Chapter 159

Moreover, he has been practicing the Hunyuan Heavenly Scripture for nearly two thousand years, but he has absolutely no knowledge of this technique.

To put it simply, it means knowing what is happening but not knowing why it is happening.

He can practice according to the description of the exercises.

But if you want him to thoroughly analyze the Hunyuan Scripture, that's still too far.

Zhang Yuhe plans to first understand the nine supreme laws in the immortal world.

Finally, try to understand the law of chaos.

Whether this matter comes urgently or not, it will definitely happen in the future.

...

Zhang Yuhe immersed his mind in the Galaxy Zhou Tian Kung, and continued to deduce this magical power while silently comprehending it.

It is not easy to understand the laws, especially the Supreme Law.

In the history of Ji'an sea area, there has never been a monk who understood the supreme law.

Although Zhang Yuhe is very confident in his own understanding.

But he also knew that without spending some time, he should not try to understand the law of power.

...

Time passes slowly.

Zhang Yuhe sat cross-legged on the training platform for three hundred years.

In these three hundred years, he has never taken a step outside the cave.

During this period, Xie Mingyuan summoned him many times and invited him to attend the party together.

Zhang Yuhe refused directly.

Because he felt that he was at a critical stage, and once he stopped, all his previous efforts would be in vain.

At this time, two bright light spots flickered on the golden Nascent Soul in the dantian.

In one of the light spots, a seedling broke out of the ground and was growing slowly.

When the seedlings grew to about an inch tall, Zhang Yuhe slowly opened his eyes and murmured to himself.

"It finally worked."

Looking at the seedlings in the Nascent Soul Aperture, he couldn't help but show joy.

The one-inch-high Law Tree is the symbol of entry into the Law.

After three hundred years of hard work, he finally understood the law of power.

Although he had been mentally prepared and knew the Supreme Law, it was not easy for him to understand and get started.

But it still surprised me that it took three hundred years.

Originally, Zhang Yuhe thought that with his incredible understanding, he could master a rule in no less than a minute.

It will probably take a few years, but it will be almost done.

However, the reality was completely beyond his surprise.

"It seems that one's understanding is incredible and cannot be omnipotent."

Zhang Yuhe muttered silently to himself.

This made him hesitate whether to continue to understand the second law.

For him, among the nine supreme laws, the law of power should be the easiest to understand.

Despite this, it took him a full three hundred years to barely get started.

If you want to understand the law of time, it may take thousands of years.

"Go ahead."

Zhang Yuhe only hesitated for a short while and quickly made a decision.

The law is an extension of the monk's strength.

And this is even more true for the Supreme Law.

Even if you are just getting started with the Supreme Law, you can still achieve cross-level challenges.

Zhang Yuhe roughly estimated his own strength. He would definitely not be able to defeat the Golden Golden Immortal monk.

But in the realm of true immortals, he should be basically invincible.

If you understand the law of time, beating an ordinary true immortal monk to death would probably be as easy as chopping vegetables.

In this case, what reason does he have not to continue.

Others need to sit for tens of thousands of years in order to understand a common law, and they may not be able to succeed.

What does his thousands of years count for?

Continue liver.

...

Chapter 146 Interception

Zhang Yuhe was so immersed in the understanding of the law that he was completely unaware of the changes in the outside world.

this day.

Xie Mingyuan stood outside the house and frowned slightly when he saw the door was closed.

Since arriving in Ji'anfang City, Junior Brother Zhang has just ascended.

Apart from attending a party with him, I never went out again.

In the first few hundred years, every time he sent a summons, Zhang Yuhe would occasionally reply.

However, in the past more than a thousand years, he has sent messages to Zhang Yuhe many times, but all of them were like nothing.

quietly.

He even doubted whether something happened to Zhang Yuhe.

Thinking of this, Xie Mingyuan turned his right hand, and a jade talisman full of fairy energy appeared in his hand.

Mother-child induction talisman.

This is a special kind of immortal talisman, which comes in pairs.

As long as one of the jade talismans is crushed, the other jade talisman will also be broken at the same time.

Even if you are trapped in some secret realm, the mother-child induction talisman is still effective.

When he first came to Ji'anfang City, he gave another jade talisman to Zhang Yuhe.

Let it crush the jade talisman immediately when it encounters danger.

That way he could receive the message and rush over quickly to provide support.

However, the jade talisman in his hand is still intact and no different.

This shows that Zhang Yuhe is not in danger.

He also asked other people and found out that Zhang Yuhe did not go out.

"Maybe Junior Brother Zhang has just reached a critical juncture in his cultivation."

Xie Mingyuan guessed silently.

It is not strange for monks to stay in seclusion for thousands of years.

Even staying in seclusion for tens of thousands of years is common.

But right now, he happened to have something to do and needed to find Zhang Yuhe.

Recently, he has to escort a batch of supplies back to the sect.

I originally wanted to call Zhang Yuhe so that they could take care of him together.

But now I can't contact them, so I can only give up.

Thinking of this, Xie Mingyuan turned into a stream of light and left.

...

Two days later.

Xie Mingyuan drove the flying boat out of the market and flew quickly into the distance.

While controlling the flying boat, he vigilantly checked the situation around him.

In the past few hundred years, the actions of the Ouyang family and the Qian family have become more and more large.

Not only do they often intercept the lone immortals of the Daosheng Sect.

They even attacked the islands under the jurisdiction of the Daosheng Sect.

In the end, it was the sect master Lian Zhengyu who personally took action to repel the other party.

The hostile attitude of these two forces towards the Daosheng Sect has become increasingly clear.

Maybe one day, they will launch a large-scale invasion.

For this reason, Lian Zhengyu ordered the entire sect to shrink its defense line.

Abandon some unimportant islands on the periphery and only defend those key points with rich resources.

At the same time, the Daosheng Sect began to actively prepare for war and purchase a large amount of war supplies.

This time Xie Mingyuan returned to the sect to escort a batch of important supplies back.

Daosheng Sect was short of manpower in Ji'an Market, and Patriarch Song Heguang was away.

And Zhang Yuhe was at a critical juncture of cultivation.

Xie Mingyuan couldn't find a reliable helper for a while.

Then he had to escort the supplies back to the sect alone.
