Section 156

A group of True Immortals talked a lot.

They talked about the Chaos Continent, various immortal realms, and then the Ji'an Sea.

Occasionally, there were True Immortals who talked about their own cultivation experiences.

The cultivators sat and talked, and the atmosphere was very lively.

Zhang Yuhe sat next to him and listened silently, and occasionally responded.

A few days later.

Liu Haitao, who hosted the gathering, stood up and said.

"Thank you all for sharing your experience. Now let's start the trade fair."

After saying that, he waved his right hand.

Several items appeared in front of everyone.

Among them were two low-grade immortal artifacts, a fairy sword, and a fairy spear.

In addition, there were some immortal materials and elixirs.

Seeing the items displayed by Liu Haitao, many people at the scene were very interested.

They communicated with Liu Haitao privately.

Soon, the two immortal artifacts were traded.

Low-grade immortal artifacts are the main means of True Immortals to fight against enemies.

A suitable immortal weapon can make the True Immortal exert greater strength.

Therefore, immortal weapons have always been in high demand.

Liu Haitao was able to take out two finished immortal weapons at a time for trading.

It can be seen that his wealth is not comparable to that of ordinary people.

He is worthy of being a disciple of the Nine Immortal Sect.

After Liu Haitao, the others showed their trading items in turn.

Some people took out immortal ores, and some took out immortal elixirs.

Some people even took out the divine skills for trading.

One of the True Immortal cultivators took out a secret method of opening the orifices.

Although it was a secret method that could only open three orifices, it was quickly exchanged by another casual cultivator present.

Zhang Yuhe sat next to him, and he could only watch quietly.

Because he is now a real pauper.

Except for a set of life magic weapons, which are low-grade immortal weapons.

There is nothing valuable on his body.

Of course, the secret method of opening the orifices does not count.

If he dared to take out the secret method of opening the orifices of chaos for trading, he would probably disappear in a minute.

That thing can only rot in my stomach, and I will never tell others.

The trade fair was going on until the end.

He Xingfa suddenly stood up and asked Liu Haitao.

"I wonder if Fellow Daoist He of your sect is in the market now. I want to ask him to help refine a fairy weapon."

The Fellow Daoist He he mentioned was He Zhongming of Jiuxianmen.

This person is a fairy-grade weapon refiner and is very famous in the market.

I heard that the people who want him to refine fairy weapons have been queuing up for thousands of years.

Fairy weapon masters are still very popular in the fairy world.

In fact, any true fairy cultivator.

As long as you can master a fairy-grade skill, you basically don't have to worry about cultivation resources.

"Senior Brother He is not in the market at the moment. He has returned to the sect to retreat. I heard that he will not take over the refining of weapons recently."

Hearing Liu Haitao's answer, He Xingfa showed a disappointed expression on his face.

With his wealth, he can naturally afford ordinary finished fairy weapons.

It's just after cultivating into a fairy body.

He Xingfa wanted to refine a fairy weapon specifically to better exert the power of the fairy body.

For this purpose, he also specially collected the refining materials.

Unfortunately, he has not found a suitable fairy weapon master.

Although there are many fairy weapon masters in the market.

But these people either have a low success rate or a bad reputation.

He Xingfa does not trust these people very much, and he only collected one refining material.

If the refining fails, then all the efforts will be wasted.

The fairy weapon master will not compensate for the failure of refining.

Just when he was depressed, a voice came into his ears.

"Brother He, if you trust me, you can come to me later."

Hearing the voice transmission, He Xingfa couldn't help but feel a little confused. He looked at Zhang Yuhe.

He tried to transmit the voice.

"Is Brother Zhang also a fairy weapon master?"

"Well, let's talk about it in detail later."

"Okay."

...

The party ended and everyone left.

Not long after Zhang Yuhe returned to the house.

He Xingfa came over quickly.

He bowed to Zhang Yuhe and said.

"I didn't expect that Brother Zhang is also a fairy weapon master. I'm sorry that I'm not good at seeing."

"Brother He is too polite. I wonder what type of fairy weapon you want to refine?"

There are many types of fairy weapons.

Ordinary swords and spears are popular and easier to refine successfully.

There are also some special fairy weapons.

For example, fairy weapons that trap enemies, heavy fairy weapons, and even complete sets of fairy weapons.

The difficulty of refining these fairy weapons.

Relatively speaking, it is much higher.

He Xingfa looked at Zhang Yuhe and said with a slightly hesitant expression.

"I want to refine a heavy fairy weapon to use with the fairy body."

"But there is only one material at present. I wonder if Brother Zhang is sure?"

"As for the reward for refining the weapon, it will definitely satisfy Brother Zhang."

He didn't know Zhang Yuhe at all. If it wasn't for Xie Mingyuan bringing him here.

He wouldn't have come to his house at all.

There are indeed many fairy weapon masters and fairy pill masters who cheat people.

Some people are full of promises even though they are not sure of it.

They use other people's materials to practice.

In the end, they say that the refining failed and then send the person away.

Therefore, unless they are a fairy weapon master with a deep friendship or a very good reputation.

Other fairy weapon masters, most people are really reluctant to go to them.

Zhang Yuhe was brought by Xie Mingyuan, and Xie Mingyuan was very famous in the Ji'an Sea.

He Xingfa couldn't find a reliable immortal weapon master for the time being, so he came to ask.

Zhang Yuhe thought silently for a while.

He never worried about the success rate.

He had never failed since the first time he came into contact with refining.

The only problem now was how to make He Xingfa believe in himself.

He thought for a long time before slowly speaking.

"If I say I can guarantee 100% success, Brother He will definitely not believe it."

"But we can sign a contract. If the refining fails, I won't take a penny and compensate Brother He for half of the material cost. How about it?"

"Okay, then it's settled."

Zhang Yuhe's condition can be said to be extremely superior.

He Xingfa didn't hesitate at all.

He immediately took out a contract, and both parties left marks on the contract, not afraid that the other party would regret it.

After the contract was signed, He Xingfa handed over a storage ring and said.
