Section 152

If the later generations want to continue to open their orifices, they can hardly find the right materials.

They had no choice but to change the orifice opening secret technique and start over.

The orifice opening secret technique recorded in the Hunyuan Heavenly Scripture is called the Chaos Orifice Opening Secret Method.

To use this secret method to open the orifice, you only need the crystal core of the Chaos Beast.

To open the first orifice, you need a one-star Chaos Beast crystal core, and the second orifice requires a two-star Chaos crystal core.

The third orifice requires a three-star crystal core, and the ninth orifice requires a nine-star Chaos crystal core.

As for opening the tenth orifice, you need the crystal core of the Chaos King Beast.

Although Chaos crystal cores are also very precious, there is a target to find after all.

On the Chaos Continent, there are countless Chaos Beasts.

As long as you are strong enough, you can kill as many as you want.

It's easy to do if you have a target.

He is afraid that some orifice opening secret techniques require finding some unknown materials.

That would be too difficult.

It depends entirely on luck.

It is entirely possible that you will never find the corresponding materials in your lifetime.

Zhang Yuhe silently recalled the contents of the second volume of Hunyuan Tianjing.

He suddenly found a problem.

This technique seemed to be fighting against the Chaos Beast.

Not only did the secret technique of opening the orifices require the use of the Chaos Beast Crystal Core, but even the promotion of the natal magic weapon also required the Chaos Beast Crystal Core.

Moreover, in the second volume of Hunyuan Tianjing, there was also a Taoist technique recorded.

It also required the assistance of the Chaos Beast Crystal Core to practice.

In the first volume of Hunyuan Tianjing, the magical power of the Nine Heavens Hunyuan Sword Formation was recorded.

And in the second volume, there was a Taoist technique recorded.

It was called Chaos Return to Void.

Taoism is the sublimation of magical powers.

To practice Taoism, not only do you need to comprehend the laws to perfection, but you also need to open the origin of Tao.

In addition, with the corresponding materials and formations, you can practice successfully.

However, this matter is still early for him.

Whether it is opening the origin or perfecting the laws, that is a matter of the distant future.

For Zhang Yuhe now, it is more practical to open the first orifice first.

As long as one orifice is opened, he can begin to comprehend the first law.

To open the first orifice, one needs a one-star chaos beast crystal core, and to upgrade the natal magic weapon, nine one-star crystal cores are needed.

Anyway, Lian Zhengyu told him before that he could take any material in the treasure house and upgrade the natal magic weapon to a fairy weapon.

So it shouldn't be a big problem for him to take one more one-star crystal core.

Thinking of this.

Zhang Yuhe stood up and flew quickly towards the treasure house.

...

Chapter 140 Ouyang Lihe

Zhang Yuhe quickly came to the sect treasury, and after he showed his identity jade card.

He soon received ten one-star chaos beast crystal cores.

The process was so smooth that it was completely beyond his expectations, and he did not encounter any difficulties.

The senior brother in charge of guarding the treasury did not even ask, and directly threw the things to him.

"This sect is good."

Zhang Yuhe silently gave the sect a good review.

Although the Daosheng Sect is now in a period of decline, the disciples are still very united.

The imagined bloody incident did not happen.

He took a Chaos Beast crystal core in his hand and checked it.

He saw that the surface of the crystal core exuded a chaotic and violent atmosphere.

Through the crystal core in his hand, he could imagine the strength of the Chaos Beast.

According to the normal classification, the strength of a Chaos Beast from one to three stars corresponds to the early to late stages of the True Immortal.

However, when fighting, unless the Immortal Body is just formed.

Otherwise, even the late stage of the True Immortal may not be able to kill a Chaos Beast with one star.

Because Chaos Beasts are too strong.

According to the description in the classics, Chaos Beasts are not only huge in size, but also thick in skin and flesh.

The key is that they are almost immune to the magical powers and law damage of cultivators of the same level.

To kill a Chaos Beast, the Immortal must either have strength that can suppress the Chaos Beast.

Or comprehend the law to a higher level, or comprehend some special laws.

Of course, the best way is to cultivate into an Immortal Body.

Even if the immortal body is just formed, it can rely on brute force to crush the Chaos Beasts below three stars.

Unfortunately, it is too difficult to cultivate the immortal body.

According to Zhang Yuhe's plan, he put the cultivation of the immortal body at the end.

The immortal body is not afraid of your strong talent or high comprehension.

Without the corresponding heavenly materials and treasures, it is useless even if the immortals come.

...

After Zhang Yuhe left the treasure house.

He was thinking about whether to find a place to open the first orifice first.

Suddenly, his expression changed.

A crystal mirror appeared in his hand.

Immortal Mirror.

A common communication tool for immortals, which can communicate at any time in the same sea area.

Zhang Yuhe pinched the magic formula and pointed at the Immortal Mirror.

Xie Mingyuan's projection soon appeared in the mirror.

"Are you ready, brother? We are going to set off."

"Okay, I'll wait outside the mountain gate."

Zhang Yuhe put away the Immortal Mirror and flew out of the mountain gate quickly.

After a while, a stream of light passed by in the distance.

An exquisite flying boat appeared in his sight.

Zhang Yuhe boarded the flying boat in one step.

Xie Mingyuan pinched the magic formula, and the flying boat moved like a stream of light and continued to fly away.

Standing on the flying boat, Zhang Yuhe asked.

"Brother, I wonder if the two ancestors Wu Yingguang and Xiong Yuanzhong are still in the sect?"

As far as he knew, Yu Fantian had produced three ascended monks.

But apart from Xie Mingyuan, he had not heard of the other two people.

So he asked.

Xie Mingyuan was silent for a long time before he slowly spoke.

"Senior Brother Wu Yingguang died in the Immortal Falling Catastrophe of the Chaos Continent 800,000 years ago."

"As for Senior Brother Xiong Yuanzhong."

Speaking of Xiong Yuanzhong, Xie Mingyuan seemed to be in a very heavy mood.

He paused for a while before continuing.

"When I first arrived in the Immortal Realm, Senior Brother Xiong was already in the late stage of the True Immortal."

"I was able to gain a foothold in the Immortal Realm thanks to Senior Brother Xiong's support along the way."

"It's a pity that Senior Brother Xiong died unexpectedly 100,000 years ago when he went out to look for opportunities."

"After many investigations, I suspect that it was the Ouyang family who killed Senior Brother Xiong."

Speaking of the Ouyang family, Xie Mingyuan's tone was obviously filled with endless hatred.

"Brother, are you sure it's the Ouyang family?"

"It's almost certain."

"Take your time, we will definitely be able to avenge Brother Xiong in the future."

Although Zhang Yuhe has never met Xiong Yuanzhong in person, he is also an ascended cultivator of the Yufan Tiandao Holy Sect.

As long as there is a chance, he will not let go of this grudge easily.
