### Section 164

Then he will be in big trouble.

Once others know that he wiped out more than ten True Immortal cultivators of the Ouyang family in an instant with his own strength.

Then he will definitely be put under the spotlight and studied carefully.

In the future, I am afraid that he will not be able to hide.

If the Ouyang family makes a move again, they will definitely send out Golden Immortal cultivators to deal with him.

This is not the result he wants.

Hearing this, Xie Mingyuan looked at Zhang Yuhe meaningfully.

This junior brother is really hiding.

But it's good this way.

Only those who can hide can live long.

Arrogant guys, no matter how strong they are, are often easily beaten to death.

He glanced at Zhang Yuhe and said slowly.

"Junior brother, please rest assured, I know what to say."

After Xie Mingyuan finished speaking, he returned to the cave.

Zhang Yuhe looked at his figure, and then flew towards his own house.

...

Tianchen Island, the residence of the Ouyang family.

A middle-aged man with a stern face shouted.

"What did you say, Lishan's soul lamp went out?"

"Impossible, Lishan is a True Immortal Great Perfection. If the Golden Immortal does not come out, who can kill him?"

Under the hall, a blue-clothed cultivator answered tremblingly.

"Reporting to the master, the soul lamp of Master Lishan has indeed gone out."

"Not only that, the soul lamp of Master Lihe also went out at the same time."

"In addition, the soul lamps of more than ten True Immortal ancestors also went out at almost the same time."

Bang...

Ouyang Tianchen slapped the table next to him angrily.

This table made of high-quality fairy nanmu was smashed to pieces by him in an instant.

Ouyang Tianchen flew up and quickly came to the Changsheng Hall where the soul lamps were placed.

He quickly found the location of the soul lamps of Ouyang Lishan and others.

I saw that on the wall, more than ten soul lamps were dim and had been extinguished long ago.

Among them are the soul lamps of Ouyang Lishan and Ouyang Lihe.

Seeing this situation, Ouyang Tianchen's face was terribly cold.

Ouyang Lishan and Ouyang Lihe are the key training targets of their family.

Especially Ouyang Lishan, who had cultivated to the great perfection of the True Immortal 20,000 years ago.

The family is collecting spiritual medicines for him to help break through the Golden Immortal and means to deal with the Golden Immortal's heavenly tribulation.

As long as these two things are ready, Ouyang Lishan's breakthrough to the Golden Immortal Realm is almost a sure thing.

However, such a family genius just died inexplicably.

How could he not be angry.

At this time, a white-haired old man walked into the hall and whispered to Ouyang Tianchen.

"Master."

Ouyang Tianchen turned around and looked at the person who came and asked.

"Tianwu, Lishan and Lihe are dead. Do you know what they are doing recently?"

Although Ouyang Tianchen is the master of the family, he usually doesn't care about things.

Most of his time, he either practices in seclusion or goes out to look for opportunities.

As the head of the family, strength is the foundation.

As for the management of family affairs, most of them are handled by Ouyang Tianwu.

Hearing the head of the family ask.

Ouyang Tianwu nodded first, then slowly said.

"As early as half a year ago, we received news that Xie Mingyuan of Daosheng Sect would return to the sect with a large amount of supplies."

"For this reason, Lishan led more than ten True Immortal cultivators to intercept."

"Lishan was not involved in this matter originally. I think it should be a coincidence that he happened to be nearby."

Ouyang Tianchen stood in the hall, silent.

After a long time, he asked.

"Who do you think killed Lishan and Lihe? Was it that Xie Mingyuan?"

"Impossible."

Ouyang Tianwu denied Ouyang Tianchen's guess without even thinking about it.

"Xie Mingyuan is only a late-stage True Immortal. Even if he has a trump card, he doesn't have the ability to kill Lishan and Lihe at the same time."

"Not to mention, there are more than ten True Immortals nearby."

"To be able to kill so many True Immortals at the same time, there must be a Golden Immortal Realm cultivator."

"Golden Immortal? Who could it be?"

Ouyang Tianchen muttered to himself.

...

## Chapter 150 Thick Fog

Thinking that it was a Golden Immortal cultivator who took action, Ouyang Tianchen felt a little confused.

There are a number of Golden Immortal cultivators in the Ji'an Sea.

In the entire sea.

There are no more than fifty Golden Immortal cultivators in the open.

Even if there are some hidden, it is estimated that there will not be too many.

As for the Golden Immortal cultivators of the Daosheng Sect, there are only Lian Zhengyu and Song Heguang.

Among them, Lian Zhengyu sits in the sect and almost never goes out.

As for Song Heguang, who guards the market, he went to the Tiangong Sea two thousand years ago and has not returned yet.

If Song Heguang was still in the market, Ouyang Lihe and others would not choose to take action.

They were not so stupid that they would intercept the disciples of Daosheng Sect under the eyes of the Golden Immortal cultivators.

Then the question came.

If it was not the Golden Immortal cultivators in Daosheng Sect, who would kill Ouyang Lishan and Ouyang Lihe?

Ouyang Tianchen felt as if there was a fog covering him, making him unable to see the truth of the matter.

Standing in the hall, he pondered quietly for a long time before asking Ouyang Tianwu next to him.

"Tianwu, what do you think about this matter?"

So many True Immortals fell at once, so naturally the matter could not be let go.

But the question is, they need to know who did it?

At present, they are preparing to attack Daosheng Sect in conjunction with the Qian family.

Now a new enemy suddenly appeared, which made him hesitate.

If they don't figure out the matter, how dare they easily attack Daosheng Sect?

What if someone robs their home while they are fighting for their lives? Wouldn't that be a joke?

He had to figure out whether this suddenly appeared golden immortal was a lone ranger or from other forces.

If it was from other forces.

For example, it was the golden immortal of Jiuxianmen.

Then things would be difficult to handle.

That means that this matter may be a warning from Jiuxianmen to them.

Let them not attack Daosheng Sect again.

But is this really the case?

Ouyang Tianchen did not draw a conclusion easily.

Ouyang Tianwu, who was standing next to him, naturally understood what the head of the family meant.

It was just that the matter happened suddenly, and he couldn't guess the key.

After thinking for a while, he slowly said.

"There are many possibilities."

"The first possibility is that the Daosheng Sect may have hidden Golden Immortals, and it was their hidden Golden Immortals who took action this time."

"The second possibility is that Golden Immortals from other seas happened to pass by the scene and intervened."

"The last possibility is that other forces in the Ji'an sea area have intervened in this matter."
