Section 165

"As for whether it is the Nine Immortal Sect or the Ten Thousand Beast Sect, it is hard to say."

"Even the Qian family is possible."

After listening to Ouyang Tianwu's analysis.

Ouyang Tianchen slowly sat down on the chair, tapping the table lightly with his fingers.

He had to admit that Ouyang Tianwu's analysis made sense.

If it is the first possibility, it is easy to deal with.

The Daosheng Sect originally had only two Golden Immortals, so even if there is one more Golden Immortal, it doesn't matter.

They just took this as an excuse to destroy the Daosheng Sect in one fell swoop.

As for the second possibility, it doesn't matter much.

The Golden Immortal cultivators passing by will not meddle in other people's business every day, and may have left the Ji'an Sea Area long ago.

Even if the other party has not left, or even wants to meddle in other people's business, it doesn't matter.

They are not afraid of one more Golden Immortal cultivator.

The only thing they are afraid of is the third possibility.

If other forces intervene, then things will be difficult to deal with.

And in Ouyang Tianchen's view, this possibility is the greatest.

The reason is very simple.

Other forces do not want the Ouyang family to take advantage of the opportunity to grow stronger after destroying the Daosheng Sect.

As for which force made the move, we can slowly investigate it later.

It is impossible for the Golden Immortal cultivator to make a move without any trace.

As long as they investigate carefully, they will find out sooner or later.

However, before figuring out the matter.

They are indeed not suitable to make a move against the Daosheng Sect again.

This will not only allow others to take advantage, but also make it easier for the Ouyang family to fall into danger.

Thinking of this.

After Ouyang Tianchen stood up immediately, he said to Ouyang Tianwu.

"Immediately activate the hidden agents lurking in other forces and investigate this matter carefully."

"Especially, we must find out the movements of those Golden Immortal cultivators during this period of time."

"In addition, before the matter is clarified, do not make a move against the Daosheng Sect for the time being."

"Yes, Patriarch."

Hearing Ouyang Tianchen's words, Ouyang Tianwu breathed a sigh of relief.

He was afraid that the Patriarch would be irrational and make a move against the Daosheng Sect with hatred.

If he really did that, he would probably fall into someone else's trap.

Now it seems that Ouyang Tianchen's mind is still very clear.

He did not lose his mind because of anger.

...

More than ten True Immortal cultivators died in the Ouyang family at once.

This incident caused a great uproar in the entire Ji'an Sea.

In particular, the death of Ouyang Lishan shocked everyone.

Everyone knew that to be able to kill Ouyang Lishan in a short time.

There must be a Golden Immortal cultivator who took action.

There is no unspoken rule in the fairy world that high-level cultivators cannot attack low-level cultivators.

It can only be said that Ouyang Lishan was unlucky and didn't know which Golden Immortal boss had hit him.

Under the propaganda of some people, the course of events slowly surfaced.

Ouyang Lishan and Ouyang Lihe led people to intercept Xie Mingyuan who was returning to the sect.

As a result, Xie Mingyuan returned to the market, while Ouyang Lishan and others all died.

After the news spread, Xie Mingyuan was in a huge vortex.

Everyone focused their attention on him.

Everyone was curious about which Golden Immortal cultivator was helping Xie Mingyuan.

Or, the whole thing was a trap.

Xie Mingyuan spread the news and returned to the sect to lure Ouyang Lishan and others to take action.

Then a Golden Immortal cultivator was hidden next to him and killed Ouyang Lishan and others in one fell swoop.

It was a very simple, but very effective trap.

As for which Golden Immortal took action, perhaps only Xie Mingyuan knew.

Everyone couldn't help but sigh.

Xie Mingyuan is a ruthless person.

He used himself as bait to kill two core disciples of the Ouyang family in one fell swoop.

In addition, more than ten true immortals were killed.

Such a ruthless person has not appeared in the Ji'an Sea for a long time.

Everyone wanted to find Xie Mingyuan and inquire about some situations.

It's a pity that since returning to the market, Xie Mingyuan has stayed in the cave and never left the house again.

Even if everyone was curious, they had no way of knowing the answer.

It was just that when everyone passed by Xie Mingyuan's cave, they would secretly take a look inside.

The Ouyang family even sent a golden immortal cultivator to watch outside the cave for a long time.

As long as Xie Mingyuan dared to walk out of the market, he would be captured in one fell swoop.

They thought that as long as Xie Mingyuan was captured, the course of events would be very clear.

However, they were destined to be disappointed.

Xie Mingyuan had no intention of coming out at all.

Not to mention walking out of the market, he didn't even take a step out of the door of the cave.

Xie Mingyuan certainly understood that he was in a vortex, and going out now would be seeking death.

Because he was the one who spread the news.

In order to cover up Zhang Yuhe, he deliberately spread the news.

Let everyone think that he had joined forces with a golden immortal cultivator to cheat the Ouyang family.

In this way, no one would associate the matter with Zhang Yuhe.

Xie Mingyuan was very optimistic about this junior brother who had just ascended to the fairyland.

He believed that as long as Zhang Yuhe was given enough time, he would definitely grow into a great evil.

At that time, what would the small Ouyang family mean?

All he did was to buy time for Zhang Yuhe.

...

Chapter 151: The Ten Thousand Spirits Map, Ginseng Spirit Zhang Shen

After sending Xie Mingyuan back, Zhang Yuhe immediately returned to his own house.

As for the follow-up, he didn't want to pay attention to it for the time being.

Anyway, he didn't plan to leave the market recently.

Even if the Ouyang family attacked the gate of Daosheng Sect, he didn't plan to go back.

There are tall people to support the sky when it falls.

Now he can only show off his power in front of the True Immortal.

Once he encounters a Golden Immortal boss, he can't even run away without the blessing of the Hunyuan Guiyi magical power.

So, it's better to hide well first.

Zhang Yuhe walked into the cave and closed the door.

He waved his right hand, and more than ten kinds of storage devices appeared in front of him.

In the previous wave, more than ten True Immortal cultivators were killed by the Ouyang family.

And there is also Ouyang Lishan, a True Immortal Great Perfection.

There should be some good things.

Looking at the storage devices in front of him, Zhang Yuhe immediately started the happy blind box opening activity.

As the storage devices were opened one by one.

After a while, he sorted out the various items.

Among them, there are nearly thirty low-grade immortal artifacts and more than five million immortal spirit stones.

In addition, there are a small number of first-grade immortal spirit medicines and spiritual materials.

There are also some chaos beast crystal cores, but they are all one-star crystal cores.

There is not even a two-star crystal core.
