeing Liu Fang's hard work in selling, Zhang Yuhe was a little speechless.

He had to speak up.

"I am Zhang Yuhe, from the Dao Sheng Sect of Yufantian, where the Dao tradition is passed down by the ancestors."

"Uh."

Hearing this, Liu Fang was stunned instantly.

After all the fuss, it turned out to be one of his own.

He thought Zhang Yuhe was a wild cultivator who ascended from some strange interface.

But he quickly reacted.

Wouldn't it be better if he was one of his own? He didn't have to waste his breath.

The other party would definitely join the Dao Sheng Sect.

Then he would have easily gained the credit.

Liu Fang seemed to see that a large amount of immortal stones were waving at him.

"Hey, are you from Yufantian?"

Liu Fang seemed to suddenly remember something and hurriedly asked to confirm.

"Yes, it's Yufantian."

"It turns out that you and Senior Brother Xie are from the same interface. If Senior Brother Xie knew that there were younger generations ascending to the fairyland, he would be very happy."

After Liu Fang finished speaking, he took out a fairy mirror and prepared to send a message to someone.

When Zhang Yuhe heard Liu Fang's words, he hurriedly asked excitedly.

"The Brother Xie you are talking about is Xie Mingyuan, the ancestor Xie."

"Yes, Brother Xie is also from Yufan Tiandao Shengzong, and ascended to the fairyland 200,000 years ago."

Hearing this, Zhang Yuhe couldn't help but be overjoyed.

Xie Mingyuan is the real one.

200,000 years ago, Xie Mingyuan was the leader of Yufan Tiandao Shengzong.

I didn't expect that this person is still alive, and in Dao Shengzong.

Zhang Yuhe was very excited. Now he doesn't have to worry about no one to take care of him in the fairyland.

Liu Fang cast a spell towards the Immortal Transmission Mirror.

Then he said to Zhang Yuhe.

"Brother, please wait a moment, Brother Xie is in the sect, he will be here soon."

"Okay."

Zhang Yuhe responded, and the two chatted about the fairyland.

Speaking of the current situation of Dao Shengzong, Liu Fang did not hide it.

After all, they are all his own people, there is nothing to hide.

He spoke intermittently.

"The Daosheng Sect now has two Golden Immortal ancestors and about a hundred True Immortal cultivators."

"Compared to the heyday, there are more than a dozen Golden Immortal ancestors and nearly a thousand True Immortal cultivators."

"Since the last immortal catastrophe, when Ancestor Lu disappeared, the sect's power has declined sharply."

"The Daosheng Sect was originally the leader of the five major forces in the Ji'an Sea Area, but now it is almost falling to the second-tier force?"

Speaking of the current situation of the sect, Liu Fang couldn't help but sigh.

Zhang Yuhe stood by and listened quietly, his expression silent.

He didn't expect that the current situation of the Daosheng Sect was so difficult.

In the Ji'an Sea Area, the five strongest forces are the Nine Immortal Sect, the Ten Thousand Beast Sect, the Ouyang Family, the Qian Family, and the Daosheng Sect.

Originally, when Lu Yunfei was still there, the Daosheng Sect was the leader of the five major forces.

With his Golden Immortal Great Perfection, he suppressed the entire Ji'an Sea Area, and no one could resist him.

Now, with Lu Yunfei's disappearance, the strength of Daosheng Sect has fallen to the bottom.

Especially in recent years, the Ouyang family and the Qian family have been eyeing Daosheng Sect.

They want to swallow Daosheng Sect in one bite.

According to Liu Fang.

In the past 100,000 years, there have been True Immortal cultivators in the sect who have been attacked when they went out.

According to Liu Fang's guess, it should be the Ouyang family and the Qian family who did it.

The tiger is the most bullied by the dog when it is in a low position, which is the current situation of Daosheng Sect.

The Ouyang family has six Golden Immortal cultivators, and the Qian family has five Golden Immortal cultivators.

Their strength is higher than that of Daosheng Sect.

Over the years, they have been constantly encroaching on the territory of Daosheng Sect.

Although both sides are willing to control the scale of the conflict, the Golden Immortal cultivators of both sides have not yet fought a war.

But if it continues like this, the decline of Daosheng Sect is almost inevitable.

"I hope it won't affect my cultivation."

Zhang Yuhe muttered to himself silently.

He didn't want to fight with people every day when he arrived in the fairyland.

This is not Yufantian.

There is no Taoist sect that dominates the world to support him.

If he beats the younger one and the older one comes, it will be troublesome.

Moreover, he is just a young immortal who has just ascended to heaven. His strength in Ji'an Sea Area can't be considered as a failure.

But he definitely can't walk sideways.

The realms of the fairyland are divided into:

True Immortal, Golden Immortal, Taiyi Immortal, Daluo Immortal, and above that is Daozu.

Ji'an Sea Area is just a corner of the fairyland.

There has never been a Taiyi Immortal. Ancestor Lu Yunfei may be the most powerful existence in the history of this sea area.

Although there is no Taiyi Immortal, there are indeed many Golden Immortal cultivators in the Ji'an Sea Area.

Each of the five major forces has a Golden Immortal in charge, especially the Nine Immortal Sect, which has as many as nine Golden Immortal cultivators.

The other three forces also have several Golden Immortal Realm cultivators.

This is just the news that everyone knows on the surface.

Everyone understands that there must be a hidden old six in these major forces.

In addition, in addition to the five major forces, other second-tier forces also have individual Golden Immortal cultivators.

In addition to the major forces, there are also Golden Immortal Realm cultivators among the independent cultivators.

The top ten independent cultivators in the Ji'an Sea Area are all Golden Immortal bosses.

After careful calculation, there are at least hundreds of Golden Immortal cultivators in the entire sea area.

This is just a conservative estimate. In fact, the number of Golden Immortal cultivators will only be more.

In fact, let alone these Golden Immortal ancestors, he can't afford to offend them.

Zhang Yuhe estimated.

Even if they were both in the realm of True Immortal, he probably couldn't beat a few of them.

The cultivation system of the Immortal Realm is very different from that of the lower realm. It is not enough to just practice hard.

In addition to the realm of cultivation, immortal tools, immortal body cultivation, the awakening of the Nascent Soul and the comprehension of laws are also very important.

He didn't understand a lot of new knowledge at all.

Liu Fang just said it casually, and Zhang Yuhe didn't ask in detail.

He planned to go to the library to check the classics and learn more after entering the sect.

In addition, Zhang Yuhe got a piece of information from Liu Fang's words that surprised him.
