Chapter 148 Total Annihilation

Facing the Ouyang family, more than a dozen True Immortal cultivators kept attacking, and Xie Mingyuan quickly moved and dodged, exhausted.

Other people were fine, not a big threat to him.

Xie Mingyuan could easily resolve it by using magical powers or offering immortal weapons.

But Ouyang Lishan was too fierce.

Facing Ouyang Lishan's attack, Xie Mingyuan had to respond with laws every time.

It was just that the frequent use of the power of laws consumed him greatly.

Fortunately, the opponent was afraid of his penetrating laws and did not dare to press too hard.

Occasionally, Xie Mingyuan would seize the opportunity and launch a counterattack.

Even if there was no additional law attack.

Those True Immortal cultivators in the middle and early stages of the Ouyang family still did not dare to take it head-on.

They had to quickly avoid it and use magical powers or immortal weapons to intercept.

To prevent Xie Mingyuan from breaking through and running away.

In the eyes of these True Immortals of the Ouyang family.

They didn't need to fight desperately.

As long as they kept consuming, they could consume Xie Mingyuan to death.

In this case, they naturally have to be more cautious.

Ouyang Lishan is the same.

He stood in the distance, constantly displaying his magical powers and sacrificing his magic weapon to attack Xie Mingyuan.

He did not dare to get too close.

In terms of strength, he is much stronger than Xie Mingyuan.

But Xie Mingyuan comprehended a special law, and his power is not comparable to ordinary laws.

Once he was hit, he would not feel good.

He has the hope of becoming a golden immortal and has a bright future.

Ouyang Lishan naturally did not have the courage to fight to the death with Xie Mingyuan.

The battle soon fell into a stalemate.

At this time, Xie Mingyuan was very anxious.

He launched a counterattack several times, trying to open a gap and rush out.

However, under the opponent's strict defense, plus the existence of the trap array.

He had no chance at all.

The people of the Ouyang family have a clear goal.

That is to keep Xie Mingyuan completely.

Not only that, they don't even want to pay any losses.

Anyway, there is a trap array, and they are not afraid that Xie Mingyuan will run away.

So they are not in a hurry at all.

Planning to slowly wear Xie Mingyuan to death.

At this moment, a breath of the fusion realm flew quickly from a distance.

Ouyang Lishan frowned slightly.

They surrounded and killed Xie Mingyuan here, but they didn't want to be discovered by others.

Some things can be done quietly, but they can't be put on the surface.

Once it is put on the surface, many things will be difficult to deal with.

At least in terms of morality, it will not sound good to say it out.

Just like they often sneak attack the Taoist sect and the lone True Immortal cultivators.

They have always done it secretly.

After all, the two sides have not officially started a war.

The Taoist sect knew that they did it, but there was no evidence, so they could do nothing.

Soon, the figure of the fusion realm appeared not far from the blue light curtain.

It seemed that he was curious and was investigating this side.

"Looking for death."

Ouyang Lishan couldn't help but get angry.

Normally, low-level cultivators should run far away when they see high-level cultivators fighting.

To avoid being affected.

This fusion realm cultivator actually dared to approach and watch the battle.

Ouyang Lishan slapped out with his palm.

The palm shadow passed through the blue light curtain and instantly slapped the fusion cultivator.

However, a strange scene appeared.

After the fusion cultivator was slapped into ashes, his Nascent Soul did not fly out.

Instead, it turned into a little bit of spiritual light and disappeared without a trace.

"Oh no, this is an incarnation."

Seeing this, Ouyang Lishan couldn't help but scream in surprise.

The incarnation just now was too magical, just like a real person.

He couldn't see it.

The one-armed immortal Ouyang Lihe looked at the direction where the incarnation disappeared, thinking.

He always felt that the incarnation seemed a little familiar.

After a long while, he suddenly shouted.

"We have to quickly deal with Xie Mingyuan. The incarnation just now was a true immortal of the Daosheng Sect. The other party must be nearby."

Ouyang Lihe finally remembered why he felt that the incarnation was so familiar.

Because he had seen Zhang Yuhe before.

The incarnation looked exactly like Zhang Yuhe.

Hearing his words, Ouyang Lishan immediately shouted to everyone.

"Quick battle, don't delay any longer."

After saying that, he turned his wrist.

A broken pagoda appeared in his hand.

The broken middle-grade immortal weapon, Zhenshi Linglong Pagoda.

He didn't have a complete middle-grade immortal weapon.

Even if he had one, he couldn't activate it.

Although the power of the broken middle-grade immortal weapon was greatly reduced.

But it was still much stronger than the lower-grade immortal weapon.

The most important thing was that he could activate part of the power of the broken middle-grade immortal weapon.

Ouyang Lishan threw the Zhenshi Linglong Pagoda.

As the immortal energy was injected, a huge pagoda shadow instantly enveloped Xie Mingyuan.

He was imprisoned in place and could not move.

Seeing this situation.

Xie Mingyuan slapped his palm upwards.

The palm shadow, with an inexplicable aura, quickly dispersed the pagoda shadow.

Taking this opportunity, he quickly dodged and dodged the opponent's attack.

Just because he activated the power of the law again.

At this time, Xie Mingyuan's face was already pale.

...

Through the information sent by the incarnation, Zhang Yuhe finally determined Xie Mingyuan's location.

What made him feel relieved was.

Although Xie Mingyuan was surrounded, he seemed to be fine for the time being.

As long as he could rush over quickly, he should be able to save him.

Thinking of this.

Zhang Yuhe quickly changed direction and flew towards the scene of the incident.

As Ouyang Lishan and others increased their attack power, Xie Mingyuan showed signs of exhaustion.

Frequent use of the power of the law, the immortal energy in his dantian was almost exhausted.

However, Xie Mingyuan still gritted his teeth and persisted.

Because he saw the hope of escaping.
